GENERAL INFORMATION

INFORMATION TO THE SHAREHOLDERS

Annual reports and semi-annual reports are at the disposal of the shareholders with the administrative agent at the registered office of the SICAV and on the following website: www.abanteasesores.com.

The periodical reports contain financial information regarding the ABANTE GLOBAL FUNDS ("SICAV"), the composition and evolution of its assets and its consolidated situation.

The list of movements that took place in the composition of the securities portfolios for the financial period starting

on January 1, 2021 are available for free with the head office of the administrative agent.

The shares of the Sub-Funds of the SICAV are not currently listed on the Luxembourg Stock Exchange.

Subscriptions cannot be received on the basis of financial reports. Subscriptions are valid only if made on the basis of the current prospectus and Key Investors Information Document ("KIID"), supplemented by the last annual report and the most recent semi-annual report if published thereafter.

NET ASSET VALUE PER SHARE

The accounts of each Sub-Fund are held in the reference currency corresponding to each of these Sub-Funds. The net asset value is calculated for each Sub-Fund and is expressed in the corresponding currency. The net asset value is calculated every bank business day in Luxembourg.

The net asset value of the shares of each Sub-Fund is calculated by dividing the net assets of the Sub-Fund by the total number of shares of the Sub-Fund in issue at that time. The net assets of each Sub-Fund correspond to the difference between the total assets and total liabilities of each Sub-Fund.

The net asset value of the shares of each share class is calculated by dividing the net assets of the Sub-Fund allocated to this share class by the total number of shares of said share class in issue at that time. The net assets of every share class correspond to the difference between the total assets and total liabilities of each share class.

If, since the time of determination of the Net Asset Value on the relevant Valuation Day, there has been a material change in the quotations in the markets on which a substantial portion of the investments attributable to the relevant Class/Category in respect of a Sub-Fund or to the relevant Sub-Fund are dealt in or quoted, the Fund may, in order to safeguard the interests of the shareholders and the Fund, cancel the first valuation and carry out a second valuation. All subscription, redemption and conversion requests shall be treated on the basis of this second valuation.

RISK MANAGEMENT PROCESS (UNAUDITED)

The SICAV will employ a risk-management process which enables it to monitor and measure at any time the risk of each Sub-Fund's portfolio positions and their contribution to the overall risk profile of each Sub-Fund.

For the following Sub-Funds the Management Company retained the commitment approach for the determination of the global risk exposure:

- SPANISH OPPORTUNITIES
- ABANTE EQUITY MANAGERS
- ABANTE GLOBAL SELECTION
- ABANTE PANGEA FUND
- ABANTE EUROPEAN QUALITY EQUITY FUND
- ABANTE BIOTECH FUND

REPORT ON THE ACTIVITIES OF THE FUND*

COVID-19 Outbreak

2021 have been the year of vaccination and variants. The vaccination rate has been increasing throughout 2021 and also the availability of vaccines. Almost 60% of the world population had at least one shot.

The surge of new variants of COVID-19 has been a trigger and but we have to be sure it will happen again and more variants will appear. The Delta variant, first detected in India, was noticed as a highly contagious that spread very fast all over the world during the first half of the year. After that, a higher contagious variant was detected in Sudafrica and named Omicron. But evidence suggests it is less severe than previous strains, especially compared to the Delta variant.

It is also important to say, that several treatments have been developed recently like the antivirals molnupiravir (developed by Merck), and nirmatrelvir/ritonavir (developed by Pfizer). Even countries were the COVID-19 is more advanced are starting to talk about treat the COVID-19 like flu.

The safety and well-being of our investors and employees is the priority and the business continuity plan has been allowing the Management Company to be fully operational without no impact on the daily activities.

SFDR (EU 2019/2088)

Abante Global Funds introduce pre-contractual disclosures required by SFDR in the Prospectus of the Company on March 2021 and describes how sustainability related disclosures are integrated into the investment decision making process of the Company and all its sub-funds in accordance with article 6 SFDR as well as how principal adverse impacts on sustainability factors are measured in accordance with article 7 SFDR. The investments underlying this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

The Fund and the Management Company consider that the sustainability risks can potentially threaten the long-term sustainability of the returns of the relevant Sub-Fund. Shareholders should therefore consider that when a sustainability risk materialises in respect of an asset, there might be a decrease and potentially even a total loss of its value, negatively impacting the net asset value of the relevant Sub-Fund.

The investment process takes into account sustainability risks and is based on proprietary and third-party analyses. To this end, the Management Company uses its own methodology together with data provided by external providers to actively integrate sustainability into the investment process. The Management Company reviews the environmental, social and/or governance risks, as well

as the financial ones, and uses ESG factors as a relevant filter for making investment decisions.

Global Market Overview

We closed the year 2021 with very positive returns for the vast majority of risk assets, despite the fact that COVID-19 is still present. The end of the year has been marked by the omicron variant. It's rapid spread and strong contagion capacity increased volatility in the markets in the last quarter. However, the lower degree of severity of the disease compared to previous variants, partly explained by the high percentage of the population vaccinated, helped the markets to close the year with gains. Thus, the world index ended 2021 up 22.5% in local currency, 29.3% measured in euros, very close to its all-time highs, with the United States being the most favored region. The S&P 500 close a very strong year with a 26.89% return measured in US dollar and the Nasdaq slightly behind. The Euro Stoxx 50 rose by 20.99%. The Ibex 35 was among the laggards, with a rise of 7.93% over the six-month period. The big negative surprise came from the emerging markets ending the year with declines of 2.29%, although they ended positive, +2.66%, when measured in euros because of the performance of Chinese stocks, that fell by 6.54% in euros.

The year, although very good in terms of performance, has had frequent alternations in terms of styles and sectors. Both value and growth have performed positively, and similarly at the end, although the former has built its profitability in the early and late stages of the year, and the latter has built its good performance in the central phase of the year. One of the major themes of the year, but especially of the second half, has been the great divergence in the performance of the stocks that fall into the "growth" category. The performance of large technology companies (Apple, Microsoft, Google, etc.) has been very good. However, small and medium-sized growth companies, especially the more expensive ones and those known as "unprofitable tech" have offered very poor and in some cases negative returns.

Fixed income has had a very difficult year, with falls in most of the categories. Only high yield has delivered positive returns because of the higher coupons and shorter duration. After a first part of the year with increasing interest rates in the broader fixed income markets, on the second half of the year, what we have seen is somewhat less pressure on developed market government bonds, which produced slight gains, but significant falls in emerging country bonds in local currency.

Commodities have had a strong pullback after a difficult 2020. The rise of inflation and bottlenecks around the world push higher most commodities. Oil, measured by Brent crude, closed the year with a rise of more than 51%.

REPORT ON THE ACTIVITIES OF THE FUND (CONTINUED)

In the other side, Gold, considered as a safe haven asset ended the year down 3.5%.

In terms of monetary policy, we have seen a change from a dovish to a more hawkish stance as the inflation has been more persistent than expected. The Federal Reserve is more concerned about strong inflation than the impact of the new COVID-19 variant. Thus, the Fed has accelerated the pace of tapering bond purchases and is beginning to consider raising rates earlier than expected. In Europe, the ECB presented no major news in its statements and the Bank of England surprised the market by raising interest rates by 15 basis points to 0.25% at its December meeting.

On the currency front, the euro was generally weak against the major international currencies. Thus, it has fallen a 7.5% in its exchange rate against the dollar.

U.S. inflation has been protagonist along the year, explained by the huge increases of prices on new and used cars and the energy ending the year at 6.8% compared to 1.4% of the January 21 reading. In Europe, the inflation surged to 4.9%. U.S. unemployment fall to 4.2%, a level increasingly close to full employment.

Spanish Opportunities

Spanish Opportunities Class A ended 2021 with a 8,18% return.

The end of 2021 and the beginning of 2022 confirm that the market continues to move based on headlines interpreted from a macroeconomic point of view. The emergence of the new variant caused the market to enter risk-off mode in the last days of November and the beginning of December. And the last days of last year and especially the start of the new year have seen the opposite movement. In 2021, the fund closed with a return of 9.25% compared to 7.9% for the Ibex35.

Thus, to a certain extent we can say that this year we play with marked cards. The behavior of the different assets at

the end of 2020 and until April 2021 are a good clue of what could happen this year if there is nothing that, as it happened then, truncates the return to normal. In the spring of last year, what was the fifth wave in Spain added to the bottlenecks in supply chains and energy prices, putting the economic recovery in doubt. Today it seems that, somewhat behind schedule but in any case in record time, in 2022 we will return to the starting line. And from now on, the macro headlines should be dominated by inflation, economic growth and the response of central banks.

The normalization of interest rates will be what marks the times in the markets. The recovery of part of the (much) lost ground of the curves means retracing the path traveled and, above all, breaking with the dynamics of recent years. Fixed income after the period in which it has had its best performance in history is the clearly losing asset. While in equities, the polarization between the fastest growing sectors and those we know as value or those whose income statements are more linked to the evolution of the real economy should be reversed: what was baptized last year as the great rotation.

In the last half of the year several changes have been made to the portfolio.

Prosegur Cash and Ence have been sold. The sales have been motivated by a loss of relative momentum. In the case of the cash transport company, its high exposure to Latin America and the fact that these economies will take longer to get back on their feet led to its sale. Its valuation is still very low, but within the universe of shares there are companies that may have a better time at similar valuations. In the case of the paper mill, his departure was motivated by the doubts that the last judicial resolution raises about the continuity of the Pontevedra plant. Although the price already reflects the worst case scenario, it does not seem that it can raise its head in a while.

Liberbank has also left the portfolio because it has been integrated into Unicaja once the absorption deadlines were met.

IAG and Amadeus have entered. The logic behind these additions is to gain exposure to companies that are going to benefit from the economic reopening. Both IAG and Amadeus are trading at very attractive multiples relative to their historical average valuations.

Abante Equity Managers

Our sub-Fund ABANTE GLOBAL FUNDS – ABANTE EQUITY MANAGERS is a long only equity fund of funds, whose Class A ended 2021 with a positive return of 17,08% versus 27,54% for the MSCI ACWI Index (Net total return). The sub-Fund maintained an underweight in US market (vs the benchmark) while we remained over weighted in European and emerging markets. The top contributors to the fund were Magna New Frontier and Smead US Value in our thematic portfolio and Fundsmith,

REPORT ON THE ACTIVITIES OF THE FUND (CONTINUED)

, Vulcan Value Equity and Melchior European Opportunities in the core part of our portfolio. Quality names has a very positive year along with the value bucket and the strong recovery from frontier companies.

Big detractors were RWC Nissay Japan Focus and Vitruvius Greater China due to the haircut suffered by growth companies in both regions.

For the coming year, we have increased our exposure to quality names as we believe that we could have a more challenging environment for certain businesses due to high inflation figures and too high expectations from the analysts. He have increased our position in Lindsell Train and Fundsmith and we have reduced our exposure in Mainfirst Top European Ideas. We have increased as well our exposure to Smead US Value Fund as their cyclical companies can do well in an inflationary scenario.

In August, we decided to sell the whole position in Seilern America and replace it by Edgewood US Select to have a more diversified portfolio in the high quality high growth names and in October we bought a new fund: Lonvia Avenir Mid cap Europe after a severe correction of the European Small Caps in September. We started by a modest weight in our portfolio with the idea of increasing it if the market gives us any opportunities in the future

Abante Global Selection

Our sub-fund ABANTE GLOBAL FUNDS – ABANTE GLOBAL SELECTION ended 2020 with a positive return of 11,84% with an average of 55,82% equity exposure. The Sub-Fund started 2021 with a 5% overweight in terms of equity risk that has been stable over the year and owning hedges on American and European indices. We have had a global exposure in equities including some exposure to emerging markets. During the year, we have maintained the US and European exposure and slightly reduced the emerging markets because market performance. The sub-fund has changed several positions at different stages of the year. In January we sold our active US funds (Vontobel US Equity, T Rowe Price US Equity) and increase our position in the ETF Invesco S&P 500. We sold Robeco US Large Caps and bought Robeco US Premium to have a more diversified portfolio in terms of market cap allocation. Additionally, we changed the ETF iShares MSCI World Value by Artisan Global Value. However, we sold it to buy Wellington Enduring Assets at the end of the year. Furthermore, we increase our exposure to global funds buying Seilern Global Growth and Nordea Global Climate and Environment. Lastly, we bought at the start of 2021 Threadneedle Global Technology, but we changed it to buy Polar Global Technology at the end of the year.

In the fixed income bucket, we have maintained a low level of credit risk and duration exposure due to risk return

expectations. As a result, we sold Candriam Credit Opportunities and BSF Fixed Income Strategies and included Morgan Stanley ABS, Muzinich Long Short Credit Yield and Vontobel Absolute Return Credit.

Abante Pangea Fund

ABANTE PANGAEA Class A EUR had a negative performance in 2021 largely due to the difference in performance between long position in cash equity based on a value concept vs. the short part of the fund that was sold on Nasdaq 100 and SP500 futures. Despite the good performance of commodity-based stocks in the first part of the year, the spectacular rally in FAANMG + Tesla in the final part of the year had a very negative effect as portfolio value stocks had in the second part of the year a very weak behavior despite the fact that the valuation potential according to the fundamental analysis models is very high. The investment in shares has been in the 50% zone with the position covered with the sale of futures adjusted for beta, being the current values of the portfolio, shares with a high cash generation and that in an environment where central banks can start to withdraw monetary stimuli can be a good investment alternative in the face of a global market that is at very high valuation levels in line with historical multiples. The world economy and financial markets are in a situation of total dependence on central banks and with macro challenges that are difficult to assume. Debt is amputating growth and I think this should lead to less P/E expansion and a slowdown in corporate earnings growth, which should translate into severe drops in the growth theme and in the American indices where it has been concentrated. a very high degree of speculation. The five "D's" facing the world (demographics, debt, digitization, currency imbalance and labor deflation) coupled with this supply crisis and temporary high inflation are elements to be cautious and continue with the strategy of a protected solid stock portfolio with the sale of the most speculative indices. There is a very good opportunity to buy quality European companies at very reasonable long-term prices such as Orange, Engie, Sanofi, Bayer, AbInbev, Carrefour, Telecom Italia, Heidelberg, Novartis, Pharol, OI, KPN and Vodafone. I think that these "value" values are a good place to take refuge for what may come between now and 2022 where I expect a turbulent year like few others.

If during 2022 there are falls in the indices where the hedges are placed, these could be removed and the net exposure to variable income increased. I believe that the SP 500 can go towards the 3,850/4,000 zone at some point in the year, where the assessment is demanding and offers a little more safety margin. In fixed income I believe that the US Bond above 2.25% offers a good investment opportunity. Abante Pangea is very well positioned at the moment where I estimate that the Nasdaq/SP500 will show drops of at least 20/25%, and on the other hand, in the portfolio some main values are having events that may make the high value emerge in the coming months they

REPORT ON THE ACTIVITIES OF THE FUND (CONTINUED)

have, the portfolio having an undervaluation of at least 40% in the main securities that compose it.

Abante European Quality Equity Fund

2021 has been the year of the normalization, after a 2020 altered by the pandemic. Most companies, except those operating in industries extremely affected by sanitary restrictions, will close the year with profits equal or higher of those of 2019. The stock markets have reacted very positively, with gains close to 20% in the main indexes. In the Eurozone, our benchmark Euro Stoxx 50 has gone up 21% in 2021. Our Sub-Fund, ABANTE GLOBAL FUNDS-ABANTE EUROPEAN QUALITY EQUITY FUND Class A, ended 2021 with a positive return of 27%, with an equally weighted portfolio of 23 large-cap stocks of the Eurozone.

The banks, the worst performers in 2020, have experienced a huge market revaluation in 2021 multiplying by 2 their lowest prices achieved one year before. The automobile industry, and other cyclical stocks have registered also big price gains. The big technological companies, those with consistent billionaire profits, with almost oligopolistic positions in the global market, have pursued their excellent behavior of 2020, and have been responsible of the bulk of the market revaluation. The high energy prices, and the temporary but relevant constraints in the supply chain in many products (semiconductors), have made jump the inflation to levels never seen in the last two decades. Even if, most probably, inflation pressures will diminish in 2022, is quite predictable that will remain above the 2% average long-term target of both the Federal Reserve and the ECB. In this context, during the last part of 2021, the interest rates required in the secondary market have jumped, anticipating a hike in the official rates, at least in the US, during 2022.

Our Sub-Fund, ABANTE GLOBAL FUNDS – ABANTE EUROPEAN QUALITY EQUITY FUND Class A, ended 2021 with a positive return of 27% (while the Euro Stoxx 50 ended 21%), with an equally weighted portfolio of 23 large-cap stocks of the Eurozone. The positive contribution of technological, industrial and luxury companies (like SAP, Siemens, Air Liquide or LVMH), has been followed, this year, with big gains in the financial stocks in our portfolio.

Financial stocks (5 banks and 1 insurance company) still represent the most weighted industry, representing around 30% of our portfolio. In the scenario of normalization of interest rates (that will remain, nevertheless still low in historical terms, with negative real returns), the retail banks must clearly improve their results. The growth of the middle classes in the emerging countries, the digitalization, and the energy transition, are the three long term trends that inspire our asset allocation. In the B2C part of our portfolio we have companies exposed to the

global expansion of the middle and high classes, like LVMH, Kering, L'Oréal, Inditex, Adidas, BMW and Daimler. The B2B companies in which we are invested operate in sectors (semiconductors, electrical equipment, industrial gases), that offer good growth prospects.

Abante Biotech Fund

ABANTE GLOBAL FUNDS - ABANTE BIOTECH FUND Class A ended 2021 with a negative net performance of 35.62% (Euro class) and 40.18% (Dollar class).

The fund is invested in c.54 companies, two thirds in small and mid-companies and one third in large caps in the biotechnology sector in the US. After a strong year for the sector in 2020, biotechnology lagged the broader markets in 2021. This performance is explained by several reasons ranging from an overheated private market that unleashed overvalued IPOs, the regulatory uncertainty around the FDA and the turnaround in the US federal government posture about drug pricing and healthcare system. Some of these events may have had a big effect on the sector M&A activity where it has been an historic source of return.

Despite the uncertainty around the FDA policies, the controversial statements and the situation around the FDA commissioner, the agency has approved a total of 50 new drugs in 2021, the average level of the last 5 years and twice as much as a decade ago. Furthermore, it has been an active year in IPOs activity and additions to the index. However, the high expectations around these names and the stretched valuations pushed the market down as investors rotated into more cyclical sectors.

During the year, we benefited from the M&A activity from Pfizer buying Arena Pharmaceutical, a company that was part of our portfolio. Additionally, we have done some changes in the portfolio through 2021 increasing our exposure to big-caps and reducing smaller companies because of risk return expectations and market environment.

We believe the biotechnology sector is well positioned for 2022 as we see attractive valuations that could pick up the M&A activity after a calm year and the acceleration of innovation that supports the approval of new treatments.

Luxembourg, February 2022

*Indications and comparisons are historical and not necessary an indication of future results.

Audit report

To the Shareholders of
ABANTE GLOBAL FUNDS

Our opinion

In our opinion, the accompanying financial statements give a true and fair view of the financial position of ABANTE GLOBAL FUNDS (the “Fund”) and of each of its sub-funds as at 31 December 2021, and of the results of their operations and changes in their net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements.

What we have audited

The Fund’s financial statements comprise:

- the combined statement of net assets for the Fund and the statement of net assets for each of the sub-funds as at 31 December 2021;
- the statement of investments in securities and other net assets as at 31 December 2021;
- the combined statement of operations and changes in net assets for the Fund and the statement of operations and changes in net assets for each of the sub-funds for the year then ended; and
- the notes to the financial statements, which include a summary of significant accounting policies.

Basis for opinion

We conducted our audit in accordance with the Law of 23 July 2016 on the audit profession (Law of 23 July 2016) and with International Standards on Auditing (ISAs) as adopted for Luxembourg by the “Commission de Surveillance du Secteur Financier” (CSSF). Our responsibilities under the Law of 23 July 2016 and ISAs as adopted for Luxembourg by the CSSF are further described in the “Responsibilities of the “Réviseur d’entreprises agréé” for the audit of the financial statements” section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

We are independent of the Fund in accordance with the International Code of Ethics for Professional Accountants, including International Independence Standards, issued by the International Ethics Standards Board for Accountants (IESBA Code) as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the financial statements. We have fulfilled our other ethical responsibilities under those ethical requirements.

Other information

The Board of Directors of the Fund is responsible for the other information. The other information comprises the information stated in the annual report but does not include the financial statements and our audit report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

*PricewaterhouseCoopers, Société coopérative, 2 rue Gerhard Mercator, B.P. 1443, L-1014 Luxembourg
T : +352 494848 1, F : +352 494848 2900, www.pwc.lu*

*Cabinet de révision agréé. Expert-comptable (autorisation gouvernementale n°10028256)
R.C.S. Luxembourg B 65 477 - TVA LU25482518*

In connection with our audit of the financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Board of Directors of the Fund for the financial statements

The Board of Directors of the Fund is responsible for the preparation and fair presentation of the financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements, and for such internal control as the Board of Directors of the Fund determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors of the Fund is responsible for assessing the Fund's and each of its sub-funds' ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors of the Fund either intends to liquidate the Fund or close any of its sub-funds or to cease operations, or has no realistic alternative but to do so.

Responsibilities of the “Réviseur d’entreprises agréé” for the audit of the financial statements

The objectives of our audit are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an audit report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control;
- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors of the Fund;

- conclude on the appropriateness of the Board of Directors of the Fund's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's or any of its sub-funds' ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our audit report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our audit report. However, future events or conditions may cause the Fund or any of its sub-funds to cease to continue as a going concern;
- evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

NOTES TO THE FINANCIAL STATEMENTS

December 31, 2021

GENERAL

ABANTE GLOBAL FUNDS (the «SICAV») was incorporated on February 7, 2013 as an investment company with variable capital (Société d'Investissement à Capital Variable) in accordance with part I of the law of December 17, 2010 on undertakings for collective investment as amended.

The articles of incorporation of the SICAV were published on February 19, 2013 in the Mémorial, Recueil des Sociétés et Associations du Luxembourg (Official Journal, Section of Companies and Association of Luxembourg) and were deposited with the Office of the District Court of Luxembourg where copies can be obtained. Any interested person may inspect this document on the Luxembourg Business Registers website : www.lbr.lu.

The capital of the SICAV is at any time equal to the total net assets of the various Sub-Funds (the “Sub-Funds”).

As at December 31, 2021 the following Sub-Funds are available to investors :

- SPANISH OPPORTUNITIES
- ABANTE EQUITY MANAGERS
- ABANTE GLOBAL SELECTION
- ABANTE PANGAEA FUND
- ABANTE EUROPEAN QUALITY EQUITY FUND
- ABANTE BIOTECH FUND

The SICAV may issue Shares of different Classes or Categories reflecting the various Sub-Funds which the Board of Directors may decide to open.

As at December 31, 2021 the following Shares are available to investors:

- Class A denominated in EUR and/or in USD and intended for investors with an initial minimum subscription amount of EUR 500,000.-;
- Class B denominated in EUR and/or in USD and intended for investors with no minimum subscription amount required.
- Class C denominated in EUR and/or in USD which may be available for subscription to customers of distributors and intermediaries appointed to distribute Class C shares. No minimum subscription amount is required.

The Sub-Fund ABANTE GLOBAL SELECTION does not offer particular share classes.

There is no minimum investment amount for the Sub-Fund

ABANTE GLOBAL SELECTION.

The objective of the SICAV is to offer its shareholders investments in a selection of negotiable securities and other eligible financial assets combining high growth potential and a high degree of liquidity.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

a) Basis of preparation

The SICAV prepares its combined financial statements and those of each Sub-Fund in conformity with legal and regulatory requirements in Luxembourg. The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities during the reporting year or period. Actual results could differ from those estimates.

b) Valuation of the investments

The value of any cash in hand or on deposit, notes and bills payable on demand and accounts receivable, prepaid expenses and cash dividends declared and interest accrued but not yet collected, is deemed the nominal value of these assets unless it is improbable that it can be paid and collected in full; in which case, the value will be defined after deducting such amounts as the Board of Directors may consider appropriate.

The value of any securities listed or dealt in on a stock exchange or regulated market is calculated on the basis of the last available price. The value of securities dealt in on the over the counter market or on any other regulated market is based on the last available price.

In the event that the securities held in the portfolio on the relevant valuation date are not listed or dealt in on a stock exchange or another regulated market or if the price as determined pursuant to paragraph above is not representative of the fair market value of the relevant securities, the value of such securities is determined based on the reasonably foreseeable sales price determined prudently and in good faith by the Board of Directors of the SICAV.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

c) Valuation of Investment Funds

Units or shares of undertakings for collective investment are valued at their last determined and available net asset value or, if such price is not, in the opinion of the Board of Directors, representative of the fair market value of such assets, then the price shall be determined by the Board of Directors on a fair and equitable basis.

d) Net realised gain or loss on sales of investments

Net realised gain or loss on sales of investments are calculated on the basis of the average cost of the investments sold.

Net realised gain or loss on options are included under the caption “ Net realised result on sales of investments” in the Statement of Operations and Changes in Net Assets.

e) Valuation of forward foreign exchange contracts, futures and options

Forward foreign exchange contracts, Futures and options are valued by reference to the last available price on the relevant market. The market prices used are the futures/options exchange settlement prices.

f) Conversion of foreign currencies

Assets and liabilities expressed in currencies other than the Sub-Fund’s reporting currency are converted into the reporting currency at the exchange rates prevailing on the valuation date. Income and expenses in currencies other than the Sub-Fund’s reporting currency are converted at the rate of exchange prevailing at payment date.

g) Acquisition costs of the securities held in the portfolio

For securities expressed in a currency other than the reporting currency of the Sub-Funds, the acquisition cost is calculated on the basis of the exchange rate at the day of such acquisition. Expenses incurred on the acquisition and/or sale of an investment are included under Transaction fees in the Statement of Operations and Changes in Net Assets.

h) Formation/reorganisation expenses

Formation expenses are amortised on a straight line basis over a period of 5 years. If a new Sub-Fund is created in the future, the upfront costs for the Sub-Fund will be borne by the Sub-Fund exclusively and will be amortized over a period of 5 years with effect from the launch date of the said Sub-Fund.

i) Income and expense recognition

Dividends are taken into account on the date upon which the relevant investments are first listed as ex-dividend. Interest income is accrued on a daily basis. Income is recorded net of withholding tax, if any.

j) Exchange rates as at December 31, 2021

PRESENTATION BASIS OF COMBINED FINANCIAL STATEMENTS

The combined financial statements of the SICAV are expressed in EUR.

ISSUE, CONVERSION AND REDEMPTION OF SHARES

The Board of Directors is authorised to issue Shares of each Sub-Fund and of each Class/Category at any time and without limitation.

After the Initial Subscription Period, the Subscription Price corresponds to the Net Asset Value per Share for the relevant Valuation Day.

The Redemption Price corresponds to the Net Asset Value per Share on the relevant Valuation Day.

The Shares of a Class of the Sub-Fund may be converted into Shares of the same Class of another Sub-Fund of the SICAV.

ANNUAL TAX

The SICAV is governed by the Luxembourg taxation laws.

Under the currently applicable legislation and regulation, the SICAV is liable in Luxembourg to a tax of 0.05% per annum of its net assets, such tax being payable quarterly and calculated on the basis of the net assets at the end of the relevant quarter.

However such rate is decreased to 0.01% per annum of their Net Asset Value for specific classes of shares reserved to institutional investors in a Sub-Fund.

ANNUAL TAX (continued)

In accordance with article 175 of the amended law of December 17, 2010, the value of assets represented by shares held in other undertakings for collective investment already subject to the subscription fee is free from such taxation.

Under current law and practice, the SICAV is not liable to Luxembourg taxes on income or capital gains, nor are dividends paid by the SICAV liable to any Luxembourg withholding tax. Interests, dividends and capital gains on securities may be subject to withholding or capital gains taxes in certain countries.

TRANSACTION FEES

The total amount of transaction fees is included in the statement of operations and changes in net assets and includes Custodian and Sub-Custodian fees, Correspondent's expenses and Brokerage fees in relation to transactions.

For fixed income securities, transaction fees are generally included in the spread of the investments, hence not reflected in the total amount of transaction fees in the statements of operations and changes in net assets.

COLLATERAL HELD AT BROKERS

The total amount of cash collateral of each Sub-Fund as at December 31, 2021 is disclosed in the Statement of net assets of each Sub-Fund under:

- "Margin deposits" for the collateral relating to the outstanding Forward foreign exchange contracts.
- "Cash at sight by the broker" for the collateral relating to the outstanding Future contracts.

MANAGEMENT COMPANY

The Board of Directors has appointed, under its responsibility and its supervision, Abante Asesores Gestion SGIIC, S.A. with effective date November 1, 2016, as the Management Company of the SICAV.

The Management Company is responsible for the management of the Sub-Funds. In order to carry out the investment policy of any Sub-Fund.

Management company fees are included in the statements of operations and changes in the net assets of the relevant Sub-Fund under the caption "Management fees". Those fees are covering Management Company Fees.

Such fee is accrued on each Valuation Day and payable quarterly in arrears:

The Distribution fees are included in the fees paid to the Management Company.

In addition, the Management Company receives a performance fee paid annually. The performance fee computation method and rate are detailed in the prospectus dated November 2018 of the SICAV. The amount of performance fee per Sub-Fund is detailed in the statement of operations and changes of each Sub-Fund concerned.

PRINCIPAL DISTRIBUTOR

On October 31, 2016, the Management Company and Abante Asesores Distribucion AV, S.A. signed a Distribution Agreement for an unlimited duration.

CUSTODY, ADMINISTRATION AND DOMICILIATION FEES

The Domiciliary agent is Edmond de Rothschild (Europe), S.A. since November 1, 2016.

By an agreement dated 31 October 2016 (the "Central Administration Agreement") entered into by and between the Fund, the Management Company and Edmond de Rothschild Asset Management (Luxembourg), Edmond de Rothschild Asset Management (Luxembourg) (the "Administrative, Paying and Registrar and Transfer Agent") has been appointed by the Management Company as the administrative agent (in this capacity, the "Administrative Agent"), paying agent (in this capacity, the "Paying Agent") and registrar and transfer agent (in this capacity, the "Registrar and Transfer Agent") for the Fund whereby the Management Company has delegated, under its control and responsibility, its central administration functions consisting of administrative, paying and registrar and transfer agency functions.

DELEGATION

Edmond de Rothschild Asset Management (Luxembourg) and Edmond de Rothschild (Europe) may delegate all or

part of their functions and duties to a sub-contractor which, having regard to the nature of the functions and duties to be delegated, must be qualified and capable of undertaking the duties in question.

OTHER EXPENSES

Balances for other expenses in the Statement of Operations and Changes in Net Assets mainly include research fees, transfer agency fees, banking services and Risk Management fees.

CHANGES IN THE INVESTMENT PORTFOLIO

A copy of the changes in the investment portfolio for the Year ended December 31, 2021 is available free of charge at the registered office of the SICAV.

SUBSEQUENT EVENT

There is no subsequent event.

PERFORMANCE FEES (unaudited)

In application of the ESMA Guidelines on performance fees (ESMA34-39-992) and Circular CSSF 20/764, the table below displays the actual amount of performance fees charged by each relevant Share Class and the percentage of these fees based on the Share Class Net Asset Value ("NAV"). Only the Share Classes for which performance fees have been charged are shown below:

INFORMATION CONCERNING THE REMUNERATION POLICY (UNAUDITED)

European Directive 2014/91/EU amending Directive 2009/65/EC on undertakings for collective investment in transferable securities, which is applicable to the fund, came into force on 18 March 2016. It is implemented in national law under the Luxembourg Act of 10 May 2016 implementing Directive 2014/91/EU. Due to these new regulations, the fund is required to publish information relating to the remuneration of identified employees within the meaning of the Act in the annual report.

Total amount of remuneration paid by the ABANTE ASESORES GESTIÓN SGIIC, S.A. to its staff during the year ending December 31, 2021 is as follows:

Fixed Remuneration	1,776,152.25
Variable Remuneration	1,385,771.34
Total	3,161,923.59
# of beneficiaries	35

**Fixed remuneration consists of salaries paid, and non-monetary benefits. Variable remuneration consists of periodic bonuses paid in accordance with remuneration policies.*

Total remuneration of staff involved in ABANTE GLOBAL FUNDS activities is as follows:

Total AUM ABANTE GLOBAL FUNDS
EUR 375,938,658.21

Total AUM ABANTE ASESORES GESTIÓN SGIIC, S.A. EUR 2,701,707,018.18
Total remuneration of ABANTE GLOBAL FUNDS
15,84% of the total remuneration EUR 439,977.13

For the purpose of this disclosure, the total remuneration has been allocated based on the assets under management of ABANTE GLOBAL FUNDS in comparison with total assets under management of the funds managed by ABANTE ASESORES GESTIÓN SGIIC, S.A. In addition, the aggregate amount of remuneration is further broken down as follows:

Senior management	645,345.89
Other members having a material impact on risk profile of UCITS	1,112,283.63
Total	1,757,629.52
# of beneficiaries	8

The fixed remuneration is established taking into consideration the level of responsibility and the professional career of the employee within the Group, setting a salary reference for each function that reflects its value within the Organization.
