## Objective and investment strategy

The Sub-Fund seeks to achieve a mix of income and capital growth by investing essentially in investment grade government or corporate debt securities over a medium term period.

The Share Class aims at hedging the foreign exchange risk resulting from the divergence between the reference currency of the Sub-Fund and the currency of this Share Class by using derivatives instruments whilst retaining the exposure to Investment Policy described above.

## Performance Indicator

100% Bloomberg Barclays Global Aggregate OECD Currency Hedged USD from 01/12/18

The Fund doesn't have a benchmark. The performance indicator is provided for comparison purposes only.

## Risk characteristics

**Recommended Investment Time Horizon :** This Sub-Fund may not be suitable for investors who plan to withdraw their contribution within 3 years.

Lower risk ← Potentially lower reward      Higher risk → Potentially higher reward

1	2	3	4	5	6	7
---	---	---	---	---	---	---

The risk category is calculated using historical performance data and may not be a reliable indicator of the Sub-Fund's future risk profile.

The risk category shown is not guaranteed and may shift over time. The lowest category does not mean risk free.

### Why is this Sub-Fund in this category?

The capital of the Sub-Fund is not guaranteed. The Sub-Fund is invested in financial markets and uses techniques and instruments which are subject to some levels of variation, which may result in gains or losses.

### Significant risks not taken account by the risk indicator

**Credit Risk:** Risk that issuers of debt securities held in the Sub-Fund may default on their obligations or have their credit rating downgraded, resulting in a decrease in the Net Asset Value. **Liquidity Risk:** risk of low liquidity level in certain market conditions that might lead the Sub-Fund to face difficulties valuing, purchasing or selling all/part of its assets and resulting in potential impact on its net asset value. **Counterparty Risk:** Risk of bankruptcy, insolvency, or payment or delivery failure of any of the Sub-Fund's counterparties, leading to a payment or delivery default. Impact of any techniques such as derivatives: Certain management strategies involve specific risks, such as liquidity risk, credit risk, counterparty risk, legal risk, valuation risk, operational risk and risks related to the underlying assets. The use of such strategies may also involve leverage, which may increase the effect of market movements on the Sub-Fund and may result in significant risk of losses.

## Disclaimers

Performance calculations are net of management or distribution fees.

Risk Ratios are calculated from gross performances. The ratings shown are those applicable at the time of publication of the document and not at the portfolio closing date. A change in rating between these two dates could therefore suggest that the rating conditions of the portfolio have not been complied with, even though the securities concerned could have been sold in the interim. If you have any questions on this subject, please contact your usual sales representative.

In the case where the currency of investment is different from the Fund's reference currency the gains are capable of varying considerably due to the fluctuations of the exchange rate.
