## Directors' Report

### Fixed Income Market Conditions

Monetary authorities have been in discussions over the past year between continuing to fight persistent underlying inflation and the threat to growth posed by the rapid tightening of financing conditions. In this sense, although the main Central Banks continued to raise their official interest rates (200 bp by the ECB to 4.50% and 100 bp by the Federal Reserve to a range of 5.25%-5.50%), the fixed income markets were clearly correcting their expectations for interest rates downwards for the coming years.

The new focus of geopolitical tension with the Middle East crisis did not contribute to clarifying the economic outlook. Despite a North American economy that continued to surprise with its resilience, financial markets began to anticipate an upcoming slowdown and have practically finished, for the moment, the work of the monetary authorities.

### Fixed Income Markets Outlook

After a first quarter of the year that will be influenced by high issuance activity by Governments and companies, the effects of restrictive monetary policy on inflation and growth should be reflected in the fixed income markets. Aside from negative surprises, the foreseeable moderation of inflation rates, together with the expected weakness of economic growth, especially in Europe, fuel expectations of cuts in official interest rates by the main central banks. In this sense, we expect a decrease in negotiated yields during the second half of the year, at which time we expect the Central Banks to begin to implement a more accommodative monetary policy.

Concerning corporate credit, we expect it to be range bound as an asset class, in our central scenario closer to a soft landing. We consider valuations are already very tight. Therefore, we remain name pickers rather than sector-wide investors. We OW: Autos (selective), Financials, and Technology, Utilities. MW: Energy, Communications, Consumer Staples, Consumer Discretionary. UW: Beverages, Industrials, Materials, Healthcare.

### Equity Markets Conditions

The year 2023 ended up being very rewarding for equity investors in most geographies, a welcome development relative to the expectations of investors at the start of the year. Most analysts were fretful about the delayed impact of interest rates and increasing signs of moderation which were read as a harbinger of things to come. The cornerstone of this favourable development is the strength of the US economy that has been demonstrated in several fronts: the employment figures have stayed on the strong side most of the year, probably explaining the positive signs that kept coming from the consumer. Another very important factor in the markets was that corporate profits, although registering a slowdown to almost negative growth, kept on surprising to the upside relative to the expectations of investors. It is of course important to note that the USA were rather an exception because Europe didn't manage to surprise to upside and growth in our area, dragged down by the northern countries, was almost negative. Another source of disappointment was China where the lack of dynamism has been both a source of worry and of frustration for investors. Japan on the other hand was a also a positive surprise, a welcome change to the usual pattern of other years.

The very solid performance of the markets is also explained by the behaviour of inflation. The downturn in inflation number has been a feature of 2023. This allowed a relaxation of the pressure from interest rates, which equity investor must monitor to keep the valuation of the asset class in reasonable territory. Another important dimension is that the positive surprise in the inflationary trend (i.e., inflation lower than expected) diminished the probability of a scenario where the monetary authorities increased interest rates to a level endangering growth to tame inflation. The more probable scenario gradually converged to a soft landing, a good scenario for risk takers.

Another salient feature of the year was the very favourable evolution of technology stocks. There are clear signs of frenzy in the sector with dizzying increases in share prices. But there are also very fundamental signs of a surge of activity, related to the innovation brought by the Large Language Models like the universally acclaimed Chat GPT. The trajectory of the sector is hotly debated among investors, but the positive impact for the economy is not questioned.

The outlook for 2024 is of course uncertain but there are solid signs that the trajectory of the economy could be better than forecast. This will undoubtedly bring questions and problems, but those are of course more manageable than if the outlook for growth was getting darker.

The table here below details the respective sub-funds' performances for the year from 01.01.2023 to 31.12.2023 and their annualized volatility.

## **REPORT OF THE REVISEUR D'ENTREPRISES AGREE**

### ***Report on the audit of the financial statements***

#### ***Opinion***

We have audited the financial statements of MAPFRE AM and each of its sub-funds ("the Fund"), which comprise the statement of net assets and the securities portfolio as at 31 December 2023 and the statement of operations and changes in net assets for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of MAPFRE AM and each of its sub-funds as at 31 December 2023, and of the results of their operations and changes in their net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements.

#### ***Basis for opinion***

We conducted our audit in accordance with the Law of 23 July 2016 on the audit profession ("Law of 23 July 2016") and with International Standards on Auditing ("ISAs") as adopted for Luxembourg by the Commission de Surveillance du Secteur Financier ("CSSF"). Our responsibilities under the Law of 23 July 2016 and ISAs as adopted for Luxembourg by the CSSF are further described in the « Responsibilities of "réviseur d'entreprises agréé" for the audit of the financial statements » section of our report. We are also independent of the Fund in accordance with the International Code of Ethics for Professional Accountants, including International Independence Standards, issued by the International Ethics Standards Board for Accountants ("IESBA Code") as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the financial statements, and have fulfilled our other ethical responsibilities under those ethical requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### ***Other information***

The Board of Directors of the Fund is responsible for the other information. The other information comprises the information stated in the annual report but does not include the financial statements and our report of the "réviseur d'entreprises agréé" thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report this fact. We have nothing to report in this regard.

### ***Responsibilities of the Board of Directors of the Fund for the financial statements***

The Board of Directors of the Fund is responsible for the preparation and fair presentation of these financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements, and for such internal control as the Board of Directors of the Fund determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors of the Fund is responsible for assessing the Fund's and each of its sub-funds' ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors of the Fund either intends to liquidate the Fund or any of its sub-funds or to cease operations, or has no realistic alternative but to do so.

### ***Responsibilities of the "réviseur d'entreprises agréé" for the audit of the financial statements***

The objectives of our audit are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue a report of the "réviseur d'entreprises agréé" that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors of the Fund.

- Conclude on the appropriateness of the Board of Directors of the Fund's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's or any of its sub-funds' ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our report of the "réviseur d'entreprises agréé" to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our report of the "réviseur d'entreprises agréé". However, future events or conditions may cause the Fund or any of its sub-funds to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

#### 2.1 Presentation of the Financial Statements

The Financial Statements of the Fund are established on a going concern basis of accounting in accordance with the Luxembourg legal and regulatory requirements concerning undertakings for collective investment and generally accepted accounting principles in Luxembourg.

All the Sub-funds of the Fund have a daily NAV computation.

The financial statements have been prepared on the basis of the unofficial NAV calculated as at December 31, 2023 for the sole purpose of the financial statements.

#### 2.2 Valuation of assets

a) Transferable Securities or Money Market Instruments quoted or traded on an official stock exchange or any other Regulated Market, are valued on the basis of the last known price as of the relevant Valuation Day, and, if the securities or Money Market Instruments are listed on several stock exchanges or Regulated Markets, the last known price of the stock exchange which is the principal market for the security or Money Market Instrument in question, unless these prices are not representative.

b) For Transferable Securities or Money Market Instruments not quoted or traded on an official stock exchange or any other Regulated Market, and for quoted Transferable Securities or Money Market Instruments, but for which the last known price as of the relevant Valuation Day is not representative, valuation is based on the probable sales price estimated prudently and in good faith by the Board of Directors of the Fund.

c) Units and shares issued by UCITS or other UCIs will be valued at their last available net asset value as of the relevant Valuation Day.

d) Accrued interest on securities will be taken into account if it is not reflected in the share price.

e) Cash will be valued at nominal value, plus accrued interest.

f) All assets denominated in a currency other than the Reference Currency of the respective Sub-fund/Class will be converted at the mid-market conversion rate as of the relevant Valuation Day between the Reference Currency and the currency of denomination.

g) All other securities and other permissible assets as well as any of the above mentioned assets for which the valuation in accordance with the above paragraphs would not be possible or practicable, or would not be representative of their probable realisation value, will be valued at probable realisation value, as determined with care and in good faith to procedures established by the Board of Directors of the Fund.

#### 2.3 Acquisition cost of securities in the portfolio

The acquisition cost of the securities held by each Sub-fund that are denominated in currencies other than the reference currency of the Sub-fund is converted into this currency at the exchange rate prevailing on the date of purchase.

## Notes to the Financial Statements as at December 31, 2023 (continued)

### Note 2. Significant accounting policies (continued)

#### 2.4 Net realised gain / (loss) on sales of securities

The realised gains and losses on sales of securities are calculated on the basis of the average acquisition cost of the securities.

#### 2.5 Investment income

Dividend income is recorded at the ex-date, net of any withholding tax.  
Interest income accrued and payable are recorded, net of any withholding tax.

#### 2.6 Valuation method for futures

Unrealized gains or losses on open futures contracts are calculated as being the net difference, on any Valuation day, between the contract price and the closing price reported on the primary exchange of the futures contracts. These amounts are included in the Statement of Net Assets and in the Statement of Operations and Changes in Net Assets.

#### 2.7 Conversion of foreign currencies

Cash at banks, other net assets and liabilities and the market value of the securities in portfolio expressed in currencies other than the currency of the Sub-fund are converted into this currency at the exchange rate prevailing on the date of the report. Income and expenses expressed in currencies other than the currency of the Sub-fund are converted into this currency at the exchange rate prevailing on the date of the transaction. Exchange gains and losses are recorded in the Statement of Operations and Changes in Net Assets.

At the date of this report, the exchanges rates used are as follows:

1 EUR =	1.618900	AUD	1 EUR =	155.733550	JPY
1 EUR =	1.456600	CAD	1 EUR =	1,422.678800	KRW
1 EUR =	0.929700	CHF	1 EUR =	18.706700	MXN
1 EUR =	964.674350	CLP	1 EUR =	11.218500	NOK
1 EUR =	24.688500	CZK	1 EUR =	1.744700	NZD
1 EUR =	7.454550	DKK	1 EUR =	4.343750	PLN
1 EUR =	0.866550	GBP	1 EUR =	11.132500	SEK
1 EUR =	382.215000	HUF	1 EUR =	32.624750	TRY
1 EUR =	3.977750	ILS	1 EUR =	1.104650	USD

#### 2.8 Valuation of options contracts

A purchaser of a put option has the right, but not the obligation, to sell the underlying instrument at an agreed upon ("Strike price") to the option seller. A purchaser of a call option has the right, but not the obligation, to purchase the underlying instrument at the strike price from the option seller. Premiums paid by the Sub-fund for purchased options are included in the statement of net assets as an investment. The option is adjusted daily to reflect the current market value of the option and the change is recorded as unrealised appreciation or depreciation. If the option is allowed to expire, the Fund will lose the entire premium that it paid and record a realised loss for the premium amount. Premiums paid for purchased options that are exercised or closed are added to the amounts paid or offset against the proceeds on the underlying investment transaction to determine the realised gain/loss or cost basis of the security.

#### 2.9 Valuation of forward foreign exchange contracts

The forward foreign exchange contracts represent obligations of purchase or the sale of foreign currency on the basis of future exchange rates determined at a fixed price at the time of conclusion of the contracts. The unexpired forward foreign exchange contracts are valued at the last "forward" rate available on the valuation dates or at the balance sheet date and unrealised gains or losses are recorded in the Statement of Net Assets. Realised gains / (losses) and the Changes in unrealised gains or (losses) are included in the Statement of Operations and Changes in Net Assets.

#### 2.10 Interest Rate Swaps (IRS)

An Interest Rate Swap is a bilateral agreement in which each party agrees to exchange a series of interest payments for another series of interest payments on the basis of a notional amount serving as the basis of calculation that is generally not exchanged.

Interest Rate Swaps are valued on the basis of the present value of future cash flows resulting from interest and notional repayments. Realised gains / (losses) and the changes in unrealised gains or (losses) are included in the Statement of Operations and Changes in Net Assets.

## Notes to the Financial Statements as at December 31, 2023 (continued)

### Note 2. Significant accounting policies (continued)

#### 2.11 Repurchase transactions

A repurchase transaction is the sale of security with a commitment by the Fund to buy the same security back from the purchaser at a slightly higher price at a designated future date. The difference in price from the initial sale to repurchase of the security corresponds to the implicit interest paid.

The interest paid is recorded in the Statement of Operations and Changes in Net Assets under "Interest paid on repurchase transactions".

#### 2.12 Combined statements

The combined Financial Statements of the Fund are expressed in EUR and are equal to the sum of the corresponding captions in the Financial Statements of each Sub-fund.

### Note 3. Investment Manager and Management Company fees

The Board of Directors of the Fund appointed Waystone Management Company (Lux) S.A. as Management Company by means of the Management Company Agreement to provide management, administration and marketing services.

As remuneration for the services of the Management Company, there is a fee up to 0.03% per year of the net assets of the each of the Sub-funds, subject to an annual minimum of EUR 10,000 per Sub-fund.

The Management Company has, by means of the Investment Management Agreement, appointed MAPFRE Asset Management S.G.I.I.C S.A. as the Investment Manager of the assets of the Fund.

## Notes to the Financial Statements as at December 31, 2023 (continued)

### Note 4. Subscription Tax

The Fund is governed by Luxembourg tax laws. Under current law and practice, the Fund is liable to an annual registration tax of 0.05% (except those Sub-funds or share categories or classes, which may benefit from the lower rate of 0.01%, i.e. the "Institutions" (considered as institutional investors in accordance with Luxembourg law) category or class of shares of the various Sub-funds). This tax is payable quarterly and calculated on the basis of the Fund's net assets at the end of the relevant quarter.

No duty or other tax will be paid in Luxembourg on the issue of shares of the Fund.

Income received by the Fund may be liable to withholding taxes in the country of origin and is thus collected by the Fund after deduction of such tax. This is neither chargeable nor recoverable.

### Note 5. Depositary and administration fees

The Depositary is entitled to receive out of the assets of each Sub-fund a fee of up to 0.50% p.a. calculated on the average of the value of the NAV of the relevant Sub-fund over the relevant period and is payable quarterly in arrears.

The Administrative Agent is entitled to receive out of the assets of each Sub-fund a fee of up to 1.00% p.a. calculated on the average of the value of the NAV of the relevant Sub-fund over the relevant period and is payable quarterly in arrears.

### Note 6. Transaction costs

Transaction costs are disclosed under the caption "Transaction costs" in the expenses of the Statement of Operations and Changes in Net Assets and are mainly composed of transaction costs incurred by the Fund relating to purchases or sales of securities, of fees relating to liquidation of transactions paid to the depositary bank and of transaction fees on financial instruments.

### Note 7. Statement of changes in investments

The statement of changes in investments for the year in reference to the report is available free of charge at the registered office of the Fund.

### Note 8. Swing price

The actual cost of purchasing or selling assets and investments for a Sub-fund may deviate from the latest available price or net asset value used, as appropriate, in calculating the net asset value per shares due to duties and charges and spreads from buying and selling prices of the underlying investments. These costs have an adverse effect on the value of a Sub-fund and are known as dilution. To mitigate the effects of dilution, the Fund may, at its discretion, make a dilution adjustment to the net asset value per shares.

As at December 31, 2023, the Board of Directors of the Fund has not yet adopted Swing Pricing.

### Note 9. Futures contracts

### Note 13. Performance fee

#### MAPFRE AM - Inclusion Responsible Fund

The Investment Manager is entitled to receive from the Sub-fund a performance fee (the Performance Fee) calculated, and accrued daily as an expense of the relevant Class, over the relevant calendar year (the Performance Period). Provided that the performance of the Sub-Fund since the beginning of the year is positive and exceeds the performance of EURO STOXX 50 Net Return EUR (the Reference Index) described hereafter, a daily provision of a maximum of 25% of the positive difference between the change in the NAV based on the number of units outstanding at the end of the relevant Performance Period (the Calculation Date) and the change in the Reference Index is established. In the event of redemptions, the portion of the performance fee provision corresponding to the redeemed Shares is transferred to the Investment Manager under the crystallization. The whole performance fee is paid to the Investment Manager at year-end.

Provision is made for the Performance Fee on each Valuation Day. If the NAV per Share decreases during the Performance Period, the provisions made in respect of the Performance Fee are reduced accordingly. If these provisions fall to zero, no Performance Fee is payable.

The Performance Fee is calculated on the basis of the NAV after deduction of all expenses, liabilities (but not the Performance Fee), and is adjusted to take account all subscriptions, redemptions, dividends and distributions.

There were no performance fees as at reporting date.

None of the other Sub-funds are subject to performance fees.

### Investment remuneration policy

Waystone Management Company (Lux) S.A. (Henceforth, "Waystone", "WMC Lux", or the "Company") has adopted a remuneration policy in accordance with the applicable regulatory framework, particularly:

- The ESMA Guidelines on sound remuneration policies under the UCITS Directive of 14 October 2016 (ESMA/2016/575) and the ESMA Guidelines on sound remuneration policies under the AIFMD (ESMA/2013/232, as amended by ESMA/2016/579),
- The Law of 17 December 2010 relating to undertakings for collective investment,
- The Law of 12 July 2013 on alternative investment fund managers, and
- The CSSF Circular 18/698 of 23 August 2018 on the Authorization and organization of investment fund managers incorporated under Luxembourg law.

Through its remuneration policy, and as prescribed by the Sustainable Finance Disclosure Regulation [Regulation (EU) 2019/2088 of 27 November 2019 or the "SFDR"], the Company ensures that the structure of its remuneration does not encourage excessive risk taking with respect to sustainability risks when performing its activities as AIFM/Management Company, while it promotes sound and effective risk management with respect to sustainability risks.

Details of Waystone's remuneration policy, including the persons in charge of determining the fixed and variable remunerations of staff, a description of the key remuneration elements, and an overview of how remuneration is determined, is available under <https://www.waystone.com/waystone-policies/>.

With respect to the financial year ended 31 December 2023 (when, as of that date, WMC Lux had a headcount of 83 employees), the total fixed and variable remuneration paid by the Company to its employees amounted to EUR 8,084,973 and EUR 714,783 respectively.

The total remuneration paid by the Company to senior management and members of its identified staff whose actions have a material impact on the risk profile of the collective investment schemes managed amounted to EUR 3,872,522.

The Company's remuneration committee has reviewed the implementation of the remuneration policy and has not identified any deficiency in that respect. Moreover, the current version of the remuneration policy was updated and approved by the Board of directors in the financial year ended 31 December 2023, being the current version dated of November 2023.

The remuneration policy was reviewed and approved by the Board of Directors on 29 November 2023.

## Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes

No

It made **sustainable investments with an environmental objective:** \_\_\_%

- in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective:** \_\_\_%

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of \_\_\_% of sustainable investments

- with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
- with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852 establishing a list of **environmentally sustainable economic activities**. This Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

### To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Sub-fund promotes a combination of social and environmental characteristics, aiming at generating a positive impact using an innovative methodology which allows it to identify financially competitive companies that are at the same time committed with the environment.

The Sub-fund integrates Sustainability Risks in investment decisions by following a specific own selection methodology. This methodology focuses on eco-social factors based on more than 170 indicators and allows to identify high-value companies, committed to sustainable development and growth. This selection methodology is combined furthermore with an evaluation of the level of commitment of eligible companies using a questionnaire that quantifies, classifies and supervises a series of specific practices of companies.

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

However, the financial product has not defined any specific sustainability indicators to follow.

● ***How did the sustainability indicators perform?***

Not applicable.

● ***... and compared to previous periods?***

Not applicable.

● ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

Not applicable.

● ***How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?***

Not applicable.

*How were the indicators for adverse impacts on sustainability factors taken into account?*

Indicators have been integrated through the ESG Ecosocial Footprint questionnaire® which is annually updated and allows to follow the extrafinancial practices of companies in the investment universe. Fully integrated into the IVA® analysis, indicators concerning adverse impacts are followed up by the investment managers seeking to select companies according to a conviction approach and “best-in-universe”.

*Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

Not applicable.

*The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

The “do not significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investment must also not significantly harm any environmental or social objectives.*

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights and anti-corruption and anti-bribery matters.

### How did this financial product consider the principal adverse impacts on sustainability factors?

The consideration of principal adverse impacts on sustainability factors was done by the selection of quality and engaged issuers in the context of the sustainability process. Such a selection contributes to reduce the negative externalities caused by the investments. To avoid this, we have developed several systems:

The Empreinte Ecosociale®: the database includes 174 historical indicators (68 social, 67 environmental and 39 linked to governance practices) annually updated since 2009 via a questionnaire developed by the investment teams and shared with more than 240 entities:

- A specific typology based investment process as described in this document;
- An exclusion policy;
- A controversies management policy;
- An engagement policy.

### What were the top investments of this financial product?

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period, which is: **31.12.2023**

Largest investments	Sector	% Assets	Country
Government bond, Kingdom of Belgium	Bonds	15.03%	Belgium

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights and anti-corruption and anti-bribery matters.

*The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

The “do not significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investment must also not significantly harm any environmental or social objectives.*

### **How did this financial product consider the principal adverse impacts on sustainability factors?**

The consideration of principal adverse impacts on sustainability factors was done by the selection of quality and engaged issuers in the context of the sustainability process. Such a selection contributes to reduce the negative externalities caused by the investments. To avoid this, we have developed several systems:

The Empreinte Ecosociale®: the database includes 174 historical indicators (68 social, 67 environmental and 39 linked to governance practices) annually updated since 2006 via a questionnaire developed by the investment teams and shared with more than 240 entities:

- A specific typology based investment process as described in this document;
- An exclusion policy;
- A controversies management policy;
- An engagement policy.
