*The DPAM B Corporate Bonds EUR 2023 sub-fund was liquidated on June 30, 2023.

Description of the share classes :

Class A:

distribution shares offered to the public.

Class A USD

distribution shares which differ from shares of class **A** due to the fact that they are denominated in United States dollars.

Class A EUR HEDGED:

distribution shares which differ from class **A** shares in that the exchange risk against the euro is hedged. The Manager must take measures to systematically hedge the exchange risk in relation to the sub-fund's reference currency within a tolerance threshold defined in the information on the sub-fund.

Investors are advised that implementing an exchange risk hedging policy may result in additional costs as mentioned in the information on the sub-fund.

Class V:

distribution shares which differ from class **A** shares due to the fact that (i) at the discretion of the management company they may be offered to distributors and platforms in the United Kingdom, Switzerland and European Union Member States, excluding Banque Degroof Petercam Belgium and Banque Degroof Petercam Luxembourg, (ii) they may be offered by distributors and platforms that have entered into separate remuneration agreements with their customers that are not subject to any rebate, and (iii) they are not subject to a rebate on management fees.

Class V EUR HEDGED:

distribution shares which differ from Class **V** shares due to the fact that the exchange risk against the euro is hedged. The manager must take measures to systematically hedge the exchange risk in relation to the sub-fund's reference currency within a tolerance threshold defined in the information on the sub-fund.

Investors are advised that implementing an exchange risk hedging policy may result in additional costs as mentioned in the information on the sub-fund.

Class E:

distribution shares which differ from class **A** shares in that (i) they are reserved for eligible investors¹ acting on their own account, (ii) they have a minimum initial subscription amount, (iii) a different management fee and (iv) a different annual tax.

Class E USD:

distribution shares which differ from shares of class **E** due to the fact that they are denominated in United States dollars.

¹ "eligible investors" are investors, within the meaning of Article 5 of the Law of 3 August 2012, namely the corporate customers referred to in Appendix A of the Royal Decree of 3 June 2007 on the rules transposing the Directive on markets in financial instruments (MiFID), as well as eligible counterparties within the meaning of Article 3, §1 of the above-mentioned Royal Decree of 3 June 2007 and legal entities which are not considered corporate investors and which have asked to be entered in the FSMA register of eligible investors. Natural persons, as well as legal entities that are not part of the eligible investors defined above, do not have access to these share classes, even if subscriptions are made within the framework of a discretionary management mandate concluded with an eligible investor.

Class E EUR HEDGED:

distribution shares which differ from Class E shares due to the fact that the exchange risk against the euro is hedged. The manager must take measures to systematically hedge the exchange risk in relation to the sub-fund's reference currency within a tolerance threshold defined in the information on the sub-fund.

Investors are advised that implementing an exchange risk hedging policy may result in additional costs as mentioned in the information on the sub-fund.

Class M:

Distribution shares which differ from class A shares due to the fact that (i) they are reserved to investors having one or more current discretionary management mandates with one or more companies belonging to Degroof Petercam Group, (ii) they are reserved to the account(s) to which these discretionary management mandates apply, (iii) they are reserved for all-in mandates and in that (iv) they have a different management fee.

In this context, "all in" includes at least the management fees and custody fees charged on the account (s) to which these "all in" discretionary management mandates apply.

Class M USD:

distribution shares which differ from shares of class M due to the fact that they are denominated in United States dollars.

Class M EUR HEDGED:

distribution shares which differ from class M shares due to the fact that the exchange risk against the euro is hedged. The manager must take measures to systematically hedge the exchange risk in relation to the sub-fund's reference currency within a tolerance threshold defined in the information on the sub-fund.

Investors are advised that implementing an exchange risk hedging policy may result in additional costs as mentioned in the information on the sub-fund.

Class B:

capitalisation shares offered to the public.

Class B LC:

capitalisation shares which differ from class B shares due to the fact that (i) they are reserved for investors affected, directly or indirectly, by one or more current "Services Agreement Life Cycle" contracts with Degroof Petercam Asset Management, and (ii) that they have a different management fee.

Class B USD:

capitalisation shares which differ from shares of class B due to the fact that they are denominated in United States dollars.

Class B EUR HEDGED:

capitalisation shares which differ from class B shares due to the fact that the exchange risk against the euro is hedged. The manager must take measures to systematically hedge the exchange risk in relation to the sub-fund's reference currency within a tolerance threshold defined in the information on the sub-fund.

Investors are advised that implementing an exchange risk hedging policy may result in additional costs as mentioned in the information on the sub-fund.

Class L:

capitalisation shares which differ from shares of class B due to the fact that (i) they have a minimum initial subscription, and (ii) a management fee that may be different.

Class L USD:

capitalisation shares which differ from shares of class L due to the fact that they are denominated in United States dollars.

Class W:

capitalisation shares offered to the public which differ from class **B** shares due to the fact that (i) at the discretion of the management company they may be offered to distributors and platforms in the United Kingdom, Switzerland and European Union Member States, excluding Banque Degroof Petercam Belgium and Banque Degroof Petercam Luxembourg, (ii) they may be offered by distributors and platforms that have entered into separate remuneration agreements with their customers that are not subject to any rebate, and (iii) they are not subject to a rebate on management fees;

Class W USD:

capitalisation shares which differ from class **W** shares due to the fact that (i) they are denominated in US dollars;

Class W EUR HEDGED:

capitalisation shares which differ from class **W** shares in that the exchange risk against the euro is hedged. The manager must take measures to systematically hedge the exchange risk in relation to the sub-fund's reference currency within a tolerance threshold defined in the information on the sub-fund.

Investors are advised that implementing an exchange risk hedging policy may result in additional costs as mentioned in the information on the sub-fund.

Class F:

capitalisation shares which differ from class **B** shares due to the fact that (i) they are reserved for eligible investors¹ dealing on behalf of their own name, (ii) they have a minimum initial subscription amount, (iii) a different management fee and (iv) a different annual tax.

Class F LC:

capitalisation shares which differ from class **F** shares due to the fact that (i) they are reserved for investors affected, directly or indirectly, by one or more current "Services Agreement Life Cycle" contracts with Degroof Petercam Asset Management, (ii) they have no minimum initial subscription amount and (iii) that they have a different management fee.

Class F USD:

capitalisation shares which differ from shares of class **F** due to the fact they are denominated in United States dollars.

Class F EUR HEDGED:

capitalisation shares which differ from class **F** shares due to the fact that the exchange risk against the euro is hedged. The manager must take measures to systematically hedge the exchange risk in relation to the sub-fund's reference currency within a tolerance threshold defined in the information on the sub-fund.

Investors are advised that implementing an exchange risk hedging policy may result in additional costs as mentioned in the information on the sub-fund.

Class F USD HEDGED:

capitalisation shares which differ from class **F USD** shares due to the fact that the exchange risk against the US dollar is hedged. The manager must take measures to systematically hedge the exchange risk in relation to the sub-fund's reference currency within a tolerance threshold defined in the information on the sub-fund.

Investors are advised that implementing an exchange risk hedging policy may result in additional costs as mentioned in the information on the sub-fund.

Class F CHF HEDGED:

a capitalisation shares which differ from class **F CHF** shares due to the fact that the exchange risk against the Swiss franc is hedged. The manager must take measures to systematically hedge the exchange risk in relation to the sub-fund's reference currency within a tolerance threshold defined in the information on the sub-fund.

Investors are advised that implementing an exchange risk hedging policy may result in additional costs as mentioned in the information on the sub-fund.

Class J:

capitalisation shares which differ from shares of class **F** due to the fact that they are reserved for (i) investors for which there are currently one or more discretionary management mandates with one or several companies of the Degroof Petercam group, and (ii) accounts to which these discretionary management mandates apply, due to the fact that (iii) they have no minimum initial subscription amount and (iv) they have a different management fee.

Class J EUR HEDGED:

capitalisation shares which differ from class **J** shares due to the fact that the exchange risk against the euro is hedged. The manager must take measures to systematically hedge the exchange risk in relation to the sub-fund's reference currency within a tolerance threshold defined in the information on the sub-fund.

Investors are advised that implementing an exchange risk hedging policy may result in additional costs as mentioned in the information on the sub-fund.

Class N:

capitalisation shares which differ from shares of class **B** due to the fact that they are reserved for (i) investors for which there are currently one or more discretionary management mandates with one or several companies of the Degroof Petercam group, and (ii) accounts to which these discretionary management mandates apply, (iii) in that they are reserved for all-in mandates and due to the fact that (iv) they have a different management fee.

In this context, "all in" includes at least the management fees and custody fees charged on the account (s) to which these "all in" discretionary management mandates apply.

Class N USD:

capitalisation shares which differ from shares of class **N** due to the fact they are denominated in United States dollars.

Class N EUR HEDGED:

capitalisation shares which differ from class **N** shares due to the fact that the exchange risk against the euro is hedged. The manager must take measures to systematically hedge the exchange risk in relation to the sub-fund's reference currency within a tolerance threshold defined in the information on the sub-fund.

Investors are advised that implementing an exchange risk hedging policy may result in additional costs as mentioned in the information on the sub-fund.

Class P:

capitalisation shares which differ from class **F** shares by the absence of (i) a management fee and (ii) capitalisation shares which differ from class **F** shares by the fact that (i) they have no management fee (ii) no minimum initial subscription amount and (iii) due to the fact that they are reserved for investors that have one or more discretionary mandates with Degroof Petercam Asset Management and (iv) they are reserved for the accounts where this discretionary mandates are applicable.

Class P EUR HEDGED:

capitalisation shares which differ from class **P** shares due to the fact that the exchange risk against the euro is hedged. The manager must take measures to systematically hedge the exchange risk in relation to the sub-fund's reference currency within a tolerance threshold defined in the information on the sub-fund.

Investors are advised that implementing an exchange risk hedging policy may result in additional costs as mentioned in the information on the sub-fund.

Class Z:

capitalisation shares which differ from class **F** shares due to the fact that (i) they are reserved for investors where the minimum initial subscription amount is EUR 25,000,000 and (ii) they are subject to a different management fee and (iii) a different annual tax, it being

understood that shareholders investing in this class may not request the partial redemption of their shares so as to reduce their level of investment to below the minimum initial subscription amount.

- Germany
- Austria
- Spain
- France
- Italy
- Luxemburg
- The Netherlands
- United Kingdom
- Switzerland
- Finland
- Sweden
- Portugal
- Singapore (only for institutional investors)

1.2.MANAGEMENT REPORT

1.2.1. Information for shareholders

General

Shareholders information

DPAM B is an undertaking for collective investment, hereinafter the SICAV.

Since 1st January 2023 :

- The "Key Investor Information Documents" (KIID) have been replaced by "Key Information Documents" (KID) for all share classes of the sub-funds in the SICAV
- The methodology for calculating the risk level of a sub-fund has been modified. The synthetic risk indicator (SRI) calculated in accordance with the provisions of the Delegated Regulation (EU) 2017/653 and available, in its most recent version, in the KIDs, has replaced the synthetic risk and rendering indicator (SRRRI).
- The methodology for the calculation of fees (formerly ongoing charges) has been modified. The latest version is available in the PRIIPs KID.

The ordinary general meeting of shareholders of 15 March 2023 approved, among other things, the annual accounts closed on 31 December 2022 and the distribution of a dividend to the holders of distribution shares of certain subfunds of the Sicav as mentioned in the notice published on March 17 March 2023.

De Board of Directors of 28 February 2023 decided to modify the investment policy of the DPAM B Equities DRAGONS Sustainable sub-fund.

In the below mentioned sub-funds which promote environmental and social characteristics within the meaning of article 8 of SFDR 2019/2088 and invest (partially) in sustainable investments, some of the sustainability indicators have been reformulated in the prospectus in the "Investment strategy" sub-section of the "Environmental, social and governance (ESG) considerations – Sustainability transparency" section and in the appendices on pre-contractual disclosure (the SFDR appendix), in the section entitled "What Sustainability Indicators are used to measure the attainment of each of the environmental or social characteristics promoted by this financial product?":

DPAM B Equities Europe Small Caps Sustainable, DPAM B Equities Newgems Sustainable, DPAM B Equities DRAGONS Sustainable, DPAM B Equities Euroland Sustainable, DPAM B Bonds EUR Corporate Sustainable, DPAM B Equities US Dividend Sustainable, DPAM B Equities Europe Sustainable, DPAM B Equities Sustainable Food Trends, DPAM B Equities World Sustainable, DPAM B Real Estate Europe Dividend Sustainable, DPAM B Real Estate Europe Sustainable, DPAM B Real Estate Emu Dividend Sustainable and DPAM B Real Estate Emu Sustainable.

These changes came into effect on 15 May 2023.

The extraordinary meeting of 20 June 2023 decided the closing of the liquidation of the DPAM B Global Diversified World sub-fund.

The Board of Directors of 21 June 2023 decided to reverse split the Sicav's Class "P" shares in some SICAV's sub-funds.

The DPAM B Corporate Bonds EUR 2023 sub-fund has been dissolved automatically upon expiry of its term on 30 June 2023.

Fee Sharing agreements

Management fee retrocession agreements may exist, on the one hand, between the SICAV (or, where applicable, the distributor) and the investment portfolio manager, and, on the other hand, between the SICAV and other distributors (indicated, where applicable, in the prospectus) and third parties, such as shareholders of the SICAV. These agreements are in no way exclusive. They do not affect the manager's ability to carry out his duties freely in the interests of the Fund's shareholders. The management fee is allocated according to market conditions.

Aberdeen and Fokus Bank

As the result of the Aberdeen and Fokus Bank rulings by the European Union Court of Justice concerning discrimination in the tax laws of certain EU Member States towards foreign UCIs, DPAM B has taken steps, with the help of the management company and external consultants, to reclaim the supplementary withholding tax paid and not recovered in Spain. The costs will be charged immediately to the current financial year.

The SICAV did not make any redemptions during first semester 2023.

Class Action

During first semester 2023, the SICAV was credited with the following amounts under a «class action».

Other informations

No significant event has occurred since the closing date of the financial year and no circumstance is likely to have a significant influence on the development of the SICAV with the exception of those mentioned under the heading « Events after the year-end ».

All circumstances likely to have a significant influence on the SICAV are set out in this annual report.

The SICAV has not carried out any research and development activities.

The SICAV employs no staff and has no branches.

This report includes all the information that must be included in accordance with the Companies and Associations Code.

Remuneration and mission of the auditor

The auditor's fees in respect of its auditor mandate amount 3,890 EUR (excl. VAT) per year and per sub fund.

In addition to its role as statutory auditor, PwC Société de réviseurs agréés carried out special assignments for DPAM B for an amount of EUR 5.730 for the dissolution of the DPAM B Corporate Bonds EUR 2023 sub-fund.

Events after the reporting period

A file was introduced to the FSMA with a view to :

- modify the objective of the Bonds EUR and Bonds EUR IG sub-funds to remove the possibility to invest in corporate bonds;
- launch a new sub-fund DPAM B Equities Japan ESG Leaders

The FMSA approved this file on 1st August 2023.

Regulation EU 2015/2365 of the European Parliament and the Council of 25 November 2015

In accordance with Article 13 and Section A of the Annex to the Regulation, the SICAV must inform investors of the use it makes of securities financing transactions and total return swaps in its annual and half-yearly reports.

The information for the subfunds concerned by the obligations of this Regulation, can be found under the item « Notes to the financial statements and other information »

Use of liquidity management tools

The Directors decided, pursuant to the Royal Decree of October 15, 2018 regarding the liquidity tools, to introduce the possibility of using the following liquidity tools:

2. Description of the objective, operation and methodology of swing pricing:

Objective:

The objective is to reduce performance dilution due to net inputs or outputs. The performance of the SICAV may be eroded by frequent transactions due to large inflows or outflows and the SICAV may suffer from (in)direct trading costs

involved in capital movements. Swing pricing offers investors already invested in the Sicav the possibility of not having to bear the transaction costs or the cost of illiquidity in the underlying financial markets generated by the entry or exit of investors.

With swing pricing, existing investors should, in principle, no longer indirectly incur the transaction fees, which will now be directly integrated into the calculation of the net asset value (NAV) and borne by the entering and exiting investors.

Swing pricing protects long-term investors, as an investor can only be affected by swing pricing on the day of subscription/redemption.

Methodology and operation:

The swing pricing method adopted is based on the following principles:

- It is a partial swing, which implies that a certain threshold must be crossed before the NAV is adjusted;
- It is a symmetrical swing, which is activated for both subscriptions and redemptions;
- The use of swing pricing is systematic, without favouring one or more categories of investors.

The swing threshold is the value determined as a trigger event for net subscriptions and redemptions. This threshold value is expressed as a percentage of the total net assets of the sub-fund in question.

The swing threshold is always applied.

Swing factor: the direction of the swing depends on the net flow of capital applicable to a NAV.

In the case of a net inflow of capital, the swing factor linked to subscriptions of shares in the sub-fund will be added to the NAV. For net redemptions, the swing factor linked to redemptions of shares in the sub-fund in question will be deducted from the NAV. In both cases, all entering/exiting investors on a given date will have the same NAV applied.

3. Maximum swing factor:

The maximum swing factor set to a maximum of 5% of the unadjusted NAV.

The threshold and swing factor will be published on the website www.dpamfunds.com in the "Fees" section

4. Use of the swing pricing during the period:

The table below indicates, by sub-fund, the number of times and the dates when the swing pricing has been applied during the period covered by this report and the impact of this application for the purpose of calculating during the period covered by this report

Trade date	Sub-fund	Swing threshold	Swing Factor	Subscription/Redemption Taille	Net amount	Impact on the performance

2. Description of the objective, operation and methodology of the anti-dilution levy:

Objective:

The objective of this mechanism is to transfer the negative impact on the NAV of a sub-fund of the SICAV to the investors who generated this impact.

Methodology and operation:

If redemptions / subscriptions exceed a threshold, the SICAV may decide to impose an additional cost on incoming or outgoing investors, which will benefit the SICAV. Higher exit fees may be charged for large net outflows, and higher entry fees may be charged for large net inflows.

The anti-dilution levy will only be applied after an explicit decision of the Board of Directors of the SICAV. There is no automatic application of this mechanism. The Board of Director's decision relates both to the level of the threshold and the additional costs and whether or not to apply the mechanism if the threshold is exceeded.

3. Use of the anti-dilution levy during the period:

During the period covered by this report, no sub-fund of the Sicav used anti-dilution levy.

III. REDEMPTION GATES

1. Description of the objective, operation and methodology of the anti-dilution levy:

This mechanism allows the SICAV to partially suspend the execution of requests for the redemption and/or repayment of units ("redemption gates") when the negative change in the balance of the liabilities of the company or sub-fund for a given day exceeds, for the day in question, a percentage (or threshold) determined by the Board of Directors.

The threshold above which this mechanism may be applied is set at 5% for all sub-funds.

The NAV calculation itself is not suspended as orders are partially executed.

Only the part of the requests for redemptions which exceeds the threshold is affected by this partial suspension. It must be applied proportionally to all requests for individual redemptions submitted by the closing date concerned.

The portion of the redemption requests not executed following this partial suspension will be postponed automatically to the next closing date, except in the event of revocation by the shareholder or if this mechanism is reapplied.

The partial suspension is always provisional.

This suspension will be carried out in accordance with the provisions of Article 198/1 of the Royal Decree of 2012.

In the event of a partial suspension of the execution of redemption and/or repayment requests, a notice to shareholders will be published on the website www.dpamfunds.com in the "News" section

2. Use of redemption gates during the period :

During the period covered by this report, no sub-fund of the Sicav used redemption gates.

1.2.2. Overview of the markets

Global equities rose by over 11% (in euro) in the first half of 2023. The Nasdaq stood out in the first half (+29% in euros), ending a series of four down quarters. US equities (+14%) outperformed other regions, including Japan (+9%), European equities (+9%), and above all emerging markets (+1.5%). Artificial intelligence stocks took off after Nvidia's earnings results in May. Just 4 S&P500 stocks (Apple, Microsoft, Nvidia, Amazon) account for more than half of the index's rise since the start of the year. In the bond market, the yield on US 10-year government bonds remained broadly unchanged at the end of the period (at 3.84%) from its level at the end of 2022. The German yield for the same maturity fell slightly from 2.57% to 2.39%. The euro appreciated somewhat against the dollar during the period under review, mainly due to the dissipation of energy crisis risks and the ECB's rhetoric. The "high yield" segment outperformed other bond categories over the period due to lower spreads. The price of a barrel of crude oil hovered around \$70, torn between the risk of recession in the 1st quarter and the slowdown in China's economy in the second half of the period, on the one hand, and the OPEC+ chain reaction to reduce supply, on the other.

United States

US economic activity remained resilient in January and February. GDP growth for the 1st quarter was revised upwards (2% annualized), thanks in part to consumer spending. However, household spending slowed in April and May. The theme of a tight labor market was highlighted by the January employment report, which was a big hit. Non-farm employment rose by 517,000, well above the consensus of 185,000, while the unemployment rate fell to 3.4%. As the half-year progressed, the labor market showed signs of easing (slower wage growth, higher initial jobless claims, fewer job vacancies). The banking turmoil in March led to a significant revision of market rate expectations, which then rose again in May once this episode had passed. US inflation showed decisive signs of slowing. Inflation declined over the period: headline inflation fell from 6.4% in December 2022 to 4.1% in May, while core inflation fell from 5.7% to 5.3%. The Fed slowed the pace of rate hikes to 0.25% at its February, March and May meetings, before pausing its monetary tightening cycle in June.

Eurozone

Confidence indicators continued to rebound in the eurozone in the first quarter, helped by the resilience of the labor market and the easing of the energy crisis risks that prevailed last year. In the second half of the period, confidence

indicators showed a clear slowdown in activity. The second revision of Eurozone GDP finally showed that the region had slipped into technical recession in Q1 2023 (2 consecutive quarterly declines in GDP). The job market and hiring intentions continued to surprise positively. In May, the unemployment rate stood at an all-time low of 6.5%, and corporate hiring intentions even rose at the end of the quarter. Core inflation finally reached an inflection point in April, as the decline in general inflation intensified thanks to lower energy inflation (general inflation fell from a peak of 10.6% in October 2022 to 5.5% in June 2023). Excessively high inflation forced the ECB to maintain a cautious stance throughout the period. The ECB raised its key policy rate by 0.50% in both February and March, before slowing the pace of rate hikes (0.25%) in May and June.

Japan

Core inflation rose during the half-year to 4.20% in May. Despite the rise in inflation, the Central Bank left its monetary policy broadly unchanged during the period, having surprised the market in December when it widened the band for the 10-year yield. The yen depreciated sharply during the first six months of the year (-11% against the euro), mainly due to the inactivity of the Central Bank of Japan, which kept its monetary policy unchanged while central banks in the developed world continued to raise interest rates. Towards the end of the period, the authorities began to worry about the risk posed to financial stability by the yen's rapid depreciation.

Emerging markets

In China, activity indicators picked up sharply in the 1st quarter, supported by the end of restrictive measures. Real estate activity bottomed out at the end of last year, and confidence indicators showed that the upturn in activity was mainly in the services and construction sectors. After a first quarter of robust growth, China's economy lost steam in Q2. Business confidence indicators showed that construction activity was slowing and that the service sector, which had benefited from the lifting of restrictive measures in December, also showed signs of slowing in Q2. The Chinese central bank announced a rate cut in June, and the Chinese government was increasingly open about future support measures for the Chinese economy. In other emerging markets, manufacturing conditions improved in Asia and Europe. Mexico's central bank joined the Central Bank of Brazil in ending its tightening cycle. Inflation continued its downward trend in most emerging markets (Eastern Europe and Latin America), prompting most central banks to end their rate hike cycle.

1.5.SUMMARY OF BOOKING AND VALUATION RULES

1.5.1. Summary of rules

The valuation of the Company's assets, subdivided by sub-fund, is determined as follows:

a. for securities admitted to official listing or traded on another organised market: at the last known stock exchange or market price, unless this price is not representative.

b. for securities for which the last price is not representative and for securities not admitted to an official stock exchange or another organised market, the valuation is based on the probable realisable value estimated prudently and in good faith.

c. for liquid assets: at their nominal value plus accrued interest.

d. unmatured receivables will be valued pro rata temporis on the basis of their exact amount if known or, failing this, on the basis of their estimated amount.

e. values expressed in a currency other than that of the sub-fund concerned will be converted into the currency of the sub-fund on the basis of the last known exchange rates.

f. the notional amounts of forward contracts are included in off-balance sheet items under "III. Notional amounts of forward contracts". Futures contracts are recorded in off-balance sheet items on the basis of the following calculation: number of contracts multiplied by the price on the acquisition date multiplied by the lotsize; to be converted into the sub-fund's currency on the basis of the last known exchange rates if the futures contracts are expressed in a currency other than that of the sub-fund. Futures contracts are valued each time the net asset value is calculated on the basis of the last known market price, unless this price is not representative. Differences resulting from changes in the value of forward contracts are charged to the income statement as a reduction in value or unrealised gain, under the sub-heading "ii. Forward contracts" of the relevant sub-items of "I. Impairment losses and gains - F. Derivative financial instruments", or in sub-item "I. Write-downs, losses and gains - H. Foreign exchange positions and transactions. - a. Derivative financial instruments - ii. Forward contracts" if the underlying asset is a foreign currency.

g. option contracts are valued at the time of each net asset value calculation on the basis of the last known market price, unless this price is not representative. Differences arising from changes in the value of contract premiums are charged to the income statement as a write-down or unrealised gain in sub-item "i. Option contracts" of the relevant sub-items of "I. Impairment losses and gains - F. Derivative financial instruments" or in sub-item "I. Write-downs, losses and gains - H. Foreign exchange positions and transactions - a. Derivative financial instruments - i. Option contracts" if the underlying asset is a foreign currency. When option contracts are exercised, the premiums are added to or deducted from the purchase or sale price of the underlying assets. Option contracts are recorded in off-balance sheet items under "II. Underlying values of option contracts and warrants" on the basis of the following calculation: number of contracts multiplied by the strike price multiplied by the quantity of underlying;

h. notional amounts of swap contracts are included in off-balance sheet items under "IV. Notional amounts of swap contracts". Swap contracts are valued at the time of each net asset value calculation on the basis of the last known market price, unless this price is not representative. Differences resulting from changes in the value of swap contracts are charged to the income statement as a reduction in value or unrealised gain, under sub-item "iii. Swap contracts" of the relevant sub-items of "I. Impairment losses and gains - F. Derivative financial instruments" or in sub-item "I. Write-downs, losses and gains - H. Foreign exchange positions and transactions - a. Derivative financial instruments - iii. Swap contracts" if the underlying security relates to currencies.

i. the underlying UCIs are valued at the time of each net asset value calculation on the basis of the last known prices, unless these prices are not representative.

To obtain the net assets, the valuation thus obtained is reduced by the Company's commitments.

2. INFORMATION ABOUT THE SUBFUND DPAM B BONDS EUR SHORT TERM 1 Y

2.1.MANAGEMENT REPORT

2.1.1. Launch date of the sub-fund and subscription price of the shares

Date of initial subscription: 06/08/1992

Initial subscription price: EUR 123.98

2.1.2. Stock exchange listing

The sub-fund's shares are not listed on the stock market.

2.1.3. Aim and main outlines of the investment policy

Objective

The objective of this sub-fund is to offer shareholders exposure to the bond market.

The portfolio of the sub-fund consists essentially of instruments issued by Investment grade* or Prime* issuers, as rated by a ratings agency such as Standard & Poor's, Moody's or Fitch. These issuers may be public authorities, companies or private issuers.

The portfolio is invested principally in bonds, treasury certificates and other debt securities or equivalent securities denominated in EUR.

The initial or residual maturity of the instruments making up the portfolio will not exceed twelve months.

This is an actively managed sub-fund.

No benchmarks are used in the management of the sub-fund. Quantitative information from a broader market may be used for risk management and evaluation by the manager.

Shareholders of the sub-fund have no capital protection or guarantee.

* Investment Grade: is an interpretation in terms of financial risk of the quality of the bond's issuer. The rating agencies each use their own scale to assess the notion of risk. Investment grade ratings are between AAA and BBB- on the Standard & Poor's and Fitch scale and between Aaa and Baa3 on the Moody's scale.

*Prime: is a short-term rating that assesses the issuer's ability to meet its obligations within one year. Prime ratings are between A-1+ and A-3 on the Standard & Poor's scale, between F1+ and F3 on the Fitch scale and between P-1 and P-3 on the Moody's scale.

Investment policy

The sub-fund invests a maximum of 10% of its assets in undertakings for collective investment.

The sub-fund may hold liquid assets on a secondary or temporary basis in the form of current accounts, deposits or securities and in the form of undertakings for collective investment.

As a result of an exemption granted by the Autorité des Services et Marchés Financiers, the sub-fund may invest up to 100% of its assets in the various issues of transferable securities and money market instruments issued or guaranteed by a Member State of the European Economic Area which has adopted the euro as its currency (listed below), and by its regional public bodies. These undertakings for collective investment must hold transferable

securities and money market instruments belonging to at least six different issues, and transferable securities and money market instruments belonging to a single issue must not exceed 30% of the total value of their assets.

(*) Belgium, Germany, Finland, France, Greece, Luxembourg, Ireland, Italy, Netherlands, Austria, Portugal, Spain, Slovenia, Cyprus, Malta, Slovakia, Estonia.

The sub-fund may invest in units of another UCITS or another fund managed directly or indirectly by DPAM or by a company with which DPAM is linked by common management or control or by a direct or indirect holding of more than 10% of the capital or votes. No issue or redemption fees for target funds or management fees may be charged to the assets of the SICAV to the extent of such investments.

The sub-fund promotes environmental and social characteristics within the meaning of Article 8 of SFDR Regulation 2019/2088.

2.1.4. Index and benchmark

No benchmark is used in the management of the sub-fund.

2.1.5. Policy followed during the year

At the end of June 2023, the net asset value of DPAM B Bonds EUR Short term 1 Y (class B) amounted to €293.93. This represents a positive performance of 1.04% since the beginning of the year.

The Euribor rose rapidly during the first half of the year, from 2.17 to 3.57.

These higher interest rates and the uncertainties on the financial markets make short-term bonds attractive.

As a result, short-term bonds have again a very attractive yield. In view of persistent volatility, investors bought more short-term bonds.

For our portfolio we often went in search of a good mix of sectors. The majority of positions are financials, particularly bank bonds. These are predominantly high rated (A-). In the remaining sectors we constantly opted for good diversification, a good mix of ratings and geographical spread.

2.1.6. Future policy

- Search for bonds with a final maturity date of between 5 and 12 months.
- Corporate bonds, financials and government bonds within investment grade bonds in euros.
- Good diversification to be maintained in terms of countries, sectors and ratings.

2.1.7. Synthetic risk indicator

The synthetic risk indicator give an indication of the risk associated with investing in a sub-fund. It places this risk on a scale ranging from one (lowest risk) to seven (highest risk).

Risk and reward profile : 2

UNITED KINGDOM	3.15%
FINLAND	2.20%
LUXEMBOURG (GRAND DUCHY)	2.19%
BELGIUM	0.74%
DENMARK	0.73%
Total	10

These allocations of assets were established on basis of data (gross) used by the entity responsible for the administration and bookkeeping and do not reflect inevitably the economic analysis which directed the assets selection.

2.6.ECONOMIC ALLOCATION OF INVESTMENTS

By sector	% Portfolio
FINANCIAL SERVICES - HOLDINGS	32.23%
BANKS	24.12%
STATES	10.16%
TELECOMMUNICATIONS	10.12%
PHARMACOLOGY & PERSONAL CARE	7.23%
AIRLIFT	5.14%
TOBACCO & SPIRITS	4.44%
ROAD VEHICLES	4.36%
BUILDING MATERIALS	2.20%
TOTAL	10

These allocations of assets were established on basis of data (gross) used by the entity responsible for the administration and bookkeeping and do not reflect inevitably the economic analysis which directed the assets selection.

2.7.CHANGES IN THE COMPOSITION OF THE ASSETS IN EUR

	1st semester	2nd semester	Total
Purchases	134,466,285.60		134,466,285.60
Sales	56,891,677.00		56,891,677.00
Total 1	191,357,962.60		191,357,962.60
Subscriptions	81,865,989.27		81,865,989.27
Redemptions	89,735,208.13		89,735,208.13
Total 2	171,601,197.40		171,601,197.40
Reference average of the total net asset	135,260,947.93		135,260,947.93
Rotation Percentage	14.61%		14.61%

The rotation rate gives the annual average of the transactions. A figure close to 0% shows that the transactions relating to the securities or the assets with the exception of deposits and liquid assets during a given period, were done exclusively in function of the subscriptions and redemptions. A negative percentage indicates that the subscriptions and redemptions give rise to only few or, as the case may be, no transactions in the portfolio.

A detailed list of the transactions carried out during the financial year can be consulted, free of charge, at Banque Degroof Petercam S.A with its registered office at Rue de l'Industrie 44 - B-1040 Brussels which provides the financial services.

2.9.PERFORMANCES

Figures reflect past performance and are not an indicator of future performance. These figures do not include any restructuring.

Returns are determined at the end of the financial year (from July 1, 2022 to June 30, 2023).

The annual return is defined as the absolute return earned over a year. For the semi-annual report, the accounting year is 12-month period preceding the end of the half-year.

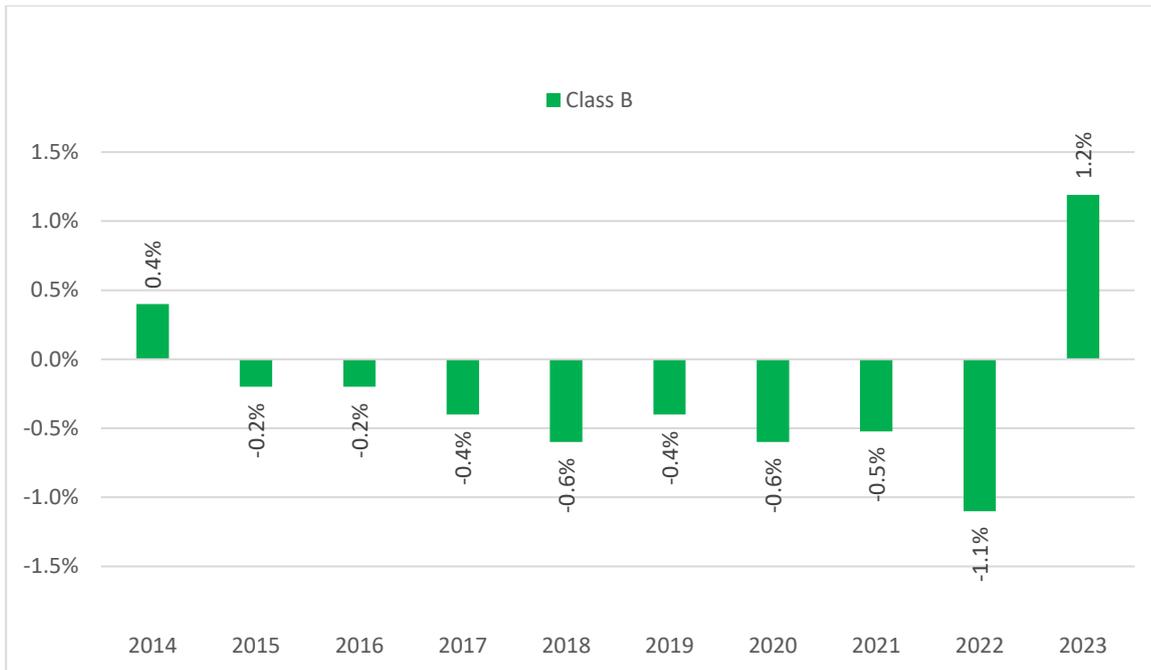

The performance of accumulation units is calculated in a similar way to distribution units. Only the performance (in the form of bar charts) of class B shares is shown in this report. The performance of other share classes may differ, in particular as a result of charges specific to each class (management fees, currency hedging fees, subscription taxes, etc.). Information on the past performance of all share classes is published on the www.dpamfunds.com website. («Overview» tab).

Fee sharing

As at 30 June 2023, (36,00%) of the remuneration due to the Fund Manager was retroceded to some other distributors, third parties and the Banque Degroof Petercam or one of its subsidiaries. The third parties are either end clients with a retrocession agreement, or institutional clients under discretionary management with a management agreement. Bank Degroof Petercam or one of its subsidiaries are distributors in the same way as external distributors.

2.11. NOTES TO THE FINANCIAL STATEMENTS AND OTHER INFORMATION

2.11.1. Valuation of financial instruments

Bonds and other debt securities as well as money market instruments in the portfolio were valued at their average price. The valuations have not been adjusted to approximate bid prices, as the difference between bid and ask prices changed significantly over the period, both over time and depending on the nature of the security.

2.11.2. Transparency of the securities financing transactions and of reuse

In accordance with Article 13 and Section A of the Annex to Regulation EU 2015/2365 (hereinafter the Regulation), the Sicav must inform investors of its use of securities financing transactions and total return swaps in the annual report and the half-yearly report.

3. INFORMATION ABOUT THE SUBFUND DPAM B BONDS EUR

3.1.MANAGEMENT REPORT

3.1.1. Launch date of the sub-fund and subscription price of the shares

Date of initial subscription: 04/10/1996

Initial subscription price: EUR 123.98

On 26/10/2004, the capitalization and distribution shares were divided by four.

On 30/12/2004, this sub-fund absorbed the sub-fund Belginvest Bonds within the framework of merger by acquisition of the investment company Belginvest SA by DPAM B SA.

3.1.2. Stock exchange listing

The sub-fund's shares are not listed on the stock market.

3.1.3. Aim and main outlines of the investment policy

Objective

The objective of this sub-fund is to offer shareholders exposure to the bond market.

The portfolio of the sub-fund consists essentially of short-, medium- and long-term instruments such as bonds and other debt securities or equivalent securities denominated in EUR, at fixed or floating rates, offering periodic or capitalised income and issued or guaranteed by Member States of the European Union.

The portfolio may also include bonds and other debt securities or equivalent securities issued by other public authorities, companies or private issuers.

There is no rating requirement on the instruments making up the portfolio or their issuers. Shareholders of the sub-fund have no capital protection or guarantee.

This is an actively managed sub-fund, which means that the portfolio manager does not aim to replicate the performance of a benchmark.

Investment policy

The sub-fund invests a maximum of 10% of its assets in open-ended undertakings for collective investment.

The sub-fund may hold liquid assets on a secondary or temporary basis in the form of current accounts, deposits or securities and in the form of undertakings for collective investment.

As a result of an exemption granted by the Autorité des Services et Marchés Financiers, the sub-fund may invest up to 100% of its assets in the various issues of transferable securities and money market instruments issued or guaranteed by a Member State of the European Economic Area which has adopted the euro as its currency (listed below(*)) and by its regional public bodies.

These undertakings for collective investment must hold transferable securities and money market instruments belonging to at least six different issues, and transferable securities and money market instruments belonging to a single issue must not exceed 30% of the total value of their assets.

(*) Belgium, Germany, Finland, France, Greece, Luxembourg, Ireland, Italy, Netherlands, Austria, Portugal, Spain, Slovenia, Cyprus, Malta, Slovakia, Estonia.

The sub-fund may invest in units of another UCITS or another fund managed directly or indirectly by DPAM or by a company with which DPAM is linked by common management or control or by a direct or indirect holding of more than 10% of the capital or votes. No issue or redemption fees for target funds or management fees may be charged to the assets of the SICAV to the extent of such investments.

The sub-fund promotes environmental and social characteristics within the meaning of Article 8 of SFDR Regulation 2019/2088.

3.1.4. Index and benchmark

The sub-fund uses the following index as its benchmark: JPM EMU Government Bond Total Return.

This index is a bond index representing bonds issued by the governments of European countries where the euro is the official currency. The performance is calculated by reinvesting the coupons paid by the debt securities included in the index.

J.P. Morgan Securities PLC is listed in the register held by ESMA (European Securities and Markets Authority).

The benchmark is used to compare performance. The selection and weighting of the assets in the sub-fund's portfolio may differ significantly from the composition of the benchmark.

The benchmark is not aligned with the promotion of the environmental and social characteristics of the sub-fund. Please refer to the "Investment Strategy" section above for an explanation of how the sub-fund promotes environmental and social characteristics.

3.1.5. Policy followed during the year

The first months of the year were characterized by relatively range-bound moves in both bond yields as in spreads. In line with this, we have been altering our duration stance between a significant short around -10% and a neutral stance on a portfolio level versus the benchmark. This was appropriate as we believed that the combination of uncomfortably high inflation and a decent real growth situation would continue pushing interest rates higher, but with elevated volatility.

Also, at the start of the year we identified some risks to the market's expectation of a quick reversal of inflation towards the ECB's target. If these risks would realize themselves, it would push inflation back up again without ever reaching the 2% target.

The first risk concerned the observation that global financial conditions were only in slight restrictive territory for a limited time. As such the transmission of monetary policy through these financial conditions to the real economy might be too limited. Secondly, the decrease of energy prices and a more confident consumer could lead to new spending thereby supporting the real economy through both growth and inflation. And finally, as China decided to reopen its economy following years of Covid lockdowns, for the first time it might become an exporter of inflation instead of being an exporter of deflation.

However, by the end of June most of these risks have still not realized or only realized to a limited extent. And additionally, the horizon for them to materialize has become very small.

Since May, we have become more worried about the real growth outlook. The main trigger for this is the observation that in the manufacturing sector, there is no demand for consumer goods. This has now been ongoing for several months and is getting worse. We believe there's a non-dismissible probability that this will spill over to the services sector which is in line with previous episodes of economic slowdown. As the services sector is responsible for most employment, this could quickly lead to a negative spiral of negative services growth and increasing unemployment. Consequently, since the end of May we have been adding duration in the fund versus the benchmark and are comfortable with a long duration position around 5% versus the benchmark. We have continued being positioned for a steepening of interest rate curves as this typically happens when we are close to the terminal policy rate. This unfortunately did not work yet as markets continued pricing a higher terminal policy rate and the ECB continued hiking.

We continue having a high conviction that markets will eventually adjust, driven by a clear deterioration in the growth picture or by another potential systemic market event such as the banking crisis in March this year when curves almost fully un-inverted in a few days' time.

Over the first half of the year, we have kept our overweight exposure to peripheral countries intact. Except in Italy as this is a good hedge against our views being incorrect. This conviction added good performance to the fund.

3.1.6. Future policy

2023 was a year where upside inflation risks were more important than growth risks, both positive and negative. However, we believe that the second half of the year might be the opposite.

As the economic cycle is turning, it is appropriate to continue with an overweight duration stance in the fund versus the benchmark. We will also continue adding duration on rates weakness, or when the economic situation would continue deteriorating.

To be fully positioned for this expected type of environment, this duration overweight should be combined with a curve steepening bias. Once it becomes clear the real growth situation is significantly weakening or we witness another systemic market event, markets will quickly price out any further policy rate increases and start pricing in rate cuts thereby significantly steepening the yield curve.

However, we don't believe inflation will over the medium term move back towards the ECB's target and hence still see value in shorter-term inflation-linked bonds as we want to continue profiting from an attractive inflation coupon accrual versus what is currently priced in. As typically real rates underperform nominal rates when we move towards a slowdown or a recession, we don't want to have exposure to longer maturity inflation linked bonds' duration in a nominal rates portfolio.

It remains appropriate to have an overweight position to peripheral countries, but on a very selective basis. The ECB has shown that it has a high amount of flexibility and creativity to create new tools to avoid any fragmentation of the Eurozone that would impede the transmission of monetary policy. Over the past years they have clearly shown that commitment through e.g., the Pandemic Emergency Purchase Program (PEPP) and Transmission Protection Instrument (TPI). The markets clearly have full confidence in this as the large increase in interest rates over the past 18 months was only met by a limited amount of spread widening, which is a very different situation than in the past.

3.1.7. Synthetic risk indicator

The synthetic risk indicator give an indication of the risk associated with investing in a sub-fund. It places this risk on a scale ranging from one (lowest risk) to seven (highest risk).

Risk and reward profile : 3

3.5.GEOGRAPHIC ALLOCATION OF INVESTMENTS

By country	% Portfolio
ITALY	22.51%
SPAIN	20.01%
AUSTRIA	8.17%
FRANCE	7.58%
GERMANY (FEDERAL REPUBLIC)	7.02%
ROMANIA	4.82%
CROATIA (REPUBLIC)	4.17%
LUXEMBOURG (GRAND DUCHY)	3.84%
BELGIUM	3.81%
FINLAND	3.62%
IRELAND	2.82%
PORTUGAL	2.66%
SLOVAKIA (SLOVAK REPUBLIC)	2.55%
SLOVENIA (REPUBLIC)	2.39%
NETHERLANDS	1.63%
SERBIA (REPUBLIC)	1.10%
CYPRUS	0.73%
GREECE	0.57%
Total	10

These allocations of assets were established on basis of data (gross) used by the entity responsible for the administration and bookkeeping and do not reflect inevitably the economic analysis which directed the assets selection.

3.6.ECONOMIC ALLOCATION OF INVESTMENTS

By sector	% Portfolio
STATES	85.74%
BANKS	5.88%
PROVINCE	4.01%
EUROPEAN ORGANIZATIONS	3.54%
COMMERCIAL & PUBLIC SERVICES	0.72%
ROAD VEHICLES	0.11%
TOTAL	10

These allocations of assets were established on basis of data (gross) used by the entity responsible for the administration and bookkeeping and do not reflect inevitably the economic analysis which directed the assets selection.

3.7.CHANGES IN THE COMPOSITION OF THE ASSETS IN EUR

	1st semester	2nd semester	Total
Purchases	269,671,381.40		269,671,381.40
Sales	76,670,560.59		76,670,560.59
Total 1	346,341,941.99		346,341,941.99
Subscriptions	215,479,889.01		215,479,889.01
Redemptions	44,910,858.93		44,910,858.93
Total 2	260,390,747.94		260,390,747.94
Reference average of the total net asset	608,684,771.30		608,684,771.30
Rotation Percentage	14.12%		14.12%

The rotation rate gives the annual average of the transactions. A figure close to 0% shows that the transactions relating to the securities or the assets with the exception of deposits and liquid assets during a given period, were done exclusively in function of the subscriptions and redemptions. A negative percentage indicates that the subscriptions and redemptions give rise to only few or, as the case may be, no transactions in the portfolio.

A detailed list of the transactions carried out during the financial year can be consulted, free of charge, at Banque Degroof Petercam S.A with its registered office at Rue de l'Industrie 44 - B-1040 Brussels which provides the financial services.

3.8. VALUE OF COMMITMENTS RELATING TO POSITIONS IN FINANCIAL DERIVATIVES

Commitment on futures

3.10. PERFORMANCES

Figures reflect past performance and are not an indicator of future performance. These figures do not include any restructuring.

Returns are determined at the end of the financial year (from July 1, 2022 to June 30, 2023).

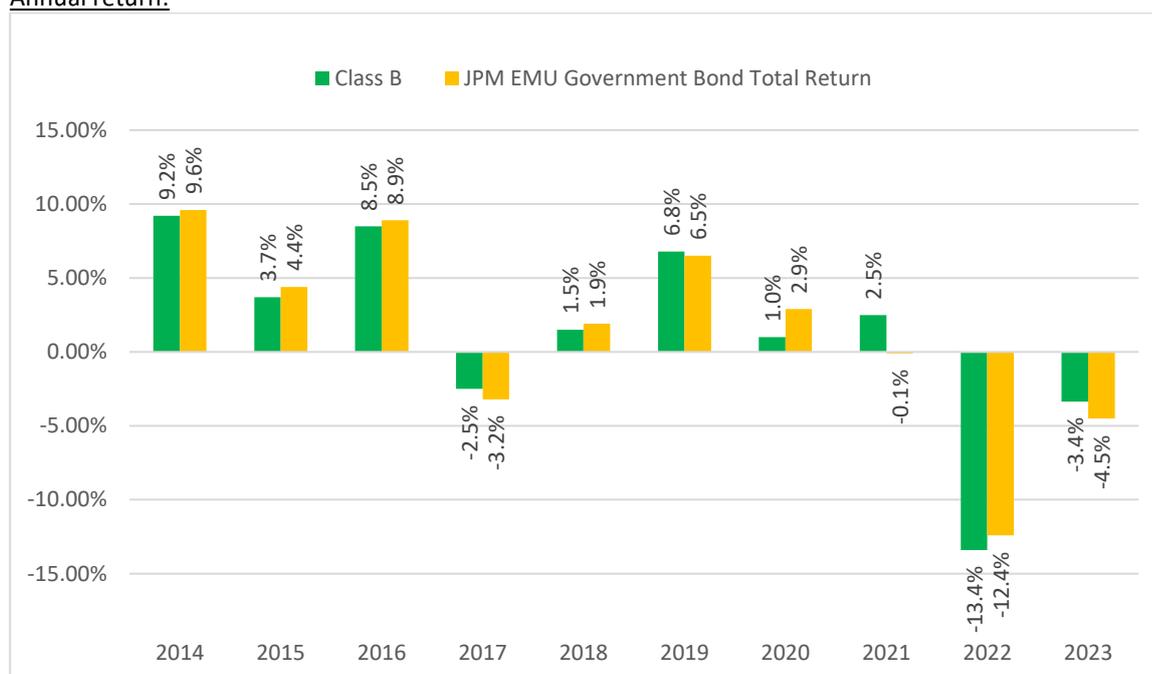

The annual return is defined as the absolute return earned over a year. For the semi-annual report, the accounting year is 12-month period preceding the end of the half-year.

The performance of accumulation units is calculated in a similar way to distribution units. Only the performance (in the form of bar charts) of class B shares is shown in this report. The performance of other share classes may differ, in particular as a result of charges specific to each class (management fees, currency hedging fees, subscription taxes, etc.). Information on the past performance of all share classes is published on the www.dpamfunds.com website. («Overview» tab).

Fee sharing

As at 30 June 2023, 7,99% of the remuneration due to the Fund Manager was retroceded to some other distributors, third parties and the Banque Degroof Petercam or one of its subsidiaries. The third parties are either end clients with a retrocession agreement, or institutional clients under discretionary management with a management agreement. Bank Degroof Petercam or one of its subsidiaries are distributors in the same way as external distributors.

3.12. NOTES TO THE FINANCIAL STATEMENTS AND OTHER INFORMATION

3.12.1. Gross dividends paid in the financial year

2019	class A 0,61 EUR
	class E 0,82 EUR
	class V 0,76 EUR
	class M 0,75 EUR
2021	class A 0,75 EUR
	class E 0,83 EUR
	class V 0,76 EUR
	class M 0,79 EUR
2022	class A 0,11 EUR
	class E 0,24 EUR
	class M 0,19 EUR
	class V 0,22 EUR

3.12.2. Valuation of financial instruments

Bonds and other debt securities as well as money market instruments in the portfolio were valued at their average price. The valuations have not been adjusted to approximate bid prices, as the difference between bid and ask prices changed significantly over the period, both over time and depending on the nature of the security.

3.12.3. Transparency of the securities financing transactions and of reuse

In accordance with Article 13 and Section A of the Annex to Regulation EU 2015/2365 (hereinafter the Regulation), the Sicav must inform investors of its use of securities financing transactions and total return swaps in the annual report and the half-yearly report.

4. INFORMATION ABOUT THE SUBFUND DPAM B EQUITIES EUROPE SMALL CAPS SUSTAINABLE

4.1.MANAGEMENT REPORT

4.1.1. Launch date of the sub-fund and subscription price of the shares

Date of initial subscription: 07/12/1997.

Initial subscription price: EUR 123.98.

On 16/12/2001 the shares were divided into three.

The sub-fund received all the assets of the DPAM CAPITAL B Equities Belgium sub-fund through a merger by absorption which took effect on 26 February 2021.

4.1.2. Stock exchange listing

The sub-fund's shares are not listed on the stock market.

4.1.3. Aim and main outlines of the investment policy

Objective

The objective of this sub-fund is investment in shares of European companies with a small market capitalisation (1) at European level, selected on the basis of compliance with environmental, social and governance (ESG) criteria, and any securities giving entitlement to the capital of these companies.

The following are considered to be equivalent companies: companies resident in non-European countries that have a significant proportion of their assets, activities and profit or decision-making centres in Europe and which meet the criteria stated above. The investment policy favours the selection of companies based on their specific qualities, with no particular rules as to geographic or sectoral distribution.

The sub-fund uses a rigorous ESG methodology and strict exclusions in order not to undermine other environmental and social objectives and to ensure the required good governance practices.

(1) The sub-fund invests mainly in European companies representing a small market capitalization, i.e. companies whose market capitalization does not exceed the largest market capitalization among the companies making up the MSCI Europe Small Cap Net Return index at the time of the initial investment

This is an actively managed sub-fund, which means that the portfolio manager does not aim to replicate the performance of a benchmark.

The sub-fund may hold liquid assets on a secondary or temporary basis in the form of current accounts, deposits or securities. The sub-fund invests a maximum of 10% of its assets in open-ended undertakings for collective investment.

No formal guarantee has been given either to the sub-fund or to its investors.

Investment policy

The sub-fund promotes environmental and social characteristics within the meaning of Article 8 of SFDR Regulation 2019/2088.

4.1.4. Index and benchmark

MSCI Europe Small Cap Net Return

The sub-fund uses the following index as a benchmark: MSCI Europe Small Cap Net Return

This index is representative of the small-cap equity market in developed countries (as defined by MSCI and mainly based on the country of incorporation and the country of primary listing of its securities) in Europe.

The performance of this index is calculated by reinvesting net dividends (Net Return).

It is an actively managed sub-fund, which means that the portfolio manager does not aim to replicate the performance of a benchmark.

MSCI Limited is registered with ESMA (European Securities and Markets Authority)

The benchmark is used to compare performance and to determine the maximum authorized market capitalization of the underlying securities (see "Objectives of the sub-fund" above). The selection and weighting of assets in the sub-fund's portfolio may differ significantly from the composition of the benchmark. The benchmark is not aligned with the promotion of the environmental and social characteristics of the fund. Please refer to the investment strategy above for an explanation of how the sub-fund promotes environmental and social characteristics.

The possible composition and the value of the benchmark can be found on the website www.dpamfunds.com.

4.1.5. Policy followed during the year

The DPAM B Equities Europe Small Caps Sustainable fund invests in high quality, sustainable undervalued small cap companies with a minimum investment horizon of 3 to 5 years. The fund focuses on attractively valued sustainable quality stocks. For us, these are companies with a strong market position, active in attractive market segments. They have excellent management teams focused on sustainable value creation, make efficient use of their (mainly) internally generated cash flow and score well on our sustainability criteria. The fund pursues a bottom-up buy and hold approach. We reduce the huge universe by means of quantitative and qualitative filters and select a limited number of attractively valued sustainable quality stocks. Interviews with management and company visits are an important aspect of the analysis, as are the insights of our buy-side analysts. The geographical and sector allocation are the result of bottom-up stock picking but must conform to certain limits. Over the 1st half of 2023 inflation cooled down, while the fear of energy shortages and dislocations seemed overdone. Profits held up better than feared. Small caps underperformed as an asset class in Europe on fears of an economic slowdown, a different sector composition (lower exposure to financials, higher exposure to real estate, no/less exposure to luxury names,...). The fund slightly outperformed its benchmark thanks to the strong performance of names like Van Lanschot (recovery in net interest margin, strong excess capital generation), Basic Fit (relief on the balance sheet; strong intake of new members), Besi & VAT (anticipation of the through in semi-equipment order intake, while enjoying AI driven tailwinds), SOL (undiscovered name that enjoyed a bullish initiation report of a broker), Royal Unibrew (raw mats headwinds turning into tailwinds), Games Workshop (enjoying strong demand and interest for their main Warhammer franchise), while we suffered from disappointing news flow in Recticel (lower activity levels in insulation and a negotiated reduction in the sales price of a business they sold), Alfen (lower activity levels in EV chargers after a stellar 2022) and Corbion (volumes getting impacted from price increases). We benefited from some weakness in high quality companies like Diploma (high value added distributor of technical products), CTS Eventim (nr 1 ticketing company in Continental Europe), VAT (highly specialized valves for vacuum chambers for semiconductors,), Bytes (UK distributor of software) to build up a new position, while we sold the position in companies that didn't meet our quality criteria anymore (like Loomis, Keywords Studios, RWS and Integrafim) because of disruption, changing market dynamics,...

4.1.6. Future policy

For the second half we are maintaining our focus on quality sustainable names while remaining disciplined on valuation and staying away from value traps i.e. disrupted industries (retail, traditional media) and highly geared companies. The European small cap segment remains an attractive asset class. Studies have shown that in the longer-term small caps perform better than the universe of larger cap stocks. In particular the high quality sustainable companies on which we focus in this fund perform strikingly better in the longer term. An increased level of regulation

coupled with an acceleration in disruptive trends will however penalize more and more unsustainable strategies. To the contrary, mid-sized flexible and sustainable players are likely to benefit from a trend to relocate part of the production in Europe. The name of the game is therefore not about buying expensive defensive rather than cheap cyclical. But is about staying away from value traps and hunting for the long-term sustainable business models with a solid balance sheet. Small caps in Europe have become very cheap compared to the large cap universe. An earnings recession could still impact the universe negatively, but given leading indicators are already low to historical standards, both relative and absolute valuations are attractive and risk appetite is very low, 2023 could be an interesting year to revisit the asset class

4.1.7. Synthetic risk indicator

The synthetic risk indicator give an indication of the risk associated with investing in a sub-fund. It places this risk on a scale ranging from one (lowest risk) to seven (highest risk).

Risk and reward profile : 4

These allocations of assets were established on basis of data (gross) used by the entity responsible for the administration and bookkeeping and do not reflect inevitably the economic analysis which directed the assets selection.

4.7.CHANGES IN THE COMPOSITION OF THE ASSETS IN EUR

	1st semester	2nd semester	Total
Purchases	72,624,110.43		72,624,110.43
Sales	43,270,386.02		43,270,386.02
Total 1	115,894,496.45		115,894,496.45
Subscriptions	74,207,775.45		74,207,775.45
Redemptions	52,599,671.75		52,599,671.75
Total 2	126,807,447.20		126,807,447.20
Reference average of the total net asset	372,035,396.26		372,035,396.26
Rotation Percentage	-2.93%		-2.93%

The rotation rate gives the annual average of the transactions. A figure close to 0% shows that the transactions relating to the securities or the assets with the exception of deposits and liquid assets during a given period, were done exclusively in function of the subscriptions and redemptions. A negative percentage indicates that the subscriptions and redemptions give rise to only few or, as the case may be, no transactions in the portfolio.

A detailed list of the transactions carried out during the financial year can be consulted, free of charge, at Banque Degroof Petercam S.A with its registered office at Rue de l'Industrie 44 - B-1040 Brussels which provides the financial services.

4.9.PERFORMANCES

Figures reflect past performance and are not an indicator of future performance. These figures do not include any restructuring.

Returns are determined at the end of the financial year. (from July 1, 2022 to June 30, 2023).

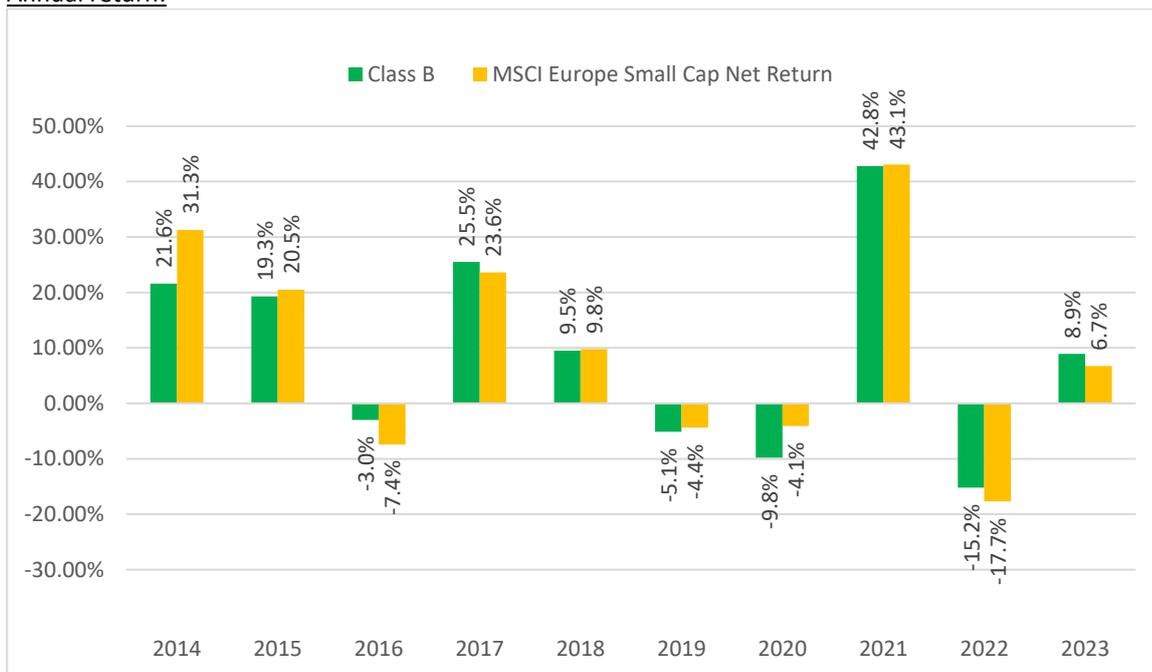

The annual return is defined as the absolute return earned over a year. For the semi-annual report, the accounting year is 12-month period preceding the end of the half-year.

The performance of accumulation units is calculated in a similar way to distribution units. Only the performance (in the form of bar charts) of class B shares is shown in this report. The performance of other share classes may differ, in particular as a result of charges specific to each class (management fees, currency hedging fees, subscription taxes, etc.). Information on the past performance of all share classes is published on the www.dpamfunds.com website. («Overview» tab).

Fee sharing

As at 30 June 2023, 27,38% of the remuneration due to the Fund Manager was retroceded to some other distributors, third parties and the Banque Degroof Petercam or one of its subsidiaries. The third parties are either end clients with a retrocession agreement, or institutional clients under discretionary management with a management agreement. Bank Degroof Petercam or one of its subsidiaries are distributors in the same way as external distributors.

4.11. NOTES TO THE FINANCIAL STATEMENTS AND OTHER INFORMATION

4.11.1. Gross dividends paid in the financial year

2019	class A 1,27 EUR class V 2,95 EUR class M 2,76 EUR
2021	class A 1,89 EUR class V 3,29 EUR class M 2,92 EUR
2022	class A 4,70 EUR class V 4,94 EUR class M 4,78 EUR

4.11.2. Valuation of financial instruments

Bonds and other debt securities as well as money market instruments in the portfolio were valued at their average price. The valuations have not been adjusted to approximate bid prices, as the difference between bid and ask prices changed significantly over the period, both over time and depending on the nature of the security.

4.11.3. Transparency of the securities financing transactions and of reuse

In accordance with Article 13 and Section A of the Annex to Regulation EU 2015/2365 (hereinafter the Regulation), the Sicav must inform investors of its use of securities financing transactions and total return swaps in the annual report and the half-yearly report.

5. INFORMATION ABOUT THE SUBFUND DPAM B EQUITIES EUROLAND

5.1. MANAGEMENT REPORT

5.1.1. Launch date of the sub-fund and subscription price of the shares

Date of initial subscription: 19/04/1998

Initial subscription price: EUR 123.98

On 16/12/2001, the shares of the sub-fund were divided by two.

5.1.2. Stock exchange listing

The sub-fund's shares are not listed on the stock market.

5.1.3. Aim and main outlines of the investment policy

Objective

The principal objective of this sub-fund is investment in shares of companies having their registered office in one of the Member States of the European Union which have the euro as its national currency, and any securities giving entitlement to the capital of these companies. The following are considered to be equivalent companies: other companies that have a significant proportion of their assets, activities and profit or decision-making centres in the aforementioned countries.

More precisely, the sub-fund invests at least two-thirds of its assets in shares of companies having their registered office or carrying out their primary economic activity in one of the Member States of the European Union which has the euro as its national currency, and any securities giving entitlement to the capital of these companies.

This is an actively managed sub-fund, which means that the portfolio manager does not aim to replicate the performance of a benchmark.

No formal guarantee has been given either to the sub-fund or to its investors.

Investment policy

The sub-fund promotes environmental and social characteristics within the meaning of Article 8 of the SFDR Regulation 2019/2088.

The sub-fund may hold cash on an ancillary or temporary basis in the form of current accounts, deposits or securities.

The sub-fund invests a maximum of 10% of its assets in open-ended collective investment schemes.

5.1.4. Index and benchmark

MSCI EMU Net Return

The sub-fund uses the following index as a benchmark: MSCI EMU Net Return

This index is representative of the large and mid-cap equity market in developed countries (as defined by MSCI and mainly based on the country of incorporation and the country of primary listing of its securities) in the EMU zone.

The performance of this index is calculated by reinvesting net dividends (Net Return).

This is an actively managed sub-fund, which means that the portfolio manager does not aim to replicate the performance of a benchmark. The benchmark is used to compare performance.

The selection and weighting of assets in the sub-fund's portfolio may differ significantly from the composition of the benchmark.

The benchmark is not aligned with the promotion of the environmental and social characteristics of the fund. Please refer to the investment strategy above for an explanation of how the sub-fund promotes environmental and social characteristics.

The possible composition and the value of the benchmark can be found on the website www.dpamfunds.com.

5.1.5. Policy followed during the year

In a context of receding fears of an all-out energy crisis in Europe and peaking of global inflation, the fund had a positive return over the first half. With the exception of Energy, all sectors and healthcare were up, especially IT, Consumer and Industrials. As markets priced out immediate deep recession fears on the back of higher gas inventories, lower quality, more leveraged stocks outperformed quality peers. The ongoing liquidity withdrawal from central banks continued to impact small and midcaps.

Within IT, semiconductor equipment manufacturers (ASML, ASMI, Besi) added to performance as medium term structural demand for their new technologies came to the forefront, outweighing shorter term concerns around the cycle. In Software SAP's cloud transition started to show positive results translating into good share price performance.

In Consumer Discretionary, better than expected demand for luxury goods (Ferrari, LVMH, Moncler) and travel (Amadeus) contributed positively.

Within industrials ongoing demand from energy transition boosted the growth and performance of Schneider Electric.

Positions in Energy and Healthcare had a negative to slightly negative impact. In the case of energy Total and Neste Oyj were impacted by deteriorating supply demand dynamics. Healthcare holdings were impacted by a longer than anticipated destocking cycle in bioprocessing.

Some important changes to stock selection were made across several sectors, driven by market volatility and changes in conviction. In Financials, on top of the reduction of the overall exposure to the sector, the holding in Sampo was sold and reinvested in ASR Nederland, mainly on valuation grounds. In Consumer Discretionary a new position in Adidas was started given the earnings potential offered by the new strategy and a new CEO with a strong track record. A new holding was also bought in Communication services with Publicis, a French advertising company, offering good growth at a very reasonable price. Infineon was further reduced after a strong rally as we believe the semiconductor company will see increasing competition over the coming years. On the more defensive side, in Healthcare the exposure to Merck Kgaa was reduced because of a reduced conviction in the companies' pharmaceutical division, despite a continued believe in their two other activities. In Utilities part of Iberdrola was switched to EDP as the latter provided an updated business plan with strong growth in renewables, and a balanced approach to different technologies, and geographies. Finally, the more commodity exposed holdings in UPM and Neste, were respectively sold and reduced because of deteriorating supply demand outlook. Also in materials CRH was sold following the pending delisting from Dublin to relist in the US.

5.1.6. Future policy

For the remainder of the year, fund managers will continue to look for opportunities to add weight to companies with good business models that stand to benefit from developing structural growth trends (energy efficiency, climate change, aging society, technological disruption, security, higher interest rates etc.). At the same time the goal is to retain a healthy level of portfolio diversification. From a stock selection point of view, integrating ESG aspects with the aim to invest in sustainable winners will be ever more important.

5.1.7. Synthetic risk indicator

The synthetic risk indicator gives an indication of the risk associated with investing in a sub-fund. It places this risk on a scale ranging from one (lowest risk) to seven (highest risk).

Risk and reward profile : 4

5.5.GEOGRAPHIC ALLOCATION OF INVESTMENTS

By country	% Portfolio
FRANCE	33.97%
NETHERLANDS	20.99%
GERMANY (FEDERAL REPUBLIC)	17.96%
ITALY	9.75%
SPAIN	6.94%
BELGIUM	4.96%
IRELAND	2.33%
SWITZERLAND	1.41%
PORTUGAL	1.40%
FINLAND	0.29%
Total	10

These allocations of assets were established on basis of data (gross) used by the entity responsible for the administration and bookkeeping and do not reflect inevitably the economic analysis which directed the assets selection.

5.6.ECONOMIC ALLOCATION OF INVESTMENTS

By sector	% Portfolio
PHARMACOLOGY & PERSONAL CARE	11.28%
IT & INTERNET	9.41%
ELECTRIC & ELECTRONIC COMPONENTS	9.32%
BANKS	9.23%
TEXTILE & GARMENTS	8.59%
TELECOMMUNICATIONS	6.82%
ELECTRIC & ELECTRONIC MATERIALS	6.24%
INSURANCE COMPANIES	5.01%
CHEMICAL PRODUCTS	4.90%
FINANCIAL SERVICES - HOLDINGS	4.35%
ROAD VEHICLES	4.09%
ENERGY SOURCES	3.75%
OIL & DERIVED	3.68%
MECHANICAL CONSTRUCTION	2.27%
MISCELLANEOUS CONSUMER GOODS	2.24%
OTHER SERVICES	1.45%
AEROSPACE INDUSTRY & DEFENCE	1.36%
FOOD & CLEANING MATERIALS	1.28%
PUBLISHING & BROADCASTING	1.23%
TYRES & RUBBER	1.16%
BUILDING MATERIALS	1.06%
TOBACCO & SPIRITS	0.77%
ROAD & RAILWAY TRANSPORTS	0.51%
TOTAL	10

These allocations of assets were established on basis of data (gross) used by the entity responsible for the administration and bookkeeping and do not reflect inevitably the economic analysis which directed the assets selection.

5.7.CHANGES IN THE COMPOSITION OF THE ASSETS IN EUR

	1st semester	2nd semester	Total
Purchases	101,809,862.04		101,809,862.04
Sales	157,723,225.35		157,723,225.35
Total 1	259,533,087.39		259,533,087.39
Subscriptions	50,467,293.15		50,467,293.15
Redemptions	113,630,478.25		113,630,478.25
Total 2	164,097,771.40		164,097,771.40
Reference average of the total net asset	928,496,059.52		928,496,059.52
Rotation Percentage	10.28%		10.28%

The rotation rate gives the annual average of the transactions. A figure close to 0% shows that the transactions relating to the securities or the assets with the exception of deposits and liquid assets during a given period, were done exclusively in function of the subscriptions and redemptions. A negative percentage indicates that the subscriptions and redemptions give rise to only few or, as the case may be, no transactions in the portfolio.

A detailed list of the transactions carried out during the financial year can be consulted, free of charge, at Banque Degroof Petercam S.A with its registered office at Rue de l'Industrie 44 - B-1040 Brussels which provides the financial services.

5.10. PERFORMANCES

Figures reflect past performance and are not an indicator of future performance. These figures do not include any restructuring.

Returns are determined at the end of the financial year (from July 1, 2022 to June 30, 2023).

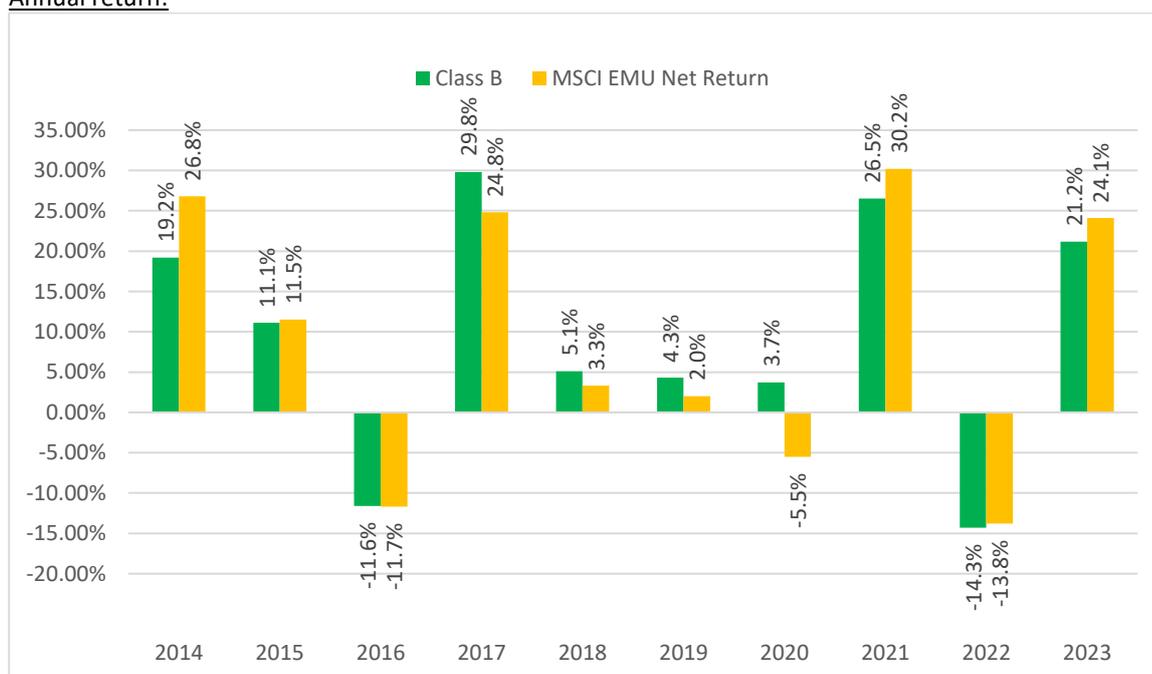

The annual return is defined as the absolute return earned over a year. For the semi-annual report, the accounting year is 12-month period preceding the end of the half-year.

The performance of accumulation units is calculated in a similar way to distribution units. Only the performance (in the form of bar charts) of class B shares is shown in this report. The performance of other share classes may differ, in particular as a result of charges specific to each class (management fees, currency hedging fees, subscription taxes, etc.). Information on the past performance of all share classes is published on the www.dpamfunds.com website («Overview» tab).

Bar chart showing annual returns of the last 10 years (in % and calculated in EUR) as of 30 June 2023:

Class B

Annual return:

This is an actively managed sub-fund, which means that the portfolio manager does not aim to replicate the performance of a benchmark. No benchmarks are used in the management of the sub-fund. The benchmark is used to compare performance.

Table showing historical benchmark performance (actuarial returns):

The sub-fund uses the following index as a benchmark: MSCI EMU Net Return

DPAM B
EQUITIES EUROLAND

	Average cumulated returns				Since	
	1 year	3 year	5 year	10 year	Year	Value

Fee sharing

As at 30 June 2023, 24,45% of the remuneration due to the Fund Manager was retroceded to some other distributors, third parties and the Banque Degroof Petercam or one of its subsidiaries. The third parties are either end clients with a retrocession agreement, or institutional clients under discretionary management with a management agreement. Bank Degroof Petercam or one of its subsidiaries are distributors in the same way as external distributors.

2022	class A 4,16 EUR class E 4,31 EUR class V 4,33 EUR class M 4,26 EUR

5.12.2. Valuation of financial instruments

Bonds and other debt securities as well as money market instruments in the portfolio were valued at their average price. The valuations have not been adjusted to approximate bid prices, as the difference between bid and ask prices changed significantly over the period, both over time and depending on the nature of the security.

5.12.3. Transparency of the securities financing transactions and of reuse

In accordance with Article 13 and Section A of the Annex to Regulation EU 2015/2365 (hereinafter the Regulation), the Sicav must inform investors of its use of securities financing transactions and total return swaps in the annual report and the half-yearly report.

6. INFORMATION ABOUT THE SUBFUND DPAM B REAL ESTATE EUROPE SUSTAINABLE

6.1. MANAGEMENT REPORT

6.1.1. Launch date of the sub-fund and subscription price of the shares

Date of initial subscription: 27/12/1999

Initial subscription price: EUR 100.00

6.1.2. Stock exchange listing

The sub-fund's shares are not listed on the stock market.

6.1.3. Aim and main outlines of the investment policy

Objective

The objective of this sub-fund is to offer shareholders the highest possible long-term return through a balanced management policy, by investing its assets in securities representative of the real estate sector, in its broad sense, in Europe. These securities include but are not limited to shares of REITs, real estate certificates, shares of real estate companies and companies active in real estate promotion and development, shares in real estate debt investment funds etc. These companies are selected on the basis of compliance with environmental, social and governance (ESG) criteria.

More precisely, the sub-fund invests at least two-thirds of its assets in securities representative of the real estate sector issued by companies having their registered office or carrying out their primary economic activity in Europe.

The sub-fund uses a rigorous ESG methodology and strict exclusions in order not to undermine other environmental and social objectives and to ensure the required good governance practices.

This is an actively managed sub-fund, which means that the portfolio manager does not aim to replicate the performance of a benchmark.

No formal guarantee has been given either to the sub-fund or to its investors.

Investment policy

The sub-fund promotes environmental and social characteristics within the meaning of Article 8 of the SFDR Regulation 2019/2088.

The sub-fund may hold cash on an ancillary or temporary basis in the form of current accounts, deposits or securities in other UCITS.

The sub-fund invests a maximum of 10% of its assets in open-ended collective investment schemes.

6.1.4. Index and benchmark

GPR Europe UK 25% Capped

The sub-fund uses the following index as a benchmark: GPR Europe UK 25% Capped Net Return

This index is representative of real estate companies listed in developed Europe. The GPR Europe UK 25% Capped Net Return is a tailor-made index for DPAM calculated by Global Property Research. In this index, the weight of the United Kingdom is capped at 25%.

Performance is calculated by reinvesting net dividends (Net Return).

It is an actively managed sub-fund, which means that the portfolio manager does not aim to replicate the performance of a benchmark. The benchmark is used to compare the performance.

The selection and weighting of assets in the sub-fund's portfolio may differ significantly from the composition of the benchmark.

The benchmark is not aligned with the promotion of the environmental and social characteristics of the sub-fund. Please refer to the investment strategy above for an explanation of how the sub-fund promotes environmental and social characteristics.

The possible composition and the value of the benchmark can be found on the website www.dpamfunds.com.

6.1.5. Policy followed during the year

The first 6 months of 2023 were characterized by the higher for longer interest rate environment. This new environment logically spurred a move upwards in property yields. Decreasing property values have only been partly cushioned by increasing rent levels. Property companies therefore switched their strategy from a growth mode still in early 2022 to a deleveraging mode in 2023. This switch can be realised through asset disposals, dividend cuts or equity injections. None of these actions are popular, albeit necessary. The lowly yielding and/or the highly levered companies were and are the most vulnerable companies in this new landscape. For once in a long time, the higher yielding retail subsector resisted much better than the logistics and residential subsectors.

In this new macroeconomic context, the fund continued to increase its exposure to the retail subsector over the first half of this year, predominantly by investing more in lower risk companies with lower occupancy cost ratios (OCRs) and stronger balance sheets, such as Carmila and Retail Estates. The fund also increased its exposure to student accommodation. On the other hand, the fund continued to reduce its exposure to high levered companies where it is highly underweight in companies like SBB or Aroundtown.

6.1.6. Future policy

For the second half of this year, we expect a continuation of the current volatile environment. More visibility on the rate hike trajectory would allow investors to have a better view on future asset valuations and the cost of debt. The fund will remain defensive as it is positioned most of the time.

Our strategy going forward will depend on the prospects for the companies in this volatile environment. We will continue to maintain a balanced portfolio. On the hand, we opt for companies that have strong balance sheets, strong prospects and good visibility. These companies come at a price, but we appreciate their stability. On the other hand, we also opt for companies that are challenged but of which we believe that the management should be able to regain better earnings and visibility going forward. These companies trade at a sizeable discount, and therefore offer upside to the share price. One subsector to which we could increase our exposure if interest rates stabilize, is residential. We remain prudent on offices and constructive on logistics.

The investment themes for the second half of 2023 are:

- Companies with strong balance sheets that hold quality assets, at the expense of companies with too much leverage;
- Companies evolving in a subsector where there is a supply shortage and thus higher rents rather than in a subsector where there is oversupply and thus lower rents;
- Companies with a strong ESG profile;
- Focus on total return, i.e., a combination of sustainable dividends and capital appreciation stemming from rental growth;
- Focus on long leases and quality tenants that enjoy competitive advantages in order to strengthen the cash flows;
- In a highly volatile environment, benefit from excessive market moves (rebuild positions in excessively penalized strong companies and vice versa)
- Companies clearly undervalued compared to industry peers.

6.1.7. Synthetic risk indicator

The synthetic risk indicator give an indication of the risk associated with investing in a sub-fund. It places this risk on a scale ranging from one (lowest risk) to seven (highest risk).

Risk and reward profile : 5

These allocations of assets were established on basis of data (gross) used by the entity responsible for the administration and bookkeeping and do not reflect inevitably the economic analysis which directed the assets selection.

6.7.CHANGES IN THE COMPOSITION OF THE ASSETS IN EUR

	1st semester	2nd semester	Total
Purchases	36,096,086.05		36,096,086.05
Sales	36,705,773.41		36,705,773.41
Total 1	72,801,859.46		72,801,859.46
Subscriptions	20,733,186.17		20,733,186.17
Redemptions	31,664,775.64		31,664,775.64
Total 2	52,397,961.81		52,397,961.81
Reference average of the total net asset	360,536,371.49		360,536,371.49
Rotation Percentage	5.66%		5.66%

The rotation rate gives the annual average of the transactions. A figure close to 0% shows that the transactions relating to the securities or the assets with the exception of deposits and liquid assets during a given period, were done exclusively in function of the subscriptions and redemptions. A negative percentage indicates that the subscriptions and redemptions give rise to only few or, as the case may be, no transactions in the portfolio.

A detailed list of the transactions carried out during the financial year can be consulted, free of charge, at Banque Degroof Petercam S.A with its registered office at Rue de l'Industrie 44 - B-1040 Brussels which provides the financial services.

6.9.PERFORMANCES

Figures reflect past performance and are not an indicator of future performance. These figures do not include any restructuring.

Returns are determined at the end of the financial year. (from July 1, 2022 to June 30, 2023).

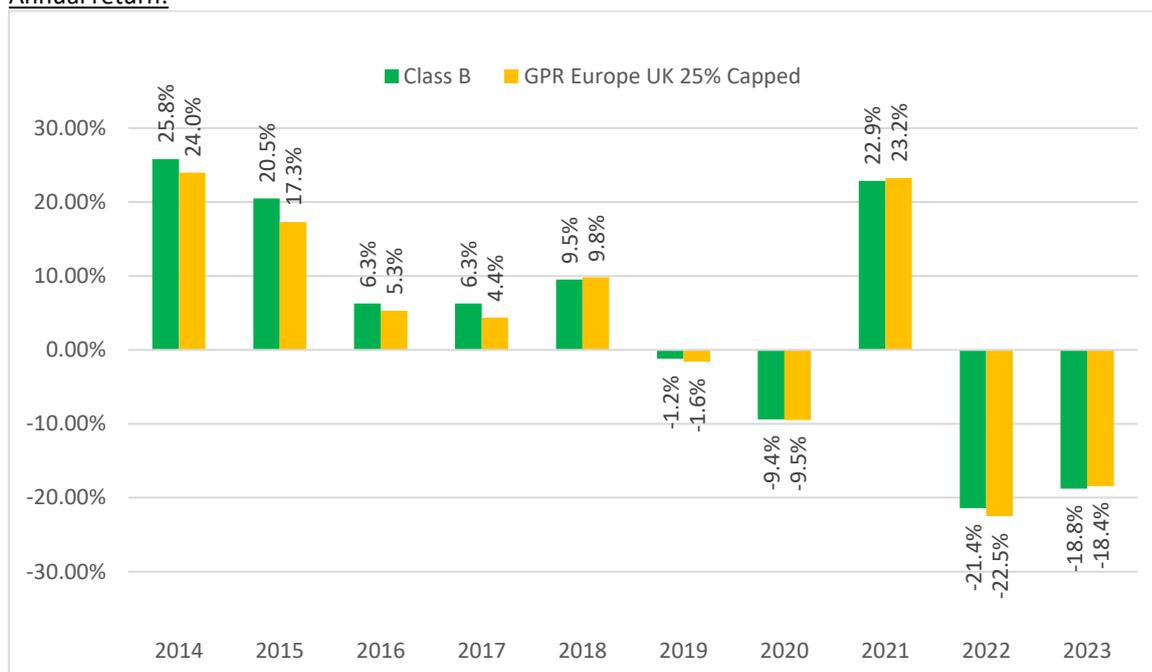

The annual return is defined as the absolute return earned over a year. For the semi-annual report, the accounting year is 12-month period preceding the end of the half-year.

The performance of accumulation units is calculated in a similar way to distribution units. Only the performance (in the form of bar charts) of class B shares is shown in this report. The performance of other share classes may differ, in particular as a result of charges specific to each class (management fees, currency hedging fees, subscription taxes, etc.). Information on the past performance of all share classes is published on the www.dpamfunds.com website. («Overview» tab).

Bar chart showing annual returns of the last 10 years (in % and calculated in EUR) as of 30 June 2023:

Class B

Annual return:

This is an actively managed sub-fund, which means that the portfolio manager does not aim to replicate the performance of a benchmark. No benchmarks are used in the management of the sub-fund. The benchmark is used to compare performance.

Table showing historical benchmark performance (actuarial returns):

The sub-fund uses the following index as a benchmark: GPR Europe UK 25% Capped

Fee sharing

As at 30 June 2023, 47,66% of the remuneration due to the Fund Manager was retroceded to some other distributors, third parties and the Banque Degroof Petercam or one of its subsidiaries. The third parties are either end clients with a retrocession agreement, or institutional clients under discretionary management with a management agreement. Bank Degroof Petercam or one of its subsidiaries are distributors in the same way as external distributors.

6.11. NOTES TO THE FINANCIAL STATEMENTS AND OTHER INFORMATION

6.11.1. Gross dividends paid in the financial year

2019	class A 5,00 EUR class E 9,18 EUR class V 8,55 EUR class M 8,03 EUR
2020	class E 2,20 EUR (Interim dividends)
2021	class A 7,02 EUR class E 8,11 EUR class V 7,63 EUR class M 7,09 EUR
2022	class A 2,93 EUR class E 6,09 EUR class V 5,76 EUR class M 5,38 EUR

6.11.2. Valuation of financial instruments

Bonds and other debt securities as well as money market instruments in the portfolio were valued at their average price. The valuations have not been adjusted to approximate bid prices, as the difference between bid and ask prices changed significantly over the period, both over time and depending on the nature of the security.

6.11.3. Transparency of the securities financing transactions and of reuse

In accordance with Article 13 and Section A of the Annex to Regulation EU 2015/2365 (hereinafter the Regulation), the Sicav must inform investors of its use of securities financing transactions and total return swaps in the annual report and the half-yearly report.

7.1.1. Launch date of the sub-fund and subscription price of the shares

Date of initial subscription: 14/12/2001

Initial subscription price: EUR 24.79

F.N.I.C. initial value as at 25/02/1993. On 16/12/2001, the sub-fund received in contribution all the active and passive situation of the investment company F.N.I.C, in a report/ratio of one share F.N.I.C against three shares of DPAM INVEST B EQUITIES WORLD SUSTAINABLE in each class of shares.

The sub-fund has received the entire assets of the DPAM INVEST B Equities World Dividend sub-fund through a merger by absorption that took effect on 26 February 2021.

7.1.2. Stock exchange listing

The sub-fund's shares are not listed on the stock market.

7.1.3. Aim and main outlines of the investment policy

Objective

The objective of this sub-fund is to offer investors exposure to equities and/or equity-equivalent securities, issued by companies without any geographical restrictions, and to all securities giving entitlement to the capital of these companies, selected on the basis of a strict methodology in terms of compliance with environmental, social and governance (ESG) criteria.

The sub-fund uses a rigorous ESG methodology and strict exclusions in order not to undermine other environmental and social objectives and to ensure the required good governance practices.

This is an actively managed sub-fund, which means that the portfolio manager does not aim to replicate the performance of a benchmark.

No formal guarantee has been given either to the sub-fund or to its investors.

Investment policy

The sub-fund invests mainly in equities and/or equity-equivalent securities issued by companies, without any geographical restrictions, and in all securities giving entitlement to the capital of these companies.

Securities are selected on the basis of economic and financial analyses as well as environmental, social and governance (ESG) considerations.

The sub-fund may hold liquid assets on a secondary or temporary basis in the form of current accounts, deposits or securities and in the form of undertakings for collective investment. The sub-fund invests a maximum of 10% of its assets in open-ended undertakings for collective investment.

Until 12/31/2022, the sub-fund promotes environmental and social characteristics within the meaning of article 9 of Regulation SFDR 2019/2088.

This sub-fund has been reclassified from article 9 to article 8 under SFDR Regulation 2019/2088 with effect from 01/01/2023.

7.1.4. Index and benchmark

MSCI AC World Net Return

The sub-fund uses the following index as a benchmark: MSCI AC World Net Return.

This index is representative of the large and mid-cap equity markets of 23 developed countries and 26 emerging countries (as defined by MSCI and mainly according to the country of incorporation and the country of primary listing of its securities) around the world.

The performance of this index is calculated by reinvesting net dividends (Net Return).

MSCI Limited is registered with the European Securities and Markets Authority (ESMA).

It is an actively managed sub-fund, which means that the portfolio manager does not aim to replicate the performance of a benchmark. The benchmark is used to compare performances.

The selection and weighting of assets in the sub-fund's portfolio may differ significantly from the composition of the benchmark.

The benchmark is not aligned with the sub-fund's sustainable investment objective. Please refer to the investment strategy above for an explanation of how the sub-fund's sustainable investment objective is achieved.

The possible composition and the value of the benchmark can be found on the website www.dpamfunds.com.

7.1.5. Policy followed during the year

At the end of June 2023, the net asset value of DPAM B Equities World Sustainable (F share) amounted to 345.28 EUR. This represents a 16.24% increase since the beginning of the year.

The first half of 2023 was characterized by a significant shift from low multiple stocks to quality growth stocks. The macro-economic backdrop shifted from fears around rising interest rates and escalating inflation to a scenario of peaking interest rates and softening inflation. Interest rates stopped their ascent, and long duration assets like quality growth stocks, saw renewed interest from investors. This was good for World Sustainable. However, not all quality growth stocks fared equally.

After the launch of chatGPT, AI became the new focus of investors. This made IT the stand-out performer this year. This AI-fueled IT rally is in stark contrast with the performance of some other sectors, like healthcare and consumer staples, which have flat to even negative returns so far this year.

The fund benefitted from this tech rally in three ways. First, through its exposure to cloud infrastructure providers, such as Microsoft and Alphabet. Second, the fund remained well invested in software companies with leading AI capabilities, like Adobe and Salesforce. Big software companies could further consolidate their markets through their access to large data sets. Third, there can be no AI gold rush without the necessary picks and shovels, which boosted leading-edge semiconductor companies, like ASMI, ASML and Nvidia. We added AMD, a challenger to Nvidia, to the fund in the first quarter of the year.

Although Health Care is considered as a defensive part of the portfolio, and is typically insulated from economic shocks, the exposure to life sciences companies didn't pay off. These companies suffered negative investor sentiment as they faced several profit warnings in a tough funding environment for biotech companies. On the other hand, our exposure to medical technology companies, like Boston Scientific, Intuitive Surgical and Stryker, benefitted from rebounding demand.

In spite of the market's singular focus on AI, we aim to maintain a diversified exposure, visible also in our new additions to the fund: Proctor & Gamble (consumer staples), AMD (IT), Epiroc, IDEX Corp and Téléperformance (industrials). We exited Align Tech, CME, Infineon, ServiceNow and Transunion.

7.1.6. Future policy

The subfund Equities World Sustainable will continue its strategy of investing in high quality large cap companies with strong ESG credentials. These businesses stand to benefit from a variety of long-term growth trends, including personalized and affordable healthcare, digital transformation, energy efficiency, electrical vehicles, responsible consumption, the rising middle class and financial inclusion. Our investment philosophy is grounded in the conviction that sustainable profitable growth drives stock prices over the long-term. Our high quality approach is differentiated because of a rigorous ESG process and portfolio diversification. This results in a resilient portfolio that aims to perform well in different economic environments.

7.1.7. Synthetic risk indicator

The synthetic risk indicator give an indication of the risk associated with investing in a sub-fund. It places this risk on a scale ranging from one (lowest risk) to seven (highest risk).

Risk and reward profile : 4

7.5.GEOGRAPHIC ALLOCATION OF INVESTMENTS

By country	% Portfolio
UNITED STATES OF AMERICA	63.61%
SWITZERLAND	8.83%
IRELAND	7.07%
FRANCE	7.06%
NETHERLANDS	5.58%
SWEDEN	2.05%
INDIA	1.88%
DENMARK	1.81%
TAIWAN	1.11%
INDONESIA	1.00%
Total	10

These allocations of assets were established on basis of data (gross) used by the entity responsible for the administration and bookkeeping and do not reflect inevitably the economic analysis which directed the assets selection.

7.6.ECONOMIC ALLOCATION OF INVESTMENTS

By sector	% Portfolio
IT & INTERNET	18.96%
PHARMACOLOGY & PERSONAL CARE	15.37%
ELECTRIC & ELECTRONIC COMPONENTS	12.72%
MECHANICAL CONSTRUCTION	8.57%
BANKS	6.85%
TEXTILE & GARMENTS	5.73%
MISCELLANEOUS CONSUMER GOODS	5.61%
PUBLISHING & BROADCASTING	5.32%
CHEMICAL PRODUCTS	4.65%
FOOD & CLEANING MATERIALS	3.54%
FINANCIAL SERVICES - HOLDINGS	3.16%
INSURANCE COMPANIES	2.62%
HEALTH CARE & SERVICES	2.21%
BUILDING MATERIALS	1.74%
TELECOMMUNICATIONS	1.52%
BIOTECHNOLOGY	1.43%
TOTAL	10

These allocations of assets were established on basis of data (gross) used by the entity responsible for the administration and bookkeeping and do not reflect inevitably the economic analysis which directed the assets selection.

7.7.CHANGES IN THE COMPOSITION OF THE ASSETS IN EUR

	1st semester	2nd semester	Total
Purchases	409,540,887.83		409,540,887.83
Sales	571,095,102.35		571,095,102.35
Total 1	980,635,990.18		980,635,990.18
Subscriptions	182,845,432.90		182,845,432.90
Redemptions	341,531,116.94		341,531,116.94
Total 2	524,376,549.84		524,376,549.84
Reference average of the total net asset	1,811,209,951.07		1,811,209,951.07
Rotation Percentage	25.19%		25.19%

The rotation rate gives the annual average of the transactions. A figure close to 0% shows that the transactions relating to the securities or the assets with the exception of deposits and liquid assets during a given period, were done exclusively in function of the subscriptions and redemptions. A negative percentage indicates that the subscriptions and redemptions give rise to only few or, as the case may be, no transactions in the portfolio.

A detailed list of the transactions carried out during the financial year can be consulted, free of charge, at Banque Degroof Petercam S.A with its registered office at Rue de l'Industrie 44 - B-1040 Brussels which provides the financial services.

DPAM B
EQUITIES WORLD SUSTAINABLE

On the date of publication of this report, the net asset value per share is published on the following websites: www.dpamfunds.com and www.beama.be. This information is also available at the counters of the financial services department.

7.9.PERFORMANCES

Figures reflect past performance and are not an indicator of future performance. These figures do not include any restructuring.

Returns are determined at the end of the financial year (from July 1, 2022 to June 30, 2023).

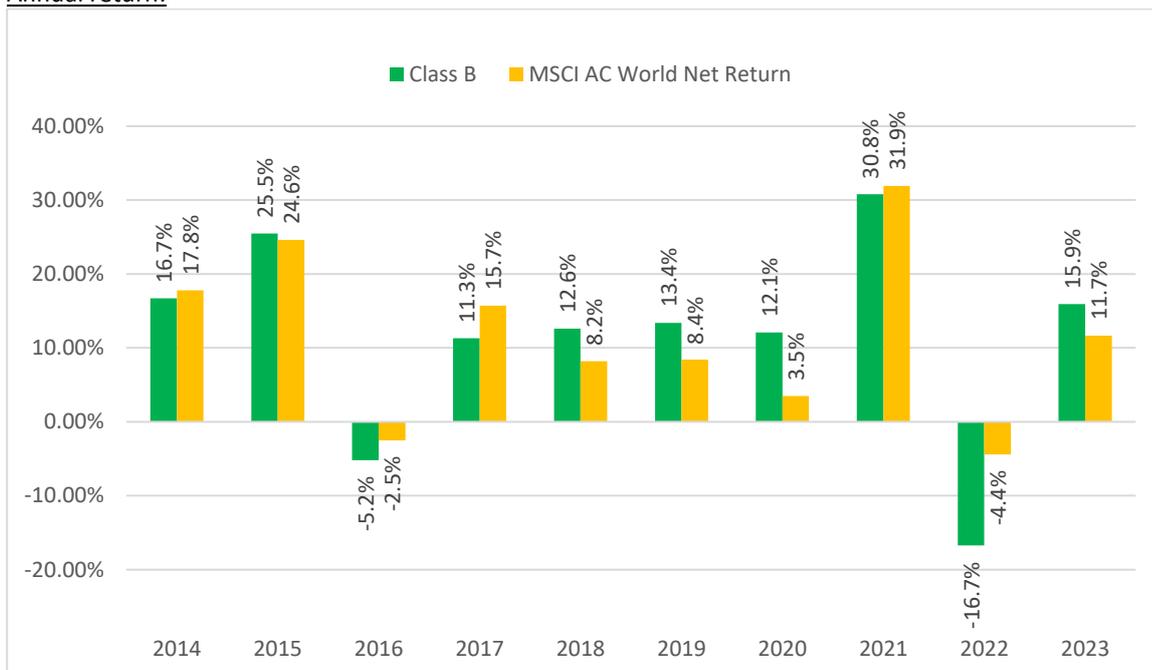

The annual return is defined as the absolute return earned over a year. For the semi-annual report, the accounting year is 12-month period preceding the end of the half-year.

The performance of accumulation units is calculated in a similar way to distribution units. Only the performance (in the form of bar charts) of class B shares is shown in this report. The performance of other share classes may differ, in particular as a result of charges specific to each class (management fees, currency hedging fees, subscription taxes, etc.). Information on the past performance of all share classes is published on the www.dpamfunds.com website («Overview» tab).

Bar chart showing annual returns of the last 10 years (in % and calculated in EUR) as of 30 June 2023:

Class B

Annual return:

This is an actively managed sub-fund, which means that the portfolio manager does not aim to replicate the performance of a benchmark. No benchmarks are used in the management of the sub-fund. The benchmark is used to compare performance.

Table showing historical benchmark performance (actuarial returns):

The sub-fund uses the following index as a benchmark: MSCI AC World Net Return

Fee sharing

As at 30 June 2023, 31,98% of the remuneration due to the Fund Manager was retroceded to some other distributors, third parties and the Banque Degroof Petercam or one of its subsidiaries. The third parties are either end clients with a retrocession agreement, or institutional clients under discretionary management with a management agreement. Bank Degroof Petercam or one of its subsidiaries are distributors in the same way as external distributors.

2020	classe 1,14 EUR class V 1,15 EUR class M 1,39 EUR
2021	class A 4,54 EUR class V 4,57 EUR class M 4,60 EUR class E 4,60 EUR
2022	class A 3,40 EUR class V 3,40 EUR class M 3,40 EUR class E 3,40 EUR

7.11.2. Valuation of financial instruments

Bonds and other debt securities as well as money market instruments were valued in the portfolio at the average price. The valuations have not been adjusted to approximate bid prices, as the difference between bid prices and average prices varied significantly during the period, both over time and depending on the nature of the security.

7.11.3. Transparency of the securities financing transactions and of reuse

In accordance with Article 13 and Section A of the Annex to Regulation EU 2015/2365 (hereinafter the Regulation), the Sicav must inform investors of its use of securities financing transactions and total return swaps in the annual report and the half-yearly report.

8. INFORMATION ABOUT THE SUBFUND DPAM B EQUITIES EUROPE DIVIDEND

8.1.MANAGEMENT REPORT

8.1.1. Launch date of the sub-fund and subscription price of the shares

Date of initial subscription: 16/09/2002

Initial subscription price: EUR 100.00

8.1.2. Stock exchange listing

The sub-fund's shares are not listed on the stock market.

8.1.3. Aim and main outlines of the investment policy

Objective

The objective of this sub-fund is to offer shareholders exposure to the equity market.

The portfolio of the sub-fund consists essentially of shares of companies having their registered office in a European country. The following are considered to be equivalent to shares of companies having their registered office in a European country: shares of other companies that have a significant proportion of their assets, activities and profit or decision-making centres in a European country.

The sub-fund may also invest in any other securities giving entitlement to the capital of the companies referred to above.

Shareholders of the sub-fund have no capital protection or guarantee.

Investment policy

The sub-fund promotes environmental and social characteristics within the meaning of Article 8 of SFDR Regulation 2019/2088.

It is an actively managed sub-fund, which means that the portfolio manager does not aim to replicate the performance of a benchmark.

8.1.4. Index and benchmark

MSCI Europe Net Return

The sub-fund uses the following index as a benchmark: MSCI Europe Net Return.

This index is representative of the large and mid-cap equity market of developed countries (as defined by MSCI and mainly based on the country of incorporation and the country of primary listing of its securities) in Europe. The performance of this index is calculated by reinvesting net dividends (Net Return).

This is an actively managed sub-fund, which means that the portfolio manager does not aim to replicate the performance of a benchmark. The benchmark is used to compare performances. The selection and weighting of assets in the sub-fund's portfolio may differ significantly from the composition of the benchmark.

The benchmark is not aligned with the promotion of the environmental and social characteristics of the fund. Please refer to the investment strategy above for an explanation of how the sub-fund promotes environmental and social characteristics.

The possible composition and the value of the benchmark can be found on the website www.dpamfunds.com.

8.1.5. Policy followed during the year

The NAV of the fund DPAM B Equities Europe Dividend (B share) amounted to €279.02 as of 30 June 2023, increasing by 6.3% over the first semester of 2023. The strategy of the Europe Dividend fund is to invest in stocks offering a high and sustainable level of free cash flow that enables the payment of a regular and attractive dividend. The relative underperformance of the fund versus the benchmark MSCI Europe NR was driven by both the factor style and the stock selection. On the former, the underperformance of the “value” segment of the universe, to which the fund is naturally more exposed, versus the “growth” segment contributed negatively to the fund’s performance. In this regard, the underweight positions in IT, which enjoyed a tremendous rally on the Artificial Intelligence narrative, and in the luxury industry within Consumer Discretionary speak for themselves. There is a high degree of performance gap in the stock picking for most of the sectors. On the negative side, the salmon exposure (Leroy Seafood, Grieg Seafood and Mowi) was hit in June by softening seasonal demand trends from the US. In addition, there was a high concentration of weak performers within Industrials (Intrum publishing weak results, Aker ASA whose holding Aker BP remains highly correlated to the oil price, and Coor losing the Ericsson contract). Finally, the profit warning of the British insurer Direct Line in January 2023 weighted on the performance of the fund. This was partly compensated by positive contributors among Consumer Discretionary (Stellantis and Dunelm on better-than-expected consumer resilience), HC (Lundbeck), Utilities (Enel playing some valuation catch-up following good execution of the deleveraging plan) and Industrials (Konecranes and Sacyr).

Regarding the movements in the fund during the semester, we initiated positions in the Swiss bank UBS, given the unpriced value creation of the Credit Suisse acquisition, and the Swedish bank SEB whose valuation has been under pressure because of the Swedish commercial real estate woes which we see as an opportunity more than a risk for the bank. Within insurers, we started positions in Scor and ASR on compelling valuation grounds. We also added Easyjet in January 2023 as early bookings looked promising, which ultimately triggered positive earnings revisions. We increased the exposure to the healthcare sector by adding AstraZeneca and Novartis at interesting entry levels. The fund exited Covestro and Direct Line on dividend rebasing risks, as well as several other companies on valuation grounds (Metso Corporation, Vinci, Amadeus and Iberdrola).

8.1.6. Future policy

Over the few months prior to March 2023, the combination of China reopening, declining European gas prices, and macro indicators surprising positively in most geographies had ensured a robust equity market rally, especially for the value-cyclical end of the market on the back of persistently strong core inflation data points. However, recent events in the US, where some regional banks faced liquidity issues, have put into question this narrative as market participants have been assessing the impacts this could have on credit conditions, economic growth, inflation and ultimately on monetary policy. This general rise in macro uncertainty is accepted by central bankers whose policy is guided to be more data driven than in the last few years. Geopolitically, the Ukraine crisis entered its second year with little clarity on when a decisive development would unfold. When it comes to China, the anticipated macroeconomic recovery following the reopening of the country has been uneven so far, although this, if prolonged, could become a trigger for a welcome monetary/fiscal stimulus. As for the Sino-American tensions, they are unlikely to go anytime soon. Against this macroeconomic backdrop, investors have preferred to hide in the quality-growth segment of the market, partly explained by the buzz around “AI”, which has deteriorated the market breath. Going forward, the valuation-centric fund managers will continue to focus on resilient business models, solid balance sheets and high cash generation, ensuring good dividend payment capacity.

8.1.7. Synthetic risk indicator

The synthetic risk indicator gives an indication of the risk associated with investing in a sub-fund. It places this risk on a scale ranging from one (lowest risk) to seven (highest risk).

Risk and reward profile : 5

8.7.CHANGES IN THE COMPOSITION OF THE ASSETS IN EUR

	1st semester	2nd semester	Total
Purchases	80,723,138.51		80,723,138.51
Sales	184,004,563.04		184,004,563.04
Total 1	264,727,701.55		264,727,701.55
Subscriptions	17,849,172.10		17,849,172.10
Redemptions	139,815,089.32		139,815,089.32
Total 2	157,664,261.42		157,664,261.42
Reference average of the total net asset	478,351,089.08		478,351,089.08
Rotation Percentage	22.38%		22.38%

The rotation rate gives the annual average of the transactions. A figure close to 0% shows that the transactions relating to the securities or the assets with the exception of deposits and liquid assets during a given period, were done exclusively in function of the subscriptions and redemptions. A negative percentage indicates that the subscriptions and redemptions give rise to only few or, as the case may be, no transactions in the portfolio.

A detailed list of the transactions carried out during the financial year can be consulted, free of charge, at Banque Degroof Petercam S.A with its registered office at Rue de l'Industrie 44 - B-1040 Brussels which provides the financial services.

8.9.PERFORMANCES

Figures reflect past performance and are not an indicator of future performance. These figures do not include any restructuring.

Returns are determined at the end of the financial year. (from July 1, 2022 to June 30, 2023).

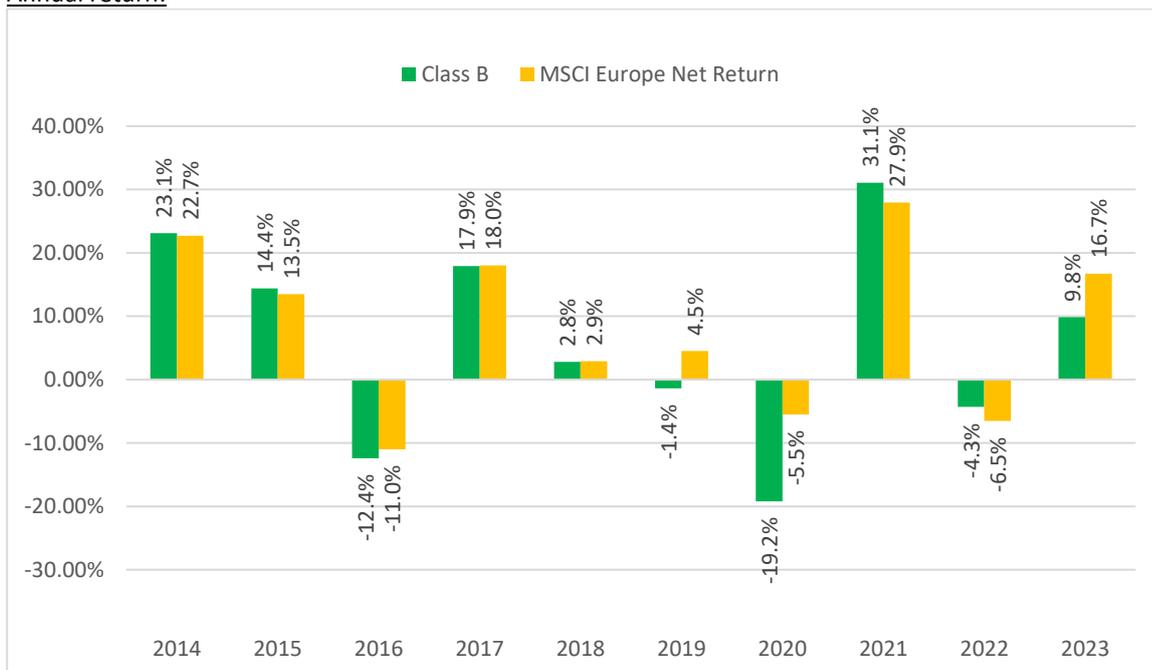

The annual return is defined as the absolute return earned over a year. For the semi-annual report, the accounting year is 12-month period preceding the end of the half-year.

The performance of accumulation units is calculated in a similar way to distribution units. Only the performance (in the form of bar charts) of class B shares is shown in this report. The performance of other share classes may differ, in particular as a result of charges specific to each class (management fees, currency hedging fees, subscription taxes, etc.). Information on the past performance of all share classes is published on the www.dpamfunds.com website. («Overview» tab).

Bar chart showing annual returns of the last 10 years (in % and calculated in EUR) as of 30 June 2023:

Class B

Annual return:

This is an actively managed sub-fund, which means that the portfolio manager does not aim to replicate the performance of a benchmark. No benchmarks are used in the management of the sub-fund. The benchmark is used to compare performance.

Table showing historical benchmark performance (actuarial returns):

The sub-fund uses the following index as a benchmark: MSCI Europe Net Return

Fee sharing

As at 30 June 2023, 27,17% of the remuneration due to the Fund Manager was retroceded to some other distributors, third parties and the Banque Degroof Petercam or one of its subsidiaries. The third parties are either end clients with a retrocession agreement, or institutional clients under discretionary management with a management agreement. Bank Degroof Petercam or one of its subsidiaries are distributors in the same way as external distributors.

8.11. NOTES TO THE FINANCIAL STATEMENTS AND OTHER

INFORMATION

8.11.1. Gross dividends paid in the financial year

2019	class A 2,07 EUR class E 2,24 EUR class V 2,21 EUR class M 2,18 EUR
2020	classe A 2,78 EUR classe E 2,90 EUR classe V 2,88 EUR classe M 2,82 EUR
2021	class A 4,95 EUR class E 5,41 EUR class V 5,42 EUR class M 5,06 EUR
2022	class A 3,71 EUR class E 3,93 EUR class V 3,91 EUR class M 3,82 EUR

8.11.2. Valuation of financial instruments

Bonds and other debt securities as well as money market instruments in the portfolio were valued at their average price. The valuations have not been adjusted to approximate bid prices, as the difference between bid and ask prices changed significantly over the period, both over time and depending on the nature of the security.

8.11.3. Transparency of the securities financing transactions and of reuse

In accordance with Article 13 and Section A of the Annex to Regulation EU 2015/2365 (hereinafter the Regulation), the Sicav must inform investors of its use of securities financing transactions and total return swaps in the annual report and the half-yearly report.

9. INFORMATION ABOUT THE SUBFUND DPAM B EQUITIES EUROPE SUSTAINABLE

9.1.MANAGEMENT REPORT

9.1.1. Launch date of the sub-fund and subscription price of the shares

Date of initial subscription: 31/12/2002

Initial subscription price: EUR 100.00

On 18 November 2020, the sub-fund received all the assets and liabilities of the DPAM INVEST B Equities Europe sub-fund through a merger by absorption. The merger took effect on 26 November 2020.

9.1.2. Stock exchange listing

The sub-fund's shares are not listed on the stock market.

9.1.3. Aim and main outlines of the investment policy

Objective

The objective of this sub-fund is to enable shareholders to benefit from the growth of shares of European companies or other equivalent securities, selected on the basis of a strict methodology in terms of compliance with environmental, social and governance (ESG) criteria.

The sub-fund uses a rigorous ESG methodology and strict exclusions in order not to undermine other environmental and social objectives and to ensure the required good governance practices.

This is an actively managed sub-fund, which means that the portfolio manager does not aim to replicate the performance of a benchmark.

No formal guarantee has been given either to the sub-fund or to its investors.

Investment policy

To achieve its objective, the sub-fund invests in shares of European companies that meet certain environmental, social and governance criteria (ESG). The following are considered to be equivalent: other companies belonging to the aforementioned universe that have a significant proportion of their assets, activities and profit or decision-making centres in Europe. The sub-fund may also invest in any other securities giving entitlement to the capital of the companies referred to above.

Until 31/12/2022, the sub-fund had an environmental and social objective within the meaning of Article 9 of the SFDR 2019/2088 Regulation.

This sub-fund has been reclassified from article 9 to article 8 under the SFDR 2019/2088 regulations with effect from 01/01/2023.

The sub-fund may also hold liquid assets on a secondary or temporary basis in the form of current accounts, deposits or securities.

The sub-fund invests a maximum of 10% of its assets in open-ended undertakings for collective investment.

9.1.4. Index and benchmark

MSCI Europe Net Return

The sub-fund uses the following index as a benchmark: MSCI Europe Net Return.

This index is representative of the large and mid-cap equity market of developed countries (as defined by MSCI and mainly based on the country of incorporation and the country of primary listing of its securities) in Europe.

The performance of this index is calculated by reinvesting net dividends (Net Return).

MSCI Limited is registered with the European Securities and Markets Authority (ESMA).

This is an actively managed sub-fund, which means that the portfolio manager does not aim to replicate the performance of a benchmark. The benchmark is used to compare performances.

The selection and weighting of assets in the sub-fund's portfolio may differ significantly from the composition of the benchmark.

The benchmark is not aligned with the sub-fund's sustainable investment objective. Please refer to the investment strategy above for an explanation of how the sub-fund's sustainable investment objective is achieved.

The possible composition and the value of the benchmark can be found on the website www.dpamfunds.com.

9.1.5. Policy followed during the year

Despite all the worries related to inflation, geopolitical tensions, and increased interest rates environment, the market performed very well, driven by incrementally positive news-flow, such as more resilient consumers, gas and oil prices coming down, and companies showing stronger resilience in a higher inflationary environment. Most sectors were up, but mostly Information technology, consumer discretionary, and Industrials as those sectors reversed the de-rating experience in the previous year.

Within IT, BEI, and ASM International added to the performance, driven not only by a better than feared 2023, but also by Artificial Intelligence news flow which lifted the long-term structural growth of any company related to semiconductor. Within industrials, Schneider and Atlas Copco also added to the performance, as both companies show that their strategy is likely to capture more growth from the decarbonization, automation, and electrification trends. A full reopening of travel and leisure market helped both Amadeus and Intercontinental Hotels Group to perform better than expected.

In materials, Boliden detracted to the performance, as operational issues at few of their sites had the effect of negative earnings revisions. DSM also contributed negatively to the performance, as the market still had to digest the merger with Firmenich, and a rebase of the revenues in the vitamin division. Longer than expected destocking in food ingredients and bioprocessing supply chains hitting holdings across healthcare, consumer staples and materials (Croda, Lonza, Merck, IMCD). As such all those stocks detracted from the performance.

We exited 4 companies, while adding 7 new names to the fund. Among the new names In consumer discretionary, after many years, we re-entered Adidas after many years. The company's valuation suffered after a prolonged period of market share losses. The company is adjusting its commercial and product strategies, benefits from a strong brand value and heritage, while its growth continues to be aided by the structural growth in the demand for sporting goods. In luxury the position in Burberry was sold due to a loss of conviction in its brand strategy, the recent management turnover, and a risk to numbers after a significant increase in gross margins. The proceeds were partly reinvested in Moncler which in our view has a clearer brand identity, translating in better growth. In energy, we exited Neste, following a disappointing message at their CMD. The company flagged an over supplied market in the renewable fuels until 2027, & an increased availability and variety of feedstocks, which raises concern on their competitive edge. We initiated a position in Rotork. Rotork is a UK based engineering company specialized in mission critical components for the energy, process, and utilities companies. We like the company because its products help their clients to achieve their net carbon zero targets, and as such the company should experience a solid organic growth combined with healthy margins and strong cash generation. We entered a new position in Publicis. We believe European agencies and particularly Publicis are now past the period of slower growth and have acquired the necessary capabilities to grow faster than before. We initiated a position in EDP, as the company provided an updated business plan with strong growth in renewables, and a balanced approach to different technologies, and geographies. We trimmed our position in Iberdrola to keep the exposure to utilities at the same level.

9.1.6. Future policy

The fund seeks to be the best in its category as a sustainable European equity fund. The ESG profile (ecological, social and governance criteria) of the fund is protected both quantitatively and qualitatively. First, strongly controversial companies and sectors are excluded. Subsequently, an important quantitative filter is added: companies that are part of the bottom 25% of their sector based on their ESG score are systematically excluded from the investment universe. Additionally, fund managers proactively consider ESG characteristics in their buying and selling decisions. A company providing a solution for a relevant ESG challenge is a positive factor in the investment decision. Examples are the insulation material from Kingspan, energy efficient electrical products from Schneider, or the low-cost digital asset management offerings of Finacobank. The fund seeks to invest exclusively in high-quality companies as they have the potential of strong, risk-adjusted returns. It also reflects our conviction that long-term investments in high-quality companies and considering ESG factors supplement each other well. High-quality companies are characterized by high profitability, good structural growth and a robust business model. The fund tends to be overweight in sectors such as IT, industrials and healthcare - where many quality companies can be found.

9.1.7. Synthetic risk indicator

The synthetic risk indicator give an indication of the risk associated with investing in a sub-fund. It places this risk on a scale ranging from one (lowest risk) to seven (highest risk).

Risk and reward profile : 4

9.7.CHANGES IN THE COMPOSITION OF THE ASSETS IN EUR

	1st semester	2nd semester	Total
Purchases	293,712,639.65		293,712,639.65
Sales	341,605,177.78		341,605,177.78
Total 1	635,317,817.43		635,317,817.43
Subscriptions	265,353,164.97		265,353,164.97
Redemptions	335,975,541.54		335,975,541.54
Total 2	601,328,706.51		601,328,706.51
Reference average of the total net asset	1,806,792,252.43		1,806,792,252.43
Rotation Percentage	1.88%		1.88%

The rotation rate gives the annual average of the transactions. A figure close to 0% shows that the transactions relating to the securities or the assets with the exception of deposits and liquid assets during a given period, were done exclusively in function of the subscriptions and redemptions. A negative percentage indicates that the subscriptions and redemptions give rise to only few or, as the case may be, no transactions in the portfolio.

A detailed list of the transactions carried out during the financial year can be consulted, free of charge, at Banque Degroof Petercam S.A with its registered office at Rue de l'Industrie 44 - B-1040 Brussels which provides the financial services.

9.9.PERFORMANCES

Figures reflect past performance and are not an indicator of future performance. These figures do not include any restructuring.

Returns are determined at the end of the financial year (from July 1, 2022 to June 30, 2023).

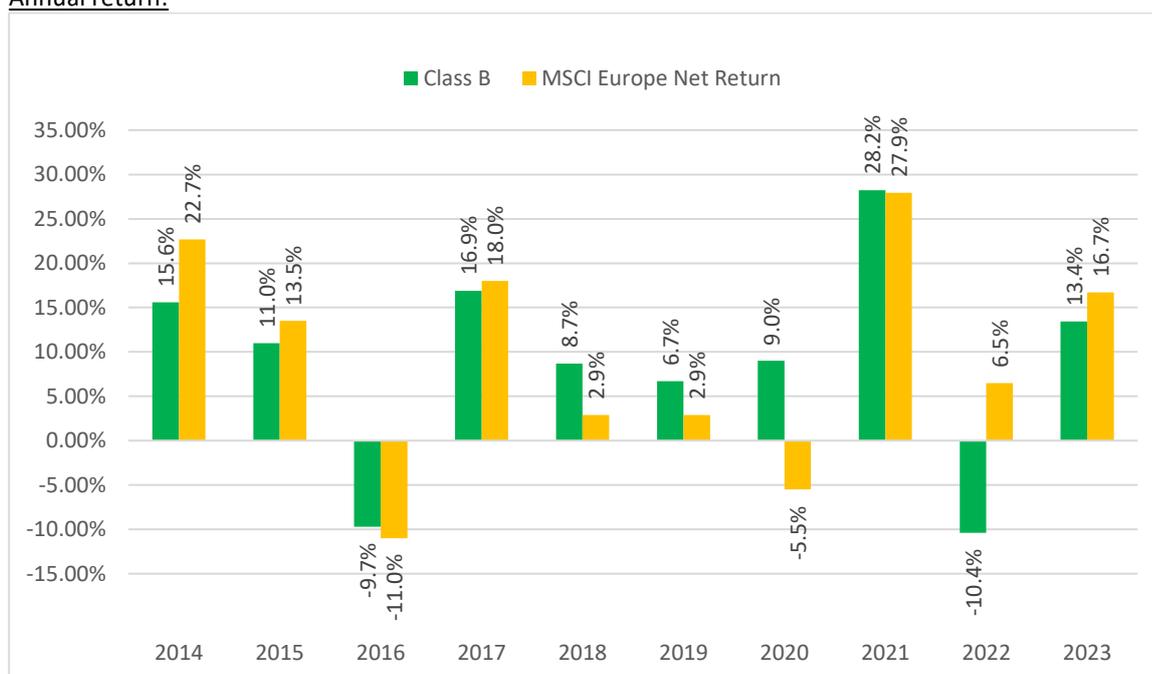

The annual return is defined as the absolute return earned over a year. For the semi-annual report, the accounting year is 12-month period preceding the end of the half-year.

The performance of accumulation units is calculated in a similar way to distribution units. Only the performance (in the form of bar charts) of class B shares is shown in this report. The performance of other share classes may differ, in particular as a result of charges specific to each class (management fees, currency hedging fees, subscription taxes, etc.). Information on the past performance of all share classes is published on the www.dpamfunds.com website («Overview» tab).

Bar chart showing annual returns of the last 10 years (in % and calculated in EUR) as of 30 June 2023:

Class B

Annual return:

This is an actively managed sub-fund, which means that the portfolio manager does not aim to replicate the performance of a benchmark. No benchmarks are used in the management of the sub-fund. The benchmark is used to compare performance.

Table showing historical benchmark performance (actuarial returns):

The sub-fund uses the following index as a benchmark: MSCI Europe Net Return

Fee sharing

As at 30 June 2023, 19,68% of the remuneration due to the Fund Manager was retroceded to some other distributors, third parties and the Banque Degroof Petercam or one of its subsidiaries. The third parties are either end clients with a retrocession agreement, or institutional clients under discretionary management with a management agreement. Bank Degroof Petercam or one of its subsidiaries are distributors in the same way as external distributors.

9.11.2. Valuation of financial instruments

Bonds and other debt securities as well as money market instruments in the portfolio were valued at their average price. The valuations have not been adjusted to approximate bid prices, as the difference between bid and ask prices changed significantly over the period, both over time and depending on the nature of the security.

9.11.3. Transparency of the securities financing transactions and of reuse

In accordance with Article 13 and Section A of the Annex to Regulation EU 2015/2365 (hereinafter the Regulation), the Sicav must inform investors of its use of securities financing transactions and total return swaps in the annual report and the half-yearly report.

10. INFORMATION ABOUT THE SUBFUND DPAM B EQUITIES NEWGEMS SUSTAINABLE

10.1. MANAGEMENT REPORT

10.1.1. Launch date of the sub-fund and subscription price of the shares

Date of initial subscription: 02/10/2006

Initial subscription price: EUR 100.00

10.1.2. Stock exchange listing

The sub-fund's shares are not listed on the stock market.

10.1.3. Aim and main outlines of the investment policy

Objective

The objective of the sub-fund is to offer investors exposure to equities and/or equity-equivalent securities issued by companies without geographical restriction and all securities giving access to the capital of such companies, which are selected on the basis of themes linked to the acronym NEWGEMS (Nanotechnology, Ecology, Well-being, Generation Z, E-society, Manufacturing 4.0, Security) (trends and themes of activities linked to nanotechnology, ecology, wellbeing, generation Z, E-Society, manufacturing 4.0 and security - see investment policy below). These companies are selected on the basis of a strict methodology for compliance with environmental, social and governance (ESG) criteria.

The sub-fund uses a rigorous ESG methodology and strict exclusions in order not to undermine other environmental and social objectives and to ensure the required good governance practices.

This is an actively managed sub-fund, which means that the portfolio manager does not aim to replicate the performance of a benchmark.

No formal guarantee has been given either to the sub-fund or to its investors.

Investment policy

The sub-fund invests mainly in equities and/or equity-equivalent securities issued by companies "of the future" without geographical restriction, and in all securities giving access to the capital of such companies.

These companies "of the future" are identified by the acronym NEWGEMS (Nanotechnology, Ecology, Well-being, Generation Z, E-society, Manufacturing 4.0, Security) and include trends and themes of activities related to nanotechnology, ecology, well-being, generation Z, E-society, manufacturing 4.0 and security; activities that can be defined as follows (list is not exhaustive):

- «**Nanotechnology**»: Nanotechnology encompasses companies operating at a nano scale level (production of semiconductor chips, smartphones, industrial machines, medical devices, etc. which require complex miniaturisation) and the companies that make these advances possible.
- «**Ecology**»: Ecology includes companies whose activities relate to the environment and environmental protection.
- «**Well-being**»: Well-being includes any company whose activity involves the well-being of humans and animals.
- «**Generation Z**»: Generation Z refers to the generation after the millennials. In this area, the manager will invest in companies that facilitate the lifestyle of this generation (mobility, social media, online activities, etc.).

- **«E-society»:** E-society includes any company that is engaged in e-commerce, digitalisation and cloud computing and/or that offers this type of services.

- **«Manufacturing 4.0»:** Manufacturing 4.0 includes any company related to the new industrial revolution, robotics, automation, big data, the internet of things and artificial intelligence.

- **«Security»:** Security includes any company that relates to cybersecurity and physical security.

The sub-fund promotes environmental and social characteristics within the meaning of Article 8 of SFDR Regulation 2019/2088.

Stock-picking is based on economic and financial analyses and on a rigorous methodology of exclusions, integration of ESG factors, active shareholding and engagement with companies.

The sub-fund may hold liquid assets on a secondary or temporary basis in the form of current accounts, deposits or securities and in the form of undertakings for collective investment. The sub-fund invests a maximum of 10% of its assets in open-ended undertakings for collective investment.

10.1.4. Index and benchmark

MSCI World Net Return

The sub-fund uses the following index as a benchmark: MSCI World Net Return.

This index is representative of the equity market for large and mid-cap stocks from 23 developed countries (as defined by MSCI and mainly based on the country of incorporation and the country of primary listing of its securities) around the world.

The performance of this index is calculated by reinvesting net dividends (Net Return).

This is an actively managed sub-fund, which means that the portfolio manager does not aim to replicate the performance of a benchmark. The benchmark is used to compare performance.

The selection and weighting of assets in the sub-fund's portfolio may differ significantly from the composition of the benchmark.

The benchmark is not aligned with the promotion of the environmental and social characteristics of the sub-fund. Please refer to the investment strategy above for an explanation of how the sub-fund promotes environmental and social characteristics.

The possible composition and the value of the benchmark can be found on the website www.dpamfunds.com.

10.1.5. Policy followed during the year

At the end of June 2023, the net asset value of DPAM B Equities NewGems Sustainable (F share) amounted to EUR 280.57. This represents a 20.64% increase since the start of the year.

The first half of 2023 was characterized by a significant shift from low multiple stocks to growth stocks. The macro-economic backdrop shifted from fears around rising interest rates and escalating inflation to a scenario of peaking interest rates and softening inflation. Interest rates stopped their ascent, and long duration assets like innovative growth stocks, with a large chunk of their value in the future, saw renewed interest from investors. This was good for NewGems. However, not all quality growth stocks fared equally.

After the launch of chatGPT, AI became the new focus of investors. This made IT the stand-out performer this year. The fund benefitted from this in three ways. First, through its exposure to cloud infrastructure providers, such as Microsoft, Amazon and Alphabet, which are providing the necessary computing power for companies transitioning their operations in the AI era. Second, the fund remained well invested in software companies with leading AI capabilities, like Adobe, CrowdStrike, ServiceNow and Synopsys. Big software companies could further consolidate their markets through their access to large data sets. Third, there can be no AI gold rush without the necessary picks

and shovels, which boosted leading-edge semiconductor companies. Last year the exposure to semi's was doubled after the sell-off, which benefitted the fund this year. In the latter months of the half year, some profits were taken on outsized AI beneficiaries and re-invested in companies that are insulated from AI disruption or see an evolving market perception.

This AI-fueled IT rally is in stark contrast with the performance of some other sectors, like healthcare. Although Health Care is considered as a defensive part of the portfolio, and is typically insulated from economic shocks, the exposure to life sciences companies didn't pay off. These companies suffered negative investor sentiment as they faced several profit warnings in a tough funding environment for biotech companies.

During the first 6 months, we bought 11 new stocks, and sold 17. We added some less discovered mid-cap names, like Paragon 28, Topicus and Nordic Semi, but also some large cap names like Airbnb, London Stock Exchange and Roper.

10.1.6. Future policy

We will not deviate from our strategy to invest in disruptive and innovative companies. We have therefore identified 7 major themes we invest in: Nanotechnology, Ecology, Wellness, Generation Z, E-Society, Manufacturing 4.0 and Security. Hence, our name, NEWGEMS. With any investment decision, we keep in mind a certain barbell approach between on the one hand, higher growth, relatively expensive and more risky names and on the other hand low(er) growth, less expensive and relatively more defensive names. Additionally, we integrate sustainable ESG KPI's (related to each theme) into our investment process as we are convinced that ESG risks and opportunities should be an integral part of a fundamental process.

10.1.7. Synthetic risk indicator

The synthetic risk indicator give an indication of the risk associated with investing in a sub-fund. It places this risk on a scale ranging from one (lowest risk) to seven (highest risk).

Risk and reward profile : 4

10.7. CHANGES IN THE COMPOSITION OF THE ASSETS IN EUR

	1st semester	2nd semester	Total
Purchases	307,918,775.66		307,918,775.66
Sales	368,268,638.75		368,268,638.75
Total 1	676,187,414.41		676,187,414.41
Subscriptions	178,008,178.37		178,008,178.37
Redemptions	227,097,038.60		227,097,038.60
Total 2	405,105,216.97		405,105,216.97
Reference average of the total net asset	1,224,527,557.26		1,224,527,557.26
Rotation Percentage	22.14%		22.14%

The rotation rate gives the annual average of the transactions. A figure close to 0% shows that the transactions relating to the securities or the assets with the exception of deposits and liquid assets during a given period, were done exclusively in function of the subscriptions and redemptions. A negative percentage indicates that the subscriptions and redemptions give rise to only few or, as the case may be, no transactions in the portfolio.

A detailed list of the transactions carried out during the financial year can be consulted, free of charge, at Banque Degroof Petercam S.A with its registered office at Rue de l'Industrie 44 - B-1040 Brussels which provides the financial services.

On the date of publication of this report, the net asset value per share is published on the following websites: www.dpamfunds.com and www.beama.be. This information is also available at the counters of the financial services department.

10.9. PERFORMANCES

Figures reflect past performance and are not an indicator of future performance. These figures do not include any restructuring.

Returns are determined at the end of the financial year (from July 1, 2022 to June 30, 2023).

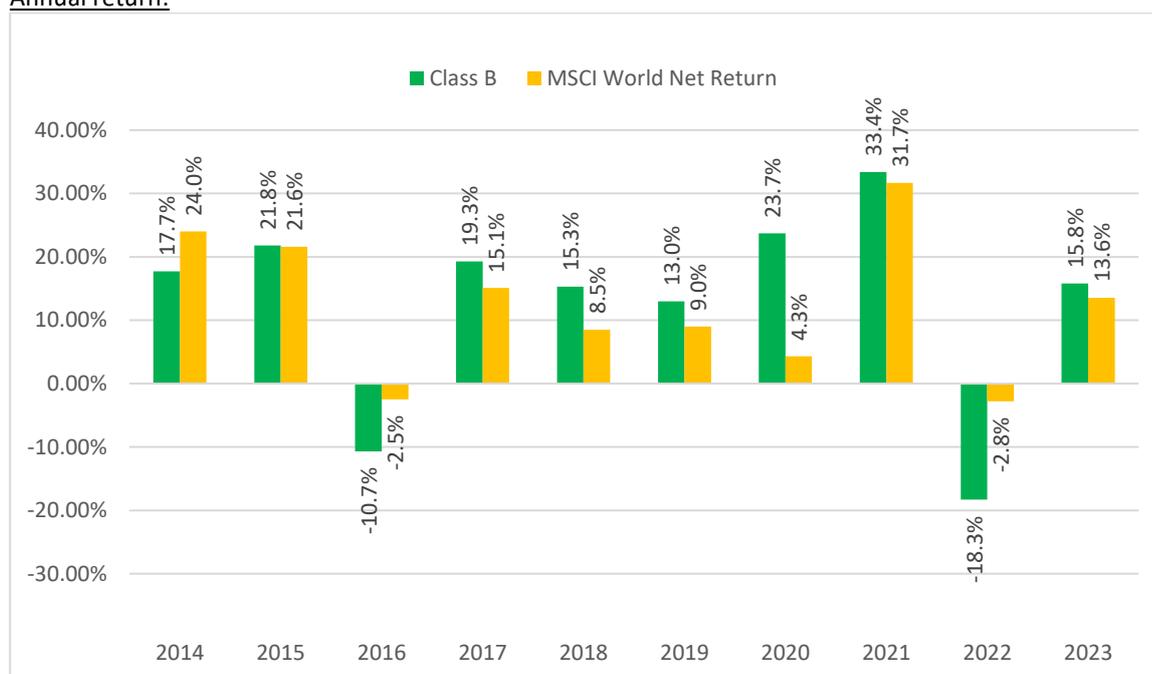

The annual return is defined as the absolute return earned over a year. For the semi-annual report, the accounting year is 12-month period preceding the end of the half-year.

The performance of accumulation units is calculated in a similar way to distribution units. Only the performance (in the form of bar charts) of class B shares is shown in this report. The performance of other share classes may differ, in particular as a result of charges specific to each class (management fees, currency hedging fees, subscription taxes, etc.). Information on the past performance of all share classes is published on the www.dpamfunds.com website. («Overview» tab).

Bar chart showing annual returns of the last 10 years (in % and calculated in EUR) as of 30 June 2023:

Class B

Annual return:

This is an actively managed sub-fund, which means that the portfolio manager does not aim to replicate the performance of a benchmark. No benchmarks are used in the management of the sub-fund. The benchmark is used to compare performance.

Table showing historical benchmark performance (actuarial returns):

The sub-fund uses the following index as a benchmark: MSCI World Net Return

	Average cumulated returns				Since	
	1 year	3 year	5 year	10 year	Year	Value
MSCI World Net Return	13.56 % (in EUR)	13.27 % (in EUR)	10.56 % (in EUR)	11.74% (in EUR)	02/10/2006	8.45 % (in EUR)

Class A

Fee sharing

As at 30 June 2023, 36,54% of the remuneration due to the Fund Manager was retroceded to some other distributors, third parties and the Banque Degroof Petercam or one of its subsidiaries. The third parties are either end clients with a retrocession agreement, or institutional clients under discretionary management with a management agreement. Bank Degroof Petercam or one of its subsidiaries are distributors in the same way as external distributors.

10.11.2. Valuation of financial instruments

Bonds and other debt securities as well as money market instruments in the portfolio were valued at their average price. The valuations have not been adjusted to approximate bid prices, as the difference between bid and ask prices changed significantly over the period, both over time and depending on the nature of the security.

10.11.3. Transparency of the securities financing transactions and of reuse

In accordance with Article 13 and Section A of the Annex to Regulation EU 2015/2365 (hereinafter the Regulation), the Sicav must inform investors of its use of securities financing transactions and total return swaps in the annual report and the half-yearly report.

11. INFORMATION ABOUT THE SUBFUND DPAM B EQUITIES SUSTAINABLE FOOD TRENDS
--

11.1. MANAGEMENT REPORT

11.1.1. Launch date of the sub-fund and subscription price of the shares

Date of initial subscription: 17/12/2007

Initial subscription price: EUR 100.00

11.1.2. Stock exchange listing

The sub-fund's shares are not listed on the stock market.

11.1.3. Aim and main outlines of the investment policy

Objective

The objective of this sub-fund is to provide investors with exposure to equities and/or equity-equivalent securities issued by companies that are active, directly or indirectly, in the food value chains in the broad sense of the term and in related or analogous sectors.

The sub-fund uses a rigorous ESG methodology and strict exclusions in order not to undermine other environmental and social objectives and to ensure the required good governance practices.

This is an actively managed sub-fund.

No benchmarks are used in the management of the sub-fund. Quantitative information from a broader market can be used for risk management and evaluation by the manager.

No formal guarantee has been given either to the sub-fund or to its investors.

Investment policy

The investments of this sub-fund mainly consist, without geographical limits, of shares or securities representing the share capital of companies that are active, directly or indirectly, in the agri-food value chains in the broad sense of the term and in related or analogous sectors. These agri-food value chains range from the production of food, including products and services that contribute to the production of food, to the sale of food products to the consumer. Companies whose activities such as storage, transport, packaging, processing etc., add value to food value chains, fall within the scope of the investment universe. Related sectors include, but are not limited to, plantations, storage, transport, packaging or agricultural businesses in general.

Until 31/12/2022, the sub-fund had an environmental and social objective within the meaning of Article 9 of the SFDR 2019/2088 Regulation.

This sub-fund has been reclassified from article 9 to article 8 under the SFDR 2019/2088 regulations with effect from 01/01/2023.

The selection of securities is based on economic and financial analyses as well as a rigorous methodology of exclusions, integration of ESG factors, active shareholding and engagement with companies.

All other securities giving access to the capital of these companies shall be treated as equivalent to these investments.

The sub-fund invests at least two thirds of its total assets in these investments.

The sub-fund may also hold liquid assets on a secondary or temporary basis in the form of current accounts, deposits or securities.

The sub-fund invests a maximum of 10% of its assets in open-ended undertakings for collective investment.

The sub-fund may invest in units of another UCITS or another fund managed directly or indirectly by DPAM or by a company with which DPAM is linked by common management or control or by a direct or indirect holding of more than 10% of the capital or votes. No issue or redemption fees for target funds or management fees may be debited from the SICAV's assets where such investments have been made.

11.1.4. Index and benchmark

No benchmarks are used in the management of the sub-fund.

11.1.5. Policy followed during the year

The fund invests globally in companies active in the agriculture/food chain with a focus on companies that contribute to a more sustainable food production. The fund remains diversified between the different segments.

During the semester we added new positions in Treatt and Bellring Brands while exiting SCG Packaging. Treatt has its origins in citrus products but is now focused on natural extracts targeting mainly the beverage market and supplying flavors & aroma's (citrus, fruit, herbs, ...). Bellring Brands focuses on the healthy food, offering both ready-to-drink protein shakes (Premier Protein) and protein powders (Dymatize) and benefits from a strong commercial momentum.

During the semester, best performers were Colruyt, Sao Martinho, Sovos Brands while Leroy Seafood, Corbion and OCI were the largest decliners.

11.1.6. Future policy

Food prices have declined as markets have largely stopped worrying about the impact of the war in Ukraine. However, climate in general and a likely El Nino effect, could have a material impact on crop yields. The fund continues to invest in companies that contribute to a lower impact of the food value chain on the environment and improve the quality of the food.

11.1.7. Synthetic risk indicator

The synthetic risk indicator give an indication of the risk associated with investing in a sub-fund. It places this risk on a scale ranging from one (lowest risk) to seven (highest risk).

Risk and reward profile : 4

These allocations of assets were established on basis of data (gross) used by the entity responsible for the administration and bookkeeping and do not reflect inevitably the economic analysis which directed the assets selection.

11.7. CHANGES IN THE COMPOSITION OF THE ASSETS IN EUR

	1st semester	2nd semester	Total
Purchases	4,286,988.86		4,286,988.86
Sales	26,228,086.80		26,228,086.80
Total 1	30,515,075.66		30,515,075.66
Subscriptions	24,135,865.49		24,135,865.49
Redemptions	47,597,332.66		47,597,332.66
Total 2	71,733,198.15		71,733,198.15
Reference average of the total net asset	145,561,497.78		145,561,497.78
Rotation Percentage	-28.32%		-28.32%

The rotation rate gives the annual average of the transactions. A figure close to 0% shows that the transactions relating to the securities or the assets with the exception of deposits and liquid assets during a given period, were done exclusively in function of the subscriptions and redemptions. A negative percentage indicates that the subscriptions and redemptions give rise to only few or, as the case may be, no transactions in the portfolio.

A detailed list of the transactions carried out during the financial year can be consulted, free of charge, at Banque Degroof Petercam S.A with its registered office at Rue de l'Industrie 44 - B-1040 Brussels which provides the financial services.

11.9. PERFORMANCES

Figures reflect past performance and are not an indicator of future performance. These figures do not include any restructuring.

Returns are determined at the end of the financial year (from July 1, 2022 to June 30, 2023).

The annual return is defined as the absolute return earned over a year. For the semi-annual report, the accounting year is 12-month period preceding the end of the half-year.

The performance of accumulation units is calculated in a similar way to distribution units. Only the performance (in the form of bar charts) of class B shares is shown in this report. The performance of other share classes may differ, in particular as a result of charges specific to each class (management fees, currency hedging fees, subscription taxes, etc.). Information on the past performance of all share classes is published on the www.dpamfunds.com website («Overview» tab).

Bar chart showing annual returns of the last 10 years (in % and calculated in EUR) as of 30 June 2023:

Class B

Annual return:

This is an actively managed sub-fund, which means that the portfolio manager does not aim to replicate the performance of a benchmark. No benchmarks are used in the management of the sub-fund. No benchmarks are used in the management of the sub-fund.

Fee sharing

As at 30 June 2023, 27,68% of the remuneration due to the Fund Manager was retroceded to some other distributors, third parties and the Banque Degroof Petercam or one of its subsidiaries. The third parties are either end clients with a retrocession agreement, or institutional clients under discretionary management with a management agreement. Bank Degroof Petercam or one of its subsidiaries are distributors in the same way as external distributors.

11.11.2. Valuation of financial instruments

Bonds and other debt securities as well as money market instruments in the portfolio were valued at their average price. The valuations have not been adjusted to approximate bid prices, as the difference between bid and ask prices changed significantly over the period, both over time and depending on the nature of the security.

11.11.3. Transparency of the securities financing transactions and of reuse

In accordance with Article 13 and Section A of the Annex to Regulation EU 2015/2365 (hereinafter the Regulation), the Sicav must inform investors of its use of securities financing transactions and total return swaps in the annual report and the half-yearly report.

12. INFORMATION ABOUT THE SUBFUND DPAM B BONDS EUR IG

12.1. MANAGEMENT REPORT

12.1.1. Launch date of the sub-fund and subscription price of the shares

Date of initial subscription: 30/06/2010

Initial subscription price: EUR 50.00

12.1.2. Stock exchange listing

The sub-fund's shares are not listed on the stock market.

12.1.3. Aim and main outlines of the investment policy

Objective

The objective of this sub-fund is to offer shareholders exposure to the bond market.

The portfolio of the sub-fund consists essentially of short-, medium- and long-term instruments such as bonds and other debt securities or equivalent securities denominated in EUR, at fixed or floating rates, offering periodic or capitalized income and issued or guaranteed by Member States of the European Union.

The portfolio may also include bonds and other debt securities or equivalent securities issued by other public authorities, companies or private issuers.

The issuers of the instruments in which the portfolio is invested must have a minimum rating corresponding to Investment grade¹⁷ with each ratings agency (including Standards & Poor's, Moody's and Fitch) proposing the monitoring of the issuer.

This is an actively managed sub-fund, which means that the portfolio manager does not aim to replicate the performance of a benchmark.

Shareholders of the sub-fund have no capital protection or guarantee.

* Investment Grade: is an interpretation of the rating of the bond issuer in terms of the financial risks. Rating agencies each use their own scale to evaluate the notion of risk. Investment grade ratings are situated between AAA and BBB according to the Standard & Poor's and Fitch scales and between Aaa and Baa3 according to the Moody's scale.

Investment policy

The sub-fund invests a maximum of 10% of its assets in open-ended undertakings for collective investment.

The sub-fund promotes environmental and social characteristics within the meaning of Article 8 of SFDR Regulation 2019/2088.

The sub-fund may hold liquid assets on a secondary or temporary basis in the form of current accounts, deposits or securities and in the form of undertakings for collective investment.

As a result of an exemption granted by the Autorité des Services et Marchés Financiers, the sub-fund may invest up to 100% of its assets in the various issues of transferable securities and money market instruments issued or guaranteed by a Member State of the European Economic Area which has adopted the euro as its currency (listed below^(*)) and by its regional public bodies. These undertakings for collective investment must hold transferable

securities and money market instruments belonging to at least six different issues, and transferable securities and money market instruments belonging to a single issue must not exceed 30% of the total value of their assets.

(*) Belgium, Germany, Finland, France, Greece, Luxembourg, Ireland, Italy, Netherlands, Austria, Portugal, Spain, Slovenia, Cyprus, Malta, Slovakia, Estonia.

12.1.4. Index and benchmark

JPM EMU Government Investment Grade Total Return

The sub-fund uses the following index as a benchmark: JPM EMU Government Investment Grade Total Return.

This index is a bond index representing bonds issued by the governments of European countries where the euro is the official currency, rated "investment grade" by each of the three major rating agencies (Standard & Poor's, Moody's and Fitch). Performance is calculated by reinvesting the coupons paid by the debt securities making up the index.

This is an actively managed sub-fund, which means that the portfolio manager does not aim to replicate the performance of a benchmark. The benchmark is used to compare performance.

The selection and weighting of assets in the sub-fund's portfolio may differ significantly from the composition of the benchmark.

The benchmark is not aligned with the promotion of the environmental and social characteristics of the sub-fund. Please refer to the investment strategy above for an explanation of how the sub-fund promotes environmental and social characteristics.

The possible composition and the value of the benchmark can be found on the website www.dpamfunds.com.

12.1.5. Policy followed during the year

The first months of the year were characterized by relatively range-bound moves in both bond yields as in spreads. In line with this, we have been altering our duration stance between a significant short around -10% and a neutral stance on a portfolio level versus the benchmark. This was appropriate as we believed that the combination of uncomfortably high inflation and a decent real growth situation would continue pushing interest rates higher, but with elevated volatility.

Also, at the start of the year we identified some risks to the market's expectation of a quick reversal of inflation towards the ECB's target. If these risks would realize themselves, it would push inflation back up again without ever reaching the 2% target.

The first risk concerned the observation that global financial conditions were only in slight restrictive territory for a limited time. As such the transmission of monetary policy through these financial conditions to the real economy might be too limited. Secondly, the decrease of energy prices and a more confident consumer could lead to new spending thereby supporting the real economy through both growth and inflation. And finally, as China decided to reopen its economy following years of Covid lockdowns, for the first time it might become an exporter of inflation instead of being an exporter of deflation.

However, by the end of June most of these risks have still not realized or only realized to a limited extent. And additionally, the horizon for them to materialize has become very small.

Since May, we have become more worried about the real growth outlook. The main trigger for this is the observation that in the manufacturing sector, there is no demand for consumer goods. This has now been ongoing for several months and is getting worse. We believe there's a non-dismissible probability that this will spill over to the services sector which is in line with previous episodes of economic slowdown. As the services sector is responsible for most employment, this could quickly lead to a negative spiral of negative services growth and increasing unemployment. Consequently, since the end of May we have been adding duration in the fund versus the benchmark and are comfortable with a long duration position around 5% versus the benchmark. We have continued being positioned for

a steepening of interest rate curves as this typically happens when we are close to the terminal policy rate. This unfortunately did not work yet as markets continued pricing a higher terminal policy rate and the ECB continued hiking.

We continue having a high conviction that markets will eventually adjust, driven by a clear deterioration in the growth picture or by another potential systemic market event such as the banking crisis in March this year when curves almost fully un-inverted in a few days' time.

Over the first half of the year, we have kept our overweight exposure to peripheral countries intact. Except in Italy as this is a good hedge against our views being incorrect. This conviction added good performance to the fund.

12.1.6. Future policy

2023 was a year where upside inflation risks were more important than growth risks, both positive and negative. However, we believe that the second half of the year might be the opposite.

As the economic cycle is turning, it is appropriate to continue with an overweight duration stance in the fund versus the benchmark. We will also continue adding duration on rates weakness, or when the economic situation would continue deteriorating.

To be fully positioned for this expected type of environment, this duration overweight should be combined with a curve steepening bias. Once it becomes clear the real growth situation is significantly weakening or we witness another systemic market event, markets will quickly price out any further policy rate increases and start pricing in rate cuts thereby significantly steepening the yield curve.

However, we don't believe inflation will over the medium term move back towards the ECB's target and hence still see value in shorter-term inflation-linked bonds as we want to continue profiting from an attractive inflation coupon accrual versus what is currently priced in. As typically real rates underperform nominal rates when we move towards a slowdown or a recession, we don't want to have exposure to longer maturity inflation linked bonds' duration in a nominal rates portfolio.

It remains appropriate to have an overweight position to peripheral countries, but on a very selective basis. The ECB has shown that it has a high amount of flexibility and creativity to create new tools to avoid any fragmentation of the Eurozone that would impede the transmission of monetary policy. Over the past years they have clearly shown that commitment through e.g., the Pandemic Emergency Purchase Program (PEPP) and Transmission Protection Instrument (TPI). The markets clearly have full confidence in this as the large increase in interest rates over the past 18 months was only met by a limited amount of spread widening, which is a very different situation than in the past.

12.1.7. Synthetic risk indicator

The synthetic risk indicator give an indication of the risk associated with investing in a sub-fund. It places this risk on a scale ranging from one (lowest risk) to seven (highest risk).

Risk and reward profile : 3

FINLAND	2.25%
SLOVENIA (REPUBLIC)	2.07%
SLOVAKIA (SLOVAK REPUBLIC)	1.73%
POLAND (REPUBLIC)	0.67%
Total	10

These allocations of assets were established on basis of data (gross) used by the entity responsible for the administration and bookkeeping and do not reflect inevitably the economic analysis which directed the assets selection.

12.6. ECONOMIC ALLOCATION OF INVESTMENTS

By sector	% Portfolio
STATES	86.39%
BANKS	7.21%
PROVINCE	3.01%
EUROPEAN ORGANIZATIONS	2.62%
COMMERCIAL & PUBLIC SERVICES	0.63%
ROAD VEHICLES	0.14%
TOTAL	10

These allocations of assets were established on basis of data (gross) used by the entity responsible for the administration and bookkeeping and do not reflect inevitably the economic analysis which directed the assets selection.

12.7. CHANGES IN THE COMPOSITION OF THE ASSETS IN EUR

	1st semester	2nd semester	Total
Purchases	71,393,786.84		71,393,786.84
Sales	7,878,092.59		7,878,092.59
Total 1	79,271,879.43		79,271,879.43
Subscriptions	73,923,367.26		73,923,367.26
Redemptions	10,899,894.78		10,899,894.78
Total 2	84,823,262.04		84,823,262.04
Reference average of the total net asset	76,004,203.91		76,004,203.91
Rotation Percentage	-7.30%		-7.30%

The rotation rate gives the annual average of the transactions. A figure close to 0% shows that the transactions relating to the securities or the assets with the exception of deposits and liquid assets during a given period, were done exclusively in function of the subscriptions and redemptions. A negative percentage indicates that the subscriptions and redemptions give rise to only few or, as the case may be, no transactions in the portfolio.

A detailed list of the transactions carried out during the financial year can be consulted, free of charge, at Banque Degroof Petercam S.A with its registered office at Rue de l'Industrie 44 - B-1040 Brussels which provides the financial services.

12.10. PERFORMANCES

Figures reflect past performance and are not an indicator of future performance. These figures do not include any restructuring.

Returns are determined at the end of the financial year. (from July 1, 2022 to June 30, 2023).

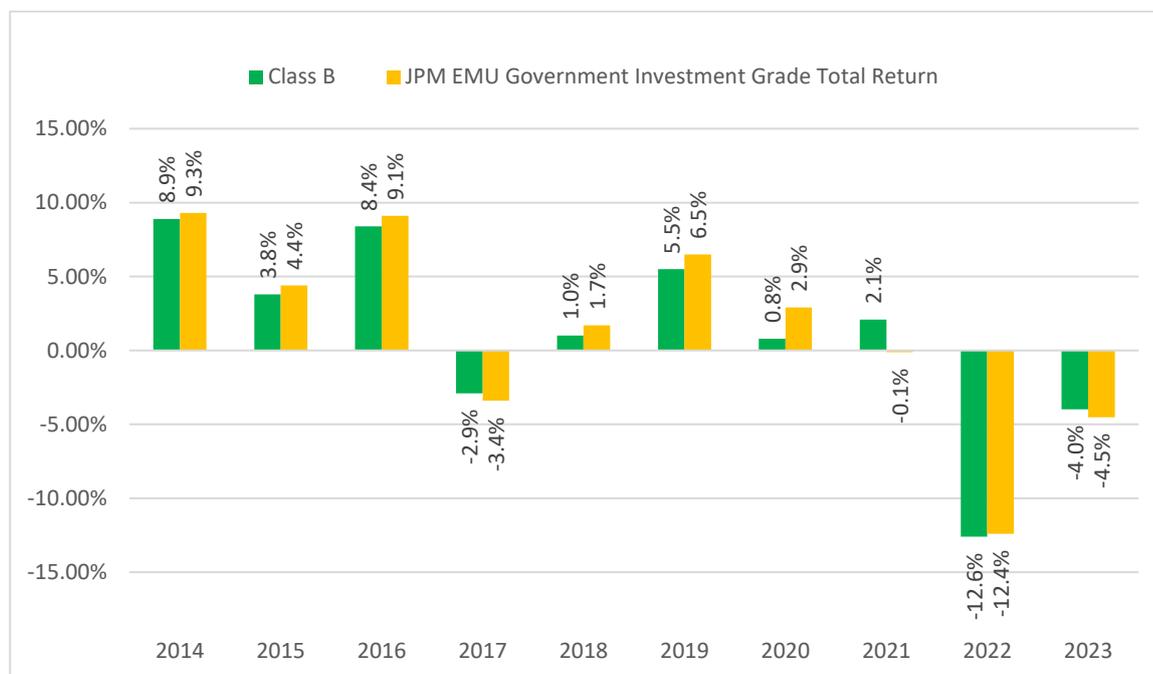

The annual return is defined as the absolute return earned over a year. For the semi-annual report, the accounting year is 12-month period preceding the end of the half-year.

The performance of accumulation units is calculated in a similar way to distribution units. Only the performance (in the form of bar charts) of class B shares is shown in this report. The performance of other share classes may differ, in particular as a result of charges specific to each class (management fees, currency hedging fees, subscription taxes, etc.). Information on the past performance of all share classes is published on the www.dpamfunds.com website. («Overview» tab).

Bar chart showing annual returns of the last 10 years (in % and calculated in EUR) as of 30 June 2023:

Class B

Annual return:

This is an actively managed sub-fund, which means that the portfolio manager does not aim to replicate the performance of a benchmark. No benchmarks are used in the management of the sub-fund. The benchmark is used to compare performance.

Table showing historical benchmark performance (actuarial returns):

The sub-fund uses the following index as a benchmark: JPM EMU Government Investment Grade Total Return

	Average cumulated returns				Since	
	1 year	3 year	5 year	10 year	Year	Value
JPM EMU Government Investment Grade Total Return	-4.51 % (in EUR)	-5.80 % (in EUR)	-1.75 % (in EUR)	1.14% (in EUR)	30/06/2010	1.85 % (in EUR)

Class A

Table showing historical performance (actuarial returns):

	Average cumulated returns				Since	
	1 year	3 year	5 year	10 year	Year	Value
Class A	-3.92 % (in EUR)	-4.96 % (in EUR)	-1.94 % (in EUR)	0.85 % (in EUR)	01/07/2010	1.64 % (in EUR)

Class B

Table showing historical performance (actuarial returns):

	Average cumulated returns				Since	
	1 year	3 year	5 year	10 year	Year	Value
Class B	-3.98 % (in EUR)	-5.01 % (in EUR)	-1.97 % (in EUR)	0.84 % (in EUR)	01/07/2010	1.64 % (in EUR)

Class F

Table showing historical performance (actuarial returns):

	Average cumulated returns				Since	
	1 year	3 year	5 year	10 year	Year	Value
Class F	-3.72 % (in EUR)	-4.73 % (in EUR)	-1.69 % (in EUR)	1.12 % (in EUR)	01/07/2010	1.90 % (in EUR)

Class M

Table showing historical performance (actuarial returns):

	Average cumulated returns				Since	
	1 year	3 year	5 year	10 year	Year	Value
Class M	-3.76 % (in EUR)	-4.79 % (in EUR)	-1.75 % (in EUR)	(in EUR)	28/12/2017	-1.71 % (in EUR)

Class P

Fee sharing

As at 30 June 2023, 1,48% of the remuneration due to the Fund Manager was retroceded to some other distributors, third parties and the Banque Degroof Petercam or one of its subsidiaries. The third parties are either end clients with a retrocession agreement, or institutional clients under discretionary management with a management agreement. Bank Degroof Petercam or one of its subsidiaries are distributors in the same way as external distributors.

12.12. NOTES TO THE FINANCIAL STATEMENTS AND OTHER INFORMATION

12.12.1. Gross dividends paid in the financial year

2019	class A 0,65 EUR
	class M 0,68 EUR
2020	class A 0,62 EUR
	class M 0,74 EUR
2021	class A 0,80 EUR
	class M 0,81 EUR

12.12.2. Valuation of financial instruments

Bonds and other debt securities as well as money market instruments in the portfolio were valued at their average price. The valuations have not been adjusted to approximate bid prices, as the difference between bid and ask prices changed significantly over the period, both over time and depending on the nature of the security.

12.12.3. Transparency of the securities financing transactions and of reuse

In accordance with Article 13 and Section A of the Annex to Regulation EU 2015/2365 (hereinafter the Regulation), the Sicav must inform investors of its use of securities financing transactions and total return swaps in the annual report and the half-yearly report.

13. INFORMATION ABOUT THE SUBFUND DPAM B REAL ESTATE EUROPE DIVIDEND SUSTAINABLE

13.1. MANAGEMENT REPORT

13.1.1. Launch date of the sub-fund and subscription price of the shares

Date of initial subscription: 28/12/2010

Initial subscription: EUR 100.00

13.1.2. Stock exchange listing

The sub-fund's shares are not listed on the stock market.

13.1.3. Aim and main outlines of the investment policy

Objective

The objective of this sub-fund is to offer shareholders the highest long-term return through a balanced management policy by investing its assets in securities representing the real estate sector in the broad sense of the term in Europe, mainly with higher distributable income than the average of the investment universe. These securities include, but are not limited to, shares of Real Estate Investment Trusts (REITs), real estate certificates, real estate companies and companies active in the promotion and development of real estate, as well as shares of real estate debt investment companies, etc. These companies are selected on the basis of compliance with environmental, social and governance (ESG) criteria.

The sub-fund uses a rigorous ESG methodology and strict exclusions in order not to undermine other environmental and social objectives and to ensure the required good governance practices.

50% of the net assets must be composed of securities with a prospective yield over 3 years higher than the average of the investment universe.

The average is defined as being the dividend yield of the FTSE EPRA/NAREIT Developed Europe index.

This is an actively managed sub-fund, which means that the portfolio manager does not aim to replicate the performance of a benchmark.

No formal guarantee has been given either to the sub-fund or to its investors.

Investment policy

The sub-fund promotes environmental and social characteristics within the meaning of Article 8 of SFDR Regulation 2019/2088.

13.1.4. Index and benchmark

FTSE EPRA/NAREIT Developed Europe Net Return

The sub-fund uses the following index as a benchmark: FTSE EPRA/NAREIT Developed Europe Net Return
This index is representative of the market for listed real estate companies in developed countries (as defined in the index methodology) in Europe. The performance of this index is calculated by reinvesting net dividends (Net Return). FTSE International Limited is registered with the European Securities and Markets Authority (ESMA).
It is an actively managed sub-fund, which means that the portfolio manager does not aim to replicate the performance of a benchmark. The benchmark is used as a means of comparing performance.

The selection and weighting of assets in the sub-fund's portfolio may differ significantly from the composition of the benchmark.

The benchmark is not aligned with the promotion of the environmental and social characteristics of the sub-fund. Please refer to the investment strategy above for an explanation of how the sub-fund promotes environmental and social characteristics.

The possible composition and the value of the benchmark can be found on the website www.dpamfunds.com.

13.1.5. Policy followed during the year

The first 6 months of 2023 were characterized by the higher for longer interest rate environment. This new environment logically spurred a move upwards in property yields. Decreasing property values have only been partly cushioned by increasing rent levels. Property companies therefore switched their strategy from a growth mode still in early 2022 to a deleveraging mode in 2023. This switch can be realised through asset disposals, dividend cuts or equity injections. None of these actions are popular, albeit necessary. The lowly yielding and/or the highly levered companies were and are the most vulnerable companies in this new landscape. For once in a long time, the higher yielding retail subsector resisted much better than the logistics and residential subsectors.

In this new macroeconomic context, the fund continued to increase its exposure to the retail subsector over the first half of this year, predominantly by investing more in lower risk companies with lower occupancy cost ratios (OCRs) and stronger balance sheets, such as Mercialys and Klepierre. The fund also increased its exposure to residential. On the other hand, the fund continued to reduce its exposure to high levered companies where it is highly underweight in companies like SBB or Aroundtown.

13.1.6. Future policy

For the second half of this year, we expect a continuation of the current volatile environment. More visibility on the rate hike trajectory would allow investors to have a better view on future asset valuations and the cost of debt. The fund will remain defensive as it is positioned most of the time.

Our strategy going forward will depend on the prospects for the companies in this volatile environment. We will continue to maintain a balanced portfolio. On the hand, we opt for companies that have strong balance sheets, strong prospects and good visibility. These companies come at a price, but we appreciate their stability. On the other hand, we also opt for companies that are challenged but of which we believe that the management should be able to regain better earnings and visibility going forward. These companies trade at a sizeable discount, and therefore offer upside to the share price. One subsector to which we could further increase our exposure if interest rates stabilize, is residential. We remain prudent on offices and constructive on logistics.

The investment themes for the second half of 2023 are:

- Companies with strong balance sheets that hold quality assets, at the expense of companies with too much leverage;
- Companies evolving in a subsector where there is a supply shortage and thus higher rents rather than in a subsector where there is oversupply and thus lower rent growth;
- Companies with a strong ESG profile;
- Focus on total return, i.e.,
 - a combination of sustainable dividends and capital appreciation stemming from rental growth;
- Focus on long leases and quality tenants that enjoy competitive advantages in order to strengthen the cash flows;
- In a highly volatile environment, benefit from excessive market moves (rebuild positions in excessively penalized strong companies and vice versa)
- Companies clearly undervalued compared to industry peers.

13.1.7. Synthetic risk indicator

The synthetic risk indicator give an indication of the risk associated with investing in a sub-fund. It places this risk on a scale ranging from one (lowest risk) to seven (highest risk).

Risk and reward profile : 4

**13.5. MANAGEMENT FEE OF THE UNDERLYING FUNDS OF THE
SECURITIES PORTFOLIO**

Description	Management fee	Country of domiciliation
REAL ESTATE CREDIT INVESTMENT LTD E		Guernsey

13.6. GEOGRAPHIC ALLOCATION OF INVESTMENTS

By country	% Portfolio
FRANCE	28.82%
BELGIUM	21.00%
UNITED KINGDOM	15.43%
GERMANY (FEDERAL REPUBLIC)	13.47%
GUERNSEY	7.88%
NETHERLANDS	7.41%
SPAIN	2.64%
SWEDEN	1.76%
SWITZERLAND	0.74%
JERSEY	0.50%
IRELAND	0.35%
Total	10

These allocations of assets were established on basis of data (gross) used by the entity responsible for the administration and bookkeeping and do not reflect inevitably the economic analysis which directed the assets selection.

13.7. ECONOMIC ALLOCATION OF INVESTMENTS

By sector	% Portfolio
REAL ESTATE	88.71%
FINANCIAL SERVICES - HOLDINGS	7.20%
OTHER SERVICES	2.64%
UNIT TRUSTS, UCIT	1.45%
TOTAL	10

These allocations of assets were established on basis of data (gross) used by the entity responsible for the administration and bookkeeping and do not reflect inevitably the economic analysis which directed the assets selection.

13.8. CHANGES IN THE COMPOSITION OF THE ASSETS IN EUR

	1st semester	2nd semester	Total
Purchases	42,882,699.52		42,882,699.52
Sales	19,890,047.77		19,890,047.77
Total 1	62,772,747.29		62,772,747.29
Subscriptions	54,521,994.49		54,521,994.49
Redemptions	33,468,512.40		33,468,512.40
Total 2	87,990,506.89		87,990,506.89
Reference average of the total net asset	178,523,390.90		178,523,390.90
Rotation Percentage	-14.13%		-14.13%

The rotation rate gives the annual average of the transactions. A figure close to 0% shows that the transactions relating to the securities or the assets with the exception of deposits and liquid assets during a given period, were done exclusively in function of the subscriptions and redemptions. A negative percentage indicates that the subscriptions and redemptions give rise to only few or, as the case may be, no transactions in the portfolio.

A detailed list of the transactions carried out during the financial year can be consulted, free of charge, at Banque Degroof Petercam S.A with its registered office at Rue de l'Industrie 44 - B-1040 Brussels which provides the financial services.

13.10. PERFORMANCES

Figures reflect past performance and are not an indicator of future performance. These figures do not include any restructuring.

Returns are determined at the end of the financial year. (from July 1, 2022 to June 30, 2023).

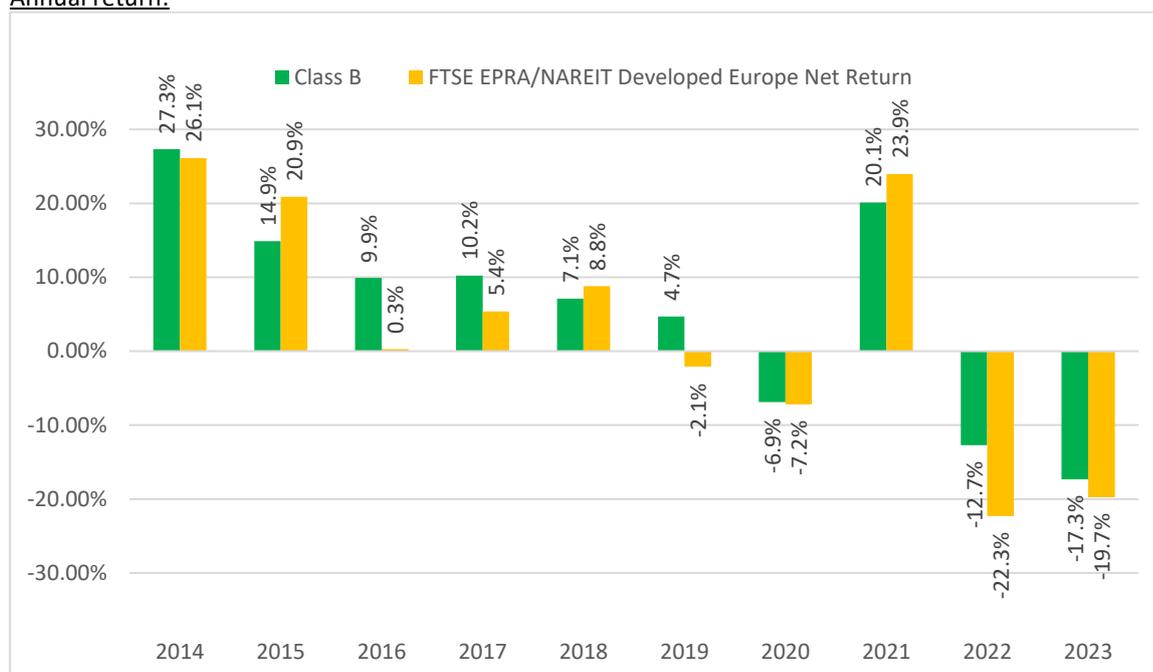

The annual return is defined as the absolute return earned over a year. For the semi-annual report, the accounting year is 12-month period preceding the end of the half-year.

The performance of accumulation units is calculated in a similar way to distribution units. Only the performance (in the form of bar charts) of class B shares is shown in this report. The performance of other share classes may differ, in particular as a result of charges specific to each class (management fees, currency hedging fees, subscription taxes, etc.). Information on the past performance of all share classes is published on the www.dpamfunds.com website. («Overview» tab).

Bar chart showing annual returns of the last 10 years (in % and calculated in EUR) as of 30 June 2023:

Class B

Annual return:

This is an actively managed sub-fund, which means that the portfolio manager does not aim to replicate the performance of a benchmark. No benchmarks are used in the management of the sub-fund. The benchmark is used to compare performance.

Table showing historical benchmark performance (actuarial returns):

The sub-fund uses the following index as a benchmark: FTSE EPRA/NAREIT Developed Europe Net Return

Fee sharing

As at 30 June 2023, 32,51% of the remuneration due to the Fund Manager was retroceded to some other distributors, third parties and the Banque Degroof Petercam or one of its subsidiaries. The third parties are either end clients with a retrocession agreement, or institutional clients under discretionary management with a management agreement. Bank Degroof Petercam or one of its subsidiaries are distributors in the same way as external distributors.

INFORMATION

13.12.1. Gross dividends paid in the financial year

2019	class A 2,36 EUR class E 4,63 EUR class V 3,89 EUR class M 3,84 EUR
2020	class E 1,15 EUR (Dividende intérimaire)
2021	class A 5,31 EUR class E 4,09 EUR class V 5,68 EUR class M 5,37 EUR

13.12.2. Valuation of financial instruments

Bonds and other debt securities as well as money market instruments in the portfolio were valued at their average price. The valuations have not been adjusted to approximate bid prices, as the difference between bid and ask prices changed significantly over the period, both over time and depending on the nature of the security.

13.12.3. Transparency of the securities financing transactions and of reuse

In accordance with Article 13 and Section A of the Annex to Regulation EU 2015/2365 (hereinafter the Regulation), the Sicav must inform investors of its use of securities financing transactions and total return swaps in the annual report and the half-yearly report.

14. INFORMATION ABOUT THE SUBFUND DPAM B EQUITIES DRAGONS SUSTAINABLE
--

14.1. MANAGEMENT REPORT

14.1.1. Launch date of the sub-fund and subscription price of the shares

Initial subscription period: from 30/11/2020 to 15/12/2020

Initial subscription price: EUR 100.00

14.1.2. Stock exchange listing

The sub-fund's shares are not listed on the stock market.

14.1.3. Aim and main outlines of the investment policy

Objective

The objective of this sub-fund is to offer investors exposure to equities and/or equity-equivalent securities issued by companies whose registered office is located in the Asia-Pacific region or which have a majority of their economic activities in the Asia-Pacific region*, and to all securities giving entitlement to the capital of these companies, selected on the basis of their compliance with environmental, social and governance (ESG) criteria.

The sub-fund uses a rigorous ESG methodology and strict exclusions in order not to undermine other environmental and social objectives and to ensure the required good governance practices.

This is an actively managed sub-fund, which means that the portfolio manager does not aim to replicate the performance of a benchmark.

No formal guarantee has been given either to the sub-fund or to its investors.

*Asia-Pacific or APAC is the part of the world located in or near the Western Pacific Ocean. Asia-Pacific includes East Asia, South Asia, Southeast Asia and Oceania.

Investment policy

The sub-fund principally invests in the equities and/or other securities giving access to so-called “companies of the future” located in the Asia-Pacific region.

These “companies of the future” are identified by the acronym DRAGONS for:

- Disruptive Technologies (artificial intelligence, robotics, computer-aided design software, etc.),
- Rising Middle Class (luxury, travel, retail chain, etc.),
- Ageing & Health (healthcare, healthy eating, animal health, etc.),
- Generation Z (social media, cell phones, game consoles, etc.),
- O² & Ecology (renewable energies, water management, energy efficiency, etc.),
- Nanotechnologies (biotechs, advanced materials, semiconductors, etc.),
- Security (physical security, cyber-security, etc.).

The sub-fund promotes environmental and social characteristics within the meaning of Article 8 of SFDR Regulation 2019/2088.

The sub-fund may hold liquid assets on a secondary or temporary basis in the form of current accounts, deposits or securities and in the form of undertakings for collective investment. The sub-fund invests a maximum of 10% of its assets in open-ended undertakings for collective investment.

The sub-fund may invest in units of another UCITS or another fund managed directly or indirectly by DPAM or by a company with which DPAM is linked by common management or control or by a direct or indirect holding of more than 10% of the capital or votes. No issue or redemption fees for target funds or management fees may be charged to the Fund's assets to the extent of such investments.

14.1.4. Index and benchmark

MSCI AC Asia Pacific Net Return

The sub-fund uses the following index as a benchmark: MSCI AC Asia Pacific Net Return

This index is representative of the large and mid-cap equity markets of 5 developed countries and 9 emerging countries (as defined by MSCI and mainly based on the country of incorporation and the country of primary listing of its securities) in the Asia-Pacific region. The performance of this index is calculated in reinvesting net dividends (Net Return).

MSCI Limited is registered with ESMA (European Securities and Markets Authority).

The benchmark is used to compare performance. The selection and weighting of assets in the sub-fund's portfolio may differ significantly from the composition of the benchmark.

The benchmark is not aligned with the promotion of the environmental and social characteristics of the sub-fund. Please refer to the investment strategy above for an explanation of how the sub-fund promotes environmental and social characteristics.

The possible composition and value of the benchmark can be found on the website www.dpamfunds.com.

14.1.5. Policy followed during the year

After a strong start, the fund achieved a modest positive return during the first half of the year. Enthusiasm around China's reopening post-pandemic was replaced by more realistic expectations of a gradual recovery. With over 29% of the fund in China and Hong Kong listed companies, performance was hurt by selling pressure across Health Care and Consumer, despite generally attractive valuations and improving fundamentals. Performance was helped by new Indian holdings, now around 14% of the fund, and some positions we added in Japan, Taiwan and South Korea. The fund's core IT investments performed well, as did holdings in Financials and Communication Services.

14.1.6. Future policy

DRAGONS' strategy remains focused on identifying future winners aligned with its seven key themes. We are continuing to diversify the fund in terms of market and industry. Exciting companies across India and ASEAN have recently been added across Industrials, IT and Health Care. While a US recession looms and there may be signs of overenthusiasm in Japan, the outlook for Asian economies is positive and valuations are reasonable. Having been sold down, China offers attractive returns with the market now at 11x earnings and a free cashflow yield of over 7%. Despite global uncertainty, we remain optimistic for continued recovery in the second half of the year.

14.1.7. Synthetic risk indicator

The synthetic risk indicator give an indication of the risk associated with investing in a sub-fund. It places this risk on a scale ranging from one (lowest risk) to seven (highest risk).

Risk and reward profile : 4

14.7. CHANGES IN THE COMPOSITION OF THE ASSETS IN EUR

	1st semester	2nd semester	Total
Purchases	121,786,030.02		121,786,030.02
Sales	68,147,024.62		68,147,024.62
Total 1	189,933,054.64		189,933,054.64
Subscriptions	70,375,879.30		70,375,879.30
Redemptions	10,616,166.44		10,616,166.44
Total 2	80,992,045.74		80,992,045.74
Reference average of the total net asset	267,210,857.30		267,210,857.30
Rotation Percentage	40.77%		40.77%

The rotation rate gives the annual average of the transactions. A figure close to 0% shows that the transactions relating to the securities or the assets with the exception of deposits and liquid assets during a given period, were done exclusively in function of the subscriptions and redemptions. A negative percentage indicates that the subscriptions and redemptions give rise to only few or, as the case may be, no transactions in the portfolio.

A detailed list of the transactions carried out during the financial year can be consulted, free of charge, at Banque Degroof Petercam S.A with its registered office at Rue de l'Industrie 44 - B-1040 Brussels which provides the financial services.

14.10. PERFORMANCES

Figures reflect past performance and are not an indicator of future performance. These figures do not include any restructuring.

Returns are determined at the end of the financial year. (from July 1, 2022 to June 30, 2023).

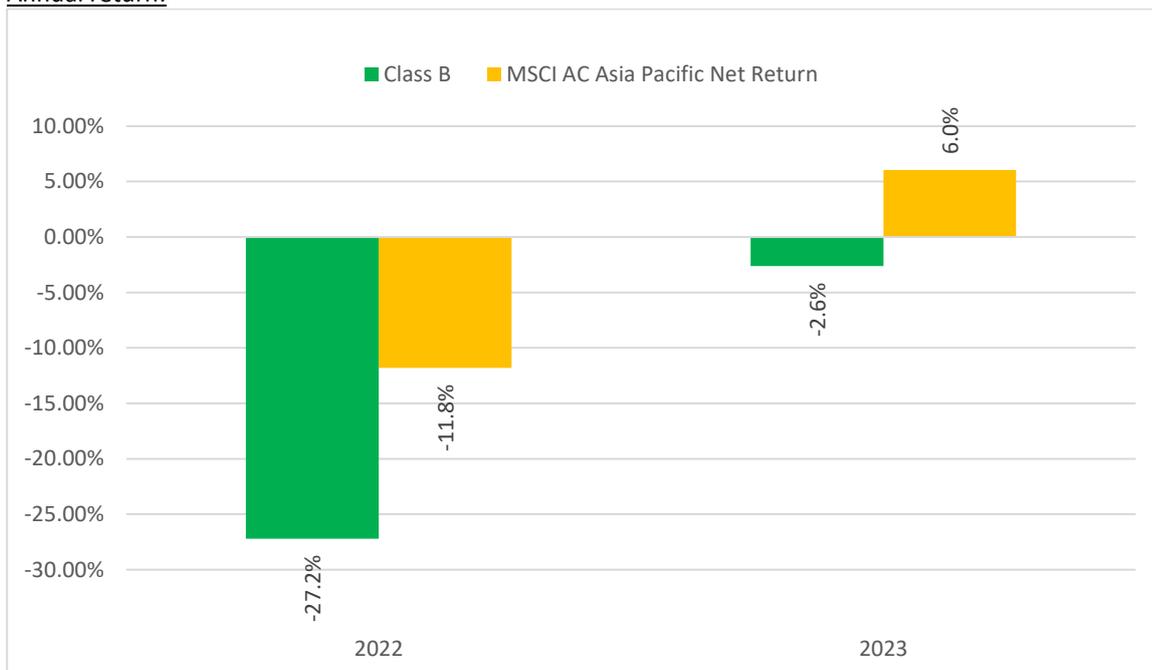

The annual return is defined as the absolute return earned over a year. For the semi-annual report, the accounting year is 12-month period preceding the end of the half-year.

The performance of accumulation units is calculated in a similar way to distribution units. Only the performance (in the form of bar charts) of class B shares is shown in this report. The performance of other share classes may differ, in particular as a result of charges specific to each class (management fees, currency hedging fees, subscription taxes, etc.). Information on the past performance of all share classes is published on the www.dpamfunds.com website. («Overview» tab).

Bar chart showing annual returns of the last 10 years (in % and calculated in EUR) as of 30 June 2023:

Class B

Annual return:

This is an actively managed sub-fund, which means that the portfolio manager does not aim to replicate the performance of a benchmark. No benchmarks are used in the management of the sub-fund. The benchmark is used to compare performance.

Table showing historical benchmark performance (actuarial returns):

The sub-fund uses the following index as a benchmark: MSCI AC Asia Pacific Net Return

Fee sharing

As at 30 June 2023, 27,26% of the remuneration due to the Fund Manager was retroceded to some other distributors, third parties and the Banque Degroof Petercam or one of its subsidiaries. The third parties are either end clients with a retrocession agreement, or institutional clients under discretionary management with a management agreement. Bank Degroof Petercam or one of its subsidiaries are distributors in the same way as external distributors.

14.12. NOTES TO THE FINANCIAL STATEMENTS AND OTHER INFORMATION

14.12.1. Investment restrictions and overruns

Between NAV dates 1/03/2023 and 3/03/2023, a regulatory investment compliance passive breach was open in the DPAM B Equities DRAGONS Sustainable subfund. Following the settlement of several INR/EUR spots with trade date and value date 01/03/2023 the cash account deposited at Banque Degroof Petercam Luxembourg was in overdraft of -2,707,605.29 EUR (-1.021% of the Sub-Fund's net assets). Cash transfers were made to close the breach.

Between NAV dates 13/04/2023 and 2/05/2023, a prospectus investment compliance active breach was open in the DPAM B Equities DRAGONS Sustainable subfund. Investments were made in PRUDENTIAL PLC (2378 HK Equity) while this instrument was not allowed at that time because the company was not incorporated in Asia. A new version of the fund's prospectus - which would also allow companies with a country of risk in Asia - was internally approved but at the time of the investments the new prospectus was not yet published which is necessary before any rules can be changed. The portfolio manager and risk department mistakenly already proceeded with the transactions before the publication of the new prospectus. As soon as the mistake came to light, the portfolio manager sold his exposure in the instrument.

14.12.2. Valuation of financial instruments

Bonds and other debt securities as well as money market instruments in the portfolio were valued at their average price. The valuations have not been adjusted to approximate bid prices, as the difference between bid and ask prices changed significantly over the period, both over time and depending on the nature of the security.

14.12.3. Transparency of the securities financing transactions and of reuse

In accordance with Article 13 and Section A of the Annex to Regulation EU 2015/2365 (hereinafter the Regulation), the Sicav must inform investors of its use of securities financing transactions and total return swaps in the annual report and the half-yearly report.

15. INFORMATION ABOUT THE SUBFUND DPAM B EQUITIES EUROLAND SUSTAINABLE

15.1. MANAGEMENT REPORT

15.1.1. Launch date of the sub-fund and subscription price of the shares

Initial subscription period: from 30 November 2020 to 15 December 2020.

Initial subscription: EUR 100.00.

15.1.2. Stock exchange listing

The sub-fund's shares are not listed on the stock market.

15.1.3. Aim and main outlines of the investment policy

Objective

The objective of this sub-fund is to enable shareholders to benefit from the growth of shares of European companies or other equivalent securities having their registered office in one of the Member States of the European Union, which use the euro as their national currency and that are selected on the basis of environmental, social and governance (ESG) criteria.

The sub-fund uses a rigorous ESG methodology and strict exclusions in order not to undermine other environmental and social objectives and to ensure the required good governance practices.

This is an actively managed sub-fund, which means that the portfolio manager does not aim to replicate the performance of a benchmark.

No formal guarantee has been given either to the subfund or to its investors.

Investment policy

To achieve this objective, the sub-fund invests mainly in shares of European companies or other equivalent securities, having their registered office in one of the Member States of the European Union, which use the euro as their national currency, and which meet certain environmental, social and governance (ESG) criteria.

Other companies that have a significant proportion of their assets, activities, profit centres or decision-making centres in the aforementioned countries are treated in the same way.

More specifically, at least two-thirds of the sub-fund's investments are invested in stocks of companies which have their registered office or which carry out their primary economic activity in one of the European Union Member States which use the Euro as their national currency and any securities giving entitlement to the capital of these companies.

The sub-fund promotes environmental and social characteristics within the meaning of Article 8 of SFDR Regulation 2019/2088.

The sub-fund may also hold liquid assets on a secondary or temporary basis in the form of current accounts, deposits or securities. The sub-fund invests a maximum of 10% of its assets in open-ended undertakings for collective investment.

15.1.4. Index and benchmark

The sub-fund uses the following index as its benchmark: MSCI EMU Net Return.

This index is representative of the large- and mid-cap equity market of developed countries (as defined by MSCI and mainly based on the country of incorporation and the country of primary listing of its securities) in the EMU zone.

The performance of this index is calculated by reinvesting net dividends (Net Return).

15.1.5. Policy followed during the year

In a context of receding fears of an all-out energy crisis in Europe and peaking of global inflation, the fund had a positive return over the first half. With the exception of Energy, all sectors and healthcare were up, especially IT, Consumer and Industrials. As markets priced out immediate deep recession fears on the back of higher gas inventories, lower quality, more leveraged stocks outperformed quality peers. The ongoing liquidity withdrawal from central banks continued to impact small and midcaps.

Within IT, semiconductor equipment manufacturers (ASML, ASMI, Besi) added to performance as medium term structural demand for their new technologies came to the forefront, outweighing shorter term concerns around the cycle. In Software SAP's cloud transition started to show positive results translating into good share price performance.

In Consumer Discretionary, better than expected demand for luxury goods (LVMH, Moncler, L'Oréal) and travel (Amadeus) contributed positively.

Within industrials ongoing demand from energy transition boosted the growth and performance of Schneider Electric while transportation stock Deutsche Post rebounded on receding recession fears after a tough 2022.

Positions in Energy and Healthcare had a negative to slightly negative impact. In the case of energy Neste Oyj was impacted by deteriorating supply demand dynamics. Healthcare holdings were impacted by a longer than anticipated destocking cycle in bioprocessing.

Some important changes to stock selection were made across several sectors, driven by market volatility and changes in conviction. In Financials the holding in Sampo was sold and reinvested in ASR Nederland, mainly on valuation grounds. In Consumer Discretionary a new position in Adidas was started at the expense of Puma given the earnings potential offered by the new strategy and a new CEO with a strong track record. A new holding was also bought in Communication services with Publicis, a French advertising company, offering good growth at a very reasonable price. Infineon was further reduced after a strong rally as we believe the semiconductor company will see increasing competition over the coming years. On the more defensive side, in Healthcare the exposure to Merck Kgaa was reduced because of a reduced conviction in the companies' pharmaceutical division, despite a continued believe in their two other activities. In Utilities part of Iberdrola was switched to EDP as the latter provided an updated business plan with strong growth in renewables, and a balanced approach to different technologies, and geographies. Finally, the more commodity exposed holdings in UPM and Neste, were respectively sold and reduced because of deteriorating supply demand outlook.

15.1.6. Future policy

For the remainder of the year, fund managers will continue to look for opportunities to add weight to companies with good business models that stand to benefit from developing structural growth trends (energy efficiency, climate change, aging society, technological disruption, security, higher interest rates etc.). At the same time the goal is to retain a healthy level of portfolio diversification. From a stock selection point of view, integrating ESG aspects with the aim to invest in sustainable winners will be ever more important.

15.1.7. Synthetic risk indicator

The synthetic risk indicator give an indication of the risk associated with investing in a sub-fund. It places this risk on a scale ranging from one (lowest risk) to seven (highest risk).

Risk and reward profile : 5

With the exception of classes (F CHF HEDGED, F USD HEDGED) : 4

15.7. CHANGES IN THE COMPOSITION OF THE ASSETS IN EUR

	1st semester	2nd semester	Total
Purchases	53,445,515.48		53,445,515.48
Sales	31,080,605.71		31,080,605.71
Total 1	84,526,121.19		84,526,121.19
Subscriptions	28,013,273.70		28,013,273.70
Redemptions	7,973,728.55		7,973,728.55
Total 2	35,987,002.25		35,987,002.25
Reference average of the total net asset	255,266,560.75		255,266,560.75
Rotation Percentage	19.02%		19.02%

The rotation rate gives the annual average of the transactions. A figure close to 0% shows that the transactions relating to the securities or the assets with the exception of deposits and liquid assets during a given period, were done exclusively in function of the subscriptions and redemptions. A negative percentage indicates that the subscriptions and redemptions give rise to only few or, as the case may be, no transactions in the portfolio.

A detailed list of the transactions carried out during the financial year can be consulted, free of charge, at Banque Degroof Petercam S.A with its registered office at Rue de l'Industrie 44 - B-1040 Brussels which provides the financial services.

15.9. PERFORMANCES

Figures reflect past performance and are not an indicator of future performance. These figures do not include any restructuring.

Returns are determined at the end of the financial year. (from July 1, 2022 to June 30, 2023).

The annual return is defined as the absolute return earned over a year. For the semi-annual report, the accounting year is 12-month period preceding the end of the half-year.

The performance of accumulation units is calculated in a similar way to distribution units. Only the performance (in the form of bar charts) of class B shares is shown in this report. The performance of other share classes may differ, in particular as a result of charges specific to each class (management fees, currency hedging fees, subscription taxes, etc.). Information on the past performance of all share classes is published on the www.dpamfunds.com website. («Overview» tab).

Bar chart showing annual returns of the last 10 years (in % and calculated in EUR) as of 30 June 2023:

Class B

Annual return:

This is an actively managed sub-fund, which means that the portfolio manager does not aim to replicate the performance of a benchmark. No benchmarks are used in the management of the sub-fund. The benchmark is used to compare performance.

Table showing historical benchmark performance (actuarial returns):

The sub-fund uses the following index as a benchmark: MSCI EMU Net Return

Fee sharing

As at 30 June 2023, 51,10% of the remuneration due to the Fund Manager was retroceded to some other distributors, third parties and the Banque Degroof Petercam or one of its subsidiaries. The third parties are either end clients with a retrocession agreement, or institutional clients under discretionary management with a management agreement. Bank Degroof Petercam or one of its subsidiaries are distributors in the same way as external distributors.

15.11. NOTES TO THE FINANCIAL STATEMENTS AND OTHER INFORMATION

15.11.1. Gross dividends paid in the financial year

2021 class 0,49 EUR

15.11.2. Valuation of financial instruments

Bonds and other debt securities as well as money market instruments in the portfolio were valued at their average price. The valuations have not been adjusted to approximate bid prices, as the difference between bid and ask prices changed significantly over the period, both over time and depending on the nature of the security.

15.11.3. Transparency of the securities financing transactions and of reuse

In accordance with Article 13 and Section A of the Annex to Regulation EU 2015/2365 (hereinafter the Regulation), the Sicav must inform investors of its use of securities financing transactions and total return swaps in the annual report and the half-yearly report.

16. INFORMATION ABOUT THE SUBFUND DPAM B BONDS EUR CORPORATE SUSTAINABLE

16.1. MANAGEMENT REPORT

16.1.1. Launch date of the sub-fund and subscription price of the shares

Initial subscription period: 16 August 2021.

Initial subscription: EUR 100.00.

16.1.2. Stock exchange listing

The sub-fund's shares are not listed on the stock market.

16.1.3. Aim and main outlines of the investment policy

Objective

The objective of this sub-fund is to offer shareholders exposure to debt securities denominated in euros with at least an investment grade rating 25 These securities are selected on the basis of a strict methodology for compliance with environmental, social and governance (ESG) criteria.

The sub-fund uses a rigorous ESG methodology and strict exclusions in order not to undermine other environmental and social objectives and to ensure the required good governance practices.

The sub-fund's shareholders do not benefit from any capital protection or guarantee.

This is an actively managed sub-fund, which means that the portfolio manager does not aim to replicate the performance of a benchmark.

* Investment Grade: is an interpretation in terms of financial risk of the quality of the bond's issuer. The rating agencies each use their own scale to assess the notion of risk. Investment grade ratings are between AAA and BBB- on the Standard & Poor's and Fitch scale and between Aaa and Baa3 on the Moody's scale.

Investment policy

The sub-fund invests mainly in bonds and/or other debt securities (including, but not limited to, perpetual bonds and zero-coupon bonds), at a fixed or floating rate, denominated in euro, issued by companies and benefiting (or, failing that, their issuers) from an investment grade rating.

Stock selection is based on economic and financial analyses, as well as a rigorous methodology of exclusions, integration of ESG factors, active shareholding and engagement with companies.

The sub-fund promotes environmental and social characteristics within the meaning of Article 8 of Regulation SFDR 2019/2088.

The sub-fund invests up to 10% of its assets in open-ended collective investment undertakings.

The sub-fund may hold cash on an ancillary or temporary basis in the form of current accounts, deposits or securities as well as in the form of undertakings for collective investment.

16.1.4. Index and benchmark

iBoxx Euro Corporate Bond All Maturities index

The sub-fund uses the following index as its benchmark: iBoxx Euro Corporate Bond All Maturities index.

This index reflects the market performance of bonds denominated in EUR and issued by companies with an investment grade rating. The performance of the index is calculated by reinvesting gross coupons (Total Return index).

16.1.5. Policy followed during the year

Since the start of the year, the net asset value of the capitalization shares increased by 2.02 % versus 2.16 % for the € Iboxx All Maturities Corporate Bond Index.

During the year we selectively participated in new issues (KPN, Stellantis, AT&T, GBL or some financials). We mainly sold expensive bonds in sector like technology (IBM, SAP) and telecommunication (Orange, Verizon).

16.1.6. Future policy

Current yields levels are reaching multi years highs. Also current credit break-even spreads provide a high buffer against further weakness.

We still advocate that corporate bonds with strong balance sheets can go through this period of turbulence and macroeconomic uncertainty. Selectivity and credit selection are key here since that the recovery is likely to be uneven across and within sectors. Our internal credit analysis is essential and will remain the cornerstone of the investment process so that the fund can best withstand episodes of strong volatility.

16.1.7. Synthetic risk indicator

The synthetic risk indicator give an indication of the risk associated with investing in a sub-fund. It places this risk on a scale ranging from one (lowest risk) to seven (highest risk).

Risk and reward profile : 3

16.7. CHANGES IN THE COMPOSITION OF THE ASSETS IN EUR

	1st semester	2nd semester	Total
Purchases	15,935,218.00		15,935,218.00
Sales	13,042,951.40		13,042,951.40
Total 1	28,978,169.40		28,978,169.40
Subscriptions	0.00		0.00
Redemptions	0.00		0.00
Total 2	0.00		0.00
Reference average of the total net asset	95,200,228.89		95,200,228.89
Rotation Percentage	30.44%		30.44%

The rotation rate gives the annual average of the transactions. A figure close to 0% shows that the transactions relating to the securities or the assets with the exception of deposits and liquid assets during a given period, were done exclusively in function of the subscriptions and redemptions. A negative percentage indicates that the subscriptions and redemptions give rise to only few or, as the case may be, no transactions in the portfolio.

A detailed list of the transactions carried out during the financial year can be consulted, free of charge, at Banque Degroof Petercam S.A with its registered office at Rue de l'Industrie 44 - B-1040 Brussels which provides the financial services.

16.9. PERFORMANCES

Figures reflect past performance and are not an indicator of future performance. These figures do not include any restructuring.

Returns are determined at the end of the financial year. (from July 1, 2022 to June 30, 2023).

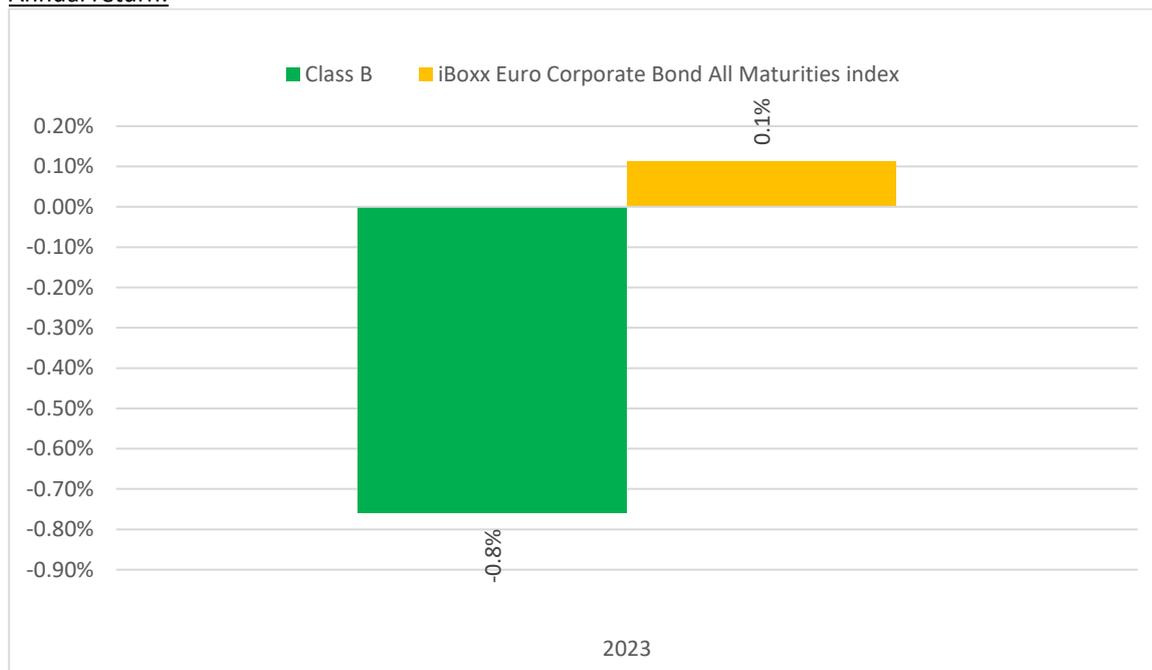

The annual return is defined as the absolute return earned over a year. For the semi-annual report, the accounting year is 12-month period preceding the end of the half-year.

The performance of accumulation units is calculated in a similar way to distribution units. Only the performance (in the form of bar charts) of class B shares is shown in this report. The performance of other share classes may differ, in particular as a result of charges specific to each class (management fees, currency hedging fees, subscription taxes, etc.). Information on the past performance of all share classes is published on the www.dpamfunds.com website. («Overview» tab).

Bar chart showing annual returns of the last 10 years (in % and calculated in EUR) as of 30 June 2023:

Class B

Annual return:

This is an actively managed sub-fund, which means that the portfolio manager does not aim to replicate the performance of a benchmark. No benchmarks are used in the management of the sub-fund. The benchmark is used to compare performance.

Management fees and other administrative and operating expenses	These are the costs of managing the sub-fund's portfolio, including the costs of the sub-fund's service provider and operations. This estimate is based on actual costs over the past year.	0.33%
Transaction costs	These are the costs of buying and selling investments held by the sub-fund. They are an estimate of the costs incurred when buying and/or selling the investments underlying the product. The actual amount varies according to the quantity bought and sold.	0.05%

Fee sharing

As at 30 June 2023, 39,44% of the remuneration due to the Fund Manager was retroceded to some other distributors, third parties and the Banque Degroof Petercam or one of its subsidiaries. The third parties are either end clients with a retrocession agreement, or institutional clients under discretionary management with a management agreement. Bank Degroof Petercam or one of its subsidiaries are distributors in the same way as external distributors.

16.11. NOTES TO THE FINANCIAL STATEMENTS AND OTHER

INFORMATION

16.11.1. Valuation of financial instruments

Bonds and other debt securities as well as money market instruments in the portfolio were valued at their average price. The valuations have not been adjusted to approximate bid prices, as the difference between bid and ask prices changed significantly over the period, both over time and depending on the nature of the security.

16.11.2. Transparency of the securities financing transactions and of reuse

In accordance with Article 13 and Section A of the Annex to Regulation EU 2015/2365 (hereinafter the Regulation), the Sicav must inform investors of its use of securities financing transactions and total return swaps in the annual report and the half-yearly report.

17. INFORMATION ABOUT THE SUBFUND DPAM B EQUITIES EUROPE INDEX

17.1. MANAGEMENT REPORT

17.1.1. Launch date of the sub-fund and subscription price of the shares

Initial subscription day: 1 April 2022.

On 24 March 2022, the sub-fund received all the assets of the DPAM CAPITAL B Equities Europe Index sub-fund of the DPAM CAPITAL B Sicav. On 1 April 2022, the sub-fund was launched following the merger.

Initial subscription price: The initial subscription price corresponds to the Net Asset Value of the shares of the DPAM CAPITAL B Equities Europe Index sub-fund of the DPAM CAPITAL B Sicav on 1 April 2022.

17.1.2. Stock exchange listing

The shares of the sub-fund are not listed on an exchange.

17.1.3. Aim and main outlines of the investment policy

Objective

The objective of the sub-fund is to provide shareholders with as high a global return as possible, with an accent on investments in European equities.

This is a passively managed sub-fund, which means that the portfolio manager aims to replicate the performance of a benchmark.

Investment policy

The sub-fund promotes environmental and social characteristics within the meaning of Article 6 of SFDR Regulation 2019/2088.

17.1.4. Index and benchmark

MSCI Europe Net Return

The sub-fund uses the following index as a benchmark: MSCI Europe Net Return.

This benchmark is used in managing the sub-fund.

MSCI Europe Net Return covers approximately 85% of the floating market capitalisation of the countries in EUROPE zone. Additional information on this index and its composition can be found at www.msci.com.

The performance of the benchmark index is calculated by reinvesting net dividends (Net Return).

The tracking error is of the order of 1.3%.

This is a passively managed sub-fund, which means that the portfolio manager's objective is to replicate the performance of a benchmark.

17.1.5. Policy followed during the year

The "Net Asset Value" of the fund (B share) on June 30, 2023 was 138.83 EUR and its performance between December 30, 2022 and June 30, 2023 is 11.37% (in EUR).

The benchmark of the Equities Europe Index sub-fund is the MSCI Europe Net DTR index.

The MSCI Europe Net DTR index, dividends net of local withholding tax reinvested, covers European countries and is established by MSCI. All the countries of Europe are included in this index, except Luxembourg given its low market capitalization. Greece was classified as an emerging country by the MSCI index at the end of 2013.

As of June 30, 2023, the index had 426 positions. The index value can be viewed on MSCI's website, www.msci.com/end-of-day-data-search. The composition of its indices can be viewed on the MSCI's website, www.msci.com/constituents.

The objective of the fund is to physically and fully replicate the composition of the underlying index (MSCI EUROPE). As in the past, full investment continued in this compartment. The level of liquidity, after deduction of futures contracts on stock market indices, was kept at a very low level. The use of futures on the Dow Jones Stoxx 50 index supplemented positions in equities and allowed to be fully invested through liquid instrument without disrupting the portfolio structure during daily subscriptions and redemptions.

17.1.6. Future policy

As in the past, the Equities Europe Index sub-fund will pursue an investment policy based on geographic and sector indexation. The benchmark remains the European index published by MSCI.

17.1.7. Synthetic risk indicator

The synthetic risk indicator gives an indication of the risk associated with investing in a sub-fund. It places this risk on a scale ranging from one (lowest risk) to seven (highest risk).

Risk and reward profile : 4

17.7. CHANGES IN THE COMPOSITION OF THE ASSETS IN EUR

	1st semester	2nd semester	Total
Purchases	11,418,624.55		11,418,624.55
Sales	12,388,823.75		12,388,823.75
Total 1	23,807,448.30		23,807,448.30
Subscriptions	22,083,545.63		22,083,545.63
Redemptions	28,116,375.86		28,116,375.86
Total 2	50,199,921.49		50,199,921.49
Reference average of the total net asset	217,609,470.90		217,609,470.90
Rotation Percentage	-12.13%		-12.13%

The rotation rate gives the annual average of the transactions. A figure close to 0% shows that the transactions relating to the securities or the assets with the exception of deposits and liquid assets during a given period, were done exclusively in function of the subscriptions and redemptions. A negative percentage indicates that the subscriptions and redemptions give rise to only few or, as the case may be, no transactions in the portfolio.

A detailed list of the transactions carried out during the financial year can be consulted, free of charge, at Banque Degroof Petercam S.A with its registered office at Rue de l'Industrie 44 - B-1040 Brussels which provides the financial services.

17.10. PERFORMANCES

Figures reflect past performance and are not an indicator of future performance. These figures do not include any restructuring.

Returns are determined at the end of the financial year. (from July 1, 2022 to June 30, 2023).

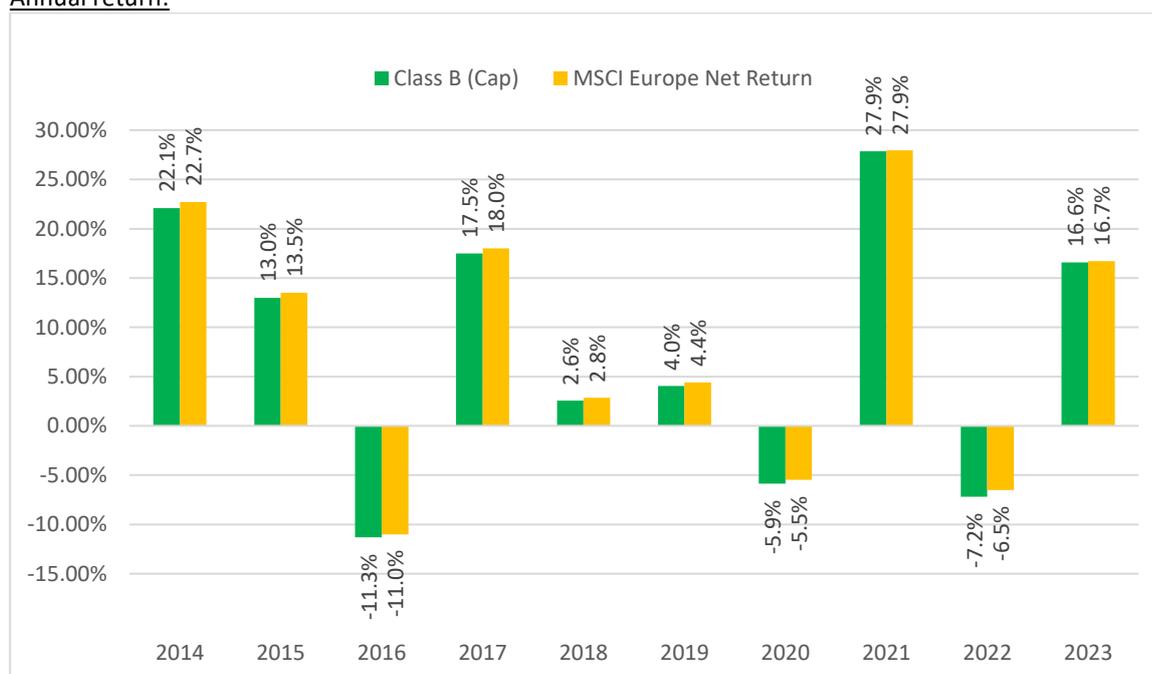

The annual return is defined as the absolute return earned over a year. For the semi-annual report, the accounting year is 12-month period preceding the end of the half-year.

The performance of accumulation units is calculated in a similar way to distribution units. Only the performance (in the form of bar charts) of class B shares is shown in this report. The performance of other share classes may differ, in particular as a result of charges specific to each class (management fees, currency hedging fees, subscription taxes, etc.). Information on the past performance of all share classes is published on the www.dpamfunds.com website. («Overview» tab).

Fee sharing

As at 30 June 2023, 32,90% of the remuneration due to the Fund Manager was retroceded to some other distributors, third parties and the Banque Degroof Petercam or one of its subsidiaries. The third parties are either end clients with a retrocession agreement, or institutional clients under discretionary management with a management agreement. Bank Degroof Petercam or one of its subsidiaries are distributors in the same way as external distributors.

17.12. NOTES TO THE FINANCIAL STATEMENTS AND OTHER INFORMATION

17.12.1. Gross dividends paid in the financial year

2016/2017	2.75 EUR
2018	class A 3.15 EUR class M 3.15 EUR
2019	class A 2.53 EUR class M 2.82 EUR
2021	class A 2,79 EUR class M 2,81 EUR

17.12.2. Transparency of the securities financing transactions and of reuse

In accordance with Article 13 and Section A of the Annex to Regulation EU 2015/2365 (hereinafter the Regulation), the Sicav must inform investors of its use of securities financing transactions and total return swaps in the annual report and the half-yearly report.

18. INFORMATION ABOUT THE SUBFUND DPAM B EQUITIES US INDEX

18.1. MANAGEMENT REPORT

18.1.1. Launch date of the sub-fund and subscription price of the shares

Initial subscription day: 1 April 2022.

On 24 March 2022, the sub-fund received all the assets of the DPAM CAPITAL B Equities US Index sub-fund of the DPAM CAPITAL B Sicav. On 1 April 2022, the sub-fund was launched following the merger. Initial subscription price: The initial subscription price corresponds to the Net Asset Value of the shares of the DPAM CAPITAL B Equities US Index sub-fund of the DPAM CAPITAL B Sicav on 1 April 2022.

18.1.2. Stock exchange listing

The shares of the sub-fund are not listed on an exchange.

18.1.3. Aim and main outlines of the investment policy

Objective

The objective of the sub-fund is to provide shareholders with as high a global return as possible, with an accent on investments in U.S. equities.

This is a passively managed sub-fund, which means that the portfolio manager's objective is to replicate the performance of a benchmark.

Investment policy

The sub-fund promotes environmental and social characteristics within the meaning of Article 6 of SFDR Regulation 2019/2088.

18.1.4. Index and benchmark

MSCI USA Net Return

The sub-fund uses the following index as its benchmark: MSCI USA Net Return.

This index is representative of the large- and mid-cap equity market of developed countries (as defined by MSCI and mainly based on the country of incorporation and the country of primary listing of its securities) in the United States.

The performance of this index is calculated by reinvesting net dividends (Net Return).

The tracking error is about 1.5%.

This is an actively managed sub-fund, which means that the portfolio manager does not aim to replicate the performance of a benchmark. The benchmark is used for performance comparison purposes.

MSCI Limited is registered with the European Securities and Markets Authority (ESMA).

18.1.5. Policy followed during the year

The "Net Asset Value" of the fund (B share) on June 30, 2023 was 223.80 EUR and its performance between December 30, 2022 and June 30, 2023 is 14.21% (in EUR).

The benchmark of the Equities US Index sub-fund is the MSCI Daily Net Total Return USA Euro index.

The MSCI Daily Net Total Return USA Euro, dividends net of local withholding tax reinvested, covers the United States and is established by MSCI.

As of June 30, 2023, the index had 627 positions. The index value can be viewed on MSCI's website, www.msci.com/end-of-day-data-search. The composition of its indices can be viewed on the MSCI's website, www.msci.com/constituents.

The objective of the fund is to physically and fully replicate the composition of the underlying index (MSCI USA). As in the past, full investment continued in this compartment. The level of cash, after deduction of futures contracts on stock market indices, was kept at a very low level. The use of futures on the S&P 500 index supplemented positions in equities and allowed to be fully invested through liquid instruments without disrupting the portfolio structure during daily subscriptions and redemptions.

18.1.6. Future policy

As in the past, the Equities USA Index sub-fund will pursue an investment policy based on geographic and sector indexation. The benchmark remains the USA index published by MSCI.

18.1.7. Synthetic risk indicator

The synthetic risk indicator gives an indication of the risk associated with investing in a sub-fund. It places this risk on a scale ranging from one (lowest risk) to seven (highest risk).

Risk and Reward Profile: 5

With the exception of classes (A USD, B USD, N USD, M USD) : 4

TOTAL	10

These allocations of assets were established on basis of data (gross) used by the entity responsible for the administration and bookkeeping and do not reflect inevitably the economic analysis which directed the assets selection.

18.8. CHANGES IN THE COMPOSITION OF THE ASSETS IN EUR

	1st semester	2nd semester	Total
Purchases	5,976,935.37		5,976,935.37
Sales	21,100,702.02		21,100,702.02
Total 1	27,077,637.39		27,077,637.39
Subscriptions	15,259,761.48		15,259,761.48
Redemptions	30,655,160.19		30,655,160.19
Total 2	45,914,921.67		45,914,921.67
Reference average of the total net asset	221,610,142.64		221,610,142.64
Rotation Percentage	-8.50%		-8.50%

The rotation rate gives the annual average of the transactions. A figure close to 0% shows that the transactions relating to the securities or the assets with the exception of deposits and liquid assets during a given period, were done exclusively in function of the subscriptions and redemptions. A negative percentage indicates that the subscriptions and redemptions give rise to only few or, as the case may be, no transactions in the portfolio.

A detailed list of the transactions carried out during the financial year can be consulted, free of charge, at Banque Degroof Petercam S.A with its registered office at Rue de l'Industrie 44 - B-1040 Brussels which provides the financial services.

On the date of publication of this report, the net asset value per share is published on the following websites: www.dpamfunds.com and www.beama.be. This information is also available at the counters of the financial services department.

18.11. PERFORMANCES

Figures reflect past performance and are not an indicator of future performance. These figures do not include any restructuring.

Returns are determined at the end of the financial year. (from July 1, 2022 to June 30, 2023).

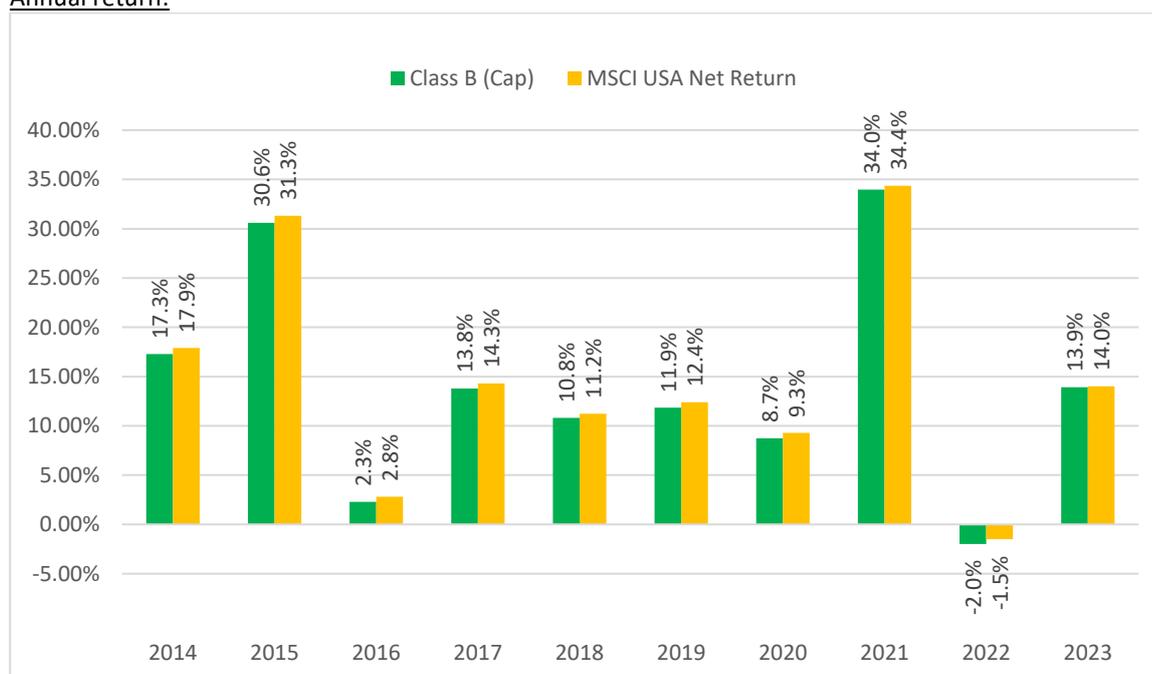

The annual return is defined as the absolute return earned over a year. For the semi-annual report, the accounting year is 12-month period preceding the end of the half-year.

The performance of accumulation units is calculated in a similar way to distribution units. Only the performance (in the form of bar charts) of class B shares is shown in this report. The performance of other share classes may differ, in particular as a result of charges specific to each class (management fees, currency hedging fees, subscription taxes, etc.). Information on the past performance of all share classes is published on the www.dpamfunds.com website. («Overview» tab).

Bar chart showing annual returns of the last 10 years (in % and calculated in EUR) as of 30 June 2023:

Fee sharing

As at 30 June 2023, 0,90% of the remuneration due to the Fund Manager was retroceded to some other distributors, third parties and the Banque Degroof Petercam or one of its subsidiaries. The third parties are either end clients with a retrocession agreement, or institutional clients under discretionary management with a management agreement. Bank Degroof Petercam or one of its subsidiaries are distributors in the same way as external distributors.

18.13. NOTES TO THE FINANCIAL STATEMENTS AND OTHER INFORMATION

18.13.2. Transparency of the securities financing transactions and of reuse

In accordance with Article 13 and Section A of the Annex to Regulation EU 2015/2365 (hereinafter the Regulation), the Sicav must inform investors of its use of securities financing transactions and total return swaps in the annual report and the half-yearly report.

19. INFORMATION ABOUT THE SUBFUND DPAM B EQUITIES JAPAN INDEX

19.1. MANAGEMENT REPORT

19.1.1. Launch date of the sub-fund and subscription price of the shares

Initial subscription day: 1 April 2022.

On 24 March 2022, the sub-fund received all the assets of the DPAM CAPITAL B Equities Japan Index sub-fund of the DPAM CAPITAL B Sicav. On 1 April 2022, the sub-fund was launched following the merger.

Initial subscription price: The initial subscription price corresponds to the Net Asset Value of the shares of the DPAM CAPITAL B Equities Japan Index sub-fund of the DPAM CAPITAL B Sicav on 1 April 2022.

19.1.2. Stock exchange listing

The shares of the sub-fund are not listed on an exchange.

19.1.3. Aim and main outlines of the investment policy

Objective

The objective of the sub-fund is to provide shareholders with as high a global return as possible, with an accent on investments in Japanese equities.

This is a passively managed sub-fund, which means that the portfolio manager's objective is to replicate the performance of a benchmark.

Investment policy

The sub-fund promotes environmental and social characteristics within the meaning of Article 6 of SFDR Regulation 2019/2088.

19.1.4. Index and benchmark

MSCI Japan Net Return

The sub-fund uses the following index as benchmark: MSCI Japan Net Return

This benchmark is used in managing the sub-fund.

MSCI Japan Net Return covers approximately 85% of the floating market capitalization of the countries in the JAPAN zone included in the index. Additional information on this index and its composition can be found at www.msci.com.

The performance of the benchmark index is calculated by reinvesting net dividends (Net Return).

MSCI Limited is registered with the European Securities and Markets Authority (ESMA).

The tracking error is of the order of 2.0%.

This is a passively managed sub-fund, which means that the portfolio manager's objective is to replicate the performance of a benchmark.

19.1.5. Policy followed during the year

The "Net Asset Value" of the fund (B share) as of June 29, 2023 was 139.46 EUR and its performance between December 30, 2022 and June 29, 2023 is 10.26% (in EUR).

The benchmark of the Equities Japan Index sub-fund is the MSCI JAPAN Net DTR Index.

The MSCI JAPAN Net DTR Index, Net Dividends Reinvested, covers Japan and is established by MSCI.

As of June 29, 2023, the index had 236 positions. The index value can be viewed on MSCI's website, www.msci.com/end-of-day-data-search. The composition of its indices can be viewed on the MSCI's website, www.msci.com/constituents.

The objective of the fund is to physically and fully replicate the composition of the underlying index (MSCI JAPAN). The use of futures on the Nikkei 225 index supplemented positions in equities and allowed to be fully invested through a liquid instrument without disrupting the portfolio structure during daily subscriptions and redemptions. The Nikkei 225 Index correlates well with the MSCI Japan Index. The results obtained on these futures are therefore close to those which would have been obtained directly in securities.

19.1.6. Future policy

The Equities Japan Index sub-fund, whose vocation is to be representative of the Japanese market, will continue its investment policy based on broad sector diversification with the Japan index published by MSCI as a benchmark.

19.1.7. Synthetic risk indicator

The synthetic risk indicator gives an indication of the risk associated with investing in a sub-fund. It places this risk on a scale ranging from one (lowest risk) to seven (highest risk).

Risk and reward profile : 4

19.8. CHANGES IN THE COMPOSITION OF THE ASSETS IN EUR

	1st semester	2nd semester	Total
Purchases	2,402,760.11		2,402,760.11
Sales	7,664,486.96		7,664,486.96
Total 1	10,067,247.07		10,067,247.07
Subscriptions	5,478,922.81		5,478,922.81
Redemptions	10,023,675.10		10,023,675.10
Total 2	15,502,597.91		15,502,597.91
Reference average of the total net asset	94,268,552.92		94,268,552.92
Rotation Percentage	-5.77%		-5.77%

The rotation rate gives the annual average of the transactions. A figure close to 0% shows that the transactions relating to the securities or the assets with the exception of deposits and liquid assets during a given period, were done exclusively in function of the subscriptions and redemptions. A negative percentage indicates that the subscriptions and redemptions give rise to only few or, as the case may be, no transactions in the portfolio.

A detailed list of the transactions carried out during the financial year can be consulted, free of charge, at Banque Degroof Petercam S.A with its registered office at Rue de l'Industrie 44 - B-1040 Brussels which provides the financial services.

19.11. PERFORMANCES

Figures reflect past performance and are not an indicator of future performance. These figures do not include any restructuring.

Returns are determined at the end of the financial year. (from July 1, 2022 to June 30, 2023).

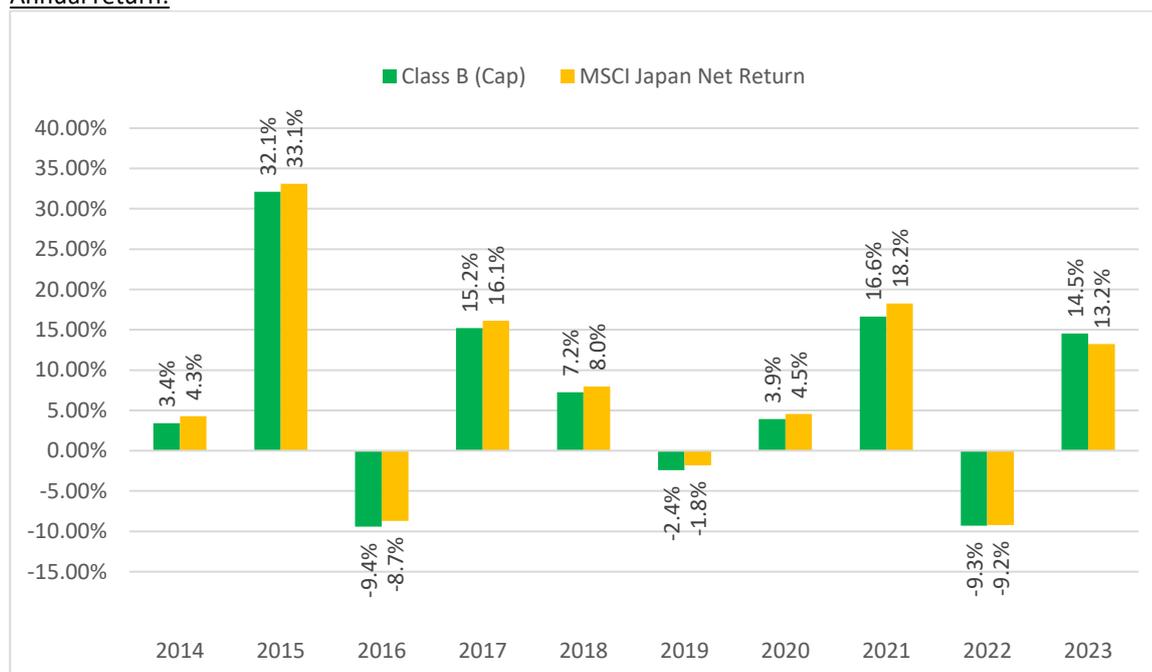

The annual return is defined as the absolute return earned over a year. For the semi-annual report, the accounting year is 12-month period preceding the end of the half-year.

The performance of accumulation units is calculated in a similar way to distribution units. Only the performance (in the form of bar charts) of class B shares is shown in this report. The performance of other share classes may differ, in particular as a result of charges specific to each class (management fees, currency hedging fees, subscription taxes, etc.). Information on the past performance of all share classes is published on the www.dpamfunds.com website. («Overview» tab).

Bar chart showing annual returns of the last 10 years (in % and calculated in EUR) as of 30 June 2023:

Class B (Cap)

Annual return:

No translation of "Il s'agit d'un compartiment géré passivement, ce qui signifie que le gestionnaire du portefeuille..." (Interim reports - Label - Text) in English (United Kingdom) The benchmark is used to compare performance.

Table showing historical benchmark performance (actuarial returns):

The sub-fund uses the following index as a benchmark: MSCI Japan Net Return

	Average cumulated returns				Since	
	1 year	3 year	5 year	10 year	Year	Value
MSCI Japan Net Return	13.21 % (in EUR)	6.73 % (in EUR)	4.54 % (in EUR)	7.09 % (in EUR)	02/10/1996	2.39 % (in EUR)

Fee sharing

As at 30 June 2023, 16,91% of the remuneration due to the Fund Manager was retroceded to some other distributors, third parties and the Banque Degroof Petercam or one of its subsidiaries. The third parties are either end clients with a retrocession agreement, or institutional clients under discretionary management with a management agreement. Bank Degroof Petercam or one of its subsidiaries are distributors in the same way as external distributors.

19.13. NOTES TO THE FINANCIAL STATEMENTS AND OTHER INFORMATION

19.13.1. Gross dividends paid in the financial year

2018	class A 2.15 EUR class M 2.45 EUR
2019	class A 1.57 EUR class M 1.86 EUR
2021	class A 2,20 EUR class M 2,21 EUR

19.13.2. Transparency of the securities financing transactions and of reuse

In accordance with Article 13 and Section A of the Annex to Regulation EU 2015/2365 (hereinafter the Regulation), the Sicav must inform investors of its use of securities financing transactions and total return swaps in the annual report and the half-yearly report.

20. INFORMATION ABOUT THE SUBFUND DPAM B EQUITIES EMU INDEX

20.1. MANAGEMENT REPORT

20.1.1. Launch date of the sub-fund and subscription price of the shares

Initial subscription day: April 1, 2022.

On March 24, 2022, the sub-fund received all the assets of the DPAM CAPITAL B Equities EMU Index sub-fund of the DPAM CAPITAL B mutual fund. On April 1, 2022, the sub-fund was launched following the merger.

Initial subscription price: The initial subscription price corresponds to the net asset value of the shares of the DPAM CAPITAL B Equities EMU Index subfund of the DPAM CAPITAL B mutual fund on April 1, 2022.

20.1.2. Stock exchange listing

The shares of the sub-fund are not listed on an exchange.

20.1.3. Aim and main outlines of the investment policy

Objective

The objective of the sub-fund is to provide shareholders with as high a global return as possible, with an accent on investments in equities from European Union member countries participating in the European Monetary Union (EMU).

This is a passively managed sub-fund, which means that the portfolio manager's objective is to replicate the performance of a benchmark.

Investment policy

The sub-fund promotes environmental and social characteristics within the meaning of Article 6 of SFDR Regulation 2019/2088.

20.1.4. Index and benchmark

MSCI EMU Net Return

This benchmark is used in managing the sub-fund.

MSCI EMU Net Return covers approximately 85% of the floating market capitalization of the countries in the EMU zone included in the index. Additional information on this index and its composition can be found at www.msci.com.

The performance of the benchmark index is calculated by reinvesting net dividends (Net Return).

This is a passively managed sub-fund, which means that the portfolio manager's objective is to replicate the performance of a benchmark.

The possible composition and the value of the benchmark are shown on the website www.dpamfunds.com.

MSCI Limited is registered with the European Securities and Markets Authority (ESMA).

The tracking error is of the order of 0.80%.

20.1.5. Policy followed during the year

The "Net Asset Value" of the fund (B share) on June 30, 2023 was 158.09 EUR and its performance between December 30, 2022 and June 30, 2023 is 15.36% (in EUR).

The benchmark of the Equities EMU Index sub-fund is the MSCI EMU Net DTR index.

The MSCI EMU Net DTR index, dividends net of local withholding tax reinvested, covers Eurozone countries and is established by MSCI. All the countries of Eurozone are included in this index, except Luxembourg given its low market capitalization. Greece was classified as an emerging country by the MSCI index at the end of 2013.

As of June 30, 2023, the index had 228 positions. The index value can be viewed on MSCI's website, www.msci.com/end-of-day-data-search. The composition of its indices can be viewed on the MSCI's website, www.msci.com/constituents.

The objective of the fund is to physically and fully replicate the composition of the underlying index (MSCI EMU). As in the past, full investment continued in this compartment. The level of cash, after deduction of futures contracts on stock market indices, was kept at a very low level. The use of futures on the Dow Jones EuroStoxx 50 index supplemented positions in equities and allowed to be fully invested through liquid instrument without disrupting the portfolio structure during daily subscriptions and redemptions.

20.1.6. Future policy

As in the past, the Equities EMU Index sub-fund will pursue an investment policy based on geographic and sector indexation. The benchmark remains the EMU index published by MSCI.

20.1.7. Synthetic risk indicator

The synthetic risk indicator gives an indication of the risk associated with investing in a sub-fund. It places this risk on a scale ranging from one (lowest risk) to seven (highest risk).

Risk and reward profile : 5

20.7. CHANGES IN THE COMPOSITION OF THE ASSETS IN EUR

	1st semester	2nd semester	Total
Purchases	1,744,356.98		1,744,356.98
Sales	3,875,182.24		3,875,182.24
Total 1	5,619,539.22		5,619,539.22
Subscriptions	5,582,840.31		5,582,840.31
Redemptions	8,255,252.82		8,255,252.82
Total 2	13,838,093.13		13,838,093.13
Reference average of the total net asset	105,838,121.16		105,838,121.16
Rotation Percentage	-7.77%		-7.77%

The rotation rate gives the annual average of the transactions. A figure close to 0% shows that the transactions relating to the securities or the assets with the exception of deposits and liquid assets during a given period, were done exclusively in function of the subscriptions and redemptions. A negative percentage indicates that the subscriptions and redemptions give rise to only few or, as the case may be, no transactions in the portfolio.

A detailed list of the transactions carried out during the financial year can be consulted, free of charge, at Banque Degroof Petercam S.A with its registered office at Rue de l'Industrie 44 - B-1040 Brussels which provides the financial services.

20.10. PERFORMANCES

Figures reflect past performance and are not an indicator of future performance. These figures do not include any restructuring.

Returns are determined at the end of the financial year. (from July 1, 2022 to June 30, 2023).

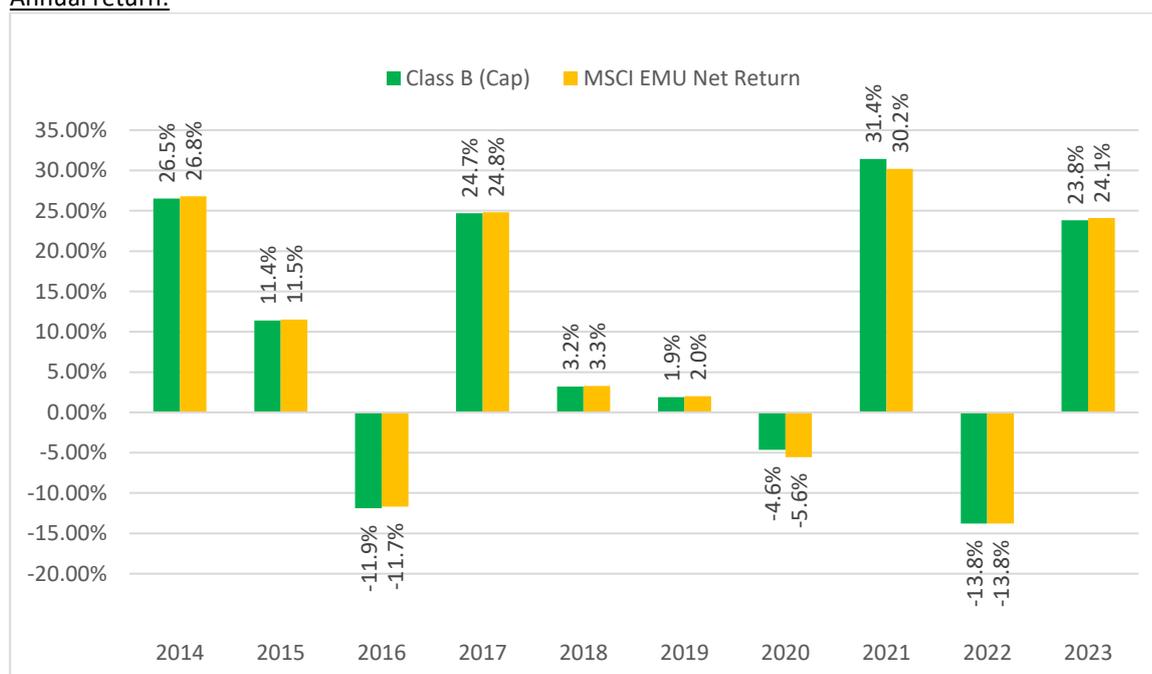

The annual return is defined as the absolute return earned over a year. For the semi-annual report, the accounting year is 12-month period preceding the end of the half-year.

The performance of accumulation units is calculated in a similar way to distribution units. Only the performance (in the form of bar charts) of class B shares is shown in this report. The performance of other share classes may differ, in particular as a result of charges specific to each class (management fees, currency hedging fees, subscription taxes, etc.). Information on the past performance of all share classes is published on the www.dpamfunds.com website. («Overview» tab).

Fee sharing

As at 30 June 2023, 14,38% of the remuneration due to the Fund Manager was retroceded to some other distributors, third parties and the Banque Degroof Petercam or one of its subsidiaries. The third parties are either end clients with a retrocession agreement, or institutional clients under discretionary management with a management agreement. Bank Degroof Petercam or one of its subsidiaries are distributors in the same way as external distributors.

20.12. NOTES TO THE FINANCIAL STATEMENTS AND OTHER INFORMATION

20.12.1. Gross dividends paid in the financial year

2018	class A 3.55 EUR class M 3.90 EUR
2019	class A 2.40 EUR class M 2.73 EUR
2021	class A 2,55 EUR class M 2,55 EUR

20.12.2. Transparency of the securities financing transactions and of reuse

In accordance with Article 13 and Section A of the Annex to Regulation EU 2015/2365 (hereinafter the Regulation), the Sicav must inform investors of its use of securities financing transactions and total return swaps in the annual report and the half-yearly report.

21. INFORMATION ABOUT THE SUBFUND DPAM B EQUITIES WORLD EX JAPAN, EUROPE & USA INDEX

21.1. MANAGEMENT REPORT

21.1.1. Launch date of the sub-fund and subscription price of the shares

Initial subscription day: 1 April 2022.

On 24 March 2022, the sub-fund received all the assets of the DPAM CAPITAL B Equities World ex Japan, Europe & USA Index sub-fund of the DPAM CAPITAL B Sicav. On 1 April 2022, the sub-fund was launched following the merger. Initial subscription price: The initial subscription price corresponds to the Net Asset Value of the shares of the DPAM CAPITAL B Equities World ex Japan, Europe & USA Index sub-fund of the DPAM CAPITAL B Sicav on 1 April 2022.

21.1.2. Stock exchange listing

The shares of the sub-fund are not listed on an exchange.

21.1.3. Aim and main outlines of the investment policy

Objective

The objective of the sub-fund is to provide shareholders with as high a global return as possible, with an accent on investments in equities from Pacific Basin countries (ex-Japan), Canada and Israel.

This is a passively managed sub-fund, which means that the portfolio manager's objective is to replicate the performance of a benchmark.

Investment policy

The sub-fund promotes environmental and social characteristics within the meaning of Article 6 of SFDR Regulation 2019/2088.

21.1.4. Index and benchmark

MSCI World ex JEU Net Return

The sub-fund uses the following index as a benchmark: MSCI World ex JEU Net Return

MSCI World ex JEU Net Return: Composite index based on the MSCI [Daily Total Return Net] Australia, Canada, Hong Kong, New Zealand, Singapore and Israel indices of MSCI Inc. This benchmark is used for the management of the sub-fund.

MSCI World ex JEU Net Return covers approximately 85% of the free float market capitalization of the countries in the zone Australia, Canada, Hong Kong, New Zealand, Singapore and Israel included in the index.

Additional information on the index and its composition is available at www.msci.com.

The performance of the benchmark is calculated by reinvesting net dividends (Net Return).

MSCI Limited is registered with the European Securities and Markets Authority (ESMA).

The "tracking error" is of the order of 1.4%.

This is a passively managed sub-fund, which means that the portfolio manager aims to replicate the performance of a benchmark.

21.1.5. Policy followed during the year

The "Net Asset Value" of the fund (B share) on June 29, 2023 was 173.02 EUR and its performance between December 30, 2022 and June 29, 2023 is 1.17% (in EUR).

The benchmark of the Equities World ex Japan, Europe and USA index is the MSCI Daily Net Total Return Index Australia, Canada, Hong Kong, New Zealand, Singapore and Israel.

The Benchmark, dividends net of local withholding tax reinvested, is based on the market capitalization of the MSCI indices for Australia, Canada, Hong Kong, New Zealand, Singapore and Israel.

As of June 29, 2023, the index had 213 positions. The index value can be viewed on MSCI's website, www.msci.com/end-of-day-data-search. The composition of its indices can be viewed on the MSCI's website, www.msci.com/constituents.

The objective of the fund is to physically and fully replicate the composition of the underlying index. As in the past, full investment continued in this compartment. The level of cash was kept at a very low level.

21.1.6. Future policy

As in the past, the Equities World Ex Japan, Europe and USA Index sub-fund will pursue an investment policy based on geographic and sector indexation. The benchmark remains the same.

21.1.7. Synthetic risk indicator

The synthetic risk indicator gives an indication of the risk associated with investing in a sub-fund. It places this risk on a scale ranging from one (lowest risk) to seven (highest risk).

Risk and reward profile : 4

21.8. CHANGES IN THE COMPOSITION OF THE ASSETS IN EUR

	1st semester	2nd semester	Total
Purchases	2,622,296.32		2,622,296.32
Sales	19,780,085.17		19,780,085.17
Total 1	22,402,381.49		22,402,381.49
Subscriptions	2,291,677.60		2,291,677.60
Redemptions	20,720,634.56		20,720,634.56
Total 2	23,012,312.16		23,012,312.16
Reference average of the total net asset	98,293,012.45		98,293,012.45
Rotation Percentage	-0.62%		-0.62%

The rotation rate gives the annual average of the transactions. A figure close to 0% shows that the transactions relating to the securities or the assets with the exception of deposits and liquid assets during a given period, were done exclusively in function of the subscriptions and redemptions. A negative percentage indicates that the subscriptions and redemptions give rise to only few or, as the case may be, no transactions in the portfolio.

A detailed list of the transactions carried out during the financial year can be consulted, free of charge, at Banque Degroof Petercam S.A with its registered office at Rue de l'Industrie 44 - B-1040 Brussels which provides the financial services.

On the date of publication of this report, the net asset value per share is published on the following websites: www.dpamfunds.com and www.beama.be. This information is also available at the counters of the financial services department.

21.10. PERFORMANCES

Figures reflect past performance and are not an indicator of future performance. These figures do not include any restructuring.

Returns are determined at the end of the financial year. (from July 1, 2022 to June 30, 2023).

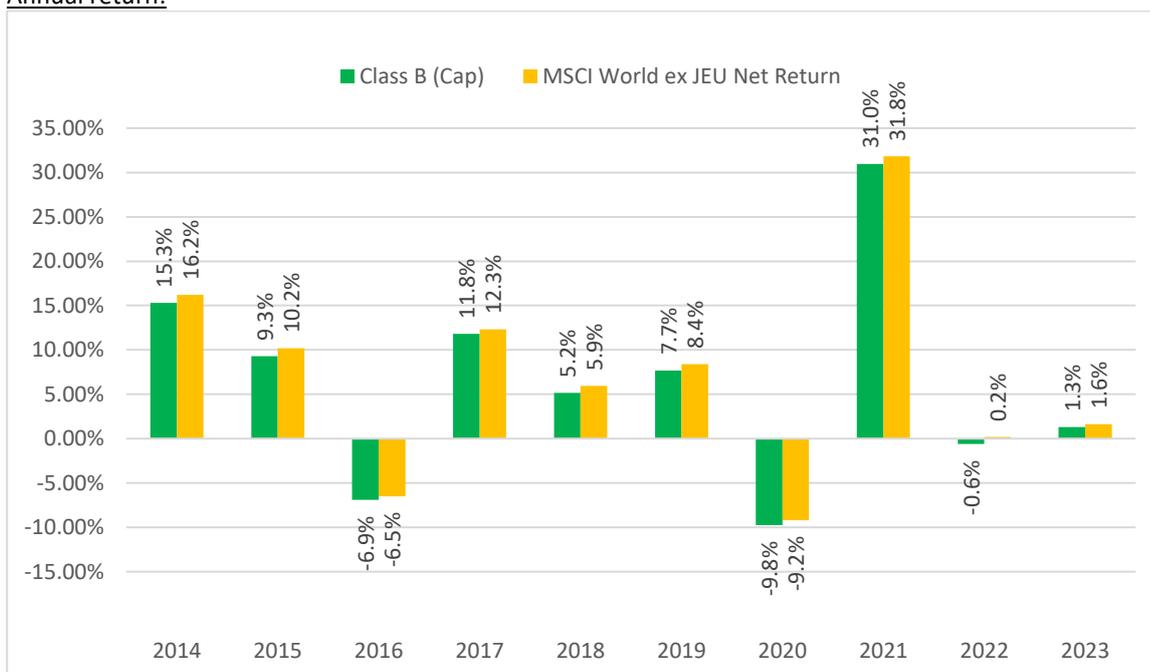

The annual return is defined as the absolute return earned over a year. For the semi-annual report, the accounting year is 12-month period preceding the end of the half-year.

The performance of accumulation units is calculated in a similar way to distribution units. Only the performance (in the form of bar charts) of class B shares is shown in this report. The performance of other share classes may differ, in particular as a result of charges specific to each class (management fees, currency hedging fees, subscription taxes, etc.). Information on the past performance of all share classes is published on the www.dpamfunds.com website. («Overview» tab).

Bar chart showing annual returns of the last 10 years (in % and calculated in EUR) as of 30 June 2023:

Fee sharing

As at 30 June 2023, 23,27% of the remuneration due to the Fund Manager was retroceded to some other distributors, third parties and the Banque Degroof Petercam or one of its subsidiaries. The third parties are either end clients with a retrocession agreement, or institutional clients under discretionary management with a management agreement. Bank Degroof Petercam or one of its subsidiaries are distributors in the same way as external distributors.

21.12.2. Transparency of the securities financing transactions and of reuse

In accordance with Article 13 and Section A of the Annex to Regulation EU 2015/2365 (hereinafter the Regulation), the Sicav must inform investors of its use of securities financing transactions and total return swaps in the annual report and the half-yearly report.

22. INFORMATION ABOUT THE SUBFUND DPAM B EQUITIES EMU BEHAVIORAL VALUE

22.1. MANAGEMENT REPORT

22.1.1. Launch date of the sub-fund and subscription price of the shares

Initial subscription day: 1 April 2022.

On 24 March 2022, the sub-fund received all the assets of the DPAM CAPITAL B Equities EMU Behavioral Value sub-fund of the DPAM CAPITAL B Sicav. On 1 April 2022, the sub-fund was launched following the merger.

Initial subscription price: The initial subscription price corresponds to the Net Asset Value of the shares of the DPAM CAPITAL B Equities EMU Behavioral Value sub-fund of the DPAM CAPITAL B Sicav on 1 April 2022.

22.1.2. Stock exchange listing

The shares of the sub-fund are not listed on an exchange.

22.1.3. Aim and main outlines of the investment policy

Objective

The objective of the sub-fund is to provide the shareholders with as high a global return as possible. The sub-fund invests at least 50% in listed equities (without sector limitation) from the European Union member countries participating in the European Monetary Union (EMU). The investment policy embraces the principles of Behavioral Finance, a psychology-based academic field that analyses the financial markets.

The sub-fund invests in equities which are deemed undervalued and exhibit a good price momentum. The fund will continue to widely spread the risks, mainly by a large sector diversification.

This is an actively managed sub-fund, which means that the portfolio manager does not aim to replicate the performance of a benchmark.

Investment policy

The sub-fund promotes environmental and social characteristics within the meaning of Article 8 of SFDR Regulation 2019/2088.

22.1.4. Index and benchmark

MSCI EMU Net Return

MSCI Limited is registered with the European Securities and Markets Authority (ESMA).

The benchmark is used as a means of comparing performance.

The selection and weighting of assets in the sub-fund's portfolio may differ significantly from the composition of the benchmark.

The benchmark is not tailored to promote the environmental and social characteristics of the sub-fund. The "Investment Strategy" section of the prospectus explains how the sub-fund promotes environmental and social characteristics.

22.1.5. Policy followed during the year

Over the first semester of the year and after the very strong rebound of last year, value factor suffered setbacks (in particular in the second quarter) as inflation has been steadily moderating and prospect for economic soft-landing relieved pressure on long term rates and helped growth factors or styles to rerate substantially. This year, markets

seem to shrug off geopolitical tensions across the world (including Ukraine war) so as the impact of monetary tightening and more restrictive policy of central banks. Aside from the long-term rate relieve, technology sector has also been strongly benefiting from the AI thematic. Energy returned negative performance as oil price keeps on falling despite OPEC cuts or while real estate is still swamped by rising credit and balance sheet risks.

The best absolute contributing sector to the eurozone value portfolio has been financials (kept to slight overweight over the period). In the banks, Unicredit, BNP, Banco Santander, Société Générale and Commerzbank have been the best contributors. In the insurers, Allianz and SCOR added the most to the performance. Other top contributors were automobile producers such as BMW, Stellantis and Mercedes. Technologies has been benefiting from semiconductors and AI theme emergence. The two small detracting sectors have been energy and real estate (the latter kept at underweight).

At the individual stock level, Unicredit, SAP, STMicroelectronics, BMW, Infineon, Mercedes, Heidelberg Materials, Enel, and BNP have been the top contributors while the worst were Teleperformance which lost 39% over the period, TotalEnergies, Merck, and ABInbev.

22.1.6. Future policy

Despite a strong underperformance relapse, value style should benefit from cheap relative valuation as well as relatively good earnings growth and momentum. We will continue to implement the behavioral value systematic strategy by replacing relatively more expensive stocks within sectors by cheaper ones, avoiding value trapped, more financially challenged stocks, as well as highly controversial companies in terms of ESG, paying even closer attention to the balance sheet quality and leverage as economic momentum has been softening and credit conditions worsening. The funds will keep a diversified sector allocation and start the semester with a slight overweight in energy, financials, utilities and a small underweight in consumer staples and health care as their defensive characteristics don't support their relative valuation level

22.1.7. Synthetic risk indicator

The synthetic risk indicator gives an indication of the risk associated with investing in a sub-fund. It places this risk on a scale ranging from one (lowest risk) to seven (highest risk).

Risk and reward profile : 5

22.7. CHANGES IN THE COMPOSITION OF THE ASSETS IN EUR

	1st semester	2nd semester	Total
Purchases	232,132,657.62		232,132,657.62
Sales	484,908,004.02		484,908,004.02
Total 1	717,040,661.64		717,040,661.64
Subscriptions	13,359,776.81		13,359,776.81
Redemptions	272,377,403.44		272,377,403.44
Total 2	285,737,180.25		285,737,180.25
Reference average of the total net asset	370,800,390.01		370,800,390.01
Rotation Percentage	116.32%		116.32%

The rotation rate gives the annual average of the transactions. A figure close to 0% shows that the transactions relating to the securities or the assets with the exception of deposits and liquid assets during a given period, were done exclusively in function of the subscriptions and redemptions. A negative percentage indicates that the subscriptions and redemptions give rise to only few or, as the case may be, no transactions in the portfolio.

A detailed list of the transactions carried out during the financial year can be consulted, free of charge, at Banque Degroof Petercam S.A with its registered office at Rue de l'Industrie 44 - B-1040 Brussels which provides the financial services.

22.9. PERFORMANCES

Figures reflect past performance and are not an indicator of future performance. These figures do not include any restructuring.

Returns are determined at the end of the financial year. (from July 1, 2022 to June 30, 2023).

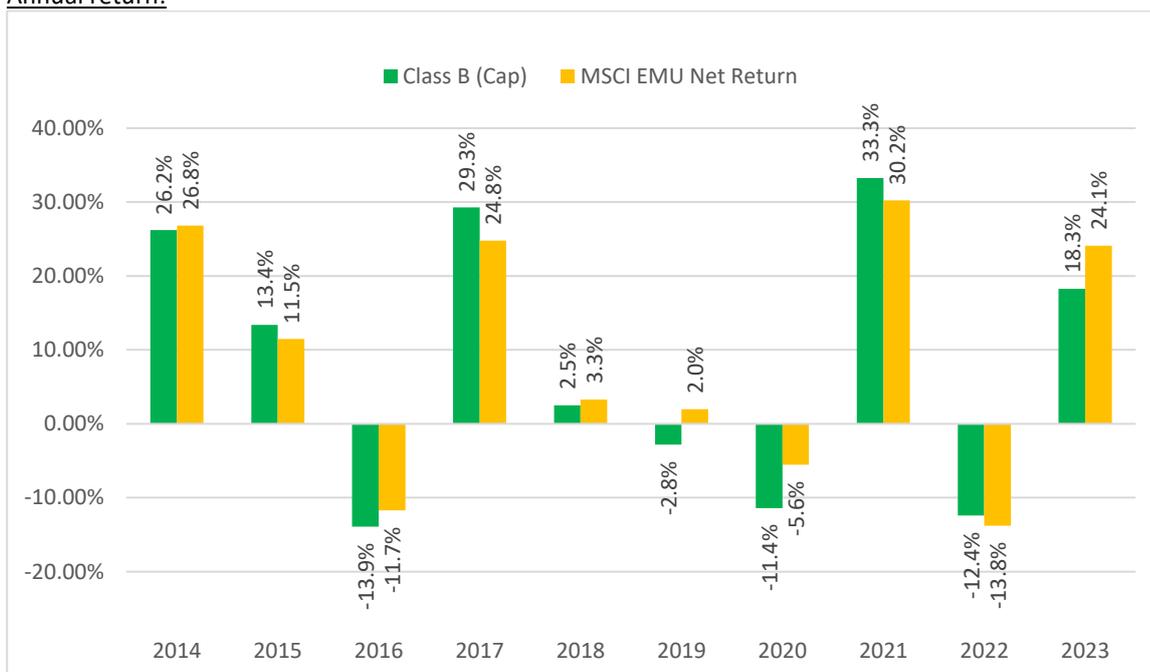

The annual return is defined as the absolute return earned over a year. For the semi-annual report, the accounting year is 12-month period preceding the end of the half-year.

The performance of accumulation units is calculated in a similar way to distribution units. Only the performance (in the form of bar charts) of class B shares is shown in this report. The performance of other share classes may differ, in particular as a result of charges specific to each class (management fees, currency hedging fees, subscription taxes, etc.). Information on the past performance of all share classes is published on the www.dpamfunds.com website. («Overview» tab).

Bar chart showing annual returns of the last 10 years (in % and calculated in EUR) as of 30 June 2023:

Class B (Cap)

Annual return:

This is an actively managed sub-fund, which means that the portfolio manager does not aim to replicate the performance of a benchmark. No benchmarks are used in the management of the sub-fund. The benchmark is used to compare performance.

Table showing historical benchmark performance (actuarial returns):

The sub-fund uses the following index as a benchmark: MSCI EMU Net Return

	Average cumulated returns				Since	
	1 year	3 year	5 year	10 year	Year	Value
MSCI EMU Net Return	24.09 % (in EUR)	11.67 % (in EUR)	6.06 % (in EUR)	8.00% (in EUR)	13/02/2002	4.36 % (in EUR)

Fee sharing

As at 30 June 2023, 27,62% of the remuneration due to the Fund Manager was retroceded to some other distributors, third parties and the Banque Degroof Petercam or one of its subsidiaries. The third parties are either end clients with a retrocession agreement, or institutional clients under discretionary management with a management agreement. Bank Degroof Petercam or one of its subsidiaries are distributors in the same way as external distributors.

INFORMATION

22.11.1. Gross dividends paid in the financial year

2019	class A 1.66 EUR class M 2.16 EUR
2021	class A 1,47 EUR class M 1,49 EUR

22.11.2. Transparency of the securities financing transactions and of reuse

In accordance with Article 13 and Section A of the Annex to Regulation EU 2015/2365 (hereinafter the Regulation), the Sicav must inform investors of its use of securities financing transactions and total return swaps in the annual report and the half-yearly report.

23. INFORMATION ABOUT THE SUBFUND DPAM B EQUITIES US BEHAVIORAL VALUE

23.1. MANAGEMENT REPORT

23.1.1. Launch date of the sub-fund and subscription price of the shares

Initial subscription day: 1 April 2022.

On 24 March 2022, the sub-fund received all the assets of the DPAM CAPITAL B Equities US Behavioral Value sub-fund of the DPAM CAPITAL B SICAV. On 1 April 2022, the sub-fund was launched following the merger.

Initial subscription price: The initial subscription price corresponds to the net asset value of the shares of the DPAM CAPITAL B Equities US Behavioral Value sub-fund of the DPAM CAPITAL B Sicav on 1 April 2022.

23.1.2. Stock exchange listing

The shares of the sub-fund are not listed on an exchange.

23.1.3. Aim and main outlines of the investment policy

Objective

The objective of the sub-fund is to provide the shareholders with as high a global return as possible. The sub-fund invests in listed American equities. The investment policy embraces the principles of Behavioral Finance, a psychology-based academic field that analyses the financial markets.

The sub-fund invests in equities which are deemed undervalued and exhibit a good price momentum. The fund will continue to widely spread the risks, mainly by a large sector diversification.

This is an actively managed sub-fund, which means that the portfolio manager does not aim to replicate the performance of a benchmark.

Investment policy

The sub-fund promotes environmental and social characteristics within the meaning of Article 8 of SFDR Regulation 2019/2088.

23.1.4. Index and benchmark

MSCI USA Net Return

MSCI Limited is registered with ESMA (European Securities and Markets Authority).

De benchmark wordt gebruikt om de prestaties te vergelijken.

The selection and weighting of assets in the sub-fund's portfolio may differ significantly from the composition of the benchmark.

The benchmark is not aligned with the promotion of the environmental and social characteristics of the sub-fund. Please refer to the "Investment strategy" section of the prospectus for an explanation of how the sub-fund promotes environmental and social characteristics.

The composition and value of the benchmark, if any, can be found at www.dpamfunds.com.

23.1.5. Policy followed during the year

The backdrop of a declining macro environment and a regional banking crisis went hand in hand this year with the fact that US equity markets rose strongly this year.

US equity markets rallied strongly in the first half of the year driven by a concentrated performance in high growth and mega cap stocks with the Nasdaq having its best start of the year in a long time. At the sector level consumer discretionary, communication services and IT are all up massively this year. Due to the nature of the strong rally in stocks value has underperformed as a style as did the fund. The AI theme played a major role in the US stock market rally with Nvidia the best performing stock this year.

The fund underperformed mainly due to its stock selection as we did not have exposure to the highly valued names like Nvidia. In IT not having Nvidia and Apple hurt the performance. In consumer discretionary not owning Amazon and Tesla was detrimental to the performance while owning Advanced Auto Parts was negative to the performance as well. In communication services not owning Meta and owning AT&T was the most negative to the performance. In financials the fund had exposure to some regional banks that suffered strongly when SVB went bust. In healthcare the fund underperformed due to its stock selection with Catalent being the most detrimental to performance. In industrials the fund performed better in relative and absolute terms with General Electric being the strongest performer. In consumer staples the fund outperformed in relative terms with Lamb Weston being the best performer.

23.1.6. Future policy

We will continue to implement the behavioral value systematic strategy by replacing relatively more expensive stocks (within sectors) by cheaper ones, avoiding value trapped, more financially challenged stocks, as well as highly controversial companies in terms of ESG, paying even closer attention to the quality elements as the economic environment becomes more difficult. Going forward the opportunity for value lies in the closing of an extreme valuation spread between cheap and expensive stocks.

23.1.7. Synthetic risk indicator

The synthetic risk indicator gives an indication of the risk associated with investing in a sub-fund. It places this risk on a scale ranging from one (lowest risk) to seven (highest risk).

Risk and Reward Profile : 5

With the exception of classes (A USD, B USD, E USD, L USD, M USD, N USD, F USD) : 4

These allocations of assets were established on basis of data (gross) used by the entity responsible for the administration and bookkeeping and do not reflect inevitably the economic analysis which directed the assets selection.

23.7. CHANGES IN THE COMPOSITION OF THE ASSETS IN EUR

	1st semester	2nd semester	Total
Purchases	408,902,813.91		408,902,813.91
Sales	512,876,243.38		512,876,243.38
Total 1	921,779,057.29		921,779,057.29
Subscriptions	15,373,597.80		15,373,597.80
Redemptions	132,045,617.75		132,045,617.75
Total 2	147,419,215.55		147,419,215.55
Reference average of the total net asset	637,986,297.42		637,986,297.42
Rotation Percentage	121.38%		121.38%

The rotation rate gives the annual average of the transactions. A figure close to 0% shows that the transactions relating to the securities or the assets with the exception of deposits and liquid assets during a given period, were done exclusively in function of the subscriptions and redemptions. A negative percentage indicates that the subscriptions and redemptions give rise to only few or, as the case may be, no transactions in the portfolio.

A detailed list of the transactions carried out during the financial year can be consulted, free of charge, at Banque Degroof Petercam S.A with its registered office at Rue de l'Industrie 44 - B-1040 Brussels which provides the financial services.

23.9. PERFORMANCES

Figures reflect past performance and are not an indicator of future performance. These figures do not include any restructuring.

Returns are determined at the end of the financial year. (from July 1, 2022 to June 30, 2023).

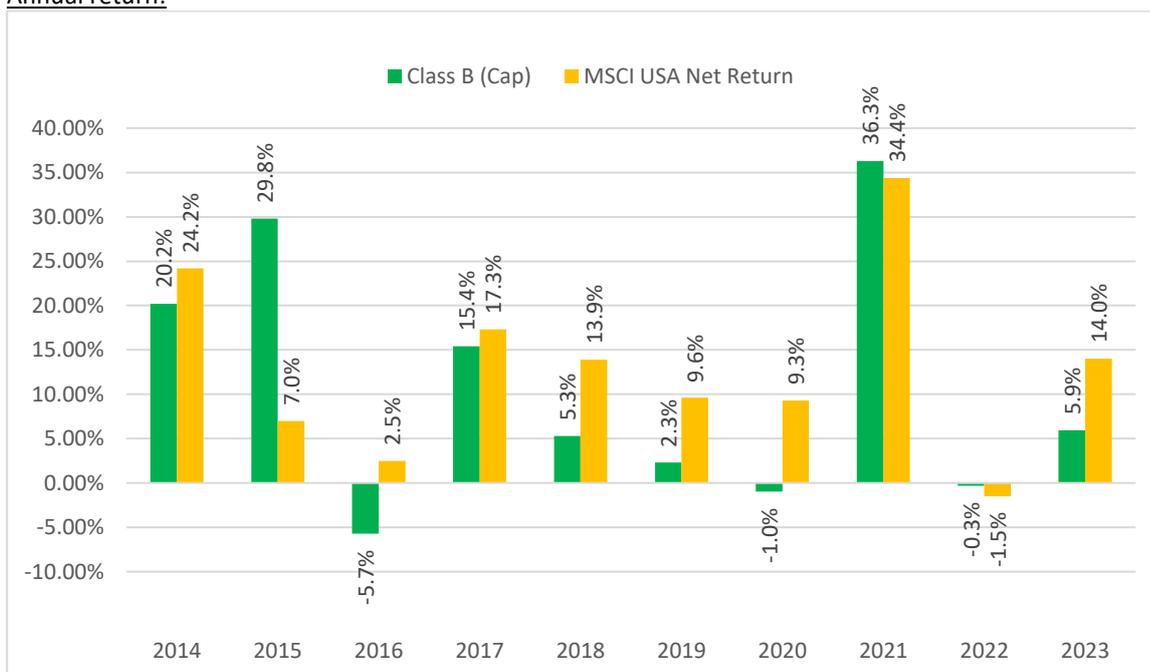

The annual return is defined as the absolute return earned over a year. For the semi-annual report, the accounting year is 12-month period preceding the end of the half-year.

The performance of accumulation units is calculated in a similar way to distribution units. Only the performance (in the form of bar charts) of class B shares is shown in this report. The performance of other share classes may differ, in particular as a result of charges specific to each class (management fees, currency hedging fees, subscription taxes, etc.). Information on the past performance of all share classes is published on the www.dpamfunds.com website. («Overview» tab).

Bar chart showing annual returns of the last 10 years (in % and calculated in EUR) as of 30 June 2023:

Class B (Cap)

Annual return:

This is an actively managed sub-fund, which means that the portfolio manager does not aim to replicate the performance of a benchmark. No benchmarks are used in the management of the sub-fund. The benchmark is used to compare performance.

Fee sharing

As at 30 June 2023, 14,67% of the remuneration due to the Fund Manager was retroceded to some other distributors, third parties and the Banque Degroof Petercam or one of its subsidiaries. The third parties are either end clients with a retrocession agreement, or institutional clients under discretionary management with a management agreement. Bank Degroof Petercam or one of its subsidiaries are distributors in the same way as external distributors.

24.1.1. Launch date of the sub-fund and subscription price of the shares

Initial subscription day: November 26, 2003
Initial subscription price: EUR 1,000.00.
Class B, E and F shares were split by 30 on May 29, 2018.

24.1.2. Stock exchange listing

The shares of the sub-fund are not listed on an exchange.

24.1.3. Aim and main outlines of the investment policy

Objective

The objective of this sub-fund is to offer shareholders the highest long-term return by investing its assets in securities representative of the real estate sector in the broad sense in the EMU zone.

The weighted average dividend yield of the sub-fund's assets must be higher than the dividend yield of the FTSE EPRA/NAREIT Eurozone Capped Net Return Index. These companies are selected on the basis of their compliance with environmental, social and governance (ESG) criteria. The sub-fund uses a rigorous ESG methodology and strict exclusions in order not to undermine other environmental and social objectives and to ensure the required good governance practices

This is an actively managed fund, which means that the portfolio manager does not aim to replicate the performance of a benchmark.

Investment policy

The sub-fund will not invest more than 10% of its assets in units of other collective investment schemes.

The sub-fund promotes environmental and social characteristics within the meaning of Article 8 of SFDR Regulation 2019/2088.

24.1.4. Index and benchmark

FTSE EPRA/NAREIT Eurozone Capped Net Return

The sub-fund uses the following index as its benchmark: FTSE EPRA/NAREIT Eurozone Capped Net Return index

This index is representative of the market for listed real estate companies in developed countries (as defined in the index methodology) in the EMU zone.

The performance of this index is calculated by reinvesting net dividends (Net Return).

This is an actively managed sub-fund, which means that the portfolio manager does not aim to replicate the performance of a benchmark. The benchmark is used for performance comparison purposes.

24.1.5. Policy followed during the year

The first 6 months of 2023 were characterized by the higher for longer interest rate environment. This new environment logically spurred a move upwards in property yields. Decreasing property values have only been partly cushioned by increasing rent levels. Property companies therefore switched their strategy from a growth mode still in early 2022 to a deleveraging mode in 2023. This switch can be realised through asset disposals, dividend cuts or equity injections. None of these actions are popular, albeit necessary. The lowly yielding and/or the highly levered companies were and are the most vulnerable companies in this new landscape. For once in a long time, the higher yielding retail subsector resisted much better than the logistics and residential subsectors.

In this new macroeconomic context, the fund continued to increase its exposure to the retail subsector over the first half of this year, predominantly by investing more in lower risk companies with lower occupancy cost ratios (OCRs) and stronger balance sheets, such as Carmila and Retail Estates. The fund also increased its exposure to student accommodation. On the other hand, the fund continued to reduce its exposure to high levered companies where it is highly underweight in companies like Kojamo or Aroundtown.

24.1.6. Future policy

For the second half of this year, we expect a continuation of the current volatile environment. More visibility on the rate hike trajectory would allow investors to have a better view on future asset valuations and the cost of debt. The fund will remain defensive as it is positioned most of the time.

Our strategy going forward will depend on the prospects for the companies in this volatile environment. We will continue to maintain a balanced portfolio. On the hand, we opt for companies that have strong balance sheet, strong prospects and good visibility. These companies come at a price, but we appreciate their stability. On the other hand, we also opt for companies that are challenged but of which we believe that the management should be able to regain better earnings and visibility going forward. These companies trade at a sizeable discount, and therefore offer upside to the share price. One subsector to which we could increase our exposure if interest rates stabilize, is residential. We remain prudent on offices and constructive on logistics.

The investment themes for the second half of 2023 are:

- Companies with strong balance sheets that hold quality assets, at the expense of companies with too much leverage;
- Companies evolving in a subsector where there is a supply shortage and thus higher rents rather than in a subsector where there is oversupply and thus lower rents;
- Companies with a strong ESG profile;
- Focus on total return, i.e., a combination of sustainable dividends and capital appreciation stemming from rental growth;
- Focus on long leases and quality tenants that enjoy competitive advantages in order to strengthen the cash flows;
- In a highly volatile environment, benefit from excessive market moves (rebuild positions in excessively penalized strong companies and vice versa)
- Companies clearly undervalued compared to industry peers.

24.1.7. Synthetic risk indicator

The synthetic risk indicator gives an indication of the risk associated with investing in a sub-fund. It places this risk on a scale ranging from one (lowest risk) to seven (highest risk).

Risk and reward profile : 5

24.5. GEOGRAPHIC ALLOCATION OF INVESTMENTS

By country	% Portfolio
FRANCE	40.36%
BELGIUM	24.63%
GERMANY (FEDERAL REPUBLIC)	19.64%
NETHERLANDS	8.10%
SPAIN	4.87%
GUERNSEY	0.95%
LUXEMBOURG (GRAND DUCHY)	0.91%
FINLAND	0.54%
Total	10

These allocations of assets were established on basis of data (gross) used by the entity responsible for the administration and bookkeeping and do not reflect inevitably the economic analysis which directed the assets selection.

24.6. ECONOMIC ALLOCATION OF INVESTMENTS

By sector	% Portfolio
REAL ESTATE	91.29%
OTHER SERVICES	4.87%
FINANCIAL SERVICES - HOLDINGS	3.84%
TOTAL	10

These allocations of assets were established on basis of data (gross) used by the entity responsible for the administration and bookkeeping and do not reflect inevitably the economic analysis which directed the assets selection.

24.7. CHANGES IN THE COMPOSITION OF THE ASSETS IN EUR

	1st semester	2nd semester	Total
Purchases	23,197,779.77		23,197,779.77
Sales	23,326,074.48		23,326,074.48
Total 1	46,523,854.25		46,523,854.25
Subscriptions	13,791,832.40		13,791,832.40
Redemptions	16,553,045.70		16,553,045.70
Total 2	30,344,878.10		30,344,878.10
Reference average of the total net asset	82,138,192.73		82,138,192.73
Rotation Percentage	19.70%		19.70%

The rotation rate gives the annual average of the transactions. A figure close to 0% shows that the transactions relating to the securities or the assets with the exception of deposits and liquid assets during a given period, were done exclusively in function of the subscriptions and redemptions. A negative percentage indicates that the subscriptions and redemptions give rise to only few or, as the case may be, no transactions in the portfolio.

A detailed list of the transactions carried out during the financial year can be consulted, free of charge, at Banque Degroof Petercam S.A with its registered office at Rue de l'Industrie 44 - B-1040 Brussels which provides the financial services.

24.9. PERFORMANCES

Figures reflect past performance and are not an indicator of future performance. These figures do not include any restructuring.

Returns are determined at the end of the financial year. (from July 1, 2022 to June 30, 2023).

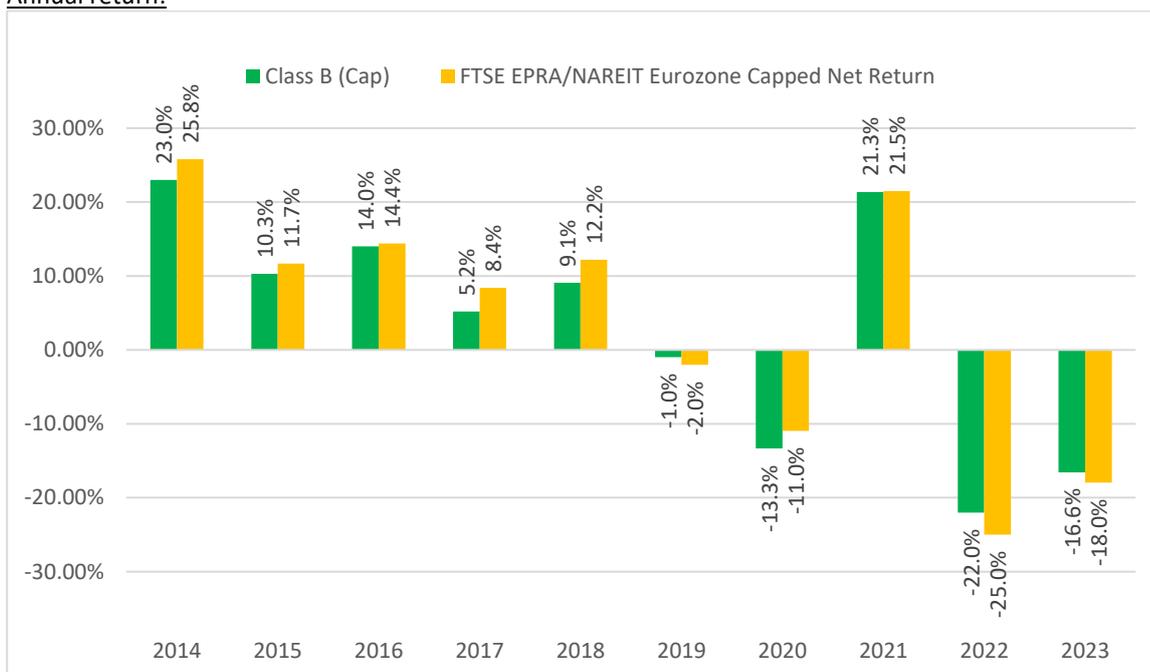

The annual return is defined as the absolute return earned over a year. For the semi-annual report, the accounting year is 12-month period preceding the end of the half-year.

The performance of accumulation units is calculated in a similar way to distribution units. Only the performance (in the form of bar charts) of class B shares is shown in this report. The performance of other share classes may differ, in particular as a result of charges specific to each class (management fees, currency hedging fees, subscription taxes, etc.). Information on the past performance of all share classes is published on the www.dpamfunds.com website. («Overview» tab).

Bar chart showing annual returns of the last 10 years (in % and calculated in EUR) as of 30 June 2023:

Class B (Cap)

Annual return:

This is an actively managed sub-fund, which means that the portfolio manager does not aim to replicate the performance of a benchmark. No benchmarks are used in the management of the sub-fund. The benchmark is used to compare performance.

Table showing historical benchmark performance (actuarial returns):

The sub-fund uses the following index as a benchmark: FTSE EPRA/NAREIT Eurozone Capped Net Return

	Average cumulated returns				Since	
	1 year	3 year	5 year	10 year	Year	Value
FTSE EPRA/NAREIT Eurozone Capped Net Return	-17.96 % (in EUR)	-9.24 % (in EUR)	-8.18 % (in EUR)	(in EUR)	11/12/2003	(in EUR)

2021	class E 2,15 EUR class M 61,61EUR

24.11.2. Investment restrictions and overruns

Between NAV dates 7/02/2023 and 9/02/2023, a regulatory investment compliance passive breach was open in the DPAM B Real Estate EMU Dividend Sustainable subfund. Due to a large redemption (2.73% of the AUM) on trade date 03/02/2023 and value date 07/02/2023, several transactions were made to cover this. The sell order for 20,550 shares of Shurgard was only partially executed on 03/02/2023 creating a negative cash amount. The remaining shares were sold the following day. The partial execution was caused by market conditions due to the illiquidity of the market. The breach stayed open for a consecutive day due to market fluctuations. Instruments were automatically sold the following day to close the breach.

Between NAV dates 9/05/2023 and 10/05/2023, a prospectus investment compliance passive breach was open in the DPAM B Real Estate EMU Dividend Sustainable subfund. A breach of the constraint "The weighted average dividend yield of the sub-fund's assets must exceed the dividend yield of the FTSE EPRA/ NAREIT Eurozone Capped Net Return Index", the weighted average dividend yield for the fund was 7.032 while the dividend yield for the benchmark was 7.114. This was caused by market fluctuations. Positions were adapted to close the breach.

24.11.3. Transparency of the securities financing transactions and of reuse

In accordance with Article 13 and Section A of the Annex to Regulation EU 2015/2365 (hereinafter the Regulation), the Sicav must inform investors of its use of securities financing transactions and total return swaps in the annual report and the half-yearly report.

25. INFORMATION ABOUT THE SUBFUND DPAM B BONDS EUR MEDIUM TERM

25.1. MANAGEMENT REPORT

25.1.1. Launch date of the sub-fund and subscription price of the shares

Initial subscription day: September 30, 1992
Initial subscription price: EUR 2 478.93
Class B shares were split by 20 on March 31, 2005.

25.1.2. Stock exchange listing

The shares of the sub-fund are not listed on an exchange.

25.1.3. Aim and main outlines of the investment policy

Objective

The objective is to provide shareholders with as high a global return as possible, with an accent on investments in bonds (without sector limitation) denominated in one or more European currencies and issued or guaranteed by debtors with "Investment Grade" quality.

This is an actively managed sub-fund, which means that the portfolio manager does not aim to replicate the performance of a benchmark.

Investment policy

The sub-fund will not invest more than 10% of its assets in units of other collective investment schemes.
The sub-fund promotes environmental and social characteristics within the meaning of Article 8 of SFDR Regulation 2019/2088.

25.1.4. Index and benchmark

JPM EMU Government Investment Grade 1-10 years

The sub-fund uses the following index as its benchmark: JPM EMU Government Investment Grade 1-10 years
This index is a bond index representing bonds issued by the governments of European countries where the euro is the official currency, rated "investment grade" by each of the three major rating agencies (Standard & Poor's, Moody's and Fitch). The performance is calculated by reinvesting the coupons paid by the debt securities included in the index. The index contains bonds with a residual maturity between a minimum of 1 year and a maximum of 10 years.

It is an actively managed sub-fund, which means that the portfolio manager does not aim to replicate the performance of a benchmark. The benchmark is used as a means of comparing performance.

25.1.5. Policy followed during the year

The first months of the year were characterized by relatively range-bound moves in both bond yields as in spreads. In line with this, we have been altering our duration stance between a significant short around -10% and a neutral stance on a portfolio level versus the benchmark. This was appropriate as we believed that the combination of uncomfortably high inflation and a decent real growth situation would continue pushing interest rates higher, but with elevated volatility.

Also, at the start of the year we identified some risks to the market's expectation of a quick reversal of inflation towards the ECB's target. If these risks would realize themselves, it would push inflation back up again without ever reaching the 2% target.

The first risk concerned the observation that global financial conditions were only in slight restrictive territory for a limited time. As such the transmission of monetary policy through these financial conditions to the real economy might be too limited. Secondly, the decrease of energy prices and a more confident consumer could lead to new spending thereby supporting the real economy through both growth and inflation. And finally, as China decided to reopen its economy following years of Covid lockdowns, for the first time it might become an exporter of inflation instead of being an exporter of deflation.

However, by the end of June most of these risks have still not realized or only realized to a limited extent. And additionally, the horizon for them to materialize has become very small.

Since May, we have become more worried about the real growth outlook. The main trigger for this is the observation that in the manufacturing sector, there is no demand for consumer goods. This has now been ongoing for several months and is getting worse. We believe there's a non-dismissible probability that this will spill over to the services sector which is in line with previous episodes of economic slowdown. As the services sector is responsible for most employment, this could quickly lead to a negative spiral of negative services growth and increasing unemployment. Consequently, since the end of May we have been adding duration in the fund versus the benchmark and are comfortable with a long duration position around 5% versus the benchmark. We have continued being positioned for a steepening of interest rate curves as this typically happens when we are close to the terminal policy rate. This unfortunately did not work yet as markets continued pricing a higher terminal policy rate and the ECB continued hiking.

We continue having a high conviction that markets will eventually adjust, driven by a clear deterioration in the growth picture or by another potential systemic market event such as the banking crisis in March this year when curves almost fully un-inverted in a few days' time.

Over the first half of the year, we have kept our overweight exposure to peripheral countries intact. Except in Italy as this is a good hedge against our views being incorrect. This conviction added good performance to the fund.

25.1.6. Future policy

2023 was a year where upside inflation risks were more important than growth risks, both positive and negative. However, we believe that the second half of the year might be the opposite.

As the economic cycle is turning, it is appropriate to continue with an overweight duration stance in the fund versus the benchmark. We will also continue adding duration on rates weakness, or when the economic situation would continue deteriorating.

To be fully positioned for this expected type of environment, this duration overweight should be combined with a curve steepening bias. Once it becomes clear the real growth situation is significantly weakening or we witness another systemic market event, markets will quickly price out any further policy rate increases and start pricing in rate cuts thereby significantly steepening the yield curve.

However, we don't believe inflation will over the medium term move back towards the ECB's target and hence still see value in shorter-term inflation-linked bonds as we want to continue profiting from an attractive inflation coupon accrual versus what is currently priced in. As typically real rates underperform nominal rates when we move towards a slowdown or a recession, we don't want to have exposure to longer maturity inflation linked bonds' duration in a nominal rates portfolio.

It remains appropriate to have an overweight position to peripheral countries, but on a very selective basis. The ECB has shown that it has a high amount of flexibility and creativity to create new tools to avoid any fragmentation of the Eurozone that would impede the transmission of monetary policy. Over the past years they have clearly shown that commitment through e.g., the Pandemic Emergency Purchase Program (PEPP) and Transmission Protection Instrument (TPI). The markets clearly have full confidence in this as the large increase in interest rates over the past 18 months was only met by a limited amount of spread widening, which is a very different situation than in the past.

25.1.7. Synthetic risk indicator

The synthetic risk indicator gives an indication of the risk associated with investing in a sub-fund. It places this risk on a scale ranging from one (lowest risk) to seven (highest risk).

Risk and reward profile : 3

25.5. GEOGRAPHIC ALLOCATION OF INVESTMENTS

By country	% Portfolio
ITALY	20.86%
SPAIN	18.54%
FRANCE	12.44%
GERMANY (FEDERAL REPUBLIC)	7.67%
AUSTRIA	7.07%
ROMANIA	5.55%
BELGIUM	5.06%
CROATIA (REPUBLIC)	4.66%
PORTUGAL	4.25%
NETHERLANDS	4.10%
IRELAND	3.17%
SLOVENIA (REPUBLIC)	2.74%
LUXEMBOURG (GRAND DUCHY)	2.57%
FINLAND	1.32%
Total	10

These allocations of assets were established on basis of data (gross) used by the entity responsible for the administration and bookkeeping and do not reflect inevitably the economic analysis which directed the assets selection.

25.6. ECONOMIC ALLOCATION OF INVESTMENTS

By sector	% Portfolio
STATES	78.70%
BANKS	14.50%
PROVINCE	3.35%
EUROPEAN ORGANIZATIONS	1.84%
COMMERCIAL & PUBLIC SERVICES	1.49%
ROAD VEHICLES	0.12%
TOTAL	10

These allocations of assets were established on basis of data (gross) used by the entity responsible for the administration and bookkeeping and do not reflect inevitably the economic analysis which directed the assets selection.

25.7. CHANGES IN THE COMPOSITION OF THE ASSETS IN EUR

	1st semester	2nd semester	Total
Purchases	31,938,014.72		31,938,014.72
Sales	103,338,468.98		103,338,468.98
Total 1	135,276,483.70		135,276,483.70
Subscriptions	7,295,087.22		7,295,087.22
Redemptions	82,481,609.86		82,481,609.86
Total 2	89,776,697.08		89,776,697.08
Reference average of the total net asset	224,139,963.61		224,139,963.61
Rotation Percentage	20.30%		20.30%

The rotation rate gives the annual average of the transactions. A figure close to 0% shows that the transactions relating to the securities or the assets with the exception of deposits and liquid assets during a given period, were done exclusively in function of the subscriptions and redemptions. A negative percentage indicates that the subscriptions and redemptions give rise to only few or, as the case may be, no transactions in the portfolio.

A detailed list of the transactions carried out during the financial year can be consulted, free of charge, at Banque Degroof Petercam S.A with its registered office at Rue de l'Industrie 44 - B-1040 Brussels which provides the financial services.

25.10. PERFORMANCES

Figures reflect past performance and are not an indicator of future performance. These figures do not include any restructuring.

Returns are determined at the end of the financial year. (from July 1, 2022 to June 30, 2023).

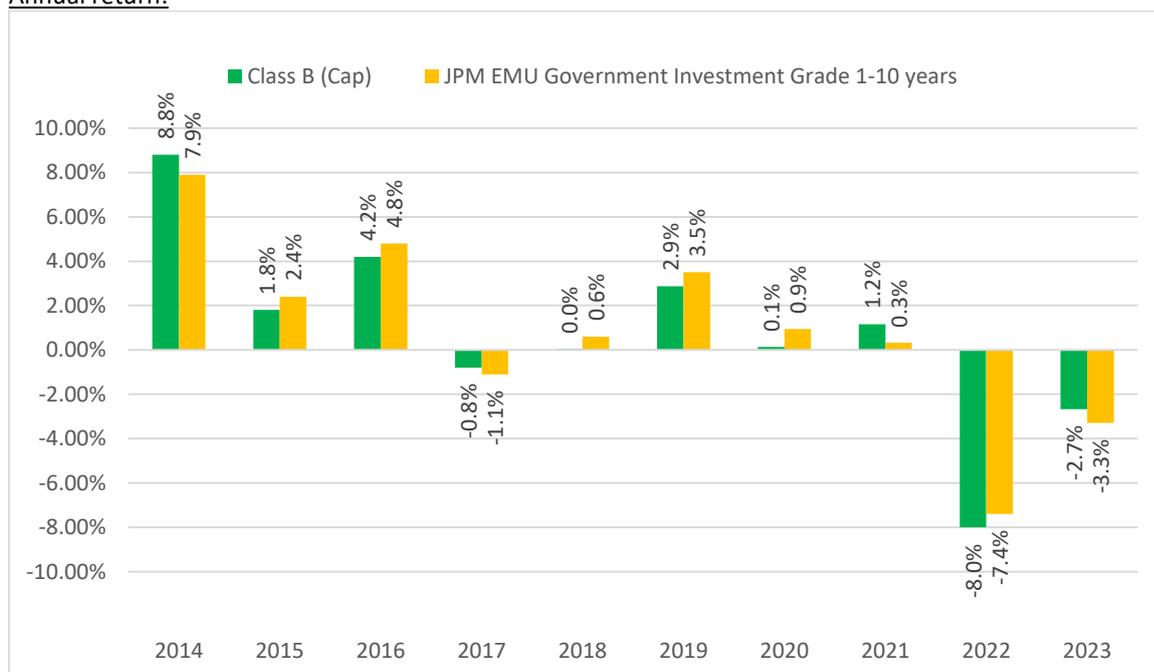

The annual return is defined as the absolute return earned over a year. For the semi-annual report, the accounting year is 12-month period preceding the end of the half-year.

The performance of accumulation units is calculated in a similar way to distribution units. Only the performance (in the form of bar charts) of class B shares is shown in this report. The performance of other share classes may differ, in particular as a result of charges specific to each class (management fees, currency hedging fees, subscription taxes, etc.). Information on the past performance of all share classes is published on the www.dpamfunds.com website. («Overview» tab).

Fee sharing

As at 30 June 2023, 0,64% of the remuneration due to the Fund Manager was retroceded to some other distributors, third parties and the Banque Degroof Petercam or one of its subsidiaries. The third parties are either end clients with a retrocession agreement, or institutional clients under discretionary management with a management agreement. Bank Degroof Petercam or one of its subsidiaries are distributors in the same way as external distributors.

25.12.2. Transparency of the securities financing transactions and of reuse

In accordance with Article 13 and Section A of the Annex to Regulation EU 2015/2365 (hereinafter the Regulation), the Sicav must inform investors of its use of securities financing transactions and total return swaps in the annual report and the half-yearly report.

26. INFORMATION ABOUT THE SUBFUND DPAM B EQUITIES US DIVIDEND SUSTAINABLE
--

26.1. MANAGEMENT REPORT

26.1.1. Launch date of the sub-fund and subscription price of the shares

Initial subscription period: from January 2 to January 4, 2008.

Initial subscription price: 100 EUR

26.1.2. Stock exchange listing

The shares of the sub-fund are not listed on an exchange.

26.1.3. Aim and main outlines of the investment policy

Objective

The objective of the sub-fund is to provide the shareholders with as high a global return as possible. The sub-fund invests in American listed equities as well as any security giving entitlement to the capital of these companies, selected on the basis of compliance with environmental, social and governance (ESG) criteria.

The sub-fund uses a rigorous ESG methodology and strict exclusions in order not to undermine other environmental and social objectives and to ensure the required good governance practices.

The risks are widely spread, among others by a broad sector diversification. The allocation of the portfolio will change depending on the assessment of the macroeconomic outlook and the situation on the financial markets. The sub-fund can for example prefer or avoid certain sectors or investment styles based among others on the economic outlook.

At least 50% of the portfolio must be composed of equities and other securities referred to above generating a higher actual or expected dividend yield than the market average.

This is an actively managed sub-fund, which means that the portfolio manager does not aim to replicate the performance of a benchmark.

Investment policy

The sub-fund will not invest more than 10% of its assets in units of other collective investment schemes.

The sub-fund promotes environmental and social characteristics within the meaning of Article 8 of SFDR Regulation 2019/2088.

26.1.4. Index and benchmark

MSCI USA Net Return

The sub-fund uses the following index as its benchmark: MSCI USA Net Return.

This index is representative of the large- and mid-cap equity market of developed countries (as defined by MSCI and mainly based on the country of incorporation and the country of primary listing of its securities) in the United States. The performance of this index is calculated by reinvesting net dividends (Net Return).

This is an actively managed sub-fund, which means that the portfolio manager does not aim to replicate the performance of a benchmark. The benchmark is used for performance comparison purposes.

26.1.5. Policy followed during the year

DPAM B Equities US Dividend Sustainable is an equity fund that invests exclusively in US dividend-paying and publicly traded companies. The objective of the strategy is to find good quality companies with a growing dividend profile, and a sustainable balance sheet and cash flow generation to maintain and even grow the dividend over time.

The fund is diversified and invested across most sectors, with the exception of the energy sector, which is excluded due to ESG concerns. Some other industries (such as tobacco, gambling etc.) are also excluded for the same reasons. The fund has a quantitative best-in-class ESG screening based on third-party data and integrates ESG elements all along the investment process. Stock selection is based on qualitative fundamental analysis integrating elements such as competitive position, balance sheet quality and cash flow generation, complemented with quantitative elements. The fund had a positive start of the year, benefiting from its exposure to IT companies such as Broadcom, Microsoft, Apple or Oracle. The sector benefited from the positive trend around AI, some “fly to quality” effect during the US banking crisis and the fear of missing out of investors. The fund also benefited from its 0 exposure to the energy sector, which has been negatively impacted by the fall in global energy prices over the first months of the year.

On the negative side, the fund suffered from its underexposure to communication services and consumer discretionary (led by large non-dividend paying stocks) and some exposure to the US banking industry.

During the first months of 2023, we lowered our exposure to Communication Services by exiting John Wiley. The company operates in the education industry and is facing structural headwinds and margin pressures in its publishing business. We also reduced our exposure to consumer staples by exiting our position in Target. The US retailer has had recurring difficulties to liquidate excess inventories, negatively impacting its margins, while the company is facing headwinds due to its sales-mix, which is largely exposed to discretionary items. Finally, we reduced our exposure to banks following the march US banking crisis and some fears of further liquidity and solvability risk, by exiting our positions in Huntington Bancshares, Zions, and reducing our exposure to PNC Financial Services.

On the other side, we increased our exposure to IT, both due to a positive performance effect and by starting a new position in Amdocs. Amdocs serves telecommunication service providers (CSPs) by helping them to go to market with new products and services and transitioning to the cloud. We believe that the company can benefit from the high capex needs of the leading CSPs globally.

26.1.6. Future policy

For the rest of the year, the fund will continue to focus on well-established US companies paying a sustainable and growing dividend. We will keep a diversified approach and favored resilient companies, with strong balance sheet and good cash flow generation. We will also continue the work on the sustainable profile of the fund with continuous monitoring of the positions but also with engagements with the companies on environmental, social and governance topics and by investing in companies contributing positively to the society.

26.1.7. Synthetic risk indicator

The synthetic risk indicator gives an indication of the risk associated with investing in a sub-fund. It places this risk on a scale ranging from one (lowest risk) to seven (highest risk).

Risk and Reward Profile : 4

With the exception of classes (B EUR Hedged, F EUR Hedged, W EUR Hedged) : 5

26.7. CHANGES IN THE COMPOSITION OF THE ASSETS IN EUR

	1st semester	2nd semester	Total
Purchases	39,726,203.95		39,726,203.95
Sales	159,248,969.55		159,248,969.55
Total 1	198,975,173.50		198,975,173.50
Subscriptions	63,706,441.72		63,706,441.72
Redemptions	190,407,078.21		190,407,078.21
Total 2	254,113,519.93		254,113,519.93
Reference average of the total net asset	707,137,408.71		707,137,408.71
Rotation Percentage	-7.80%		-7.80%

The rotation rate gives the annual average of the transactions. A figure close to 0% shows that the transactions relating to the securities or the assets with the exception of deposits and liquid assets during a given period, were done exclusively in function of the subscriptions and redemptions. A negative percentage indicates that the subscriptions and redemptions give rise to only few or, as the case may be, no transactions in the portfolio.

A detailed list of the transactions carried out during the financial year can be consulted, free of charge, at Banque Degroof Petercam S.A with its registered office at Rue de l'Industrie 44 - B-1040 Brussels which provides the financial services.

On the date of publication of this report, the net asset value per share is published on the following websites: www.dpamfunds.com and www.beama.be. This information is also available at the counters of the financial services department.

26.9. PERFORMANCES

Figures reflect past performance and are not an indicator of future performance. These figures do not include any restructuring.

Returns are determined at the end of the financial year. (from July 1, 2022 to June 30, 2023).

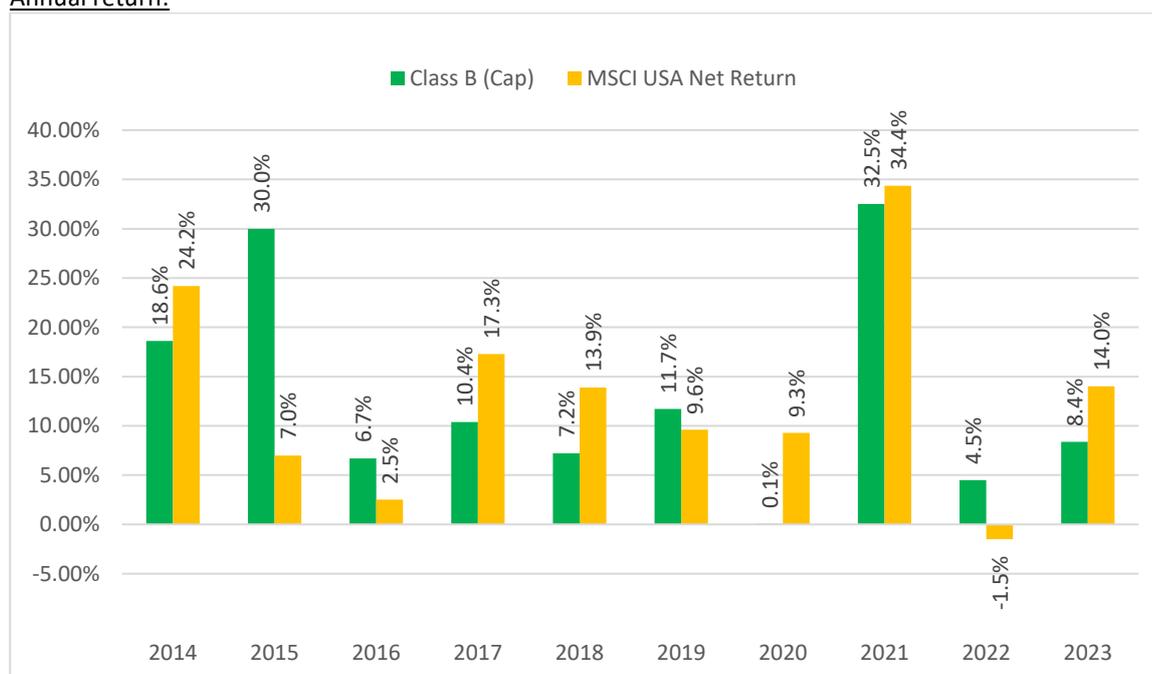

The annual return is defined as the absolute return earned over a year. For the semi-annual report, the accounting year is 12-month period preceding the end of the half-year.

The performance of accumulation units is calculated in a similar way to distribution units. Only the performance (in the form of bar charts) of class B shares is shown in this report. The performance of other share classes may differ, in particular as a result of charges specific to each class (management fees, currency hedging fees, subscription taxes, etc.). Information on the past performance of all share classes is published on the www.dpamfunds.com website. («Overview» tab).

Bar chart showing annual returns of the last 10 years (in % and calculated in EUR) as of 30 June 2023:

Class B (Cap)

Annual return:

This is an actively managed sub-fund, which means that the portfolio manager does not aim to replicate the performance of a benchmark. No benchmarks are used in the management of the sub-fund. The benchmark is used to compare performance.

DPAM B
Equities US Dividend Sustainable

Table showing historical benchmark performance (actuarial returns):

The sub-fund uses the following index as a benchmark: MSCI USA Net Return

	Average cumulated returns				Since	
	1 year	3 year	5 year	10 year	Year	Value
MSCI USA Net Return	14.01 % (in EUR)	14.70 % (in EUR)	13.13 % (in EUR)	14.14 % (in EUR)	16/05/2008	11.92 % (in EUR)

Class A (Dis)

Fee sharing

As at 30 June 2023, 40,57% of the remuneration due to the Fund Manager was retroceded to some other distributors, third parties and the Banque Degroof Petercam or one of its subsidiaries. The third parties are either end clients with a retrocession agreement, or institutional clients under discretionary management with a management agreement. Bank Degroof Petercam or one of its subsidiaries are distributors in the same way as external distributors.

27. INFORMATION ABOUT THE SUBFUND DPAM B CORPORATE BONDS EUR 2023
--

27.1. MANAGEMENT REPORT

27.1.1. Launch date of the sub-fund and subscription price of the shares

Initial subscription period: 31 May 2017 to 15 June 2017.

Initial subscription price: EUR 100.00.

27.1.2. Stock exchange listing

The shares of the sub-fund are not listed on an exchange.

27.1.3. Aim and main outlines of the investment policy

Objective

The objective of this sub-fund is to offer shareholders exposure to the corporate bonds market. The sub-fund is a subfund of limited duration, the maturity of which is set at 30 June 2023. The objective of the sub-fund is to achieve, over a period of six years, a capital gain on maturity. On maturity, the sub-fund will be dissolved automatically. At least one month before 30 June 2023, the Board of Directors will propose to the shareholders to subscribe to a new sub-fund with a similar objective and investment policy. Any shareholders not wishing to invest in the new sub-fund will be reimbursed at the last net asset value of the sub-fund applicable as at 30 June 2023.

This is an actively managed sub-fund, which means that the portfolio manager does not aim to replicate the performance of a benchmark.

No benchmarks are used in the management of the sub-fund. Quantitative information from a broader market can be used for risk management and evaluation by the manager.

Investment policy

The sub-fund's portfolio will consist principally of euro-denominated corporate bonds whose issuers have an Investment grade rating with one of the rating agencies such as Standard & Poor's, Moody's or Fitch. "Non-rated" corporate bonds may also account for up to 10% of the portfolio's net assets.

Corporate bonds denominated in a currency other than the Euro are in principle covered, all or in part, against the Euro, but the Manager may decide, based on his assessment of the evolution of the markets not to cover a position in a currency other than the Euro. Cash and other liquid assets and short-term fixed income instruments may also be held, particularly during the period preceding the maturity of the sub-fund.

Whilst the portfolio composition is required to respect general rules and limits prescribed by law or by the articles of incorporation, a concentration of risks can still occur in more limited asset categories or economic or geographic sectors.

The sub-fund will not invest more than 10% of its net assets in units of other undertakings for collective investment.

The sub-fund promotes environmental and social characteristics within the meaning of Article 8 of SFDR Regulation 2019/2088.

27.1.4. Index and benchmark

This is an actively managed sub-fund, which means that the portfolio manager does not aim to replicate the performance of a benchmark. No benchmark is used in the management of the sub-fund.

27.1.5. Policy followed during the year

The shareholders of the DPAM B Corporate Bonds EUR 2023 sub-fund were informed that the sub-fund was going to be dissolved automatically upon expiry of its term on 30 June 2023.

the shareholders of the DPAM B Corporate Bonds EUR 2023 sub-fund were notified that:

- they can subscribe to the new “DPAM L Bonds EUR Corporate 2026” sub-fund of the UCITS SICAV under Luxembourg law DPAM L SICAV, which is also managed by Degroof Petercam Asset Management (DPAM). This sub-fund has a similar objective and investment policy and has a fixed maturity of 31 December 2026.
- shareholders not interested in investing in the DPAM L Bonds EUR Corporate 2026 sub-fund of the SICAV DPAM L will be repaid at the latest net asset value of the DPAM B Corporate Bonds EUR 2023 sub-fund applicable on 30 June 2023.

The prospectus, the key information documents and the latest interim reports of this sub-fund are available on the website www.dpamfunds.com or on request from the management company Degroof Petercam Asset Services (DPAS), 12, rue Eugène Ruppert, L-2453 Luxembourg

During the first half of 2023, the DPAM B Corporate Bonds EUR 2023 continued with its aims to provide investors with a predictable yield through an exposure to the European Investment Grade Corporate market with a predictable maturity (target maturity of 30/06/2023). In order to achieve this objective, the Fund can only invest in bonds that mature between 30/06/2022 and 31/12/2023.

The Investment Process is mainly based on a bottom-up approach. Our credit research team adopts a fundamental and value approach to credit management. Our resources are geared towards identifying fundamentally sound credits, while avoiding low or deteriorating ones. The Fund invests in a diversified portfolio of Corporate bonds rated between AAA and BBB3 (explicit or implicit), with a maximum weight of 60% of its assets under management in BBB rated bonds.

27.1.6. Future policy

Not applicable as the fund has been dissolved automatically upon expiry of its term on 30 June 2023.

27.1.7. Synthetic risk indicator

The synthetic risk indicator gives an indication of the risk associated with investing in a sub-fund. It places this risk on a scale ranging from one (lowest risk) to seven (highest risk).

Risk and reward profile: 3

Purchases	10,657,518.30		10,657,518.30
Sales	70,224,382.70		70,224,382.70
Total 1	80,881,901.00		80,881,901.00
Subscriptions	83,088.36		83,088.36
Redemptions	52,492,137.41		52,492,137.41
Total 2	52,575,225.77		52,575,225.77
Reference average of the total net asset	67,619,325.83		67,619,325.83
Rotation Percentage	41.86%		41.86%

The rotation rate gives the annual average of the transactions. A figure close to 0% shows that the transactions relating to the securities or the assets with the exception of deposits and liquid assets during a given period, were done exclusively in function of the subscriptions and redemptions. A negative percentage indicates that the subscriptions and redemptions give rise to only few or, as the case may be, no transactions in the portfolio.

A detailed list of the transactions carried out during the financial year can be consulted, free of charge, at Banque Degroof Petercam S.A with its registered office at Rue de l'Industrie 44 - B-1040 Brussels which provides the financial services.

27.9. PERFORMANCES

Figures reflect past performance and are not an indicator of future performance. These figures do not include any restructuring.

Returns are determined at the end of the financial year. (from July 1, 2022 to June 30, 2023).

The annual return is defined as the absolute return earned over a year. For the semi-annual report, the accounting year is 12-month period preceding the end of the half-year.

The performance of accumulation units is calculated in a similar way to distribution units. Only the performance (in the form of bar charts) of class B shares is shown in this report. The performance of other share classes may differ, in particular as a result of charges specific to each class (management fees, currency hedging fees, subscription taxes, etc.). Information on the past performance of all share classes is published on the www.dpamfunds.com website. («Overview» tab).

27.11.3. Transparency of the securities financing transactions and of reuse

In accordance with Article 13 and Section A of the Annex to Regulation EU 2015/2365 (hereinafter the Regulation), the Sicav must inform investors of its use of securities financing transactions and total return swaps in the annual report and the half-yearly report.

28. INFORMATION ABOUT THE SUBFUND DPAM B REAL ESTATE EMU SUSTAINABLE

28.1. MANAGEMENT REPORT

28.1.1. Launch date of the sub-fund and subscription price of the shares

Initial subscription day: 1 April 2022.

On 24 March 2022, the sub-fund received the entire assets of the DPAM CAPITAL B Real Estate EMU subfund of the DPAM CAPITAL B SICAV. On 1 April 2022, the sub-fund was launched following the merger.

Initial subscription price: The initial subscription price corresponds to the net asset value of the shares.

28.1.2. Stock exchange listing

The shares of the sub-fund are not listed on an exchange

28.1.3. Aim and main outlines of the investment policy

Objective

The objective is to provide its shareholders with the highest possible overall return over the long term, with a focus on representative investments in the real estate sector in the euro zone. The sub-fund will not invest more than 40% of its assets in receivables of any kind. The companies in which the sub-fund invests are selected on the basis of compliance with environmental, social and governance (ESG) criteria.

The sub-fund uses a rigorous ESG methodology and strict exclusions in order not to undermine other environmental and social objectives and to ensure the required good governance practices.

This is an actively managed sub-fund, which means that the portfolio manager does not aim to replicate the performance of a benchmark.

Investment policy

The sub-fund will not invest more than 10% of its assets in units of other collective investment schemes.

The sub-fund promotes environmental and social characteristics within the meaning of Article 8 of SFDR Regulation 2019/2088.

28.1.4. Index and benchmark

FTSE EPRA/NAREIT Eurozone Capped Net Return index

The sub-fund uses the following index as a benchmark: FTSE EPRA/NAREIT Eurozone Capped Net Return index

This index is representative of the market for listed real estate companies in developed countries (as defined in the index methodology) in the EMU zone.

The performance of this index is calculated by reinvesting net dividends (Net Return).

This is an actively managed sub-fund, which means that the portfolio manager does not aim to replicate the performance of a benchmark. The benchmark is used for performance comparison purposes.

The possible composition and the value of the benchmark can be found on the website www.dpamfunds.com.

28.1.5. Policy followed during the year

The first 6 months of 2023 were characterized by the higher for longer interest rate environment. This new environment logically spurred a move upwards in property yields. Decreasing property values have only been partly cushioned by increasing rent levels. Property companies therefore switched their strategy from a growth mode still in early 2022 to a deleveraging mode in 2023. This switch can be realised through asset disposals, dividend cuts or equity injections. None of these actions are popular, albeit necessary. The lowly yielding and/or the highly levered companies were and are the most vulnerable companies in this new landscape. For once in a long time, the higher yielding retail subsector resisted much better than the logistics and residential subsectors.

In this new macroeconomic context, the fund continued to increase its exposure to the retail subsector over the first half of this year, predominantly by investing more in lower risk companies with lower occupancy cost ratios (OCRs) and stronger balance sheets, such as Carmila and Retail Estates. The fund also increased its exposure to student accommodation. On the other hand, the fund continued to reduce its exposure to high levered companies where it is highly underweight in companies like Kojamo or Aroundtown.

28.1.6. Future policy

For the second half of this year, we expect a continuation of the current volatile environment. More visibility on the rate hike trajectory would allow investors to have a better view on future asset valuations and the cost of debt. The fund will remain defensive as it is positioned most of the time.

Our strategy going forward will depend on the prospects for the companies in this volatile environment. We will continue to maintain a balanced portfolio. On the hand, we opt for companies that have strong balance sheet, strong prospects and good visibility. These companies come at a price, but we appreciate their stability. On the other hand, we also opt for companies that are challenged but of which we believe that the management should be able to regain better earnings and visibility going forward. These companies trade at a sizeable discount, and therefore offer upside to the share price. One subsector to which we could increase our exposure if interest rates stabilize, is residential. We remain prudent on offices and constructive on logistics.

The investment themes for the second half of 2023 are:

- Companies with strong balance sheets that hold quality assets, at the expense of companies with too much leverage;
- Companies evolving in a subsector where there is a supply shortage and thus higher rents rather than in a subsector where there is oversupply and thus lower rents;
- Companies with a strong ESG profile;
- Focus on total return, i.e., a combination of sustainable dividends and capital appreciation stemming from rental growth;
- Focus on long leases and quality tenants that enjoy competitive advantages in order to strengthen the cash flows;
- In a highly volatile environment, benefit from excessive market moves (rebuild positions in excessively penalized strong companies and vice versa)
- Companies clearly undervalued compared to industry peers.]

28.1.7. Synthetic risk indicator

The synthetic risk indicator gives an indication of the risk associated with investing in a sub-fund. It places this risk on a scale ranging from one (lowest risk) to seven (highest risk).

Risk and reward profile : 5

28.5. GEOGRAPHIC ALLOCATION OF INVESTMENTS

By country	% Portfolio
FRANCE	36.57%
BELGIUM	23.51%
GERMANY (FEDERAL REPUBLIC)	22.90%
NETHERLANDS	8.09%
SPAIN	6.07%
LUXEMBOURG (GRAND DUCHY)	1.15%
IRELAND	1.10%
FINLAND	0.61%
Total	10

These allocations of assets were established on basis of data (gross) used by the entity responsible for the administration and bookkeeping and do not reflect inevitably the economic analysis which directed the assets selection.

28.6. ECONOMIC ALLOCATION OF INVESTMENTS

By sector	% Portfolio
REAL ESTATE	88.31%
FINANCIAL SERVICES - HOLDINGS	6.86%
OTHER SERVICES	4.83%
TOTAL	10

These allocations of assets were established on basis of data (gross) used by the entity responsible for the administration and bookkeeping and do not reflect inevitably the economic analysis which directed the assets selection.

28.7. CHANGES IN THE COMPOSITION OF THE ASSETS IN EUR

	1st semester	2nd semester	Total
Purchases	20,266,143.78		20,266,143.78
Sales	16,628,991.06		16,628,991.06
Total 1	36,895,134.84		36,895,134.84
Subscriptions	16,716,497.18		16,716,497.18
Redemptions	15,882,018.39		15,882,018.39
Total 2	32,598,515.57		32,598,515.57
Reference average of the total net asset	123,400,256.01		123,400,256.01
Rotation Percentage	3.48%		3.48%

The rotation rate gives the annual average of the transactions. A figure close to 0% shows that the transactions relating to the securities or the assets with the exception of deposits and liquid assets during a given period, were done exclusively in function of the subscriptions and redemptions. A negative percentage indicates that the subscriptions and redemptions give rise to only few or, as the case may be, no transactions in the portfolio.

A detailed list of the transactions carried out during the financial year can be consulted, free of charge, at Banque Degroof Petercam S.A with its registered office at Rue de l'Industrie 44 - B-1040 Brussels which provides the financial services.

28.9. PERFORMANCES

Figures reflect past performance and are not an indicator of future performance. These figures do not include any restructuring.

Returns are determined at the end of the financial year. (from July 1, 2022 to June 30, 2023).

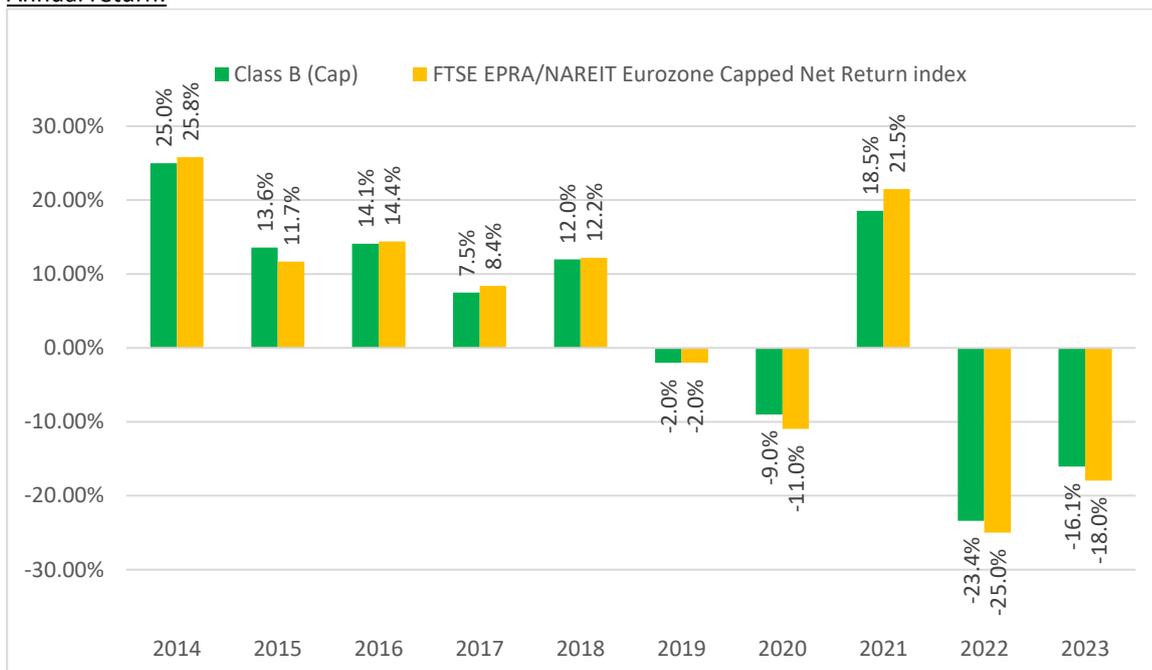

The annual return is defined as the absolute return earned over a year. For the semi-annual report, the accounting year is 12-month period preceding the end of the half-year.

The performance of accumulation units is calculated in a similar way to distribution units. Only the performance (in the form of bar charts) of class B shares is shown in this report. The performance of other share classes may differ, in particular as a result of charges specific to each class (management fees, currency hedging fees, subscription taxes, etc.). Information on the past performance of all share classes is published on the www.dpamfunds.com website. («Overview» tab).

Bar chart showing annual returns of the last 10 years (in % and calculated in EUR) as of 30 June 2023:

Class B (Cap)

Annual return:

This is an actively managed sub-fund, which means that the portfolio manager does not aim to replicate the performance of a benchmark. No benchmarks are used in the management of the sub-fund. The benchmark is used to compare performance.

Table showing historical benchmark performance (actuarial returns):

Fee sharing

As at 30 June 2023, 48,19% of the remuneration due to the Fund Manager was retroceded to some other distributors, third parties and the Banque Degroof Petercam or one of its subsidiaries. The third parties are either end clients with a retrocession agreement, or institutional clients under discretionary management with a management agreement. Bank Degroof Petercam or one of its subsidiaries are distributors in the same way as external distributors.

INFORMATION

28.11.1. Gross dividends paid in the financial year

2019	class A 1.74 EUR class E 2.26 EUR class M 2.21 EUR
2021	class A 1,90 EUR class M 1,92 EUR

28.11.2. Investment restrictions and overruns

Between NAV dates 12/05/2023 and 15/05/2023, a regulatory investment compliance passive breach was open in the DPAM B Real Estate EMU Sustainable subfund. The sum of issuers representing more than 5% each represented more than 40% (43.731%) of the fund's TNA. The breach was caused by market fluctuations, there was a price increase for TAG IMMOBILIEN AG (DE0008303504) causing the weight to increase above the 5% limit. Positions were adapted to close the breach.

Between NAV dates 6/06/2023 and 7/06/2023, a regulatory investment compliance passive breach was open in the DPAM B Real Estate EMU Sustainable subfund. The sum of issuers representing more than 5% each represented more than 40% (43.847%) of the fund's TNA. The breach was caused by market fluctuations. Positions were adapted to close the breach.

Between NAV dates 27/06/2023 and 29/06/2023, a regulatory investment compliance passive breach was open in the DPAM B Real Estate EMU Sustainable subfund. The sum of issuers representing more than 5% each represented more than 40% (40.135%) of the fund's TNA. The breach was caused by market fluctuations. Positions were adapted to close the breach.

28.11.3. Transparency of the securities financing transactions and of reuse

In accordance with Article 13 and Section A of the Annex to Regulation EU 2015/2365 (hereinafter the Regulation), the Sicav must inform investors of its use of securities financing transactions and total return swaps in the annual report and the half-yearly report.

29. INFORMATION ABOUT THE SUBFUND DPAM B EQUITIES US ESG LEADERS INDEX

29.1. MANAGEMENT REPORT

29.1.1. Launch date of the sub-fund and subscription price of the shares

Initial subscription day: 1 April 2022.

On March 24, 2022, the sub-fund received all the assets of the DPAM CAPITAL B Equities US ESG Leaders Index subfund of the DPAM CAPITAL B SICAV. On 1 April 2022, the sub-fund was launched following the merger.

Initial subscription price: The initial subscription price corresponds to the net asset value of the shares of the DPAM CAPITAL B Equities US ESG Leaders Index sub-fund of the DPAM CAPITAL B on 1 April 2022.

29.1.2. Stock exchange listing

The shares of the sub-fund are not listed on the stock exchange.

29.1.3. Aim and main outlines of the investment policy

Objective

The objective is to obtain the highest possible overall return for shareholders, with emphasis on investments in US equities.

The sub-fund is a tracker fund implementing a passive investment management strategy whose objective is to replicate physically and not synthetically the "Net Dividends Reinvested" performance of the MSCI USA ESG LEADERS Index in Euro.

This is a passively managed sub-fund, which means that the portfolio manager's objective is to replicate the performance of a benchmark.

Investment policy

The sub-fund promotes environmental and social characteristics within the meaning of Article 8 of SFDR Regulation 2019/2088.

29.1.4. Index and benchmark

MSCI USA ESG Leaders Net Return

The sub-fund uses the following index as its benchmark: MSCI Daily Net Total Return USA ESG Leaders Euro.

Further information about the Index, its composition, calculation and the rules governing its periodic review and rebalancing, as well as the general methodology of the MSCI indices, is available at www.msci.com.

The performance of the benchmark is calculated with net dividends reinvested (Net Return).

The "tracking error" is of the order of 1.5%.

This is a passively managed sub-fund, which means that the portfolio manager aims to replicate the performance of a benchmark.

29.1.5. Policy followed during the year

The "Net Asset Value" of the fund (J share) as of June 30, 2023 was 141,076.24EUR and its performance during the first semester 2023 is 14.80 % (in EUR).

The benchmark of the Equities US ESG Index sub-fund is the MSCI Daily Net Total Return USA ESG Leaders Euro index.

The MSCI Daily Net Total Return USA ESG Leaders Euro index, Net Dividends Reinvested, provides exposure to companies with a high ESG performance in the United States and is established by MSCI. As of June 30, 2023, the index had 296 positions. The index value can be viewed on MSCI's website, www.msci.com/end-of-day-data-search. The composition of its indices can be viewed on the MSCI's website, www.msci.com/constituents. The almost full physical replication policy has been followed throughout the year.

29.1.6. Future policy

The Equities US ESG Leaders Index sub-fund, whose vocation is to be representative of American companies with a high ESG performance, will continue its investment policy based on broad sector diversification with the US ESG Leaders index published by MSCI as a benchmark.

29.1.7. Synthetic risk indicator

The synthetic risk indicator gives an indication of the risk associated with investing in a sub-fund. It places this risk on a scale ranging from one (lowest risk) to seven (highest risk).

Risk and reward profile : 5

With the exception of classes (A USD, B USD, M USD, N USD) : 4

29.7. CHANGES IN THE COMPOSITION OF THE ASSETS IN EUR

	1st semester	2nd semester	Total
Purchases	129,784,328.73		129,784,328.73
Sales	141,714,391.98		141,714,391.98
Total 1	271,498,720.71		271,498,720.71
Subscriptions	61,369,790.19		61,369,790.19
Redemptions	75,505,947.19		75,505,947.19
Total 2	136,875,737.38		136,875,737.38
Reference average of the total net asset	978,176,643.30		978,176,643.30
Rotation Percentage	13.76%		13.76%

The rotation rate gives the annual average of the transactions. A figure close to 0% shows that the transactions relating to the securities or the assets with the exception of deposits and liquid assets during a given period, were done exclusively in function of the subscriptions and redemptions. A negative percentage indicates that the subscriptions and redemptions give rise to only few or, as the case may be, no transactions in the portfolio.

A detailed list of the transactions carried out during the financial year can be consulted, free of charge, at Banque Degroof Petercam S.A with its registered office at Rue de l'Industrie 44 - B-1040 Brussels which provides the financial services.

29.9. PERFORMANCES

Figures reflect past performance and are not an indicator of future performance. These figures do not include any restructuring.

Returns are determined at the end of the financial year. (from July 1, 2022 to June 30, 2023).

The annual return is defined as the absolute return earned over a year. For the semi-annual report, the accounting year is 12-month period preceding the end of the half-year.

The performance of accumulation units is calculated in a similar way to distribution units. Only the performance (in the form of bar charts) of class B shares is shown in this report. The performance of other share classes may differ, in particular as a result of charges specific to each class (management fees, currency hedging fees, subscription taxes, etc.). Information on the past performance of all share classes is published on the www.dpamfunds.com website. («Overview» tab).

Fee sharing

As at 30 June 2023, 0,01% of the remuneration due to the Fund Manager was retroceded to some other distributors, third parties and the Banque Degroof Petercam or one of its subsidiaries. The third parties are either end clients with a retrocession agreement, or institutional clients under discretionary management with a management agreement. Bank Degroof Petercam or one of its subsidiaries are distributors in the same way as external distributors.

29.11. NOTES TO THE FINANCIAL STATEMENTS AND OTHER INFORMATION

29.11.1. Gross dividends paid in the financial year

2021 class A 1,66 EUR
class A USD 2,04 USD
class M 1,67 EUR
class M USD 2,05 USD

29.11.2. Transparency of the securities financing transactions and of reuse

In accordance with Article 13 and Section A of the Annex to Regulation EU 2015/2365 (hereinafter the Regulation), the Sicav must inform investors of its use of securities financing transactions and total return swaps in the annual report and the half-yearly report.

30. INFORMATION ABOUT THE SUBFUND DPAM B BALANCED GROWTH

30.1. MANAGEMENT REPORT

30.1.1. Launch date of the sub-fund and subscription price of the shares

Date of initial subscription : 30/07/1999.
Initial subscription price of the shares: EUR 10,000.00.

30.1.2. Stock exchange listing

The sub-fund's shares are not listed on the stock market.

30.1.3. Aim and main outlines of the investment policy

Objective

The objective of the sub-fund is to offer investors, by means of a balanced managed portfolio, a long-term capital gain by investing in equity securities and/or debt securities of issuers throughout the world. No formal guarantee has been given either to the sub-fund or to its investors.

The sub-fund is actively managed. No benchmarks are used in the management of the sub-fund. Quantitative information from a broader market can be used for risk management and evaluation by the manager.

Investment policy

The sub-fund invests mainly, without sector or geographical restriction, but mainly in Europe in (i) shares and/or other securities giving access to capital of companies and (ii) in fixed or floating rate short, medium and long-term bonds and/or debt securities.

The sub-fund may hold liquid assets on a secondary or temporary basis in the form of current accounts or deposits, and in the form of undertakings for collective investment.

The sub-fund promotes environmental and social characteristics within the meaning of Article 6 of SFDR Regulation 2019/2088.

30.1.4. Index and benchmark

No benchmarks are used in the management of the sub-fund.

30.1.5. Policy followed during the year

The first half of 2023 started off on a very positive note with considerable gains across equities, government bonds and credit driven by lower energy prices in Europe and the prospect of an accelerated Chinese re-opening. After a stellar month of January, equity markets somehow consolidated their gains in February as rates moved higher in the face of resilient and stronger-than-expected datapoints. The Q4 earnings season turned out to be rather underwhelming but expectations were quite low already. The fund was able to benefit from the rally in equities and fixed income, benefiting from positive stock selection.

On March 10th it is the closure by the regulator of Silicon Valley Bank, the second largest bank failure in US history, and the subsequent news flow around regional banks that sent global markets into a spin. Soon investors started to

question the strength of Credit Suisse's deposit base which led to its "forced" takeover by UBS. The volatility in fixed income rose sharply and bond yields temporarily plummeted. This turmoil in the banking sector eventually settled down. The volatility in rates remained high as central banks kept their hawkish stance. Equities recovered quickly but with a notable change in leadership in favor of growth stocks overall, epitomized by a handful of tech mega-caps that dominated the global equity landscape for the remainder of the semester.

Two powerful narratives competed in the second quarter. 1) On the one hand, the emergence of AI and its supposed "winners" and "losers" cohorts (the former group being made of corporates that could benefit from the automation of white-collar tasks by algorithms while the latter group encompasses business models that could be at risk due to same phenomenon). The fund benefited from its exposure to "quality-growth" stocks as well as to companies identified as AI beneficiaries. 2) On the other hand, the other major theme has been worries around tightening credit conditions, market liquidity and ongoing destocking in Staples (where we reduced exposure to Ingredients selectively). Those two dynamics have been exemplified by the divergence in performances of the Nasdaq (best H1 since 1983) vs Dow Jones in H1. This latter theme also explains the underperformance of small caps pockets vs larger caps since mid-March globally.

Asian equities were a mixed bag: Hong-Kong, Chinese and Australian equities did not do much (slightly negative to flat in absolute in H1) as the much anticipated "reopening" caused a boost to consumption but resulted in lackluster industrial growth so far. By contrast, Japanese equities delivered a stand-out performance, boosted by foreign inflows and an historical low value of the yen.

In summary, worst cases scenarios (including the "most widely anticipated recession in history") failed to materialize in H1 and enticed investors to go for risk assets rather than for fixed income securities overall. Transitory scares related to inflation, to tensions between the US and China, to the brief banking crisis and then to a potential plateauing of pricing-led corporate-profits seem to fade in the background of sustained consumption appetite, most notably in the Discretionary / Leisure space, as well as surprisingly strong pricing power exhibited by a number of resilient companies in the face of persistent inflation.

30.1.6. Future policy

The economic picture remains cloudy as we enter reporting season again. PMI surveys point towards a global slowdown in economic activity in the manufacturing industries and the expansion in the service industry is showing signs of fatigue. The Citigroup economic surprise index reveals a worrisome evolution of the economic figures in Europa as the delayed effects of past monetary tightening and tightening credit standards start to manifest themselves. Furthermore, the economic recovery in China - that should have boosted Europe growth - remains underwhelming for now, a case in point being its impact on the global Chemicals space.

On the positive side, we expect inflation to continue its descent, helped by favorable base effects and a lower contribution of shelter in the US. Labor markets remain remarkably resilient, but we expect them to start cooling down in H2. At the start of the year, the consensus was for an imminent growth slowdown/recession to emerge in H1 23. As the year progressed and better than feared economic & corporate figures came out, we witnessed a step change in sentiment. Strategists are currently banking on a soft landing in the US in H2 23 or H1 24. The positioning in risk assets that led the H1 leg up in equities still remains pretty light if we judge by the narrowness of the rally that has famously been dubbed as a "bad breadth" market in the US.

We might therefore see investors chase this rally further in a classic case of markets climbing the wall of worries. As we are closing in on the third quarter, the first profit warnings are rolling in. Investors have reacted nervously to these warnings, sending shares down sharply. If Q2 results turn out to be better than feared, we might see another boost to risk assets like we have witnessed over the last couple of quarters. Small caps could outperform large caps as a less bleak outlook starts to favor this very neglected area of the market.

Central banks keep a firmly hawkish stance due to the (still too) high inflation figures, as evidenced during the Sintra forum. Bonds will therefore remain in a tug of war, with falling inflation figures on the one hand and still reasonably resilient economic data on the other hand.

30.1.7. Synthetic risk indicator

The synthetic risk indicator gives an indication of the risk associated with investing in a sub-fund. It places this risk on a scale ranging from one (lowest risk) to seven (highest risk).

Risk and reward profile: 3

30.8. CHANGES IN THE COMPOSITION OF THE ASSETS IN EUR

	1st semester	2nd semester	Total
Purchases	4,186,506.24		4,186,506.24
Sales	1,951,586.52		1,951,586.52
Total 1	6,138,092.76		6,138,092.76
Subscriptions	0.00		0.00
Redemptions	0.00		0.00
Total 2	0.00		0.00
Reference average of the total net asset	33,049,754.54		33,049,754.54
Rotation Percentage	18.57%		18.57%

The rotation rate gives the annual average of the transactions. A figure close to 0% shows that the transactions relating to the securities or the assets with the exception of deposits and liquid assets during a given period, were done exclusively in function of the subscriptions and redemptions. A negative percentage indicates that the subscriptions and redemptions give rise to only few or, as the case may be, no transactions in the portfolio.

A detailed list of the transactions carried out during the financial year can be consulted, free of charge, at Banque Degroof Petercam S.A with its registered office at Rue de l'Industrie 44 - B-1040 Brussels which provides the financial services.

30.10. PERFORMANCES

Figures reflect past performance and are not an indicator of future performance. These figures do not include any restructuring.

Returns are determined at the end of the financial year. (from July 1, 2022 to June 30, 2023).

The annual return is defined as the absolute return earned over a year. For the semi-annual report, the accounting year is 12-month period preceding the end of the half-year.

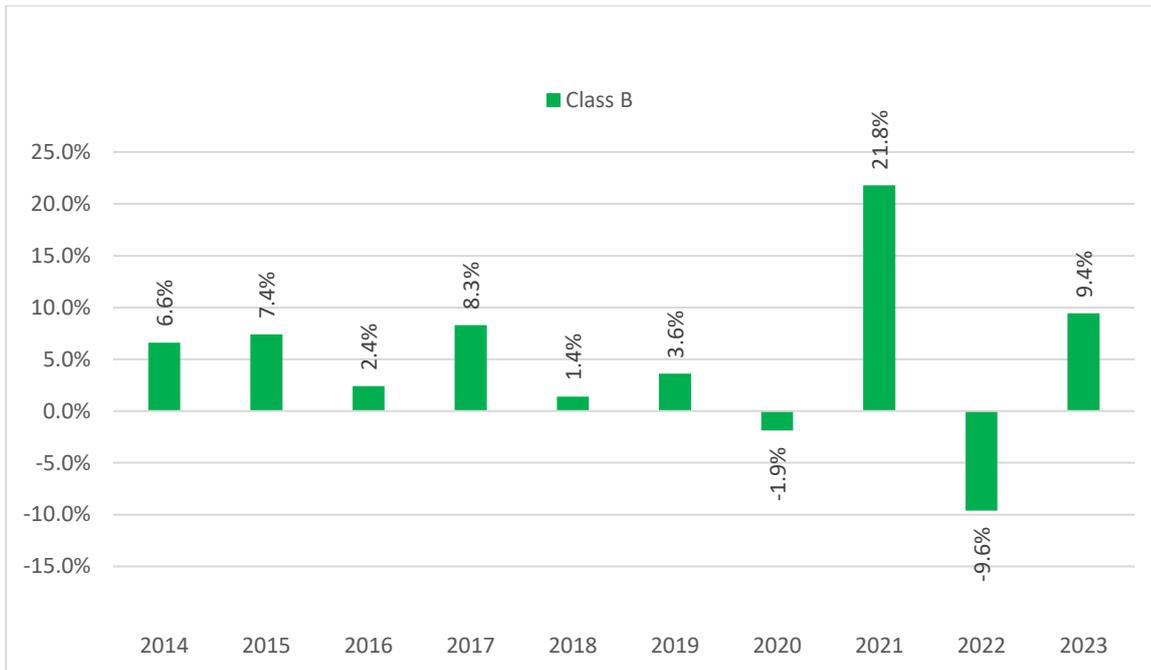

The performance of accumulation units is calculated in a similar way to distribution units. Only the performance (in the form of bar charts) of class B shares is shown in this report. The performance of other share classes may differ, in particular as a result of charges specific to each class (management fees, currency hedging fees, subscription taxes, etc.). Information on the past performance of all share classes is published on the www.dpamfunds.com website. («Overview» tab).

Bar chart showing annual returns of the last 10 years (in % and calculated in EUR) as of 30 June 2023:

Recurring costs

- Classe A - BE0171618250 :

Management fees and other administrative and operating expenses	These are the costs of managing the sub-fund's portfolio, including the costs of the sub-fund's service provider and operations. This estimate is based on actual costs over the past year.	0.42%
Transaction costs	These are the costs of buying and selling investments held by the sub-fund. They are an estimate of the costs incurred when buying and/or selling the investments underlying the product. The actual amount varies according to the quantity bought and sold.	0.08%

- Classe B - BE0171619266 :

Management fees and other administrative and operating expenses	These are the costs of managing the sub-fund's portfolio, including the costs of the sub-fund's service provider and operations. This estimate is based on actual costs over the past year.	0.48%
Transaction costs	These are the costs of buying and selling investments held by the sub-fund. They are an estimate of the costs incurred when buying and/or selling the investments underlying the product. The actual amount varies according to the quantity bought and sold.	0.08%

Fee sharing

As at 30 June 2023, 0,06% of the remuneration due to the Fund Manager was retroceded to some other distributors, third parties and the Banque Degroof Petercam or one of its subsidiaries. The third parties are either end clients with a retrocession agreement, or institutional clients under discretionary management with a management agreement. Bank Degroof Petercam or one of its subsidiaries are distributors in the same way as external distributors.

30.12. NOTES TO THE FINANCIAL STATEMENTS AND OTHER INFORMATION

30.12.1. Gross dividends paid in the financial year

2019 class A 192,97 EUR
2020 class A 189,37 EUR
2021 class A 227,02 EUR

30.12.2. Valuation of financial instruments

Bonds and other debt securities as well as money market instruments in the portfolio were valued at their average price. The valuations have not been adjusted to approximate bid prices, as the difference between bid and ask prices changed significantly over the period, both over time and depending on the nature of the security.

30.12.3. Transparency of the securities financing transactions and of reuse

In accordance with Article 13 and Section A of the Annex to Regulation EU 2015/2365 (hereinafter the Regulation), the Sicav must inform investors of its use of securities financing transactions and total return swaps in the annual report and the half-yearly report.

31. INFORMATION ABOUT THE SUBFUND DPAM B BALANCED FLEXIBLE

31.1. MANAGEMENT REPORT

31.1.1. Launch date of the sub-fund and subscription price of the shares

Initial subscription date: 07/04/2003.

Initial subscription price of the shares: EUR 10,000.00.

31.1.2. Stock exchange listing

The sub-fund's shares are not listed on the stock market.

31.1.3. Aim and main outlines of the investment policy

Objective

The objective of the sub-fund is to offer investors a long-term capital gain by investing in equity securities, fixed income securities of issuers from all parts of the world or undertakings for collective investment.

This is an actively managed sub-fund.

No benchmarks are used in the management of the sub-fund. Quantitative information from a broader market can be used for risk management and evaluation by the manager.

No formal guarantee has been given either to the sub-fund or to its investors.

Investment policy

The sub-fund invests principally in shares and/or other securities giving access to capital of companies (to a maximum amount of 60% of its net assets) and in bonds and/or other fixed-rate or floating-rate debt securities with an investment grade* rating on the scale used by one of the three rating agencies, Standard & Poor's (S&P)/Moody's/Fitch, and offering a periodic or capitalised yield. The sub-fund invests a maximum of 3% of its net assets in bonds and/or other fixed-rate or floating-rate debt securities with an inferior rating to investment grade.

In the event that the aforementioned investment criteria are exceeded passively, an adjustment will be made, taking into consideration the interests of the investors.

The sub-fund may hold liquid assets on a secondary or temporary basis in the form of current accounts, deposits, money market instruments and/or short-term instruments with an investment grade rating. Liquid assets are considered to be fixed rate.

The sub-fund may invest up to 10% of its assets in open-ended undertakings for collective investment in EUR in order to indirectly achieve the objectives listed above or to invest its liquidity.

*Investment Grade: is an interpretation of the rating of the bond issuer in terms of the financial risks. Rating agencies use their own scale to assess the notion of risk. Investment grade ratings are situated between AAA and BBB- according to the Standard & Poor's (S&P) and Fitch scale and between Aaa and Baa3 according to the Moody's scale. For bonds without an external rating, the manager is responsible for determining whether the issuer satisfies the requirements of an investment grade rating.

The sub-fund promotes environmental and social characteristics within the meaning of Article 8 of SFDR Regulation 2019/2088.

31.1.4. Index and benchmark

No benchmarks are used in the management of the sub-fund.

31.1.5. Policy followed during the year

The first half of 2023 started off on a very positive note with considerable gains across equities, government bonds and credit driven by lower energy prices in Europe and the prospect of an accelerated Chinese re-opening. After a stellar month of January, equity markets somehow consolidated their gains in February as rates moved higher in the face of resilient and stronger-than-expected datapoints. The Q4 earnings season turned out to be rather underwhelming but expectations were quite low already. The fund was able to benefit from the rally in equities and fixed income, benefiting from positive stock selection.

On March 10th it is the closure by the regulator of Silicon Valley Bank, the second largest bank failure in US history, and the subsequent news flow around regional banks that sent global markets into a spin. Soon investors started to question the strength of Credit Suisse's deposit base which led to its "forced" takeover by UBS. The volatility in fixed income rose sharply and bond yields temporarily plummeted. This turmoil in the banking sector eventually settled down. The volatility in rates remained high as central banks kept their hawkish stance. Equities recovered quickly but with a notable change in leadership in favor of growth stocks overall, epitomized by a handful of tech mega-caps that dominated the global equity landscape for the remainder of the semester.

Two powerful narratives competed in the second quarter. 1) On the one hand, the emergence of AI and its supposed "winners" and "losers" cohorts (the former group being made of corporates that could benefit from the automation of white-collar tasks by algorithms while the latter group encompasses business models that could be at risk due to same phenomenon). The fund benefited from its exposure to "quality-growth" stocks as well as to companies identified as AI beneficiaries. 2) On the other hand, the other major theme has been worries around tightening credit conditions, market liquidity and ongoing destocking in Staples (where we reduced exposure to Ingredients selectively). Those two dynamics have been exemplified by the divergence in performances of the Nasdaq (best H1 since 1983) vs Dow Jones in H1. This latter theme also explains the underperformance of small caps pockets vs larger caps since mid-March globally.

Asian equities were a mixed bag: Hong-Kong, Chinese and Australian equities did not do much (slightly negative to flat in absolute in H1) as the much anticipated "reopening" caused a boost to consumption but resulted in lackluster industrial growth so far. By contrast, Japanese equities delivered a stand-out performance, boosted by foreign inflows and an historical low value of the yen.

In summary, worst cases scenarios (including the "most widely anticipated recession in history") failed to materialize in H1 and enticed investors to go for risk assets rather than for fixed income securities overall. Transitory scares related to inflation, to tensions between the US and China, to the brief banking crisis and then to a potential plateauing of pricing-led corporate-profits seem to fade in the background of sustained consumption appetite, most notably in the Discretionary / Leisure space, as well as surprisingly strong pricing power exhibited by a number of resilient companies in the face of persistent inflation.

31.1.6. Future policy

The economic picture remains cloudy as we enter reporting season again. Our balanced positioning in equities and bonds should help us tread those uncharted waters. PMI surveys point towards a global slowdown in economic activity in the manufacturing industries and the expansion in the service industry is showing signs of fatigue. The Citigroup economic surprise index reveals a worrisome evolution of the economic figures in Europa as the delayed effects of past monetary tightening and tightening credit standards start to manifest themselves. Furthermore, the economic recovery in China - that should have boosted Europe growth - remains underwhelming for now, a case in point being its impact on the global Chemicals space.

On the positive side, we expect inflation to continue its descent, helped by favorable base effects and a lower contribution of shelter in the US. Labor markets remain remarkably resilient, but we expect them to start cooling down in H2. At the start of the year, the consensus was for an imminent growth slowdown/recession to emerge in H1 23. As the year progressed and better than feared economic & corporate figures came out, we witnessed a step change in sentiment. Strategists are currently banking on a soft landing in the US in H2 23 or H1 24. The positioning

in risk assets that led the H1 leg up in equities still remains pretty light if we judge by the narrowness of the rally that has famously been dubbed as a “bad breadth” market in the US.

We might therefore see investors chase this rally further in a classic case of markets climbing the wall of worries. As we are closing in on the third quarter, the first profit warnings are rolling in. Investors have reacted nervously to these warnings, sending shares down sharply. If Q2 results turn out to be better than feared, we might see another boost to risk assets like we have witnessed over the last couple of quarters. Small caps could outperform large caps as a less bleak outlook starts to favor this very neglected area of the market.

Central banks keep a firmly hawkish stance due to the (still too) high inflation figures, as evidenced during the Sintra forum. Bonds will therefore remain in a tug of war, with falling inflation figures on the one hand and still reasonably resilient economic data on the other hand.

31.1.7. Synthetic risk indicator

The synthetic risk indicator gives an indication of the risk associated with investing in a sub-fund. It places this risk on a scale ranging from one (lowest risk) to seven (highest risk).

Risk and reward profile : 3

31.8. CHANGES IN THE COMPOSITION OF THE ASSETS IN EUR

	1st semester	2nd semester	Total
Purchases	6,785,965.05		6,785,965.05
Sales	4,532,447.97		4,532,447.97
Total 1	11,318,413.02		11,318,413.02
Subscriptions	0.00		0.00
Redemptions	52,728.94		52,728.94
Total 2	52,728.94		52,728.94
Reference average of the total net asset	67,113,817.03		67,113,817.03
Rotation Percentage	16.79%		16.79%

The rotation rate gives the annual average of the transactions. A figure close to 0% shows that the transactions relating to the securities or the assets with the exception of deposits and liquid assets during a given period, were done exclusively in function of the subscriptions and redemptions. A negative percentage indicates that the subscriptions and redemptions give rise to only few or, as the case may be, no transactions in the portfolio.

A detailed list of the transactions carried out during the financial year can be consulted, free of charge, at Banque Degroof Petercam S.A with its registered office at Rue de l'Industrie 44 - B-1040 Brussels which provides the financial services.

On the date of publication of this report, the net asset value per share is published on the following websites: www.dpamfunds.com and www.beama.be. This information is also available at the counters of the financial services department.

31.10. PERFORMANCES

Figures reflect past performance and are not an indicator of future performance. These figures do not include any restructuring.

Returns are determined at the end of the financial year. (from July 1, 2022 to June 30, 2023).

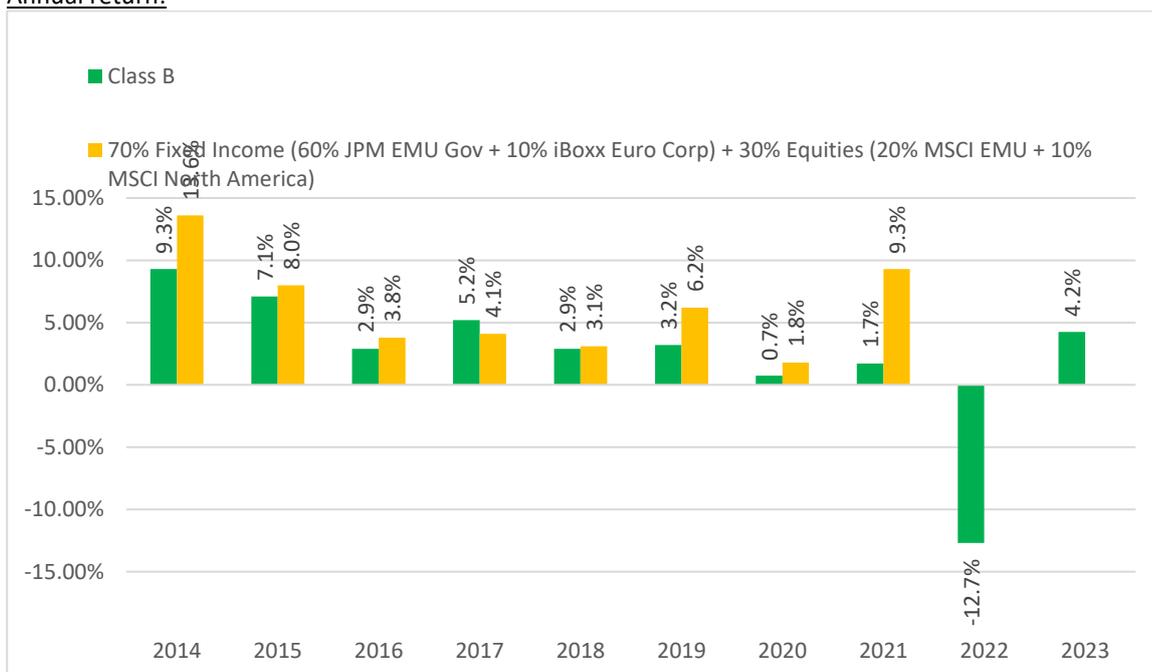

The annual return is defined as the absolute return earned over a year. For the semi-annual report, the accounting year is 12-month period preceding the end of the half-year.

The performance of accumulation units is calculated in a similar way to distribution units. Only the performance (in the form of bar charts) of class B shares is shown in this report. The performance of other share classes may differ, in particular as a result of charges specific to each class (management fees, currency hedging fees, subscription taxes, etc.). Information on the past performance of all share classes is published on the www.dpamfunds.com website. («Overview» tab).

Bar chart showing annual returns of the last 10 years (in % and calculated in EUR) as of 30 June 2023:

Class B

Annual return:

This is an actively managed sub-fund, which means that the portfolio manager does not aim to replicate the performance of a benchmark. No benchmarks are used in the management of the sub-fund. The benchmark is used to compare performance.

31.11. CHARGES

Recurring costs

- Classe B - BE0940785794 :

Management fees and other administrative and operating expenses	These are the costs of managing the sub-fund's portfolio, including the costs of the sub-fund's service provider and operations. This estimate is based on actual costs over the past year.	1.22%
Transaction costs	These are the costs of buying and selling investments held by the sub-fund. They are an estimate of the costs incurred when buying and/or selling the investments underlying the product. The actual amount varies according to the quantity bought and sold.	0.10%

- Classe F - BE6248455063 :

Management fees and other administrative and operating expenses	These are the costs of managing the sub-fund's portfolio, including the costs of the sub-fund's service provider and operations. This estimate is based on actual costs over the past year.	0.29%
Transaction costs	These are the costs of buying and selling investments held by the sub-fund. They are an estimate of the costs incurred when buying and/or selling the investments underlying the product. The actual amount varies according to the quantity bought and sold.	0.10%

- Classe L - BE6335356927 :

Management fees and other administrative and operating expenses	These are the costs of managing the sub-fund's portfolio, including the costs of the sub-fund's service provider and operations. This estimate is based on actual costs over the past year.	1.73%
Transaction costs	These are the costs of buying and selling investments held by the sub-fund. They are an estimate of the costs incurred when buying and/or selling the investments underlying the product. The actual amount varies according to the quantity bought and sold.	0.10%

Fee sharing

As at 30 June 2023, 13,61% of the remuneration due to the Fund Manager was retroceded to some other distributors, third parties and the Banque Degroof Petercam or one of its subsidiaries. The third parties are either end clients with a retrocession agreement, or institutional clients under discretionary management with a management agreement. Bank Degroof Petercam or one of its subsidiaries are distributors in the same way as external distributors.

31.12. NOTES TO THE FINANCIAL STATEMENTS AND OTHER INFORMATION

31.12.1. Valuation of financial instruments

Bonds and other debt securities as well as money market instruments in the portfolio were valued at their average price. The valuations have not been adjusted to approximate bid prices, as the difference between bid and ask prices changed significantly over the period, both over time and depending on the nature of the security.

31.12.2. Transparency of the securities financing transactions and of reuse

In accordance with Article 13 and Section A of the Annex to Regulation EU 2015/2365 (hereinafter the Regulation), the Sicav must inform investors of its use of securities financing transactions and total return swaps in the annual report and the half-yearly report.

32. INFORMATION ABOUT THE SUBFUND DPAM B BONDS GLOBAL INFLATION LINKED

32.1. MANAGEMENT REPORT

32.1.1. Launch date of the sub-fund and subscription price of the shares

Initial subscription date: 17/09/2009.

Initial subscription price of the shares: EUR 100.00.

32.1.2. Stock exchange listing

The sub-fund's shares are not listed on the stock market.

32.1.3. Aim and main outlines of the investment policy

Objective

The objective of the sub-fund is to offer investors exposure to debt securities denominated in any currency, whose interest payments and/or capital redemption depend on the movement in inflation in a given country or geographical region.

No formal guarantee has been given either to the sub-fund or to its investors.

This is an actively managed sub-fund, which means that the portfolio manager does not aim to replicate the performance of a benchmark.

Investment policy

The sub-fund invests principally, without any form of sector restriction, a minimum of 75% of its net assets, in fixed or floating rate bonds and/or other debt securities, denominated in any currency and for which the payment of interest and/or redemption of capital depends on the movement in inflation in a given country or a geographical region, which may include, but is not limited to the following list: credit-linked notes* and fiduciary notes** with underlying instruments that have identical characteristics.

The sub-fund may, on an ancillary basis, invest in money market instruments such as for example, certificates of deposit, treasury notes and/or promissory notes, and bonds and/or other debt securities, including fixed or floating rate credit-linked notes and fiduciary notes denominated in any currency and on which the payment of interest and/or the redemption of principal is not dependent on the movement in inflation in a given country or geographical region.

In order to be eligible, those marketable securities forming the principal part and the ancillary part of the portfolio, must be (i) issued or guaranteed by a country, including, where applicable, its regional public authorities or by international or supranational public bodies, or (ii) issued by (governmental, public, semi public or private) institutions held or financed by one or several public players, such as countries, regional public authorities or public international law or supranational bodies and undertakings entrusted with the provision of services of public or general interest, or (iii) benefit from a mechanism guaranteeing a priority redemption in the event of default by the issuer.

The payment flows from bonds and/or other debt or equivalent securities, whose interest payments and/or redemption of principle are determined by inflation, generally have the following configuration:

Coupon payment = coupon in % * nominal amount * (Index t/Index°)

Reimbursement = nominal amount * (Index T/Index°) in which:

Coupon in % = fixed coupon of the bond (which is normally equal to the actual yield on the issue date of the bond)

Index° = a 3-month inflation index before the issue date of the bond (base index)

Index T = a 3-month inflation index before the payment date

Index T = a 3-month inflation index before the due date

The sub-fund may hold liquid assets on a secondary or temporary basis in the form of current accounts or deposits, and in the form of undertakings for collective investment.

The sub-fund may invest a maximum of 10% of its assets in open-ended undertakings for collective investment in order to indirectly achieve the above-mentioned target or place its liquidity.

* Credit-Linked Note: financial instrument issued by a financial institution in the form of a debt security on which the payment is connected to another bond or loan. ** Fiduciary Note: differs from a credit linked note in that the buyer does not bear risk of the financial institution which issues it.

The sub-fund promotes environmental and social characteristics within the meaning of Article 8 of SFDR Regulation 2019/2088.

32.1.4. Index and benchmark

Bloomberg Universal Inflation Linked GDP Weighted IG

The sub-fund uses the following index as a benchmark: Bloomberg Barclays Universal Inflation Linked GDP Weighted IG.

This index is representative of the global inflation-linked bond market. It is a custom index for DPAM calculated by Bloomberg Index Services Limited. The index includes inflation-linked bonds issued by countries with an investment grade rating. Countries are weighted according to their GDP (gross domestic product). Performance is calculated by reinvesting the coupons paid by the debt securities making up the index.

This is an actively managed sub-fund, which means that the portfolio manager does not aim to replicate the performance of a benchmark. The benchmark is used as a means of comparing performance.

The possible composition and the value of the benchmark can be found on the website <https://www.dpamfunds.com>.

32.1.5. Policy followed during the year

During the first six months of 2023, financial markets experienced persistent volatility. Policymakers continued to apply a data-driven approach to determine their policy path, just as in 2022, with inflation remaining a significant concern.

One of the main strategies in the fund over the last six months involved being underweight in duration versus the benchmark. This was the correct call in Europe, the US and some other developed markets as real rates sold off. However, in other markets being underweight duration was a detractor of performance. In Japan, break-even levels increased, and real rates did not move that much translating into higher prices for Japanese linkers. As we were underweight this market we underperformed the benchmark. In other markets like Colombia, real rates even rallied. In terms of country allocation our lower allocation to Italy was also a detractor of performance.

Additionally, we included some out-of-benchmark nominal bonds with significant potential for spread contraction. These nominal bonds delivered a positive allocation effect as the spread compression was higher than the loss of inflation carry. Throughout the year, we abstained from investing in treasury bills or short-term nominal instruments due to the persistently high inflation carry.

Regarding notable transactions, we increased our exposure to Spain relative to Italy, reflecting our positive outlook on the former. Simultaneously, we reduced our underweight position in Japan, as inflation is expected to remain high for longer.

In terms of transactions of note, we have increased our exposure to Spain relatively to Italy as we are positive on the issuer, and we have decreased our underweight in Japan.

32.1.6. Future policy

For the next six months inflation will continue to be the primary concern for central banks, as headline and core inflation is likely to remain sticky in some countries, and in others, inflation recently even ticked up again. This presents a significant risk scenario for the remainder of the year. That is, if inflation does not return to target levels, central banks in developed markets may need to keep rates higher for a longer period or even consider further rate increases.

In contrast, central banks in emerging markets have taken proactive measures to tighten their policies. Most of these central banks began raising rates in 2021, while their counterparts in developed markets only initiated such actions in 2022 (with a few exceptions). In 2023, EM central banks have largely been in a pause mode, and going forward, we anticipate they may even consider rate cuts. This shift is driven by the fact that policy rates are now above inflation levels, and inflation is starting to follow a clear path toward normalization.

On the back of this we have increased our exposure to EM countries, where real rates are very high and hence are an attractive investment opportunity.

Currently, the market is pricing in a scenario where inflation swiftly returns to the central bank's target, but we anticipate a slower normalization process and the potential for inflation to stabilize at higher levels than those observed before the Covid-19 pandemic. Considering the already high policy rates and the tightening of credit by a strained banking sector, we believe we are approaching the peak of the current tightening cycle. Central banks are monitoring the effects of their policies, which may have some delays in taking full effect. Our base case scenario aligns with a slower normalization of inflation than expected. With these factors in mind, we have positioned ourselves for steeper yield curves, while maintaining an underweight duration stance. Depending on how inflation develops, we may consider closing or increasing our duration stance.

32.1.7. Synthetic risk indicator

The synthetic risk indicator gives an indication of the risk associated with investing in a sub-fund. It places this risk on a scale ranging from one (lowest risk) to seven (highest risk).

Risk and reward profile : 3

BONDS GLOBAL INFLATION LINKED

Description	Quantity at 30 June 2023	Currency	Price in currency	Evaluation EUR	% by the UCI	% portfolio	% net assets
Total net assets				115,558,551.57			100,00%

32.5. GEOGRAPHIC ALLOCATION OF INVESTMENTS

By country	% Portfolio
UNITED STATES OF AMERICA	42.34%
JAPAN	7.52%
GERMANY (FEDERAL REPUBLIC)	7.06%
UNITED KINGDOM	5.96%
SPAIN	5.70%
CANADA	4.87%
MEXICO	4.66%
AUSTRALIA	4.11%
SOUTH KOREA (REPUBLIC)	4.03%
FRANCE	3.78%
NEW ZEALAND	2.64%
SWEDEN	2.22%
ITALY	2.08%
CHILE	2.05%
THAILAND	0.98%
Total	10

These allocations of assets were established on basis of data (gross) used by the entity responsible for the administration and bookkeeping and do not reflect inevitably the economic analysis which directed the assets selection.

32.6. ECONOMIC ALLOCATION OF INVESTMENTS

By sector	% Portfolio
STATES	10
TOTAL	10

These allocations of assets were established on basis of data (gross) used by the entity responsible for the administration and bookkeeping and do not reflect inevitably the economic analysis which directed the assets selection.

32.7. CHANGES IN THE COMPOSITION OF THE ASSETS IN EUR

	1st semester	2nd semester	Total
Purchases	23,638,047.57		23,638,047.57
Sales	81,708,117.77		81,708,117.77
Total 1	105,346,165.34		105,346,165.34
Subscriptions	11,132,543.45		11,132,543.45
Redemptions	76,817,881.14		76,817,881.14
Total 2	87,950,424.59		87,950,424.59
Reference average of the total net asset	159,411,695.65		159,411,695.65
Rotation Percentage	10.91%		10.91%

The rotation rate gives the annual average of the transactions. A figure close to 0% shows that the transactions relating to the securities or the assets with the exception of deposits and liquid assets during a given period, were done exclusively in function of the subscriptions and redemptions. A negative percentage indicates that the subscriptions and redemptions give rise to only few or, as the case may be, no transactions in the portfolio.

A detailed list of the transactions carried out during the financial year can be consulted, free of charge, at Banque Degroof Petercam S.A with its registered office at Rue de l'Industrie 44 - B-1040 Brussels which provides the financial services.

On the date of publication of this report, the net asset value per share is published on the following websites: www.dpamfunds.com and www.beama.be. This information is also available at the counters of the financial services department.

32.10. PERFORMANCES

Figures reflect past performance and are not an indicator of future performance. These figures do not include any restructuring.

Returns are determined at the end of the financial year. (from July 1, 2022 to June 30, 2023).

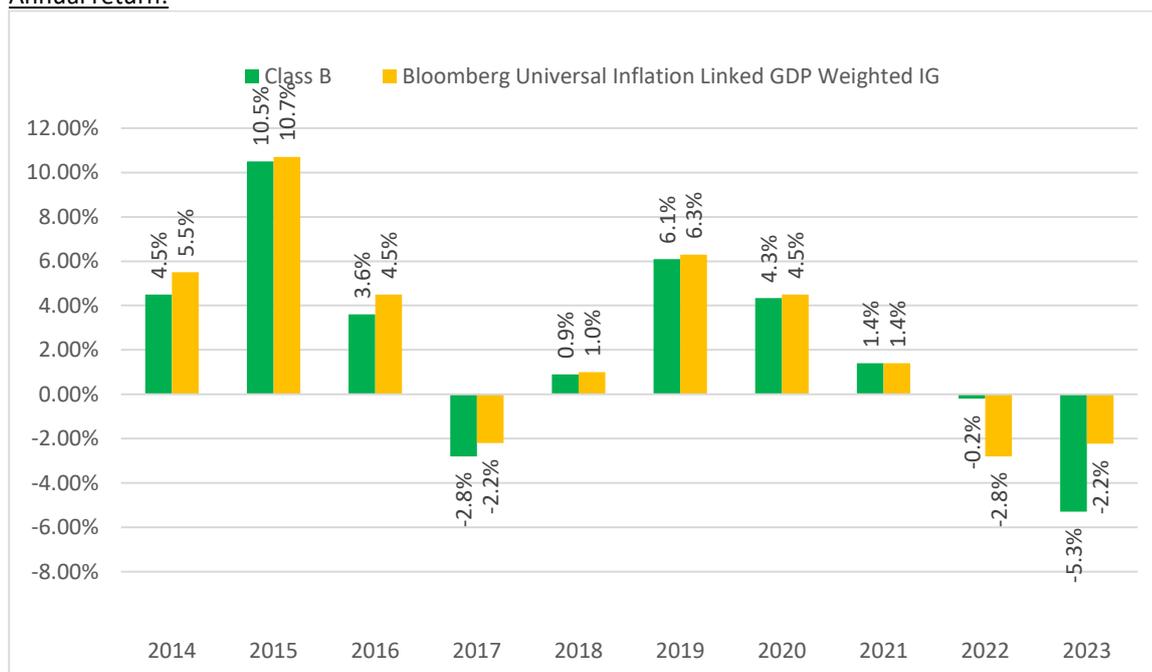

The annual return is defined as the absolute return earned over a year. For the semi-annual report, the accounting year is 12-month period preceding the end of the half-year.

The performance of accumulation units is calculated in a similar way to distribution units. Only the performance (in the form of bar charts) of class B shares is shown in this report. The performance of other share classes may differ, in particular as a result of charges specific to each class (management fees, currency hedging fees, subscription taxes, etc.). Information on the past performance of all share classes is published on the www.dpamfunds.com website. («Overview» tab).

Bar chart showing annual returns of the last 10 years (in % and calculated in EUR) as of 30 June 2023:

Class B

Annual return:

This is an actively managed sub-fund, which means that the portfolio manager does not aim to replicate the performance of a benchmark. No benchmarks are used in the management of the sub-fund. The benchmark is used to compare performance.

Fee sharing

As at 30 June 2023, 9,56% of the remuneration due to the Fund Manager was retroceded to some other distributors, third parties and the Banque Degroof Petercam or one of its subsidiaries. The third parties are either end clients with a retrocession agreement, or institutional clients under discretionary management with a management agreement. Bank Degroof Petercam or one of its subsidiaries are distributors in the same way as external distributors.

32.12. NOTES TO THE FINANCIAL STATEMENTS AND OTHER INFORMATION

32.12.1. Gross dividends paid in the financial year

2019	Class A 0,29 EUR Class A EUR H 0,27 EUR Class E EUR H 0,57 EUR Class M 0,52 EUR
2020	Class A 0,38 EUR Class A EUR H 0,36 EUR Class E EUR H 0,44 EUR Class M 0,38 EUR Class M EUR H 0,36 EUR
2021	class A 0,61 EUR class M 0,61 EUR

32.12.2. Valuation of financial instruments

Bonds and other debt securities as well as money market instruments in the portfolio were valued at their average price. The valuations have not been adjusted to approximate bid prices, as the difference between bid and ask prices changed significantly over the period, both over time and depending on the nature of the security.

32.12.3. Investment restrictions and overruns

Between NAV dates 21/02/2023 and 22/02/2023, a prospectus investment compliance passive breach was open in the DPAM B Bonds Global Inflation Linked subfund. The hedging ratio of non-EUR currencies must be between 95% and 105%. At NAV date 21/02/2023, the hedging towards CAD was of 105.39%. This was caused by market fluctuations. Positions were adapted to close the breach.

Between NAV dates 25/05/2023 and 26/05/2023, a prospectus investment compliance passive breach was open in the DPAM B Bonds Global Inflation Linked subfund. The hedging ratio of non-EUR currencies must be between 95% and 105%. At NAV date 25/05/2023, the hedging towards CAD was of 105.17%. This was caused by market fluctuations. Hedging adaptations were made to close the breach.

Between NAV dates 15/06/2023 and 16/06/2023, a prospectus investment compliance passive breach was open in the DPAM B Bonds Global Inflation Linked subfund. The hedging ratio of non-EUR currencies must be between 95% and 105%. At NAV date 15/06/2023, the hedging was not in line with this limit on multiple currencies. This was caused by an outflow of 11.5 million from the hedged share classes. A cash outflow booked in the NAV with one day delay closed the breach.

32.12.4. Transparency of the securities financing transactions and of reuse

In accordance with Article 13 and Section A of the Annex to Regulation EU 2015/2365 (hereinafter the Regulation), the Sicav must inform investors of its use of securities financing transactions and total return swaps in the annual report and the half-yearly report.

33. INFORMATION ABOUT THE SUBFUND DPAM B BONDS EUR QUALITY SHORT TERM
--

33.1. MANAGEMENT REPORT

33.1.1. Launch date of the sub-fund and subscription price of the shares

Date of initial subscription: 06/08/1992

Initial subscription price: EUR 123.98

33.1.2. Stock exchange listing

The sub-fund's shares are not listed on the stock market.

33.1.3. Aim and main outlines of the investment policy

Objective

The objective of the sub-fund is to offer investors exposure to debt securities denominated in euros, whose issuers have (i) a minimum investment grade rating* and (iii) a residual term of no more than three years.

This is an actively managed sub-fund, which means that the portfolio manager does not aim to replicate the performance of a benchmark. No benchmarks are used in the management of the sub-fund. Quantitative information from a broader market can be used for risk management and evaluation by the manager.

No formal guarantee has been given either to the sub-fund or to its investors.

* Investment Grade: is an interpretation of the rating of the bond issuer in terms of the financial risks. Rating agencies use their own scale to assess the notion of risk. "Investment grade" ratings are situated between AAA and BBB- according to the Standard & Poor's (S&P) scale and between Aaa and Baa3 according to the Moody's scale.

Investment policy

The sub-fund invests mainly, without sector or geographical restriction, in fixed or floating rate bonds and/or debt securities, or equivalents denominated in euros. The securities or, failing this, the issuers, must have a minimum rating of BBB-/Baa3 ('investment grade') on the scale used by S&P and Moody's rating agencies and the residual term of which does not exceed 3 years at the time of acquisition.

The sub-fund may also hold liquid assets on a secondary or temporary basis in the form of current accounts and deposits in a maximum of 25%.

The sub-fund may invest a maximum of 10% of its assets in open-ended undertakings for collective investment in order to indirectly achieve the above-mentioned target or place its liquidity.

The sub-fund may hold liquid assets on a secondary or temporary basis in the form of current accounts or deposits, and in the form of undertakings for collective investment.

The sub-fund promotes environmental and social characteristics within the meaning of Article 8 of the Regulation SFDR 2019/2088.

33.1.4. Index and benchmark

No benchmarks are used in the management of the sub-fund.

33.1.5. Policy followed during the year

End of June 2023, the net asset value of the DPAM B - Bonds EUR Quality Short Term fund (class B) amounted to EUR 103.79

The Fund aims to provide investors with a predictable yield through an exposure to the European Investment Grade Corporate market with a maximum maturity of 3 Years.

The Investment Process is mainly based on a bottom-up approach. Our credit research team adopts a fundamental and value approach to credit management. Our resources are geared towards identifying fundamentally sound credits, while avoiding low or deteriorating ones. The Fund invests in a diversified portfolio of Corporate bonds rated between AAA and BBB3.

33.1.6. Future policy

We still advocate that corporate bonds with strong balance sheets can go through this period of turbulence. Selectivity and credit selection are key here since that the recovery is likely to be uneven across and within sectors. Our internal credit analysis is essential and will remain the cornerstone of the investment process so that the fund can best withstand episodes of strong volatility.

33.1.7. Synthetic risk indicator

The synthetic risk indicator give an indication of the risk associated with investing in a sub-fund. It places this risk on a scale ranging from one (lowest risk) to seven (highest risk).

Risk and reward profile : 2

These allocations of assets were established on basis of data (gross) used by the entity responsible for the administration and bookkeeping and do not reflect inevitably the economic analysis which directed the assets selection.

33.7. CHANGES IN THE COMPOSITION OF THE ASSETS IN EUR

	1st semester	2nd semester	Total
Purchases	4,229,759.00		4,229,759.00
Sales	1,649,931.00		1,649,931.00
Total 1	5,879,690.00		5,879,690.00
Subscriptions	3,742,235.06		3,742,235.06
Redemptions	1,495,977.29		1,495,977.29
Total 2	5,238,212.35		5,238,212.35
Reference average of the total net asset	8,223,866.83		8,223,866.83
Rotation Percentage	7.80%		7.80%

The rotation rate gives the annual average of the transactions. A figure close to 0% shows that the transactions relating to the securities or the assets with the exception of deposits and liquid assets during a given period, were done exclusively in function of the subscriptions and redemptions. A negative percentage indicates that the subscriptions and redemptions give rise to only few or, as the case may be, no transactions in the portfolio.

A detailed list of the transactions carried out during the financial year can be consulted, free of charge, at Banque Degroof Petercam S.A with its registered office at Rue de l'Industrie 44 - B-1040 Brussels which provides the financial services.

33.9. PERFORMANCES

Figures reflect past performance and are not an indicator of future performance. These figures do not include any restructuring.

Returns are determined at the end of the financial year. (from July 1, 2022 to June 30, 2023).

The annual return is defined as the absolute return earned over a year. For the semi-annual report, the accounting year is 12-month period preceding the end of the half-year.

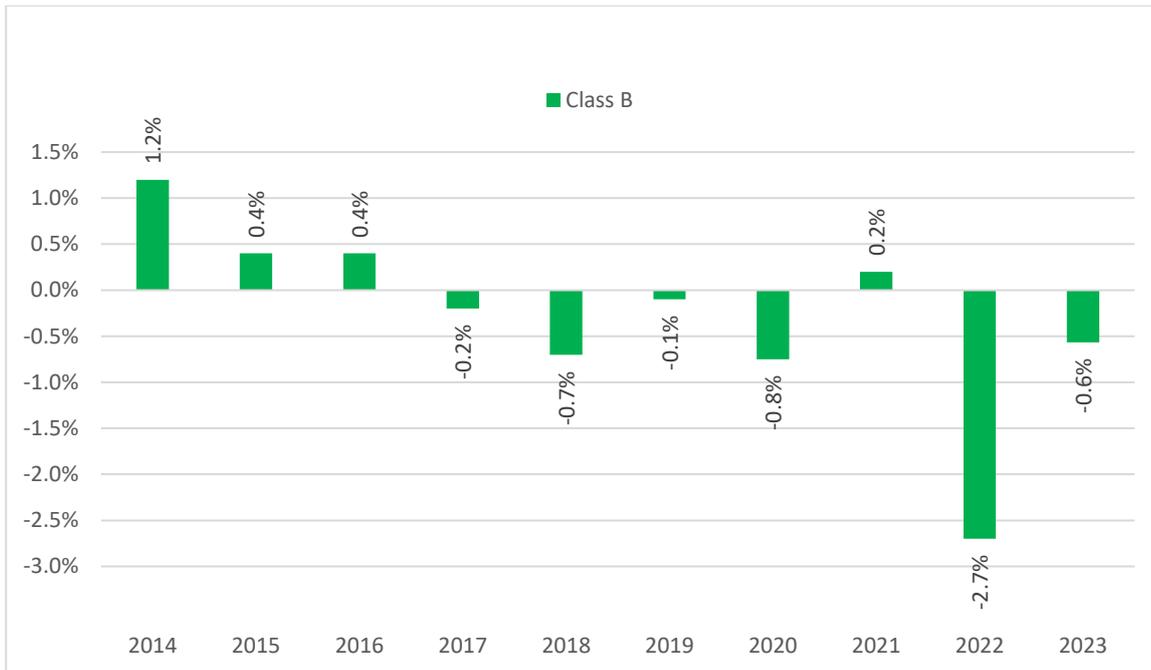

The performance of accumulation units is calculated in a similar way to distribution units. Only the performance (in the form of bar charts) of class B shares is shown in this report. The performance of other share classes may differ, in particular as a result of charges specific to each class (management fees, currency hedging fees, subscription taxes, etc.). Information on the past performance of all share classes is published on the www.dpamfunds.com website. («Overview» tab).

Fee sharing

As at 30 June 2023, (58,92%) of the remuneration due to the Fund Manager was retroceded to some other distributors, third parties and the Banque Degroof Petercam or one of its subsidiaries. The third parties are either end clients with a retrocession agreement, or institutional clients under discretionary management with a management agreement. Bank Degroof Petercam or one of its subsidiaries are distributors in the same way as external distributors.

33.11. NOTES TO THE FINANCIAL STATEMENTS AND OTHER INFORMATION

33.11.1. Gross dividends paid in the financial year

2019	class A 0,90 EUR class M 1,06 EUR
2020	class A 0,80 EUR class M 0,15 EUR

33.11.2. Valuation of financial instruments

Bonds and other debt securities as well as money market instruments in the portfolio were valued at their average price. The valuations have not been adjusted to approximate bid prices, as the difference between bid and ask prices changed significantly over the period, both over time and depending on the nature of the security.

33.11.3. Investment restrictions and overruns

Between NAV dates 8/03/2023 and 10/03/2023, a regulatory investment compliance active breach was open in the DPAM B Bonds EUR Quality Short Term subfund. Due to a large amount of sell transactions on trade date 06/03/2023 and value date 08/03/2023 (16% of the Sub-Fund's net assets) the amount of cash deposited at the same entity (Banque Degroof Petercam Luxembourg) exceeded 20% (2.106.877,28 EUR or 22.947% of the Sub-Fund's net assets). Positions were adapted to close the breach.

33.11.4. Transparency of the securities financing transactions and of reuse

In accordance with Article 13 and Section A of the Annex to Regulation EU 2015/2365 (hereinafter the Regulation), the Sicav must inform investors of its use of securities financing transactions and total return swaps in the annual report and the half-yearly report.

34. INFORMATION ABOUT THE SUBFUND DPAM B DEFENSIVE STRATEGY
--

34.1. MANAGEMENT REPORT

34.1.1. Launch date of the sub-fund and subscription price of the shares

Initial subscription date: 02/11/2011.

Initial subscription price: EUR 100.00.

34.1.2. Stock exchange listing

The sub-fund's shares are not listed on the stock market.

34.1.3. Aim and main outlines of the investment policy

Objective

The objective of the sub-fund is to offer investors, through investment respectively in undertakings for collective investment in debt securities, undertakings for collective investments in equity securities and/or debt securities, undertakings for collective investment in equity securities and/or debt or real estate securities a medium-term capital gain by investing in debt securities of issuers from throughout the world.

This is an actively managed sub-fund, which means that the portfolio manager does not aim to replicate the performance of a benchmark. No benchmarks are used in the management of the sub-fund. Quantitative information from a broader market can be used for risk management and evaluation by the manager.

No formal capital protection or guarantee is given to the investors of the sub-fund.

Investment policy

The sub-fund principally invests, without any sector or geographical restriction, in bond investment funds (undertakings for collective investment in marketable securities and/or other undertakings for collective investment (undertakings for collective investment in marketable securities and/or other undertakings for collective investment)).

The sub-fund may also invest directly in shares, bonds or other debt securities up to a maximum of 20% of its net assets.

The sub-fund aims to limit its (direct and indirect) investments in shares and other equity securities to approx. 30% of its net assets. Under certain circumstances relating to market conditions or the efficiency of the investment strategy, the sub-fund may be justified in exceeding this threshold.

The sub-fund may hold liquid assets on a secondary or temporary basis in the form of current accounts or deposits, and in the form of undertakings for collective investment.

The sub-fund promotes environmental and social characteristics within the meaning of Article 8 of SFDR Regulation 2019/2088.

34.1.4. Index and benchmark

No benchmarks are used in the management of the sub-fund.

34.1.5. Policy followed during the year

2023 started as a mirror image of 2022. Investment-light investors went into buy everything mode and pushed up both equity and bond markets. European equities led the rally as stocks were cheap, economic surprises accelerated quickly and could benefit most from an unexpected re-opening of the economy in China. We decided to increase the equity weight, looking for value in the UK market and Emerging markets, as such seeking direct and indirect exposure to China. In Europe we looked for European small caps.

As central banks continued to tighten rates, strong jobs report in the US pushed peak interest rate expectations higher. Jerome Powell was quick to signal that policy rates will stay higher for longer than the market than anticipated. With the pressure on the rate market, we decided to turn to European high yield. Investing in short term maturities, duration was kept low while yields increased with above average spread levels.

When momentum in the market seemed to have built up, on March 10th, Silicon Valley Bank was shut down by regulators. Liquidity problems also hit Credit Swiss which was very quickly absorbed by UBS to avoid a bank run. Market was spooked by the events and equities dropped. We reduced exposure towards European value stocks, an investment style highly exposed to banks. We started to increase the duration within the fund, switching lower maturity investments to higher duration instrument like long dated US treasuries and German Bunds.

Going into the second quarter of 2023, economic growth momentum remained remarkably resilient in the wake of higher interest rates and tighter credit conditions. While survey-based indicators for manufacturing drifted toward slowdown readings, services indicated to keep the economy afloat. On inflation, declining energy prices will continue to push down headline inflation, which could be expected to translate into lower core inflation. Yet again, central banks maintained their hawkish stance, giving pushback to market expectations. That said, after the aggressive hiking cycle that we have seen over the last year, we anticipate volatility on the bond market, but we don't expect another leg much higher. Hence, we continued to increase the duration on the fixed income side, investing in European Government bond funds. The macroeconomic view was also translated on the equity side where we reduced value stocks and increased growth stocks. The former performs better in increasing inflationary environments. A move that we continued to implement in both April and May.

At the end of the earnings reporting season of the first quarter of this year the picture remained mixed. Overall, companies did better than expectations, however, market pricing changed. Price reaction to good results was minimal while companies underdelivering were hit harder than previous earnings seasons. For this, we confirmed our trade towards growth equities, which have on average better quality of earnings.

As we moved towards the end of the second quarter, first profit warnings came in. Within the chemical space we have seen investors react sharply, sending share prices down. These results might have been a confirmation of the PMI readings at the start of the year. Within this rather cloudy environment, the latest US GDP Print surprised positively, surprising both investors and macro-economist.

34.1.6. Future policy

At the end of the second quarter, we are left with a print on US GDP that surprised massively to the upside, a jobs report in which initial jobless claims were low and inflation that has shown signs of rolling over. On the other hand we see the first corporate profit warnings coming in for the second quarter and continue to see expected weakness on the manufacturing side. China continues to struggle to fully re-open failing to boost global growth.

With this picture in mind, we end the quarter with a rather neutral view on equity asset allocation, while we keep equity allocation on a rather average exposure, within we look for more quality earnings which makes us turn towards growth stocks. We have seen first cracks in the system due to the fierce rate hiking cycle, UK pension funds have been caught with swap exposure and several US regional banks tipped over because of long duration books. Consequently, bank lending standards are increase and willingness to lend is trending down. Consumer delinquency rates are moving higher, and mortgage rates are pushing towards new highs. To diversify risks, we have increased duration over the course of the first half of the year.

Summertime will give lower liquidity and seasonality tends to favor risk assets. Also, investors might try and chase the rally as market breath widens on US equities. Despite the macro-economic uncertainties, we therefore maintain our risk investments, like high yield bonds, emerging market debt and of course our equity investments. Like central banks, we will be data-dependent over the months to come. Inflation prints will continue to direct the market and as such we need to stay vigilant and reactive.

34.1.7. Synthetic risk indicator

The synthetic risk indicator give an indication of the risk associated with investing in a sub-fund. It places this risk on a scale ranging from one (lowest risk) to seven (highest risk).

Risk and reward profile : 3

34.6. GEOGRAPHIC ALLOCATION OF INVESTMENTS

By country	% Portfolio
LUXEMBOURG (GRAND DUCHY)	49.13%
BELGIUM	42.93%
IRELAND	3.95%
UNITED STATES OF AMERICA	2.52%
SPAIN	1.12%
FRANCE	0.35%
Total	10

These allocations of assets were established on basis of data (gross) used by the entity responsible for the administration and bookkeeping and do not reflect inevitably the economic analysis which directed the assets selection.

34.7. ECONOMIC ALLOCATION OF INVESTMENTS

By sector	% Portfolio
UNIT TRUSTS, UCIT	95.22%
STATES	3.64%
REAL ESTATE	1.14%
TOTAL	10

These allocations of assets were established on basis of data (gross) used by the entity responsible for the administration and bookkeeping and do not reflect inevitably the economic analysis which directed the assets selection.

34.8. CHANGES IN THE COMPOSITION OF THE ASSETS IN EUR

	1st semester	2nd semester	Total
Purchases	74,682,468.55		74,682,468.55
Sales	81,994,599.33		81,994,599.33
Total 1	156,677,067.88		156,677,067.88
Subscriptions	5,404,096.63		5,404,096.63
Redemptions	10,994,516.58		10,994,516.58
Total 2	16,398,613.21		16,398,613.21
Reference average of the total net asset	137,015,019.42		137,015,019.42
Rotation Percentage	102.38%		102.38%

The rotation rate gives the annual average of the transactions. A figure close to 0% shows that the transactions relating to the securities or the assets with the exception of deposits and liquid assets during a given period, were done exclusively in function of the subscriptions and redemptions. A negative percentage indicates that the subscriptions and redemptions give rise to only few or, as the case may be, no transactions in the portfolio.

A detailed list of the transactions carried out during the financial year can be consulted, free of charge, at Banque Degroof Petercam S.A with its registered office at Rue de l'Industrie 44 - B-1040 Brussels which provides the financial services.

34.11. PERFORMANCES

Figures reflect past performance and are not an indicator of future performance. These figures do not include any restructuring.

Returns are determined at the end of the financial year. (from July 1, 2022 to June 30, 2023).

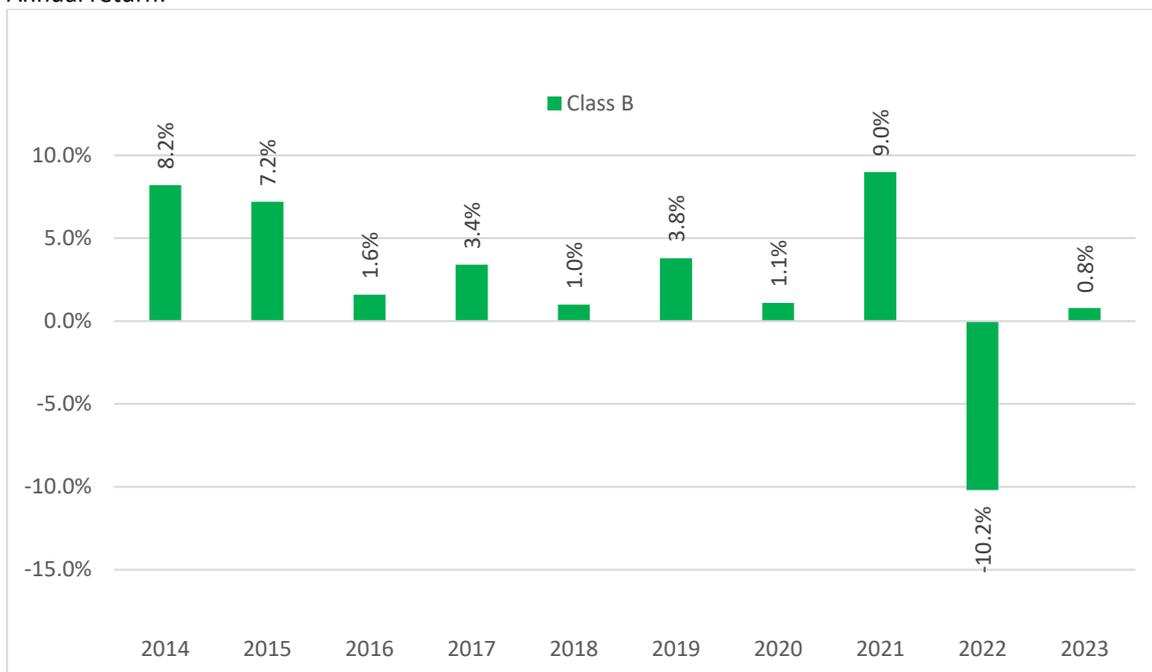

The annual return is defined as the absolute return earned over a year. For the semi-annual report, the accounting year is 12-month period preceding the end of the half-year.

The performance of accumulation units is calculated in a similar way to distribution units. Only the performance (in the form of bar charts) of class B shares is shown in this report. The performance of other share classes may differ, in particular as a result of charges specific to each class (management fees, currency hedging fees, subscription taxes, etc.). Information on the past performance of all share classes is published on the www.dpamfunds.com website. («Overview» tab).

Bar chart showing annual returns of the last 10 years (in % and calculated in EUR) as of 30 June 2023:

Class B

Annual return:

This is an actively managed sub-fund, which means that the portfolio manager does not aim to replicate the performance of a benchmark. No benchmarks are used in the management of the sub-fund. No benchmarks are used in the management of the sub-fund.

Fee sharing

As at 30 June 2023, 11,48% of the remuneration due to the Fund Manager was retroceded to some other distributors, third parties and the Banque Degroof Petercam or one of its subsidiaries. The third parties are either end clients with a retrocession agreement, or institutional clients under discretionary management with a management agreement. Bank Degroof Petercam or one of its subsidiaries are distributors in the same way as external distributors.

34.13. NOTES TO THE FINANCIAL STATEMENTS AND OTHER INFORMATION

34.13.1. Gross dividends paid in the financial year

2019	Class A 0,89 EUR Class M 1,39 EUR
2020	Class A 0,85 EUR Class M 0,85 EUR
2021	Class A 1,37 EUR Class M 1,38 EUR

34.13.2. Valuation of financial instruments

Bonds, other debt instruments and money market instruments have been valued at the average price in the portfolio. No adjustment has been made to the valuations to obtain an approximation of the purchase prices, as the difference between the purchase prices and the average prices has varied significantly over the period, both in terms of time and in relation to the security's features.

34.13.3. Transparency of the securities financing transactions and of reuse

In accordance with Article 13 and Section A of the Annex to Regulation EU 2015/2365 (hereinafter the Regulation), the Sicav must inform investors of its use of securities financing transactions and total return swaps in the annual report and the half-yearly report.

35. INFORMATION ABOUT THE SUBFUND DPAM B BALANCED LOW STRATEGY

35.1. MANAGEMENT REPORT

35.1.1. Launch date of the sub-fund and subscription price of the shares

Initial subscription date: 31/03/2014.
Initial subscription price : EUR 100.00.

35.1.2. Stock exchange listing

The sub-fund's shares are not listed on the stock market.

35.1.3. Aim and main outlines of the investment policy

Objective

The objective of the sub-fund is to offer investors, through investment respectively in undertakings for collective investment in debt securities, undertakings for collective investments in equity securities and/or debt securities, undertakings for collective investment in equity securities and/or debt or real estate securities, through an actively managed portfolio, a moderate medium-term and long-term capital gain by investing in equities and/or debt securities of issuers from throughout the world.

This is an actively managed sub-fund, which means that the portfolio manager does not aim to replicate the performance of a benchmark. No benchmarks are used in the management of the sub-fund. Quantitative information from a broader market can be used for risk management and evaluation by the manager.

No formal capital protection or guarantee is given to the investors of the sub-fund.

Investment policy

The sub-fund principally invests, without any sector or geographical restriction, in bonds and equities investment funds (undertakings for collective investment in marketable securities and/or other undertakings for collective investment (undertakings for collective investment in marketable securities and/or other undertakings for collective investment)).

The sub-fund may also invest directly in shares, bonds or other debt securities up to a maximum of 20% of its net assets.

The sub-fund aims to limit its (direct and indirect) investments in shares and other equity securities to approx. 50% of its net assets. Under certain circumstances relating to market conditions or the efficiency of the investment strategy, the sub-fund may be justified in exceeding this threshold.

The sub-fund may hold liquid assets on a secondary or temporary basis in the form of current accounts or deposits, and in the form of undertakings for collective investment.

The sub-fund promotes environmental and social characteristics within the meaning of Article 8 of SFDR Regulation 2019/2088.

35.1.4. Index and benchmark

No benchmarks are used in the management of the sub-fund.

35.1.5. Policy followed during the year

2023 started as a mirror image of 2022. Investment-light investors went into buy everything mode and pushed up both equity and bond markets. European equities led the rally as stocks were cheap, economic surprises accelerated quickly and could benefit most from an unexpected re-opening of the economy in China. We decided to increase the equity weight, looking for value in the UK market and Emerging markets, as such seeking direct and indirect exposure to China. In Europe we looked for European small caps.

As central banks continued to tighten rates, strong jobs report in the US pushed peak interest rate expectations higher. Jerome Powell was quick to signal that policy rates will stay higher for longer than the market than anticipated. With the pressure on the rate market, we decided to turn to European high yield. Investing in short term maturities, duration was kept low while yields increased with above average spread levels.

When momentum in the market seemed to have built up, on March 10th, Silicon Valley Bank was shut down by regulators. Liquidity problems also hit Credit Swiss which was very quickly absorbed by UBS to avoid a bank run. Market was spooked by the events and equities dropped. We reduced exposure towards European value stocks, an investment style highly exposed to banks. We started to increase the duration within the fund, switching lower maturity investments to higher duration instrument like long dated US treasuries and German Bunds.

Going into the second quarter of 2023, economic growth momentum remained remarkably resilient in the wake of higher interest rates and tighter credit conditions. While survey-based indicators for manufacturing drifted toward slowdown readings, services indicated to keep the economy afloat. On inflation, declining energy prices will continue to push down headline inflation, which could be expected to translate into lower core inflation. Yet again, central banks maintained their hawkish stance, giving pushback to market expectations. That said, after the aggressive hiking cycle that we have seen over the last year, we anticipate volatility on the bond market, but we don't expect another leg much higher. Hence, we continued to increase the duration on the fixed income side, investing in European Government bond funds. The macroeconomic view was also translated on the equity side where we reduced value stocks and increased growth stocks. The former performs better in increasing inflationary environments. A move that we continued to implement in both April and May.

At the end of the earnings reporting season of the first quarter of this year the picture remained mixed. Overall, companies did better than expectations, however, market pricing changed. Price reaction to good results was minimal while companies underdelivering were hit harder than previous earnings seasons. For this, we confirmed our trade towards growth equities, which have on average better quality of earnings.

As we moved towards the end of the second quarter, first profit warnings came in. Within the chemical space we have seen investors react sharply, sending share prices down. These results might have been a confirmation of the PMI readings at the start of the year. Within this rather cloudy environment, the latest US GDP Print surprised positively, surprising both investors and macro-economist.

35.1.6. Future policy

At the end of the second quarter, we are left with a print on US GDP that surprised massively to the upside, a jobs report in which initial jobless claims were low and inflation that has shown signs of rolling over. On the other hand we see the first corporate profit warnings coming in for the second quarter and continue to see expected weakness on the manufacturing side. China continues to struggle to fully re-open failing to boost global growth.

With this picture in mind, we end the quarter with a rather neutral view on equity asset allocation, while we keep equity allocation on a rather average exposure, within we look for more quality earnings which makes us turn towards growth stocks. We have seen first cracks in the system due to the fierce rate hiking cycle, UK pension funds have been caught with swap exposure and several US regional banks tipped over because of long duration books. Consequently, bank lending standards are increase and willingness to lend is trending down. Consumer delinquency rates are moving higher, and mortgage rates are pushing towards new highs. To diversify risks, we have increased duration over the course of the first half of the year.

Summertime will give lower liquidity and seasonality tends to favor risk assets. Also, investors might try and chase the rally as market breath widens on US equities. Despite the macro-economic uncertainties, we therefore maintain our risk investments, like high yield bonds, emerging market debt and of course our equity investments. Like central banks, we will be data-dependent over the months to come. Inflation prints will continue to direct the market and as such we need to stay vigilant and reactive.

35.1.7. Synthetic risk indicator

The synthetic risk indicator give an indication of the risk associated with investing in a sub-fund. It places this risk on a scale ranging from one (lowest risk) to seven (highest risk).

Risk and reward profile: 3

35.6. GEOGRAPHIC ALLOCATION OF INVESTMENTS

By country	% Portfolio
BELGIUM	48.20%
LUXEMBOURG (GRAND DUCHY)	43.89%
IRELAND	6.42%
UNITED STATES OF AMERICA	1.10%
FRANCE	0.39%
Total	10

These allocations of assets were established on basis of data (gross) used by the entity responsible for the administration and bookkeeping and do not reflect inevitably the economic analysis which directed the assets selection.

35.7. ECONOMIC ALLOCATION OF INVESTMENTS

By sector	% Portfolio
UNIT TRUSTS, UCIT	97.16%
REAL ESTATE	1.74%
STATES	1.10%
TOTAL	10

These allocations of assets were established on basis of data (gross) used by the entity responsible for the administration and bookkeeping and do not reflect inevitably the economic analysis which directed the assets selection.

35.8. CHANGES IN THE COMPOSITION OF THE ASSETS IN EUR

	1st semester	2nd semester	Total
Purchases	59,454,522.70		59,454,522.70
Sales	73,235,830.67		73,235,830.67
Total 1	132,690,353.37		132,690,353.37
Subscriptions	3,619,293.07		3,619,293.07
Redemptions	16,609,363.87		16,609,363.87
Total 2	20,228,656.94		20,228,656.94
Reference average of the total net asset	128,900,441.38		128,900,441.38
Rotation Percentage	87.25%		87.25%

The rotation rate gives the annual average of the transactions. A figure close to 0% shows that the transactions relating to the securities or the assets with the exception of deposits and liquid assets during a given period, were done exclusively in function of the subscriptions and redemptions. A negative percentage indicates that the subscriptions and redemptions give rise to only few or, as the case may be, no transactions in the portfolio.

A detailed list of the transactions carried out during the financial year can be consulted, free of charge, at Banque Degroof Petercam S.A with its registered office at Rue de l'Industrie 44 - B-1040 Brussels which provides the financial services.

35.11. PERFORMANCES

Figures reflect past performance and are not an indicator of future performance. These figures do not include any restructuring.

Returns are determined at the end of the financial year. (from July 1, 2022 to June 30, 2023).

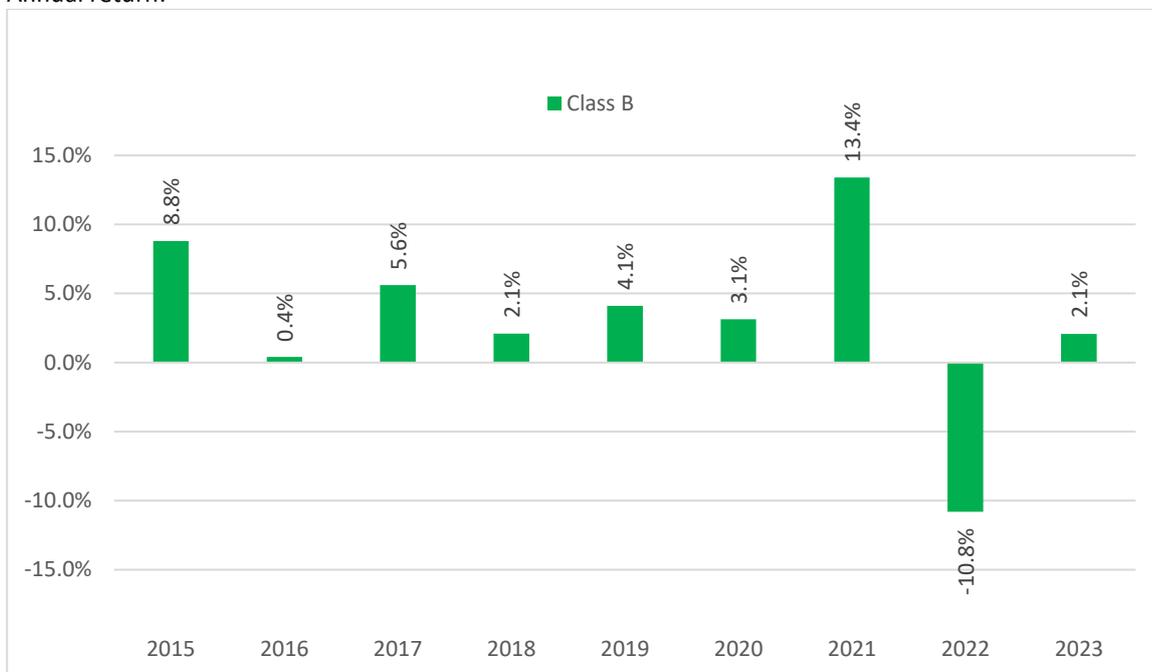

The annual return is defined as the absolute return earned over a year. For the semi-annual report, the accounting year is 12-month period preceding the end of the half-year.

The performance of accumulation units is calculated in a similar way to distribution units. Only the performance (in the form of bar charts) of class B shares is shown in this report. The performance of other share classes may differ, in particular as a result of charges specific to each class (management fees, currency hedging fees, subscription taxes, etc.). Information on the past performance of all share classes is published on the www.dpamfunds.com website. («Overview» tab).

Fee sharing

As at 30 June 2023, 9,14% of the remuneration due to the Fund Manager was retroceded to some other distributors, third parties and the Banque Degroof Petercam or one of its subsidiaries. The third parties are either end clients with a retrocession agreement, or institutional clients under discretionary management with a management agreement. Bank Degroof Petercam or one of its subsidiaries are distributors in the same way as external distributors.

35.13. NOTES TO THE FINANCIAL STATEMENTS AND OTHER INFORMATION

35.13.1. Gross dividends paid in the financial year

2019 Class A 0,64 EUR
Class M 1,18 EUR
2020 Class A 0,57 EUR
Class M 0,57 EUR
2021 Class A 1,12 EUR
Class M 1,13 EUR

35.13.2. Valuation of financial instruments

Bonds, other debt instruments and money market instruments have been valued at the average price in the portfolio. No adjustment has been made to the valuations to obtain an approximation of the purchase prices, as the difference between the purchase prices and the average prices has varied significantly over the period, both in terms of time and in relation to the security's features.

35.13.3. Transparency of the securities financing transactions and of reuse

In accordance with Article 13 and Section A of the Annex to Regulation EU 2015/2365 (hereinafter the Regulation), the Sicav must inform investors of its use of securities financing transactions and total return swaps in the annual report and the half-yearly report.

36. INFORMATION ABOUT THE SUBFUND DPAM B BALANCED STRATEGY

36.1. MANAGEMENT REPORT

36.1.1. Launch date of the sub-fund and subscription price of the shares

Initial subscription date: 02/11/2011.
Initial subscription price : EUR 100.00.

36.1.2. Stock exchange listing

The sub-fund's shares are not listed on the stock market.

36.1.3. Aim and main outlines of the investment policy

Objective

The objective of the sub-fund is to offer investors, through investment respectively in undertakings for collective investment in debt securities, undertakings for collective investments in equity securities and/or debt securities, undertakings for collective investment in equity securities and/or debt or real estate securities a moderate medium-term and long-term capital gain by investing in equities and/or debt securities of issuers from throughout the world.

This is an actively managed sub-fund, which means that the portfolio manager does not aim to replicate the performance of a benchmark. No benchmarks are used in the management of the sub-fund. Quantitative information from a broader market can be used for risk management and evaluation by the manager.

No formal capital protection or guarantee is given to the investors of the sub-fund.

Investment policy

The sub-fund principally invests, without any sector or geographical restriction, in bonds and equities investment funds (undertakings for collective investment in marketable securities and/or other undertakings for collective investment (undertakings for collective investment in marketable securities and/or other undertakings for collective investment)).

The sub-fund may also invest directly in shares, bonds or other debt securities up to a maximum of 20% of its net assets.

The sub-fund aims to limit its (direct and indirect) investments in shares and other equity securities to approx. 65% of its net assets. Under certain circumstances relating to market conditions or the efficiency of the investment strategy, the sub-fund may be justified in exceeding this threshold.

The sub-fund may hold liquid assets on a secondary or temporary basis in the form of current accounts or deposits, and in the form of undertakings for collective investment..

The sub-fund promotes environmental and social characteristics within the meaning of Article 8 of SFDR Regulation 2019/2088.

36.1.4. Index and benchmark

No benchmarks are used in the management of the sub-fund.

36.1.5. Policy followed during the year

The first half of 2022 was marked by a strong shift in economic momentum and the anticipations thereof. Coming out of 2021 with strong expected tailwinds from re-opening economies after the pandemic crisis, the situation turned for the worse with rising energy and commodity prices and increasing difficulties on supply side of the economy. The Russian invasion in Ukraine exacerbated the situation and made consumer confidence drop in fast pace. In response to the clouding of the macro-economic backdrop, we de-risked the portfolio on several occasions during H1 of 2022. January was marked by a strong rotation in the equity market from growth stocks to value. Increasing rate expectations put pressure on valuations of expensive stocks. Given the persistence of inflation, we believed that rates could support the movement going further. Therefore, in February, we increased our allocation towards value stocks buying European energy and banks directly using ETF's. In addition, we increased US Value stocks as well. At the same time, having seen market's inflation expectations rise significantly, we reduced the allocation towards inflation linked bonds. Seeking diversification, Chinese government bonds were increased in the portfolio at the same time. At the end of February, we decided to reduce the European equity allocation on increasing tensions in Ukraine. We turned our investments towards the US and UK equity markets, seeking both dollar exposure in the US and more exposure towards value in the UK. In the move the overall equity allocation was lowered.

In March, the likelihood of a short-term solution to the conflict in Europe shrank significantly. Political actions using sanction increased the pressure on Russia and resulted in energy prices being pushed up even further. We felt this would ultimately result in company margins being affected and we decided to further lower the exposure towards equities selling still highly valued growth stocks. The case Chinese bonds weakened with currency risks increasing. We lowered the allocation and took profit on the relative outperformance of Chinese bonds versus euro bonds. The proceeds were re-invested in Emerging market debt. The global region had become interesting having already seen many rate hikes from central bank, increasing the yield in the region.

With yields further increasing globally, we decided in April to completely sell the remainder of China bonds and to re-invest in US Treasuries with a maturity of 3 years. Yielding nearly 3% at the time, the yield to risk trade off seemed interesting. We sold European rate risk as we deemed local nominal yields to be on the rise as inflationary pressures would push the ECB more hawkish.

In May and June, we restructured the bonds portfolio to be more defensive towards European rate and credit risk. Shorter maturity bonds were added and longer dated bonds sold. Given the expected narrowing of the US versus European rate spread, USD exposure was lowered. As we expected corporate earnings to disappoint going forward, small caps were reduced in the US.

36.1.6. Future policy

The word volatility understates the moves that we have seen in the first half of the year. The market had repriced significantly on both equities and bonds in what have been historical moves. This leaves us today at an inflection point.

In the rate market value has been created with higher yields increasing the carry and therefore hedging capacities of the asset class. Central banks have never been this hawkish in recent history and will support yields to remain high. We think it too soon to re-enter the market as uncertainty on inflation prints can still push central banks in either direction. That said, the increasing likelihood of a recession in the US and certainly Europe makes longer term yields appear attractive. We need to be attentive to these evolutions as a recession scenario would likely push yields down again thus serving as a hedge for the balanced portfolio.

The equity market has been marked by a strong multiple contraction year-to-date. Markedly, earnings expectations have risen this year, and the two first quarter have been decent in delivery of corporate results. However, on the backdrop of high commodity prices, decade low consumer confidence and continuing supply chain issues, we believe earnings will be under pressure after summer. An environment of negative earnings revisions and a potential recession has seldomly been good for equities, we therefore remain cautious on equities.

36.1.7. Synthetic risk indicator

The synthetic risk indicator give an indication of the risk associated with investing in a sub-fund. It places this risk on a scale ranging from one (lowest risk) to seven (highest risk).

Risk and reward profile : 3

36.6. GEOGRAPHIC ALLOCATION OF INVESTMENTS

By country	% Portfolio
BELGIUM	48.56%
LUXEMBOURG (GRAND DUCHY)	40.38%
IRELAND	8.57%
UNITED STATES OF AMERICA	1.00%
SPAIN	0.81%
FRANCE	0.68%
Total	10

These allocations of assets were established on basis of data (gross) used by the entity responsible for the administration and bookkeeping and do not reflect inevitably the economic analysis which directed the assets selection.

36.7. ECONOMIC ALLOCATION OF INVESTMENTS

By sector	% Portfolio
UNIT TRUSTS, UCIT	96.61%
STATES	1.81%
REAL ESTATE	1.58%
TOTAL	10

These allocations of assets were established on basis of data (gross) used by the entity responsible for the administration and bookkeeping and do not reflect inevitably the economic analysis which directed the assets selection.

36.8. CHANGES IN THE COMPOSITION OF THE ASSETS IN EUR

	1st semester	2nd semester	Total
Purchases	495,539,798.38		495,539,798.38
Sales	543,925,705.79		543,925,705.79
Total 1	1,039,465,504.17		1,039,465,504.17
Subscriptions	40,879,354.82		40,879,354.82
Redemptions	85,785,540.54		85,785,540.54
Total 2	126,664,895.36		126,664,895.36
Reference average of the total net asset	1,277,102,382.51		1,277,102,382.51
Rotation Percentage	71.47%		71.47%

The rotation rate gives the annual average of the transactions. A figure close to 0% shows that the transactions relating to the securities or the assets with the exception of deposits and liquid assets during a given period, were done exclusively in function of the subscriptions and redemptions. A negative percentage indicates that the subscriptions and redemptions give rise to only few or, as the case may be, no transactions in the portfolio.

A detailed list of the transactions carried out during the financial year can be consulted, free of charge, at Banque Degroof Petercam S.A with its registered office at Rue de l'Industrie 44 - B-1040 Brussels which provides the financial services.

36.11. PERFORMANCES

Figures reflect past performance and are not an indicator of future performance. These figures do not include any restructuring.

Returns are determined at the end of the financial year. (from July 1, 2022 to June 30, 2023).

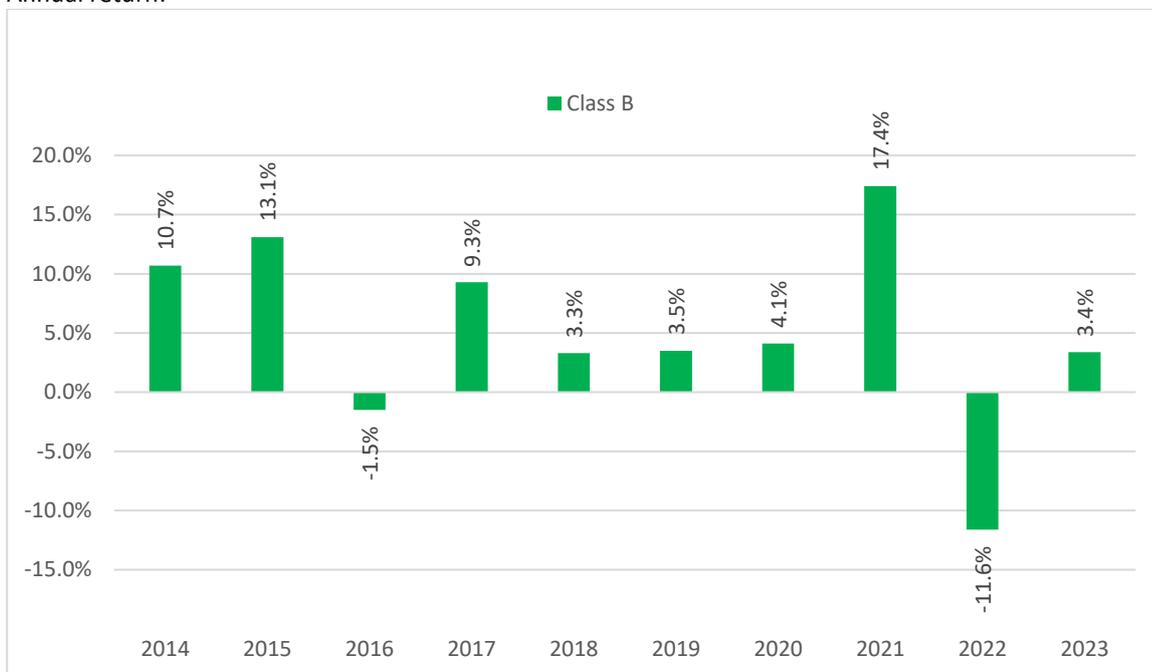

The annual return is defined as the absolute return earned over a year. For the semi-annual report, the accounting year is 12-month period preceding the end of the half-year.

The performance of accumulation units is calculated in a similar way to distribution units. Only the performance (in the form of bar charts) of class B shares is shown in this report. The performance of other share classes may differ, in particular as a result of charges specific to each class (management fees, currency hedging fees, subscription taxes, etc.). Information on the past performance of all share classes is published on the www.dpamfunds.com website. («Overview» tab).

Fee sharing

As at 30 June 2023, 16,68% of the remuneration due to the Fund Manager was retroceded to some other distributors, third parties and the Banque Degroof Petercam or one of its subsidiaries. The third parties are either end clients with a retrocession agreement, or institutional clients under discretionary management with a management agreement. Bank Degroof Petercam or one of its subsidiaries are distributors in the same way as external distributors.

36.13. NOTES TO THE FINANCIAL STATEMENTS AND OTHER INFORMATION

36.13.1. Gross dividends paid in the financial year

2019	Class A 0,95 EUR Class M 1,72 EUR
2020	Class A 0,80 EUR Class M 0,80 EUR
2021	class A 1,52 EUR class M 1,54 EUR

36.13.2. Valuation of financial instruments

Bonds and other debt securities as well as money market instruments in the portfolio were valued at their average price. The valuations have not been adjusted to approximate bid prices, as the difference between bid and ask prices changed significantly over the period, both over time and depending on the nature of the security.

36.13.3. Investment restrictions and overruns

Between NAV dates 6/03/2023 and 10/03/2023, a regulatory investment compliance active breach was open in the DPAM B Balanced Strategy subfund. Due to transactions made by the portfolio manager, the limit of 25% control ratio in another UCI was exceeded. After an automated control by Risk, it was discovered that the control ratio of DPAM B Balanced Strategy was of 25.25%. Another transaction of 100,000 shares caused the ratio to increase to 27.35% on NAV date 07/03/2023. The portfolio manager was notified and made the necessary corrections. Positions were adapted to close the breach.

36.13.4. Transparency of the securities financing transactions and of reuse

In accordance with Article 13 and Section A of the Annex to Regulation EU 2015/2365 (hereinafter the Regulation), the Sicav must inform investors of its use of securities financing transactions and total return swaps in the annual report and the half-yearly report.

37. INFORMATION ABOUT THE SUBFUND DPAM B ACTIVE STRATEGY

37.1. MANAGEMENT REPORT

37.1.1. Launch date of the sub-fund and subscription price of the shares

Initial subscription date: 02/11/2011.

Initial subscription price: EUR 100.00.

37.1.2. Stock exchange listing

The sub-fund's shares are not listed on the stock market.

37.1.3. Aim and main outlines of the investment policy

Objective

The objective of the sub-fund is to offer investors, through investment respectively in undertakings for collective investment in debt securities, undertakings for collective investments in equity securities and/or debt securities, undertakings for collective investment in equity securities and/or debt or real estate securities a medium-term capital gain by investing in equities and/or debt securities of issuers from throughout the world. No formal capital protection or guarantee is given to the investors of the sub-fund.

This is an actively managed sub-fund, which means that the portfolio manager does not aim to replicate the performance of a benchmark. No benchmarks are used in the management of the sub-fund. Quantitative information from a broader market can be used for risk management and evaluation by the manager.

Investment policy

The sub-fund principally invests, without any sector or geographical restriction, in equity investment funds (undertakings for collective investment in marketable securities and/or other undertakings for collective investment (undertakings for collective investment in marketable securities and/or other undertakings for collective investment)).

The sub-fund may also invest directly in shares, bonds or other debt securities up to a maximum of 20% of its net assets.

The sub-fund aims to limit its (direct and indirect) investments in shares and other equity securities to approx. 85% of its net assets. Under certain circumstances relating to market conditions or the efficiency of the investment strategy, the sub-fund may be justified in exceeding this threshold.

The sub-fund may hold liquid assets on a secondary or temporary basis in the form of current accounts or deposits, and in the form of undertakings for collective investment.

The sub-fund promotes environmental and social characteristics within the meaning of Article 8 of SFDR Regulation 2019/2088.

37.1.4. Index and benchmark

No benchmarks are used in the management of the sub-fund.

37.1.5. Policy followed during the year

2023 started as a mirror image of 2022. Investment-light investors went into buy everything mode and pushed up both equity and bond markets. European equities led the rally as stocks were cheap, economic surprises accelerated quickly and could benefit most from an unexpected re-opening of the economy in China. We decided to increase the equity weight, looking for value in the UK market and Emerging markets, as such seeking direct and indirect exposure to China. In Europe we looked for European small caps.

As central banks continued to tighten rates, strong jobs report in the US pushed peak interest rate expectations higher. Jerome Powell was quick to signal that policy rates will stay higher for longer than the market than anticipated. With the pressure on the rate market, we decided to turn to European high yield. Investing in short term maturities, duration was kept low while yields increased with above average spread levels.

When momentum in the market seemed to have built up, on March 10th, Silicon Valley Bank was shut down by regulators. Liquidity problems also hit Credit Swiss which was very quickly absorbed by UBS to avoid a bank run. Market was spooked by the events and equities dropped. We reduced exposure towards European value stocks, an investment style highly exposed to banks. We started to increase the duration within the fund, switching lower maturity investments to higher duration instrument like long dated US treasuries and German Bunds.

Going into the second quarter of 2023, economic growth momentum remained remarkably resilient in the wake of higher interest rates and tighter credit conditions. While survey-based indicators for manufacturing drifted toward slowdown readings, services indicated to keep the economy afloat. On inflation, declining energy prices will continue to push down headline inflation, which could be expected to translate into lower core inflation. Yet again, central banks maintained their hawkish stance, giving pushback to market expectations. That said, after the aggressive hiking cycle that we have seen over the last year, we anticipate volatility on the bond market, but we don't expect another leg much higher. Hence, we continued to increase the duration on the fixed income side, investing in European Government bond funds. The macroeconomic view was also translated on the equity side where we reduced value stocks and increased growth stocks. The former performs better in increasing inflationary environments. A move that we continued to implement in both April and May.

At the end of the earnings reporting season of the first quarter of this year the picture remained mixed. Overall, companies did better than expectations, however, market pricing changed. Price reaction to good results was minimal while companies underdelivering were hit harder than previous earnings seasons. For this, we confirmed our trade towards growth equities, which have on average better quality of earnings.

As we moved towards the end of the second quarter, first profit warnings came in. Within the chemical space we have seen investors react sharply, sending share prices down. These results might have been a confirmation of the PMI readings at the start of the year. Within this rather cloudy environment, the latest US GDP Print surprised positively, surprising both investors and macro-economist.

37.1.6. Future policy

At the end of the second quarter, we are left with a print on US GDP that surprised massively to the upside, a jobs report in which initial jobless claims were low and inflation that has shown signs of rolling over. On the other hand we see the first corporate profit warnings coming in for the second quarter and continue to see expected weakness on the manufacturing side. China continues to struggle to fully re-open failing to boost global growth.

With this picture in mind, we end the quarter with a rather neutral view on equity asset allocation, while we keep equity allocation on a rather average exposure, within we look for more quality earnings which makes us turn towards growth stocks. We have seen first cracks in the system due to the fierce rate hiking cycle, UK pension funds have been caught with swap exposure and several US regional banks tipped over because of long duration books. Consequently, bank lending standards are increase and willingness to lend is trending down. Consumer delinquency rates are moving higher, and mortgage rates are pushing towards new highs. To diversify risks, we have increased duration over the course of the first half of the year.

Summertime will give lower liquidity and seasonality tends to favor risk assets. Also, investors might try and chase the rally as market breath widens on US equities. Despite the macro-economic uncertainties, we therefore maintain our risk investments, like high yield bonds, emerging market debt and of course our equity investments. Like central banks, we will be data-dependent over the months to come. Inflation prints will continue to direct the market and as such we need to stay vigilant and reactive.

37.1.7. Synthetic risk indicator

The synthetic risk indicator give an indication of the risk associated with investing in a sub-fund. It places this risk on a scale ranging from one (lowest risk) to seven (highest risk).

Risk and reward profile: 3

37.2. BALANCE SHEET

		30 June 2023 EUR	30 June 2022 EUR

37.6. GEOGRAPHIC ALLOCATION OF INVESTMENTS

By country	% Portfolio
BELGIUM	55.03%
LUXEMBOURG (GRAND DUCHY)	31.99%
IRELAND	11.20%
FRANCE	0.81%
ITALY	0.69%
UNITED STATES OF AMERICA	0.28%
Total	10

These allocations of assets were established on basis of data (gross) used by the entity responsible for the administration and bookkeeping and do not reflect inevitably the economic analysis which directed the assets selection.

37.7. ECONOMIC ALLOCATION OF INVESTMENTS

By sector	% Portfolio
UNIT TRUSTS, UCIT	97.65%
REAL ESTATE	1.38%
STATES	0.97%
TOTAL	10

These allocations of assets were established on basis of data (gross) used by the entity responsible for the administration and bookkeeping and do not reflect inevitably the economic analysis which directed the assets selection.

37.8. CHANGES IN THE COMPOSITION OF THE ASSETS IN EUR

	1st semester	2nd semester	Total
Purchases	75,340,567.97		75,340,567.97
Sales	73,642,501.76		73,642,501.76
Total 1	148,983,069.73		148,983,069.73
Subscriptions	13,067,483.39		13,067,483.39
Redemptions	10,659,999.50		10,659,999.50
Total 2	23,727,482.89		23,727,482.89
Reference average of the total net asset	263,337,056.21		263,337,056.21
Rotation Percentage	47.56%		47.56%

The rotation rate gives the annual average of the transactions. A figure close to 0% shows that the transactions relating to the securities or the assets with the exception of deposits and liquid assets during a given period, were done exclusively in function of the subscriptions and redemptions. A negative percentage indicates that the subscriptions and redemptions give rise to only few or, as the case may be, no transactions in the portfolio.

A detailed list of the transactions carried out during the financial year can be consulted, free of charge, at Banque Degroof Petercam S.A with its registered office at Rue de l'Industrie 44 - B-1040 Brussels which provides the financial services.

37.11. PERFORMANCES

Figures reflect past performance and are not an indicator of future performance. These figures do not include any restructuring.

Returns are determined at the end of the financial year. (from July 1, 2022 to June 30, 2023).

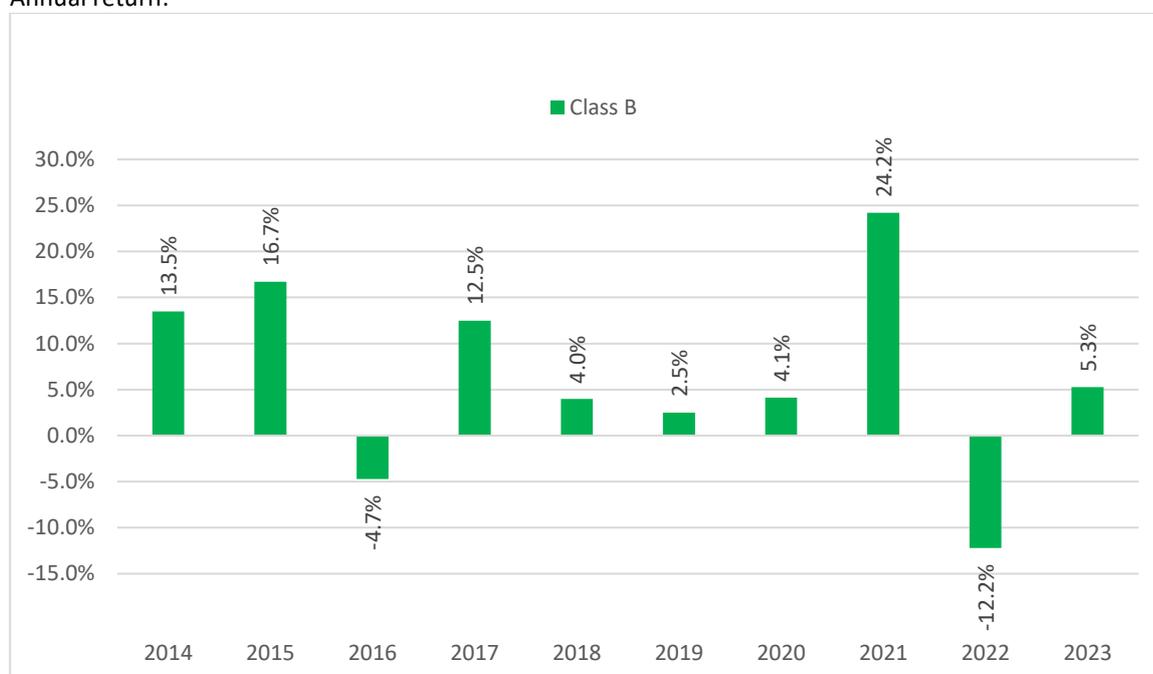

The annual return is defined as the absolute return earned over a year. For the semi-annual report, the accounting year is 12-month period preceding the end of the half-year.

The performance of accumulation units is calculated in a similar way to distribution units. Only the performance (in the form of bar charts) of class B shares is shown in this report. The performance of other share classes may differ, in particular as a result of charges specific to each class (management fees, currency hedging fees, subscription taxes, etc.). Information on the past performance of all share classes is published on the www.dpamfunds.com website. («Overview» tab).

Bar chart showing annual returns of the last 10 years (in % and calculated in EUR) as of 30 June 2023:

Class B

Annual return:

This is an actively managed sub-fund, which means that the portfolio manager does not aim to replicate the performance of a benchmark. No benchmarks are used in the management of the sub-fund. No benchmarks are used in the management of the sub-fund.

Class A

Table showing historical performance (actuarial returns):

Fee sharing

As at 30 June 2023, 29,18% of the remuneration due to the Fund Manager was retroceded to some other distributors, third parties and the Banque Degroof Petercam or one of its subsidiaries. The third parties are either end clients with a retrocession agreement, or institutional clients under discretionary management with a management agreement. Bank Degroof Petercam or one of its subsidiaries are distributors in the same way as external distributors.

37.13. NOTES TO THE FINANCIAL STATEMENTS AND OTHER INFORMATION

37.13.1. Gross dividends paid in the financial year

2019	Class A 0,94 EUR Class M 1,91 EUR
2020	Class A 0,73 EUR Class M 0,73 EUR
2021	Class A 1,77 EUR Class M 1,79 EUR

37.13.2. Valuation of financial instruments

Bonds and other debt securities as well as money market instruments in the portfolio were valued at their average price. The valuations have not been adjusted to approximate bid prices, as the difference between bid and ask prices changed significantly over the period, both over time and depending on the nature of the security.

37.13.3. Transparency of the securities financing transactions and of reuse

In accordance with Article 13 and Section A of the Annex to Regulation EU 2015/2365 (hereinafter the Regulation), the Sicav must inform investors of its use of securities financing transactions and total return swaps in the annual report and the half-yearly report.
