SWISSCANTO (LU) BOND INVEST

General Information

Investment funds under Luxembourg "Umbrella Construction" Law

SWISSCANTO (LU) BOND INVEST is subject to the legal provisions set forth in the first part of the Luxembourg law regarding the undertakings for collective investment dated 17 December 2010.

The contractual conditions of the investment fund were set forth by the management company on 30 October 1991. Several amendments followed and, in accordance with the terms of the contract, were published in the "Mémorial".

The current versions of the management company's articles of association and the contract terms of the fund, have been deposited at the Kanzlei des Bezirksgerichts (Chancellery of the Circuit Court) Luxembourg, where they can be viewed.

The contract terms, the detailed sales prospectus, key investor information and the annual and semi-annual reports can be obtained in paper form free of charge direct from Swisscanto Asset Management AG at the Management Company's head office, the Custodian Bank and its representative in Switzerland, from the German payment and information office, and from any branch of the cantonal banks and any payment and sales office. The information is also available on the Swisscanto website (www.swisscanto.ch), where additional current information on the fund is also available.

No investments may be received based on the annual and semi-annual reports. Subscriptions shall only be made after consulting the current sales prospectus and the most recent annual report, as well as, where available, any subsequent semi-annual report.

Sales restrictions

Shares in SWISSCANTO (LU) BOND INVEST may not be offered, sold or delivered within the US.

Guideline of the Swiss Funds and Asset Management Association SFAMA concerning transparency in administrative commissions (7 June 2005)

Compensation for the marketing of the investment fund is paid out of the flat-rate administrative commission. The fund management also intends to offer remuneration to institutional investors holding fund shares for third parties from the flat-rate administrative commission.

Risk management process

The management company sets forth a risk management procedure for the fund and each sub-fund in line with the Law of 17 December 2010 and other applicable provisions, in particular CSSF Circular 11/512. As part of the risk management procedure, the overall risk of all sub-funds is measured and monitored using the commitment approach.

SWISSCANTO (LU) BOND INVEST

Notes on the semi-annual report as at 31 July 2014

Note 1: Presentation of results

The financial reports are created in accordance with the statutory provisions of the Law of Organisation for Mutual Investment in Luxembourg.

Note 2: The Main Accounting Policies

The net assets of each subfund or each share class correspond to the difference between the total assets of the subfund or the share class and the total liabilities of the subfund or share class concerned.

The total net assets of the fund are expressed in Swiss Francs. For the purposes of this calculation, the net assets of each subfund that are not expressed in CHF are converted at the latest known mid-market rates at the period-end date. The following rates were used for this conversion:

1 CHF=	1.182905 AUD
	1.197239 CAD
	0.821933 EUR
	0.651393 GBP
	7.594780 SEK
	1.099747 USD

Subscriptions, redemptions and conversions are made based on an unknown net asset value.

Valuation principles:

a) Securities, derivatives and other investments that are listed on a stock exchange are valued at the last-known market prices. If these securities, derivatives and other investments are listed on several stock exchanges, the latest available price on the stock exchange that is the main market for this security shall be used.

For securities, derivatives and other investments, for which trading on a stock exchange is minor and for which there is a second market between securities traders with price formation that complies with the market, the management company may undertake the valuation of these securities, derivatives and other investments on the basis of these prices. Securities, derivatives and other investments not listed on a stock exchange, but which are traded on another recognised regulated market open to the public operating in accordance with regulations, will be valued at the last-available price on this market.

b) Securities and other investments that are not listed on a stock exchange or traded on a regulated market are valued at the last market price available. If this is not available, the valuation of the securities is undertaken by the Management Company as per the other criteria to be set by the board of directors and on the basis of the expected possible sale price, the value of which is to be estimated with all due care and to the best of its knowledge.

c) Money market instruments not listed on a stock exchange, but which are traded on another recognised regulated market open to the public operating in accordance with regulations, can be valued as follows: The valuation price of such investments is gradually brought into line with the redemption price based on the net purchase price, while at the same time maintaining the return on assets based on this price. In the event of significant changes to the market conditions, the valuation basis of the individual assessments is adjusted in line with the new market yield.

d) Liquid assets, trustee funds and fixed-term deposits are valued on the basis of their nominal value plus accrued interest.

e) Shares in UCITS and other UCI are valued according to the last published net asset value. If no net asset value is available, but only buying and selling prices, shares in such UCITS and other UCI may be valued at the average of such buying and selling prices. If no current prices are available, the valuation is carried out by the management company in accordance with other criteria to be specified by the Administrative Board and on the basis of the probable sale price which must be estimated with due care and in good faith.

SWISSCANTO (LU) BOND INVEST

Notes on the semi-annual report (cont.) as at 31 July 2014

f) Derivatives that are neither traded on a stock exchange nor traded on another regulated market are valued at the fair value that is deemed appropriate upon careful assessment, taking all circumstances into account.

g) For each subfund the assets that are denominated in a currency other than that of the subfund are converted to the subfund's currency at the prevailing median rate. Futures contracts concluded to hedge the currency risk are included in the conversion

h) Calculation of the net asset value

The net asset value of the shares is calculated by the management company for each individual subfund or each share class in accordance with the management regulations conditions and in accordance with Section 3.1 of the sales prospectus on every bank business day in Luxembourg.

i) Swinging Single Prices (SSP)

The Board of Directors of the Management Company introduced the SSP method for all subfunds on 15 January 2010. In the SSP method, the expenses resulting from subscriptions and redemptions for the acquisition and disposal of units (price/offer margins, market-appropriate brokerages, commissions, charges etc.) are included in the calculation of the net asset value. If, on any banking day, the total subscriptions and redemptions of all share classes of a subfund result in a net inflow or outflow of assets, the net asset value of the relevant subfund is increased or reduced as necessary. This amount is known as the "modified net asset value". The adjustment results in an increase in the net asset value if the net movements lead to a rise in the number of shares in the relevant subfund. It results in a decrease in the net asset value if the net movements cause a fall in the number of shares.

The transaction costs incurred on the day of trading by subscriptions and redemptions will be paid by the investors who commission these transactions.

The surcharge on, or deduction from, the transaction costs incurred by subscriptions or redemptions are effected at a flat rate and are based on an average value from a previous period of a maximum of one year.

The maximum adjustment is 1% of the net asset value of the subfund in question. If the fund has been on the market for less than one year, depending on the fund's particular features this factor will be determined in such a way as to obtain a representative figure.

As at 31 July 2014 Swinging Single Prices were used for the following subfunds:

Bond Invest EUR	in bank interests and other liabilities
Bond Invest USD	in other assets
Bond Invest CHF	in bank interests and other liabilities
Bond Invest GBP	in other assets

Note 5: Management fee

The fund will be invoiced a flat-rate administration commission for management and administration of the fund units which will be paid to the management company. This commission is payable monthly on the basis of the average net asset value of each subfund.

The flat-rate administration commission as of 1st December 2012 comprised the two components of the flat-rate management fee (costs of asset management and sales) and the flat-rate administration fee (costs for management and administration).

As at 31 July 2014 the effective flat-rate administrative fee amounted to:

SWISSCANTO (LU) BOND INVEST

Notes on the semi-annual report (cont.) as at 31 July 2014

In addition to the flat-rate administration commission, the fund will also be charged the following:

- the subscription tax ("taxe d'abonnement");
- typical purchase and sale transaction costs;
- the costs of exceptional measures taken on behalf of unitholders

Note 6: Subscription tax (taxe d'abonnement)

In accordance with the current regulations in force in Luxembourg, the Fund is subject to a "taxe d'abonnement" of 0.05% p.a. for the unit class A and B and 0.01% p.a. for the unit classes I, J, N, P and S, payable quarterly and calculated on the basis of the total net assets of the Fund at the end of each quarter.

In accordance with Article 175 a of the amended law of 17 December 2010, the portion of the net assets invested in UCITS, which are already required to pay a tax on capital, is exempt from this tax

Note 10: Total expense ratio (TER) and portfolio turnover rate (PTR)

The TER and PTR that are reported under "Statistics" in this report were calculated in accordance with the Swiss Funds and Asset Management Association's (SFAMA) "Guidelines on the Calculation and Disclosure of the TER and PTR" published on 16 May 2008.

TER and PTR have been calculated for the last 12 months prior to the date of this report.

Total Expense Ratio (TER) = (total fund expenses / average fund assets) x 100

The operating expenses include all of the fees and costs associated with the fund. The subsidiary costs incurred by the fund when buying and selling investments are not included in the operating expenses.

Portfolio Turnover Rate (PTR) is an indicator for the relevance of incidental costs associated with the purchase and sale of units. It is calculated using the formula below:

$$\text{PTR} = [(\text{Total 1} - \text{Total 2}) / \text{M}] \times 100$$

where

Total 1 = total securities transactions = X + Y

X = securities purchased and Y = securities sold

Total 2 = total transactions involving fund units during the fiscal year = S + T

S = Fund units issued and T = Fund units redeemed

Subscriptions and redemptions are compensated each time net asset value is calculated

M = average net assets
