

UBS (Lux) Money Market Sicav

Investment Company under Luxembourg law
(the "Company")

April 2011

Sales prospectus

Shares in the Company may be acquired on the basis of this sales prospectus, the simplified prospectuses - provided the latter have not yet been replaced by the Key Investor Information (the "KII") - the latest annual report and, if already published, the subsequent semi-annual report.

Only the information contained in the sales prospectus and in one of the documents referred to in the simplified prospectus shall be deemed to be valid.

Information on whether a Subfund of the Company is listed on the Luxembourg Stock Exchange can be obtained from the Administrative Agent or the Luxembourg Stock Exchange website (www.bourse.lu).

The issue and redemption of shares in the Company are subject to the regulations prevailing in the country concerned. The Company keeps all investor information confidential, unless otherwise required by statutory or regulatory provisions.

Shares of this Company may not be offered, sold or delivered within the United States.

Shares in this Company may not be offered, sold or delivered to citizens of the USA or persons resident in the USA and/or other natural or legal persons whose income and/or returns, regardless of origin, are subject to US income tax, as well as persons who are considered to be US persons pursuant to Regulation S of the US Securities Act of 1933 and/or the US Commodity Exchange Act, each as amended.

Applicability of the provisions of this sales prospectus

Effective 1 July 2011, the Company will be subject to the provisions of the Law of 17 December 2010 on Undertakings for Collective Investment, as amended (the "Law of 2010").

Until 30 June 2011, all references to the Law of 2010 in this sales prospectus shall be read as references to the corresponding article of the amended Law of 20 December 2002 on Undertakings for Collective Investment (the "Law of 2002").

As part of making the Company subject to the Law of 2010, the simplified prospectuses of the Subfunds are being replaced by the KII during a transition period. Until the simplified prospectuses have been replaced by the KII, all references to the KII in this sales prospectus are to be read as references to the simplified prospectuses. If in one of the Company's sales countries, the simplified prospectuses or corresponding documents continue to be required, the references to the KII are also to be read as references to the simplified prospectuses.

Management and administration

Registered office

33A avenue J.F. Kennedy, B.P. 91, L-2010 Luxembourg

Board of Directors of the Company

Chairman	Thomas Rose, Managing Director, UBS AG, Basel and Zürich
Members	Michael Kehl, Executive Director, UBS AG, Basel and Zürich Gilbert Schintgen, Managing Director, UBS Fund Management (Luxembourg) S.A., Luxembourg Aloyse Hemmen, Executive Director, UBS Fund Services (Luxembourg) S.A., Luxembourg

Management Company

UBS Fund Management (Luxembourg) S.A., R.C.S. Luxembourg 154.210 (the "Management Company").

The Management Company was established as a public-limited company in Luxembourg for an unlimited duration on 1 July 2010. Its registered office is located at 33A avenue J.F. Kennedy, L-1855 Luxembourg.

The articles of incorporation of the Management Company were published by way of a notice of deposit in the "Mémorial, Recueil des Sociétés et Associations" (the "Mémorial") on 16 August 2010.

The consolidated version of the articles of incorporation is held by the Commercial and Company Register (Registre de Commerce et des Sociétés) in Luxembourg for inspection. One of the purposes of the Management Company is to manage undertakings for collective investment under Luxembourg law and to issue/redeem units

in these products. At the date of this version of the sales prospectus, it manages the following investment funds in the form of Fonds Commun de Placement ("FCP"): Focused Fund, UBS (Lux) Bond Fund, UBS (Lux) Emerging Economies Fund, UBS (Lux) Equity Fund, UBS (Lux) Institutional Fund, UBS (Lux) Islamic Fund, UBS (Lux) Medium Term Bond Fund, UBS (Lux) Money Market Fund, UBS (Lux) Money Market Invest, UBS (Lux) Strategy Fund, UBS Sector Portfolio. The Management Company has fully paid-up equity capital of EUR 10,000,000.

Management of the Management Company

Members	Gilbert Schintgen, Managing Director, UBS Fund Management (Luxembourg) S.A., Luxembourg Christel Müller, Executive Director, UBS Fund Management (Luxembourg) S.A., Luxembourg
---------	---

Portfolio Manager

UBS AG, UBS Global Asset Management, Basel and Zürich.

The Portfolio Manager is commissioned to carry out the administration of the securities portfolio under the supervision and responsibility of the Management Company, and carries out all relevant transactions while adhering to the prescribed investment restrictions. The Portfolio Management units of UBS Global Asset Management may transfer their mandates, fully or partially, to associated Portfolio Managers within UBS Global Asset Management. However, responsibility in each case remains with the aforementioned Portfolio Manager assigned by the Company.

Merging assets

The Company may permit internal merging and/or joint management of assets from particular Subfunds in the interests of efficiency. In this case, assets from different Subfunds will be managed together. The assets under joint management are referred to as a "Pool"; pools are used exclusively for internal management purposes. Pools are not separate units and cannot be accessed directly by shareholders.

Pooling

The Company may invest and manage all or part of the portfolio assets of two or more Subfunds (for this purpose called "participating Subfunds") in the form of a pool. Such an asset pool is created by transferring cash and other assets (if these assets are in line with the investment policy of the pool concerned) from each participating Subfund to the asset pool. The Company can then make further transfers to the individual asset pools. Equally, assets up to the amount of its participation can also be transferred back to a participating Subfund.

The share of a participating Subfund in the respective asset pool is evaluated by reference to notional units of the same value. When an asset pool is created, the Company shall specify the initial value of the notional units (in a currency that the Company considers appropriate) and allot to each participating Subfund notional units in the total value of the cash (or other assets) it has contributed. The value of the notional units will then be determined by dividing the net assets of the asset pool by the number of existing notional units.

If additional cash or assets are contributed to or withdrawn from an asset pool, the notional units assigned to the participating Subfund concerned increase or diminish by a number, which is determined by dividing the contributed or withdrawn cash amount or assets by the current value of the holding of the participating Subfund in the pool. If cash is contributed to the asset pool, for calculation purposes it is reduced by an amount that the Company considers appropriate in order to take account of any tax expenses as well as the closing charges and acquisition costs relating to the investment of the cash concerned. If cash is withdrawn, a corresponding deduction may be made in order to take account of any costs related to the disposal of securities or other assets of the asset pool.

Dividends, interest and other income-like distributions, which are obtained from the assets of an asset pool, are allocated to the asset pool concerned and thus lead to an increase in the respective net assets. If the Company is liquidated, the assets of an asset pool are allocated to the participating Subfund in proportion to their respective share in the asset pool.

Joint management

To reduce operating and management costs and at the same time to permit broader diversification of investments, the Company may decide to manage part or all of the assets of one or more Subfunds in combination with assets that belong to other Subfunds or to other undertakings for collective investment. In the following paragraphs, the term "jointly managed units" refers to the Company and each of its Subfunds and all units with or between which a joint management agreement would exist; the term "jointly managed assets" refers to the entire assets of these jointly managed units which are managed according to the aforementioned agreement.

As part of the joint management agreement, the respective Portfolio Manager is entitled to make decisions on investments and sales of assets on a consolidated basis for the relevant jointly managed units which have an influence on the composition of the portfolio of the Company and of its Subfunds. Each jointly managed unit holds a share in the jointly managed assets which is oriented to the share of its net assets in the aggregate value of the jointly managed assets. This proportionate holding (for this purpose referred to as "participation arrangement") applies to all investment categories which are held or acquired in the context of joint management. Decisions regarding investments and/or sales of investments have no effect on this participation arrangement, and further investments are allotted to the jointly

managed units in the same proportions. In the event of a sale of assets, these will be subtracted proportionately from the jointly managed assets held by the individual jointly managed units.

In the case of new subscriptions for one of the jointly managed units, the subscription proceeds are to be allocated to the jointly managed units in accordance with the changed participation arrangement resulting from the increase in net assets of the jointly managed unit having benefited from the subscriptions. The level of the investments will be modified by the transfer of assets from the one jointly managed unit to the other, and thus adapted to suit the altered participation arrangement. Similarly, in the case of redemptions for one of the jointly managed units, the necessary liquid funds shall be taken from the liquid funds of the jointly managed units in accordance with the altered participation arrangement resulting from the reduction in net assets of the jointly managed unit which has been the subject of the redemptions, and in this case the particular level of all investments will be adjusted to suit the altered participation arrangement.

Shareholders are alerted to the fact that the joint management agreement may result in the composition of the assets of the particular Subfund being affected by events which concern other jointly managed units, e.g. subscriptions and redemptions, unless the Company or one of the entities commissioned by the Company resort to special measures. If all other aspects remain unchanged, subscriptions received by a unit under joint management with the Subfund will therefore result in an increase in the cash reserve of this Subfund. Conversely, redemptions of a unit under joint management with the Subfund will result in a reduction of the cash reserves of the Subfund. However, subscriptions and redemptions can be executed on the special account that is opened for each jointly managed unit outside the agreement and through which subscriptions and redemptions must pass. Because of the possibility of posting extensive subscriptions and redemptions to these special accounts, and the possibility that the Company or the entities commissioned by it may decide at any time to terminate the participation of the Subfund in the joint management agreement, the Subfund concerned may avoid having to rearrange its portfolio if this could adversely affect the interests of the Company, its Subfunds and its shareholders.

If a change in the portfolio composition of the Company or of one or more of its Subfunds as a result of redemptions or payments of fees and expenses referring to another jointly managed unit (i.e. which cannot be counted as belonging to the Company or to the Subfund in question) might result in a violation of the investment restrictions applying to the Company or to the Subfund in question, the relevant assets before implementing the change will be excluded from the agreement so that they are not affected by the resulting adjustments.

Jointly managed assets of Subfunds will only be managed jointly with assets which are to be invested according to the same investment objectives that apply to the jointly managed assets in order to ensure that investment decisions are reconcilable in all respects with the investment policy of the particular Subfund. Jointly managed assets may only be managed in common with assets for which the same Portfolio Manager is authorised to make decisions in investments and the sale of investments, and for which the Custodian Bank also acts as a depository so as to ensure that the Custodian Bank is capable of performing its functions and responsibilities assumed in accordance with the Law of 2010 and the statutory requirements in all respects for the Company and its Subfunds. The Custodian Bank must always keep the assets of the Company separate from those of the other jointly managed units; this allows it to determine the assets of each individual Subfund accurately at any time. Since the investment policy of the jointly managed units does not have to correspond exactly with that of the Subfunds, it is possible that their joint investment policy may be more restrictive than that of the Subfunds.

The Company may decide to terminate the joint management agreement at any time without giving prior notice.

Shareholders may enquire at any time at the Company's registered office as to the percentage of jointly managed assets and units with which there is a joint management agreement at the time of their enquiry.

The composition and percentages of jointly managed assets must be stated in the annual reports.

Joint management agreements with non-Luxembourg units are permissible if (i) the agreement in which the non-Luxembourg unit is involved is governed by Luxembourg law and Luxembourg jurisdiction or (ii) each jointly managed unit is equipped with such rights that no creditor and no insolvency or bankruptcy administrator of the non-Luxembourg unit has access to the assets or is authorised to freeze them.

Custodian Bank and main paying agent

Pursuant to the custodian bank and paying agent agreement entered into with UBS (Luxembourg) S.A., a joint-stock company (société anonyme) with its registered office at 33A, avenue J.F. Kennedy, L-1855 Luxembourg (the "Custodian Bank"), the Company has appointed the Custodian Bank as Custodian Bank and main Paying Agent of the Company.

The Custodian Bank fulfils its obligations and assumes the responsibilities arising from the Law of 2010 and the custodian bank agreement (the "**Custodian Bank Agreement**"), as amended. Pursuant to the Law and the custodian bank agreement, the Custodian Bank is responsible for (i) general supervision of all Fund assets of the Company and (ii) the safekeeping of the assets of the Company entrusted to the Custodian Bank and held by the Custodian Bank or in its name and (iii) administrative activities in connection with the corresponding obligations.

Administrative Agent

UBS Fund Services (Luxembourg) S.A., 33A avenue J.F. Kennedy, L-1855 Luxembourg, (B.P. 91, L-2010 Luxembourg)

UBS Fund Services (Luxembourg) S.A. as the Administrative Agent is responsible for the general administrative duties involved in managing the Company and prescribed by Luxembourg law. These administrative services mainly include domiciliation, calculating the net asset value of shares and keeping the Company's accounts as well as reporting.

Auditor of the Company

Ernst & Young, 7, rue Gabriel Lippmann - Parc d'Activité Syrdall 2, L-5365 Munsbach.

Paying agents

UBS (Luxembourg) S.A., 33A avenue J.F. Kennedy, L-1855 Luxembourg (B.P. 2, L-2010 Luxembourg) and other paying agents in the various distribution countries.

Sales agencies and Distributors, sales agencies listed in the sales prospectus

UBS AG, Basel and Zürich, and other paying agents in the various distribution countries.

Profile of the typical investor

UBS (Lux) Money Market SICAV – EUR UBS (Lux) Money Market SICAV – USD

The Subfunds are suitable for investors who wish to invest in a broadly diversified portfolio comprising first-class money market instruments and securities with short residual maturities or variable yields and high liquidity.

Historical performance

The historical performance of the individual Subfunds is outlined in the KII or in the corresponding document for the Company's sales countries relating to each Subfund.

Risk profile

Based on their specific investment policy, money market funds offer higher security and less volatile performance compared with other investments. Fund units can be subscribed and redeemed on a daily basis and therefore constitute a liquid asset. Even in the case of money market funds it cannot, however, be guaranteed that the investor will recover the capital invested.

Factors that can trigger fluctuations in the performance of Subfund investments or influence their scale include but are not limited to:

- company-specific changes,
- changes in interest rates,
- changes in exchange rates,
- changes affecting economic factors such as employment, public expenditure and indebtedness, inflation,
- changes in the legal environment,
- changes in investor confidence in certain investment classes (e.g. equities), markets, countries, industries and sectors, and
- changes in the prices of raw materials.

By diversifying investments, the Portfolio Manager seeks to partially reduce the negative impact of these risks on the value of the Subfund.

In the case of Subfunds that are exposed to a specific risk through the nature of their investments, relevant risk information is given in the investment policy of the relevant Subfund.

Total Expense Ratio ("TER")

The TER is the ratio between the total gross expenses of the Company and its average net assets. The TER for each Subfund is set forth in the respective simplified prospectus, provided the latter has not yet been replaced by the KII.

Portfolio turnover ("PTO")

The PTO is calculated on the basis of the financial year by applying the following formula:

$$\begin{aligned} \text{Securities purchased} &= X & \text{Subscriptions for shares of the Subfund} &= X \\ \text{Securities sold} &= Y & \text{Redemptions of shares of the Subfund} &= T \\ \text{Total 1} &= \text{total securities} & \text{Total 2} &= \text{total transactions involving} \\ \text{transactions} &= X+Y & \text{shares of the Subfund} &= S+T \\ & & \text{Average monthly total assets} &= M \\ \text{Turnover} &= [(\text{Total 1} - \text{total 2}) / M] * 100 \end{aligned}$$

The PTO for each Subfund is set forth in the simplified prospectus for each Subfund, provided the simplified prospectus has not yet been replaced by the KII.

Legal aspects

The Company

The Company offers investors various Subfunds ("**umbrella construction**") which invest in accordance with the investment policy described in this sales prospectus. The specific details on each Subfund are defined in this sales prospectus, which will be updated on the inception of each new Subfund.

Name of the Company:	UBS (Lux) Money Market SICAV		
Legal form:	Open-ended investment fund in the legal form of a "Société d'Investissement à Capital Variable" (" SICAV ") established in accordance with Part I of the Law of 2010.		
Date of incorporation:	5 February 2002		
Number in Luxembourg's Commercial and Company Register:	R.C.S. B. 86.004		
Financial year:	1 November until 31 October		
Ordinary general meeting:	Annually on 20 April at 10.00 at the registered office of the Company; should 20 April occur on a day which is not a business day in Luxembourg (i.e. during normal business hours on a day on which banks in Luxembourg are normally open for business), then the general meeting will be held on the next business day.		
Articles of incorporation:			
	Initial publication	21 March 2002	Published in the Mémorial
	Amendments	28 December 2005 17 August 2007 15 November 2010 8 April 2011	15 February 2006 19 September 2007 18 January 2011 to be published in the "Mémorial".
Management Company	UBS Fund Management (Luxembourg) S.A., R.C.S. Luxembourg B 154.210.		

The consolidated version of the articles of incorporation of the Company is held by the Commercial and Company Register (Registre de Commerce et des Sociétés) in

Luxembourg for inspection. Any amendments are published in the Mémorial, in a Luxembourg daily newspaper and, if necessary, in the official publications of the individual distribution countries. Amendments become legally binding in respect of all shareholders subsequent to their approval by the general meeting of shareholders.

The entirety of the individual Subfunds' net assets forms the total net assets of the Company, which corresponds, at all times, to the share capital of the Company and consists of fully paid in and no-par-value shares (the "shares").

At general meetings, shareholders have the right to one vote per share held, irrespective of the difference in value of shares in the respective Subfunds. Shares of a particular Subfund carry the right of one vote per share held when voting at meetings affecting this Subfund.

The Company forms a legal entity. With respect to the shareholders, each Subfund is regarded as being independent from the others. The assets of a Subfund can be used to offset only the liabilities which the Subfund concerned has assumed.

The Company is empowered, at all times, to liquidate existing Subfunds and/or to establish new Subfunds as well as different share classes with specific characteristics within these Subfunds. This sales prospectus will be updated each time a new Subfund or an additional share class is launched.

The Company is unlimited with regard to duration and total assets.

The Company was established under the name UBS (Lux) Short Term SICAV on 5 February 2002 as an open-ended investment fund in the form of a "Société d'Investissement à Capital Variable" (SICAV) pursuant to Part I of the Luxembourg Law of 30 March 1988 on undertakings for collective investment. On 28 December 2005, it was adapted to the provisions of the Law of 2002. As a result of an amendment to the articles of association on 17 August 2007, the name of the Company was changed to "UBS (Lux) Money Market SICAV". As of 1 July 2011, the Company shall be subject to the Law of 2010. With effect from 15 April 2011, the Company has appointed UBS Fund Management (Luxembourg) S.A. as its Management Company.

The following Subfunds and share classes are currently available (explanations are provided in the footnotes below the following tables):

Footnotes

* In the tables above, "not yet known" is used for share classes which have not yet been launched at the time of publication of this sales prospectus and whose launch periods/dates have not yet been determined. Investors are requested to contact their investment adviser for further information.

** Upon subscription,
(i) a minimum subscription must be made pursuant to the table (or the corresponding currency equivalent) or
(ii) must be based on a written agreement of the institutional investor with UBS AG - or with one of its authorised counterparties - for total assets managed by UBS or its portfolio in collective capital investments of UBS must be more than CHF 30,000,000 (or the corresponding currency equivalent).

*** Upon subscription,
(i) a minimum subscription must be made pursuant to the table (or the corresponding currency equivalent) or
(ii) be based on a written agreement of the institutional investor with UBS AG - or with one of its authorised counterparties - for total assets managed by UBS or its portfolio in collective capital investments of UBS must be more than CHF 100,000,000 (or the corresponding currency equivalent).

¹⁾ Plus issuing commission of 4% maximum and any stamp duties and fees.

²⁾ Flat fee of the Company. This will be used for the administration, Custodian Bank, Portfolio Management and sale of the Subfunds and to cover the costs incurred. The amount in brackets reflects the value for the maximum management fee, which makes up 80% of the value of the flat fee.

³⁾ Flat fee of the Company. This will be used for the administration, Custodian Bank, Portfolio Management and sale of the Subfunds and to cover the costs incurred. An additional fee will also be charged; this will be determined via a separate contract between the investor and UBS AG or one of its authorised distribution partners. The amount in brackets reflects the value for the maximum management fee, which makes up 80% of the value of the flat fee.

⁴⁾ Company fee. A fee covering the costs for Fund administration (comprising the costs of the Company, the Administrative Agent, Custodian Bank and Portfolio Management and any other costs incurred) will be charged directly to the Subfund's assets. The costs for asset management and distribution will be charged to investors under a separate contract with UBS AG or one of its authorised counterparties.

⁵⁾ Company fee. Costs in connection with the services to be performed for share classes "I-X" and "U-X" will be settled via the compensation to which UBS AG is entitled under a separate contract with the investor.

⁶⁾ Registered shares must be posted to an account and held in safekeeping at UBS AG.

⁷⁾ The Custodian Bank ensures that the bearer shares are issued to and may be transferred to institutional investors only.

Description of share class types

Not all the types of share class described below have to be offered at all times. The table above lists the share classes currently available. The Company may decide to set up and offer corresponding share classes of these types at an appropriate time. If necessary, for each subsequent adjustment to the sales prospectus, the following description and the tables above in "An overview of the share classes" will be adapted accordingly.

"P"	Shares in classes with "P" in their name are available to all investors. Share class "P" differs from share classes "H" and "K-1" with regard to the level of the flat fee. Only bearer shares are issued.
"N"	Shares in classes with "N" in their name (shares with restrictions on the distribution partners or countries) are issued exclusively through Distributors domiciled in Spain, Italy, Portugal and Germany authorised by UBS AG, as well as, where appropriate, through Distributors in further distribution countries, provided this has been decided by the Company. Only bearer shares are issued.
"H"	Shares in classes with "H" in their name are available to all investors. Share class "H" differs from share classes "P" and "K-1" with regard to the level of the flat fee. Only bearer shares are issued.
"K-1"	Shares in classes with "K-1" in their name are available to all investors. Share class "K-1" differs from share classes "P" and "H" with regard to the level of the flat fee. Only bearer shares are issued.
"K-2"	Shares in classes with "K-2" in their name are exclusively reserved for investors who have concluded a written asset management mandate or a written consulting mandate with UBS AG or one of its authorised counterparties, and who envisage a minimum investment of CHF 10,000,000 or a countervalue corresponding to this amount in the reference currency of the portfolio assigned to the asset management mandate or consulting mandate. Only registered shares are issued.
"F"	Shares in classes with "F" in their name may be issued only to investors who have concluded a written asset management mandate with UBS AG or one of its selected banking subsidiaries. Upon termination of the mandate, investors lose the right to hold shares in the Company. UBS AG or its selected banking subsidiaries may return these shares to the Company at the prevailing net asset value and at no charge. Only registered shares are issued.
"Q"	Shares in classes with "Q" in their name are reserved for professionals of the financial sector who make the following investments: (a) on their own behalf; (b) on behalf of their clients within a discretionary mandate; or (c) on behalf of an undertaking for collective investment in transferable securities (UCITS) managed by a professional of the financial sector, provided that (i) UBS AG has authorised, in writing, said professional to subscribe to the share class; and (ii) in cases (b) and (c), said professional has been duly authorised by the supervisory authority to which he/she is subject to carry out such transactions, and is domiciled in either Austria, Belgium, Bulgaria, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Liechtenstein, Lithuania, Luxembourg, Malta, the Netherlands, Norway, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, Sweden or the United Kingdom and/or is operating on behalf of another professional of the financial sector who has been authorised in writing by UBS AG and is domiciled in one of the above countries. Admission of investors in further distribution countries shall be decided by the Company. Only bearer shares are issued.
"I-18"	Shares in classes with "I-18", "I-15" or "I-12" in their name are exclusively reserved for institutional investors. Only bearer shares are issued.
"I-3.5"	Shares in classes with "I-3.5" in their name are exclusively reserved for institutional investors who have signed a written asset management agreement, a written advisory agreement or an agreement on investing in Subfunds of this Company with UBS AG or one of its authorised counterparties. A fee covering the costs for Fund administration (comprising the costs of the Company, the administration and the Custodian Bank) is charged directly to the Subfund. The costs for asset management and distribution are charged to investors under the aforementioned agreements. Only registered shares are issued.
"I-X"	Shares in classes with "I-X" in their name are exclusively reserved for institutional investors who have signed a written asset management agreement, a written advisory agreement or an agreement on investing in Subfunds of this Company with UBS AG or one of its authorised counterparties. The costs for asset management, Fund administration (comprising the costs of the Company, the administration and the Custodian Bank) and distribution are charged to investors under the aforementioned agreements. Only registered shares are issued.
"U-X"	Shares in classes with "U-X" in their name are exclusively reserved for institutional investors who have signed a written asset management agreement, a written advisory agreement or an agreement on investing in Subfunds of this Company with an investment amount defined in the sales prospectus with UBS AG or one of its authorised counterparties. The costs for asset management, Fund administration (comprising the costs of the Company, the administration and the Custodian Bank) and distribution are charged to investors under the aforementioned agreements. This share class is exclusively geared towards financial products (i.e. fund of funds or other pooled structures in accordance with different legislation). Only registered shares are issued.

Investment objective and investment policy of the Subfunds

Investment objective

The aim of the Subfunds is to achieve high current earnings, while giving due consideration to capital security and the liquidity of the Company's assets.

Investment policy

The Subfunds shall invest in securities of top-rated borrowers only.

The Subfunds invest their assets following the principle of risk diversification, mainly in money market instruments, bonds, notes and similar fixed-income and floating-rate secured or unsecured investments.

"Money market instruments" are instruments which are normally traded on the money market, are liquid and whose value can be accurately determined at any time. They consist primarily of certificates of deposit of first-class banks, commercial paper issued by first-rate companies and other fixed- or variable-rate money market instruments issued or guaranteed by top-rated borrowers.

The Fund assets can also be invested in treasury bills, other debt securities and instruments and in sight, term and time deposits of banks.

The Subfund is prohibited from investing in convertible bonds, convertible notes, warrant bonds, equities, equity stocks and equity rights, as well as Fund units.

The aforementioned securities and loan stock rights are securities as defined in Article 41 of the Law of 2010 where this is required under the terms of the investment restrictions detailed below.

In line with the investment principles below, each Subfund may buy and sell futures and options, enter into swap transactions (swaps, total return swaps, credit default swaps and inflation swaps) on financial instruments as described in point 1.1.g) of the "Investment principles", and conduct transactions involving options on securities other than for hedging purposes.

The options, futures and swap markets are volatile and both the chance of earning returns and the risk of suffering losses are higher than with investments in securities. These techniques and instruments will be employed only if they are compatible with the investment policies of the individual Subfunds and do not adversely affect their quality.

Special investment policies of the Subfunds

UBS (Lux) Money Market SICAV – EUR

UBS (Lux) Money Market SICAV – USD

In line with the general investment policy, these Subfunds invest their assets in money market instruments, bonds, notes and other fixed- or floating-rate secured or unsecured investments, in Treasury bills, other debt securities and instruments and in sight, term and time deposits of banks.

The Subfunds are prohibited from investing in convertible bonds, convertible notes, warrant bonds, equities, equity stocks and equity rights, as well as Fund units.

Allowing for the inclusion of special derivative financial instruments in accordance with the investment principles outlined below, the entire portfolio of each Subfund may have an average residual term of 12 months maximum, and the residual term of each individual investment may not exceed three years. In the case of floating rate notes, the next coupon date on which the new interest rate is set is treated as the final maturity when calculating the individual residual maturities of the investments and the average residual maturities of the portfolio.

Each Subfund invests at least two-thirds of its assets in the currency denomination that its name suggests. It may invest up to a maximum of one-third of its assets in currencies other than the one in its name. The portion, however, which is not hedged against the Subfund's currency may not exceed 10% of the assets.

Use of futures and options

While observing the restrictions stipulated in "Special techniques and instruments that have securities and money market instruments as underlying assets", the Company may, in relation to each Subfund, use techniques and instruments involving securities and money market instruments to ensure the orderly management of the assets of each respective Subfund. At no time may the liabilities resulting from such transactions exceed the value of the net assets of the Subfund concerned.

By buying and/or selling futures on indices, the Portfolio Manager can manage the flows of funds generated by subscriptions/redemptions as well as increase or decrease market exposure.

By buying and/or selling call and put options on securities and indices, the Portfolio Manager can increase and/or decrease the exposure for a corresponding security or in the corresponding market.

By buying and/or selling warrants on securities, the Portfolio Manager can increase or reduce the exposure for a corresponding security.

If specified as part of the Subfund's investment policy, the Portfolio Manager may buy or sell futures, swaps and options on currencies for the purpose of building up or hedging foreign-exchange positions for the Subfund. However, the liabilities arising from such transactions should never exceed the value of the net assets of the Subfund concerned.

Risks connected with the use of derivatives

Derivative financial instruments are not in themselves investment instruments but rights whose valuation mainly derives from the price and the price fluctuations and expectations of an underlying instrument. Investments in derivatives are subject to general market risk, management risk, credit risk and liquidity risk.

However, the nature of these risks may be altered as a result of the special features of the derivative financial instruments, and may in some cases be higher than the risks associated with an investment in the underlying instrument.

For this reason, the use of derivatives requires not only an understanding of the underlying instrument, but also in-depth knowledge of the derivatives themselves.

The credit risk for derivatives traded on a stock exchange is, generally speaking, lower than that of derivatives traded over-the-counter on the open market, because the clearing agent that acts as issuer or counterparty of every market-traded derivative accepts a settlement guarantee. To reduce the overall risk of default, the guarantee is supported by a daily payment system maintained by the clearing agent, in which the assets required for cover are calculated. In the case of derivatives traded over-the-counter on the open market, there is no comparable clearing agent guarantee and in assessing the potential credit risk, the Company must take account of the creditworthiness of each counterparty.

There are also liquidity risks, since it may be difficult to buy or sell certain instruments. When derivative transactions are particularly large, or the corresponding market is illiquid (as may be the case with derivatives traded over-the-counter on the open market), under certain circumstances it may not always be possible to fully execute a transaction or it may only be possible to liquidate a position by incurring increased costs.

Other risks associated with the use of derivatives include the risk of incorrectly valuing or determining the price of derivatives. There is also the possibility that derivatives do not completely correlate with their underlying assets, interest rates or indices. Many derivatives are complex and are frequently subjectively valued. Inappropriate valuations can result in higher cash payment requirements in relation to counterparties or in a loss of value for the respective Subfund. Derivatives are not always in direct or parallel proportion to the value of the assets, interest rates or indices from which they are derived. Therefore, the use of derivatives by the Company is not always an effective means of attaining each Subfund's investment objective and can at times even have the opposite effect.

Collateral Management

If the Company enters into OTC transactions, it may be exposed to risks related to the creditworthiness of the OTC counterparties: when the Company enters into futures contracts, options and swap transactions or uses other derivative techniques it is subject to the risk that an OTC counterparty may not meet (or can not meet) its obligations under a specific or multiple contracts. Counterparty risk can be reduced by depositing a security. If the Company is owed a security pursuant to an applicable agreement, such security shall be held in custody by the Custodian bank/ Custodian in favour of the Company. Bankruptcy and insolvency events or other credit events with the Custodian bank or within their subcustodian/correspondent bank network may result in the rights of the Company in connection with the security to be delayed or restricted in other ways. If the Company is owed a security pursuant to an applicable agreement, then any such security is to be transferred to the OTC counterparty as agreed between the Company and the OTC counterparty. Bankruptcy and insolvency events or other credit events with the OTC counterparty, the Custodian Bank or within their subcustodian/correspondent bank network may result in the rights or recognition of the Company in connection with the security to be delayed, restricted or even eliminated, which would force the Company to fulfil its obligations in the framework of the OTC transaction, in spite of any security that had previously been made available to cover any such obligation.

Investing in UBS (Lux) Money Market SICAV

Conditions for the issue and redemption of shares

Subfund shares are issued and redeemed on every business day. In this context, "business day" refers to normal bank business days in Luxembourg (i.e. each day on which the banks are open during normal business hours) except individual, non-statutory rest days and days on which stock exchanges in the main countries in which each Subfund invests are closed, or on which 50% or more Subfund investments cannot be adequately valued.

"Non-statutory rest days" are days on which banks and financial institutions are closed. No issues or redemptions will be effected on days on which the Company has decided not to calculate net asset values, as described in "Suspension of the net asset value calculation and of the issue, redemption and conversion of shares". In addition, the Company is empowered to reject subscription applications at its discretion.

The Company does not permit any transactions which it considers could jeopardise the interests of shareholders, for instance "market timing" or "late trading". It is entitled to refuse any application for subscription or conversion that it considers to be allied to such practices. The Company is further entitled to take any actions it deems necessary in order to protect the shareholders from such practices.

Subscription and redemption applications registered with the Administrative Agent or the central settling agent of UBS Investment Bank in Switzerland – a unit of UBS AG – no later than 16.00 CET (cut-off time) on a business day (order date) will be processed on the following business day (valuation date) on the basis of the net asset value calculated for that day. To secure punctual forwarding to the Administrative Agent or the central settling agent of UBS Investment Bank in Switzerland, earlier cut-off times may apply for submission of applications placed with Distributors in Luxembourg or abroad. Information on this may be obtained from the sales agency concerned.

For subscription or redemption applications registered with the Administrative Agent or the central settling agent of UBS Investment Bank in Switzerland – a unit of UBS AG – after 16.00 (Central European Time) on a business day, the order date is considered to be the following business day.

The same applies to the conversion of shares of a Subfund into shares of another Subfund of the Company performed on the basis of the net asset values of the Subfunds concerned.

This means that the net asset value for settlement purposes is not known when the order is placed (forward pricing). It will be calculated on the valuation date on the basis of the latest market prices (i.e. closing prices, or if they do not reflect a reasonable market value in the opinion of the Management Company, at the most recent prices available at the time of valuation). The individual valuation principles applied are described below.

Net asset value, issue, redemption and conversion price

The net asset value and the issue, redemption and conversion price per share of each Subfund or share class are expressed in the currency of account of the Subfund or share class concerned and are calculated every business day by dividing the overall net assets of the Subfund attributable to each share class by the number of shares issued in this share class of the Subfund.

The percentage of the net asset value attributable to each share class of a Subfund changes each time shares are issued or redeemed. It is determined by the ratio of the shares issued in each share class to the total number of shares issued in the Subfund, taking into account the fees charged to that share class.

If the total subscriptions or redemptions of all the share classes of a Subfund on a single trading day come to a net capital inflow or outflow, the respective Subfund's net asset value per share may be increased or reduced accordingly. The maximum adjustment amounts to 2% of the net asset value. Estimated transaction costs and tax charges that may be incurred by the Subfund as well as the estimated bid/offer spread of the assets in which the Subfund invests may be taken into account. The adjustment leads to an increase in net asset value per share if the net movements result in a net capital inflow into the Subfund concerned. It results in a reduction of net asset value per share if the net movements bring about a net capital outflow from the Subfund concerned. The Board of Directors of the Management Company can set a threshold value for each Subfund. This may consist in the net movement on a trading day in relation to the net Fund assets or to an absolute amount in the

currency of the Subfund concerned. The net asset value would be adjusted only if this threshold were to be exceeded on a trading day.

The value of the assets held by each Subfund is calculated as follows:

- a) Liquid funds - whether in the form of cash, bank deposits, bills of exchange and sight securities and receivables, prepaid expenses, cash dividends and declared or accrued interest that has not yet been received - are valued at their full value unless it is unlikely that this value will be fully paid or received, in which case their value is determined by taking into consideration a deduction that seems appropriate in order to portray their true value.
- b) Securities, derivatives and other investments listed on a stock exchange are valued at the last-known market prices. If these securities, derivatives or other investments are listed on several stock exchanges, the latest available price on the stock exchange that represents the major market for these investments will apply. In the case of securities, derivatives and other investments infrequently traded on a stock exchange and for which a secondary market among securities traders exists with pricing in line with the market, the Company may value these securities, derivatives and other investments based on these prices. Securities, derivatives and other investments not listed on a stock exchange but which are traded on another regulated market which operates regularly and is recognised and open to the public are valued at the last available price on this market.
- c) Securities and other investments that are not listed on a stock exchange or traded on a regulated market, and for which no appropriate price can be obtained, are valued by the Company according to other principles chosen by it in good faith on the basis of the likely sales prices.
- d) Derivatives that are not listed at a stock exchange (OTC-derivatives) will be valued on the basis of independent pricing sources. In case only one independent pricing source of a derivative is available, the plausibility of the valuation obtained will be verified by means of calculation methods recognised by the Company and its auditors, based on the market value of the underlying instrument from which the derivative originates.
- e) Units or shares of other undertakings for collective investment in transferable securities ("UCITS") and/or undertakings for collective investment ("UCI") are valued at their most recent net asset value. Certain units or shares of other UCITS and/or UCIs may be valued on the basis of an estimate of their value provided by permissible service providers that are independent of the Portfolio Manager or the Investment Advisor of the target funds (price estimate).
- f) (i) If the Subfund is a money market fund,
 - money market instruments not traded on a stock exchange or on another regulated market open to the public will be valued on the basis of the relevant curves. The valuation based on the curve is with reference to the two components of interest rate and credit spread. The following principles are applied in this process: for each money market instrument, the interest rates nearest the residual maturity are interpolated. The interest rate calculated in this way is converted into a market price by adding a credit spread that reflects the underlying borrower. This credit spread is adjusted if there is a significant change in the credit rating of the borrower. During a transitional period lasting until no later than 18 November 2011, the money market instruments already held in the Subfund before 19 November 2010 will be valued until maturity using the following method: The valuation price of such investments is gradually adjusted to the redemption price, based on the net acquisition price and maintaining constant the investment yield calculated on that basis. In the event of significant changes in market conditions, the basis for the valuation of the individual investments is brought into line with the new market yields. If the current market price is not available, the valuation will be normally be derived from the valuation of money market instruments with the same characteristics (quality and registered office of the issuer, currency of issuer, maturity).
 - interest income earned by Subfunds between the order date concerned and the valuation date concerned is included in the valuation of the assets of the Subfund concerned. The asset value per share on a given valuation date therefore includes projected interest earnings.
- (ii) For the other Subfunds that do not fall under the regulation in subsection f) (i), the following regulation shall apply: For money market instruments, the valuation price will be gradually adjusted to the redemption price, based on the net acquisition price and retaining the ensuing yield. In the event of a significant change in market conditions, the basis for the valuation of the individual investments is brought into line with the new market yields.
- g) Securities, money-market instruments, derivatives and other investments denominated in a currency other than the reference currency of the relevant Subfund and not hedged by foreign-exchange transactions, are valued at the middle-market rate of exchange (midway between the bid and offer rate) known in Luxembourg or, if not available, on the most representative market for this currency.
- h) Fixed-term deposits and fiduciary investments are valued at their nominal value plus accumulated interest.
- i) The value of swaps is calculated by an external service provider and a second independent valuation is provided by another external service provider. The calculation is based on the net present value of all cash flows, both inflows and outflows. In some specific cases, internal calculations (based on models and market data made available from Bloomberg), and/or broker statement valuations may be used. The valuation methods depend on the respective security and are determined pursuant to the UBS Global Valuation Policy.

The Company is authorised to apply other generally recognised and auditable valuation criteria in good faith in order to achieve an appropriate valuation of the net assets if, due to extraordinary circumstances, a valuation in accordance with the aforementioned regulations proves to be unfeasible or inaccurate.

In extraordinary circumstances, additional valuations can be carried out over the course of the day. These new valuations will then be authoritative for subsequent issues and redemptions of shares.

Issue of shares

The issue price of shares in the Subfunds is calculated according to the provisions in the section "Net asset value, issue, redemption and conversion price".

After the initial issue, the issue price is based on the net asset value per share plus a maximum issuing commission of 4% of the net asset value in favour of the sales agencies. Any taxes, commissions and other fees incurred in the respective distribution countries will also be charged.

Subscriptions for shares in the Company are accepted at the issue price of the Subfunds at the Company, the Administrative Agent and the Custodian Bank as well as at the sales agencies and paying agents, which forward them to the Company. Shares may also be subscribed through savings plans, payment plans or conversion plans, in accordance with the locally prevailing market standards. Further information on this subject can be requested from local sales agencies.

For all subscriptions registered with the Administrative Agent or the central settling agent of UBS Investment Bank in Switzerland – a unit of UBS AG – after 16.00 (Central European Time) on a business day, the order date is considered to be the following business day. The issue price of Subfund shares is paid no later than on the second business day following the order date (“**valuation date**”) into the Custodian Bank account in favour of the Subfund.

A local Paying Agent will submit transactions on behalf of the final investor on a nominee basis. Costs incurred for the services of the Paying Agent may be charged to the investor.

The Company may accept full or partial subscriptions in kind at its own discretion. In this case, the capital subscribed in kind must correspond with the investment policy and restrictions of the relevant Subfund. These investments will also be audited by the auditor assigned by the Company. The associated costs will be charged to the investor. If issued, certificates will be delivered upon request as quickly as possible after the issue price has been fixed. The normal bank delivery charges will be made.

Only bearer-share and registered-share certificates in denominations of one or more whole shares may be issued for each Subfund. All shares issued and still outstanding have the same rights. The articles of association nonetheless provide for the possibility of issuing various share classes with specific features within a particular Subfund. Furthermore, fractional shares can be issued for all Subfunds/share classes. However, no physical certificates will be issued for these fractions; they shall instead be booked to the securities custody account of the shareholder’s choice. Fractions of units will be rounded to a maximum of three decimal places and do not confer the right to vote at general meetings, but will grant entitlement to a distribution or a proportionate distribution of the liquidation proceeds should the Subfund/share class concerned be liquidated.

Redemption applications, accompanied by any certificates that may have been issued, are accepted by the Management Company, the Administrative Agent, the Custodian Bank or another suitably authorised sales agency or paying agent. For redemption applications received by the Administrative Agent or the central settling agent of UBS Investment Bank in Switzerland – a unit of UBS AG – after 16.00 (Central European Time) on a business day, the order date is considered to be the following business day.

Redemption of shares

The countervalue for redeemed Subfund shares is paid no later than on the second business day after the order date (**valuation date**) unless legal provisions, such as foreign exchange controls or restrictions on capital movements, or other circumstances beyond the control of the Custodian Bank, make it impossible to transfer the redemption amount to the country in which the redemption application was submitted. For Subfunds with several share classes denominated in different currencies, shareholders may receive the equivalent value of their redemption in the currency of the respective share class or in the currency of account of the corresponding Subfund only. Any taxes, commissions and other fees incurred in the respective distribution countries will also be charged.

No redemption commission is charged. The development of the net asset value determines whether the redemption price is higher or lower than the issue price paid by the investor. In the event of an excessively large volume of redemption applications, the Company may decide to delay execution of redemption applications until the corresponding assets of the Fund have been sold without unnecessary delay. Should such a measure be necessary, all redemption applications received on the same day will be calculated at the same price.

A local Paying Agent will submit transactions on behalf of the final investor on a nominee basis. Costs incurred for such services may be charged to the investor. The Company may offer investors full or partial redemptions in kind at its own discretion. In this case, the capital subscribed in kind must correspond with the investment policy and restrictions of the relevant Subfund. These expenses will also be checked by the auditors appointed by the Company and must not have any negative impact on shareholders remaining with the Company. The associated costs will be charged to the investor.

The development of the net asset value determines whether the redemption price is higher or lower than the issue price paid by the investor. In the event of an excessively large volume of redemption applications, the Company may decide to delay execution of redemption applications until the corresponding assets of the Fund have been sold without unnecessary delay. Should such a measure be necessary, all redemption applications received on the same day will be calculated at the same price.

A local Paying Agent will submit transactions on behalf of the final investor on a nominee basis. Costs incurred for such services may be charged to the investor. The Company may offer investors full or partial redemptions in kind at its own discretion. In this case, the capital subscribed in kind must correspond with the investment policy and restrictions of the relevant Subfund. These expenses will also be checked by the auditors appointed by the Company and must not have any negative impact on shareholders remaining with the Company. The associated costs will be charged to the investor.

The development of the net asset value determines whether the redemption price is higher or lower than the issue price paid by the investor. In the event of an excessively large volume of redemption applications, the Company may decide to delay execution of redemption applications until the corresponding assets of the Fund have been sold without unnecessary delay. Should such a measure be necessary, all redemption applications received on the same day will be calculated at the same price.

Conversion of shares

Shareholders may convert from one Subfund into another or from one share class into another share class within the same Subfund at any time. The same procedures apply to the submission of conversion applications as to the issue and redemption of shares.

The number of shares into which the shareholder would like to convert his/her shares is calculated according to the following formula:

$$\alpha = \frac{\beta * \chi * \delta}{\varepsilon}$$

where:

α = number of shares of the new Subfund or share class into which conversion is required

β = number of shares of the Subfund or share class from which conversion is required

χ = net asset value of the shares presented for conversion

δ = foreign-exchange rate between the Subfunds or share classes concerned. If both Subfunds are valued in the same currency of account, this coefficient equals 1

ε = net asset value of the shares of the Subfund or share class into which the conversion is to be performed plus any taxes, commissions or other fees

For the conversion, a conversion commission of 2% maximum (calculated on the net asset value of the shares of the Subfund or share class into which the conversion is performed) may be charged in favour of the sales agencies.

Any fees, taxes and stamp duties incurred in the individual countries for a Subfund conversion are charged to the shareholders.

In the event of a conversion, the new certificates, if any such are issued, will be delivered on request and without undue delay. The usual bank delivery fees will be charged.

Prevention of money laundering and terrorist financing

The Company’s sales agencies must observe the provisions of the Luxembourg law of 12 November 2004 on the prevention of money laundering, as amended, as well as the statutory instruments and the applicable circulars of the CSSF.

Accordingly, investors must provide proof of their identity to the sales agency or Distributor that accepts their subscription. The sales agency or Distributor must request, at a minimum, the following identification documents from subscribers: for individuals – a certified copy of the passport/identity card (certified by the sales agency or Distributor or by the local administrative authority); for companies or other legal entities – a certified copy of the articles of incorporation, a certified copy of the extract from the Commercial Register, a copy of the most recently published annual accounts and the full name of the beneficial owner. The sales agency or Distributor must request, depending on the subject, the following identification documents from subscribers or redeemers of shares:

The sales agency must ensure that the Distributors adhere strictly to the aforementioned identification procedures. UBS Fund Services (Luxembourg) S.A. and the Company may, at any time, demand assurance from the sales agency that the procedures are being adhered to. UBS Fund Services (Luxembourg) S.A. will monitor compliance with the aforementioned provisions for all subscription and redemption applications they receive from sales agencies or Distributors in countries in which such sales agencies or Distributors are not subject to requirements equivalent to Luxembourg or EU law on fighting money laundering and terrorist financing.

Furthermore, the sales agency and its Distributors must obey all regulations to prevent money laundering and terrorist financing which are in force in the respective countries.

Suspension of the net asset value calculation and of the issue, redemption and conversion of shares

The Company may temporarily suspend calculation of the net asset value and hence the issue and redemption of shares for one or more Subfunds and the conversion between the individual Subfunds when:

- one or more stock exchanges or other markets which provide the basis for valuing a substantial portion of the net assets, or foreign exchange markets in whose currency the net asset value or a major part of the net assets of the Fund is denominated, are closed other than for normal holidays or if dealings therein are suspended, or if these stock exchanges or markets are subject to restrictions or to major price fluctuations in the short term;
- events beyond the control, liability or influence of the Company and/or the Management Company make it impossible to access the net assets under normal conditions or such access would be detrimental to the interests of the shareholders;
- disruptions in the communications network or any other reason make it impossible to calculate the value of a considerable part of the net assets;
- if it is not possible for the Company to repatriate the funds to pay redemption applications in the Subfund in question, or if the transfer of funds from the sale or for the acquisition of investments or for payments resulting from redemptions of shares cannot be carried out, in the view of the Board of Directors of the Company, at normal exchange rates;
- if political, economic, military or other circumstances outside the control of the Company makes the disposal of the assets of the Company impossible under normal conditions without seriously harming the interests of the shareholders;
- when for any other reason the prices of investments of a Subfund cannot be promptly or accurately determined;
- if the convocation of an extraordinary general shareholders’ meeting for the winding up of the Company was published;
- to the extent that such a suspension is justified for the protection of the shareholders, after the convocation of an extraordinary general shareholders’ meeting for the merger of the Company or of a Subfund or a report to the shareholders on a decision by the Board of Directors of the Company to merge one or more Subfunds was published; and
- the Company can no longer transact its business due to restrictions on foreign exchange and capital movements.

A suspension of the calculation of the net asset value, a suspension of the issue or redemption of shares and a suspension of conversion between Subfunds will be notified without delay to all the responsible authorities in the countries in which shares of the Company are approved for sale to the public in addition to being published in a Luxembourg daily newspaper and, if necessary, in the official publications specified for the respective countries in which the shares are sold.

If investors no longer meet the requirements of a share class, the Company is further obliged to request that the investors concerned:

- a) return their shares within 30 calendar days in accordance with the provisions on redemption of shares;
- b) transfer their shares to a person who meets the aforementioned requirements for acquisition in the share class;
- c) convert their shares into shares in another share class of the relevant Subfund whose acquisition requirements they are able to fulfil.

In addition, the Company is empowered:

- a) to refuse purchase applications for shares at its own discretion;
- b) to redeem at any time shares which were purchased in defiance of an exclusion order.

Distribution of income

The general meeting of shareholders of the respective Subfund decides, at the proposal of the Board of Directors of the Company and after closing the annual accounts, whether and to what extent distributions are to be paid out by the respective Subfund or share class. The payment of distributions must not result in the net assets of the Company falling below the minimum amount for assets laid down by law. If distributions are made, payment will be effected within four months of the end of the financial year.

The Board of Directors of the Company is entitled to determine whether interim dividends are paid and whether distribution payments are suspended.

Entitlements to distributions and allocations not claimed within five years of falling due will lapse and be paid back into the relevant Subfund or its share class. If said

Subfund or share class has already been liquidated, the distributions and allocations will accrue to the remaining Subfunds of the Company or the remaining share classes of the Subfund concerned in proportion to their respective net assets. At the proposal of the Company's Board of Directors, the general meeting may decide, in connection with the appropriation of net investment income and capital gains, to issue bonus shares. An income equalisation amount will be calculated so that the distribution corresponds to the actual income entitlement.

Where the shares are denominated in physical certificates, distributions will be made upon submission of the relevant coupons. The Company will determine the method of payment.

Taxes and expenses

Taxation

The Company is subject to Luxembourg legislation. In accordance with current legislation in the Grand Duchy of Luxembourg, the Company is not subject to any Luxembourg withholding, income, capital-gains or wealth taxes. However, each Subfund is subject to the Grand Duchy of Luxembourg's "taxe d'abonnement" of 0.01% p.a. on total net assets, which is payable at the end of every quarter. This tax is calculated on the total net assets of each Subfund at the end of every quarter.

Shareholders should be aware that the Luxembourg Law of 21 June 2005 has transposed into Luxembourg law Council Directive 2003/48/EC of 3 June 2003 on the taxation of interest. Since 1 July 2005, this Law has provided for the imposition of a withholding tax on cross-border interest payments to individuals domiciled in the EU or for an automatic information exchange. This applies, inter alia, to distributions and dividends payable by investment funds which invest more than 15%, and earnings from the assignment or repayment of shares in investment funds which invest more than 25% in debt instruments and claims as defined by the EU taxation of interest. Where necessary, the sales agency or Distributor may, upon subscription, ask investors to give their tax identification number ("SIN") provided by the state in which they are domiciled for tax purposes. The taxable values shown are based on the most recently available data at the time they were calculated.

Provided the Subfund in question is not subject to EU taxation of interest or the shareholders are not affected thereby, shareholders are not required, under current tax law, to pay any income, gift, inheritance or other tax in Luxembourg unless they are domiciled in Luxembourg, have a residence in Luxembourg or maintain a permanent establishment there, or were previously domiciled in Luxembourg and hold more than 10% of the share capital in the Company.

On 13 November 2008, the European Commission accepted a proposal for the amendment of the Savings Directive. If the amendment proposal is implemented, among other things, (i) the scope of the EU Savings Directive would be expanded to include payments distributed by certain intermediary structures (regardless of whether their registered office is in an EU Member State or not) and whose final beneficiary is a private person resident in the EU and (ii) the definition of interest that falls within the scope of the EU Savings Directive would be further established. As at the date the sales prospectus was being drawn up, it is not known whether and if or on what date the proposed amendment will enter into force.

The aforementioned represents a summary of the fiscal effects and makes no claim to be exhaustive. It is the responsibility of purchasers of shares to seek information on the laws and regulations governing the purchase, possession and sale of shares in connection with their place of residence and their nationality.

Investors in the United Kingdom

The Company is an offshore fund for tax purposes within the meaning of the UK Offshore Funds (Tax) Regulations which were introduced with effect from 1 December 2009 and which amended the previous tax regulations which applied to investments in offshore funds.

Under the regulations, UK investors will be subject to capital gains tax (or corporation tax on chargeable gains) and not income tax on profits arising on a sale (e.g. by transfer or redemption) of shares in a qualifying offshore fund.

UK investors may be liable to income tax (rather than tax on capital gains) on profits arising on a sale (e.g. by transfer or redemption) of shares in a non-qualifying offshore fund.

Since 1 December 2009, and for a transitional period only, offshore funds can apply to HM Revenue & Customs (the UK tax authorities) for approval as a qualifying offshore fund with either "distributor" or "reporting fund" status.

The application can be made for one or more Subfunds within the umbrella or for one or more specified share classes issued by a Subfund. For UK tax purposes, an investment in a share class which has distributor or reporting fund status will be treated as an investment in a qualifying offshore fund.

After the transitional period, only an investment in a Subfund, or a share class of a specific Subfund which has reporting fund status will be treated as an investment in a qualifying offshore fund.

The Company may, at its discretion, apply for qualifying offshore fund status for specified Subfunds, or share classes issued by the Subfunds.

Where such an application has been made, the Board of Directors intends to manage the Company so that an investment in the specified share classes will be treated as an investment in a qualifying offshore fund for each accounting period, and to satisfy HM Revenue & Customs that the relevant requirements have been or will be met. However, the members of the Board of Directors of the Company do not guarantee that these requirements will be met or that HM Revenue & Customs will confirm that they have been met.

For share classes with "UKdist" in their name and which have reporting fund status, the Board of Directors intends to distribute, on an annual basis, a sum which corresponds to 100% of the reportable income within the meaning of the UK reporting fund rules. The Company does not intend to provide tax reporting in other countries in respect of the "UKdist" share classes.

The attention of persons ordinarily resident in the United Kingdom is drawn to the provisions of Part 13 Chapter 2 of the Income Tax Act 2007 ("Transfer of Assets Abroad") which provide that under certain circumstances they may be subject to income tax in relation to income and profits arising within a Subfund(s) which is not received or receivable in the United Kingdom by those persons.

In addition, it is important to note the provisions of Section 13 of the Taxation of Chargeable Gains Act of 1992, which govern the distribution of chargeable gains of companies which are not resident in the United Kingdom and which would be "close companies" if they were resident in the UK. These gains are distributed to shareholders who are domiciled or have their ordinary place of abode or residence

in the UK. Profits distributed in this manner are taxable for all shareholders who hold a share of more than 10% of the distributed profit either individually or together with associated persons. The Company intends to make all reasonable efforts to ensure that the Subfund(s) would not be classed as a "close company" within the meaning of Section 13 of the Taxation of Chargeable Gains Act if domiciled in the United Kingdom. Moreover, when examining the effects of Section 13 of the Taxation of Chargeable Gains Act 1992, it is important to ensure that the regulations of the double taxation agreement between the United Kingdom and Luxembourg are taken into account.

Expenses paid by the Company

The Company pays a monthly maximum flat fee for unit classes "P", "N", "H", "K-1", "K-2", "F", "Q", "I-18", "I-15" and "I 12", calculated on the average net asset value of the Subfunds.

This will be used for Fund administration (comprising the costs of the Company, the administration and the Custodian Bank), asset management and distribution of the Subfunds, as well as for covering the costs incurred. The relevant maximum flat fee will not be charged until the corresponding share classes have been launched. An overview of the maximum flat fees can be seen in "An overview of the share classes".

Out of the aforementioned flat fee, the respective Subfund will bear all costs incurred in connection with the administration, portfolio management and safekeeping of the Company's assets as well as distribution, such as:

- annual fees and expenses for approving and supervising the Company in Luxembourg and abroad;
- other fees charged by the supervisory authorities;
- printing of the articles of association, prospectuses and annual and semi-annual reports;
- Production of the KII or the corresponding documents for the Company's sales countries;
- price publications and publication of notices to shareholders;
- fees incurred in connection with the listing of the Company and sales within Luxembourg and abroad;
- commission and expenses of the Custodian Bank for the safekeeping of the Company's assets, dealing with payments and other duties, as required under the Law of 2002;
- fees and other expenses for the payment of dividends to shareholders;
- auditor's fees.

The Custodian Bank, Administrative Agent and Company are nevertheless entitled to be reimbursed the costs of non-routine arrangements made by them in the interests of the investors; otherwise such expenses will be charged directly to the Company.

For purposes of general comparability with fee rules of different fund providers that do not have a flat fee, the term "maximum management fee" is set at 80% of the flat fee.

The Company will also bear all transaction expenses arising in connection with the administration of the Company's assets (brokerage commission in line with the market, fees, fiscal charges, etc.).

All taxes levied on the income and assets of the Company, particularly the tax d'abonnement, will also be borne by the Company.

For shares classes "K-2" and "F", an additional fee will also be charged; this shall be determined via a separate contract between the investor and UBS AG or one of its authorised distribution partners.

For share class "I-3.5", a fee will be charged to cover the costs of Fund administration (comprising the costs of the Company, the administration and the Custodian Bank). The costs for asset management and distribution are charged directly outside of the Company under a separate contract between the investor and UBS Global Asset Management or one of its authorised representatives.

Costs in connection with the services to be performed for share classes "I-X" and "U-X" pertaining to asset management, Fund administration (comprising the costs of the Company, the administration and the Custodian Bank) and distribution will be settled via the compensation to which UBS AG is entitled under a separate contract with the investor.

All costs which can be allocated to individual Subfunds will be charged to these Subfunds.

Costs which can be allocated to share classes will be charged to these share classes. If costs pertain to several or all Subfunds/share classes, however, these costs will be charged to the Subfunds/share classes concerned in proportion to their relative net asset values.

Information to shareholders

Regular reports and publications

For each Subfund and the Company an annual report is published as at 31 October and a semi-annual report as at 30 April. The two reports mentioned above contain a breakdown of each Subfund in the relevant currency of account. The consolidated breakdown of assets for the Company as a whole is given in EUR.

The annual report, which is published within four months of the end of the financial year, contains the annual accounts audited by the independent auditors.

These reports are available to shareholders at the registered office of the Company and the Custodian Bank.

The issue and redemption price of the shares of each Subfund is announced in Luxembourg at the registered office of the Company and the Custodian Bank.

Notices to the shareholders will also be published in a Luxembourg daily newspaper and, if necessary, in foreign daily newspapers.

Depositing of documents

The following documents are lodged at the registered office of the Company or the Management Company, where they are available for inspection:

- 1) the Company's and the Management Company's articles of incorporation
- 2) the agreements concluded between the Custodian Bank and the Company. The aforementioned agreements may be altered by common consent of the parties involved.

Liquidation of the Company and its Subfunds; merger of Subfunds

Liquidation of the Company and its Subfunds

The Company may be liquidated at any time by the general meeting of shareholders in due observance of the legal conditions governing the quorum and necessary majority.

If the total net assets of the Company fall below two-thirds or one-quarter of the prescribed minimum capital, the Board of Directors of the Company must ask for a vote by the general meeting of shareholders on whether to liquidate the Company. If the Company is dissolved, the liquidation will be carried out by one or more liquidators to be designated by the general meeting of shareholders, which will also determine their sphere of responsibility and remuneration. The liquidators will realise the Company's assets in the best interests of the shareholders and distribute the net proceeds from the liquidation of the Subfunds to the shareholders of said Subfunds or share classes in proportion to their respective holdings. Any liquidation proceeds which cannot be distributed to the shareholders will be deposited with the "Caisse de Consignation" in Luxembourg until expiry of the period of limitation. Term Subfunds are automatically wound up and liquidated upon expiry of their respective terms.

If the total net asset value of a Subfund or of a share class within a Subfund has fallen below a value that the Board of Directors has fixed as the minimum value for the economically efficient management of that Subfund or that share class, or that value is not reached, or in the event of a substantial change in the political, economic and monetary environment, or as part of a rationalisation, the Company may decide to redeem and cancel all shares of the corresponding share class(es) at the net asset value (taking into account the actual realisation prices and realisation cost of the investment) as at the valuation day or date on which the decision takes effect.

Notwithstanding the powers of the Board of Directors of the Company, the general meeting of shareholders of a Subfund can reduce the Company capital at the proposal of the Board of Directors of the Company by withdrawing shares issued by said Subfund and refunding shareholders with the net asset value of their shares. The net asset value is calculated for the day on which the decision comes into force, taking into account the actual price realised on liquidating the Subfund's assets and any costs arising from this liquidation.

The shareholders of the Subfund concerned will be informed of the decision of the general meeting of shareholders or of the Board of Directors of the Company to redeem and cancel the shares via a corresponding publication in the Mémorial and in a Luxembourg daily newspaper as well as, if necessary, in the official publications specified for the respective countries in which Company shares are sold. The countervalue of the net asset value of shares liquidated which have not been presented by shareholders for redemption will be deposited with the Custodian Bank for a period of six months and after that period, if still not presented for redemption, at the "Caisse de Consignation" in Luxembourg until expiry of the limitation period.

Merger of the Company or of Subfunds with another undertaking for collective investment ("UCI") or with its Subfunds; merger of Subfunds

"Mergers" are transactions in which

- one or more UCITS or Subfunds of such UCITS, the "absorbed UCITS", upon whose winding up without liquidation transfers all assets and liabilities to another existing UCITS or a Subfund of that UCITS, the "absorbing UCITS", and whose shareholders receive in return shares in the absorbing UCITS and, if applicable, a cash payment not exceeding 10% of the net asset value of such shares;
- two or more UCITS or Subfunds of such UCITS, the "absorbed UCITS", upon whose winding up without liquidation transfers all assets and liabilities to another UCITS or a Subfund of that UCITS formed by it, the "absorbing UCITS", and whose shareholders receive in return shares in the absorbing UCITS and, if applicable, a cash payment not exceeding 10% of the net asset value of such shares;
- one or more UCITS or Subfunds of such UCITS, the "absorbed UCITS", that continue to exist until liabilities have been paid off, transfers its net assets to another Subfund of the same UCITS, to another UCITS formed by it or to another existing UCITS or a Subfund of that UCITS, the "absorbing UCITS".

Mergers are permissible under the conditions provided for in the Law of 2010. The legal consequences of a merger are based on the Law of 2010.

Under the conditions described in the section "Liquidation of the Company and its Subfunds", the Board of Directors of the Company may decide to allocate the assets of a Subfund or of a share class to another existing Subfund or share class of the Company or to another Luxembourg UCI pursuant to Part I of the Law of 2010 or to a foreign UCITS pursuant to the provisions of the Law of 2010 and the redesignation of the shares of the Subfund(s) or share class in question as shares of another Subfund or of another share class (as a result of the scission or consolidation, if necessary, and through the payment of an amount that corresponds to the pro rata entitlement of the shareholders). Notwithstanding the powers of the Board of Directors of the Company mentioned in the previous section, the decision to merge Subfunds, as described above, may also be taken by the general meeting of the shareholders of the Subfund in question.

The shareholders will be informed of the decision to merge in the same way as previously described for the redemption and cancellation of shares. During the 30 days following the publication of such a decision, shareholders will be authorised to redeem all or a part of their shares at the prevailing net asset value, free of redemption commission or other administration charges, in accordance with the guidelines outlined in "Redemption of shares". Shares not presented for redemption will be exchanged on the basis of the net asset value of the shares of the Subfund concerned, calculated for the day on which this decision takes effect. If the shares to be allocated are shares of a collective investment fund ("Fonds Commun de Placement"), the decision is binding only for the investors who voted in favour of the allocation.

General meeting of the Company or of the shareholders of the Subfund concerned

For both the liquidation and merger of Subfunds, no minimum quorum is required at the general meeting of shareholders, and decisions can be approved by a simple majority of the shares represented at the general meeting of the Company or of the shareholders of the Subfund concerned or by proxy.

Applicable law, place of performance and authoritative language

The District Court of Luxembourg is the place of performance for all legal disputes between the shareholders, the Company, the Management Company and the Custodian Bank. Luxembourg law applies. However, in matters concerning the claims of investors from the other countries, the Company and/or the Custodian Bank may elect to make themselves subject to the jurisdiction of the countries in which the shares were bought and sold.

The German version of the sales prospectus is legally binding. However, in matters concerning shares sold to investors in the countries in which shares may be bought and sold, the Company and the Custodian Bank may recognise as binding translations which they have approved into the languages concerned.

Investment principles

The following conditions also apply to the investments made by each Subfund:

1 Permitted investments of the Company

1.1 The investments of the Company may consist exclusively of one or more of the following components:

- securities and money market instruments which are listed or traded on a regulated market, as defined in the European Parliament and Council Directive 2004/39/EC of 21 April 2004 on markets for financial instruments;
- Securities and money market instruments which are traded in a Member State on another market which operates regularly and is recognised and open to the public. The term "Member State" designates a Member State of the European Union; states that are parties to the agreement on the European Economic Area but are not Member States of the European Union are considered the same as Member States of the European Union, within the limits of that agreement and its related agreements;
- securities and money-market instruments admitted to official listing on a stock exchange in a non-Member State or traded there on another market of a European, American, Asian, African or Australasian country (hereinafter "approved country") which operates regularly and is recognised and open to the public;
- newly issued securities and money market instruments provided that the terms of issue contain a clause that an application will be made for an official listing on one of the securities exchanges or a licence to trade on one of the regulated markets mentioned under 1.1 a) to 1.1 c), and that this listing/licence is to be granted within one year of the issue of the securities.
- Units of UCITS admitted pursuant to Directive 2009/65/EC and/or other UCI within the meaning of Article 1(2) a) and b) of Directive 2009/65/EC with registered office in a Member State as defined in the Law of 2010 or a non-Member State, provided that:
 - such other UCI have been approved in accordance with statutory rules subjecting them to supervision that, in the opinion of the Commission de Surveillance du Secteur Financier (hereinafter "CSSF"), is equivalent to that which applies under Community law, and that adequate provision exists for ensuring cooperation between authorities;
 - the level of protection afforded to shareholders in the other UCI is equivalent to that afforded to shareholders in the Company and, in particular, rules apply to the separate holding of fund assets, borrowing, lending and the short-selling of securities and money market instruments that are equivalent to the requirements set forth in Directive 2009/65/EC;
 - the business operations of the other UCI are the subject of annual and semi-annual reports that permit an assessment to be made of the assets and liabilities, income and transactions arising during the reporting period; and
 - the UCITS or such other UCI the units of which are to be acquired, may invest, pursuant to its Management Regulations or its founding documents, a maximum of 10% of its assets in units of another UCITS or UCI.

The Subfund invests a maximum of 10% of its assets in other UCITS or UCIs, unless stipulated to the contrary in the investment policy of the relevant Subfund.

- sight deposits or deposits at notice at credit institutions with a term of up to 12 months, provided the institution concerned has its head office in an EU Member State, or – if the institution's head office is located in a non-EU state – it is subject to supervisory regulations which the CSSF deems equivalent to those under Community law;
- derivative financial instruments ("derivatives"), including equivalent cash instruments, which are traded on one of the stock exchanges listed in a), b) and c) above, and/or derivatives which are not traded on a stock exchange ("OTC derivatives"), provided that:
 - the underlying securities are instruments in accordance with the definition given in points 1.1 a) and 1.1 b) or financial or macroeconomic indices, interest rates, currencies or other underlying instruments in which the Company's investment policy allows it to invest directly or via other existing UCI or UCITS,
 - the counterparties in transactions involving OTC derivatives are institutions subject to official supervision belonging to the categories admitted by the CSSF; and
 - the OTC derivatives are valued in a reliable and verifiable manner on a daily basis and may be sold, at any time, upon the Company's initiative at the appropriate market value, liquidated or settled by means of a back-to-back transaction.
- money market instruments as defined under "Investment policy", which are not traded on a regulated market, provided that the issuer of these instruments is governed by rules providing protection for investors and investments and on condition that such instruments are:
 - issued or guaranteed by a central, regional or local authority or the central bank of a Member State, the European Central Bank, the European Union or European Investment Bank, by a non-Member State, or, in the case of a federal state, a Member State of the federation or by a public international body of which at least one Member State is a member; or
 - issued by an undertaking whose securities are traded on the regulated markets mentioned in points 1.1 a), b) and c);

- issued or guaranteed by an institution that is subject to official supervision in accordance with the criteria laid down by Community law or by an institution that is subject to supervision that, in the opinion of the CSSF, is at least as stringent as that provided for by Community law and complies with it, or are issued by other issuers belonging to a category approved by the CSSF, provided that investor protection rules apply to investments in such instruments, which are equivalent to those of the first, second or third listed point above and provided the issuers constitute either a company with equity capital amounting to at least 10 million euros (EUR 10,000,000), which prepares its annual accounts under the provisions of the Fourth Council Directive 78/660/EEC, or an entity within a group encompassing one or more listed companies and responsible for its financing, or an entity which is to fund the underlying securities for obligations by the use of a credit line made available by a bank.
- 1.2 In derogation to the investment limitations determined in point 1.1, each Subfund may invest up to 10% of its net assets in securities and money market instruments other than those indicated in point 1.1;
- 1.3 The Company ensures that the overall risk associated with derivatives does not exceed the overall net value of the Company portfolio. As part of its investment strategy, each Subfund may make investments in derivatives within the limits laid down in points 2.2 and 2.3, provided the overall risk of the underlying instruments does not exceed the investment limits stipulated in point 2.
- 1.4 Each Subfund may hold liquid funds on an ancillary basis.
- ## 2 Risk diversification
- 2.1 In accordance with the principle of risk diversification, the Company is not permitted to invest more than 10% of the net assets of a Subfund in securities or money market instruments from a single institution. The Company may not invest more than 20% of the net asset value of a Subfund in deposits with a single institution. In transactions by a Subfund in OTC derivatives, the risk of loss must not exceed 10% of the assets of the Subfund concerned if the counterparty is a credit institution as defined in 1.1 f); the maximum allowable risk of loss is reduced to 5% in transactions with other counterparties. The total value of all positions in the securities and money market instruments of those institutions accounting for more than 5% of the net assets of a Subfund may not exceed 40% of the net assets of the respective Subfund. Such limitation shall not apply to deposits and transactions in OTC derivatives with financial institutions which are subject to supervision.
- 2.2 Regardless of the maximum limits set out in 2.1, each Subfund may not invest more than 20% of its net assets in a single institution in a combination of:
- securities and money market instruments issued by such institution
 - deposits with this institution and/or
 - OTC derivatives traded with such an institution.
- 2.3 Contrary to the above, the following applies:
- a) The limit of 10% mentioned in 2.1 may be raised to 25% for various debt instruments issued by credit institutions domiciled in an EU Member State and subject, in that particular country, to special legislative supervision of public authorities that would ensure the protection of investors. In particular, funds originating from the issue of such bonds must, in accordance with the law, be invested in assets which provide sufficient cover for the obligations arising from them during the entire term of the bonds and, in the event of insolvency of the issuer, provide a preference right in respect of the payment of capital and interest. If a Subfund invests more than 5% of its net assets in bonds of a single issuer, then the total value of these investments may not exceed 80% of the value of the net assets of the Subfund.
- b) This limit of 10% can be raised to 35% for securities or money market instruments issued or guaranteed by an EU Member State or its central, regional and local authorities, by another approved state, or by international organisations with public-law character of which one or more EU States are members. Securities and money market instruments that come under the special ruling given in 2.3 a) and b) are not counted when calculating the abovementioned 40% risk-diversification ceiling.
- c) The limits set out in 2.1, 2.2, 2.3 a) and b) may not be accumulated; therefore the investments listed in the said paragraphs made in securities or money market instruments of a single issuer or in deposits with the said institution or in its derivatives may not exceed 35% of the net assets of a given Subfund.
- d) Companies which belong to the same group of companies in that they prepare their consolidated accounts under the rules of Council Directive 83/349/EEC (1) or according to recognised international accounting principles, must be treated as a single issuer for the calculation of the investment limits set out in this Article. However, investments by a Subfund in securities and money market instruments of a single group of companies may together make up to 20% of the assets of the Subfund concerned.
- e) In the interests of risk diversification, the Company is authorised to invest up to 100% of a Subfund's net assets in securities and money market instruments from various issues that are guaranteed or issued by an EU Member State or its local authorities, by another approved country or by international organisations under public law to which one or more EU Member States belong. These securities or money market instruments must be divided into at least six different issues, with securities or money market instruments from a single issue not exceeding 30% of the total net assets of a Subfund.
- 2.4 The following provisions apply with regard to investments in other UCITS or UCI:
- a) The Company may invest up to 20% of the net assets of a Subfund in units in a single UCITS or other UCI. In implementing this investment limit, each Subfund of a UCI consisting of a number of Subfunds is treated as an independent issuer if it can be guaranteed that said Subfunds are individually liable in respect of third parties.
- b) Investments in units of UCIs other than UCITS may not exceed 30% of the Subfund's net assets. The assets invested in the UCITS or other UCI are not included in the calculation of the maximum limits set out in 2.1, 2.2 and 2.3.
- c) For Subfunds which, in line with their investment policy, invest a significant portion of their assets in units of other UCITS and/or UCI, the maximum flat fees chargeable by the Subfund itself and by the other UCITS and/or UCI in which it invests are described in the section "Expenses paid by the Company".
- 2.5 The Subfunds may subscribe, acquire and/or hold shares that are to be issued by or have been issued by one or more other Subfunds, provided that:
- the target subfund does not itself invest in the Subfund that is investing in that target subfund; and
 - the total share of the assets which the target subfunds to be acquired may invest in units of the same UCI may not, in accordance with their sales prospectuses or articles of incorporation, exceed 10%; and
 - any voting rights associated with the securities in question is suspended for the period they are held by the Subfund in question, regardless of their appropriate evaluation in the financial statements and periodic reports; and
 - in any case, as long as these securities are held by the Subfund, that their value is not taken into consideration in the calculation of net asset value under the Law of 2010 for purposes of verifying the minimum net assets under the Law of 2010; and
 - there is no multiple charging of fees for management/subscription or redemption either at the level of the Subfund that has invested in the target subfund or at the level of the target subfund.
- 2.6 The Company may invest a maximum of 20% of the investments of a Subfund in equities and/or debt securities of a single issuer if the investment policy of the Subfund in questions provides for the Subfund objective of replicating a specific equity or debt security index recognised by the CSSF, provided that:
- the composition of the index is sufficiently diversified;
 - the index represents an appropriate benchmark for the market to which it refers;
 - the index is published appropriately.
- The limit is 35% provided this is justified based on exceptional market conditions, and in particular on regulated markets on which certain securities or money market instruments are in a strongly dominant position. Investment up to this upper limit is only permitted in the case of a single issuer. If the limits mentioned in points 1 and 2 are exceeded unintentionally or due to the exercise of subscription rights, the Company must attach top priority in its sales of securities to normalising the situation while, at the same time, considering the best interests of the shareholders. Provided that they continue to observe the principle of risk diversification, newly founded Subfunds may deviate from the specific risk diversification restrictions mentioned above for a period of six months after being approved by the authorities.
- ## 3 Investment restrictions
- The Company is prohibited from:
- 3.1 acquiring securities, the subsequent sale of which is subject to any restrictions arising from contractual agreements;
- 3.2 acquiring equities with voting rights that would enable the Company, possibly in collaboration with other investment funds under its supervision, to exert a significant influence on the management of an issuer;
- 3.3 acquiring more than the amounts below:
- 10% of the non-voting shares of a single issuer,
 - 10% of the debt instruments of a single issuer,
 - 25% of the units of a single UCITS or UCI,
 - 10% of the money market instruments of a single issuer.
- In the latter three cases, the restrictions on acquiring securities need not be observed if the gross amount of the debt instruments or the money market instruments and the net amounts of the issued units cannot be determined at the time of acquisition. Exempt from the provisions of 3.2 and 3.3 are:
- Securities and money market instruments issued or guaranteed by a Member State of the EU or its local authorities or by another approved state;
 - Securities and money market instruments issued or guaranteed by a non-Member State of the European Union;
 - securities and money market instruments issued by public international bodies to which one or more Member States of the European Union belong;
 - shares held in the capital of a company incorporated in a non-Member State investing its assets mainly in the securities of issuing bodies having their registered offices in that non-Member State, where under the legislation of that non-Member State such a holding represents the only way in which investments may be made in the securities of issuing bodies of that non-Member State. In doing so, the provisions of the Law of 2010 must be complied with; and
 - Shares held in the capital of subsidiary companies carrying on only the business of management, advice or marketing in the country where the subsidiary is located, in regard to the repurchase of units at shareholders' request exclusively on behalf of the Company.
- 3.4 short-selling securities, money market instruments or other instruments listed in 1.1 e), g) and h);
- 3.5 acquiring precious metals or related certificates;
- 3.6 investing in real estate and purchasing or selling commodities or commodities contracts;
- 3.7 taking out loans, unless
- they are in the form of a back-to-back loan for the purchase of foreign currency;
 - the loan is only temporary and does not exceed 10% of the net assets of the Subfund in question.
- 3.8 granting loans or acting as guarantor for third parties. This restriction does not prevent the acquisition of securities, money market instruments or the other instruments listed in 1.1 e), g) and h) if these are not fully paid up. The Company is authorised to introduce further investment restrictions at any time in the interests of the shareholders provided these are necessary to ensure compliance with the laws and regulations of those countries in which Company shares are offered and sold.

4 Special techniques and instruments that have securities and money market instruments as underlying assets

As set out in 1.1 g), the Company may, as a main element in achieving the investment policy for each Subfund, within the statutory conditions and limits defined, use special techniques and financial instruments whose underlying assets are securities, money market instruments and other financial instruments.

The Company must use a risk-management process that enables it, at any time, to monitor and measure the risk associated with its investment positions and its share in the overall risk profile of the investment portfolio; furthermore, it must use a process that allows it to determine the value of the OTC derivatives in a precise and impartial manner. It must regularly notify the CSSF in accordance with the rules set by it (les règles détaillées) of the types of derivatives contained in the portfolio, the risks associated with the underlying securities, the investment limits and the methods used for measuring the risks associated with derivatives transactions.

The Company is also entitled to employ techniques and instruments which feature securities and money market instruments, provided such techniques and instruments are used in the interests of efficient portfolio management subject to the conditions and limits defined by the CSSF. If such transactions relate to the use of derivatives, the terms and limits must comply with the provisions of the Luxembourg Law of 2010.

The Company may under no circumstances deviate from its investment objectives for these transactions.

The Company ensures that the overall risk associated with derivatives does not exceed the overall net value of its portfolio.

The following are taken into account in computing risk: the market value of the underlying instruments, the risk of default, future foreseeable market developments and the period within which the positions are to be liquidated.

Within the limits set out in 1.1 g), the Company may invest in derivatives as part of its investment strategy, provided the overall risk of the underlying assets does not exceed the investment limits cited in section 2 "Risk diversification". Investments made by a UCITS in index-based derivatives need not be taken into account in the case of the investment limits in section 2 "Risk diversification".

If a derivative is embedded in a security or money market instrument, it has to be taken into account with regard to compliance with the rules in section 2 "Risk diversification".

The Company may also lend portions of its securities portfolio to third parties ("**securities lending**"). In general, securities lending may be effected only via recognised clearing houses such as Clearstream International or Euroclear, or using first-class financial institutions that specialise in such activities and following the procedure specified by them.

In the case of securities lending transactions, the Company must, in principle, receive collateral, the value of which must at least correspond to the total value of the securities lent out and any accrued interest thereon. This collateral must be issued in a form of financial collateral as permitted by the provisions of Luxembourg law. Such collateral is not required if the transaction is effected via Clearstream International or Euroclear, or another organisation which guarantees the Company that the value of the securities lent will be refunded.

The Company may, for any Subfund, engage on an ancillary basis in repurchase transactions ("**repurchase agreements**" or "**reverse repurchase agreements**") involving the purchase and sale of securities where the seller has the right or obligation to repurchase the securities sold from the buyer at a fixed price and within a certain period stipulated by both parties upon conclusion of the agreement.

Repurchase transactions may either be effected as a buyer or a seller. However, any transactions of this kind are subject to the following guidelines:

- securities may only be purchased or sold under a repurchase agreement if the counterparty is a first-class financial institution specialising in this kind of transaction.
- for as long as the repurchase agreement is valid, the securities bought cannot be sold before the right to repurchase the securities has been exercised or the repurchase period has expired.
- in addition, it must be ensured that the volume of the liabilities of repurchase agreements of each Subfund is structured in such a way that the Subfund can meet its redemption obligations towards its shareholders at any time.
