Manager commentary

In February, the macro environment remained benign, allowing investors to continue to be indifferent to the tense geopolitical situation. A very solid US labor market and at the same time softer but stronger than expected inflation prints have shown us that inflation remains a hot topic for investors and a key driver of market volatility across all assets. Market participants have scaled back their expectations of interest rate cuts and are now more aligned with the central bank's dot plots. As a result, index real yields on all benchmark countries rose, while the 10-year BTP-Bund spread continues to tighten and closed at 143 basis points, lowest level for the first time since April 2022.

In terms of positioning, we closed the short breakeven trade in the UK, further increased exposure to Italy and positioned for a curve steeper 2-10 year in the US. The portfolio's performance was negative and in line with its benchmark.

ESG investment strategies integrate environmental, social and governance (ESG) factors into the investment process. Investors should note the Investment Manager's assessment of ESG characteristics may change over time and the ESG conclusions of the Investment Manager might not reflect the ESG views of investors. There is no guarantee that a company meets the expectations in relation to ESG. LGT CP integrates an assessment of Sustainability Risks into its investment processes. The results of this assessment and the potential impact on returns may vary. LGT CP or the appointed manager may rely on third-party ESG data or research providers to produce any ESG-related analysis. Such data or research may be imprecise, incorrect or unavailable and the resulting analysis may be impacted. It is considered that the policies adopted to assess and mitigate Sustainability Risks may mitigate such risks to the fund. This Fund is aligned with Article 8 of (EU) 2019/2088, but does not have carbon reductions as its objective. It does not attain its portion of sustainable investment, if applicable, in the manner prescribed in Article 9(3) of such regulation. Investors should note that, relative to the expectations of the Autorité des Marchés Financiers, this fund presents disproportionate communication on the consideration of non-financial criteria in its investment policy. Further, it is considered that the name of this fund is disproportionate to the AMF's consideration of non-financial criteria. The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.
