GENERAL INFORMATION

Fidelity UCITS II ICAV (the "Fund") was registered in Ireland pursuant to the Irish Collective Asset-management Vehicles Act 2015 (as amended) on 14 November 2017 under registration number C174793 and is authorised by the Central Bank of Ireland (the "Central Bank") under the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (as amended) (the "UCITS Regulations").

Effective from 1 June 2022, the Manager of the Fund changed from FIL Fund Management (Ireland) Limited to FIL Investment Management (Luxembourg) S.A., Ireland Branch ("Manager").

Except where the context otherwise requires, defined terms shall bear the meaning given to them in the Prospectus of the Fund.

The Fund is organised in the form of an umbrella fund with segregated liability between sub-funds. The Prospectus provides that the Fund may offer separate sub-funds. Each sub-fund will have a distinct schedule of investments. Currently, there are 24 Sub-Funds under the umbrella. Of these 24 sub-funds, 10 Sub-Funds have 31 December year end and 14 Sub-Funds have 31 January year end. These 31 January year end financial statements are prepared for the below 11 Sub-Funds which were launched as of the financial year end (each, a "Sub-Fund" and, collectively, the "Sub-Funds").

There are two other Sub-Funds of the umbrella with 31 January year end (Fidelity MSCI Eurozone Index Fund and Fidelity MSCI UK Index Fund) that have been approved by the Central Bank of Ireland, but they have not been launched as at the financial year end. The Fidelity Global Government Bond Climate Aware Index UCITS ETF Fund launched on 15 March 2023.

Sub-Fund	Launch Date
Fidelity MSCI Emerging Markets Index Fund	20 March 2018
Fidelity MSCI Europe Index Fund	20 March 2018
Fidelity MSCI Japan Index Fund	20 March 2018
Fidelity MSCI Pacific ex-Japan Index Fund	20 March 2018

Fidelity S&P 500 Index Fund	20 March 2018
Fidelity Enhanced Reserve Fund	26 March 2018
Fidelity Global Credit ex-US Fund	2 March 2020
Fidelity Sustainable Global Corporate Bond Paris-Aligned Multifactor UCITS ETF*	22 March 2021
Fidelity Sustainable USD EM Bond UCITS ETF	25 March 2021
Fidelity Sustainable Global High Yield Bond Paris-Aligned Multifactor UCITS ETF	7 November 2022
Fidelity Global Government Bond Climate Aware Index UCITS ETF Fund	15 March 2023
Fidelity MSCI Eurozone Index Fund	Unlaunched
Fidelity MSCI UK Index Fund	Unlaunched

^{*} On 30 September 2022, the Sub-Fund Fidelity Sustainable Global Corporate Bond Paris-Aligned Multifactor UCITS ETF changed the name from Fidelity Sustainable Global Corporate Bond Multifactor UCITS ETF.

With the prior approval of the Central Bank, the Fund from time to time may create an additional Sub-Fund or Sub-Funds, the investment policies and objectives for which will be outlined in a Relevant Supplement, together with details of the initial offer period, the initial subscription price for each Share and such other relevant information in relation to the additional Sub-Fund or Sub-Funds as the Directors may deem appropriate, or the Central Bank requires, to be included. Each Relevant Supplement will form part of, and should be read in conjunction with, the Prospectus. In addition, the Fund may create additional Classes of Shares within a Sub-Fund to accommodate different terms, including different charges and/or fees and/or brokerage arrangements provided that the Central Bank is notified in advance, and gives prior clearance, of the creation of any such additional Class of Shares.

The most recent Prospectus of the Fund and Supplements for the Sub-Funds are dated 1 December 2022.

Fidelity Enhanced Reserve and Fidelity Global Credit ex-US Fund are Actively Managed Sub-Funds.

Fidelity Sustainable Global Corporate Bond Paris-Aligned Multifactor UCITS ETF, Fidelity Sustainable USD EM Bond UCITS ETF and Fidelity Sustainable Global High Yield Bond Multifactor UCITS ETF are Actively Managed Sub-Funds and Shares in these Sub-Funds may be designated as ETF Shares or Non-ETF Shares.

The following Sub-Funds are the launched Index Tracking Sub-Funds: Fidelity MSCI Emerging Markets Index Fund, Fidelity MSCI Europe Index Fund, Fidelity MSCI Japan Index Fund, Fidelity MSCI Pacific ex-Japan Index Fund, Fidelity MSCI World Index Fund and Fidelity S&P 500 Index Fund. The benchmark indices for the Index Tracking Sub-Funds launched as at the year end are listed below:

Sub-Fund	Index
Fidelity MSCI Emerging Markets Index Fund	MSCI Emerging Markets Index
Fidelity MSCI Europe Index Fund	MSCI Europe Index
Fidelity MSCI Japan Index Fund	MSCI Japan Index
Fidelity MSCI Pacific ex-Japan Index Fund	MSCI Pacific ex-Japan Index
Fidelity MSCI World Index Fund	MSCI World Index
Fidelity S&P 500 Index Fund	S&P 500 Index

The investment objective of the Index Tracking Sub-Funds is to provide investors with a total return, taking into account both capital and income returns, which reflects, before fees and expenses, the return of the relevant index (each, an "Index").

The investment objective of the Fidelity Enhanced Reserve Fund is to provide an attractive level of risk adjusted total return (income plus capital appreciation) from a portfolio of debt securities issued worldwide.

The investment objective of the Fidelity Global Credit ex-US Fund is to seek to deliver long-term total returns.

The investment objective of the Fidelity Sustainable USD EM Bond UCITS ETF is to achieve income and capital growth.

The investment objective of the Fidelity Sustainable Global Corporate Bond Paris-Aligned Multifactor UCITS ETF and Fidelity Sustainable Global High Yield Bond Paris-Aligned Multifactor UCITS ETF is to align with the Paris Agreement long-term global warming objectives by restricting the carbon emission exposure of its portfolio and to achieve income and capital growth.

Fidelity MSCI Emerging Markets Index Fund

The MSCI Emerging Markets Index is designed to reflect the performance of large and mid-capitalisation companies across emerging market countries which comply with MSCI's size, liquidity and free float criteria. These criteria are designed to identify those companies whose securities make up 85% of the publically traded market (i.e., the large and mid-capitalisation companies). Full details of the criteria are available on the Index provider's website at https://www.msci.com/index-methodology.

The investment objective of the Sub-Fund is to track the performance of the Index as closely as possible, regardless of whether the Index level rises or falls, while seeking to minimise as far as possible the tracking error between the Sub-Fund's performance and that of the Index.

In order to seek to achieve this investment objective, Geode Capital Management LLC (the "Investment Manager") will aim to replicate the Index by holding all of the Index securities in a similar proportion to their weighting in the Index. However, where full replication of the Index is not reasonably practical (for example as a result of the number of securities or the illiquidity of certain securities within the Index), the Sub-Fund will use optimisation to select the Index securities in order to build a representative portfolio that provides a return that is comparable to that of the Index.

The following are the active Share Classes in the Sub-Fund as at 31 January 2023:

Share Class	Share Class Launch Date	Currency
P EUR Acc	20 March 2018	EUR
P USD Acc	20 March 2018	USD
P PLN Acc	27 February 2019	PLN

Fidelity MSCI Europe Index Fund

The MSCI Europe Index is designed to reflect the performance of large and mid-capitalisation companies across developed market countries in Europe which comply with MSCI's size, liquidity and free float criteria. These criteria are designed to identify those companies whose securities make up 85% of the publically traded market (i.e., the large and mid-capitalisation companies). Full details of the criteria are available on the Index provider's website at https://www.msci.com/index-methodology.

The investment objective of the Sub-Fund is to track the performance of the Index as closely as possible, regardless of whether the Index level rises or falls, while seeking to minimise as far as possible the tracking error between the Sub-Fund's performance and that of the Index.

In order to seek to achieve this investment objective, the Investment Manager will aim to replicate the Index by holding all of the index securities in a similar proportion to their weighting in the Index. However, where full replication of the Index is not reasonably practical (for example as a result of the number of securities or the illiquidity of certain securities within the Index), the Sub-Fund will use optimisation to select the Index securities in order to build a representative portfolio that provides a return that is comparable to that of the Index.

Fidelity MSCI Europe Index Fund (continued)

The following are the active Share Classes in the Sub-Fund as at 31 January 2023:

Share Class	Share Class Launch Date	Currency
P EUR Acc	20 March 2018	EUR

P EUR Hedged Acc	20 March 2018	EUR
P GBP Hedged Acc	21 June 2018	GBP
P PLN Acc	27 February 2019	PLN
P PLN Hedged Acc	25 November 2019	PLN

Fidelity MSCI Japan Index Fund

The MSCI Japan Index is designed to reflect the performance of large and mid-capitalisation companies in Japan which comply with MSCI's size, liquidity and free float criteria. These criteria are designed to identify those companies whose securities make up 85% of the publically traded market (i.e., the large and mid-capitalisation companies). Full details of the criteria are available on the Index provider's website at https://www.msci.com/index-methodology.

The investment objective of the Sub-Fund is to track the performance of the Index as closely as possible, regardless of whether the Index level rises or falls, while seeking to minimise as far as possible the tracking error between the Sub-Fund's performance and that of the Index.

In order to seek to achieve this investment objective, the Investment Manager will aim to replicate the Index by holding all of the Index securities in a similar proportion to their weighting in the Index. However, where full replication of the Index is not reasonably practical (for example as a result of the number of securities or the illiquidity of certain securities within the Index), the Sub-Fund will use optimisation to select the Index securities in order to build a representative portfolio that provides a return that is comparable to that of the Index.

The following are the active Share Classes in the Sub-Fund as at 31 January 2023:

Share Class	Share Class Launch Date	Currency
P EUR Acc	20 March 2018	EUR
P USD Acc	20 March 2018	USD
P EUR Hedged Acc	20 March 2018	EUR
P GBP Hedged Acc	21 June 2018	GBP
P PLN Acc	27 February 2019	PLN

Fidelity MSCI Pacific ex-Japan Index Fund

The MSCI Pacific ex-Japan Index is designed to reflect the performance of large and mid-capitalisation companies across developed market countries in the Pacific region excluding Japan which comply with MSCI's size, liquidity and free float criteria. These criteria are designed to identify those companies whose securities make up 85% of the publically traded market (i.e., the large and mid-capitalisation companies). Full details of the criteria are available on the Index provider's website at https://www.msci.com/index-methodology.

The investment objective of the Sub-Fund is to track the performance of the Index as closely as possible, regardless of whether the Index level rises or falls, while seeking to minimise as far as possible the tracking error between the Sub-Fund's performance and that of the Index.

In order to seek to achieve this investment objective, the Investment Manager will aim to replicate the Index by holding all of the Index securities in a similar proportion to their weighting in the Index. However, where full replication of the Index is not reasonably practical (for example as a result of the number of securities or the illiquidity of certain securities within the Index), the Sub-Fund will use optimisation to select the Index securities in order to build a representative portfolio that provides a return that is comparable to that of the Index.

Share Class	Share Class Launch Date	Currency
P USD Acc	20 March 2018	USD
P GBP Hedged Acc	21 June 2018	GBP
P PLN Acc	27 February 2019	PLN

Fidelity MSCI World Index Fund

The MSCI World Index is designed to reflect the performance of large and mid-capitalisation companies across developed market countries which comply with MSCI's size, liquidity and free float criteria. These criteria are designed to identify those companies whose securities make up 85% of the publically traded market (i.e., the large and mid-capitalisation companies). Full details of the criteria are available on the Index provider's website at https://www.msci.com/index-methodology.

The investment objective of the Sub-Fund is to track the performance of the Index as closely as possible, regardless of whether the Index level rises or falls, while seeking to minimise as far as possible the tracking error between the Sub-Fund's performance and that of the Index.

In order to seek to achieve this investment objective, the Investment Manager will aim to replicate the Index by holding all of the Index securities in a similar proportion to their weighting in the Index. However, where full replication of the Index is not reasonably practical (for example as a result of the number of securities or the illiquidity of certain securities within the Index), the Sub-Fund will use optimisation to select the Index securities in order to build a representative portfolio that provides a return that is comparable to that of the Index.

The following are the active Share Classes in the Sub-Fund as at 31 January 2023:

P CZK Hedged Acc	14 January 2019	CZK
P PLN Acc	27 February 2019	PLN

Fidelity S&P 500 Index Fund

The S&P 500 Index measures the performance of 500 stocks from top US companies in leading industries of the US economy which comply with S&P's size, liquidity and free-float criteria. These criteria are designed to identify those companies whose securities make up 85% of the publically traded market (i.e., the large and mid-capitalisation companies). Full details of the criteria are available on the Index provider's website at http://us.spindices.com/indices/equity/sp-500.

The investment objective of the Sub-Fund is to track the performance of the Index as closely as possible, regardless of whether the Index level rises or falls, while seeking to minimise as far as possible the tracking error between the Sub-Fund's performance and that of the Index.

In order to seek to achieve this investment objective, the Investment Manager will aim to replicate the Index by holding all of the Index securities in a similar proportion to their weighting in the Index. However, where full replication of the Index is not reasonably practical (for example as a result of the number of securities or the illiquidity of certain securities within the Index), the Sub-Fund will use optimisation to select the Index securities in order to build a representative portfolio that provides a return that is comparable to that of the Index.

Fidelity Enhanced Reserve Fund

The investment policy of the Sub-Fund is to invest primarily in a broad range of fixed income securities and money market instruments which are issued by governments, government agencies or corporate issuers worldwide. The Sub-Fund may invest in such securities issued in both developed and emerging market countries.

FIL Investment Management (Hong Kong) Limited (The "Investment Manager") will not focus on any particular market sector or industry and investments may be in a number of sectors, including the financial services, industrials, and technology sectors. The Investment Manager will approach investment opportunities from a total return perspective, benefiting not only from the debt securities' regular coupon payments but also from capital appreciation. The Investment Manager will seek to deliver attractive risk adjusted returns by extracting the highest level of return per unit of risk or minimising the risk for each unit of return.

Fidelity Global Credit ex-US Fund

The investment policy of the Sub-Fund is to invest primarily in a diversified portfolio of U.S. and non-U.S. dollar denominated instruments (which may be either fixed or floating and government or corporate). The Sub-Fund will seek to generate returns that, over time, exceed the Bloomberg-Barclays Global Aggregate Credit Ex U.S. Index Hedged (USD) (the "Benchmark"). The Benchmark is a market value weighted index of global ex-U.S. investment grade credit markets, including corporate bonds and government related bonds, hedged in USD.

The Sub-Fund's portfolio is not constrained by reference to any index; the Sub-Fund will be actively managed and the Sub-Sub-Investment Manager may use its discretion to invest in instruments which are not included in the Benchmark. In managing the Sub-Fund, the Sub-Sub-Investment Manager may seek to closely match the currency exposures of the Benchmark. However, as the Sub-Fund will be actively managed, there are instances in which the currency exposure of the Sub-Fund will differ from the currency exposure of the Benchmark.

The following is the active Share Class in the Sub-Fund as at 31 January 2023:

Share Class	Share Class Launch Date	Currency
X-ACC USD	2 March 2020	USD

Fidelity Sustainable Global Corporate Bond Paris-Aligned Multifactor UCITS ETF

The Fidelity Sustainable Global Corporate Bond Paris-Aligned Multifactor UCITS ETF aims to achieve its investment objective on an active basis by investing in a portfolio primarily made up of investment grade corporate debt securities of issuers globally. The reduction of carbon emission objective of the Sub-Fund will be aligned with the Solactive Paris Aligned Global Corporate USD Index (the "Benchmark").

The Benchmark tracks the performance of investment grade corporate debt securities publicly issued globally while at the same time aiming to align with the Paris Agreement's climate targets on greenhouse gas emission reduction (the "EU PAB Emission Reduction Requirements"). The EU PAB Emission Reduction Requirements require the Benchmark to exhibit a level of emission intensity 50% lower than an equivalent global market universe (which does not integrate alignment with the Paris Agreement) at launch and subsequently to aim for a further year-on-year decarbonisation target, currently at an average rate of 7% per annum. As a result of complying with the EU PAB Emission Reduction Requirements and the minimum technical requirements for EU Paris-aligned benchmarks, the Benchmark will be labelled as an EU Paris Aligned Benchmark. In addition, the Benchmark excludes issuers based on their involvement in activities with significant externalities (tobacco, fossil fuels, controversial weapons etc.), breaches of international norms (such as United Nations Global Compact (UNGC) principles) and with a significant negative impact on certain sustainable development goals. Such exclusions ensure that the securities in the Benchmark and their issuers do not significantly harm sustainable objectives pursuant to the SFDR. Finally, the governance practices of issuers are assessed as part of the Benchmark construction process with the exclusion of companies with verified failure to respect established norms such as the UNGC principles, the Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises or UN Guiding Principles for Business and Human Rights. Such exclusions ensure that the issuers of securities in the Benchmark follow good governance principles pursuant to the SFDR. Further details regarding the Benchmark are available on the index provider's website at www.solactive.com/indices.

As a result of its aim of outperformance, the Sub-Fund will likely bear a close resemblance to the Benchmark and the risk characteristics (e.g. level of volatility) and carbon footprint of the Sub-Fund's portfolio will be broadly similar to that of the Benchmark, but the Sub-Fund will be actively managed and will not attempt to replicate the Benchmark. Rather, the Investment Manager may overweight the securities which it considers have the highest potential to outperform the Benchmark and underweight or not invest at all in securities which the Investment Manager considers most overvalued. The Sub- Fund may also invest in securities which do not form part of the Benchmark in the following circumstances: 1) instruments that were previously constituents of the Benchmark may be held for a transition period after they fall out of the Benchmark in a manner appropriate to protect the best interests of Shareholders and will then be divested; and 2) for liquidity management purposes where inflows and liquidity levels require holdings in certain instruments that are not constituents of the Benchmark.

^{*}ETF Shares.

Fidelity Sustainable USD EM Bond UCITS ETF

The Fidelity Sustainable USD EM Bond UCITS ETF aims to achieve its investment objective on an active basis by investing in a portfolio primarily made up of debt securities issued by governments and government agencies of emerging market countries denominated in USD.

The Sub-Fund will hold a portfolio of securities which is systematically selected and managed with the aim of outperforming the JP Morgan ESG EMBI Global Diversified Index (the "Benchmark").

The Sub-Fund will only invest in securities which are part of the Benchmark and the Benchmark is therefore the potential universe of securities. Securities are then screened using the Investment Manager's fundamental research and its own ESG assessment. The resulting securities are then weighted with a view to delivering positive returns relative to the Benchmark and to improving the portfolio's overall ESG score.

The following are the active Share Classes in the Sub-Fund as at 31 January 2023:

Share Class	Share Class Launch Date	Currency
GBP Hedged Acc*	25 March 2021	GBP
Inc*	25 March 2021	USD

^{*}ETF Shares.

Fidelity Sustainable Global High Yield Bond Paris-Aligned Multifactor UCITS ETF

The Fidelity Sustainable Global High Yield Bond Paris-Aligned Multifactor UCITS ETF aims to achieve its investment objective on an active basis by investing in a portfolio primarily made up of high-yielding, sub-investment grade corporate debt securities of issuers globally. The reduction of carbon emission objective of the Sub-Fund will be aligned with the Solactive Paris Aligned Global Corporate High Yield USD Index (the "Benchmark").

The Benchmark tracks the performance of high yield, sub-investment grade corporate debt securities publicly issued globally while at the same time aiming to align with the Paris Agreement's climate targets on greenhouse gas emission reduction (the "EU PAB Emission Reduction Requirements"). The EU PAB Emission Reduction Requirements require the Benchmark to exhibit a level of emission intensity 50% lower than an equivalent global market universe (which does not integrate alignment with the Paris Agreement) at launch and subsequently to aim for a further year-on-year decarbonisation target, currently at an average rate of 7% per annum. As a result of complying with the EU PAB Emission Reduction Requirements and the minimum technical requirements for EU Paris-aligned benchmarks, the Benchmark will be labelled as an EU Paris Aligned Benchmark. In addition, the Benchmark excludes issuers based on their involvement in activities with significant externalities (tobacco, fossil fuels, controversial weapons etc.), breaches of international norms (such as United Nations Global Compact (UNGC) principles) and with a significant negative impact on certain sustainable development goals. Such exclusions ensure that the securities in the Benchmark and their issuers do not significantly harm sustainable objectives pursuant to the SFDR. Finally, the governance practices of issuers are assessed as part of the Benchmark construction process with the exclusion of companies with verified failure to respect established norms such as the UNGC principles, the Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises or UN Guiding Principles for Business and Human Rights. Such exclusions ensure that the issuers of securities in the Benchmark follow good governance principles pursuant to the SFDR. Further details regarding the Benchmark are available on the index provider's website at www.solactive.com/indices.

As a result of its aim of outperformance, the Sub-Fund will likely bear a close resemblance to the Benchmark and the risk characteristics (e.g. level of volatility) and carbon footprint of the Sub-Fund's portfolio will be broadly similar to that of the Benchmark, but the Sub-Fund will be actively managed and will not attempt to replicate the Benchmark. Rather, the Investment Manager may overweight the securities which it considers have the highest potential to outperform the Benchmark and underweight or not invest at all in securities which the Investment Manager considers most overvalued. The Sub- Fund may also invest in securities which do not form part of the Benchmark in the following circumstances: 1) instruments that were previously constituents of the Benchmark may be held for a transition period after they fall out of the Benchmark in a manner appropriate to protect the best interests of Shareholders and will then be divested; and 2) for liquidity management purposes where inflows and liquidity levels require holdings in certain instruments that are not constituents of the Benchmark.

The Sub-Fund launched on 7 November 2022.

INVESTMENT MANAGER'S REPORT

Fidelity MSCI Emerging Markets Index Fund

The MSCI Emerging Markets Index ("Index") was down -12.12% for the year ending 31 January 2023. The Fidelity MSCI Emerging Markets Index Fund ("Sub-Fund") return was ahead of the index by eleven basis points returning -12.01% (gross of fees). The Sub-Fund is managed on a risk-controlled basis and is constructed to approximate the exposure to its mandated benchmark. Expected sources of performance variance include the impact of security selection from the portfolio optimization employed, trading costs associated with index rebalances, and tax differences between the Sub-Fund and the Index.

All eleven sectors within the Index had negative returns. The biggest contributors to negative performance were Information Technology (-19.1%), Real Estate (-15.8%), and Communication Services (-15.5%). On a stock level, New Oriental Ed & Technology which gained 212.1% led the way, followed by Cosco Shipping Energy which rose 162.8%. Main detractors, included Phosagro Public Joint S (-99.7%) and Magnit Public Joint Sto (-99.9%).

The Sub-Fund seeks to track benchmark returns by replicating the constituents and characteristics of the MSCI Emerging Market Index, investing dividend income, and implementing trading strategies for index events with the most cost effective means available. As a result, the Sub-Fund is expected to perform in line with its benchmark.

Please see table in Appendix 3 - Tracking Error section on page 282.

February 2023

Geode Capital Management LLC

Fidelity MSCI Europe Index Fund

The MSCI Europe Index ("Index") fell -0.15% for the one-year period ending 31 January 2023. The Fidelity MSCI Europe Index Fund ("Sub-Fund") performed better by thirty-four basis points, up 0.19% (gross of fees). The Sub-Fund is managed on a risk-controlled basis and is constructed to closely replicate its mandated benchmark. Expected sources of performance variance include the impact of security selection from the portfolio optimization employed, use of futures contracts to keep fully equitized, and tax differences between the Sub-Fund and the Index. (returns in Euro)

Four of the eleven sectors within the Index had positive returns. Energy (+22.5%) and Financials (+4.2%) were the top two positive contributors. Real Estate (-30.3%), and Information Technology (-6.7%) contributed the least to the index return. On the stock side, two of the positive contributors included Swedish Match Ab (+57.7%), and Tenaris S.A. (+55.2%). A few of the stocks that were a drag to index performance were Uniper Se (-89.1%) and Sinch Ab (-78.4%).

The Sub-Fund seeks to track benchmark returns by replicating the constituents and characteristics of the MSCI Europe Index, investing dividend income, and implementing trading strategies for index events with the most cost effective means available. As a result, the Sub-Fund is expected to perform closely to its benchmark.

Please see table in Appendix 3 - Tracking Error section on page 282.

February 2023

Geode Capital Management LLC

Fidelity MSCI Japan Index Fund

The MSCI Japan Index ("Index") fell -6.73 for the one year period ending 31 January 2023. The Fidelity MSCI Japan Index Fund ("Sub-Fund") return was one basis point ahead of its index, down -6.72% (gross of fees). The Sub-Fund is managed on a risk-controlled basis and is constructed to closely replicate its mandated benchmark. Expected sources of performance variance include the impact of security selection from the portfolio optimization employed and withholding tax differences between the Sub-Fund and the Index.

Three of the eleven sectors within the Index had positive returns. Financials was up 12.2%, followed by Utilities which gained 10.5%. Consumer Discretionary and Real Estate were both down for the period dropping -15.7%, and -14.2% respectively. Two of the top contributors on a stock level were Mitsubishi Heavy Industries and Yakult Honsha Co they appreciated 49.0% and 42.5% respectively. For the laggards, Mercari and Benefit One Inc fell -55.3% and -47.2% respectively.

Fidelity MSCI Japan Index Fund (continued)

The Sub-Fund seeks to track benchmark returns by replicating the constituents and characteristics of the MSCI Japan Index, investing dividend income, and implementing trading strategies for index events with the most cost effective means available. As a result, the Sub-Fund is expected to perform closely to its benchmark.

Please see table in Appendix 3 - Tracking Error section on page 282.

February 2023

Geode Capital Management LLC

Fidelity MSCI Pacific ex-Japan Index Fund

The MSCI Pacific ex-Japan Index ("Index") rose 8.23% for the year ending 31 January 2023. The Fidelity MSCI Pacific ex-Japan Index Fund ("Sub-Fund") outperformed by fourteen basis points returning 8.37% (gross of fees). The Sub-Fund is managed on a risk-controlled basis and is constructed to closely replicate its mandated benchmark. Expected sources of performance variance include the impact of security selection from the portfolio optimization employed, the use of futures contracts to maintain full exposure, and withholding tax differences between the Sub-Fund and the Index.

Two of the four countries within the Index had positive returns. Australia, and New Zealand, were the gainers, while Hong Kong and Singapore were down for the period. Australia being the largest country in the index, tends to have the most impactful stocks. Leading the way, was Swire Pacific up 60.5% followed by Woodside Energy Group gaining 58.7%. Sea Ltd was the leading detractor, falling -57.1% for the year.

The Sub-Fund seeks to track benchmark returns by replicating the constituents and characteristics of the Fidelity MSCI Pacific ex Japan Index, investing dividend income, and implementing trading strategies for index events with the most cost effective means available. As a result, the Sub-Fund is expected to perform closely to its benchmark.

Please see table in Appendix 3 - Tracking Error section on page 282.

February 2023

Geode Capital Management LLC

Fidelity MSCI World Index Fund

The MSCI World Index ("Index") fell -7.45% for the year ending 31 January 2023. The Fidelity MSCI World Index Fund ("Sub-Fund") outperformed the Index by twenty-six basis points losing -7.19% (gross of fees). The Sub-Fund is managed on a risk-controlled basis and is constructed to closely replicate its mandated benchmark. Expected sources of performance variance include the impact of security selection from the portfolio optimization employed and withholding tax differences between the Sub-Fund and the Index.

Three of the eleven sectors within the Index had positive returns for the year. Positive contributors included Energy and Materials, they rose 31.8% and 3.9% respectively. Offsetting performance came in Communication Services (-23.8%) and Information Technology (-16.5%). On a stock level, Steel Dynamics Inc. (+121.1%), and Marathon Pete Corp (+83.8%) led the way. On the other side of performance the prices of Uniper Se (-90.0%), and Sinch Ab (-80.6%) fell over the period.

The Sub-Fund seeks to track benchmark returns by replicating the constituents and characteristics of the MSCI World Index, investing dividend income, and implementing trading strategies for index events with the most cost effective means available. As a result, the Sub-Fund is expected to perform closely to its benchmark.

Please see table in Appendix 3 - Tracking Error section on page 282.

February 2023

Geode Capital Management LLC

Fidelity S&P 500 Index Fund

The S&P 500 index ("Index") lost -8.67% for the one-year period ending 31 January 2023. The Fidelity S&P 500 Index Fund ("Sub-Fund") outperformed the Index by eleven basis points down -8.56% (gross of fees). The Sub-Fund is managed on a risk-controlled basis and is constructed to closely replicate its mandated benchmark. Expected sources of performance variance include the impact of trading costs and withholding tax differences between the Sub-Fund and the Index.

Five of the eleven sectors within the Index had positive returns. Energy led the way up 43.1% followed by Health Care which rose 3.3%. Communication Services sector had the most significant drag falling -26.6%. Constituents that returned the highest in the Index return included Marathon Pete Corp, Valero Energy Corp, and Occidental Pete Corp. They all contributed to the positive side. Stocks that struggled for the year included Generac Hldgs Inc which fell -57.3% and Signature Bk New York dropped -57.1%.

The Sub-Fund seeks to track benchmark returns by replicating the constituents and characteristics of the S&P500 Index, investing dividend income, and implementing trading strategies for index events with the most cost effective means available. As a result, the Sub-Fund is expected to perform closely to its benchmark.

Please see table in Appendix 3 - Tracking Error section on page 282.

February 2023

Geode Capital Management LLC

Fidelity Enhanced Reserve Fund

Market Commentary

The rhetoric towards tighter monetary policy by global central banks, especially the US Federal Reserve (Fed) remained in focus. The US Federal Reserve (Fed) commenced its hiking cycle with a series of interest rate hikes in what is now the most aggressive sequence of hikes since the early 1980s and maintained its hawkish stance. US Treasury yields moved higher across the curve, while the yield curve inverted, and the 2-year/10-year spread persisted in the negative territory. The US dollar London Interbank Offered Rate (LIBOR) and US Secured Overnight Financing Rate (SOFR) rose during the period. On the economic front, US GDP grew at 2.1% in 2022 as it powered through high inflation, rising interest rates and energy prices. Inflation remained a concern during the year but showed signs of peaking, as October and November Consumer Price Index (CPI) numbers came in below expectations. The Personal Consumption Expenditures (PCE) price index for December fell to 5.0% on an annualised basis from 5.5% in November. On the manufacturing side, the US ISM manufacturing Purchasing Managers' Index (PMI) fell during the period, with a reading of 47.4 in January 2023 compared to 57.6 in January 2022. Manufacturers said that subdued demand, lower levels of incomplete work and a decline in new orders led to the contraction during the period. Here in Asia, export demand remained weak amid rising global recession risks and interest rates, inflation, and the war in Ukraine. Data from China signalled a slowdown amid global growth concerns and COVID-19 outbreaks. However, the country's manufacturing Purchasing Managers' Index (PMI) slightly rose during the period - from 50.1 in January 2022 to 51.0 in January 2023 - as things started to turnaround towards the end of the year after we saw positive developments related to China property and zero-covid policy (ZCP). Further, December industrial production rose by 1.3% while retail sales declined by 1.8% year-on-year. The People's Bank of China (PBOC) cut several benchmark rates during the period with an aim to maintain liquidity in the markets and support the Chinese economy.

Portfolio Commentary

The Sub-Fund posted a negative gross return of -1.52% during the period. Stable coupon income contributed to performance, while term structure positioning and credit selection held back relative gains. At a sector level, the Sub-Fund's exposure to treasury and unclassified (Fidelity Institutional liquidity fund) contributed to returns. CDX protection enhanced relative gains amid widening spreads. The exposure to quasi-sovereign, other financials and property were the key detractors. From a credit perspective, the allocation to Hong Kong Airport Authority (HKAA) contributed the most to returns. Hong Kong's airport traffic increased more than six times in 2022 from 2021 as COVID-19 restrictions started to ease and tourism activity picked up. An allocation to Hong Kong Mortgage Corporation (HKMTGC) and Huarong Finance (HRINTH) also supported performance. Huarong Finance has been trading at attractive valuations and recently, together with three other asset management companies, joined other financial institutions to explore ways to mitigate risks in the real estate sector and to develop solutions for alleviating difficulties among distressed property developers, which created a positive sentiment in the space. Early in the period, rating agency Fitch had upgraded Huarong Finance to BBB+ from BBB. Conversely, the exposure to Powerlong Real Estate (PWRLNG) detracted the most from returns.

Fidelity Enhanced Reserve Fund (continued)

Portfolio Commentary (continued)

The general weak sentiment in the Chinese property sector weighed on the bond prices of developers, even with incremental policy support unfolding during the year. Declining property sales and several idiosyncratic headlines weighed on the broad sector. The allocation to Rkpf Overseas 2020 A (ROADKG) and Far East Horizon (FRESHK) also dragged performance.

Positioning and Outlook

We are positive on our outlook for 2023, from both a return and Sub-Fund performance volatility perspective. This year is attractive for Asian fixed income returns, due to elevated rates and credit spreads from persistent inflation and ongoing geopolitical tensions. Although we expect heightened volatility on the back of macroeconomic headwinds, we also expect a slowing global economy to translate into lower probability for further aggressive rate hikes from the first half of 2023, and even potential rate cuts in the latter half of 2023. We expect the slowing economy to also reduce the focus on geopolitics through the year, which in turn can lead to credit spread tightening and positive performance. Overall, investors will be compensated with attractive bond carry and total return potential, for the risk taken on in 2023. Liquidity remains our core focus, followed closely by stability. The Sub-Fund's core liquidity is typically 20–30% and consists of cash, US Treasury notes and bills, commercial papers, and certificate of deposits. Holdings in short-term bonds, many of which have a maturity of less than a year, further enhance its liquidity position. The Sub-Fund is well-positioned in the near term, with its short duration focus. Currently, we prefer short-dated bonds from issuers with high credit rating. Over the past month, we deployed some of our cash into highly-liquid and high-quality names, particularly in the financial sector, across the Asia region. We are actively looking for opportunities across regions and instruments to further diversify the Sub-Fund's exposure. As the Sub-Fund has the flexibility to invest globally, we are also looking to add exposure outside of the Asia region.

February 2023

FIL Investment Management (Hong Kong)

Fidelity Global Credit ex-US Fund

Market Commentary

The 12-month period ending 31 January 2023 saw losses for most major asset classes, except commodities. Market dynamics during the period were decidedly negative for the vast majority of risk assets. Tight labor markets, supply chain bottlenecks, sustained demand for goods and services, and the impact of pandemic-induced fiscal and monetary liquidity injections of record levels all contributed to an environment of accelerating and broad-based inflationary conditions across much of the globe. In an effort to control price increases, monetary authorities pivoted to a tightening stance, sending interest rates on an upward trajectory. Meanwhile, there were signs that the post-pandemic expansion in the U.S. was approaching a mature phase, with indications of a slow-down in growth on the horizon. In general, risk markets suffered during the period, as participants worked to assess the impact of continued aggressive monetary tightening amid expectations for reduced economic growth. All sectors of the investable fixed income universe registered negative absolute returns, with results being notably negative across emerging markets, investment-grade credit, and longer duration assets.

Portfolio Commentary

For the 12-month period ending 31 January 2023, portfolio performance (gross of fees) of -12.49% underperformed the Bloomberg Global Ex-US Credit Index (Hedged) return of -9.05% by -3.44%. From an attribution perspective, there were two primary drivers to portfolio underperformance for the period. First, holdings in European real estate companies had a detrimental impact. These issuers underperformed the index throughout the year due to poor technicals, as well as due to heightened investor concerns over real estate values and fundamental company funding profiles. In one instance, actions taken by the management of Aroundtown SA had a particularly negative effect on their creditors. Exposure to European financials was an additional cause of underperformance for the period, though the overall contribution was modest compared to the portfolio's real estate holdings. Bank credit spreads widened throughout the year as they kept pushing new debt issuance. Nonetheless, our view on bank and insurance fundamentals is positive. In general, higher policy rates often lead to improved earnings profiles; and in this context, greater loan losses can be comfortably absorbed.

Fidelity Global Credit ex-US Fund (continued)

Positioning and Outlook

The portfolio remains modestly overweight risk levels versus the benchmark amid an uncertain outlook for growth, as the economic hit from policy rate rises continues to filter through to economies. Positioning in industrials is somewhat measured, as the team anticipates that corporate industrial fundamentals are likely to weaken in 2023, but from a strong starting point, since balance sheets are relatively fortified largely resulting from increased conservatism coming out of COVID. Portfolio exposure remains tilted towards financials, with an emphasis on high quality insurers and banks. Balance sheets among these segments are in good shape, and the increased earnings from higher rates should, in most cases, offset potential losses. The team continues to allocate to corporate hybrid security types, particularly shorter-dated debt offering decent carry, while also favoring subordinated debt from strong investment grade financial credits.

February 2023

FIL Investment Management (Luxembourg)

Fidelity Sustainable Global Corporate Bond Paris-Aligned Multifactor UCITS ETF

Market Commentary

Fixed income markets endured significant volatility and posted negative returns over the period. Markets battled with soaring inflation, unprecedented interest rate hikes by central banks and a subsequent synchronised slowdown in global economic activity. Russia's invasion of Ukraine, supply chain disruptions, an energy crisis in Europe and COVID-19 related lockdowns in China earlier in the year exacerbated an already challenging macro backdrop. However, markets recovered some lost ground towards the end of the year, as investors bet on easing inflation and slowing growth, which could eventually force global central banks to pursue a slower pace of tightening. Bond markets fell further in the last few weeks of the year amid worries that easing mobility restrictions and a complete reopening of China could keep inflation higher for longer. A surprise move by the Bank of Japan (BOJ) whereby it shifted its 10-year bond yields ceiling to 0.5%, instead of 0.25% previously, as part of its yield curve control (YCC) program, also sparked a sell off in sovereign bonds. Nevertheless, the US Federal Reserve (Fed), the European Central Bank (ECB) and the Bank of England (BoE) stuck to a hawkish stance and delivered several interest rate hikes over the period, with a clear prioritisation of inflation at the cost of growth. In turn, benchmark 10-year sovereign yields touched multi-year highs and government bonds posted negative returns. In the corporate credit space, both investment grade and high yield bonds posted negative returns, owing to a mix of wider credit spreads and higher sovereign yields. However, risk sentiment started improving towards the end of 2022 and credit markets appeared resilient as investors turned hopeful of a slower pace of global monetary policy tightening and relatively stable corporate fundamentals. Positive sentiments ensued in the opening month of 2023 amidst China re-opening and expectations of softer policy stance from the Federal reserve. Bond markets across regions such as US, UK, Europe, and Asia registered gains with corporate bonds' broadly outperforming the sovereign bonds.

Portfolio Commentary

The Fidelity Sustainable Global Corporate Bond Paris-Aligned Multifactor UCITS ETF has returned -9.95% (USD, gross of fees) over the period, outperforming the Index* returns of -10.17%.

The Sub-Fund outperformed the index mainly due to issuer and bond selection. In this respect, holdings in American multinational company Coca-Cola, payment-processing corporation Mastercard Inc and American biopharmaceutical company Gilead Sciences were among the top contributors to performance. The Sub-Fund's coupon income was also a notable contributor to performance. While the Sub-Fund's credit beta and duration exposure were neutral, regional and currency exposure was managed close to benchmark.

*Effective 30th September 2022, the Sub-Fund has been repurposed and consequently the Sub-Fund name is changed to Fidelity Sustainable Global Corporate Bond Paris-Aligned Multifactor UCITS ETF. The Sub-Fund's benchmark is changed from the Bloomberg Global Aggregate Corporate Index to the Solactive Paris Aligned Global Corporate Index.

Positioning and Outlook

The portfolio is managed by the Fidelity Systematic Investing team and is constructed using a rigorous and repeatable investment process. The Sub-Fund delivers a global corporate bond exposure by using our proprietary multifactor model to select and weight securities while capturing the characteristics of the broad market. Taking inputs from Fidelity fundamental and sustainable research, as well as the multifactor model, the portfolio management team selects companies with a compelling combination of strong fundamentals, positive market sentiment and attractive bond valuations, with the ability to outperform their peers in the current market environment.

Fidelity Sustainable Global Corporate Bond Paris-Aligned Multifactor UCITS ETF (continued)

Positioning and Outlook (continued)

The positioning of the Sub-Fund is aligned to the index on sector, region, rating, credit beta and duration basis. The Sub-Fund is overweight banks, such as JP Morgan, Bank of America, Citigroup and HSBC.

February 2023

FIL Investment Management (Luxembourg)

Fidelity Sustainable USD EM Bond UCITS ETF

Market Commentary

The Fidelity Sustainable USD EM Bond UCITS ETF outperformed its comparative market index over the period. It delivered a -12.71% return before management fees while the JP Morgan ESG EMBI Global Diversified Index ("the reference index") return was -13.70%.

2022 was a difficult year for emerging market debt, with all three sub-asset classes coming under pressure. The US Federal Reserve (Fed) was aggressive with its monetary policy and hiked interest rates seven times during the year to combat inflation. The Fed was holding federal funds rate around zero at the start the start of 2022 and then raised interest rates by 75 basis points four times in 2022 following two smaller hikes. The Fed then ended the year with another 50 basis point hike in December. Fed Chair Jerome Powell signalled further policy tightening and reiterated that there is still a long way to go before inflation finally stabilises. Credit spreads also widened over the year (approximately 80bps) as default risk rose across many countries. Generational highs in inflation, aggressive policy tightening across developed and emerging markets, and a growth collapse in China negatively impacted returns for the asset class. Russia's invasion of Ukraine, China's zero COVID-19 policy for most of the year turmoil in the Chinese property sector further harmed performance. Access to primary markets remained challenging for a large portion of the high yield universe, along with defaults and debt restructuring undertaken by some issuers given high post-COVID-19 debt burdens. Some relief started towards the end of the year, when the asset class staged a rally as US Treasury yields fell, pricing in the long-awaited "pivot" by the US Fed. This also helped credit spreads and EM FX which both rallied into the end of 2022. Investor sentiment improved as China made swift moves to relax many zero COVID policies and unveiled several support measures for the property sector. The start of 2023 was another positive month for the asset class. Investor confidence quickly turned positive after the US' Consumer Price Index (CPI) eased for a sixth consecutive month to 6.5% annualised in December, strengthening the case for a smaller interest rate hike by the US Federal Reserve (Fed).

Portfolio Commentary

The Sub-Fund outperformed the reference index over the period due to positive issuer selection. An overweight to Latin America countries such as Mexico, Brazil and Dominican Republic government bonds were among the top contributors to performance. Favourable currency positioning was also a notable contributor to performance. Meanwhile, a bias towards the most sustainable issuers resulted in a slightly lower income return than the reference index.

Positioning and Outlook

The portfolio is actively managed by the Fidelity Systematic Investing team using a rigorous and repeatable multifactor credit investment process. The Sub-Fund aims to deliver a return above the reference index by using our proprietary analysis to select and weight securities while capturing the characteristics of the asset class. It offers an enhanced sustainability profile through a combination of negative screens and a best-in-class approach.

We are positive on the asset class in the short-term. We believe inflation will fall as global food prices are dropping, oil prices are lower than a year ago and the natural gas crisis in Europe has alleviated significantly. Falling inflation ameliorates the risk of more interest rate hikes. Elsewhere China's re-opening is a very important development for the asset class. The long-awaited pivot from the country's zero COVID-19 policy makes way for higher growth as travel resumes and pent-up savings are deployed by consumers.

February 2023

FIL Investment Management (Luxembourg)

Fidelity Sustainable Global High Yield Bond Paris-Aligned Multifactor UCITS ETF

Market Commentary

2022 was a volatile year for the asset class. However, markets recovered some lost ground towards the end of the year, as investors bet on easing inflation and slowing growth, which could eventually force global central banks to pursue a slower pace of tightening. The positive trajectory continued in January as credit spreads tightened over the month. Positive macroeconomic developments, China's re-opening, and expectations of a softer policy stance by the US Federal Reserve (Fed) supported market sentiment.

Portfolio Commentary

The Fidelity Sustainable Global High Yield Bond Paris-Aligned Multifactor UCITS ETF has returned 7.83% (USD, gross of fees) over the period, marginally underperforming the Solactive Paris Aligned Global High Yield Index returns of 8.29%.

The Sub-Fund's coupon income contributed to performance. Holdings in technology company Pitney Bowes Inc and Canadian based engineering company SNC-Lavalin Group contributed to performance. While holdings in an American based biopharmaceutical company Bausch Health Companies and Emergent BioSolutions were amongst the top detractors from an issuer standpoint. The Sub-Fund's duration exposure was largely in line with the reference index.

Positioning and Outlook

The portfolio is managed by the Fidelity Systematic Investing team and is constructed using a rigorous and repeatable investment process. The Sub-Fund delivers a global high yield bond exposure by using our proprietary multifactor model to select and weight securities while capturing the characteristics of the broad market. Taking inputs from Fidelity fundamental and sustainable research, as well as the multifactor model, the portfolio management team selects companies with a compelling combination of strong fundamentals, positive market sentiment and attractive bond valuations, with the ability to outperform their peers in the current market environment.

The positioning of the Sub-Fund is aligned to the index on sector, region, rating, credit beta and duration basis. The Sub-Fund is overweight defensive issuers such as Tenet Healthcare, Japanese technology company Rakuten and financial issuers such as Deutsche Bank and NatWest. Conversely, the Sub-Fund is underweight consumer cyclical and communication issuers such as Caesars Entertainment and Faurecia.

¹ The Sub-Fund launched on 22 March 2021.

The Net Asset Value per redeemable participating share is calculated by dividing the total net assets (as calculated for shareholder dealing purposes) of each Sub-Fund by the number of redeemable participating Shares of that Class in issue.

Signed on behalf of the Board of Directors by:

Catherine Fitzsimons
Date: 26 May 2023

David Greco

Date: 26 May 2023

² The Sub-Fund launched on 25 March 2021.

³ The Sub-Fund launched on 7 November 2022.

³ The Sub-Fund launched on 7 November 2022.

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL YEAR ENDED 31 JANUARY 2023

1. Organisation

Fidelity UCITS II ICAV (the "Fund") was registered in Ireland pursuant to the Irish Collective Asset-management Vehicles Act 2015 (as amended) on 14 November 2017 under registration number C174793 and is authorised by the Central Bank of Ireland (the "Central Bank") under the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (as amended) (the "UCITS Regulations").

The Fund is organised in the form of an umbrella fund with segregated liability between Sub-Funds. The Prospectus provides that the Fund may offer separate Sub-Funds. Each Sub-Fund will have a distinct schedule of investments. The portfolio of assets maintained for each Sub-Fund will be invested in accordance with the investment objectives and policies applicable to such Sub-Fund. For more information please refer to the General Information section.

The active ETF Shares of Fidelity Sustainable Global Corporate Bond Paris-Aligned Multifactor UCITS ETF, Fidelity Sustainable USD EM Bond UCITS ETF and Fidelity Sustainable Global High Yield Bond Paris-Aligned Multifactor UCITS ETF are admitted to the Official List and to trading on the Regulated Market of Euronext Dublin and are admitted to trading on the London Stock Exchange, Deutsche Börse, SIX Swiss Exchange and Borse Italiana.

2. Significant Accounting Policies

The significant accounting policies and estimation techniques adopted by each Sub-Fund are as follows:

a) Basis of Preparation of Financial Statements

The financial statements are prepared in accordance with International Financial Reporting Standards as adopted by the European Union ('IFRS'), interpretations adopted by the International Accounting Standards Board ('IASB'), ICAV ACT 2015 and certain requirements of the UCITS Regulations and the Central Bank's (Supervision and Enforcement) Act 2013 (section 48(1)) UCITS Regulations 2019 (the "Central Bank UCITS Regulations") that apply to financial reports. The financial statements have been prepared on the going concern basis and under the historical cost convention, as modified by the revaluation of financial assets and financial liabilities held at fair value through profit or loss.

The preparation of financial statements in conformity with IFRS requires the use of certain critical accounting estimates as adopted by the European Union. It also requires the Directors to exercise their judgement in the process of applying each Sub-Fund's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to each Sub-Fund's financial statements are disclosed in the following notes.

The Fund is authorised by the Central Bank as a UCITS pursuant to the UCITS Regulations.

For the Fidelity Sustainable Global High Yield Bond Paris-Aligned Multifactor UCITS ETF the year ended 31 January 2023 is the first reporting cycle, and therefore there are no comparatives in the financial statements.

b) New standards, amendments and interpretations

New standards and amendments to existing standards

There are no standards, amendments to standards or interpretations that are effective for annual periods beginning on 1 January 2022 that have a material effect on the financial statements of the Sub-Funds.

New standards, amendments and interpretations effective after 1 January 2023 and have not been early adopted

A number of new standards, amendments to standards and interpretations are effective for annual periods beginning after 1 January 2023 and have not been early adopted in preparing these financial statements. None of these are expected to have a material effect on the financial statements of the Sub-Funds.

2. Significant Accounting Policies (continued)

c) Financial Instruments at Fair Value through Profit or Loss

Classification

(i) Assets

The Sub-Funds classify their investments based on both the Sub-Funds business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Sub-Funds are primarily focused on fair value information and use that information to assess the assets' performance and to make decisions. The Sub-Funds have not taken the option to irrevocably designate any equity securities as fair value through other comprehensive income.

The contractual cash flows of the Sub-Fund's debt securities are solely principal and interest, however, these securities are neither held for the purpose of collecting contractual cash flows nor held both for collecting contractual cash flows and for sale. The collection of contractual cash flows is only incidental to achieving each Sub-Fund's business model's objective. Consequently, all investments are measured at fair value through profit or loss.

(ii) Liabilities

Financial liabilities, other than those at fair value through profit or loss, are measured at amortised cost using the effective Interest rate. Financial liabilities are classified according to the substance of the contractual arrangements entered into.

(iii) Recognition, derecognition and measurement

Purchases and sales of investments are recognised on trade date, the date on which the Sub-Funds commit to purchase or sell the asset. Investments are initially recognised at fair value. Transaction costs for all financial assets and liabilities carried at fair value through profit and loss are expensed as incurred in the Statement of Comprehensive Income.

Subsequent to initial recognition, all investments continue to be classified at fair value through profit or loss, and the changes in fair value are recognised as net unrealised gain/loss on investments in the Statement of Comprehensive Income in the period in which they arise.

Investments are derecognised when the contractual rights to the cash-flows from the financial asset expire or a Sub-Fund has transferred the financial asset and the transfer qualifies for de-recognition. A financial liability is de-recognised when the obligation specified in the contract is discharged, cancelled or has expired. Realised gains and losses on sales of investments are calculated based on the average cost of the investment in local currency and are recognised in net realised gain/loss on investments in the Statement of Comprehensive Income in the period in which they arise. Realised gains and losses on investment transactions in debt instruments are calculated as the difference between sales proceeds and the historic cost of the instrument.

(iv) Fair value estimation

At the financial year end, the Investments were valued at last traded price as is consistent with the Prospectus. In circumstances where the last traded price is not within the bid-ask spread, the Investment Manager will determine the point within the bid-ask spread that is most representative of fair value. Where market quotations are not available or are unrepresentative, fair value may be determined by the Sub-Fund's using reputable pricing sources (such as pricing agencies) or indicative prices from bond/debt market makers. Broker quotes as obtained from the pricing sources may be indicative and not executable or binding. The Sub-Fund's would exercise judgement and estimates on the quantity and quality of pricing sources used. Where no market data is available, each Sub-Fund may value positions using their own models, which are usually based on valuation methods and techniques generally recognised as standard within the industry.

Shares or units in collective investment schemes shall be valued on the basis of the latest unaudited available net asset value per share or unit as published by the collective investment scheme.

(v) Transfers between levels of the fair value hierarchy

Transfers between levels of the fair value hierarchy are deemed to have occurred at the beginning of the reporting period.

2. Significant Accounting Policies (continued)

d) Cash and Cash Equivalents

Cash and cash equivalents include cash in hand, deposits held on call with banks, other short-term highly liquid investments with original maturities of three months or less and bank overdrafts. All cash at bank balances are held with Brown Brothers Harriman, or with third party institutions approved by the Manager on overnight deposit or directly with a sub-custodian. All deposits held on call with banks are returned to the Depositary the following day. Details are shown in Note 3.

e) Cash Collateral and Margin Cash

Collateral cash provided/received by the Sub-Fund is identified on the Statement of Financial Position under Cash Collateral due from/to broker and is not included as a component of cash and cash equivalents. For collateral other than cash, if the party to whom the collateral is provided has the right by contract or custom to sell or re-pledge the collateral, the Sub-Fund classify that asset in its Statement of Financial Position separately from other assets and identifies the asset as pledged collateral. Where the party to whom the collateral is provided does not have the right to sell or re-pledge, a disclosure of the collateral provided is made in the notes to the financial statements.

Initial margin deposits are made upon entering into derivative contracts and are generally made in cash or cash equivalents. Subsequent payments (variation margin) to and from the clearing broker are made on a daily basis based on changes in the market value of derivative contracts. Initial margin and variation margin is presented under Margin Cash Due from Broker or Margin Cash Due to Broker on the Statement of Financial Position.

f) Futures Contracts

A futures contract is a legal agreement, to buy or sell a particular commodity or financial instrument at a predetermined price at a specified time in the future.

Initial margin deposits are made upon entering into open futures contracts and are generally made in cash or cash equivalents. Subsequent payments (variation margin) to and from the clearing broker are made on a daily basis based on changes in the market value of futures contracts. Initial margin and variation margin is presented under Margin Cash Due from Broker or Margin Cash Due to Broker on the Statement of Financial Position. The fair value of open futures contracts is based upon their quoted daily settlement prices. Changes in the value of open futures contracts are recognised as unrealised gains or losses on futures contracts until the contracts are terminated, at which time realised gains and losses are recognised.

g) Forward Foreign Exchange Contracts

Forward foreign exchange contracts are agreements between two parties to exchange two designated currencies at a specific time in the future.

The fair value of open forward foreign exchange contracts is calculated as the difference between the contracted rate and the current forward rate that would close out the contract on the valuation date. Changes in the value of forward foreign exchange contracts are recognised as unrealised gains or losses on forward foreign exchange contracts until the contracts are terminated, at which time realized gains and losses are recognised.

A Sub-Fund may use forward foreign exchange contracts for the purposes of hedging the currency exposure of the underlying securities into the relevant base currency or on behalf of a specific class in order to hedge some or all of the foreign exchange risk for such class.

For each relevant Sub-Fund, gains or losses on open foreign currency exchange spot contracts are included in Cash and Cash Equivalents in the Statement of Financial Position. Unrealised gains and losses on open forward foreign currency exchange contracts are included in Financial Derivative Instruments (the "FDIs") under assets or liabilities, as appropriate, on the Statement of Financial Position and are shown on the Schedule of Investments of each relevant Sub-Fund. Realised gains and losses and change in unrealised gains and losses on forward foreign currency contracts are included in Net Gain/(Loss) in Financial Assets at Fair Value through Profit or Loss and Financial Derivative Instruments on the Statement of Comprehensive Income.

h) Option Contracts

Options are contracts in which the writer (seller) promises that the contract buyer has the right, but not the obligation, to buy or sell a certain index, equity, bond or currency at a certain price (the strike price) on or before a certain expiration date, or exercise date. An option giving the buyer the right to buy at a certain price is called a call, while one that gives him/her the right to sell is called a put.

2. Significant Accounting Policies (continued)

h) Option Contracts (continued)

A Sub-Fund may purchase and write call and put options on securities (including straddles), securities indices and currencies and use options on futures contracts (including straddles) and swap agreements and / or hedge against changes in interest rates, currency exchange rates or securities prices. A Sub-Fund may also use options as a substitute for taking a position in other securities and funds and/or to gain an exposure within the limits laid down by the Central Bank.

The fair value of open option positions is calculated and recorded by adding premium paid on the options to unrealized gain or loss on open contracts. The fair value of the options which are dealt in on a securities market are the settlement price as determined by the market.

The premium on purchased put options exercised is subtracted from the proceeds of the sale of the underlying security or foreign currency in determining the realised gain or loss. The premium on purchased call options exercised is added to the cost of the securities or foreign currency purchased. Premiums paid from the purchase of options, which expire unexercised, are treated as realised losses.

The value of options is included in Financial Derivative Instruments under assets or liabilities on the Statement of Financial Position, as appropriate. Realised gains and losses and change in unrealised gains and losses on options are included in Net Gain/(Loss) and Financial Derivative Instruments in Financial Assets at Fair Value through Profit or Loss on the Statement of Comprehensive Income.

i) Swap Contracts

A swap is a contract under which one party agrees to provide the other party with something, for example a payment at an agreed rate, in exchange for receiving something from the other party, for example the performance of a specified asset or basket of assets. Where specified in the Relevant Supplement, a Sub-Fund may enter into swap agreements (including total return swaps and contracts for differences) with respect to various underlyings, including currencies, interest rates, securities, collective investment schemes and indices.

A Sub-Fund may use these techniques to protect against changes in interest rates and currency exchange rates. A Sub-Fund may also use these techniques to take positions in or protect against changes in securities indices and specific securities prices.

A contract for difference is an agreement between a buyer and a seller stipulating that the seller will pay the buyer the difference between the current value of the security and its value when the contract is made. If the difference turns out to be negative, the buyer pays the seller.

A total return swap is a bilateral financial contract, which allows one party to enjoy all of the cash flow benefits of an asset without actually owning this asset. It involves the exchange of the right to receive the total return, income plus capital gains or losses, of a specified reference asset, index or basket of assets against the right to make fixed or floating payments.

In respect of currencies, a Sub-Fund may utilise currency swap contracts where the Sub-Fund may exchange currencies at a fixed rate of exchange for currencies at a floating rate of exchange or vice versa. These contracts allow a Sub-Fund to manage its exposures to currencies in which it holds investment. For these instruments, the Sub-Fund's return is based on the movement of currency exchange rates relative to a fixed currency amount agreed by the parties.

In respect of interest rates, a Sub-Fund may utilise interest rate swap contracts where the Sub-Fund may exchange interest rate cash flows for cash flows based on the return of an equity or fixed income instrument, a basket of such instruments or a securities index. These contracts allow a Sub-Fund to manage its interest rate exposures. For these instruments, the Sub-Fund's return is based on the movement of interest rates relative to a fixed rate agreed by the parties.

The notional amount of swap contracts is subsequently marked-to market to reflect the fair value of the swap which is reported as a financial asset or liability at fair value through profit or loss as appropriate on the Statement of Financial Position for each relevant Sub-Fund. The amounts of interest receivable and payable are included in the Interest Receivable on Financial Derivative Instruments and Interest Payable on Financial Derivative Instruments on the Statement of Financial Position, as appropriate. Realised gains and losses, change in unrealised gains and losses on swap contracts and the net amounts of interest payments and receipts on swap contracts are included in Net Gain/(Loss) in Financial Assets at Fair Value through Profit or Loss and Financial Derivative Instruments on the Statement of Comprehensive Income.

A Sub-Fund may use credit default swaps which are a mechanism for transferring credit risk between purchaser and seller. The protection buyer purchases protection from the protection seller for losses that might be incurred as a result of a default or other credit event (explained below) in relation to an underlying security.

2. Significant Accounting Policies (continued)

i) Swap Contracts (continued)

The protection buyer pays a premium for the protection and the protection seller agrees to make a payment to compensate the protection buyer for losses incurred upon the occurrence of any one of a number of possible specified credit events, as set out in the credit default swap agreement. In relation to the use of credit default swaps, the Sub-Fund may be a protection buyer and / or a protection seller.

A Sub-Fund may also utilise swaptions, which is an option granting its owner the right but not the obligation to enter into an underlying swap.

j) Warrants

Warrants grant the right to acquire an underlying security from the issuer (as opposed to an option where a third party grants a right to acquire an underlying security as described above) at a fixed price. The fair value of warrants is based upon their quoted daily prices. Changes in the value of warrants and realised gains and losses on warrants are recognised as Net Gain/(Loss) in Financial Assets at fair Value through Profit or Loss and Financial Derivative Instruments on the Statement of Comprehensive Income.

A Sub-Fund may hold warrants on securities as a substitute for taking a position in the underlying security and/or to gain an exposure within the limits laid down by the Central Bank.

k) Foreign Exchange Translation

Functional and Presentation Currency

Items included in the Sub-Funds' financial statements are measured using the currency in which Shareholder transactions take place (the "functional currency"). The functional currency and presentation currency of each Sub-Fund is as follows:

Sub-Fund	Functional currency	Presentation currency
Fidelity MSCI Emerging Markets Index Fund	USD	USD
Fidelity MSCI Europe Index Fund	EUR	EUR
Fidelity MSCI Japan Index Fund	USD	USD
Fidelity MSCI Pacific ex-Japan Index Fund	USD	USD
Fidelity MSCI World Index Fund	USD	USD
Fidelity S&P 500 Index Fund	USD	USD
Fidelity Enhanced Reserve Fund	USD	USD
Fidelity Global Credit ex-US Fund	USD	USD
Fidelity Sustainable Global Corporate Bond Paris-Aligned Multifactor UCITS ET	F USD	USD
Fidelity Sustainable USD EM Bond UCITS ETF	USD	USD
Fidelity Sustainable Global High Yield Bond Paris-Aligned Multifactor UCITS ET	F USD	USD

Transactions and Balances

Assets and liabilities denominated in currencies other than the functional currency are translated into the functional currency at the exchange rates ruling at the Statement of Financial Position date. Transactions in currencies other than the functional currency are translated into the functional currency at the exchange rates ruling at the dates of the transactions. Gains and losses on foreign exchange transactions are recognised in the Statement of Comprehensive Income in determining the result for the period. Proceeds from subscriptions and amounts paid for redemptions in currencies other than the functional currency are translated into the functional currency at the exchange rates prevailing at the dates of the transactions.

2. Significant Accounting Policies (continued)

I) Investments Purchased and Sold awaiting settlement

Investments purchased and sold represent receivables for securities sold and payables for securities purchased that have been contracted for but not yet settled or delivered on the statement of financial position date respectively. The due from brokers balance is held for collection. These amounts are recognised initially at fair value and subsequently measured at amortised cost. At each reporting date, the Sub-Funds shall measure the loss allowance on amounts due from broker at an amount equal to the lifetime expected credit losses if the credit risk has increased significantly since initial recognition. If, at the reporting date, the credit risk has not increased significantly since initial recognition, the Sub-Funds shall measure the loss allowance at an amount equal to 12-month expected credit losses. Significant financial difficulties of the broker, probability that the broker will enter bankruptcy or financial reorganisation, and default in payments are all considered indicators that a loss allowance may be required if the credit risk increases to the point that it is considered to be credit impaired. During the financial years ended 31 January 2023 and 31 January 2022 no such impairments have occurred.

m) Interest from Financial Assets Through Fair Value and Profit and Loss

Interest from financial assets through fair value and profit and loss is recognised on the effective yield interest method and credited to the Statement of Comprehensive Income.

n) Dividend Income

Dividends are credited to the Statement of Comprehensive Income on the dates on which the relevant securities are listed as "ex-dividend". Income is shown gross of any non-recoverable withholding taxes and net of any tax credits. Withholding tax is disclosed in the Statement of Comprehensive Income.

o) Transaction Costs

Transaction costs are costs incurred to acquire financial assets or liabilities at fair value through profit or loss. They include fees and commissions paid to agents, advisers, brokers and dealers. Transaction costs, if any, are expensed as incurred in the Statement of Comprehensive Income.

p) Expenses

Expenses are recognised in the Statement of Comprehensive Income on an accrual basis.

g) Foreign Withholding Taxes and Capital Gains Tax Accrued

Dividends, interest and capital gains (if any) received on investments made by each Sub-Fund may be subject to withholding taxes imposed by the country from which the investment income/gains are received and such taxes may not be recoverable by the Sub-Funds or their Shareholders.

Dividend and interest revenue is shown gross of any non-recoverable withholding taxes, which are disclosed separately in the Statement of Comprehensive Income, and net of any tax credits.

Where there is uncertainty over future income tax treatments that may arise on the sale of investments an accrual is in place for capital gains tax and is disclosed separately in the Statement of Financial Position. This current accrual on Fidelity MSCI Emerging Markets Index Fund relates to a capital gains tax provision for Brazilian and Indian emerging market investments and can change depending on the market value of these investments. A decrease in the market value of these investments may require a reduction in the accrual which can result in a negative value in the Statement of Comprehensive Income.

r) Redeemable Participating Shares

Redeemable Participating Shares provide the Shareholders with the right to redeem their shares for cash equal to their proportionate share of the Net Asset Value of the Sub-Funds and, accordingly, are classified as financial liabilities. The liability to Shareholders is presented in the Statement of Financial Position as "Net Assets Attributable to Holders of Redeemable Participating Shares" and is based on the residual assets of each Sub-Fund after deducting all other liabilities.

2. Significant Accounting Policies (continued)

s) Distribution Policy

The Prospectus empowers the Directors to declare dividends in respect of Shares in any Distributing Class out of net income (including dividend income, securities lending income and interest revenue, less expenses) in respect of investments of each Sub-Fund (collectively, "Net Income") for the Index-Tracking Sub-Funds and out of either, Net Income and capital or Net Income for the Fidelity Enhanced Reserve Fund.

The Directors may in their sole discretion, determine that the Fund shall, on behalf of one or more Sub-Funds, apply an equalisation methodology in respect to any Distributing Class Shares. An equalisation account will be maintained for each Sub-Fund so that the amount distributed will be the same for all Shares of each Distributing Class notwithstanding different dates of issue.

A sum equal to that part of the subscription issued price of an Distributing Class Share which reflects income (if any) accrued but undistributed up to the date of issue will be deemed to be an equalisation payment and treated as repaid to Shareholders in the relevant Sub-Fund with the first dividend to which the Shareholder was entitled in the same relevant period as that in which the Shares are issued. The redemption price of each Distributing Class Share will also include an equalisation payment in respect of the accrued income of the relevant Sub-Fund up to the Dealing Day on which the relevant Distributing Class Shares are redeemed. The dividends will be automatically paid out to Shareholders in cash unless the Shareholder elects to reinvest the dividends in the Sub-Fund in respect of which the dividend is declared.

Index-Tracking Sub-Funds

In respect of Distributing Classes, and subject to Net Income being available for distribution, it is the current intention of the Directors, subject to any de minimis threshold, to declare dividends out of Net Income attributable to each of the Distributing Classes. Under normal circumstances, the Directors intend that dividends shall be declared on a quarterly basis in or around February, May, August and November of each year and paid on the last Thursday of that relevant month, or any such other Business Day that the Directors deem appropriate. However, Shareholders should note that the Directors may, in their discretion, decide not to make such payment in respect of a Distributing Class.

Fidelity Enhanced Reserve Fund

In respect of Distributing Classes, it is the current intention of the Directors, subject to any de minimis threshold, to declare dividends out of gross income attributable to each of the Distributing Classes.

Distributions out of gross income are made up of Net Income and capital. Under normal circumstances, the Directors intend that: (a) in respect of monthly Distributing Classes (MINCOME), dividends shall be declared on the first Business Day of each month and paid on the fifth Business Day of each month, or any such other Business Day that the Directors deem appropriate; and (b) in respect of quarterly Distributing Classes (QINCOME), dividends shall be declared on the first Business Day of and paid on the fifth Business Day of February, May, August and November, or any such other Business Day that the Directors deem appropriate. However, Shareholders should note that the Directors may, in their discretion, decide not to make such payment in respect of a Distributing Class. Dividends will be automatically paid out to Shareholders in cash unless the Shareholder elects to reinvest the dividends in the Sub-Fund in respect of which the dividend is declared.

Fidelity Global Credit ex-US Fund

In respect of the Accumulating Class in the Sub-Fund, the Directors have determined to accumulate all Net Income attributable to such Accumulating Class and therefore do not intend to declare dividends in respect of the Shares in such Accumulating Class.

Fidelity Sustainable Global Corporate Bond Paris-Aligned Multifactor UCITS ETF, Fidelity Sustainable USD EM Bond UCITS ETF and Fidelity Sustainable Global High Yield Bond Paris-Aligned Multifactor UCITS ETF

In respect of Distributing Classes, and subject to Net Income being available for distribution, it is the current intention of the Directors, subject to any de minimis threshold, to declare dividends out of Net Income attributable to each of the Distributing Classes.

Under normal circumstances, the Directors intend that dividends shall be declared on a quarterly basis in or around February, May, August and November of each year and paid on the last Thursday of that relevant month, or any such other Business Day that the Directors deem appropriate. However, Shareholders should note that the Directors may, in their discretion, decide not to make such payment in respect of a Distributing Class.

^{*} A zero balance reflects actual amount rounding to less than USD 0.5.

Distributions are recognised in the Statement of Comprehensive Income as Finance Costs.

t) Income Equalisation

In respect of the distributing classes, each Sub-Fund operates equalisation arrangements and makes equalisation payments in respect of each share of such Distributing Classes to reflect the pro rata payment of distributions based on the period of time the share has been owned by a shareholder. Income Equalisation is recognised in the Statement of Comprehensive Income as Finance Costs.

u) Price Adjustment Policy (Swing Pricing)

A price adjustment policy has been adopted and implemented to protect the interests of the Shareholders. The purpose of the price adjustment policy is to allocate the costs associated with large inflows and outflows to investors transacting that day, thereby protecting the long-term Shareholder from the worst effects of dilution. It achieves this purpose by adjusting the share class price at which deals in a subfund are transacted. As such, share class prices may be adjusted up or down depending on the level and type of investor transactions on a particular day within a sub-fund. In this way the existing and remaining Shareholders do not suffer an inappropriate level of dilution. The Fund will only trigger an adjustment in the price when there are significant net flows likely to have a material impact on the remaining Shareholders. The adjustment will be based on the normal dealing costs for the particular assets in which a sub-fund is invested but will not exceed 2% of the price. The Directors of the Manager may decide to increase this adjustment limit in exceptional circumstances to protect Shareholders' interests. Swing Pricing is applicable to the Fidelity Enhanced Reserve Fund and the Index Funds.

At 31 January 2023 and 31 January 2022, price adjustments were not made to the Net Asset Value of the Funds.

3. Cash and Cash Equivalents and Bank Overdraft

In line with the Central Bank Guidance paper entitled Umbrella Funds – Cash Accounts Holding Subscription, Redemption and Dividend Monies published in March 2016, one or more Umbrella Cash Accounts at umbrella level in the name of the Fund (each, an "Umbrella Cash Account") are being operated by the Administrator in accordance with the requirements of the Central Bank. Such Umbrella Cash Accounts are designed to hold unprocessed subscription monies received from investors, redemption monies payable to investors and/or other amounts due to investors.

The table below reflects the amount held in these cash accounts as at 31 January 2023 and 31 January 2022.

5. Share Capital

The Fund may issue up to 500,000,000,000,000 Shares of no par value. The maximum issued Share capital of the Fund shall be 500,000,000,000,000,000. Shares of no par value and the minimum issued Share capital of the Fund shall be €2 represented by two Subscriber Shares of no par value issued for €1 each. The issued share capital of the Fund shall not be less than the currency equivalent of €2 represented by two shares of no par value.

The Subscriber Shares entitle the holders to attend and vote at any general meetings of the Fund but do not entitle the holders to participate in the profits or assets of the Fund except for a return of capital on a winding-up. The Shares entitle the holders to attend and vote at general meetings of the Fund and (other than the Subscriber Shares) to participate equally in the profits and assets of the Sub-Fund to which the Shares relate, subject to any differences between fees, charges and expenses applicable to different Classes.

The movement in the number of redeemable participating Shares for each Sub-Fund for the financial years ended 31 January 2023 and 31 January 2022 is as follows:

6. Taxation

Each Sub-Fund is an investment undertaking as defined in Section 739B of the Taxes Consolidation Act, 1997. The Sub-Funds will not be liable to Irish tax in respect of their income and gains, other than on the occurrence of a chargeable event with respect to Irish resident shareholders. The Fund will be obliged to account for Irish income tax to the Irish Revenue Commissioners if Shares are held by non-exempt Irish resident Shareholders.

In accordance with the reporting fund regime introduced by the United Kingdom HM Revenue and Customs, each Share Class will be viewed as a separate "offshore fund" for UK tax purposes. The reporting regime permits an offshore fund to seek advance approval from HM Revenue and Customs to be treated as a reporting fund. Once an offshore fund has been granted "reporting fund" status it will maintain that status for so long as it continues to satisfy the conditions to be a "reporting fund", which include making reports to HM Revenue and Customs and investors for each period of account, without a requirement to apply for further certification by HM Revenue and Customs.

Each Share Class in the Sub-Funds is treated as a "reporting fund". This has been approved by HM Revenue and Customs.

Generally a chargeable event arises on any distribution, redemption, repurchase, cancellation, transfer of Shares by an Irish resident Shareholder or on the ending of a "Relevant Period".

A "Relevant Period" for these purposes is an eight year period beginning with the acquisition of the Shares by the Irish resident Shareholder and each subsequent period of eight years beginning immediately after the preceding Relevant Period.

A gain on a chargeable event does not arise in respect of:

- (i) a Shareholder who is not Irish resident and not ordinarily resident in Ireland at the time of the chargeable event provided the necessary signed statutory declarations are held by the Sub-Fund; or
- (ii) certain exempted Irish resident investors who have provided the Sub-Fund with the necessary signed statutory declaration.

Capital gains, dividends, and interest received by the Sub-Funds may be subject to withholding taxes imposed by the country of origin and such taxes may not be recoverable by the Sub-Funds or their Shareholders.

7. Fees

All of the fees and expenses payable in respect of each Sub-Fund are paid as one single fee. This is referred to as the total expense ratio or "TER". The Manager is responsible for arranging the payment from the TER of all operational expenses of the Sub-Funds, including Directors', Auditors', Legal Advisors', Administrator's, Depositary's and other service providers' fees and expenses and Class hedging costs. The Manager is entitled to an annual fee in respect of the services that it provides to the Sub-Funds. However, this fee will only be paid in circumstances where there is a residual amount left from the TER after the other operational expenses have been paid. Save where another party has agreed to reimburse the Sub-Funds, the TER includes but is not limited to fees and expenses of the Investment Manager, Depositary, Administrator, Secretary and any sub-investment advisor.

Subject to applicable law and regulation, the Manager, the Investment Manager, any Sub-Investment Manager, the Administrator, the Depositary, the General Distributor or any Sub-Distributor may pay part or all of its fees to any person that invests in or provides services to the Fund or in respect of the Sub-Funds.

Effective from 1 June 2022, the Manager of the Fund changed from FIL Fund Management (Ireland) Limited to FIL Investment Management (Luxembourg) S.A., Ireland Branch. This change had no impact on the TER fee structure outlined below.

The TER does not include extraordinary costs, transaction costs and related expenses, including but not limited to, transaction charges, stamp duty or other taxes on the investments of the Sub-Funds, including duties and charges for portfolio re-balancing, withholding taxes, commissions and brokerage fees incurred with respect to the Sub-Funds' investments, interest on borrowings and bank charges incurred in negotiating, effecting or varying the terms of such borrowings, any commissions charged by intermediaries in relation to an investment in the Sub-Funds and such extraordinary or exceptional costs and expenses (if any) as may arise from time to time, such as material litigation in relation to the Sub-Funds or the Fund, which will be paid separately out of the assets of the relevant Sub-Fund.

The TER is calculated and accrued daily from the Net Asset Value of the Sub-Funds and payable at least quarterly in arrears. The TER of each Sub-Fund is as listed in the Relevant Supplement. If the Sub-Funds' expenses exceed the TER outlined above in relation to operating the Sub-Funds, the Manager will cover any shortfall from its own assets.

The table below outlines the maximum TER figures applicable to the active share classes of each Sub Fund:

7. Fees (continued)

Directors' Fees

The aggregate emoluments of the Directors paid by the Manager out of the TER on behalf of the Sub-Fund (including expenses) for the financial year ended 31 January 2023 was EUR40,000 which were paid to Denise Kinsella and Bronwyn Wright as Independent Directors.

The aggregate emoluments of the Directors paid by the Manager out of the TER on behalf of the Sub-Fund (including expenses) for the financial year ended 31 January 2022 was EUR58,333 which were paid to Denise Kinsella, Bronwyn Wright and Dominic Rossi as Independent Directors.

Executive Directors are not paid a fee from the Fund.

Auditors' Remuneration

The statutory audit fee (including out-of-pocket expenses incurred by the auditors in connection with their work) paid by the Manager on behalf of the Fund for the financial year ended 31 January 2023 amounted to EUR106,602 (excluding VAT) and for the financial year ended 31 January 2022 was EUR88,400 (excluding VAT). There were no other fees paid to the auditors other than the statutory audit fee.

8. Related Parties

Related Party Disclosures

In the opinion of the Directors, the list of related parties under IAS 24 "Related Party Transactions" is as follows:

- FIL Limited the ultimate holding company of the Manager and fellow subsidiary undertakings namely:
 - (i) FIL Investment Management (Luxembourg) S.A., Ireland Branch (since 1 June 2022)
 - (ii) FIL Fund Management (Ireland) Limited (until 31 May 2022)
 - (iii) FIL Distributors
 - (iv) FIL Investment Management (Hong Kong)
 - (v) FIL Fund Management Limited
 - (vi) FIL Investments International
 - (vii) FIL Fondsbank GmbH
- The Directors of the Fund and their dependents.
- The Managers and the Investment Managers of Fidelity Enhanced Reserve Fund and the Fidelity Global Credit ex-US Fund are related parties to the Fund and receive fees, as outlined in the Note 7. The amounts payable as at 31 January 2023 and 31 January 2022 are disclosed in the Statement of Financial Position.

As at 31 January 2022, Fidelity Enhanced Reserve Fund held 0.76% of the net assets of Fidelity Institutional Liquidity United States Dollar Fund which is managed by FIL Investment Management (Luxembourg) S.A., Ireland Branch who is a related party to the Fund.

All related parties transactions are at arm's length.

9. Transaction Costs

Transaction costs are incremental costs that are directly attributable to the acquisition, issue or disposal of the of the financial asset or liability. In order to achieve its investment objective, each Sub-Fund incurs transaction costs in relation to trading activity on its portfolio. These costs may include broker commissions, settlement fees, stamp duties, and financial transaction taxes. For some financial instruments, such as debt securities, repurchase agreements, and forward foreign exchange contracts, transaction costs are embedded in the price of the instruments and are not separately identifiable. Identifiable transaction costs incurred during the financial years ended 31 January 2023 and 31 January 2022 are recognised as an expense for financial reporting purposes in the Statement of Comprehensive Income.

10. Financial Risk Management

Each Sub-Fund may be exposed to market price risk, interest rate risk, credit risk, liquidity risk or currency risk arising from the financial instruments it holds. The Sub-Funds' overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on financial performance.

The policies documented below are standard operational practices and are reviewed regularly by the Investment Manager. In certain market conditions, the Investment Manager may apply additional risk procedures to minimise potential adverse effects on the Sub-Funds' financial performance.

The Directors and the Investment Manager perform the financial risk management procedures on behalf of the Fund.

a) Global Exposure

Under the UCITS Regulations, the Manager employs a risk management process which enables it to accurately monitor and manage the global exposure of the Sub-Funds to financial derivative instruments (which are a subset of the financial instruments in which the Sub-Funds invest).

The global exposure and leverage of each of the Sub-Funds other than Fidelity Global Credit ex-US Fund is calculated using the commitment approach and these Sub-Funds' global exposure will not exceed 100% of Net Asset Value.

The commitment approach converts the Sub-Funds' FDI positions into the equivalent positions in the underlying assets and seeks to ensure that the FDI risk is monitored in terms of any future "commitments" to which it is (or may be) obligated.

The global exposure and leverage of Fidelity Global Credit ex-US Fund is calculated using relative VaR and absolute VaR respectively. The absolute VaR of Fidelity Global Credit ex-US Fund will be no greater than 10% of the Net Asset Value of the Sub-Fund.

Fidelity Global Credit ex-US Fund

^{*} Relative VaR Limit Utilization = [Fund VaR / Benchmark VaR] - 1

b) Market Risk

This risk comprises of three main types of risk: market price risk, currency risk and interest rate risk.

i) Market Price Risk

For Sub-Funds which invest in equities, the value of those equities may fluctuate, sometimes dramatically, in response to the activities and results of individual companies or because of general market and economic conditions or other events. Currency exchange rate movements will also cause changes in value when the currency of the investment is other than the Base Currency of the Sub-Fund holding that investment. The Sub-Funds policy is to manage market price risk through diversification and selection of securities and other financial instruments within specified limits set by the Board of Directors.

The following sensitivity analysis assumes a change in the market price of investments of 5% while holding all other variables constant. In practice this is unlikely to occur, and changes in some of the variables may be correlated. In addition, as the sensitivity analysis uses historical data as a basis for determining future events, it does not encompass all possible scenarios, particularly those that are of an extreme nature.

10. Financial Risk Management (continued)

b) Market Risk (continued)

i) Market Price Risk (continued)

The Investment Manager deems the percentage used applicable for the Sub-Funds' analysis. At 31 January 2023 and 31 January 2022, had the fair value of investments increased/decreased by 5%, with all other variable held constant, the net asset attributable to shareholders for each Sub-Fund would have increased/decreased as set out in the table below:

		Effect on NAV	Effect on NAV
Sub-Fund	Currency	31 January 2023	31 January 2022
Fidelity MSCI Emerging Markets Index Fund	USD	1,720,843	2,466,827

Fidelity Sustainable Global High Yield Bond Paris-Aligned			
Multifactor UCITS ETF	USD	2,219,640	_

ii) Currency Risk

The Sub-Funds' total return and Statement of Financial Position can be significantly affected by foreign exchange rate movements if the Sub-Funds' assets and income are denominated in currencies other than the Base Currency of the Sub-Funds and this means that currency movements may significantly affect the Sub-Funds' Net Asset Value per Share. The three principal areas of foreign currency risk are where movements in exchange rates affect the value of investments, short term timing differences or income received.

At 31 January 2023 and 31 January 2022, had the exchange rates increased/decreased by 5%, with all other variable held constant, the net asset attributable to shareholders for each Sub-Fund would have increased/decreased as set out in the below tables. Forward Foreign Exchange Contracts held for Class Hedging Purposes are excluded from the analysis, as they are not considered to be exposed to the risk.

iii) Interest Rate Risk

Interest rate risk arises from the effects of fluctuations in the prevailing levels of market interest rates on the fair value of financial assets and future cash flows.

The majority of the Index Tracking Sub-Funds' financial assets and liabilities are non-interest bearing as at 31 January 2023 and 31 January 2022. As a result, the Index Tracking Sub Funds are not subject to significant amounts of risk due to fluctuations in the prevailing levels of market interest rates.

The interest rate risk profile of financial assets and financial liabilities of the Fidelity Enhanced Reserve Fund, Fidelity Global Credit ex-US Fund, Fidelity Sustainable Global Corporate Bond Paris-Aligned Multifactor UCITS ETF, Fidelity Sustainable USD EM Bond UCITS ETF and Fidelity Sustainable Global High Yield Bond Paris-Aligned Multifactor UCITS ETF by the maturity date was as follows:

10. Financial Risk Management (continued)

c) Credit Risk

Each Sub-Fund may be exposed to credit risk, which is the risk that a counterparty will be unable to pay amounts in full when they fall due. Impairment provisions are provided for losses that have been incurred by the Statement of Financial Position date, if any. The main concentration to which each Sub-Fund is exposed arises from each Sub-Fund's investments in derivative instruments. Each Sub-Fund is also exposed to counterparty credit risk on the cash and cash equivalents, amounts due from brokers and other receivable balances. The Index Tracking Sub-Funds invest in equity securities and have limited or no credit risk on their investments.

The Fidelity Enhanced Reserve Fund, Fidelity Global Credit ex-US Fund, Fidelity Sustainable Global Corporate Bond Paris-Aligned Multifactor UCITS ETF, Fidelity Sustainable USD EM Bond UCITS ETF and Fidelity Sustainable Global High Yield Bond Paris-Aligned Multifactor UCITS ETF invest in debt securities and these Sub-Funds may be exposed to losses resulting from default of issuers or borrowers of debt which these Sub-Funds' holds.

As at 31 January 2023 and 31 January 2022, the institutions where the Sub-Funds' cash was held and their respective short term credit ratings, as rated by Fitch, are listed below:

Institution	Short Term Credit Indicator 31 January 2023	Short Term Credit Indicator 31 January 2022
Australia and New Zealand Banking Group	F1	F1
Banco Bilbao	F2	F2
Bank of Nova Scotia	F1+	F1+
BNP Paribas	F1	F1
Brown Brothers Harriman	F1+	F1+
Citi	F1	F1
Credit Suisse	-	F2
HSBC	F1+	F1+
ING Bank	F1+	F1+

d) Liquidity Risk

In normal market conditions the assets of each Sub-Fund comprise mainly realisable investments which can be readily sold. Each Sub-Fund's main liability is the redemption of any Shares that investors wish to sell. In general, the investments, including cash, of each Sub-Fund are managed so that it can meet its liabilities. Investments held may need to be sold if insufficient cash is available to finance such redemptions. If the size of the disposals are sufficiently large, or the market is illiquid, then there is a risk that either the investments might not be sold or the price at which they are sold may adversely affect the Net Asset Value of the Sub-Funds. The Manager employs an appropriate liquidity risk management process, which takes into account efficient portfolio management transactions employed by the Sub-Funds, in order to ensure that the Sub-Funds are able to comply with their stated redemption obligations. However, it is possible that in the type of circumstances described above, the Sub-Funds may not be able to realise sufficient assets to meet all redemption requests that they receive or the Sub-Funds may determine that the circumstances are such that meeting some or all of such requests is not in the best interests of the Shareholders.

The tables below analyse the Sub-Funds' financial liabilities into relevant maturity groupings based on the remaining period at the Statement of Financial Position date to the contractual maturity date. The amounts in the table below are the contractual undiscounted cash flows.

Detailed analyses of the Sub-Funds' assets are not shown as they are considered liquid based on the fact that they could be converted to cash in less than one month at close to their carrying value. Forward Foreign Exchange Contracts held for Class Hedging Purposes are excluded from the analysis, as they are not considered to be exposed to the risk.

Fidelity MSCI Emerging Markets Index Fund

10. Financial Risk Management (continued)

e) Capital Risk Management

The capital of each Sub-Fund is represented by the Net Assets Attributable to Holders of Redeemable Participating Shares. The amount of Net Assets Attributable to Holders of redeemable participating Shares is subject to subscriptions and redemptions at the discretion of the Shareholders as well as changes resulting from the Sub-Fund's performance. The Manager's objective when managing capital is to safeguard each Sub-Fund's ability to continue as a going concern in order to provide returns for Shareholders, provide benefits to other stakeholders and maintain a strong capital base to support the development of the investment activities of the Sub-Fund.

In order to maintain the capital structure, the Manager's policy is to perform the following:

- monitor liquidity relative to the assets under management and the dealing cycle;
- · make appropriate adjustments to distributions the Sub-Funds pay to redeeming Shareholders; and
- redeem and issue new Shares in accordance with the Prospectus which permits the restriction of redemptions in certain circumstances and require certain minimum holdings and subscriptions.

f) Fair Value Estimation

Each Sub-Fund has classified fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels as defined under IFRS 13:

- (i) Level 1: Investments whose values are based on quoted market prices in active markets and are therefore classified within level 1 include equities listed on an active stock exchange, U.S. government treasury bills and certain non-U.S. sovereign obligations. Quoted prices for these instruments are not adjusted.
- (ii) Level 2: Financial instruments that trade in markets that are not considered to be active but are valued based on quoted market prices, dealer quotations or alternative pricing sources supported by observable inputs are classified within level 2. These include investment-grade corporate bonds and certain non-U.S. sovereign obligations and over the counter derivatives. As level 2 investments include positions that are not traded in active markets and/or are subject to transfer restrictions, valuations may be adjusted to reflect illiquidity and/or non-transferability, which are generally based on available market information.
- (iii) Level 3: Investments classified within level 3 have significant unobservable inputs, as they trade infrequently. Level 3 instruments include certain corporate debt securities. As observable prices are not available for these securities, the Sub-Funds have used valuation techniques to derive the fair value.

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a level 3 measurement. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgement, considering factors specific to the financial asset or liability.

The determination of what constitutes 'observable' requires significant judgment by the Directors. The Directors have delegated this task to the Administrator. The Administrator considers observable data to be that market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market. Where unobservable inputs are used in determining the fair value of an investment, the Administrator receives instruction from the Manager of the fair value measurement to use.

As at 31 January 2023 and 31 January 2022, cash and cash equivalents are classified as Level 1. All other assets and liabilities not disclosed in the tables below are classified as Level 2.

10. Financial Risk Management (continued)

f) Fair Value Estimation (continued)

The following tables analyse within the fair value hierarchy of the Sub-Funds' financial assets and liabilities measured at fair value at 31 January 2023 and 31 January 2022:

The following table presents the transfers between hierarchy levels for the financial year ended 31 January 2023:

	Level 1	Level 2	Level 3
	USD	USD	USD
Equities	(1,616,101)	_	1,616,101
Equities	1,172	-	(1,172)
Total	(1,614,929)	=	1,614,929

Transfers between levels of the fair value hierarchy, for the purpose of preparing above table, are deemed to have occurred at the beginning of the financial year.

The Equities transfer of USD 1,616,101 out of Level 1 and into Level 3 relates to the holdings Alrosa (USD 22,732), Gazprom (USD 321,188), Inter RAO (USD 19,525), LUKOIL (USD 236,685), Magnit (USD 27,772), MMC Norilsk Nickel (USD 115,763), Mobile TeleSystems (USD 20,254), Moscow Exchange MICEX-RTS (USD 31,715), Novatek (USD 125,730), Novolipetsk Steel (USD 26,963), Ozon Holdings (USD 6,026), Polyus (USD 31,398), Rosneft Oil (USD 57,050), Sberbank of Russia (USD 242,301), Severstal (USD 23,886), Surgutneftegas (USD 26,477), Surgutneftegas - Preference Shares (USD 15,713), Tatneft (USD 56,919), United Co. RUSAL International (USD 16,884), VK (USD 6,403), VTB Bank (USD 11,768), X5 Retail Group (USD 16,351), Yandex (USD 92,893). They are now being classed as Level 3 because the Russian holdings were written down and priced at zero. TCS Group Holding (USD 51,643) was transferred to Level 3 because a decision was taken by the Manager to write it fair value down to zero because the company deals primarily with Russia and is subject to sanctions. Siam Commercial Bank (USD 12,062) was also transferred to Level 3 because it was delisted.

10. Financial Risk Management (continued)

f) Fair Value Estimation (continued)

Fidelity MSCI Emerging Markets Index Fund (continued)

The Equities transfer of USD 1,172 out of Level 3 and into Level 1 relates to the holding Xinjiang Zhongtai Chemical. It is now being classed as Level 1 as resumed trading last year.

There were no transfers between levels as at 31 January 2022.

The following table presents movement in Level 3 instruments for the financial year ended 31 January 2023.

Balance at 1 February 2022	5,125
Transfer from / into Level 3	1,614,929
Purchases	43,380
Change in unrealised appreciation / (depreciation)	(1,627,872)
Sales	(47,711)
Corporate Actions	16,639
Realised gain / (loss)	(3,737)
Balance at 31 January 2023	753

The Level 3 holdings as at 31 January 2023, consist of the following investments: Siam Commercial Bank with a fair value of USD 753 and is classified as Level 3 because it is delisted. All Russian equity investments totaling of USD Nil are classified as Level 3 because their fair value has been written down to zero. Refer to the SOI on page 35 for more details of Russian holdings written down. TCS Group Holding's fair value has been written down to zero because its primary dealings are in Russia and is subject to sanctions. F05238 with a fair value of USD Nil is classified as Level 3 because it is being priced at cost as no vendor price is available.

A sensitivity analysis of the Level 3 investments is not required as unobservable inputs were not used in determining their valuation as the holdings have been either delisted or have been marked to zero.

The following table presents movement in Level 3 instruments for the financial year ended 31 January 2022.

Balance at 1 February 2021	_
Purchases	1,072
Change in unrealised appreciation / (depreciation)	1,214
Corporate Actions	2,839
Balance at 31 January 2022	5.125

The Level 3 holdings as at 31 January 2022 consisted of two common stock: Motherson Sumi Wiring India and Xinjiang Zhongtai Chemical, and they were classified as a level 3 holdings because the holdings are unlisted and suspended, respectively.

A sensitivity analysis of the Level 3 investments is not required as unobservable inputs were not used in determining their valuation as the holdings have been either delisted or have been marked to zero.

There were no transfers between levels as at 31 January 2023.

The following table presents the transfers between hierarchy levels for the financial year ended 31 January 2022:

	Level 1	Level 2	Level 3
	USD	USD	USD
Government Bonds	176,290,803	(176,290,803)	_
Transferable Securities	253,895,543	(253,895,543)	_
Total	430,186,346	(430,186,346)	_

Transfers between levels of the fair value hierarchy, for the purpose of preparing above table, are deemed to have occurred at the beginning of the financial year.

The Government Bonds transfer of USD 176,290,803 out of Level 2 and into Level 1 relates to the holdings:

Description	Maturity Date	Coupon	Value
Agricultural Bank of China	27/10/2023	3.05%	21,981,909
Airport Authority	08/03/2026	2.10%	46,315,250
China Development Bank	10/01/2025	3.23%	73,866,961
Export-Import Bank of China	15/10/2022	0.72%	349,571
Export-Import Bank of Korea	27/04/2023	1.41%	714,181
Export-Import Bank of Korea	01/06/2023	1.00%	5,462,543
Export-Import Bank of Korea	03/11/2023	2.10%	267,363
Export Import Bank of Thailand	20/11/2023	1.12%	1,702,550
Export Import Bank of Thailand	23/05/2024	1.06%	6,015,360
Korea Development Bank	18/02/2023	0.57%	1,902,670
Korea Housing Finance	31/10/2022	3.00%	522,428
Korea Resources	24/04/2022	3.00%	6,483,206
Philippine Government International Bond	03/02/2023	0.00%	9,713,061
Sri Lanka Government International Bond	18/04/2023	5.75%	993,750

These holdings are Government issued Bonds so a Level 1 classification is considered appropriate.

g) Cybersecurity Risk

The Fund and its service providers (including the Manager and Investment Manager) are susceptible to cyber-attacks and technological malfunctions that may have effects that are similar to those of a cyber-attack. Cyber-attacks include, among others, stealing or corrupting data maintained online or digitally, preventing legitimate users from accessing information or services on a website, releasing confidential information without authorisation, and causing operational disruption. Successful cyber-attacks against, or security breakdowns of, the Fund, the Manager, Investment Manager, or the Depositary, or other service provider may adversely affect the Sub-Funds or their Shareholders. For instance, cyber-attacks may interfere with the processing of Shareholder transactions, affect the Fund's ability to calculate its Net Asset Value, cause the release or misappropriation of private Shareholder information or confidential Sub-Fund information, impede trading, cause reputational damage, and subject the Fund to regulatory fines, penalties or financial losses, reimbursement or other compensation costs,

10. Financial Risk Management (continued)

g) Cybersecurity Risk (continued)

and additional compliance costs. The Manager and the Investment Manager have established business continuity plans and systems designed to prevent cyber-attacks. Such plans and systems are subject to inherent limitations. Similar types of cyber security risks also are present for issuers of securities in which the Sub-Funds invest, which could result in material adverse consequences for such issuers, and may cause the Sub-Funds' investments in such securities to lose value.

h) Offsetting

The Sub-Funds are required to disclose the impact of offsetting assets and liabilities represented in the statement of financial position to enable users of the financial statements to evaluate the effect or potential effect of netting arrangements on its financial position for recognized assets and liabilities. These recognized assets and liabilities are derivative instruments that are either subject to an enforceable master netting arrangement or similar agreement or meet the following right of set-off criteria: the amounts owed by a Sub-Fund to another party are determinable, the Sub-Fund has the right to set-off the amounts owed with the amounts owed by the other party, the Sub-Fund intends to set-off on a net basis, and the Sub-Funds right of set-off is enforceable at law.

For financial reporting purposes, the Sub-Funds do not offset derivative assets and derivative liabilities in the statement of financial position. The following tables present the Sub-Funds over the counter derivative assets and liabilities by counterparty, net of amounts available for offset under ISDA Master Agreement and net of the related collateral received by the Sub-Funds for assets and pledged by the Sub-Funds for liabilities as at 31 January 2023 and 31 January 2022:

i) Custody and Title Risk

The Depositary is under a duty to hold in custody all financial instruments that may be registered in a financial instruments account opened in the depositary's books and all financial instruments that can be physically delivered to the depositary. The Depositary is required to ensure that all financial instruments that can be registered in a financial instruments account opened in the depositary's books are registered in the depositary's books within segregated accounts. For other assets, the Depositary shall verify the Fund's ownership of such assets.

The Depositary will maintain a record of the financial instruments entrusted to it and those assets for which it is satisfied that the Fund holds the ownership. When the Depositary employs a sub-custodian the Depositary retains responsibility for the assets of the Sub-Fund.

However, it should be noted that not all jurisdictions have the same rules and regulations as Ireland regarding the custody of assets and the recognition of the interests of a beneficial owner such as a Sub-Fund. Therefore, in such jurisdictions, there is a risk that if a subcustodian becomes bankrupt or insolvent, the Sub-Fund's beneficial ownership of the assets held by such sub-custodian may not be recognised and consequently the creditors of the sub-custodian may seek to have recourse to the assets of the Sub-Fund. In those jurisdictions where the Sub-Fund's beneficial ownership of its assets is ultimately recognised, the Sub-Fund may suffer delay and cost in recovering those assets.

The Sub-Funds may invest in markets where custodial and/or settlement systems are not fully developed, therefore the assets of a Sub Fund which are traded in such markets and which have been entrusted to sub-custodians, in circumstances where the use of such sub custodians is necessary, may be exposed to risk. The Depositary is obliged to maintain an appropriate level of supervision over the sub-custodian and make appropriate enquiries from time to time to confirm that the obligations of the agent continue to be competently discharged.

13. Soft Commission Agreements

There were no soft commission arrangements entered into during the financial years ended 31 January 2023 and 31 January 2022.

14. Cross-trades

The Manager and/or the Investment Manager may enter into trades for the account of a Sub-Fund with: (i) the accounts of other clients managed by the Manager, the Investment Manager or its affiliates; or (ii) their house accounts (i.e., accounts owned by the Manager, the Investment Manager or any of its connected persons over which it can exercise control and influence) ("cross-trades"). Such cross-trades will only be undertaken in accordance with the relevant requirements promulgated by the relevant authorities.

There were no cross trades during the financial year ended 31 January 2023.

For the financial year ended 31 January 2022, the Fidelity Enhanced Reserve Fund entered into the following cross trades:

Trade Date	Security Name	Currency	Execution Amount
14/04/2021	BOSCI	USD	12,958,790
14/04/2021	Rizal Commercial Banking	USD	9,979,133
13/05/2021	GRIFOLS	EUR	281,063
10/06/2021	China CITIC Bank International	USD	531,028
10/06/2021	China Huaneng Group Hong Kong Treasury Management Holding	USD	511,250
15/07/2021	Bank of East Asia	USD	18,892,200
30/07/2021	Wharf REIC Finance	CNY	23,059,585
31/08/2021	Puma	EUR	217,098
14/09/2021	King Power Capital	USD	27,509,500
19/11/2021	VZ Holding	CHF	467,965
23/11/2021	RKPF Overseas 2019 A	USD	1,368,500

15. Efficient Portfolio Management

The Sub-Funds may employ investment techniques and instruments for efficient portfolio management purposes only, subject to the conditions and within the limits from time to time laid down by the Central Bank of Ireland. Any such technique or instrument must be one which (alone or in combination with one or more other techniques or instruments) is believed by the Investment Manager to be economically appropriate to the efficient portfolio management of the Sub-Fund, i.e. the use of a technique or instrument may only be undertaken for the purposes of one or more of the following:

- (a) a reduction in risk,
- (b) a reduction in costs,
- (c) the generation of additional capital or income for the Sub-Fund with an appropriate level of risk, taking into account the risk profile of the Sub-Fund and the general provisions of the UCITS Regulations.

During the financial years ended 31 January 2023 and 31 January 2022, the Sub-Funds used futures contracts for efficient portfolio management purposes. The exposure, counterparties, net revenues and costs from using these techniques are all detailed below.

Exposure obtained through the efficient portfolio management:

Fidelity MSCI Emerging Market Index Fund

31 January 2023

		Net Exposure

16. Significant Events during the Financial Year

Ukraine Crisis

In February 2022, Russia invaded Ukraine and following this Irish, EU, UK, and US governmental and regulatory bodies issued sanctions against Russia and related regions, targeting individuals, companies and sectors. The Company is continuing to comply with sanctions related obligations and has no material exposures to Russia or Belarus involving investments, counterparties or vendors. The above situation continues to evolve, including increased wider geopolitical tensions between the USA, Russia and also China. This together with the withdrawal of governmental and central bank support mechanisms, the replacement of quantitative easing with quantitative tightening, combined with increased central bank interest rates and further possible increases, in response to increases in inflation and commodity energy prices (oil and gas), has led to increased volatility in the financial and related commodity markets, and in the outlook for inflation, interest rates, bonds and debt instruments yields. The Directors of the Company continue to monitor the situation closely considering the needs and requirements of clients and stakeholders, including ongoing monitoring of market volatility, funds, fund liquidity, business continuity planning, cyber risk assessment, operational resilience, scenario planning together with other operational risks and emerging risks that may arise.

The Prospectus was updated on 2 June 2022 to reflect the takeover by FIL Investment Management (Luxembourg) S.A. ("FIMLUX") of FIL Fund Management (Ireland) Limited by way of a merger by absorption and the appointment of FIMLUX as manager of the Fund through its newly established Ireland branch with effect from 1 June 2022 and certain other minor changes. The supplements for each of the Fund were also re-issued on 2 June 2022 to coincide with the issue of the revised prospectus.

The Supplement for Fidelity Sustainable USD EM Bond UCITS ETF was updated on 15 August 2022 to incorporate a multifactor investment approach.

The Central Bank of Ireland approved two new ETF sub-funds of the Fund on 27 September 2022, namely: Fidelity Sustainable Global High Yield Paris-Aligned Multifactor UCITS ETF and Fidelity Global Government Bond Climate Aware Index UCITS ETF. The Fidelity Sustainable Global High Yield Paris-Aligned Multifactor UCITS ETF launched on 7 November 2022.

The Supplement for Fidelity Sustainable Corporate Bond Paris-Aligned Multifactor UCITS ETF (formerly, *Fidelity Sustainable Global Corporate Bond Multifactor UCITS ETF*) was updated on 30 September 2022 to reflect various changes, including the 'uplift' of the sub-fund to classification under Art. 9 of the SFDR, with a carbon emissions reduction objective utilising an EU Paris-aligned benchmark (incorporating a change of investment objective, certain changes to the investment policy and the change of name of the sub-fund to Fidelity Sustainable Corporate Bond Paris-Aligned Multifactor UCITS ETF) and a change of dealing cut-off time. These changes were approved on adjourned extraordinary general meeting ("EGM") of the shareholders of the sub-fund relating to these changes, which was held on 28 September 2022.

The Prospectus and the supplements for each of the Fund were updated on 1 December 2022 to reflect the pre-contractual disclosure requirements of the EU Sustainable Finance Disclosure Regulation (the "SFDR").

There have been no other significant events affecting the Fund during the financial year.

17. Events since the Financial Year

Following the market events effecting SVB Financial Group and Signature Bank, the Manager took the decision to apply discounts to their prices of 100% effective 13th March 2023. The NAV impact of these discounts on the Sub-Funds which held these investments on that date were as follows:

		NAV Impact
Holding	Sub-Fund	at 13th March 2023
Signature Bank	Fidelity MSCI World Index Fund	0.01%
SVB Financial Group	Fidelity MSCI World Index Fund	0.03%
Signature Bank	Fidelity S&P 500 Index Fund	0.02%
SVB Financial Group	Fidelity S&P 500 Index Fund	0.05%

The Manager continues to monitor the pricing of the SVB Financial Group and Signature Bank investments on a regular basis.

The Fidelity Global Government Bond Climate Aware Index UCITS ETF Fund launched on 15 March 2023.

Ms. Denise Kinsella resigned as a Director of the Fund, effective 31 March 2023.

During the period from the financial year end of 31 January 2023 to the date of approval of these financial statements, net redemptions in excess of 20% of the Shares in Issue at year end, occurred on the sub-funds detailed in the below table:

Sub-Fund	Share Class	Units Redeemed	Total Redemptions
Fidelity Global Credit ex-US Fund	Class X-Acc USD	9,250,151	USD 81,340,000
Fidelity Sustainable Global Corporate Bond Paris-Aligned			
Multifactor UCITS ETF	Class GBP Hedged Acc	39,016,833	GBP 215,972,963

There were no other significant events affecting the Fund after the financial year.

18. Approval of Financial Statements

The annual report and audited financial statements were approved by the Board of Directors of the Fund on 26 May 2023.

Fidelity UCITS II ICAV

DIRECTORS' REPORT

The Directors present, herewith their annual report and audited financial statements for Fidelity UCITS II ICAV (the "Fund") for the financial year ended 31 January 2023.

Statement of Directors' Responsibilities

The Directors are responsible for preparing the annual report and the financial statements in accordance with applicable law and regulations. The Irish Collective Asset-management Vehicles Act 2015 (the "ICAV Act") as amended requires the Directors to prepare financial statements for each financial year which give a true and fair view of the Fund's assets, liabilities and financial position as at the end of the financial year and the profit or loss of the Fund for the financial year. The Directors have elected to prepare the financial statements in accordance with applicable Irish law and International Financial Reporting Standards, as adopted by the European Union ("IFRS").

In preparing these financial statements, the Directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- state whether the financial statements have been prepared in accordance with applicable accounting standards and identify the standards in question, subject to any material departures from those standards being disclosed and explained in the notes to the financial statements; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Fund will continue in business.

The Directors are responsible for keeping adequate accounting records which disclose with reasonable accuracy, at any time, the assets and liabilities and financial position of the Fund and enable them to ensure that the financial statements are prepared in accordance with IFRS and comply with the ICAV Act 2015 and the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011 (as amended) ("UCITS Regulations") and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019 (the "Central Bank UCITS Regulations"). They are also responsible for safeguarding the assets of the Fund and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

The Directors are responsible for the maintenance and integrity of the corporate and financial information included on the Fund's website. Legislation in Ireland governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

The Directors are required to entrust the assets of the Fund to a Depositary for safe-keeping. In carrying out this duty, the Fund has appointed Brown Brothers Harriman Trustee Services (Ireland) Limited as Depositary (the "Depositary").

The Financial Statements are available from website at the following link: https://www.fidelity.ie/fidelity-ucits-ii-icav/

Accounting Records

The Fund is obliged to keep or cause to be kept adequate accounting records as outlined in Section 110 of the ICAV Act. To achieve this, the Directors have appointed a service organisation Brown Brothers Harriman Fund Administration Services (Ireland) Limited (the "Administrator"). The Fund's accounting records are retained at the Administrator's registered office at 30 Herbert Street, Dublin 2, Ireland.

Principal Activities

The objective of the Fund is the collective investment in transferable securities and/or other liquid financial assets of capital raised from the public, operating on the principle of risk spreading in accordance with the UCITS Regulations.

The Fund was registered in Ireland on 14 November 2017 as an Irish collective asset-management vehicle with variable capital and having segregated liability between its Sub-Funds and is structured as an umbrella collective asset-management vehicle in that the share capital of the Fund may be divided into different Share Classes with one or more Share Classes representing a separate Sub-Fund of the Fund. Each Sub-Fund may have more than one Share Class. The assets of each Sub-Fund are invested in accordance with the investment objectives applicable to such Sub-Fund.

DIRECTORS' REPORT (CONTINUED)

Principal Activities (continued)

The Fund is organised in the form of an umbrella fund with segregated liability between sub-funds. The Prospectus provides that the Fund may offer separate sub-funds. Each Sub-Fund will have a distinct schedule of investments. Currently there are 24 Sub-Funds under the umbrella. Of these 24 Sub-Funds, 10 Sub-Funds have a December year end and 14 Sub-Funds have a January year end. These January year end financial statements are prepared for the below 11 Sub-Funds which were launched as of the financial year end (each, a "Sub-Fund" and, collectively, the "Sub-Funds").

There are three other Sub-Funds of the umbrella with 31 January year end (Fidelity MSCI Eurozone Index Fund, Fidelity MSCI UK Index Fund and Fidelity Global Government Bond Climate Aware Index UCITS ETF) that have been approved by the Central Bank of Ireland, but they have not been launched as at the financial year end.

Sub-Fund	Launch Date
Fidelity MSCI Emerging Markets Index Fund	20 March 2018
Fidelity MSCI Europe Index Fund	20 March 2018
Fidelity MSCI Japan Index Fund	20 March 2018
Fidelity MSCI Pacific ex-Japan Index Fund	20 March 2018
Fidelity MSCI World Index Fund	20 March 2018
Fidelity S&P 500 Index Fund	20 March 2018
Fidelity Enhanced Reserve Fund	26 March 2018
Fidelity Global Credit ex-US Fund	2 March 2020
Fidelity Sustainable Global Corporate Bond Paris-Aligned Multifactor UCITS ETF	22 March 2021
Fidelity Sustainable USD EM Bond UCITS ETF	25 March 2021
Fidelity Sustainable Global High Yield Bond Paris-Aligned Multifactor UCITS ETF	7 November 2022

Review of Business

The investment objectives of each individual Sub-Fund trading during the year ended 31 January 2023 are stated in the General Information section on pages from 2 to 3.

The performance of the Sub-Funds against these investment objectives for the relevant fiscal year is detailed in the Investment Manager Reports on pages from 10 to 16.

In addition to providing the performance of each Sub-Fund these reports also provide an additional portfolio commentary and a future outlook relevant to each individual Sub-Fund.

Principal Developments

The development and future activity for each Sub-Fund is detailed in the Investment Manager Reports on pages from 10 to 16. The portfolio commentary refers to the main contributors and detractors to performance of the Sub-Fund portfolios during the year.

Results for the Financial Year and Assets, Liabilities and Financial Position at 31 January 2023

Details of the assets, liabilities and financial position of the Sub-Funds and results for the financial year ended 31 January 2023 are set out in the Statement of Financial Position, Statement of Comprehensive Income, Statement of Changes in Net Assets Attributable to Holders of Redeemable Participating Shares and Statement of Cash Flows.

DIRECTORS' REPORT (CONTINUED)

Directors

The names of the persons who were Directors at any time during the financial year are listed below:

Ms. Catherine Fitzsimons (Ireland) (Chairperson)

Ms. Denise Kinsella (Ireland) (resigned 31 March 2023)

Mr. David Greco (USA)

Mr. Nick King (UK)

Ms. Bronwyn Wright (Ireland)

Ms. Lorraine McCarthy (Ireland)

All current Directors are Non-Executive.

Ms. Denise Kinsella and Ms. Bronwyn Wright are Independent Directors.

Directors' Interests

None of the Directors, the Secretary, nor their families holds or held any beneficial interests in the Fund at 31 January 2023 or during the financial year.

Transactions Involving Directors

There are no contracts or arrangements of any significance in relation to the business of the Fund in which the Directors had any interest, as defined in the ICAV Act, at any time during the financial year ended 31 January 2023 other than those disclosed in Note 7 'Fees' of these financial statements.

Connected Person Transactions

Connected Persons

The Manager, the Depositary, the Investment Manager and each of their respective affiliates are considered to be connected persons of the Fund for the purposes of the Central Bank UCITS Regulations.

The following table details the types of transaction entered into with counterparties that are connected persons:

Type of Transaction Counterparty

Administration Brown Brothers Harriman Fund Administration Services (Ireland) Limited

Depositary, FX and Hedging Services Brown Brothers Harriman Trustee Services (Ireland) Limited

Distributor FIL Distributors

Manager FIL Investment Management (Luxembourg) S.A., Ireland Branch (since 1 June 2022)

FIL Fund Management (Ireland) Limited (until 31 May 2022)

Investment Manager FIL Fund Management Limited

FIL Investments Management (Hong Kong) Limited

FIL Investments International

Dealing with Connected Persons

Regulation 43 of the Central Bank UCITS Regulations "Restriction on transactions with connected persons" states that "a responsible person shall ensure that any transaction between a UCITS and connected person is:

- (i) conducted at arm's length; and
- (ii) in the best interest of the unit-holders of the UCITS".

In accordance with Regulation 81(4) of the Central Bank UCITS Regulations, the Directors are satisfied that:

- (i) there are in place arrangements, evidenced by written procedures, to ensure that the obligations that are prescribed by Regulation 43 (1) are applied to all transactions with a connected person; and
- (ii) all transactions with connected persons that were entered into during the period to which the report relates complied with the obligations that are prescribed by Regulation 43(1).

Fidelity UCITS II ICAV

DIRECTORS' REPORT (CONTINUED)

Risk Management Objectives and Policies

The principal risks and uncertainties faced by the Fund are outlined in Note 10 'Financial Risk Management'.

Dividends and Retention

The dividend distributions declared and paid during the financial year are disclosed in the Statement of Comprehensive Income and Note 2s "Distribution Policy".

Future Developments

The Sub-Funds will continue to pursue their investment objectives as set out in the Prospectus and outlined in these financial statements.

Independent Auditors

The independent auditor, Deloitte Ireland LLP ("Deloitte"), have indicated their willingness to continue in office in accordance with section 383(2) of the Companies Act, 2014.

Irish Funds Corporate Governance Code for Management Companies

The Board of Directors has assessed the measures included in the voluntary Corporate Governance Code for Collective Investment Schemes and Management Companies as published by Irish Funds in December 2011 (the "IF Code"). The Board has adopted all corporate governance practices and procedures in the IF Code.

Signed on behalf of the Board of Directors by:

Catherine Fitzsimons

Date: 26 May 2023

Date: 26 May 2023

Fidelity UCITS II ICAV

REPORT FROM THE DEPOSITARY TO THE SHAREHOLDERS (UNAUDITED)

We have enquired into the conduct of the Fidelity UCITS II ICAV (the "Fund") for the financial year ended 31 January 2023 in our capacity as Depositary to the Fund.

This report including the opinion has been prepared for and solely for the Shareholders in the Fund, in accordance with Part 5 of the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011, as amended (The "UCITS Regulations"), and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019 (the "Central Bank UCITS Regulations") and for no other purpose. We do not, in giving this opinion, accept or assume responsibility for any other purpose or to any other person to whom this report is shown.

Responsibilities of the Depositary

Our duties and responsibilities are outlined in Part 5 of the UCITS Regulations. One of those duties is to enquire into the conduct of the Fund in each annual accounting period and report thereon to the shareholders. Our report shall state whether, in our opinion, the Fund has been managed in that period in accordance with the provisions of the Fund's Instrument of Incorporation of the Fund and the UCITS Regulations. It is the overall responsibility of the Fund to comply with these provisions. If the Fund has not so complied, we as Depositary must state why this is the case and outline the steps which we have taken to rectify the situation.

Basis of Depositary Opinion

The Depositary conducts such reviews as it, in its reasonable opinion, considers necessary in order to comply with its duties as outlined in Part 5 of the UCITS Regulations and to ensure that, in all material respects, the Fund has been managed (i) in accordance with the limitations imposed on its investment and borrowing powers by the provisions of the Instrument of Incorporation of the Fund and the appropriate regulations and (ii) or otherwise in accordance with the Fund constitutional documentation and the appropriate regulations.

Opinion

In our opinion, the Fund has been managed during the year, in all material respects:

- (i) in accordance with the limitations imposed on the investment and borrowing powers of the Fund by the Instrument of Incorporation of the Fund, the UCITS Regulations and the Central Bank UCITS Regulations, and
- (ii) or otherwise in accordance with the provisions of the Instrument of Incorporation of the Fund, the UCITS Regulations and the Central Bank UCITS Regulations.

Brown Brothers Harriman Trustee Services (Ireland) Limited, 30 Herbert Street, Dublin 2, D02 W329, Ireland

26 May 2023

Independent auditor's report to the members of Fidelity UCITS II ICAV

Report on the audit of the annual accounts

Opinion on the annual accounts of Fidelity UCITS II ICAV (the 'ICAV')

In our opinion the annual accounts:

- give a true and fair view of the assets, liabilities and financial position of the ICAV as at 31 January 2023 and of the result for the financial year then ended; and
- have been properly prepared in accordance with the relevant financial reporting framework and the Applicable Regulations.

The annual accounts we have audited comprise:

- the Schedules of Investments:
- the Statement of Financial Position;
- the Statement of Comprehensive Income;
- the Statement of Changes in Net Assets Attributable to Holders of Redeemable Participating Shares;
- the Statement of Cash Flows; and
- the related notes 1 to 18, including a summary of significant accounting policies as set out in note 2.

The relevant financial reporting framework that has been applied in their preparation is the Irish Collective Asset-Management Acts 2015-2020 ("the ICAV Act") and International Financial Reporting Standards as adopted by the European Union ("IFRS") ("the relevant financial reporting framework").

The applicable regulations that have been applied in their preparation is the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011 and Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations, 2019 ("the applicable Regulations").

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (Ireland) (ISAs (Ireland)) and applicable law. Our responsibilities under those standards are described below in the "Auditor's responsibilities for the audit of the annual accounts" section of our report.

We are independent of the ICAV in accordance with the ethical requirements that are relevant to our audit of the annual accounts in Ireland, including the Ethical Standard issued by the Irish Auditing and Accounting Supervisory Authority (IAASA), as applied to public interest entities, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Summary of our audit approach

Key audit matters	The key audit matters that we identified in the current year were: • Valuation of Investments • Existence of Investments
Materiality	The materiality that we used in the current year was 0.5% of Average Net Assets which was determined in respect of each sub-fund.
Scoping	Our audit is a risk-based approach taking into account the structure of the ICAV, types of investments, the involvement of the third-party service providers, the accounting processes and controls in place and the industry in which the ICAV operates.
Significant changes in our approach	No significant changes in our approach were made in the current year.

Conclusions relating to going concern

In auditing the annual accounts, we have concluded that the directors' use of the going concern basis of accounting in the preparation of the annual accounts is appropriate.

Our evaluation of the directors' assessment of the ICAV's ability to continue to adopt the going concern basis of accounting included:

- Obtaining an understanding of the relevant controls in place regarding going concern as part of our audit risk assessment procedures.
- Challenging the reasonableness of the key assumptions applied by the directors in their assessment.
- Holding discussions with management on the directors' going concern assessment, the future plans for the ICAV and the feasibility of those plans.
- Reviewing all board meeting minutes during the period up to the date of approval of the annual accounts, for
 evidence of any discussions and/or decisions that could impact the ICAV's ability to continue as a going
 concern.
- Reviewing the capital activity and NAV movements, subsequent to the financial year end.
- Assessing the adequacy of the relevant going concern disclosures made in the annual accounts.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the ICAV 's ability to continue as a going concern for a period of at least twelve months from when the annual accounts are authorised for issue.

Our responsibilities and the responsibilities of the directors with respect to going concern are described in the relevant sections of this report.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the annual accounts of the current financial year and include the most significant assessed risks of material misstatement (whether or not due to fraud) we identified, including those which had the greatest effect on: the overall audit strategy, the allocation of resources in the audit; and directing the efforts of the engagement team. These matters were addressed in the context of our audit of the annual accounts as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Valuation of Investments

Key audit matter description

The valuation of investments is considered a key audit matter as it is the most significant number on the Statement of Financial Position.

There is a risk that investments traded on an exchange or a secondary market may not be valued correctly in accordance with IFRS.

Refer also to note 10 in the annual accounts.

How the scope of our audit responded to the key audit matter

- We independently valued and re-priced all exchange traded securities using our own market feeds.
- We independently recalculated the value of all forward currency contracts at year-end.
- We independently valued a sample of OTC derivatives using our in house Valuations Team.
- We reviewed the investment portfolios of the ICAV for any stale prices or infrequently traded securities that may suggest the positions are illiquid.
- We reviewed the fair value levelling disclosures in the annual accounts to ensure they are appropriate.
- We reviewed the SOC 1 report of Brown Brothers Harriman Fund Administration Services (Ireland) Limited and assessed the scope, sufficiency and results of the control reports to determine whether we could place reliance on these reports with regard to controls over the valuation of investments.

Existence of Investments

Key audit matter description

The investment portfolio at the year-end principally comprised equities, bonds transferable securities, forward contracts, futures and CDS valued at \$3.1bn.

The existence of investments is considered a key audit matter as the investments represent a significant number on the Statement of Financial Position.

The existence of and title to the ICAV's investments is crucial to ensuring the annual accounts are free from material misstatement. There is a risk that the investments may not exist at year end.

Refer also to note 10 in the annual accounts.

How the scope of our audit responded to the key audit matter

 We obtained direct confirmation of the investments of the ICAV from the Depositary and Brokers at year-end. Any reconciling items between the confirmations and the ICAV's investment portfolios were investigated to ensure that trades were recorded in the correct reporting period.

 For OTC Derivatives, we obtained a sample of independent confirmations from a number of brokers at 31 January 2023 and compared against the portfolio at year end.

 We reviewed the SOC 1 Report of Brown Brothers Harriman Fund Administration Services (Ireland) Limited and assessed the scope, sufficiency and results of the Service Auditor Report to determine whether we could place reliance on this report with regard to controls over the existence of investments.

Our audit procedures relating to these matters were designed in the context of our audit of the annual accounts as a whole, and not to express an opinion on individual accounts or disclosures. Our opinion on the annual accounts is not modified with respect to any of the risks described above, and we do not express an opinion on these individual matters.

Our application of materiality

We define materiality as the magnitude of misstatement in the annual accounts that makes it probable that the economic decisions of a reasonably knowledgeable person would be changed or influenced. We use materiality both in planning the scope of our audit work and in evaluating the results of our work.

Based on our professional judgement, we determined materiality for the annual accounts as a whole as follows:

Basis for determining materiality	0.5% of Average Net Assets of each Sub-fund.
Rationale for	The Net Asset Value of the ICAV is the primary indicator of the size and performance of the ICAV
the benchmark applied	and is considered the key area of interest for the shareholders, who are the primary users of the annual accounts. The use of the Average Net Asset Value is considered the industry practice
	benchmark for Investment Funds.

We set performance materiality at a level lower than materiality to reduce the probability that, in aggregate, uncorrected and undetected misstatements exceed the materiality for the annual accounts as a whole.

Performance materiality was set at 80% of materiality for the 31 January 2023 audit. In determining performance materiality, we considered the following factors:

- our understanding of the ICAV;
- the quality of the control environment;
- the nature and extent of misstatements identified in previous audits; and
- our expectations in relation to misstatements in the current period.

We agreed with the Board of Directors that we would report to the Board all audit differences in excess of 5% of Materiality, as well as differences below that threshold that, in our view, warranted reporting on qualitative grounds. We also report to the Board of Directors on disclosure matters that we identified when assessing the overall presentation of the annual accounts.

An overview of the scope of our audit

Our audit is a risk based approach taking into account the structure of the ICAV, types of investments, the involvement of the third parties service providers, the accounting processes and controls in place and the industry in which the ICAV operates. The ICAV was registered in Ireland pursuant to the ICAV Act. The ICAV is authorised by the Central Bank of Ireland (the "Central Bank") as a UCITS (Undertaking for Collective Investment in Transferable Securities) pursuant to the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011.

The ICAV is organised as an umbrella fund with segregated liability between sub-funds. We assess the risks of each sub-fund separately. We have conducted our audit based on the books and records maintained by the administrator Brown Brothers Harriman Fund Administration Services (Ireland) Limited at 30 Herbert Street, Dublin 2, Ireland.

Other information

The other information comprises the information included in the annual accounts, other than the financial statements and our auditor's report thereon. The directors are responsible for the other information contained within the annual accounts.

Our opinion on the annual accounts does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon.

Our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the annual accounts or our knowledge obtained in the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether there is a material misstatement in the annual accounts or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

Responsibilities of directors

As explained more fully in the Statement of Directors' Responsibilities, the directors are responsible for the preparation of the annual accounts and for being satisfied that they give a true and fair view and otherwise comply with the ICAV Act, and for such internal control as the directors determine is necessary to enable the preparation of annual accounts that are free from material misstatement, whether due to fraud or error.

In preparing the annual accounts, the directors are responsible for assessing the ICAV's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the ICAV or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the annual accounts

Our objectives are to obtain reasonable assurance about whether the annual accounts as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (Ireland) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these annual accounts.

A further description of our responsibilities for the audit of the annual accounts is located on IAASA's website at: https://iaasa.ie/publications/description-of-the-auditors-responsibilities-for-the-audit-of-the-financial-statements/. This description forms part of our auditor's report.

Extent to which the audit was considered capable of detecting irregularities, including fraud

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect material misstatements in respect of irregularities, including fraud. The extent to which our procedures are capable of detecting irregularities, including fraud is detailed below.

Identifying and assessing potential risks related to irregularities

In identifying and assessing risks of material misstatement in respect of irregularities, including fraud and non-compliance with laws and regulations, we considered the following:

- the nature of the industry and sector, control environment and business performance;
- results of our enquiries of management about their own identification and assessment of the risks of irregularities;
- any matters we identified having obtained and reviewed the ICAV's documentation of their policies and procedures relating to:
 - o identifying, evaluating and complying with laws and regulations and whether they were aware of any instances of non-compliance;
 - o detecting and responding to the risks of fraud and whether they have knowledge of any actual, suspected or alleged fraud;
 - o the internal controls established to mitigate risks of fraud or non-compliance with laws and regulations;
- the matters discussed among the audit engagement team and relevant internal specialists regarding how and where fraud might occur in the annual accounts and any potential indicators of fraud.

As a result of these procedures, we considered the opportunities and incentives that may exist within the organisation for fraud and identified the greatest potential for fraud in the following areas: Revenue Recognition. In common with all audits under ISAs (Ireland), we are also required to perform specific procedures to respond to the risk of management override.

We also obtained an understanding of the legal and regulatory framework that the ICAV operates in, focusing on provisions of those laws and regulations that had a direct effect on the determination of material amounts and disclosures in the annual accounts. The key laws and regulations we considered in this context included the ICAV Act, Listing Rules and the Applicable Regulations.

In addition, we considered provisions of other laws and regulations that do not have a direct effect on the annual accounts but compliance with which may be fundamental to the ICAV's ability to operate or to avoid a material penalty. These included matters regulated by the Central Bank of Ireland.

Audit response to risks identified

As a result of performing the above, we did not identify any key audit matters related to the potential risk of fraud or non-compliance with laws and regulations.

In addition to the above, our procedures to respond to risks identified included the following:

- reviewing the financial statement disclosures and testing to supporting documentation to assess compliance with provisions of relevant laws and regulations described as having a direct effect on the annual accounts;
- enquiring of management and the Board of Directors concerning actual and potential litigation and claims;
- performing analytical procedures to identify any unusual or unexpected relationships that may indicate risks
 of material misstatement due to fraud;

- reading minutes of meetings of those charged with governance and reviewing correspondence with the Central Bank of Ireland;
- In addressing the risk of fraud in Revenue Recognition, independently valuing all securities using our own market feeds and completing an unrealised gain/loss reconciliation;
- In addressing the risk of fraud through management override of controls, testing the appropriateness of journal entries and other adjustments;
- assessing whether the judgements made in making accounting estimates are indicative of a potential bias;
 and
- evaluating the business rationale of any significant transactions that are unusual or outside the normal course
 of business.

We also communicated relevant identified laws and regulations and potential fraud risks to all engagement team members including internal specialists, and remained alert to any indications of fraud or non-compliance with laws and regulations throughout the audit.

Report on other legal and regulatory requirements

Matters on which we are required to report by the ICAV Act and the Applicable Regulations

In our opinion, the information given in the directors' report is consistent with the annual accounts and the directors' report has been prepared in accordance with the ICAV Act.

Matters on which we are required to report by exception

Based on the knowledge and understanding of the ICAV and its environment obtained in the course of the audit, we have not identified material misstatements in the the directors' report.

We have nothing to report in respect of the provisions in the ICAV Act which require us to report to you if, in our opinion, the disclosures of directors' remuneration specified by the ICAV Act are not made.

Opinion on other matters prescribed by the Applicable Regulations

Based solely on the work undertaken in the course of the audit, we report that:

- We have obtained all the information and explanations which we consider necessary for the purposes of our audit.
- In our opinion the accounting records of the ICAV were sufficient to permit the annual accounts to be readily and properly audited.
- The annual accounts are in agreement with the accounting records.

Other matters which we are required to address

We were appointed by the Board of Directors on 24 July 2019 to audit the annual accounts for the financial year end ending 31 January 2020. The period of total uninterrupted engagement with the ICAV listed as a PIE including previous renewals and reappointments of the firm is 2 years, covering the years ending 31 January 2022 to 31 January 2023.

The non-audit services prohibited by IAASA's Ethical Standard were not provided and we remained independent of the ICAV in conducting the audit.

Our audit opinion is consistent with the additional report to the Board of Directors we are required to provide in accordance with ISA (Ireland) 260.

Use of our report

This report is made solely to the ICAV's shareholders, as a body, in accordance with Section 120(1) (b) of the ICAV Act. Our audit work has been undertaken so that we might state to the ICAV's shareholders those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the ICAV and the ICAV's shareholders as a body, for our audit work, for this report, or for the opinions we have formed.

In accordance with the UCITS Regulations, as amended, a statement of changes in the composition of the Schedule of Investments during the reporting period is provided to ensure that Shareholders can identify changes in the investments held by the Sub-Funds. The following statements present the aggregate purchases and sales of transferable securities exceeding one percent of the total value of purchases or sales, respectively, for the period. At a minimum, the largest twenty purchases and twenty sales are presented, if available.

APPENDIX 2 - REPORT OF REMUNERATION (UNAUDITED)

Remuneration Disclosure

The Fund is managed by FIL Investment Management (Luxembourg) S.A., Ireland Branch ('FIMLUX').

FIMLUX is a UCITS licensed Management Company and wholly owned subsidiary of FIL Limited ('FIL'). The FIL Group, consisting of FIL and its subsidiaries, has approved a remuneration policy which is applicable to all constituent parts of the group. In addition, FIMLUX has its own remuneration policy which closely reflects the FIL group policy. In the implementation of its policy, FIMLUX will ensure good corporate governance and promote sound and effective risk management.

Remuneration Policy

The remuneration policy does not encourage any risk taking which would be inconsistent with the risk appetite of the Fund, or the Prospectus. FIMLUX will ensure that any decisions are consistent with the overall business strategy, objectives and the remuneration policy and try to avoid any conflicts of interest which may arise.

Fixed remuneration is defined as base salary plus other benefits. Base salaries are set competitive to local market, based on an individual's specific role and responsibilities as well as their relevant experience, qualifications, performance and overall contribution to FIL. These levels are reviewed on a regular basis.

Variable remuneration is defined as annual bonuses and long-term incentive awards. These discretionary pay elements are determined by individual performance and overall company affordability (set taking into consideration the financial and non-financial performance and associated business and operational risks).

A summary of the Remuneration Policy is available at https://www.fidelityinternational.com.

FIMLUX will ensure that the remuneration policy is reviewed internally and independently annually. There have not been any material changes to the adopted remuneration policy since the last review performed in February 2023 and the review outcome showed no exception. The Remuneration Policy applies to all employees of FIMLUX, including individuals whose professional activities have a material impact on the risk profile of the Management Company or the UCITS Funds it manages ('UCITS Identified Staff'). The UCITS identified staff include members of the Board of the Management Company, senior management, heads of relevant control functions and heads of other key functions. Individuals are notified of their identification and the implications of this status on at least an annual basis.

Total Remuneration paid to staff employed by FIMLUX for the financial year ended 31/12/2022

EUR 9,048,751

Of which, fixed remuneration Of which, variable remuneration

EUR 7,452,063 EUR 1,596,688

Total number of employees of FIMLUX (at 31/12/2022)

91

The aggregate total remuneration paid to the Identified Staff, considering all existing delegation arrangements, and where information has been made available, is as follows: EUR 10.49 million. It should be noted that this remuneration information is that which was disclosed by the delegate, in its annual report for its financial year ended 30 June 2022 and is an aggregate figure disclosed by the Investment Manager for its relevant staff and is not specific to the Fund.

APPENDIX 2 – REPORT OF REMUNERATION (UNAUDITED) (CONTINUED)

List of Investment Manager

The following table discloses the breakdown of the Investment Manager by sub-funds for the financial year under review.

Sub-fund name	Investment Manager
Fidelity Enhanced Reserve Fund	FIL Investments International (Hong Kong)

Fidelity S&P 500 Index Fund	Geode Capital Management
Global Credit ex US Fund	FIL Fund Management Limited (Bermuda)
Fidelity Sustainable Corporate Bond Paris-Aligned Multifactor	FIL Investments International
UCITS ETF	
Fidelity Sustainable USD EM Bond UCITS ETF	FIL Investments International
Fidelity Sustainable Global High Yield Bond Paris-Aligned	FIL Investments International
Multifactor UCITS ETF	

APPENDIX 3 – TRACKING ERROR (UNAUDITED)

Each of the Index Tracking Sub-Funds employ a "passive" investment strategy designed to replicate the performance of the Index by holding all of the Index securities in a similar proportion to their weighting in the Index. However, where full replication of the Index is not reasonably possible (for example as a result of the number of securities or the illiquidity of certain securities within the Index), the Sub-Funds will use optimisation to select the Index securities in order to build a representative portfolio that provides a return that is comparable to that of the Index.

Tracking error measures the volatility of the return difference between each Index Tracking Sub-Fund and the Index. It is calculated as the standard deviation of the delivered excess returns over an annual period. Anticipated tracking error is disclosed for the Index Tracking Sub-Funds in the table below. Realised (ex-post) tracking error may vary from the anticipated tracking error, depending on a range of circumstances. These include transaction costs, securities lending income and withholding tax differences. The anticipated tracking error and ex-post tracking error are not expected to vary significantly under normal circumstances.

For the financial year ended 31 January 2023, the anticipated tracking errors and the ex-post tracking errors were as follows:

Sub-Fund	Anticipated tracking error (bps)	Ex-post tracking error (bps)
Fidelity MSCI Emerging Markets Index Fund	50	100*
Fidelity MSCI Europe Index Fund	20	14
Fidelity MSCI Japan Index Fund	40	10
Fidelity MSCI Pacific ex-Japan Index Fund	40	16
Fidelity MSCI World Index Fund	20	9
Fidelity S&P 500 Index Fund	15	5

^{*}The Ex-post tracking error increase over the anticipated tracking error was due to the impact of Russian securities.

The table below compares the realised Sub-Fund's performance against the performance of the relevant benchmark Index during the financial year ended 31 January 2023. An explanation for the difference gross of TER is provided:

	Sub-Fund return for the financial year ended 31 January 2023	Benchmark return for the financial year ended 31 January 2023	Tracking difference net of TER	TER	Tracking difference gross of TER	Explanation of the gross
Sub-Fund	%	%	%	%	%	tracking difference
Fidelity MSCI Emerging Markets Index Fund	(12.01)	(12.12)	0.11	0.20	0.31	The outperformance of the Sub- Fund was due to the sampling techniques employed.
Fidelity MSCI Europe Index Fund	0.19	(0.15)	0.34	0.10	0.44	The outperformance of the Sub Fund was due to the sampling techniques employed.
Fidelity MSCI Japan Index Fund	(6.72)	(6.73)	0.01	0.10	0.11	The outperformance of the Sub- Fund was due to the sampling techniques employed.
Fidelity MSCI Pacific ex- Japan Index Fund	8.37	8.23	0.14	0.13	0.27	The outperformance of the Sub- Fund was due to the sampling techniques employed.
Fidelity MSCI World Index Fund	(7.19)	(7.45)	0.26	0.12	0.38	The outperformance of the Sub- Fund was due to the sampling techniques employed.
Fidelity S&P 500 Index Fund	(8.56)	(8.67)	0.11	0.06	0.17	The outperformance of the Sub- Fund was due to the sampling techniques employed.

APPENDIX 4 - SECURITIES FINANCING TRANSACTIONS (UNAUDITED)

The Securities Financing Transactions ("SFTs") Regulation (the "Regulation") came into force on 12 January 2016 and introduced additional disclosure requirements around securities lending, repurchase agreement/reverse repurchase agreements, total return swaps (TRSs) and other lending/borrowing transactions in annual and semi-annual financial statements, published after 13 January 2017. The Regulation came about due to what was perceived as 'shadow banking' risk in the securities financing markets and aims to reduce this risk by improving transparency in the securities financing markets in a number of ways:

- By imposing conditions on the 'reuse' of collateral, so that clients and counterparties understand the risks involved and give their consent to the reuse,
- By requiring managers to make detailed disclosures to their investors of the use they make of SFTs both in their periodic financial statements and pre-contractual documentation: and
- By requiring counterparties to report SFTs to a trade repository so as to provide transparency to regulators on the use of SFTs by market participants.

As the Sub-Funds did not hold any SFTs as at 31 January 2023, the report for the financial year end 31 January 2023 and financial statements do not include any additional disclosures.

APPENDIX 5 – SHAREHOLDER'S RIGHTS DIRECTIVE II (UNAUDITED)

For the financial year ended 31 January 2023

The Shareholder's Rights Directive II ("SRD II") is EU legislation which is applicable within Irish law from 30 March 2020. Under SRD II Asset Managers are required to provide additional annual information regarding the risks and composition of the portfolio.

Key material medium to long-term risks associated with the investments

Please refer to Note 10 for a detailed analysis of the risk management policies and procedure that effect the Sub-Funds.

Portfolio composition

Refer to each Sub-Fund's Schedule of Investments from page 17 to 141 for details of the portfolio composition by investment type and geographic location.

APPENDIX 5 – SHAREHOLDER'S RIGHTS DIRECTIVE II (UNAUDITED) (CONTINUED)

Portfolio Turnover Rate

SRD II does not define a methodology for calculating the Portfolio Turnover Rate ("PTR"). For the purpose of these financial statements the following formula has been applied when calculating PTR.

PTR = (purchases + sales) - (subscriptions + redemptions) / average 12-month net asset value attributable to shareholders.

For the year financial year ended 31 January 2023 the PTR of each Fund is as follows:

Sub-Fund	PTR
Fidelity MSCI Emerging Markets Index Fund	(9.91)%
Fidelity MSCI Europe Index Fund	(25.08)%
Fidelity MSCI Japan Index Fund	(20.11)%
Fidelity MSCI Pacific ex-Japan Index Fund	(2.68)%
Fidelity MSCI World Index Fund	(40.41)%
Fidelity S&P 500 Index Fund	(37.95)%
Fidelity Enhanced Reserve Fund	62.28%
Fidelity Global Credit ex-US Fund	42.11%
Fidelity Sustainable Global Corporate Bond Paris-Aligned Multifactor UCITS ETF	167.39%
Fidelity Sustainable USD EM Bond UCITS ETF	42.30%
Fidelity Sustainable Global High Yield Bond Paris-Aligned Multifactor UCITS ETF1	(85.10)%

¹ The Sub-Fund launched on 7 November 2022.

Portfolio Turnover Cost

Portfolio Turnover Costs ("PTC") is calculated as follows:

PTC = PTR (capped at 100%) x transaction cost

Transaction costs are incremental costs that are directly attributable to the acquisition, issue or disposal of a financial asset or liability. For the financial year ended 31 January 2023 the PTC of each Sub-Fund is as follows:

Sub-Fund	PTC
Fidelity MSCI Emerging Markets Index Fund	(0.01)%
Fidelity MSCI Europe Index Fund	(0.02)%
Fidelity MSCI Japan Index Fund	0.00%
Fidelity MSCI Pacific ex-Japan Index Fund	0.00%
Fidelity MSCI World Index Fund	(0.01)%
Fidelity S&P 500 Index Fund	0.00%
Fidelity Enhanced Reserve Fund	0.00%
Fidelity Global Credit ex-US Fund	0.00%
Fidelity Sustainable Global Corporate Bond Paris-Aligned Multifactor UCITS ETF	0.00%
Fidelity Sustainable USD EM Bond UCITS ETF	0.00%
Fidelity Sustainable Global High Yield Bond Paris-Aligned Multifactor UCITS ETF1	0.00%

¹ The Sub-Fund launched on 7 November 2022.

Fidelity UCITS II ICAV

APPENDIX 6 – SUSTAINABLE FINANCE DISCLOSURE REGULATION (UNAUDITED)

Per the Sustainable Finance Disclosure Regulation ('SFDR') the following Sub -Fund is classified as Article 8:

- Fidelity Sustainable USD EM Bond UCITS ETF.

Per SFDR the following Sub -Funds are classified as Article 9:

- Fidelity Sustainable Global Corporate Bond Paris-Aligned Multifactor UCITS ETF,
- Fidelity Sustainable Global High Yield Bond Paris-Aligned Multifactor UCITS ETF.

All other Sub-Funds are classified as Article 6 Funds, meaning their investments do not take into account the EU criteria for environmentally sustainable economic activities.

Percentages contained in the SFDR Annexes are subject to rounding.

Periodic disclosure for financial products referred to in Article 8(1) of Regulation (EU) 2019/2088 and Article 6 of Regulation (EU) 2020/852

Sustainable
investment means an
investment in an
economic activity that
contributes to an
environmental or social
objective, provided that
the investment does not
significantly harm any
environmental or social
objective and that the
investee companies

follow good governance.

The EU Taxonomy is a classification system, establishing a list of environmentally sustainable economic activities. For the time being, it does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability

promoted by the

attained.

Indicators measure

financial product are

how the environmental

Product name: Fidelity UCITS II ICAV - Fidelity Sustainable USD EM Bond UCITS ETF Legal entity identifier: 254900N12837893BJ794

Environmental and/or social characteristics

Do	Ooes this financial product have a sustainable investment objective?						
•		Yes	•	×	No		
		ade sustainable investments with environmental objective:%		char objec	romoted Environmental/Social (E/S) racteristics and while it did not have as its ective a sustainable investment, it had a portion of% of sustainable investments		
		in economic activities that qualify as environmentally sustainable under the EU Taxonomy			with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy		
		in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy			with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy with a social objective		
		ade sustainable investments with a ial objective:%	×	It pro	omoted E/S characteristics, but did not see any sustainable investments		

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The sub-fund met the environmental and social characteristics it promoted as defined in the SFDR precontractual disclosure for the period. The sub-fund promoted environmental and social characteristics by investing in securities of issuers with favourable ESG characteristics. Favourable ESG characteristics were determined by reference to ESG ratings. ESG ratings considered environmental characteristics including carbon intensity, carbon emissions, energy efficiency, water and waste management and biodiversity, as well as social characteristics including product safety, supply chain, health and safety and human rights. Please refer to the website for more information.

No reference benchmark was designated for the purpose of attaining the environmental and social characteristics promoted.

How did the sustainability indicators perform?

The performance of the sustainability indicators the sub-fund used to measure the attainment of the sustainable environmental or social characteristics that it promoted was:

- i) 96% of the sub-fund was invested in securities of issuers with favourable ESG characteristics in accordance with Fidelity's Sustainable Investing Framework; and
- ii) in respect of its direct investments, 0% of the sub-fund was invested in securities of issuers with exposure to the Exclusions.

... and compared to previous periods?

Not applicable as this is the first reporting period.

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

Not Applicable.

Principal adverse impacts are the most significant negative impact of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

Not applicable.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

Principal adverse impacts on sustainability factors were considered through and incorporated into investment decisions through a variety of tools, including:

- (i) Due Diligence analysis of whether principle adverse impacts were material and negative.
- (ii) ESG rating Fidelity references ESG ratings which incorporate material principal adverse impacts such as carbon emissions, employee safety and bribery and corruption, water management. For sovereign issued securities, principal adverse impacts were considered through and incorporated into investment decisions using ratings which incorporate material principal adverse impacts such as carbon emissions, social violations and freedom of expression. (iii) Exclusions When investing directly in corporate issuers, the sub-fund applied the Exclusions (as defined below) to help mitigate PAI through excluding harmful sectors and prohibiting investment in issuers that breach international standards, such as the UNGC. In respect of its direct investments, the sub-fund is subject to:
- 1. a firm-wide exclusions list, which includes cluster munitions and anti-personnel landmines, and 2. a principle-based screening policy which includes:
- (a) norms-based screening of issuers which the investment manager considers have failed to conduct their business in accordance with international norms, including as set out in the UNGC; and
- (b) negative screening of certain sectors, issuers or practices based on specific ESG criteria where revenue thresholds may be applied.

The above exclusions and screens (the "Exclusions") may be updated from time to time. Please refer to the <u>website</u> for more information.

- (iv) Engagement Fidelity used engagement as a tool to better understand principal adverse impacts on sustainability factors and, in some circumstances, advocate for enhancing principal adverse impacts and sustainability metrics. Fidelity participated in relevant individual and collaborative engagements that target a number of principal adverse impacts (i.e. Climate Action 100+, Investors Against Slavery and Trafficking APAC).
- (v) Voting Fidelity's voting policy included explicit minimum standards for board gender diversity and engagement with climate change. Fidelity may also vote to enhance issuer performance on other indicators.
- (vi) Quarterly reviews monitoring of principal adverse impacts through the sub-fund's quarterly review process.

The specific PAI indicators that were taken into consideration were subject to data availability and may evolve with improving data quality and availability.

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 2022-02-01 / 2023-01-31

The top investments table is populated based on the weighted average of the investment during the reference period.

What was the proportion of sustainability-related investments?

The sub-fund invested 0% in sustainable investments.

What was the asset allocation?

(#1 aligned with E/S characteristics) The sub-fund invested in 96% of its assets in securities of issuers with favourable ESG characteristics.

(#2 Other) The remaining investments of the sub-fund were invested in assets aligned with the financial objective of the sub-fund, cash and cash equivalents for liquidity purposes and derivatives which may be used for investment and efficient portfolio management.

assets.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

In which economic sectors were the investments made?

Sector	Sub Sector	%of NAV as at January 31, 2023
Sovereign	Sovereign	96.95%

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

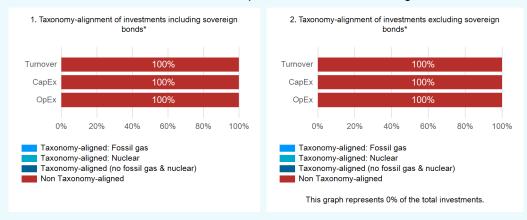

The sub-fund invested 0% in sustainable investments with an environmental objective aligned with the EU Taxonomy.

The compliance of the investments of the sub-fund with the EU Taxonomy was not subject to an assurance by auditors or a review by third parties.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

Ш	Yes	
	In fossil gas	In nuclear energy
×	No	

The two graphs below show in dark blue the minimum percentage of investments that are aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

To comply with the EU Taxonomy, the criteria for fossil gas include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For nuclear energy, the criteria include comprehensive safety and waste management rules.

Enabling activities

directly enable other activities to make a substantial contribution to an environmental objective. Transitional activities are economic activities for which low-carbon alternatives are not yet available and that have greenhouse gas emission levels corresponding to the best performance.

Transitional activities

are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance. Taxonomy-aligned activities are expressed as a share of:

- -turnover reflecting the share of revenue from green activities of investee companies
- capital expenditure (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green
- operational expenditure (OpEx) reflecting green operational activities of investee companies.

methodology applied What was the share of investments made in transitional and enabling activities?

> The share of the fund made in Enabling Activity: 0%; Transitional Activity: 0% measured by Turnover.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

The above charts display all investments in the portfolio that were taxonomy aligned as at 31

January 2023. The EU taxonomy figures disclosed may differ due to differences in the calculation

Not applicable as this is the first reporting period.

economy.

are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under the EU Taxonomy.

What was the share of sustainable investments with an environmental objective that were not aligned with the EU Taxonomy?

Not applicable.

What was the share of socially sustainable investments?

Not applicable.

What investments were included under "#2 Other", what was their purpose and were there any minimum environmental or social safeguards?

The remaining investments of the sub-fund were invested in assets aligned with the financial objective of the sub-fund, cash and cash equivalents for liquidity purposes and derivatives which were used for investment and efficient portfolio management. As a minimum environmental and social safeguard, the sub-fund adhered to the Exclusions.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The sub-fund promoted environmental and social characteristics by investing in securities of issuers with favourable ESG characteristics. Favourable ESG characteristics are determined by reference to ESG ratings. Additionally, we have a Quarterly Sustainability Review for all our Article 8 funds, to discuss the fund's qualitative and quantitative ESG characteristics, and whether they are consistent with requirements. This is an extension of our pre-existing risk and compliance processes. Where appropriate we have actively engaged with issuers.

Sustainability

indicators measure

how the sustainable

financial product are

objectives of this

attained.

Sustainable

investment in an

contributes to an

investment means an

economic activity that

environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance. The **EU Taxonomy** is a classification system, establishing a list of environmentally sustainable economic activities. For the time being, it does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

To what extent was the sustainable investment objective of this financial product met?

The sub-fund met the sustainable investment objective as defined in the SFDR precontractual disclosure for the period. The sustainable investment objective of the sub-fund was to align with the Paris Agreement long-term global warming objectives by restricting the carbon emission exposure of its portfolio and to achieve income and capital growth.

The reduction of carbon emission objective of the sub-fund was aligned with the Solactive Paris Aligned Global Corporate USD Index (the "Benchmark"). The Benchmark tracked the performance of investment grade corporate debt securities publicly issued globally while at the same time aligning with the Paris Agreement's climate targets on greenhouse gas emission reduction (the "EU PAB Emission Reduction Requirements"). The EU PAB Emission Reduction Requirements required the Benchmark to exhibit a level of emission intensity 50% lower than an equivalent global market universe (which does not integrate alignment with the Paris Agreement) at launch and subsequently to aim for a further year-on-year decarbonisation target, currently at an average rate of 7% per annum. The sub-fund considers that investment in a constituent of the Benchmark is an investment in economic activities with an environmental objective (that do not qualify as environmentally sustainable under the EU Taxonomy) and therefore investment in a constituent of the Benchmark is a sustainable investment.

Where the sub-fund invested in economic activities that qualify as environmentally sustainable under the EU Taxonomy, this contributed towards the climate change mitigation and/or adaptation environmental objectives.

The sustainable investments figures in this periodic disclosure are as at 30 December 2022.

How did the sustainability indicators perform?

The performance of the sustainability indicators the fund used to measure the attainment of the sustainable investment objective during the period in review was:

- i) 0% of the sub-fund invested in securities of issuers with exposure to the Exclusions(as defined below);
- ii) 98.33% of the sub-fund was invested in sustainable investments;
- iii) 97.52% of the sub-fund was invested in sustainable investments with an environmental objective in economic activities (that do not qualify as environmentally sustainable under the EU Taxonomy).

... and compared to previous periods?

Not applicable as this is the first reporting period.

How did the sustainable investments not cause significant harm to any sustainable investment objective?

Within the construction of the Benchmark, sustainable investments were screened for involvement in controversies and activities that caused significant harm, including the exclusion of issuers based on their involvement in activities with significant externalities (tobacco, fossil fuels, controversial weapons etc.), breaches of international norms (such as United Nations Global Compact (UNGC) principles) and with a significant negative impact on certain sustainable development goals ("SDGs"), including SDG 12: Responsible Consumption and Production, SDG 13: Climate Action, SDG 14: Life Below Water and SDG 15: Life on Land.

How were the indicators for adverse impacts on sustainability factors taken into account?

Quantitative data (where available) on PAI indicators was used to evaluate whether an issuer was involved in activities that caused significant harm to any environmental or social objective.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

The Benchmark excluded companies with verified failure to respect established norms such as the United Nations Global Compact (UNGC) principles, the Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises, or UN Guiding Principles for Business and Human Rights.

Principal adverse impacts are the most significant negative impact of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

How did this financial product consider principal adverse impacts on sustainability factors?

Consideration of principal adverse impacts on sustainability factors were considered through and incorporated into investment decisions through a variety of tools, including:

- (i) Due Diligence analysis of whether principle adverse impacts were material and negative.
- (ii) ESG rating Fidelity references ESG ratings which incorporate material principal adverse impacts such as carbon emissions, employee safety and bribery and corruption, water management. For sovereign issued securities, principal adverse impacts were considered through and incorporated into investment decisions using ratings which incorporate material principal adverse impacts such as carbon emissions, social violations and freedom of expression. (iii) Exclusions When investing directly in corporate issuers, the sub-fund applied the Exclusions described below to help mitigate PAI through excluding harmful sectors and prohibiting investment in issuers that breach international standards, such as the UNGC. Exclusions in respect of its direct investments, the sub-fund was subject to:
- (a) a firm-wide exclusions list, which includes cluster munitions and anti-personnel landmines; and
- (b) a principle-based screening policy which includes:
- norms-based screening of issuers which Fidelity considers have failed to conduct their business in accordance with international norms, including as set out in the UNGC; and
- negative screening of certain sectors, companies or practices based on specific ESG criteria where revenue thresholds may be applied.

The above exclusions and screens (the "Exclusions") may be updated from time to time. Please refer to the <u>website</u> for further information.

- (iv) Engagement Fidelity used engagement as a tool to better understand principal adverse impacts on sustainability factors and, in some circumstances, advocate for enhancing principal adverse impacts and sustainability metrics. Fidelity participated in relevant individual and collaborative engagements that target a number of principal adverse impacts (i.e. Climate Action 100+, Investors Against Slavery and Trafficking APAC).
- (v) Voting Fidelity's voting policy included explicit minimum standards for board gender diversity and engagement with climate change. Fidelity may also vote to enhance issuer performance on other indicators.
- (vi)Quarterly reviews monitoring of principal adverse impacts through the sub-fund's quarterly review process.

Fidelity takes into account specific indicators for each sustainability factor when considering whether investments have a principal adverse impact. These indicators were subject to data availability and may evolve with improving data quality and availability. In certain circumstances, such as indirect investments made by the Fund, principal adverse impacts may not have been considered.

What were the top investments of this financial product?

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 2022-02-01 / 2023-01-31

that have greenhouse
gas emission levels
corresponding to the
best performance.

Transitional activities

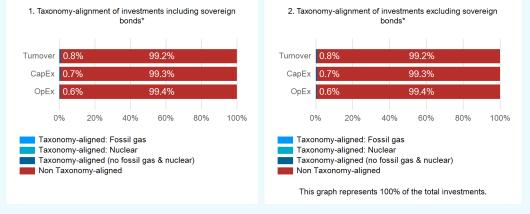

are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- -turnover reflecting the share of revenue from green activities of investee companies
- capital expenditure (CapEx) showing the green investments made by investee companies, e.g. for a
- transition to a green economy.
 operational expenditure (OpEx) reflecting green

operational activities of investee companies.

The two graphs below show in dark blue the minimum percentage of investments that are aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

The above charts display all investments in the portfolio that were taxonomy aligned as at 31 January 2023. The EU taxonomy figures disclosed may differ due to differences in the calculation methodology applied

What was the share of investments made in transitional and enabling activities?

The share of the fund made in Enabling Activity: 0.4%; Transitional Activity: 0.2% measured by Turnover.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable as this is the first reporting period.

are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under the EU Taxonomy.

What was the share of sustainable investments with an environmental objective that were not aligned with the EU Taxonomy?

The sub-fund invested 97.52% in sustainable investments with an environmental objective that was not aligned with the EU Taxonomy.

What was the share of socially sustainable investments?

The sub-fund invested 0% in sustainable investments with a social objective.

What investments were included under "not sustainable", what was their purpose and were there any minimum environmental or social safeguards?

Investments included under "#2 Not sustainable" included:

- (i) instruments that were previously constituents of the Benchmark which were held for a transition period after they fall out of the Benchmark in a manner appropriate to protect the best interests of investors and will then be divested; and
- (ii) cash, investments used for hedging and efficient portfolio management purposes. In addition, all direct investments of the Sub-Fund adhered to the Exclusions, did no significant harm to environmental or social objectives, had good governance practices and did not affect the delivery of the sustainable investment objective.

What actions have been taken to attain the sustainable investment objective during the reference period?

The Sub-Fund attained the sustainable investment objective of alignment with the Paris Agreement long-term global warming objectives by restricting the carbon emission exposure of its portfolio and achieved income and capital growth by tracking the performance of the Benchmark. The Sub-Fund's portfolio is aligned with the carbon emission performance of the Benchmark, which in turn is aligned with the EU PAB Emission Reduction Requirements. Fidelity have a Quarterly Sustainability Review for all our Article 9 funds, to monitor principal adverse impacts. Where appropriate, Fidelity have actively engaged with issuers.

Reference benchmarks are indexes to measure whether the financial product attains the sustainable objective.

How did this financial product perform compared to the reference sustainable benchmark?

How did the reference benchmark differ from a broad market index?

The Benchmark complied with the EU PAB Emission Reduction Requirements which means that it differed from a broad market Index by exhibiting a level of emission intensity 50% lower than an equivalent global market universe at launch and subsequently aims for a further year-on-year decarbonisation target, currently at an average rate of 7% per annum. In addition, the Benchmark excludes issuers which meet any of the exclusion criteria set out in the minimum technical requirements for EU Paris-aligned benchmarks.

How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the sustainable investment objective?

The sub-fund's investment objective was aligned with the Paris Agreement long-term global warming objectives by restricting the carbon emission exposure of its portfolio (ie, by adhering to the EU PAB Emission Reduction Requirements) and to achieve income and capital growth. As also described above, the Benchmark is labelled as an EU Paris Aligned Benchmark, which means it also adheres to the EU PAB Emission Reduction Requirements. As such, the Benchmark is consistent with the sub-fund's investment objective.

How did this financial product perform compared with the reference benchmark?

The reduction of carbon emission objective of the sub-fund is achieved by matching the self-decarbonisation pathway of the Benchmark.

How did this financial product perform compared with the broad market index?

The reduction of carbon emission objective of the sub-fund is achieved by matching the self-decarbonisation pathway of the Benchmark.

The Benchmark complied with the EU PAB Emission Reduction Requirements which means that it differed from a broad market Index by exhibiting a level of emission intensity 50% lower than an equivalent global market universe at launch and subsequently aims for a further year-on-year decarbonisation target, currently at an average rate of 7% per annum. In addition, the Benchmark excludes issuers which meet any of the exclusion criteria set out in the minimum technical requirements for EU Paris-aligned benchmarks.

Periodic disclosure for financial products referred to in Article 9(1), (2) and (3) of Regulation (EU) 2019/2088 and Article 5 of Regulation (EU) 2020/852

Product name: Fidelity UCITS II ICAV - Fidelity Sustainable Global High Yield Bond Paris-Aligned Multifactor UCITS ETF Legal entity identifier: 254900MS148ET4PT4191

			e sustainable investments with a objective:%			omoted E/S characteristics, but did not se any sustainable investments	

To what extent was the sustainable investment objective of this financial product met?

The sub-fund met the sustainable investment objective as defined in the SFDR precontractual disclosure for the period. The sustainable investment objective of the sub-fund is to align with the Paris Agreement long-term global warming objectives by restricting the carbon emission exposure of its portfolio and to achieve income and capital growth.

The reduction of carbon emission objective of the sub-fund was aligned with the Solactive Paris Aligned Global Corporate High Yield USD Index (the "Benchmark"). The Benchmark tracked the performance of high yield, sub-investment grade corporate debt securities publicly issued globally while at the same time aligning with the Paris Agreement's climate targets on greenhouse gas emission reduction (the "EU PAB Emission Reduction Requirements"). The EU PAB Emission Reduction Requirements require the Benchmark to exhibit a level of emission intensity 50% lower than an equivalent global market universe (which does not integrate alignment with the Paris Agreement) at launch and subsequently to aim for a further year-on-year decarbonisation target, currently at an average rate of 7% per annum. The sub-fund considers that investment in a constituent of the Benchmark is an investment in economic activities with an environmental objective (that do not qualify as environmentally sustainable under the EU Taxonomy) and therefore investment in a constituent of the Benchmark is a sustainable investment.

Where the sub-fund invested in economic activities that qualify as environmentally sustainable under the EU Taxonomy, this contributed towards the climate change mitigation and/or adaptation environmental objectives.

The sustainable investments figures in this periodic disclosure are as at 30 December 2022.

Sustainability indicators measure how the sustainable objectives of this financial product are attained.

Sustainable

investment in an

contributes to an

investment means an

economic activity that

environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance. The **EU Taxonomy** is a classification system, establishing a list of environmentally sustainable economic activities. For the time being, it does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

How did the sustainability indicators perform?

The performance of the sustainability indicators the fund used to measure the attainment of the sustainable investment objective during the period in review was:

- i) 0% of the sub-fund invested in securities of issuers with exposure to the Exclusions(as defined below);
- ii) 98.81% of the sub-fund was invested in sustainable investments;
- iii) 98.60% of the sub-fund was invested in sustainable investments with an environmental objective in economic activities (that do not qualify as environmentally sustainable under the EU Taxonomy).

... and compared to previous periods?

Not applicable as this is the first reporting period.

How did the sustainable investments not cause significant harm to any sustainable investment objective?

Within the construction of the Benchmark, sustainable investments were screened for involvement in controversies and activities that caused significant harm, including the exclusion of issuers based on their involvement in activities with significant externalities (tobacco, fossil fuels, controversial weapons etc.), breaches of international norms (such as United Nations Global Compact (UNGC) principles) and with a significant negative impact on certain sustainable development goals ("SDGs"), including SDG 12: Responsible Consumption and Production, SDG 13: Climate Action, SDG 14: Life Below Water and SDG 15: Life on Land.

How were the indicators for adverse impacts on sustainability factors taken into account?

Quantitative data (where available) on PAI indicators was used to evaluate whether an issuer was involved in activities that caused significant harm to any environmental or social objective.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

The Benchmark excluded companies with verified failure to respect established norms such as the United Nations Global Compact (UNGC) principles, the Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises, or UN Guiding Principles for Business and Human Rights.

Principal adverse impacts are the most significant negative impact of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

How did this financial product consider principal adverse impacts on sustainability factors?

Consideration of principal adverse impacts on sustainability factors were considered through and incorporated into investment decisions through a variety of tools, including:

- (i) Due Diligence analysis of whether principle adverse impacts were material and negative.
- (ii) ESG rating Fidelity references ESG ratings which incorporate material principal adverse impacts such as carbon emissions, employee safety and bribery and corruption, water management. For sovereign issued securities, principal adverse impacts were considered through and incorporated into investment decisions using ratings which incorporate material principal adverse impacts such as carbon emissions, social violations and freedom of expression. (iii) Exclusions When investing directly in corporate issuers, the sub-fund applied the Exclusions described below to help mitigate PAI through excluding harmful sectors and prohibiting investment in issuers that breach international standards, such as the UNGC. Exclusions in respect of its direct investments, the sub-fund was subject to:
- (a) a firm-wide exclusions list, which includes cluster munitions and anti-personnel landmines; and
- (b) a principle-based screening policy which includes:
- norms-based screening of issuers which Fidelity considers have failed to conduct their business in accordance with international norms, including as set out in the UNGC; and
- negative screening of certain sectors, companies or practices based on specific ESG criteria where revenue thresholds may be applied.

The above exclusions and screens (the "Exclusions") may be updated from time to time. Please refer to the <u>website</u> for further information.

- (iv) Engagement Fidelity used engagement as a tool to better understand principal adverse impacts on sustainability factors and, in some circumstances, advocate for enhancing principal adverse impacts and sustainability metrics. Fidelity participated in relevant individual and collaborative engagements that target a number of principal adverse impacts (i.e. Climate Action 100+, Investors Against Slavery and Trafficking APAC).
- (v) Voting Fidelity's voting policy included explicit minimum standards for board gender diversity and engagement with climate change. Fidelity may also vote to enhance issuer performance on other indicators.
- (vi) Quarterly reviews monitoring of principal adverse impacts through the sub-fund's quarterly review process.

Fidelity takes into account specific indicators for each sustainability factor when considering whether investments have a principal adverse impact. These indicators were subject to data availability and may evolve with improving data quality and availability. In certain circumstances, such as indirect investments made by the Fund, principal adverse impacts may not have been considered.

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 2022-02-01 /

2023-01-31

To comply with the EU Taxonomy, the criteria for fossil gas include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For nuclear energy, the criteria include comprehensive safety and waste management rules.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The sub-fund invested 0.21% in sustainable investments with an environmental objective aligned with the EU Taxonomy. This contributed towards the climate change mitigation and/or adaptation economic objectives.

The compliance of the investments of the sub-fund with the EU Taxonomy was not subject to an assurance by auditors or a review by third parties.

The taxonomy alignment of the underlying investments of the sub-fund is measured by turnover.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

ac	tivities complying with the EU T	axo	nomy¹?
	Yes		
	In fossil gas		In nuclear energy
×	No		

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective. Transitional activities are economic activities for which lowcarbon alternatives are not yet available and that have greenhouse gas emission levels corresponding to the best performance.

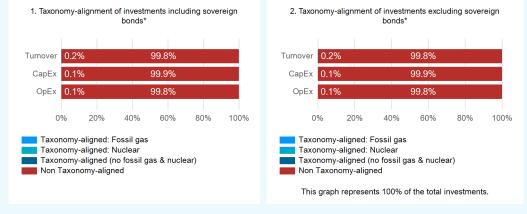

Transitional activities

are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- -turnover reflecting the share of revenue from green activities of investee companies
- capital expenditure (CapEx) showing the green investments made by investee
- companies, e.g. for a transition to a green economy.
- operational expenditure (OpEx) reflecting green operational activities of investee companies.

The two graphs below show in dark blue the minimum percentage of investments that are aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

The above charts display all investments in the portfolio that were taxonomy aligned as at 31 January 2023. The EU taxonomy figures disclosed may differ due to differences in the calculation methodology applied

What was the share of investments made in transitional and enabling activities?

The share of the fund made in Enabling Activity: 0%; Transitional Activity: 0% measured by Turnover.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable as this is the first reporting period.

are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under the EU Taxonomy.

What was the share of sustainable investments with an environmental objective that were not aligned with the EU Taxonomy?

The sub-fund invested 98.81% in sustainable investments with an environmental objective that was not aligned with the EU Taxonomy.

What was the share of socially sustainable investments?

The sub-fund invested 0% in sustainable investments with a social objective.

What investments were included under "not sustainable", what was their purpose and were there any minimum environmental or social safeguards?

Investments included under "#2 Not sustainable" included:

- (i) instruments that were previously constituents of the Benchmark which were held for a transition period after they fall out of the Benchmark in a manner appropriate to protect the best interests of investors and will then be divested; and
- (ii) cash, investments used for hedging and efficient portfolio management purposes. In addition, all direct investments of the Sub-Fund adhered to the Exclusions, did no significant harm to environmental or social objectives, had good governance practices and did not affect the delivery of the sustainable investment objective.

What actions have been taken to attain the sustainable investment objective during the reference period?

The Sub-Fund attained the sustainable investment objective of alignment with the Paris Agreement long-term global warming objectives by restricting the carbon emission exposure of its portfolio and achieved income and capital growth by tracking the performance of the Benchmark. The Sub-Fund's portfolio is aligned with the carbon emission performance of the Benchmark, which in turn is aligned with the EU PAB Emission Reduction Requirements. GENERAL INFORMATION

Fidelity UCITS II ICAV (the "Fund") was registered in Ireland pursuant to the Irish Collective Asset-management Vehicles Act 2015 on 14 November 2017 as amended under registration number C174793 and is authorised by the Central Bank of Ireland (the "Central Bank") under the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (as amended) (the "UCITS Regulations").

Effective from 1 June 2022, the manager of the Fund changed form FIL Fund Management (Ireland) Limited to FIL Investment Management (Luxembourg) S.A., Ireland Branch ("Manager").

Except where the context otherwise requires, defined terms shall bear the meaning given to them in the Prospectus of the Fund.

The Fund is organised in the form of an umbrella fund with segregated liability between sub-funds. The Prospectus provides that the Fund may offer separate sub-funds. Each sub-fund will have a distinct schedule of investments. Currently there are 24 sub-funds under the umbrella. Of these 24 sub-funds, 10 sub-funds have a December year end with a June interim period end and 14 sub-funds have a January year end with a July interim period end. These December year end financial statements are prepared for the below 9 sub-funds which were launched as of the financial year end (each, a "Sub-Fund" and, collectively, the "Sub-Funds").

There is one other Sub-Fund of the umbrella with a December year end that has been approved by the Central Bank of Ireland (Fidelity Global Equity Fund), but it has not been launched as at the financial year end.

Sub-Fund	Launch Date
Fidelity Europe ex-UK Equity Fund	13 August 2018
Fidelity Japan Equity Fund	23 August 2018
Fidelity North America Equity Fund	28 August 2018
Fidelity UK Equity Fund	29 August 2018
Fidelity Global Aggregate Bond Fund	30 August 2018
Fidelity Global Sub-IG Fixed Income Fund	30 August 2018
Fidelity Asia Pacific ex-Japan Equity Fund	31 August 2018
Fidelity Alternative Listed Equity Fund	12 September 2018
Fidelity Global Emerging Markets Equity Fund	14 September 2018

With the prior approval of the Central Bank, the Fund from time to time may create an additional Sub-Fund or Sub-Funds, the investment policies and objectives for which will be outlined in a Relevant Supplement, together with details of the initial offer period, the initial subscription price for each Share and such other relevant information in relation to the additional Sub-Fund or Sub-Funds as the Directors may deem appropriate, or the Central Bank requires, to be included. Each Relevant Supplement will form part of, and should be read in conjunction with, the Prospectus. In addition, the Fund may create additional Classes of Shares within a Sub-Fund to accommodate different terms, including different charges and/or fees and/or brokerage arrangements provided that the Central Bank is notified in advance, and gives prior clearance, of the creation of any such additional Class of Shares.

The most recent Prospectus of the Fund is dated 1 December 2022, the most recent Supplements for the Sub-Funds are dated 1 December 2022.

Fidelity Europe ex-UK Equity Fund

The investment objective of the Sub-Fund is to seek to achieve long-term capital growth.

The Fidelity Europe ex-UK Equity Fund is a feeder UCITS and will seek to achieve its objective by investing at least 85% of its net assets in unit classes of the Fidelity Europe ex-UK Equity Fund (the "Master Fund"), being a sub-fund of Fidelity Common Contractual Fund II, a common contractual fund constituted as an umbrella fund and authorised in Ireland by the Central Bank pursuant to the UCITS Regulations. FIL Investments International (the "Investment Manager") is the Investment Manager of the Sub-Fund and the Master Fund.

The investment objective of the Sub-Fund is that all or substantially all of the proceeds of issue of each Class of Shares in the Sub-Fund (and in any circumstances at least 85% of the Sub-Fund's Net Asset Value) will be invested in the Master Fund. A small portion of the Sub-Fund may be retained in cash or invested in liquid instruments primarily listed or traded on the Recognised Markets for liquidity purposes and for the purposes of paying any expenses of the Sub-Fund, but such investments will not exceed 15% of the Net Asset Value of the Sub-Fund. Such instruments will include money market instruments including bank deposits, fixed or floating rate instruments (including commercial paper, notes, bankers acceptances, certificates of deposit, debentures and short-dated government or corporate bonds), cash and cash equivalents (including treasury bills) that are rated as investment grade or below or are unrated. While these liquid instruments will be primarily listed or traded on Recognised Markets, some of these instruments may be traded over-the-counter on electronic trade platforms. For the avoidance of doubt, the liquid instruments in which the Sub-Fund will invest do not include total return swaps, securities lending, repurchase agreements or reverse repurchase agreements.

Fidelity Europe ex-UK Equity Fund (continued)

The Sub-Fund is expected to have similar performance to the Master Fund but the Sub-Fund's performance may differ given that it may invest up to 15% of its Net Asset Value in liquid instruments described above. The Sub-Fund is also expected to have a similar risk profile to the Master Fund, which is not expected to have an above average risk profile or high volatility as a result of its use of financial derivative instruments.

The investment objective of the Master Fund is identical to that of the Sub-Fund, namely to seek to achieve long-term capital growth.

The Master Fund seeks to achieve its objective by obtaining exposure to a diversified portfolio, at least two thirds of which will be exposed to equities or equity-related securities of companies domiciled or exercising the predominant part of their economic activity in Europe, excluding the United Kingdom ("Europe ex-UK").

The Investment Manager (in the context of its role as investment manager of the Master Fund) has appointed a number of discretionary investment advisers as its delegates and will allocate some or all of the Master Fund's assets to such advisers. The Investment Manager is responsible for actively selecting each adviser to which assets will be allocated, for determining the amount of the Master Fund's assets to allocate to each adviser and for managing such portion of the Master Fund's assets as are not allocated to an adviser.

The Master Fund's investment strategy will pursue a policy of obtaining exposure to equities and equity-related securities of companies domiciled or exercising the majority of their economic activity in Europe ex-UK. Each adviser will select the exposures that it obtains on behalf of the Master Fund based on its experience of investing in Europe ex-UK equities, current market conditions and the investment objective of the Master Fund. The Master Fund's investment strategy will seek to obtain exposure to equities and equity-related securities that will provide long-term capital growth for the Master Fund and will not actively focus on any specific geographic region within Europe ex-UK, industry sector or market capitalisation.

The following is the active Share Class in the Sub-Fund as at 31 December 2022:

Share Class	Share Class Launch Date	Currency
G Acc EUR	13 August 2018	EUR

Fidelity Japan Equity Fund

The investment objective of the Sub-Fund is to seek to achieve long-term capital growth.

The Fidelity Japan Equity Fund is a feeder UCITS and will seek to achieve its objective by investing at least 85% of its net assets in unit classes of the Fidelity Japan Equity Fund (the "Master Fund"), being a sub-fund of Fidelity Common Contractual Fund II, a common contractual fund constituted as an umbrella fund and authorised in Ireland by the Central Bank pursuant to the UCITS Regulations. The Investment Manager is the Investment Manager of the Sub-Fund and the Master Fund.

The investment objective of the Sub-Fund is that all or substantially all of the proceeds of issue of each Class of Shares in the Sub-Fund (and in any circumstances at least 85% of the Sub-Fund's Net Asset Value) will be invested in the Master Fund. A small portion of the Sub-Fund may be retained in cash or invested in liquid instruments primarily listed or traded on the Recognised Markets for liquidity purposes and for the purposes of paying any expenses of the Sub-Fund, but such investments will not exceed 15% of the Net Asset Value of the Sub-Fund. Such instruments will include money market instruments including bank deposits, fixed or floating rate instruments (including commercial paper, notes, bankers acceptances, certificates of deposit, debentures and short-dated government or corporate bonds), cash and cash equivalents (including treasury bills) that are rated as investment grade or below or are unrated. While these liquid instruments will be primarily listed or traded on Recognised Markets, some of these instruments may be traded over-the-counter on electronic trade platforms. For the avoidance of doubt, the liquid instruments in which the Sub-Fund will invest do not include total return swaps, securities lending, repurchase agreements or reverse repurchase agreements.

The Sub-Fund is expected to have similar performance to the Master Fund but the Sub-Fund's performance may differ given that it may invest up to 15% of its Net Asset Value in liquid instruments described above. The Sub-Fund is also expected to have a similar risk profile to the Master Fund, which is not expected to have an above average risk profile or high volatility as a result of its use of financial derivative instruments.

The investment objective of the Master Fund is identical to that of the Sub-Fund, namely to seek to achieve long-term capital growth.

The Master Fund seeks to achieve its objective by obtaining exposure to a diversified portfolio, at least two thirds of which will be exposed to equities or equity-related securities of companies domiciled or exercising the predominant part of their economic activity in Japan.

Fidelity Japan Equity Fund (continued)

The Investment Manager (in the context of its role as investment manager of the Master Fund) has appointed a number of discretionary investment advisers as its delegates and will allocate some or all of the Master Fund's assets to such advisers. The Investment Manager is responsible for actively selecting each adviser to which assets will be allocated, for determining the amount of the Master Fund's assets to allocate to each adviser and for managing such portion of the Master Fund's assets as are not allocated to an adviser. The Investment Manager is the Investment Manager of the Sub-Fund and the Master Fund.

The Master Fund's investment strategy will pursue a policy of obtaining exposure to equities and equity-related securities of companies domiciled or exercising the majority of their economic activity in Japan. Each adviser will select the exposures that it obtains on behalf of the Master Fund based on its experience of investing in Japanese equities, current market conditions and the investment objective of the Master Fund. The Master Fund's investment strategy will seek to obtain exposure to equities and equity-related securities that will provide long-term capital growth for the Master Fund and will not actively focus on any specific geographic region within Japan, industry sector or market capitalisation.

The following is the active Share Class in the Sub-Fund as at 31 December 2022:

Share Class	Share Class Launch Date	Currency
G Acc EUR	23 August 2018	EUR

Fidelity North America Equity Fund

The investment objective of the Sub-Fund is to seek to achieve long-term capital growth.

The Fidelity North America Equity Fund is a feeder UCITS and will seek to achieve its objective by investing at least 85% of its net assets in unit classes of the Fidelity North America Equity Fund (the "Master Fund"), being a sub-fund of Fidelity Common Contractual Fund II, a common contractual fund constituted as an umbrella fund and authorised in Ireland by the Central Bank pursuant to the UCITS Regulations. The Investment Manager is the Investment Manager of the Sub-Fund and the Master Fund.

The investment objective of the Sub-Fund is that all or substantially all of the proceeds of issue of each Class of Shares in the Sub-Fund (and in any circumstances at least 85% of the Sub-Fund's Net Asset Value) will be invested in the Master Fund. A small portion of the Sub-Fund may be retained in cash or invested in liquid instruments primarily listed or traded on the Recognised Markets for liquidity purposes and for the purposes of paying any expenses of the Sub-Fund, but such investments will not exceed 15% of the Net Asset Value of the Sub-Fund. Such instruments will include money market instruments including bank deposits, fixed or floating rate instruments (including commercial paper, notes, bankers acceptances, certificates of deposit, debentures and short-dated government or corporate bonds), cash and cash equivalents (including treasury bills) that are rated as investment grade or below or are unrated. While these liquid instruments will be primarily listed or traded on Recognised Markets, some of these instruments may be traded over-the-counter on electronic trade platforms. For the avoidance of doubt, the liquid instruments in which the Sub-Fund will invest do not include total return swaps, securities lending, repurchase agreements or reverse repurchase agreements.

The Sub-Fund is expected to have similar performance to the Master Fund but the Sub-Fund's performance may differ given that it may invest up to 15% of its Net Asset Value in liquid instruments described above. The Sub-Fund is also expected to have a similar risk profile to the Master Fund, which is not expected to have an above average risk profile or high volatility as a result of its use of financial derivative instruments.

The investment objective of the Master Fund is identical to that of the Sub-Fund, namely to seek to achieve long-term capital growth.

The Master Fund seeks to achieve its objective by obtaining exposure to a diversified portfolio, at least two thirds of which will be exposed to equities or equity-related securities of companies domiciled or exercising the predominant part of their economic activity in the United States, Canada or Mexico ("North America").

The Investment Manager (in the context of its role as investment manager of the Master Fund) has appointed a number of discretionary investment advisers as its delegates and will allocate some or all of the Master Fund's assets to such advisers. The Investment Manager is responsible for actively selecting each adviser to which assets will be allocated, for determining the amount of the Master Fund's assets to allocate to each adviser and for managing such portion of the Master Fund's assets as are not allocated to an adviser.

Fidelity North America Equity Fund (continued)

The Master Fund's investment strategy will pursue a policy of obtaining exposure to equities and equity-related securities of companies domiciled or exercising the majority of their economic activity in North America. Each adviser will select the exposures that it obtains on behalf of the Master Fund based on its experience of investing in North American equities, current market conditions and the investment objective of the Master Fund. The Master Fund's investment strategy will seek to obtain exposure to equities and equity-related securities that will provide long-term capital growth for the Master Fund and will not actively focus on any specific geographic region within North America, industry sector or market capitalisation.

Fidelity UK Equity Fund

The investment objective of the Sub-Fund is to seek to achieve long-term capital growth.

The Fidelity UK Equity Fund is a feeder UCITS and will seek to achieve its objective by investing at least 85% of its net assets in unit classes of the Fidelity UK Equity Fund (the "Master Fund"), being a sub-fund of Fidelity Common Contractual Fund II, a common contractual fund constituted as an umbrella fund and authorised in Ireland by the Central Bank pursuant to the UCITS Regulations. The Investment Manager of the Master Fund is the same as the Investment Manager of the Sub-Fund. The Investment Manager is the Investment Manager of the Sub-Fund and the Master Fund.

The investment objective of the Sub-Fund is that all or substantially all of the proceeds of issue of each Class of Shares in the Sub-Fund (and in any circumstances at least 85% of the Sub-Fund's Net Asset Value) will be invested in the Master Fund. A small portion of the Sub-Fund may be retained in cash or invested in liquid instruments primarily listed or traded on the Recognised Markets for liquidity purposes and for the purposes of paying any expenses of the Sub-Fund, but such investments will not exceed 15% of the Net Asset Value of the Sub-Fund. Such instruments will include money market instruments including bank deposits, fixed or floating rate instruments (including commercial paper, notes, bankers acceptances, certificates of deposit, debentures and short-dated government or corporate bonds), cash and cash equivalents (including treasury bills) that are rated as investment grade or below or are unrated. While these liquid instruments will be primarily listed or traded on Recognised Markets, some of these instruments may be traded over-the-counter on electronic trade platforms. For the avoidance of doubt, the liquid instruments in which the Sub-Fund will invest do not include total return swaps, securities lending, repurchase agreements or reverse repurchase agreements.

The Sub-Fund is expected to have similar performance to the Master Fund but the Sub-Fund's performance may differ given that it may invest up to 15% of its Net Asset Value in liquid instruments described above. The Sub-Fund is also expected to have a similar risk profile to the Master Fund, which is not expected to have an above average risk profile or high volatility as a result of its use of financial derivative instruments.

The investment objective of the Master Fund is identical to that of the Sub-Fund, namely to seek to achieve long-term capital growth.

The Master Fund seeks to achieve its objective by obtaining exposure to a diversified portfolio, at least two thirds of which will be exposed to equities or equity-related securities of companies domiciled or exercising the predominant part of their economic activity in the United Kingdom (the "UK").

The Investment Manager (in the context of its role as investment manager of the Master Fund) has appointed a number of discretionary investment advisers as its delegates and will allocate some or all of the Master Fund's assets to such advisers. The Investment Manager is responsible for actively selecting each adviser to which assets will be allocated, for determining the amount of the Master Fund's assets to allocate to each adviser and for managing such portion of the Master Fund's assets as are not allocated to an adviser.

The Master Fund's investment strategy will pursue a policy of obtaining exposure to equities and equity-related securities of companies domiciled or exercising the majority of their economic activity in the UK. Each adviser will select the exposures that it obtains on behalf of the Master Fund based on its experience of investing in UK equities, current market conditions and the investment objective of the Master Fund. The Master Fund's investment strategy will seek to obtain exposure to equities and equity-related securities that will provide long-term capital growth for the Master Fund and will not actively focus on any specific geographic region within the UK, industry sector or market capitalisation.

INVESTMENT MANAGER'S REPORT

Fidelity Europe ex-UK Equity Fund

Fidelity Europe ex-UK Equity Fund is a feeder UCITS and will seek to achieve its objective by investing at least 85% of its net assets in unit classes of the Fidelity Europe ex-UK Equity Fund (the "Master Fund"), being a sub-fund of Fidelity Common Contractual Fund II, a common contractual fund constituted as an umbrella fund and authorised in Ireland by the Central Bank pursuant to the UCITS Regulations. The Investment Manager of the Master Fund is the same as the Investment Manager of the Sub-Fund.

Market Commentary:

European equities generated negative returns in 2022. Increasing concerns around inflation and higher bond yields led to volatile swings and significant sector and style rotations across global markets. The geopolitical crisis arising from the war in Ukraine accelerated the economic deterioration that was already underway and increased the pressure on supply chains that were already strained due to successive COVID-19 lockdowns. There has also been a sharp rise in the cost of energy, further fuelling inflationary pressures and inviting a more hawkish stance by most major central banks. Record high levels of inflation led the European Central Bank (ECB) to hike its policy rate by 0.5% in July and 0.75% in September. The ECB further increased rates by 0.75% in October and 0.5% in December. On the back of upward revisions to the inflation outlook, the central bank is likely to implement further significant rate hikes at a steady pace to ensure a timely return of inflation to its 2% target. The ECB's future decisions are likely to be data and outlook dependent, and will depend on the size and composition of fiscal responses and developments in euro and peripheral spreads. Equities were also supported by optimism around corporate earnings in the region. Against this backdrop, all sectors ended the year in negative territory. Energy, which rose strongly during the year, was the only exception.

Portfolio Commentary:

The Master Fund returned -9.62% (Net) over the period, while the MSCI Europe ex-UK returned -12.58%. At the master level, all the sub-investment advisers hampered performance. The significant exposure to a sub-investment adviser that follows a low volatility strategy was the primary detractor from returns, driven by positions in the industrials and information technology (IT) sectors. A sub-investment adviser that invests on the basis of a quality-growth model also held back gains. Its underlying holdings in the industrials and IT sectors weighed on returns, though positions in the energy and financials sectors added some value.

At the master level, underlying holdings in the industrials and IT sectors weighed on returns. At the country level, the exposure to France and Switzerland held back gains. At the security level, Deutsche Post and Capgemini SE were among the key detractors from performance.

Outlook

Macroeconomic indicators remain weak and continue to point towards a recession in Europe. Although there are indications that inflation may be moderating, the outlook is uncertain and short-term confidence remains fragile. Based on the Consumer Expectations Survey, inflation expectations for the year ahead increased from 5.1% to 5.4%, while expectations over the next three years were unchanged at 3.0%. The ECB's future decisions are likely to be data and outlook dependent, and will take into account the size and composition of fiscal responses and developments in euro and peripheral spreads. Although geopolitics adds an element of uncertainty, markets historically tend to bottom out with the final set of interest rate hikes. If we start to see slower economic activity and a resolution to pandemic-driven supply chain issues together with a slowdown in interest rate rises, inflation could normalise and markets could stabilise. In this uncertain environment, the underlying performance of businesses is likely to vary dramatically, emphasising the importance of fundamental analysis in identifying the underlying drivers of growth and business quality.

January 2023

Fidelity Japan Equity Fund

Fidelity Japan Equity Fund is a feeder UCITS and will seek to achieve its objective by investing at least 85% of its net assets in unit classes of the Fidelity Japan Equity Fund (the "Master Fund"), being a sub-fund of Fidelity Common Contractual Fund II, a common contractual fund constituted as an umbrella fund and authorised in Ireland by the Central Bank pursuant to the UCITS Regulations. The Investment Manager of the Master Fund is the same as the Investment Manager of the Sub-Fund.

Market Commentary:

Japanese equities fell as concerns over broadening inflationary risks and increasing interest rates weighed on stock prices. Russia's invasion of Ukraine and its spill over effect on the global economy also weighed on investor sentiment. Faced with escalating price pressures, the US Federal Reserve (Fed) responded with a series of interest rate hikes, which saw the yen weaken sharply against the US dollar. This prompted Japan's Ministry of Finance to intervene in the currency market in September, for the first time since 1998. With inflation showing no signs of abating in many countries, investors started to price in the risk of an economic recession. Earlier in the period, share price gains were supported by strong earnings momentum and domestic political developments. Towards the end of the year, the US Fed's more hawkish stance and the Bank of Japan's unexpected decision to adjust its yield curve control policy drove a sharp decline in share prices. At a sector level, financials and energy were the leading gainers, while information technology (IT) stocks were the weakest performers.

Fidelity Japan Equity Fund (continued)

Portfolio Commentary:

The Master Fund returned -1.31% (Net) over the period, while the TOPIX returned -2.86%. At the master level, all sub-investment advisers generated positive performance, except one, which posted negative returns. The significant exposure to a sub-investment adviser that follows a value strategy enhanced gain, driven by positions in the financials and health care sectors. Elsewhere, the allocation to a Fidelity sub-investment adviser that follows a growth strategy weighed on returns, due to positions in the IT and industrials sectors.

At the master level, underlying holdings in the IT and industrials sectors were the key detractors from performance. At the security level, the exposure to Recruit Holdings and Sony Group held back gains.

Outlook:

Financial markets will remain susceptible to a high level of macroeconomic uncertainty, centred on global inflation and interest rates, as well as attendant concerns over the risk of recession. While we are closely monitoring the impact that imported costs are having on companies and consumers in Japan, inflation is at a much lower pace, with a narrow range compared to other regions. A lot of bad news has already been priced in, and recent earnings results have been strong despite concerns about an economic slowdown overseas. Japan is also starting to get back to normal as the pandemic recedes. Valuations are supportive and compare favourably with those in other developed markets such as the U.S.

January 2023

Fidelity North America Equity Fund

Fidelity North America Equity Fund is a feeder UCITS and will seek to achieve its objective by investing at least 85% of its net assets in unit classes of the Fidelity North America Equity Fund (the "Master Fund"), being a sub-fund of Fidelity Common Contractual Fund II, a common contractual fund constituted as an umbrella fund and authorised in Ireland by the Central Bank pursuant to the UCITS Regulations. The Investment Manager of the Master Fund is the same as the Investment Manager of the Sub-Fund.

Market Commentary:

US equities suffered their worst year since 2008. Equities declined sharply in the first half of the year following Russia's invasion of Ukraine and interest rate hikes by the US Federal Reserve (Fed). Market sentiment continued to plunge after the US economy announced two consecutive quarters of negative growth and the Fed confirmed that it will continue to raise interest rates even at the risk of an economic downturn, until inflation returns to its 2% target rate. The third quarter witnessed the passing of the CHIPS ACT and the Inflation Reduction Act (IRA) by the Joe Biden Administration, which provided some support to markets. The CHIPS Act should help to ease bottlenecks in the production of semiconductors and shift supply chains to the US. The IRA provides tax incentives to companies operating in the energy and climate space over the next 10 years. These are long-term policy actions and will likely take a few years to show their full effect. Equities rebounded strongly at the start of the fourth quarter, as investors reacted positively to third quarter earnings. Names outside the technology sector and mega-cap group were particularly strong. The rally continued after October and November's Consumer Price Index (CPI) surprised to the downside, raising expectations that we may have reached peak inflation. Equities ended November on a strong note after third quarter GDP was raised to 2.9% at an annualised rate, reflecting an improvement in consumer spending and exports. However, markets fell in December, after Fed Chairperson Jerome Powell reiterated the central bank's hawkish monetary policy stance. Fed officials forecast interest rate hikes for 2023, and the projected terminal rate (peak fed funds rate) increased from 4.6% in September to 5.1% in December. Rates are projected to decline in 2024. Most sectors declined over the one-year period, with only energy and utilities ending in positive territory.

Portfolio Commentary:

The Master Fund returned -16.46% (Net) over the period, while the S&P 500 returned -18.51%. At the master level, all the sub-investment advisers generated negative performance. The significant exposure to a sub-investment adviser that follows a quality growth strategy was the primary detractor from returns, due to positions in the IT and health care sectors. The allocation to a sub-investment adviser that follows a large-cap strategy also held back gains, led by positions in the IT, consumer discretionary and industrials sectors.

At the master level, underlying holdings in the IT and consumer discretionary sectors were the key detractors from performance. At the security level, the allocation to Apple, Nvidia and Amazon held back gains.

Fidelity North America Equity Fund (continued)

Outlook

2022 ended with the three major US indices suffering their worst year since 2008. Higher-than-expected inflation, aggressive interest rate hikes and geopolitical concerns kept markets on edge for most of the year. Equity markets are likely to continue to face elevated levels of volatility, as the monetary policy is expected to remain restrictive as the US Fed tries to restore price stability. As a result of higher borrowing costs and increasing economic uncertainty, a recession looks likely and will act as a headwind in 2023. We believe an awareness of the risk/reward profile at the stock level is even more important in the current environment.

January 2023

Fidelity UK Equity Fund

Fidelity UK Equity Fund is a feeder UCITS and will seek to achieve its objective by investing at least 85% of its net assets in unit classes of the Fidelity UK Equity Fund (the "Master Fund"), being a sub-fund of Fidelity Common Contractual Fund II, a common contractual fund constituted as an umbrella fund and authorised in Ireland by the Central Bank pursuant to the UCITS Regulations. The Investment Manager of the Master Fund is the same as the Investment Manager of the Sub-Fund.

Market Commentary:

UK equities proved more resilient than other major markets and finished the year marginally higher. Market volatility made a comeback in 2022, reflecting a reappraisal of interest rate expectations and the impact of Russia's invasion of Ukraine. Sanctions imposed on Russia and disruptions resulting from the conflict pushed commodity prices to extreme levels, exacerbating concerns around soaring inflation and leaving central banks with few options but to tighten their monetary policies. In the UK, this has amounted to the Bank of England (BoE) delivering nine consecutive interest rate hikes, taking its policy rate to 3.5% in December, a 14-year high. The impact of rising costs has also translated into deteriorating economic data, with sharp drops in business survey readings and waning consumer confidence accentuating concerns about the possibility of a recession. Later in the period, a proposed un-costed fiscal package by the then-government (led by Mary Elizabeth Truss) triggered fresh bouts of volatility. UK government bond yields soared and the pound depreciating sharply against the US dollar, prompting the BoE to intervene to reassure investors. Markets recovered their losses after new chancellor Jeremy Hunt carried out a near-complete policy Uturn in October. Investors also welcomed improved stability with the appointment of Rishi Sunak as the new prime minister. The positive momentum continued in early November, as tentative signs of cooling inflationary pressures in the US bolstered expectations of a slowdown in the US Federal Reserve's monetary policy tightening cycle. China also took measures to ease its stringent zero COVID-19 policy, which boosted hopes that growth in the world's second largest economy could improve next year. However, investors turned somewhat cautious in December as global central banks reaffirmed their commitment to bring down inflation and economic data showed clear signs of slowing growth.

Portfolio Commentary:

The Master Level returned -4.38% (Net) over the period, while the FTSE All-share returned 0.30%. At the master level, three of the four sub-investment advisers generated negative performance. The significant exposure to a sub-investment Fidelity adviser that follows an all-cap strategy was the primary detractor from returns, due to positions in the consumer discretionary and industrials sectors. The exposure to a sub-investment adviser that follows an all-cap value approach also weighed on returns, driven by holdings in the industrials and consumer discretionary sectors. However, positions in the energy sector added value.

At the master level, underlying holdings in the consumer discretionary and industrials sectors were the key detractors from returns. At the security level, the position in Schroders Plc, a British asset management company, held back gains. The allocation to St. James's Place Plc also weighed on returns.

Outlook:

There is clearly significant economic and geopolitical uncertainty globally, as the UK economy, much like its counterparts, grapples with historically high levels of inflation. Most indicators point to a slowdown or recession, particularly for consumers, as inflation and rising interest rates take their toll. The unpredictable demand picture, combined with ongoing supply chain pressures, is adding to the volatility that is starting to emerge in company earnings. Many businesses and investors have yet to adjust to the new reality of higher interest rates and bond yields. While some market commentators think this higher cost of finance will fade away, we are more sceptical. The current environment of higher rates and stickier inflation resembles the longer term pattern seen prior to the global financial crisis. This has implications for companies that are highly levered and have re-financing needs, and will be reflected in the lower availability of capital and significantly higher interest costs. Business models that rely heavily on debt are likely to struggle in this environment. While it is easy to paint a very negative picture, we may well have reached or could be close to reaching the point of peak negativity, and inflation pressures may have started to decelerate. A negative outlook is now being reflected in share prices, with some sectors and areas of the market particularly depressed. While the environment is likely to remain uncertain, particularly for companies and consumers in need of refinancing their debts, these valuation levels and the large divergence in performance between different parts of the market could create good opportunities for attractive returns from UK stocks over the longer term.

January 2023

Fidelity Global Aggregate Bond Fund

Fidelity Global Aggregate Bond Fund is a feeder UCITS and will seek to achieve its objective by investing at least 85% of its net assets in unit classes of the Fidelity Global Aggregate Bond Fund (the "Master Fund"), being a sub-fund of Fidelity Common Contractual Fund II, a common contractual fund constituted as an umbrella fund and authorised in Ireland by the Central Bank pursuant to the UCITS Regulations. The Investment Manager of the Master Fund is the same as the Investment Manager of the Sub-Fund.

Market Commentary:

Fixed income markets endured significant volatility and posted negative returns in 2022. Markets battled with soaring inflation, unprecedented interest rate hikes by central banks and a subsequent slowdown in global economic activity. Russia's invasion of Ukraine, supply chain disruptions, an energy crisis in Europe and COVID-19 related lockdowns in China earlier in the year exacerbated an already challenging macroeconomic backdrop. However, markets recovered some lost ground towards the end of the year, as investors bet on easing inflation and slowing growth, which could eventually force global central banks to pursue a slower pace of tightening. Bond markets slid further in the last few weeks of the year amid worries that easing mobility restrictions and a complete reopening of China could keep inflation higher for longer. A surprise move by the Bank of Japan, which moved its 10-year bond yields ceiling to 0.5% from 0.25% as part of its yield curve control programme, also sparked a sell off in sovereign bonds. Nevertheless, the US Federal Reserve (Fed), the European Central Bank (ECB) and the Bank of England stuck to a hawkish stance and delivered several interest rate hikes over the period, with a clear prioritisation of inflation at the cost of growth. In turn, benchmark 10-year sovereign yields touched multi-year highs and government bonds posted negative returns. In the corporate credit space, both investment grade and high yield bonds posted negative returns, due to a mix of wider credit spreads and higher sovereign yields. However, risk sentiment improved and credit markets appeared resilient towards the end of the period as investors hoped for a slower pace of global monetary policy tightening and relatively stable corporate fundamentals.

Portfolio Commentary:

The Master Fund returned -10.09% (Net) over the period, while the Bloomberg Barclays Global Aggregate Bond index returned -12.15%. At the sub-fund level, both the sub-investment advisers generated negative performance. The exposure to a sub-investment adviser that follows a global aggregate strategy held back gains, driven by holdings in mortgage securities and government bonds. Elsewhere, the allocation to a sub-investment adviser that invests primarily in government bonds had a negative impact on performance, due to positions in Japan and Colombia. In terms of credit ratings, AA and A rated bonds were the primary detractors from returns.

At the master level, underlying holdings in AA and A rated government bonds held back gains. Bonds with a maturity period of less than 1 year also weighed heavily on returns.

Outlook:

As we move into 2023, the global economy continues to face a confluence of challenges. Our base case remains a hard landing, with a recession likely in the US and near certain in Europe and the UK. Although the recent fall in inflation prints could provide central banks with a window to halt rate hikes, the US Fed is unlikely to pivot until hard data deteriorates meaningfully. Europe has its own set of problems to deal with. Aside from high energy prices, it is expected that nearly 1 trillion euro will be supplied in 2023 to the European bond market, which will bring downside pressure to the region. Meanwhile, markets continue to project rate hikes lasting well into 2023; we reckon the ECB will eventually deviate from this path and avert a deeper recession. Overall, we expect volatility to remain high for some time.

January 2023

Fidelity Global Sub-IG Fixed Income Fund

Fidelity Global Sub-IG Fixed Income Fund is a feeder UCITS and will seek to achieve its objective by investing at least 85% of its net assets in unit classes of the Fidelity Global Sub-IG Fixed Income Fund (the "Master Fund"), being a sub-fund of Fidelity Common Contractual Fund II, a common contractual fund constituted as an umbrella fund and authorised in Ireland by the Central Bank pursuant to the UCITS Regulations. The Investment Manager of the Master Fund is the same as the Investment Manager of the Sub-Fund.

Market Commentary:

Global high yield bonds posted negative returns as credit spreads widened over the year. Markets battled with soaring inflation, unprecedented interest rate hikes by major global central banks and a subsequent synchronised slowdown in global economic activity. Russia's invasion of Ukraine, supply chain disruptions, an energy crisis in Europe and COVID-19 related lockdowns in China earlier in the year exacerbated an already challenging macroeconomic backdrop. However, markets recovered some lost ground towards the end of the year, as investors bet on easing inflation and slowing growth, which could eventually force global central banks to pursue a slower pace of tightening. Markets fell further in the last few weeks of the year amid worries that easing mobility restrictions and a complete reopening of China could keep inflation higher for longer. A surprise move by the Bank of Japan, which shifted its 10-year bond yield ceiling to 0.5% from 0.25% previously, as part of its yield curve control programme also sparked a sell-off in sovereign bonds. Nevertheless, the US Federal Reserve (Fed), the European Central Bank and the Bank of England stuck to a hawkish stance and delivered several interest rate hikes over the period, with a clear prioritisation of inflation at the cost of growth. In turn, benchmark 10-year sovereign yields touched multi-year highs.

Fidelity Global Sub-IG Fixed Income Fund (continued)

Portfolio Commentary:

The Master Fund returned -16.15% (Net) over the period, while the 50% ICE BofA 50% JPM Blend returned -13.17%. At the master level, both the sub-investment advisers generated negative performance. The exposure to a sub-investment adviser that invests primarily in high yield bonds held back gains due to its holdings in the US and the Netherlands. At a sector level, the allocation to communications and consumer discretionary hampered performance. Meanwhile, the position in a sub-investment Fidelity adviser that invests primarily in emerging market bonds weighed on returns, driven by holdings in Ireland and Russia. In terms of ratings, BBB and B rated bonds held back gains.

At the master level, underlying positions in the US and Ireland were the key detractors from returns, while the allocation to Germany provided some support. In terms of ratings, BBB and B rated bonds hampered performance, while the allocation to CC rated bonds proved rewarding. In terms of maturity, bonds with a maturity period of less than one-year were the key detractors from returns.

Outlook:

2022 was a very difficult year for most asset classes. As inflation and economic indicators showed signs of cooling down, near-term market volatility is projected to decrease. However, higher borrowing costs, economic uncertainty and threats of a recession are likely to act as headwinds in 2023. The correlation between risky asset classes is likely to remain elevated. The path of least resistance for spreads still appears to be wider, on expectations of continued volatility in the lower quality high yield bond market and high correlation with loan markets, where credit stress may rise faster, as well as in anticipation of further reductions to forward earnings estimates. Fundamentals for high yield bonds are strong, and the wall of high yield maturities is manageable. However, highly levered business models will face punitive refinancing costs for some time to come.

January 2023

Fidelity Asia Pacific ex-Japan Equity Fund

Fidelity Asia Pacific ex-Japan Equity Fund is a feeder UCITS and will seek to achieve its objective by investing at least 85% of its net assets in unit classes of Fidelity Asia Pacific ex-Japan Equity Fund (the "Master Fund"), being a sub-fund of Fidelity Common Contractual Fund II, a common contractual fund constituted as an umbrella fund and authorised in Ireland by the Central Bank pursuant to the UCITS Regulations. The Investment Manager of the Master Fund is the same as the Investment Manager of the Sub-Fund.

Market Commentary:

Asia Pacific ex Japan equities fell over the period. Concerns around the Russia-Ukraine conflict, the resultant surge in commodity and oil prices, and its potential impact on Asian countries that are large importers of oil, dominated investor sentiment. The US Federal Reserve's more aggressive policy action and lockdowns in China as it struggled to contain the outbreak of COVID-19 also weighed on investor sentiment. Economies globally and in the region continue to combat slower growth and higher inflation, driven by supply-chain constraints. The People's Bank of China took several measures to inject liquidity into the economy to fuel growth. Against this backdrop, all countries in the region, except Indonesia and Thailand, ended the period lower. Chinese and Hong Kong equities declined, while Taiwanese and South Korean markets slid sharply, weighed down by information technology (IT) stocks. Encouragingly, Indian equities and the ASEAN region outperformed the broader market. A reversal in the selling trend by foreign investors buoyed stock markets in India towards the end of the period. Australian equities were also relatively resilient and fared better than broader markets. At a sector level, IT, communication services, health care and consumer discretionary were the key laggards.

Portfolio Commentary:

The Master Fund returned -16.71% (Net) over the period, while the MSCI AC Asia Pacific ex-Japan returned -17.48%. At the master level, all the sub-investment advisers generated negative performance. The significant exposure to a sub-investment adviser that follows a core Asia-Pacific strategy and invests in mispriced stocks held back gains, driven by positions in the IT and materials sectors. Elsewhere, the holding in a sub-investment adviser that follows a growth investment style weighed on returns. Its allocation to the IT and consumer discretionary sectors proved unrewarding.

At the master level, underlying holdings in the IT and consumer discretionary sectors dampened performance. At the country level, the exposure to Taiwan and Korea weighed on returns. At the security level, Taiwan Semiconductor Manufacturing Company and Samsung Electronics were among the key detractors from performance.

Fidelity Asia Pacific ex-Japan Equity Fund (continued)

Outlook

Asia remains an attractive market for long-term investors. The region continues to experience structural growth, given its favourable demographics, scope for penetration of products and services, and a growing middle class. This underpins opportunities across strong franchises, technology bellwethers at the heart of global supply chains with unique positioning, and robust consumer brands and future leaders creating new products and services and expanding their footprint. China's decision to reopen its borders in January and allow for restriction-free movement is a significant change in the region, and follows three years of strict restrictions both on international and, more recently, domestic movement. China has also guided expectations towards a more growth-friendly policy environment in 2023 in order to revive its economy. As investors redirect their focus towards opportunities in China, we expect bouts of heightened volatility as COVID-19 cases fluctuate in the country.

January 2023

Fidelity Alternative Listed Equity Fund

Fidelity Alternative Listed Equity Fund is a feeder UCITS and will seek to achieve its objective by investing at least 85% of its net assets in unit classes of the Fidelity Alternative Listed Equity Fund (the "Master Fund"), being a sub-fund of Fidelity Common Contractual Fund II, a common contractual fund constituted as an umbrella fund and authorised in Ireland by the Central Bank pursuant to the UCITS Regulations. The investment manager of the Master Fund is the same as the Investment Manager of the Sub-Fund.

Market Commentary:

Global equities ended lower over the 12-month period to December 2022, as major central banks aggressively tightened their monetary policies to curb elevated inflation and as global growth weakened. Geopolitical uncertainties arising from Russia's attack on Ukraine, the resultant energy crisis in Europe and a resurgence in COVID-19 infections in several regions further weighed on markets. Towards the end of the period, equities recovered some losses as investors appeared to bet on signs of peaking inflation and slowing growth, which could eventually force global central banks to pursue a slower pace of tightening. Against this backdrop, US, Europe ex UK and Japanese equities posted negative returns among key developed markets. Emerging market equities also fell and lagged developed markets, led by weakness in China amid economic and COVID-19-related challenges. At a sector level, consumer discretionary, communication services and information technology were among the key decliners. Meanwhile, energy companies ended higher as crude oil prices rose amid uncertainties over global energy supply due to the Russia-Ukraine war. Overall, returns in sterling terms were supported by its depreciation against the US dollar and euro, but undermined by its appreciation against the yen.

Portfolio Commentary:

The Master Fund returned -5.25% (Net) over the review period, while the SONIA GBP Overnight Index Average returned 3.41%. At the master level, underlying holdings in the real estate sector were the primary detractors from performance. The position in Vonovia SE held back gains. The German residential company came under pressure as its portfolio value remained broadly flat due to a new portfolio clustering. On a positive note, the holding in Doric Nimrod Air Three contributed significantly to performance. Greater clarity on the path forward for the aircraft market boosted investor sentiment towards the company. The recent DNA sale transaction and Emirates' public statement in favour of retaining its A380 fleet also proved supportive.

Elsewhere, the exposure to the music royalties sector weighed on returns, specifically the holding in Round Hill Music Royalty. An underwhelming earnings record over the past 12 months and an unstable dividend track record weighed on the company's share price.

Outlook:

Alternatives have a low correlation to traditional asset classes and markets. Return drivers are typically different compared to traditional investments, and target returns over cash or inflation, rather than broad market indices. Within alternatives, the higher risk, more value focussed opportunities offer a genuine margin of safety and more re-rating potential. The valuation of such assets has started to improve, but they have a long runway of growth if each of their bottom-up theses progresses at the same time as economic normality returns. However, the deteriorating global growth outlook poses a medium-term risk for asset markets against a backdrop of expensive valuations and risk-off sentiment. In terms of longer term risks, most alternative assets are fairly illiquid, especially compared to their conventional counterparts.

January 2023

Fidelity Global Emerging Markets Equity Fund

Fidelity Global Emerging Markets Equity Fund is a feeder UCITS and will seek to achieve its objective by investing at least 85% of its net assets in unit classes of the Fidelity Global Emerging Markets Equity Fund (the "Master Fund"), being a sub-fund of Fidelity Common Contractual Fund II, a common contractual fund constituted as an umbrella fund and authorised in Ireland by the Central Bank pursuant to the UCITS Regulations. The Investment Manager of the Master Fund is the same as the Investment Manager of the Sub-Fund.

Fidelity Global Emerging Markets Equity Fund (continued)

Market Commentary:

Emerging markets declined sharply in what was the worst year for the asset class since the global financial crisis, although the fourth quarter was more buoyant as risk assets rallied. Emerging markets lagged developed markets due to a number of factors, including geopolitics, China's regulatory crackdown, COVID-19-induced lockdowns and high global inflation. Markets were further weighed down as the US Federal Reserve signalled tighter financial conditions and hiked interest rates to tame inflation. The war in Ukraine had many ramifications and exacerbated inflationary pressures, leading to price spikes in food and energy. Oil topped \$100 per barrel for the first time since 2014, peaking at \$139 per barrel. Investors rotated accordingly, exiting markets in proximity to Russia and reallocating to commodity producing countries across the wider EMEA and Latin America regions, which were perceived as beneficiaries. Meanwhile, emerging central banks moved early and aggressively to tighten their monetary policy, having noted that inflation was developing substantially above their respective targets. Performance was mixed. Latin America ended the year in positive territory, significantly outperforming the emerging EMEA and an even weaker emerging Asia region, which was dragged down by China, Taiwan and South Korea. As the year ended, China's decision to ease its strict zero COVID-19 policy boosted performance as investors looked forward to the reopening.

Portfolio Commentary:

The Master Fund returned -17.62% (Net) over the period, while the MSCI Emerging Markets index returned -20.09%. At the master level, all sub-investment advisers generated negative performance. The significant exposure to a sub-investment adviser that follows a core emerging markets strategy and invests in mispriced stocks was the primary detractor from returns. Its positioning in the information technology (IT) and materials sectors negatively impacted performance. Meanwhile, its underlying holdings in the consumer staples sector proved rewarding. Elsewhere, the allocation to a Fidelity sub-investment adviser that follows a growth-oriented investment style held back gains, due to its holdings in the IT and consumer discretionary sectors.

At the master level, underlying holdings in the IT and materials sectors were the key detractors from performance. At the country level, the exposure to Taiwan and Korea proved unrewarding, while holdings in Brazil and Indonesia provided some support. At the security level, positions in Lukoil and Cognizant Tech Solutions were among the key detractors from returns.

Outlook:

Inflation, geopolitical tensions and slowing growth have wreaked havoc on markets in 2022, and are likely to persist into the new year. Markets have been grappling with rising recessionary risks, which will undoubtedly be deeper in areas where the consumer is most exposed to higher gas prices. Geopolitics remains a tail risk for markets. Emerging markets have been negatively impacted in this environment, though many countries in the region are much better positioned that they were during previous crises such as the 2013 'taper tantrum'. China has been highly topical. As the largest single market in our universe, it plays a central role in driving sentiment towards the asset class and the performance of the index in aggregate. While we are cautious towards China, we don't believe the problems are systemic; China is in a difficult place, but these are cyclical issues that will be overcome. We must remain vigilant as the policy environment in China is evolving. After a particularly challenging 2022, a sustained change in sentiment has the scope to influence returns significantly.

1. Organisation

Fidelity UCITS II ICAV (the "Fund") was registered in Ireland pursuant to the Irish Collective Asset-management Vehicles Act 2015 on 14 November 2017 as amended under registration number C174793 and is authorised by the Central Bank of Ireland (the "Central Bank") under the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (as amended) (the "UCITS Regulations").

Effective from 1 June 2022, the manager of the Fund changed form FIL Fund Management (Ireland) Limited to FIL Investment Management (Luxembourg) S.A., Ireland Branch ("Manager").

The Fund is organised in the form of an umbrella fund with segregated liability between Sub-Funds. The Prospectus provides that the Fund may offer separate Sub-Funds. Each Sub-Fund will have a distinct schedule of investments. The portfolio of assets maintained for each Sub-Fund will be invested in accordance with the investment objectives and policies applicable to such Sub-Fund. For more information please refer to the General Information section on page 2.

2. Significant Accounting Policies

The principal accounting policies applied in the preparation of these financial statements are set out below.

a) Basis of Preparation

The financial statements are prepared in accordance with International Financial Reporting Standards as adopted by the European Union ('IFRS'), interpretations adopted by the International Accounting Standards Board ('IASB'), ICAV Act 2015 and certain requirements of the UCITS Regulations and the Central Bank (Supervision and Enforcement) Act 2013 (section 48(1)) UCITS Regulations 2019 (the "Central Bank UCITS Regulations") that apply to financial reports. The financial statements have been prepared on the going concern basis and under the historical cost convention, as modified by the revaluation of financial assets and financial liabilities held at fair value through profit or loss.

The preparation of financial statements in conformity with IFRS requires the use of certain critical accounting estimates as adopted by the European Union. It also requires the Directors to exercise their judgement in the process of applying each Sub-Fund's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to each Sub-Fund's financial statements as disclosed in the notes from pages 41 to 62.

The Fund is authorised by the Central Bank as a UCITS pursuant to the UCITS Regulations.

b) New standards, amendments and interpretations

New standards and amendments to existing standards

There are no standards, amendments to standards or interpretations that are effective for annual periods beginning on 1 January 2022 that have a material effect on the financial statements of the Sub-Funds.

New standards, amendments and interpretations effective after 1 January 2023 and have not been early adopted

A number of new standards, amendments to standards and interpretations are effective for annual periods beginning after 1 January 2023 and have not been early adopted in preparing these financial statements. None of these are expected to have a material effect on the financial statements of the Sub-Funds.

2. Significant Accounting Policies (continued)

c) Financial assets and financial liabilities at fair value through profit or loss

Classification

(i) Assets

The Sub-Funds classify their investments based on both the Sub-Funds business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Sub-Funds are primarily focused on fair value information and use that information to assess the assets' performance and to make decisions. The Sub-Funds have not taken the option to irrevocably designate any equity securities as fair value through other comprehensive income. The contractual cash flows of the Sub-Funds debt securities are solely principal and interest, however, these securities are neither held for the purpose of collecting contractual cash flows nor held both for collecting contractual cash flows and for sale. The collection of contractual cash flows is only incidental to achieving each the Sub-Fund's business model's objective. Consequently, all investments are measured at fair value through profit or loss.

The contractual cash flows of the Sub-Fund's debt securities are solely principal and interest, however, these securities are neither held for the purpose of collecting contractual cash flows nor held both for collecting contractual cash flows and for sale. The collection of contractual cash flows is only incidental to achieving each Sub-Fund's business model's objective. Consequently, all investments are measured at fair value through profit or loss.

(ii) Liabilities

Financial liabilities, other than those at fair value through profit or loss, are measured at amortised cost using the effective Interest rate. Financial liabilities are classified according to the substance of the contractual arrangements entered into.

(iii) Recognition, derecognition and measurement

Purchases and sales of investments are recognised on trade date, the date on which the Sub-Funds commit to purchase or sell the asset. Investments are initially recognised at fair value. Transaction costs, if any, for all financial assets and liabilities carried at fair value through profit and loss are expensed as incurred in the Statement of Comprehensive Income.

Subsequent to initial recognition, all investments continue to be classified at fair value through profit or loss, and the changes in fair value are recognised as net unrealised gain/loss on investments in the Statement of Comprehensive Income in the period in which they arise.

Investments are derecognised when the contractual rights to the cash-flows from the financial asset expire or a Sub-Fund has transferred the financial asset and the transfer qualifies for de-recognition. A financial liability is de-recognised when the obligation specified in the contract is discharged, cancelled or has expired. Realised gains and losses on sales of investments are calculated based on the average cost of the investment in local currency and are recognised in net realised gain/loss on investments in the Statement of Comprehensive Income in the period in which they arise. Realised gains and losses on investment transactions in debt instruments are calculated as the difference between sales proceeds and the historic cost of the instrument.

(iv) Fair value estimation

At the financial year end, the Investments were valued at last traded price as is consistent with the Prospectus. In circumstances where the last traded price is not within the bid-ask spread, the Investment Manager will determine the point within the bid-ask spread that is most representative of fair value. Where market quotations are not available or are unrepresentative, fair value may be determined by the Sub-Fund's using reputable pricing sources (such as pricing agencies) or indicative prices from bond/debt market makers. Broker quotes as obtained from the pricing sources may be indicative and not executable or binding. The Sub-Fund's would exercise judgement and estimates on the quantity and quality of pricing sources used. Where no market data is available, each Sub-Fund may value positions using their own models, which are usually based on valuation methods and techniques generally recognised as standard within the industry.

Shares or units in collective investment schemes shall be valued on the basis of the latest unaudited available net asset value per shares or units as published by the collective investment scheme.

(v) Transfers between levels of the fair value hierarchy

Transfers between levels of the fair value hierarchy are deemed to have occurred at the beginning of the reporting period.

2. Significant Accounting Policies (continued)

d) Cash and Cash Equivalents

Cash and cash equivalents include cash in hand, deposits held on call with banks and other short-term highly liquid investments with original maturities of three months or less and bank overdrafts. All cash at bank balances are held with Brown Brothers Harriman, or with third party institutions approved by the Manager on overnight deposit or directly with a sub-custodian. All deposits held on call with banks are returned to the Depositary the following day.

e) Foreign Exchange Translation

Functional and Presentation Currency

Items included in the Sub-Funds' financial statements are measured using the currency in which Shareholder transactions take place (the "functional currency"). The functional currency and presentation currency of each Sub-Fund is Euro.

Transactions and Balances

Assets and liabilities denominated in currencies other than the functional currency are translated into the functional currency at the exchange rates ruling at the Statement of Financial Position date. Transactions in currencies other than the functional currency are translated into the functional currency at the exchange rates ruling at the dates of the transactions. Gains and losses on foreign exchange transactions are recognised in the Statement of Comprehensive Income in determining the result for the financial year. Proceeds from subscriptions and amounts paid for redemptions in currencies other than the functional currency are translated into the functional currency at the exchange rates prevailing at the dates of the transactions.

f) Transaction Costs

Transaction costs are costs incurred to acquire financial assets or liabilities at fair value through profit or loss. They include fees and commissions paid to agents, advisers, brokers and dealers. Transaction costs, if any, are expensed as incurred in the Statement of Comprehensive Income.

g) Expenses

Expenses are recognised in the Statement of Comprehensive Income on an accrual basis.

h) Redeemable Participating Shares

All Redeemable Participating Shares issued by the Sub-Funds provide the Shareholders with the right to redeem for cash at the value proportionate to the Shareholder's share in the Sub-Funds' net assets on the redemption date. In accordance with IAS 32, Redeemable Participating Shares have been classified as equity.

i) Distribution Policy

The Sub-Funds have only accumulating classes, for which the Directors have determined to accumulate all net income and therefore do not intend to declare dividends.

3. Cash at Bank and Bank Overdraft

Cash at Bank amount for the Sub-Funds for the financial years end 31 December 2022 and 31 December 2021 are disclosed in the table below:

Sub-Fund	Counterparty	31 December 2022	31 December 2021

4. Share Capital

The Fund may issue up to 500,000,000,000,000,000 Shares of no par value. The maximum issued Share capital of the Fund shall be 500,000,000,000 Shares of no par value and the minimum issued Share capital of the Fund shall be €2 represented by two Subscriber Shares of no par value issued for €1 each. The issued share capital of the Fund shall not be less than the currency equivalent of €2 represented by two shares of no par value.

There are no variations of rights between share classes of the Sub-Funds.

4. Share Capital (continued)

The movement in the number of redeemable participating Shares for each Sub-Fund for the financial years ended 31 December 2022 and 31 December 2021 is as follows:

Fidelity Europe ex-UK Equity Fund

Balance at 31 December 2022	492,991

5. Taxation

Each Sub-Fund is an investment undertaking as defined in Section 739B of the Taxes Consolidation Act, 1997. The Sub-Funds will not be liable to Irish tax in respect of their income and gains, other than on the occurrence of a chargeable event with respect to Irish resident shareholders.

In accordance with the reporting fund regime introduced by the United Kingdom HM Revenue and Customs, each Share Class will be viewed as a separate "offshore fund" for UK tax purposes. The reporting regime permits an offshore fund to seek advance approval from HM Revenue and Customs to be treated as a reporting fund. Once an offshore fund has been granted "reporting fund" status it will maintain that status for so long as it continues to satisfy the conditions to be a "reporting fund", which include making reports to HM Revenue and Customs and investors for each period of account, without a requirement to apply for further certification by HM Revenue and Customs.

Each Share Class in the Sub-Funds is treated as a "reporting fund". This has been approved by HM Revenue and Customs.

Generally a chargeable event arises on any distribution, redemption, repurchase, cancellation, transfer of Shares by an Irish resident Shareholder or on the ending of a "Relevant Period". A "Relevant Period" for these purposes is an eight year period beginning with the acquisition of the Shares by the Irish resident Shareholder and each subsequent period of eight years beginning immediately after the preceding Relevant Period.

A gain on a chargeable event does not arise in respect of:

- (i) a Shareholder who is not Irish resident and not ordinarily resident in Ireland at the time of the chargeable event provided the necessary signed statutory declarations are held by the Sub-Fund; or
- (ii) certain exempted Irish resident investors who have provided the Sub-Fund with the necessary signed statutory declaration

Capital gains, dividends, and interest received by the Sub-Funds may be subject to withholding taxes imposed by the country of origin and such taxes may not be recoverable by the Sub-Funds or their Shareholders.

6. Fees

All of the fees and expenses payable in respect of each Sub-Fund are paid as one single fee. This is referred to as the total expense ratio or "TER". The Manager is responsible for arranging the payment from the TER of all operational expenses of the Sub-Funds, including Directors', Auditors', Legal Advisors', Administrator's, Depositary's and other service providers' fees and expenses and Class hedging costs. The Manager is entitled to an annual fee in respect of the services that it provides to the Sub-Funds. However, this fee will only be paid in circumstances where there is a residual amount left from the TER after the other operational expenses have been paid. Save where another party has agreed to reimburse the Sub-Funds, the TER includes but is not limited to fees and expenses of the Investment Manager, Depositary, Administrator, Secretary and any sub-investment advisor.

Subject to applicable law and regulation, the Manager or the Investment Manager may pay part or all of its fees to any person that invests in or provides services to the Fund or in respect of the Sub-Funds.

6. Fees (continued)

The TER does not include extraordinary costs, transaction costs and related expenses, including but not limited to, transaction charges, stamp duty or other taxes on the investments of the Sub-Funds, including duties and charges for portfolio re-balancing, withholding taxes, commissions and brokerage fees incurred with respect to the Sub-Funds' investments, interest on borrowings and bank charges incurred in negotiating, effecting or varying the terms of such borrowings, any commissions charged by intermediaries in relation to an investment in the Sub-Funds and such extraordinary or exceptional costs and expenses (if any) as may arise from time to time, such as material litigation in relation to the Sub-Funds or the Fund, which will be paid separately out of the assets of the relevant Sub-Fund. The TER is calculated and accrued daily from the Net Asset Value of the Sub-Funds and payable at least quarterly in arrears. The TER of each Sub-Fund is as listed in the Relevant Supplement. If the Sub-Funds' expenses exceed the TER outlined above in relation to operating the Sub-Funds, the Manager will cover any shortfall from its own assets.

The table below outlines the maximum TER applicable to each Sub-Fund:

	TER
Sub-Fund	(% of Net Asset Value)
Fidelity Europe ex-UK Equity Fund	
Class G Acc EUR	1.00
Fidelity Japan Equity Fund	
Class G Acc EUR	1.00
Fidelity North America Equity Fund	
Class G Acc EUR	1.00
Fidelity UK Equity Fund	
Class G Acc EUR	1.00
Fidelity Global Aggregate Bond Fund	
Class G Acc EUR	0.65

Fidelity Asia Pacific ex-Japan Equity Fund	
Class G Acc EUR	1.00
Fidelity Alternative Listed Equity Fund	
Class G Acc EUR	1.00
Fidelity Global Emerging Markets Equity Fund	
Class G Acc EUR	1.00

Directors' Fees

Effective from 1 June 2022, the Manager of the Fund changed from FIL Fund Management (Ireland) Limited to FIL Investment Management (Luxembourg) S.A., Ireland Branch. This change had no impact on the Manager fee structure outlined below.

The aggregate emoluments of the Directors paid by the Manager out of the TER on behalf of the overall ICAV II Umbrella (including expenses) for the financial year ended 31 December 2022 was EUR40,000 which were paid to Denise Kinsella and Bronwyn Wright as Independent Directors.

The aggregate emoluments of the Directors paid by the Manager out of the TER on behalf of the overall ICAV II Umbrella (including expenses) for the financial year ended 31 December 2021 was EUR50,000 which were paid to Denise Kinsella, Bronwyn Wright and Dominic Rossi as Independent Directors.

Executive Directors are not paid a fee from the Fund.

7. Related Parties

In the opinion of the Directors, the list of related parties under IAS 24 "Related Party Transactions" is as follows:

- FIL Limited the ultimate holding company of the Manager and fellow subsidiary undertakings namely:
 - (i) FIL Investment Management (Luxembourg) S.A., Ireland Branch (since 1 June 2022)
 - (ii) FIL Fund Management (Ireland) Limited (until 31 May 2022)
 - (iii) FIL Distributors
 - (iv) FIL Fondsbank GmbH
- The Directors of the Fund and their dependents. The Directors' fees for the years ended 31 December 2022 and 31 December 2021 are disclosed in Note 6.
- The Manager is a related party to the Fund and receives fees as outlined in Note 6. The amounts payable as at 31 December 2022 and 31 December 2021 are disclosed in the Statement of Financial Position.
- Fidelity Common Contractual Fund II is a related party as the Sub-Funds invest in its respective sub-funds.

The following related parties held Shares in the Sub-Funds as at 31 December 2022:

8. Transaction Costs

Transaction costs are incremental costs that are directly attributable to the acquisition, issue or disposal of the of the financial asset or liability. In order to achieve its investment objective, each Sub-Fund incurs transaction costs in relation to trading activity on its portfolio. These costs may include broker commissions, settlement fees, stamp duties, and financial transaction taxes. For some financial instruments, such as debt securities, repurchase agreements, and forward foreign exchange contracts, transaction costs are embedded in the price of the instruments and are not separately identifiable. There were no transaction costs incurred during the years ended 31 December 2022 and 31 December 2021.

9. Financial Risk Management

The Sub-Funds intend to achieve their investment objective by investing all, or substantially all, of their investable assets in the Master Funds which have the same investment objectives and policies as the relevant Sub-Fund and are also managed by the Investment Manager. Accordingly, the description herein of the Sub-Funds' risks refers to those that will be pursued directly by the Master Funds.

Each Sub-Fund may be exposed to market price risk, interest rate risk, credit risk, liquidity risk or currency risk arising from the financial instruments it holds. The Sub-Funds' overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on financial performance.

9. Financial Risk Management (continued)

The policies documented below are standard operational practices and are reviewed regularly by the Investment Manager. In certain market conditions, the Investment Manager may apply additional risk procedures to minimise potential adverse effects on the Sub-Funds' financial performance.

The Directors and the Investment Manager perform the financial risk management procedures on behalf of the Fund.

a) Global Exposure

Under the UCITS Regulations, the Manager employs a risk management process which enables it to accurately monitor and manage the global exposure of the Sub-Funds to financial derivative instruments ("FDI") (which are a subset of the financial instruments in which the Sub-Funds invest).

The Sub-Funds do not use financial derivative instruments and as such do not expect to be leveraged. The Sub-Funds' global exposure is calculated using the commitment approach and the Sub-Funds' global exposure will not exceed 100% of Net Asset Value.

The commitment approach converts the Sub-Funds' FDI positions into the equivalent positions in the underlying assets and seeks to ensure that the FDI risk is monitored in terms of any future "commitments" to which it is (or may be) obligated.

b) Market Risk

This risk comprises of three main types of risk: market price risk, currency risk and interest rate risk.

Market Price Risk

The Sub-Funds are indirectly exposed to price risk in relation to their investment in Shares of the Master Funds as prices in the future are uncertain. Shares in the Master Funds are classified on the Statement of Financial Position as financial assets at fair value through profit or loss. For Master Funds which invest in stocks, the value of those stocks may fluctuate, sometimes dramatically, in response to the activities and results of individual companies or because of general market and economic conditions or other events. Currency exchange rate movements will also cause changes in value when the currency of the investment is other than the Base Currency of the Sub-Funds holding that investment.

The following sensitivity analysis assumes a change in the market price of investments while holding all other variables constant. In practice this is unlikely to occur, and changes in some of the variables may be correlated. In addition, as the sensitivity analysis uses historical data as a basis for determining future events, it does not encompass all possible scenarios, particularly those that are of an extreme nature. The Investment Manager deems the percentage used applicable for the Sub-Funds' analysis. At 31 December 2022 and 31 December 2021, had the fair value of investments increased/decreased by 5%, with all other variable held constant, the net asset attributable to shareholders for each Sub-Fund would have increased/decreased as set out in the table below:

9. Financial Risk Management (continued)

b) Market Risk (continued)

Market Price Risk (continued)

	Effect on NAV	Effect on NAV
	31 December 2022	31 December 2021
Sub-Fund	EUR	EUR
Fidelity Europe ex-UK Equity Fund	134,113	303,028
Fidelity Japan Equity Fund	138,568	232,975
Fidelity North America Equity Fund	1,620,590	1,910,466
Fidelity UK Equity Fund	135,378	34,051
Fidelity Global Aggregate Bond Fund	928,456	776,368
Fidelity Global Sub-IG Fixed Income Fund	664,552	989,842
Fidelity Asia Pacific ex-Japan Equity Fund	198,551	98,196
Fidelity Alternative Listed Equity Fund	297,526	371,815
Fidelity Global Emerging Markets Equity Fund	248,300	291,940

Currency Risk

The Sub-Funds' total return and Statement of Financial Position can be significantly affected by foreign exchange rate movements if the Sub-Funds' assets and income are denominated in currencies other than the Base Currency of the Sub-Funds and this means that currency movements may significantly affect the Sub-Funds' Net Asset Value per Share. The three principal areas of foreign currency risk are where movements in exchange rates affect the value of investments, short term timing differences or income received.

The Sub-Funds are not directly subject to currency risk as their investments are denominated in the Sub-Funds' Base Currency. However, the respective Master Funds may hold investments subject to currency risk and Sub-Funds will also indirectly be subject to this risk.

Interest Rate Risk

Interest rate risk arises from the effects of fluctuations in the prevailing levels of market interest rates on the fair value of financial assets and future cash flows.

The Sub-Funds' financial assets and liabilities are non-interest bearing as at 31 December 2022 and 31 December 2021. As a result, the Sub-Funds are not directly subject to significant amounts of risk due to fluctuations in the prevailing levels of market interest rates. However, the Master Funds may hold investments subject to interest rate risk and the Sub-Funds will also indirectly be subject to this risk.

c) Credit Risk

Credit risk is the risk that a counterparty or an issuer will be unable to pay amounts in full when due. The Sub-Fund will be exposed to credit risk on parties with whom it trades and will also bear the risk of settlement default. The Manager may instruct the Depositary to settle transactions on a delivery free of payment basis where the Manager believes that this form of settlement is appropriate. Shareholders should be aware, however, that this may result in a loss to the Sub-Fund if a transaction fails to settle and the Depositary will not be liable to the Sub-Fund or the shareholders for such a loss.

A Sub-Fund is exposed to the credit risk of the counterparties (such as the Depositary) or the brokers and dealers and exchanges through which, it deals, whether it engages in exchange-traded or off-exchange transactions. Counterparty risk is a risk to both parties and should be considered when evaluating a contract. A Sub-Fund may be subject to the possibility of insolvency, bankruptcy or default of a counterparty with which the Sub-Fund trades such instruments, which could result in substantial losses to the Sub-Fund. A Sub-Fund may be subject to risk of loss of its assets held by a broker in the event of the broker's bankruptcy, the bankruptcy of any clearing broker through which the broker executes and clears transactions on behalf of the Sub-Fund, or the bankruptcy of an exchange clearing house.

9. Financial Risk Management (continued)

c) Credit Risk (continued)

As at 31 December 2022 and 31 December 2021, the institution where the Sub-Funds' cash was held and its respective short term credit ratings, as rated by Fitch, is listed below:

Institution	Short Term Credit Indicator 31 December 2022	Short Term Credit Indicator 31 December 2021
Banco Bilbao	F2	_
BNP Paribas	F1	_
Brown Brothers Harriman	F1+	F1+
Citi	F1	_
HSBC	_	F1+
Societe Generale	_	F1
Sumitomo Bank	F1	F1

All cash at bank balances at the financial year end are held with Brown Brothers Harriman in segregated accounts or swept to overnight time deposits held in pooled accounts in eligible institutions.

The Sub-Funds are not directly subject to credit risk. However, the Master Funds may hold investments subject to credit risk and the Sub-Funds will also indirectly be subject to this risk.

Expected Credit Losses

Application of the expected credit loss impairment model per IFRS 9 has resulted in no expected credit loss allowances recorded against each Sub-Fund's debtors at 31 December 2022 (31 December 2021: None) because the majority of each Sub-Fund's investments are measured at fair value through profit and loss and comprise of high credit quality investment grade holdings.

d) Liquidity Risk

In normal market conditions the assets of each Sub-Fund comprise mainly realisable investments which can be readily sold. Each Sub-Fund's main liability is the redemption of any Shares that investors wish to sell. In general, the investments, including cash, of each Sub-Fund are managed so that it can meet its liabilities. Investments held may need to be sold if insufficient cash is available to finance such redemptions. If the size of the disposals are sufficiently large, or the market is illiquid, then there is a risk that either the investments might not be sold or the price at which they are sold may adversely affect the Net Asset Value of the relevant Sub-Fund. The Investment Manager employs an appropriate liquidity risk management process, which takes into account efficient portfolio management transactions employed by the Sub-Funds, in order to ensure that the Sub-Funds are able to comply with their stated redemption obligations.

However, it is possible that in the type of circumstances described above, a Sub-Fund may not be able to realise sufficient assets to meet all redemption requests that it receives or the Fund may determine that the circumstances are such that meeting some or all of such requests is not in the best interests of the Shareholders.

As at 31 December 2022 and 31 December 2021, all liability amounts are due within three months.

There is no liquidity mis-match between the Sub-Funds and the respective Master Funds.

e) Capital Risk Management

The capital of each Sub-Fund is represented by the net assets attributable to holders of redeemable participating Shares. The amount of net assets attributable to holders of redeemable participating Shares is subject to subscriptions and redemptions at the discretion of the Shareholders as well as changes resulting from the Sub-Funds' performance. The Investment Manager's objective when managing capital is to safeguard the Sub-Funds' ability to continue as a going concern in order to provide returns for Shareholders, provide benefits to other stakeholders and maintain a strong capital base to support the development of the investment activities of the Sub-Funds.

In order to maintain the capital structure, the Investment Manager's policy is to monitor the level of subscriptions and redemptions relative to the assets it expects to be able to liquidate.

The Prospectus and Instrument of Incorporation include the ability to restrict redemptions and require certain minimum holdings and subscriptions.

9. Financial Risk Management (continued)

f) Fair Value Estimation

Each Sub-Fund has classified fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- (i) Level 1: Investments whose values are based on quoted market prices in active markets and are therefore classified within level 1 include active listed equities, U.S. government treasury bills and certain non-U.S. sovereign obligations. Quoted prices for these instruments are not adjusted.
- (ii) Level 2: Financial instruments that trade in markets that are not considered to be active but are valued based on quoted market prices, dealer quotations or alternative pricing sources supported by observable inputs are classified within level 2. These include investment-grade corporate bonds and certain non-U.S. sovereign obligations, shares of open-end mutual funds and over the counter derivatives. As level 2 investments include positions that are not traded in active markets and/or are subject to transfer restrictions, valuations may be adjusted to reflect illiquidity and/or non-transferability, which are generally based on available market information.
- (iii) Level 3: Investments classified within level 3 have significant unobservable inputs, as they trade infrequently. Level 3 instruments include certain corporate debt securities. As observable prices are not available for these securities, the Sub-Funds have used valuation techniques to derive the fair value.

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a level 3 measurement. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgement, considering factors specific to the financial asset or liability.

The puttable value of redeemable participating Shares is calculated based on the net difference between total assets and all other liabilities of the Sub-Funds in accordance with the Prospectus. These Shares are not traded on an active market.

A demand feature is attached of those Shares, as they are redeemable at the holder's option and can be put back to the relevant Sub-Fund at any dealing for cash equal to a proportionate share of the Sub-Fund's Net Asset Value attributable to the share class. The fair value is based on the amount payable on demand, discounted from the first date that the amount could be required to be paid. The impact of discounting in this instance is not material. As such, level 2 is deemed to be the most appropriate categorisation for net assets attributable to holders of redeemable participating shares.

The determination of what constitutes 'observable' requires significant judgment by the Directors. The Directors have delegated this task to the Administrator. The Administrator considers observable data to be that market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

As at 31 December 2022 and 31 December 2021, cash and cash equivalents are classified as Level 1. All other assets and liabilities not disclosed in the tables below are classified as Level 2.

There were no investments classified at Level 3 at the years ended 31 December 2022 and 31 December 2021.

9. Financial Risk Management (continued)

f) Fair Value Estimation (continued)

The following tables analyse within the fair value hierarchy of the Sub-Funds' financial assets and liabilities measured at fair value at 31 December 2022 and 31 December 2021:

g) Cybersecurity Risk

The Fund and its service providers (including the Investment Manager) are susceptible to cyber-attacks and technological malfunctions that may have effects that are similar to those of a cyber-attack. Cyber-attacks include, among others, stealing or corrupting data maintained online or digitally, preventing legitimate users from accessing information or services on a website, releasing confidential information without authorisation, and causing operational disruption. Successful cyber-attacks against, or security breakdowns of, the Fund, the Investment Manager, or the Depositary, or other service provider may adversely affect the Sub-Funds or their Shareholders. For instance, cyber-attacks may interfere with the processing of Shareholder transactions, affect the ability to calculate the Net Asset Value, cause the release or misappropriation of private Shareholder information or confidential Sub-Fund information, impede trading, cause reputational damage, and subject the Fund to regulatory fines, penalties or financial losses, reimbursement or other compensation costs, and additional compliance costs. The Manager and the Investment Manager have established business continuity plans and systems designed to prevent cyber-attacks. Such plans and systems are subject to inherent limitations. Similar types of cyber security risks also are present for issuers of securities in which the Sub-Funds invest, which could result in material adverse consequences for such issuers, and may cause the Sub-Funds' investments in such securities to lose value.

9. Financial Risk Management (continued)

h) Custody and Title Risk

The Depositary is under a duty to hold in custody all financial instruments that may be registered in a financial instruments account opened in the depositary's books and all financial instruments that can be physically delivered to the depositary. The Depositary is required to ensure that all financial instruments that can be registered in a financial instruments account opened in the depositary's books are registered in the depositary's books within segregated accounts. For other assets, the Depositary shall verify the Sub-Fund's ownership of such assets. The Depositary will maintain a record of the financial instruments entrusted to it and those assets for which it is satisfied that the Sub-Fund holds the ownership. When the Depositary employs a sub-custodian the Depositary retains responsibility for the assets of the Sub-Fund.

However, it should be noted that not all jurisdictions have the same rules and regulations as Ireland regarding the custody of assets and the recognition of the interests of a beneficial owner such as a Sub-Fund. Therefore, in such jurisdictions, there is a risk that if a sub-custodian becomes bankrupt or insolvent, the Sub-Fund's beneficial ownership of the assets held by such sub-custodian may not be recognised and consequently the creditors of the sub-custodian may seek to have recourse to the assets of the Sub-Fund. In those jurisdictions where the Sub-Fund's beneficial ownership of its assets is ultimately recognised, the Sub-Fund may suffer delay and cost in recovering those assets.

The Sub-Funds may invest in markets where custodial and/or settlement systems are not fully developed, therefore the assets of a Sub-Fund which are traded in such markets and which have been entrusted to sub-custodians, in circumstances where the use of such sub-custodians is necessary, may be exposed to risk. The Depositary shall maintain an appropriate level of supervision over the sub-custodian and make appropriate enquiries from time to time to confirm that the obligations of the agent continue to be competently discharged.

10. Net Gain/(Loss) on Financial Assets at Fair Value through Profit or Loss

Net Gain/(Loss) on Financial Assets at Fair Value through Profit or Loss for the financial years ended 31 December 2022 and 31 December 2021 are disclosed in the table below:

11. Soft Commission Agreements

Net (Loss)/Gain on Financial Assets at Fair

Value through Profit or Loss

Investments

From 3 January 2018, as a result of the Markets in Financial Instruments Directive II ("MiFID II") adopted by European Securities and Markets Authority ("ESMA"), research and advisory services are no longer paid out of commissions arising from the Sub-Funds portfolio transactions.

There were no soft commission arrangements entered into during the financial years ended 31 December 2022 and 31 December 2021.

12. Efficient Portfolio Management

The Sub-Funds may employ investment techniques and instruments for efficient portfolio management purposes only, subject to the conditions and within the limits from time to time laid down by the Central Bank. Any such technique or instrument must be one which (alone or in combination with one or more other techniques or instruments) is believed by the Advisers to be economically appropriate to the efficient portfolio management of the Sub-Fund, i.e. the use of a technique or instrument may only be undertaken for the purposes of one or more of the following:

- (a) a reduction in risk;
- (b) a reduction in costs; or
- (c) the generation of additional capital or income for the Sub-Fund with an appropriate level of risk, taking into account the risk profile of the Sub-Fund and the general provisions of the UCITS Regulations.

During the financial years ended 31 December 2022 and 31 December 2021, the Sub-Funds did not employ any investment techniques and instruments for efficient portfolio management.

13. Cross-trades

The Manager and/or the Investment Manager may enter into trades for the account of a Sub-Fund with: (i) the accounts of other clients managed by the Manager, the Investment Manager or its affiliates; or (ii) their house accounts (i.e., accounts owned by the Manager, the Investment Manager or any of its connected persons over which it can exercise control and influence) ("cross-trades"). Such cross-trades will only be undertaken in accordance with the relevant requirements promulgated by the relevant authorities. There were no cross-trades during the financial years ended 31 December 2022 and 31 December 2021.

14. Significant Events during the Financial Year

The Prospectus for the Fund was updated on 1 December 2022 to reflect the pre-contractual disclosure requirements of the EU Sustainable Finance Disclosure Regulation (the "SFDR"). The supplements for each of the Sub-Funds were also re-issued on 1 December 2022 to coincide with the issue of the revised prospectus.

The supplement for Fidelity Alternative Listed Equity Fund was updated on 1 September 2022 to reflect a change of the reference benchmark from 'SONIA GBP Overnight Index Average +3%' to 'SONIA GBP Overnight Index Average' and various consequential changes to the summary of the master fund's investment policy in the appendix to the supplement.

The Prospectus was updated on 2 June 2022 to reflect the takeover by FIL Investment Management (Luxembourg) S.A. ("FIMLUX") of FIL Fund Management (Ireland) Limited by way of a merger by absorption and the appointment of FIMLUX as manager of the Fund through its newly established Ireland branch with effect from 1 June 2022 and certain other minor changes. The supplements for each of the Sub Funds were also re-issued on 2 June 2022 to coincide with the issue of the revised prospectus.

The supplement for Fidelity Global Sub-IG Fixed Income Fund was updated on 20 May 2022 to reflect the change of global exposure calculation methodology for Fidelity Global Sub-IG Fixed Income Fund, a sub-fund of Fidelity Common Contractual Fund II (the "Master Fund"), from absolute value-at-risk ("VaR") to relative VaR on the basis that relative VaR is the more appropriate global exposure calculation methodology for the Master Fund given its risk profile and investment strategy.

On 24 January 2022, the instrument of incorporation of the Fund was amended to reflect a clarificatory amendment to the Irish Collective Asset-management Vehicles Act 2015 regarding the objects clause in the instrument of incorporation of a UCITS ICAV introduced by the Investment Limited Partnerships (Amendment) Act 2020.

Mr. Dominic Rossi resigned as a director of the Fund and the Manager, effective 13 January 2022.

Ukraine Crisis

In February 2022, Russia invaded Ukraine and following this Irish, EU, UK, and US governmental and regulatory bodies issued sanctions against Russia and related regions, targeting individuals, companies and sectors. The Company is continuing to comply with sanctions related obligations and has no material exposures to Russia or Belarus involving investments, counterparties or vendors. The above situation continues to evolve, including increased wider geopolitical tensions between the USA, Russia and also China. This together with the withdrawal of governmental and central bank support mechanisms, the replacement of quantitative easing with quantitative tightening, combined with increased central bank interest rates and further possible increases, in response to increases in inflation and commodity energy prices (oil and gas), has led to increased volatility in the financial and related commodity markets, and in the outlook for inflation, interest rates, bonds and debt instruments yields. The Directors of the Company continue to monitor the situation closely considering the needs and requirements of clients and stakeholders, including ongoing monitoring of market volatility, funds, fund liquidity, business continuity planning, cyber risk assessment, operational resilience, scenario planning together with other operational risks and emerging risks that may arise.

15. Events since the Financial Year End

Ms. Denise Kinsella resigned as a director of the Fund and the Manager, effective 31 March 2023.

There have been no other significant events affecting the Fund after the financial year.

16. Approval of Financial Statements

The annual report and audited financial statements were approved by the Board of Directors of the Fund on 24 April 2023.

DIRECTORS' REPORT (UNAUDITED)

The Directors present, herewith their annual report and audited financial statements for Fidelity UCITS II ICAV (the "Fund") for the financial year ended 31 December 2022.

Statement of Directors' Responsibilities

The Directors are responsible for preparing the annual report and the financial statements in accordance with applicable law and regulations. The Irish Collective Asset-management Vehicles Act 2015 as amended (the "ICAV Act") requires the Directors to prepare financial statements for each financial year which give a true and fair view of the Fund's assets, liabilities and financial position as at the end of the financial year and the profit or loss of the Fund for the financial year end. The Directors have elected to prepare the financial statements in accordance with applicable Irish law and International Financial Reporting Standards, as adopted by the European Union ("IFRS").

In preparing these financial statements, the Directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- state whether the financial statements have been prepared in accordance with applicable accounting standards and identify the standards in question, subject to any material departures from those standards being disclosed and explained in the notes to the financial statements; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Fund will continue in business.

The Directors are responsible for keeping adequate accounting records which disclose with reasonable accuracy, at any time, the assets and liabilities and financial position of the Fund and enable them to ensure that the financial statements are prepared in accordance with IFRS and comply with the ICAV Act 2015 and the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011 (as amended) ("UCITS Regulations") and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019 (the "Central Bank UCITS Regulations"). They are also responsible for safeguarding the assets of the Fund and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

The Directors are responsible for the maintenance and integrity of the corporate and financial information included on the Fund's website. Legislation in Ireland governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

The Directors are required to entrust the assets of the Fund to a Depositary for safe-keeping. In carrying out this duty, the Fund has appointed Brown Brothers Harriman Trustee Services (Ireland) Limited as Depositary (the "Depositary").

Accounting Records

The Fund is obliged to keep or cause to be kept adequate accounting records as outlined in Section 110 of the ICAV Act. To achieve this, the Directors have appointed a service organisation, Brown Brothers Harriman Fund Administration Services (Ireland) Limited (the "Administrator"). The Fund's accounting records are retained at the Administrator's registered office at 30 Herbert Street, Dublin 2, Ireland.

Principal Activities

The objective of the Fund is the collective investment in transferable securities and/or other liquid financial assets of capital raised from the public, operating on the principle of risk spreading in accordance with the UCITS Regulations.

The Fund was registered in Ireland on 14 November 2017 as an Irish collective asset-management vehicle with variable capital and having segregated liability between its Sub-Funds and is structured as an umbrella collective asset-management vehicle in that the share capital of the Fund may be divided into different Share Classes with one or more Share Classes representing a separate Sub-Fund of the Fund. Each Sub-Fund may have more than one Share Class. The assets of each Sub-Fund are invested in accordance with the investment objectives applicable to such Sub-Fund.

DIRECTORS' REPORT (UNAUDITED) (CONTINUED)

Principal Activities (continued)

The Fund is organised in the form of an umbrella fund with segregated liability between sub-funds. The Prospectus provides that the Fund may offer separate sub-funds. Each sub-fund will have a distinct schedule of investments. Currently there are 24 sub-funds under the umbrella. Of these 24 sub-funds, 10 sub-funds have a December year end with a June interim period end and 14 sub-funds have a January year end with a July interim period end. These December year end financial statements are prepared for the below 9 sub-funds which were launched as of the financial year end (each, a "Sub-Fund" and, collectively, the "Sub-Funds").

There is one other Sub-Fund of the umbrella with a December year end that has been approved by the Central Bank of Ireland (Fidelity Global Equity Fund), but it has not been launched as at the financial year end.

Name	Launch Date
Fidelity Europe ex-UK Equity Fund	13 August 2018
Fidelity Japan Equity Fund	23 August 2018
Fidelity North America Equity Fund	28 August 2018
Fidelity UK Equity Fund	29 August 2018
Fidelity Global Aggregate Bond Fund	30 August 2018
Fidelity Global Sub-IG Fixed Income Fund	30 August 2018
Fidelity Asia Pacific ex-Japan Equity Fund	31 August 2018
Fidelity Alternative Listed Equity Fund	12 September 2018
Fidelity Global Emerging Markets Equity Fund	14 September 2018

Review of Business

The investment objectives of each individual Sub-Fund trading during the financial year ended 31 December 2022 are stated in the General Information section on page 2.

The performance of the Sub-Funds against these investment objectives for the relevant fiscal year is also detailed in the Investment Manager Reports on pages from 11 to 17.

In addition to providing the performance of each Sub-Fund these reports also provide an additional portfolio commentary and a future macroeconomic outlook relevant to each individual Sub-Fund.

Principal Developments

The development and future activity for each Sub-Fund is detailed in the Investment Manager Reports on pages from 11 to 17. The Outlook section details the current and future macroeconomic outlook. The portfolio commentary considers the strengths and weaknesses of the current Portfolio during the fiscal year and what assets it may purchase in the future to strengthen the Portfolio.

Results for the Financial Year and Assets, Liabilities and Financial Position at 31 December 2022

Details of the assets, liabilities and financial position of the Sub-Funds and results for the financial year ended 31 December 2022 are set out in the Statement of Financial Position, Statement of Comprehensive Income and Statement of Changes in Net Assets Attributable to Holders of Redeemable Participating Shares and the Statement of Cash Flows.

DIRECTORS' REPORT (UNAUDITED) (CONTINUED)

Directors

The names of the persons who were Directors at any time during the financial year are listed below:

Ms. Catherine Fitzsimons (Ireland) (Chairperson)

Ms. Denise Kinsella (Ireland)

Mr. David Greco (USA)

Mr. Nick King (UK)

Ms. Bronwyn Wright (Ireland)

Ms. Lorraine McCarthy (Ireland)

Mr. Dominic Rossi (UK) (resigned 13 January 2022)

All current Directors are Non-Executive.

Ms. Denise Kinsella and Ms. Bronwyn Wright are Independent Directors.

Mr. Dominic Rossi was an Independent Director from 1 January 2021 until his resignation on 13 January 2022.

Directors' Interests

None of the Directors, the Secretary, nor their families holds or held any beneficial interests in the Fund at 31 December 2022 or during the financial year.

Transactions Involving Directors

There are no contracts or arrangements of any significance in relation to the business of the Fund in which the Directors had any interest, as defined in the ICAV Act, at any time during the financial year ended 31 December 2022 other than those disclosed in Note 7 'Related Parties' of these financial statements.

Connected Person Transactions

Connected Persons

The Manager, the Depositary, the Distributor, the Administrator, the Investment Manager and each of their respective affiliates are considered to be connected persons of the Fund for the purposes of the Central Bank UCITS Regulations.

The following table details the types of transaction entered into with counterparties that are connected persons:

Type of Transaction Counterparty

Administration Brown Brothers Harriman Fund Administration Services (Ireland) Limited

Depositary, FX and Hedging Services Brown Brothers Harriman Trustee Services (Ireland) Limited

Distributor FIL Distributors

Manager FIL Investment Management (Luxembourg) S.A., Ireland Branch (since 1 June 2022)

FIL Fund Management (Ireland) Limited (until 31 May 2022)

Investment Manager FIL Investments International

Dealing with Connected Persons

Regulation 43 of the Central Bank UCITS Regulations "Restriction on transactions with connected persons" states that "a responsible person shall ensure that any transaction between a UCITS and connected person is:

- (i) conducted at arm's length; and
- (ii) in the best interest of the unit-holders of the UCITS".

In accordance with Regulation 81(4) of the Central Bank UCITS Regulations, the Directors of the Manager are satisfied that:

- (i) there are arrangements in place, evidenced by written procedures, to ensure that the obligations that are prescribed by Regulation 43(1) are applied to all transactions with a connected person; and
- (ii) all transactions with connected persons that were entered into during the financial year to which the report relates complied with the obligations that are prescribed by Regulation 43(1).

DIRECTORS' REPORT (UNAUDITED) (CONTINUED)

Risk Management Objectives and Policies

The principal risks and uncertainties faced by the Fund are outlined in Note 9 'Financial Risk Management'.

Dividends and Retention

The Sub-Funds have only accumulating classes, for which the Directors have determined to accumulate all net income and therefore do not intend to declare dividends.

Future Developments

The Sub-Funds will continue to pursue their investment objectives as set out in the Relevant Supplements and outlined in these financial statements.

Independent Auditors

The Fund has reappointed Deloitte Ireland LLP, Chartered Accountants & Registered Auditors, as its Independent Auditor in accordance with the ICAV Act.

Irish Funds Corporate Governance Code for Management Companies

The Board of Directors has assessed the measures included in the voluntary Corporate Governance Code for Collective Investment Schemes and Management Companies as published by Irish Funds in December 2011 (the "IF Code"). The Board has adopted all corporate governance practices and procedures in the IF Code.

Signed on behalf of the Board of Directors By:

David Greco 24 April 2023 Catherine Fitzsimons 24 April 2023

REPORT FROM DEPOSITARY TO THE SHAREHOLDERS (UNAUDITED)

We have enquired into the conduct of the Fidelity UCITS II ICAV (the "Fund") for the year ended 31 December 2022 in our capacity as Depositary to the Fund.

This report including the opinion has been prepared for and solely for the Shareholders in the Fund, in accordance with Part 5 of the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011, as amended, ("The UCITS Regulations"), and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019 (the "Central Bank UCITS Regulations") and for no other purpose. We do not, in giving this opinion, accept or assume responsibility for any other purpose or to any other person to whom this report is shown.

Responsibilities of the Depositary

Our duties and responsibilities are outlined in Part 5 of the UCITS Regulations. One of those duties is to enquire into the conduct of the Fund in each annual accounting period and report thereon to the shareholders. Our report shall state whether, in our opinion, the Fund has been managed in that period in accordance with the provisions of the Fund's Instrument of Incorporation of the Fund and the UCITS Regulations. It is the overall responsibility of the Fund to comply with these provisions. If the Fund has not so complied, we as Depositary must state why this is the case and outline the steps which we have taken to rectify the situation.

Basis of Depositary Opinion

The Depositary conducts such reviews as it, in its reasonable opinion, considers necessary in order to comply with its duties as outlined in Part 5 of the UCITS Regulations and to ensure that, in all material respects, the Fund has been managed (i) in accordance with the limitations imposed on its investment and borrowing powers by the provisions of the Instrument of Incorporation of the Fund and the appropriate regulations and (ii) otherwise in accordance with the Fund constitutional documentation and the appropriate regulations.

Opinion

In our opinion, the Fund has been managed during the period, in all material respects:

- (i) in accordance with the limitations imposed on the investment and borrowing powers of the Fund by the Instrument of Incorporation of the Fund, the UCITS Regulations and the Central Bank UCITS Regulations, and
- (ii) otherwise in accordance with the provisions of the Instrument of Incorporation of the Fund, the UCITS Regulations and the Central Bank UCITS Regulations.

INDEPENDENT AUDITOR'S REPORT TO THE SHAREHOLDERS OF FIDELITY UCITS II ICAV

Report on the audit of the annual accounts

Opinion on the annual accounts of Fidelity UCITS II ICAV (the 'ICAV')

In our opinion the annual accounts:

- give a true and fair view of the assets, liabilities and financial position of the ICAV as at 31 December 2022 and of the loss for the financial year then ended; and
- have been properly prepared in accordance with the relevant financial reporting framework and the applicable Regulations.

The annual accounts we have audited comprise:

- the Schedule of Investments;
- the Statement of Financial Position;
- the Statement of Comprehensive Income;
- the Statement of Changes in Net Assets attributable to holders of Redeemable Participating Shares;
- the Statement of Cash Flows; and
- the related notes 1 to 16, including a summary of significant accounting policies as set out in note 2.

The relevant financial reporting framework that has been applied in their preparation is the Irish Collective Asset-Management Acts 2015-2020 ("the ICAV Act") and International Financial Reporting Standards as adopted by the European Union ("IFRS") ("the relevant financial reporting framework").

The applicable regulations that have been applied in their preparation is the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011 and Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations, 2019 ("the applicable Regulations").

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (Ireland) (ISAs (Ireland)) and applicable law. Our responsibilities under those standards are described below in the "Auditor's responsibilities for the audit of the annual accounts" section of our report.

We are independent of the ICAV in accordance with the ethical requirements that are relevant to our audit of the annual accounts in Ireland, including the Ethical Standard issued by the Irish Auditing and Accounting Supervisory Authority, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Conclusions relating to going concern

In auditing the annual accounts, we have concluded that the directors' use of the going concern basis of accounting in the preparation of the annual accounts is appropriate.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the ICAV's ability to continue as a going concern for a period of at least twelve months from when the annual accounts are authorised for issue.

Our responsibilities and the responsibilities of the directors with respect to going concern are described in the relevant sections of this report.

/Continued from previous page

INDEPENDENT AUDITOR'S REPORT TO THE SHAREHOLDERS OF FIDELITY UCITS II ICAV

Other information

The other information comprises the information included in the Annual Report and Audited Financial Statements, other than the annual accounts and our auditor's report thereon. The directors are responsible for the other information contained within the Annual Report and Audited Financial Statements. Our opinion on the annual accounts does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon.

Our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the annual accounts or our knowledge obtained in the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether there is a material misstatement in the annual accounts or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

Responsibilities of directors

As explained more fully in the Statement of Directors' Responsibilities, the directors are responsible for the preparation of annual accounts that give a true and fair view and have been properly prepared in accordance with the ICAV Act, and for such internal control as the directors determine is necessary to enable the preparation of annual accounts that are free from material misstatement, whether due to fraud or error.

In preparing the annual accounts, the directors are responsible for assessing the ICAV's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the ICAV or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the annual accounts

Our objectives are to obtain reasonable assurance about whether the annual accounts as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (Ireland) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these annual accounts.

A further description of our responsibilities for the audit of the financial statements is located on IAASA's website at: https://iaasa.ie/publications/description-of-the-auditors-responsibilities-for-the-audit-of-the-financial-statements. This description forms part of our auditor's report.

Report on other legal and regulatory requirements

Matters on which we are required to report by the ICAV Act and the applicable Regulations

In our opinion, the information given in the directors' report is consistent with the annual accounts and the directors' report has been prepared in accordance with the ICAV Act.

Matters on which we are required to report by exception

Based on the knowledge and understanding of the ICAV and its environment obtained in the course of the audit, we have not identified material misstatements in the directors' report.

We have nothing to report in respect of the provisions in the ICAV Act which require us to report to you if, in our opinion, the disclosures of directors' remuneration specified by the ICAV Act are not made.

/Continued from previous page

INDEPENDENT AUDITOR'S REPORT TO THE SHAREHOLDERS OF FIDELITY UCITS II ICAV

Opinion on other matters prescribed by the applicable Regulations

Based solely on the work undertaken in the course of the audit, we report that:

- We have obtained all the information and explanations which we consider necessary for the purposes of our audit.
- In our opinion the accounting records of the ICAV were sufficient to permit the annual accounts to be readily and properly audited
- The annual accounts are in agreement with the accounting records.

Use of our report

This report is made solely to the ICAV's shareholders, as a body, in accordance with Section 120(1) (b) of the ICAV Act. Our audit work has been undertaken so that we might state to the ICAV's shareholders those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the ICAV and the ICAV's shareholders as a body, for our audit work, for this report, or for the opinions we have formed.

Fidelity CCF II Global Emerging Markets Equity Fund - Class G Acc EUR

APPENDIX 2 - REPORT OF REMUNERATION (UNAUDITED)

Remuneration Disclosure

The Fund is managed by FIL Investment Management (Luxembourg) S.A., Ireland Branch ('FIMLUX'),

FIMLUX is a UCITS licensed Management Company and wholly owned subsidiary of FIL Limited ('FIL'). The FIL Group, consisting of FIL and its subsidiaries, has approved a remuneration policy which is applicable to all constituent parts of the group. In addition, FIMLUX has its own remuneration policy which closely reflects the FIL group policy. In the implementation of its policy, FIMLUX will ensure good corporate governance and promote sound and effective risk management.

Remuneration Policy

The remuneration policy does not encourage any risk taking which would be inconsistent with the risk appetite of the Fund, or the Prospectus. FIMLUX will ensure that any decisions are consistent with the overall business strategy, objectives and the remuneration policy and try to avoid any conflicts of interest which may arise.

Fixed remuneration is defined as base salary plus other benefits. Base salaries are set competitive to local market, based on an individual's specific role and responsibilities as well as their relevant experience, qualifications, performance and overall contribution to FIL. These levels are reviewed on a regular basis.

Variable remuneration is defined as annual bonuses and long-term incentive awards. These discretionary pay elements are determined by individual performance and overall company affordability (set taking into consideration the financial and non-financial performance and associated business and operational risks).

A summary of the Remuneration Policy is available at https://www.fidelityinternational.com.

FIMLUX will ensure that the remuneration policy is reviewed internally and independently annually. There have not been any material changes to the adopted remuneration policy since the last review performed in February 2023 and the review outcome showed no exception. The Remuneration Policy applies to all employees of FIMLUX, including individuals whose professional activities have a material impact on the risk profile of the Management Company or the UCITS Funds it manages ('UCITS Identified Staff'). The UCITS identified staff include members of the Board of the Management Company, senior management, heads of relevant control functions and heads of other key functions. Individuals are notified of their identification and the implications of this status on at least an annual basis.

Total Remuneration paid to staff employed by FIMLUX for the financial year ended 31/12/2022	EUR 9,048,751			
Of which, fixed remuneration Of which, variable remuneration	EUR 7,452,063 EUR 1,596,688			
Total number of employees of FIMLUX (at 31/12/2022)	91			

The aggregate total remuneration paid to the Identified Staff, considering all existing delegation arrangements, and where information has been made available, is as follows: EUR 10.49 million. It should be noted that this remuneration information is that which was disclosed by the delegate, in its annual report for its financial year ended 30 June 2022 and is an aggregate figure disclosed by the Investment Manager for its relevant staff and is not specific to the Fund.

List of Investment Manager

The following table discloses the breakdown of the Investment Manager by sub-funds for the financial year under review.

Sub-fund name	Investment Manager
Fidelity Europe ex-UK Equity Fund	FIL Investments International
Fidelity Japan Equity Fund	FIL Investments International
Fidelity North America Equity Fund	FIL Investments International
Fidelity UK Equity Fund	FIL Investments International
Fidelity Global Aggregate Bond Fund	FIL Investments International
Fidelity Global Sub-IG Fixed Income Fund	FIL Investments International
Fidelity Asia Pacific ex-Japan Equity Fund	FIL Investments International
Fidelity Alternative Listed Equity Fund	FIL Investments International
Fidelity Global Emerging Markets Equity Fund	FIL Investments International

APPENDIX 3 – SECURITIES FINANCING TRANSACTIONS (UNAUDITED)

The Securities Financing Transactions ("SFTs") Regulation (the "Regulation") came into force on 12 January 2016 and introduced additional disclosure requirements around securities lending, repurchase agreement/reverse repurchase agreements, total return swaps (TRSs) and other lending/borrowing transactions in annual and semi-annual financial statements, published after 13 January 2017. The Regulation came about due to what was perceived as 'shadow banking' risk in the securities financing markets and aims to reduce this risk by improving transparency in the securities financing markets in a number of ways:

- By imposing conditions on the 'reuse' of collateral, so that clients and counterparties understand the risks involved and give their consent to the reuse,
- By requiring managers to make detailed disclosures to their investors of the use they make of SFTs both in their periodic financial statements and pre-contractual documentation; and
- By requiring counterparties to report SFTs to a trade repository so as to provide transparency to regulators on the use of SFTs by market participants.

As the Sub-Funds did not hold any SFTs as at 31 December 2022, the annual report and audited financial statements do not include any additional disclosures.

APPENDIX 4 – SHAREHOLDER'S RIGHTS DIRECTIVE II (UNAUDITED)

For the financial year ended 31 December 2022

The Shareholder's Rights Directive II ("SRD II") is EU legislation which is applicable within Irish law from 30 March 2020. Under SRD II Asset Managers are required to provide additional annual information regarding the risks and composition of the portfolio.

Key material medium to long-term risks associated with the investments

Please refer to Note 9 for a detailed analysis of the risk management policies and procedure that effect the Sub-Funds.

Portfolio composition

Refer to each Sub-Fund's Schedule of Investments from pages 18 to 26 for details of the portfolio composition by investment type and geographic location.

As at 31 December 2022, the following tables outline the Top 10 holdings by market value of each Sub-Fund.

Fidelity Europe ex-UK Equity Fund - Top 10 portfolio holdings by market value

Holding	Туре	Market Value (EUR)
Fidelity CCF II Europe ex-UK Equity Fund - Class G Acc EUR	Transferable Securities	2,682,253

Holding	Туре	Market Value (EUR)
Fidelity CCF II Alternative Listed Equity Fund - Class G Acc EUR	Transferable Securities	5,950,514

APPENDIX 4 – SHAREHOLDER'S RIGHTS DIRECTIVE II (UNAUDITED) (CONTINUED)

Portfolio composition (continued)

Fidelity Global Emerging Markets Equity Fund - Top 10 portfolio holdings by market value

Holding	Туре	Market Value (EUR)
Fidelity CCF II Global Emerging Markets Equity Fund - Class G Acc EUR	Transferable Securities	4,966,008

Portfolio Turnover Rate

SRD II does not define a methodology for calculating the Portfolio Turnover Rate ("PTR"). For the purpose of these financial statements the following formula has been applied when calculating PTR.

PTR = (purchases + sales) - (subscriptions + redemptions) / average 12-month net asset value attributable to shareholders.

For the year financial year ended 31 December 2022 the PTR of each Sub-Fund is as follows:

Fund	PTR
Fidelity Europe ex-UK Equity Fund	0.00%
Fidelity Japan Equity Fund	0.00%
Fidelity North America Equity Fund	0.00%
Fidelity UK Equity Fund	0.00%
Fidelity Global Aggregate Bond Fund	0.00%
Fidelity Global Sub-IG Fixed Income Fund	0.00%
Fidelity Asia Pacific ex-Japan Equity Fund	0.00%
Fidelity Alternative Listed Equity Fund	0.00%
Fidelity Global Emerging Markets Equity Fund	0.00%

Portfolio Turnover Cost

Portfolio Turnover Costs ("PTC") is calculated as follows:

PTC = PTR (capped at 100%) x transaction cost

Transaction costs are incremental costs that are directly attributable to the acquisition, issue or disposal of a financial asset or liability.

For the financial year ended 31 December 2022 the PTC of each Sub-Fund is as follows:

Fund	PTC
Fidelity Europe ex-UK Equity Fund	0.00%
Fidelity Japan Equity Fund	0.00%
Fidelity North America Equity Fund	0.00%
Fidelity UK Equity Fund	0.00%
Fidelity Global Aggregate Bond Fund	0.00%
Fidelity Global Sub-IG Fixed Income Fund	0.00%
Fidelity Asia Pacific ex-Japan Equity Fund	0.00%
Fidelity Alternative Listed Equity Fund	0.00%
Fidelity Global Emerging Markets Equity Fund	0.00%

Fidelity UCITS II ICAV

APPENDIX 5 – SUSTAINABLE FINANCE DISCLOSURE REGULATION (UNAUDITED)

Per the Sustainable Finance Disclosure Regulation ('SFDR') the Sub-Funds do not meet the criteria for SFDR Article 8 or 9 Funds and are classified as SFDR Article 6 Funds meaning their investments do not take into account the EU criteria for environmentally sustainable economic activities.
