--------------------------	------	------

INVESTMENT UNIVERSE

The fund invests mainly in equities (and other analogous transferable securities) of Japanese companies, warrants, convertible bonds, subscription rights and, on an ancillary basis, cash and cash equivalents. The fund may, on an optional basis, use derivatives to achieve its goals or for hedging. This is a passively managed fund, which means that the portfolio manager aims to replicate the performance of a benchmark.

RISKS

The risk indicator assumes that you will hold the product for at least 6 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less.

Investing in this product also entails risks that are materially relevant but not included in the risk indicator:

- Concentration risk: As the portfolio is mainly composed of Japanese securities, it is likely to be more specifically exposed to the economic development of Europe.
- Sustainability risk: The sub-fund's main objective is to track the performance of its index. As a result, the sub-fund may have greater exposure to companies that have a negative sustainability impact.

This product does not include any protection from future market performance so you could lose some or all of your investment.

We refer to the prospectus and KID for more explanation and a complete overview of the risks.
