General

CS Investment Funds 12 (the "Fund") is a Luxembourg mutual investment Fund with Subfunds ("umbrella Fund"). The Fund is registered in Luxembourg as an undertaking for collective investment in transferable securities under Part I of the law of 17.12.2010, as amended.

As of 30.09.2023 the Fund had 9 Subfunds.

Summary of significant accounting policies

a) Presentation of financial statements

The financial statements of the Fund are established in accordance with the Luxembourg legal and regulatory requirements concerning undertakings for collective investment.

b) Computation of the net asset value of each Subfund

The Net Asset Value of the Units in each Subfund shall be calculated in the Reference Currency of the respective Subfund and shall be determined by the Management Company in Luxembourg on each Banking Day on which banks are normally open all day for business in Luxembourg (each such day being referred to as a "Valuation Day"). The net asset value of each Subfund is determined each day on the basis of income/expenses accrued up to the same day, and the valuation of net assets on the basis of the last available market prices. The financial statements reflect the net asset values as of 30.09.2023.

The investment manager needs to undertake transactions in order to maintain the desired asset allocation as a result of subscriptions or redemptions, which may generate additional costs for the Subfund and its unitholders. As a consequence, in order to protect the existing investors' interest, from these capital movements, when net capital movements exceed a threshold predefined by the Board of Directors of the Management Company, an adjustment of the NAV per unit used is applied. This adjustment reflects the estimated tax and dealing costs that may be incurred by the Subfund as a result of these transactions, and the estimated bid-off spread of the assets in which the Subfund invests. A periodical review is undertaken in order to verify the appropriateness of the swing factor being applied.

The NAV per unit as disclosed in the statistical information is the published NAV per unit whereas the total net assets disclosed in the statement of net assets is the total net asset value excluding period end swing adjustment.

The Fund applies partial swing price. The net asset value calculated will be increased by up to a maximum of 2% per unit in the event of a net surplus of subscription applications or reduced by up to a maximum of 2% per unit in the event of a net surplus of redemption applications in respect of the applications received on the respective Valuation Day.

As per 30.09.2023, swing pricing was applied to no Subfund.

c) Valuation of investment securities of each Subfund

Securities which are listed or regularly traded on a stock exchange shall be valued at the last available sales price. If such a price is not available for a particular trading day, the closing mid-price (the mean of the closing bid and ask prices), or alternatively the closing bid price, may be taken as a basis for the valuation.

If a security is traded on several stock exchanges, the valuation shall be made by reference to the exchange which is the main market for this security.

In the case of securities for which trading on a stock exchange is not significant but which are traded on a secondary market with regulated trading among securities dealers (with the effect that the price reflects market conditions), the valuation may be based on this secondary market.

Securities traded on a regulated market shall be valued in the same way as those listed on a stock exchange.

Securities that are not listed on a stock exchange and are not traded on a regulated market shall be valued at their last available market price. If no such price is available, the Management Company shall value these securities in accordance with other criteria to be established by the Management Company and on the basis of the probable sales price, the value of which shall be estimated with due care and in good faith.

If a valuation in accordance with the above rules is rendered impossible or incorrect due to particular or changed circumstances, the Management Company shall be entitled to use other generally recognized and auditable valuation principles in order to reach a proper valuation of the Subfund's assets.

d) Cash at banks and at brokers

Cash at banks and at brokers includes cash in hand, margin calls and deposits held at call with banks and bank overdrafts.

e) Net realised gain/loss on sales of investments of each Subfund

The realised gains or losses on the sales of securities are calculated on the basis of the average acquisition cost.

f) Foreign exchange conversion

The financial statements are kept in the reference currency of each Subfund and the combined financial statements are kept in CHF.

Cash at banks, other net assets and the value of portfolio securities in currencies other than reference currency of each Subfund are converted into the reference currency at the foreign exchange rate prevailing on the date of valuation.

Income and expenses in currencies other than reference currency of each Subfund are converted into the reference currency at the foreign exchange rate applicable at the date they accrue to the Subfund.

Realised gains or losses on foreign currencies are accounted for in the statement of operations / changes in net assets.

The acquisition cost of securities in currencies other than the reference currency of each Subfund is converted into the reference currency at the foreign exchange rate valid at the date of acquisition.

g) Transactions on investments in securities of each Subfund

The transactions on investments in securities are booked on a trade date basis.

h) Valuation of financial futures contracts of each Subfund

Unmatured financial futures contracts are valued at valuation date at market rates prevailing at this date and resulting changes in unrealised gains or losses are posted to the statement of operations / changes in net assets and are shown under unrealised gain/loss on financial futures contracts in the statement of net assets. Realised gains or losses are also posted to the statement of operations / changes in net assets under "Net realised gain (loss) on financial futures contracts".

i) Valuation of forward foreign exchange contracts of each Subfund

Unmatured forward foreign exchange contracts are valued at valuation date at forward exchange rates prevailing at this date and resulting changes in unrealised gains or losses are posted to the statement of operations / changes in net assets and are shown under unrealised gain/loss on forward foreign exchange contracts in the statement of net assets. Realised gains or losses are also posted to the statement of operations / changes in net assets under "Net realised gain (loss) on forward foreign exchange contracts".

j) Allocation of accrued expenses

Accrued expenses which can be allocated directly to a Subfund are charged to this Subfund. Accrued expenses which cannot be allocated directly are divided among the Subfunds in proportion to the net assets of each Subfund.

k) Securities Lending

The Fund can practise lending of securities included in its portfolios of its Subfunds. The Fund may only lend securities within a standardized system of securities lending organised by a recognised institution of securities compensation or by first class financial institutions specialised in this type of operations. The income from securities lending is showing the gross income from securities lending less the direct and indirect costs and fees retained by the counterparty acting as securities lending principal.

l) Income recognition

Dividend income is recorded at the ex-date, net of any withholding tax. Interest income is accrued on a prorata temporis basis, net of any withholding tax.

Management fee

(see detail at Subfund level)

As remuneration of its services and reimbursement of its expenses, the Management Company is entitled to a management fee (see details at Subfund level), payable at the end of each month and calculated on the basis of the average of the daily net asset value of each Unit Class during the relevant month.

Depository Fee

The Depository Bank receives from the Fund such fees and commissions as are in accordance with usual practice in Luxembourg. They will be composed of a fee calculated as a percentage of the relevant Subfund's net assets and of transaction-based commissions.

"Taxe d'abonnement"

Under the prevailing laws and regulations, the Fund is subject in Luxembourg, on the basis of its investments, to a "taxe d'abonnement" at the annual rate of 0.05%, payable quarterly and calculated on the basis of the net assets of each Subfund at the end of each quarter. In the case of Unit Classes that may only be acquired by institutional investors, this annual tax rate is 0.01%.

The portion of net assets, which is invested in other undertakings for collective investment in securities under Luxembourg law, is exempt from this tax.

Total Expense Ratio (TER)

(see detail at Subfund level)

The TER expresses the sum of all costs and commissions charged on an ongoing basis to the Fund's assets, taken retrospectively as a percentage of the average assets.

The TER is calculated following the AMAS guideline.

No TER is disclosed for units launched less than 6 months before closing. No TER is disclosed for units that were liquidated during the reporting period.

If a Subfund invests at least 10% of its net assets as a fund of fund in target funds, a composite TER of the fund of funds is to be calculated as follows.

The prorated TER of the individual target funds including a performance related remuneration, weighted according to the share they represent in the overall assets of the fund of funds as of the closing date and the TER of the fund of funds minus the retroceded commissions received from the target funds during the reporting period.

Changes in the composition of the securities portfolio

Changes in the composition of the securities portfolio during the reporting period are available to unit holders free of charge at the registered office of the Management Company or the local representatives in the countries where the Fund is registered.

Exchange Rates

The combined financial statements are kept in CHF. For this purpose, the financial statements of the Subfunds are converted into CHF at the foreign exchange rates as of 30.09.2023:

1 EUR	= 0.968550	CHF
1 USD	= 0.914805	CHF

Fund performance

(see detail at Subfund level)

The performance of the year Y is based on the net asset values as calculated on the last business day of the year Y respectively Y-1. Those net asset values reflect the market prices of the investments as of the last business day of the year Y respectively Y-1.

The YTD (Year-To-Date) performance includes the period from 01.01.2023 until 30.09.2023.

Historical performance is no indicator of current or future performance.

The performance data given does not take into account commissions and costs incurred in the purchase or redemption of fund units.

For units launched more than 3 years ago no performance since inception is disclosed.

Performance of distributing units includes reinvestments of dividends.

The performances are calculated based on the swung NAV per unit.

Securities Lending

The Subfunds participated in the "securities lending" system with Credit Suisse (Switzerland) Ltd., Zurich as follows:

Subfund	CCY	Stock lending market value	Collateral market value
Credit Suisse (Lux) Portfolio Fund Balanced EUR	EUR	1,227,369.00	1,294,119.02

The collateral delivered by the securities lending counterparty to the Fund is composed of a well diversified portfolio of securities consisting of

- highly rated bonds issued or guaranteed by governments, government agencies, bodies regulated by public law or corporations (excluding Credit Suisse affiliates) from selected OECD countries;
- highly rated bonds from supranational organisations;
- equities listed on selected stock exchanges within the OECD on the condition that the units are included in a main and liquid index.

The determination of the market value of the collateral is subject to the application of appropriate haircuts adapted to the volatility of the collateral type.

The revenues mentioned in the Statement of Operations / Changes in Net Assets under "Securities Lending Income" are the net amounts received from the lending principal. Any direct and indirect operational costs and fees are borne out of its fee and include the liability risk assumed by the principal.

For the period ended on 30.09.2023, the fee paid to the principal amounted to as follows:

Notes

Transaction costs

Transactions costs include brokerage fees, stamp duty, local taxes and other foreign charges if incurred during the period. Transaction fees are included in the cost of securities purchased and sold.

For the period ended on 30.09.2023, the Fund incurred transaction costs relating to purchase or sale of investments in securities and similar transactions, (including derivatives instruments or other eligible assets) as follows:

Subfund	Ccy	Transaction cost
Credit Suisse (Lux) Portfolio Fund Balanced EUR	EUR	21,334.11
Credit Suisse (Lux) Portfolio Fund Balanced CHF	CHF	26,126.07
Credit Suisse (Lux) Portfolio Fund Balanced USD	USD	15,605.24
Credit Suisse (Lux) Portfolio Fund Growth EUR	EUR	17,437.06
Credit Suisse (Lux) Portfolio Fund Growth CHF	CHF	9,819.72
Credit Suisse (Lux) Portfolio Fund Growth USD	USD	6,141.34

Credit Suisse (Lux) Portfolio Fund Yield CHF	CHF	21,179.62
Credit Suisse (Lux) Portfolio Fund Yield USD	USD	7,938.79

Not all transaction costs are separately identifiable. For fixed income investments, forward foreign exchange contracts and for some other derivative contracts, transaction costs will be included in the purchase and sales price of the investment. Whilst not separately identifiable these transaction costs will be captured within the performance of each Subfund.

Global Exposure

The global exposure is calculated on the basis of the commitment approach for each Subfund.

Financial Derivative Instruments

The Subfunds may engage in derivative transactions for the purpose of efficient portfolio management. Details of the derivatives are displayed in the Notes pages. Depending on the type of derivatives held, collateral might be received from the different counterparties to reduce the counterparty exposure. For other types of derivatives, margin accounts might be used.

No collateral was received by the Funds to reduce the counterparty risk as of 30.09.2023.

War in Ukraine

In response to the war in Ukraine since late February 2022, the US, EU, UK, Switzerland and other countries across the world imposed severe sanctions against Russia's financial system and on Russian government officials and Russian business leaders. The sanctions included limitations on the ability of Russian banks to access the SWIFT financial messaging service and restrictions on transactions with the Russian central bank. The Russian government has also imposed certain countermeasures, which include restrictions relating to foreign currency accounts and security transactions.

The Company is assessing the impact of the sanctions already imposed, and potential future escalations, on its business on an ongoing basis.

Significant events during the period

The new prospectus became effective in May 2023.

On 12 June 2023, Credit Suisse Group AG was merged into UBS Group AG and the combined entity now operates as a consolidated banking group (the "Merger"). The Fund receives various services and has banking relationships with consolidated subsidiaries of Credit Suisse Group AG, and as such these relationships and service providers may change in the future as a result of the Merger.

Subsequent events

No significant event occurred after the period end.
