INVESTMENT UNIVERSE

The fund invests at least 80% of gross assets in equities and other equity instruments of companies based in European Union member states that form part of the European Monetary Union (EMU) or that carry the greater part of their activity in EU countries participating in the EMU. The remaining 20% may be invested in cash and cash equivalents. The investment policy is based on the principles of Behavioural Finance, an academic field which analyses financial markets with the aid of psychology. The fund will maintain a wide spread of risks, in particular by means of wide diversification of economic sectors. The fund may, on an optional basis, use derivatives to achieve its goals or for hedging. This is an actively managed fund. The benchmark is used to compare performance. The selection and weighting of the assets in the fund's portfolio may differ significantly from the composition of the benchmark.

RISKS

The risk indicator assumes that you will hold the product for at least 5 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less.

Investing in this product also entails risks that are materially relevant but not included in the risk indicator:

- Concentration risk: As the portfolio is mainly composed of equities issued by companies in the Eurozone, it is likely to be more specifically exposed to economic developments in the Eurozone.
- Sustainability risk: Environmental and/or social aspects are not systematically part of the sub-fund's investment selection process. As a result, the sub-fund may have greater exposure to companies that have a negative sustainability impact.

This product does not include any protection from future market performance so you could lose some or all of your investment.

We refer to the prospectus and KID for more explanation and a complete overview of the risks.
