The performance fee is calculated at each NAV.

As of 29th March 2022, for share classes calculating a performance fee, this includes the principle of crystallisation of redemptions and adjustments on subscriptions in order to limit bias in the calculation of the performance fees.

This tax amounts to 0.0925% on the total of the net sums invested in Belgium as at 31st December of the previous year from their registration with the Financial Services and Markets Authority.

The SICAV pays this tax at the latest on 31st March of each year.

The statement of the changes in investments for the reporting period is available free of charge at the Registered office of the SICAV and at the Principal Paying Agent.

Note 9 - Equalisation factor

It is common practice, for the Funds in which the SICAV invests, to apply an "Equalisation factor", whereby the SICAV may be required to pay an amount in excess of the net asset value representing its part of the performance fee provision of the underlying Funds within the net asset value. The "Equalisation factor" ensures that the performance fee is charged only to those shares which have increased in value and that all shareholders have the same amount per share at risk.
