Interim management report

The directors (the "Directors") present their annual report and the condensed unaudited financial statements of HANetf ETC Securities plc (the "Company") for the financial period ended 30 September 2022. The Company falls within the Irish regime for the taxation of qualifying companies as set out in Section 110 of the Taxes Consolidation Act 1997 (as amended).

Principal activities and business review

The Company is a public limited company incorporated on 24 January 2020 in Ireland under the Companies Act 2014, as amended (the "Act") and has established as a special purpose vehicle (the "SPV") for the purpose of issuing asset-backed securities, including Metal Securities backed by the underlying metal, and other asset-backed exchange traded securities (including Carbon Securities), and entering into agreements relating to the Metal Securities, and Carbon Securities, and the underlying assets thereof.

Physical Metal Securities Programme

Under the Physical Metal Securities Programme (the "Metal Securities Programme"), the Company issued Metal Securities ("Metal Securities") which are secured, undated, zero coupon limited recourse debt obligations. Metal Securities are designed to track the price of individual precious metals (for example, gold) (the "Physical metals") and to provide investors with a return equivalent to the spot price of the relevant underlying metal less the applicable fees. The aggregate number of Metal Securities issued under the Programme will not at any time exceed 10,000,000,000, this being the Programme maximum number of Metal Securities.

The Metal Securities are backed by fully-allocated physical holdings of the relevant precious metal custodied in secured vaults. The Metal Securities are undated (have no final maturity date) and are non-interest bearing. The prevailing market price at which the Metal Securities trade on the secondary market may deviate from the daily value of the Metal Securities and may not accurately reflect the price of the precious metal underlying the Metal Securities. Each Metal Security of a Series has a metal entitlement (the "Metal Entitlement") expressed as an amount in weight (in troy or fine troy ounces) of the relevant metal linked to such Series. This Metal Entitlement starts at a predetermined initial Metal Entitlement for the relevant Series and is reduced daily by the Total Expense Ratio (the "TER") (in metal) for the Series.

Only registered broker-dealers "Authorised Participants" may subscribe and request buy-backs of Metal Securities with the Company and except in certain limited circumstances, these subscriptions and buy-backs can only be carried out in specie. During the life of the Metal Securities, Securityholders who are not authorised can buy and sell the ETC Securities on each exchange on which the ETC Securities are listed at the then prevailing market price, through financial intermediaries. References to a "Securityholder" or a "holder" of Securities shall, where the context requires or permits, be construed to mean a person in whose name such Securities are for the time being registered in the register of Securityholders in respect of the Series (or if joint holders appear in the register, the first named thereof) and a holder of beneficial or indirect interests in Securities (including those arising from holding CDIs), except where the references relate to (a) any right to receive payments or Metal in respect of the Securities, the right to which shall be vested, as against the Issuer, solely in the registered holder of such Securities whose name is registered in the Register, and (b) any right to attend, vote at and/or convene meetings of Securityholders.

On 14 February 2020, the Company issued Series 1 - Metal Securities of The Royal Mint Physical Gold ETC Securities. The net proceeds from the issue of Metal Securities were used to purchase an amount of underlying metal which is held in Secured Allocated Accounts in respect of such Metal Securities. Such underlying metal is used to meet the Company's obligations under the relevant Metal Securities.

Physical Carbon Securities Programme

Under the Physical Carbon Securities Programme (the "Carbon Securities Programme"), the Company issued Carbon Securities ("Carbon Securities") which are secured, undated, zero coupon limited recourse debt obligations. Carbon Securities are designed to track the price of Allowances, credits, permits, rights or similar assets which represents a volume of carbon dioxide equivalent or other greenhouse gas, which is issued, allocated, created or recognised in accordance with the rules and regulations governing participation in a trading scheme for the transferring of such allowances, credits, permits, rights or similar assets ("Allowances").

All Allowances that ultimately back the Carbon Securities are not delivered to or held by the Company but are instead held by the Backing Issuer, Spark Change Jersey Issuer Limited, which was incorporated in Jersey. Consequently, the Company will maintain rights of the holders of Carbon Securities to receive Allowances by holding a security issued by the Backing Issuer (i.e. the Backing note). The Company will be the only noteholder of the Backing Notes issued by the Backing Issuer. In particular, the Backing Issuer supports the ongoing carbon-specific operational aspects of the Programme, by (among other things) holding the corresponding quantity of emission allowances that ultimately back the Carbon Securities in its own dedicated European Union registry account, which is subject to certain security arrangements to protect the interest of the holders of the Carbon Securities.

Carbon Securities are designed to provide investors with a return equivalent to the market value of the relevant underlying emissions Allowances less the applicable fees. The aggregate number of Carbon Securities issued under the Programme will not at any time exceed 10,000,000,000, this being the Programme maximum number of Carbon Securities.

Interim management report (continued)

Principal activities and business review (continued)

Physical Carbon Securities Programme (continued)

The Carbon Securities are backed by a security (the "Backing note") which is backed by the relevant physical Allowances. As such, the Carbon Securities offer investors a means acquiring corresponding exposure to the relevant Allowances without being required to take physical delivery of that Allowance nor opening of a holding account. The Carbon Securities are undated (have no final maturity date) and are non-interest bearing. The price at which Carbon Securities trade on a relevant stock exchange may not reflect accurately the value of the underlying Allowances that backs such Carbon Securities (through the Backing note). Each Carbon Security of a Series has a carbon entitlement (the "Carbon Entitlement") expressed as an amount in European Union Emissions Allowance ("EUA") to such Series. This Carbon Entitlement starts at a predetermined initial Carbon Entitlement for the relevant Series and is reduced daily by the Total Expense Ratio (the "TER") (in EUA) for the Series.

Only Authorised Participants may apply for Carbon Securities directly at a subscription price expressed "in kind", and is equal to the Carbon Entitlement per Security on the relevant date. In order to receive Carbon Securities, Authorised Participants must deliver an amount of underlying Allowances to the Backing Issuer equal to (or greater) than the Carbon Entitlement of the Carbon Securities to be issued. Once receipt of the underlying Allowances is confirmed, the Backing Issuer will issue the Company with a Backing note (or increase the Carbon Entitlement of the Backing note if the note has already been issued) and the Company will issue the corresponding number of Carbon Securities.

On 5 October 2021, the Company issued Series 2 - Carbon Securities of SparkChange Physical Carbon EUA ETC Securities. The net proceeds from the issue of Carbon Securities were used to subscribe for the Backing note issued by the Backing Issuer under the Backing Issuer Programme which was in turn be backed by an amount of underlying EUAs which is held in the Backing Issuer's Secured Allowance Account.

As at 30 September 2022 and 31 March 2022, Series 1 - Metal ETC Securities are listed on the London Stock Exchange, Deutsche Borse (Xetra), Borsa Italiana and Euronext Paris.

As at 30 September 2022 and 31 March 2022, Series 2 - Carbon ETC Securities are listed on the London Stock Exchange, Xetra and Borsa Italiana.

Key performance indicators

During the financial period:

- the Company made a profit before tax of USD 487 (30 September 2021: USD 579);

Future developments

The Directors expect that the present level of activity will be sustained for the foreseeable future.

Going concern

The financial statements of the Company have been prepared on a going concern basis. The Company is able to meet all of its liabilities from its assets. The performance, marketability and risks of the Series are reviewed on a regular basis throughout the financial period. Therefore the Board of Directors of the Company believes that the Company will continue in operational existence for the foreseeable future and is financially sound. The Board of Directors is satisfied that, at the time of approving the financial statements, it is appropriate to adopt the going concern basis in preparing the financial statements of the Company.

Interim management report (continued)**Results and dividends for the financial period**

The results for the financial period are set out on page 8. No dividends are recommended by the Directors for the financial period under review.

Changes in Directors, secretary and registered office

There has been no other changes in Directors, registered office or secretary during the financial period.

Directors, secretary and their interests

None of the Directors who held office on 1 April 2022 and 30 September 2022 held any shares or debentures/ securities issued in the Company at that date, or during the financial period. Apex Corporate Services (Ireland) Limited, acting as Company Secretary, held shares in the Company as at 30 September 2022. Except for the Administration agreement entered into by the Company with Apex Corporate Services (Ireland) Limited, there were no contracts of any significance in relation to the business of the Company in which the Directors had any interest, as defined in Section 309 of the Companies Act 2014, at any time during the financial period. Two of the Directors are employees of Apex Corporate Services (Ireland) Limited, which is the Administrator of the Company. During the financial period, no fees were paid to the Directors for the services provided (30 September 2021: Nil). Further information is set out in Note 17 to the financial statements.

Shares and shareholders

The authorised share capital of the Company is EUR 25,000 divided into 25,000 ordinary shares of EUR 1 each, which is issued and partly paid. The shares are held by Apex Corporate Services (Ireland) Limited (the "Share Trustee") under the terms of a declaration of trust (the "Declaration of Trust") under which the Share Trustee hold the benefit of the shares on trust for charitable purposes. The Share Trustee has no beneficial interest in, and derives no benefit from, its holding of the shares. There are no other rights that pertain to the shares and the shareholders.

Principal risk and uncertainties*Russia and Ukraine conflict*

In February 2022, significant sanctions were put in place by a number of governments, (including the US, UK and EU) directly targeting the Russian Federation and Belarus, companies and financial institutions in and connected to both countries as well as a number of named individuals. The impact of these sanctions includes but is not limited to restricting their ability to make payments, enter into commercial agreements and import or export goods and services. The nature of the sanctions, as well as the list of directly sanctioned entities and persons is changing on an ongoing basis. In addition, many international companies have indicated their intention to withdraw from providing services in Russia and Belarus. This crisis is a significant geopolitical and economic event for the global economy and there is uncertainty over how the future development of this crisis will affect the Company.

The potential impacts from the emerging Ukraine and Russian conflict remain uncertain, including but not limited to, on global economic conditions, asset valuations, interest rate expectations and exchange rates. As of date, the Russia/Ukraine Crisis have had no impact on the financial position of the Company. As the ongoing conflict between Russia and the Ukraine continues to remain in force in 2022, the Company will continue to monitor the development of the conflict and assess the potential future impact on the Company.

Coronavirus disease (COVID-19)

The COVID-19 pandemic continues to persist and the ultimate duration of the pandemic and its short-term and long-term impact on the global economy is unknown. Since the start of 2022 they are now initiating steps towards a return to more normal functioning of society. The initial market turmoil and increased market volatility created by COVID-19 has settled. Mutations in the virus, the pace of vaccine distribution and negative global economic consequences arising from the pandemic, amongst other factors, could still have a future adverse impact on the global financial markets. The Board continues to monitor the potential impact of COVID-19 on the Company's financial results, however there has not been a deterioration of cashflows or performance of the Company's activities to date. The Board will continue to monitor the market for impact and viability on current and future developments.

United Kingdom exit from the European Union

Following the withdrawal and cessation of the United Kingdom (the "UK") of being a member of the European Union (the "EU"), the UK and the EU signed an EU-UK Trade and Cooperation Agreement ("UK/EU Trade Agreement"), which applies from 1 January 2021 and sets out the foundation of the economic and legal framework for trade between the UK and the EU. As the UK/EU Trade Agreement is a new legal framework, the implementation of the Agreement may result in uncertainty in its application and periods of volatility in both the UK and wider European markets throughout 2022 and beyond. The UK's exit from the EU is expected to result in additional trade costs and disruptions in this trading relationship. While the UK/EU Trade Agreement provides for the free trade of goods, it provides only general commitments on market access in services together with a "most favoured nation" provision which is subject to many exceptions. Furthermore, there is the possibility that either party may impose tariffs on trade in the future in the event that regulatory standards between the EU and the UK diverge.

Brexit is likely to lead to a long-term structural change in the UK economy, impacting areas such as trade, investment and immigration, as such there is a high degree of uncertainty surrounding such estimates and the economic outlook in general, not least due to the ongoing pandemic. Brexit has contributed to increase in cost over the financial period and is further experience after the financial period.

Interim management report (continued)**Principal risk and uncertainties (continued)***United Kingdom exit from the European Union (continued)*

There has been also an element of fear of customs delay and red tapping from the new rules with will further aggravate the situation in UK following the Covid-19 pandemic. As such, the Directors will continue to monitor the impact of Brexit on the Company's activities.

Volatility resulting from this uncertainty may mean that the returns of the Company's investments are adversely affected by market movements.

The Company is subject to other financial risks. These are outlined in Note 18 to the financial statements.

Accounting records

The Directors are responsible for keeping adequate accounting records that are sufficient to:

- correctly record and explain the transactions of the Company;
- enable, at any time, the assets, liabilities, financial position and profit or loss of the Company to be determined with reasonable accuracy; and
- enable the Directors to ensure that the financial statements comply with the Companies Act and enable those financial statements to be audited.

In this regard Apex Corporate Services (Ireland) Limited have been appointed for the purpose of maintaining adequate accounting records. Accordingly the accounting records are kept at 2nd Floor, Block 5, Irish Life Centre, Abbey Street Lower, Dublin 1, Ireland.

Political donations

The Electoral Act, 1997 (as amended by the Electoral Amendment Political Funding Act, 2012) requires companies to disclose all political donations over EUR 200 in aggregate made during a financial year. The Directors, on enquiry, have satisfied themselves that no such donations in excess of this amount have been made by the Company during the financial period to 30 September 2022 (31 March 2022: Nil).

Subsequent events

All subsequent events are disclosed in Note 20 to the financial statements.

Research and development costs

The Company did not incur any research and development costs during the financial period (31 March 2022: Nil).

Audit committee

In accordance with Section 1551(11)(c) of the Companies Act 2014, if the sole business of the Public Interest Entity (PIE) relates to the issuance of asset backed securities, the PIE is exempt from the requirement to establish an audit committee.

Given the contractual obligations of the Corporate Administrator and the limited recourse nature of the securities the Company may participate in, the Board of Directors has concluded that there is currently no need for the Company to have a separate audit committee in order for the Board of Directors to perform effective monitoring and oversight of the internal control and risk management systems of the Company in relation to the financial reporting process. Accordingly, the Company has availed itself of the exemption under Section 1551 of the Companies Act 2014.

Directors' compliance statement

The Directors confirm that:

- they acknowledge that they are responsible for securing the Company's compliance with its relevant obligations and have, to the best of their knowledge, complied with its relevant obligations as defined in section 225 of the Companies Act 2014;
- there is an adequate structure in place, that in the Directors' opinion, is designed to secure material compliance with the Company's relevant obligations; and
- relevant arrangements and structures have been put in place that provide a reasonable assurance of compliance in all material respects by the Company with its relevant obligations, which arrangements and structures may, if the Directors so decide, include reliance on the advice of one or more than one person employed by the Company or retained by it under a contract for services, being a person who appears to the Directors to have the requisite knowledge and experience to advise the Company on compliance with its relevant obligations.

On behalf of the Board of Directors

Niall Vaughan
Director

Ignatius Faissal
Director

Date: 09 December 2022

Directors' responsibilities statement

The Directors are responsible for preparing the management report and the condensed interim unaudited financial statements in accordance with applicable law and regulations.

The Directors confirm that, to the best of their knowledge that:

- the condensed financial statements, which have been prepared in accordance with applicable accounting standards, give a true and fair view of the assets, liabilities, financial position and results of the Company; and
- the Interim Management Report includes a fair review of:
 - important events that have occurred during the financial period;
 - the impact of those events on the condensed financial statements; and
 - a description of the principal risks and uncertainties for the remaining financial period.

The Directors further indicate that such interim financial statements for the financial period ended 30 September 2022 have not been audited.

On behalf of the Board

Notes to the financial statements

For the financial period ended 30 September 2022

1 General information

The Company is a public limited company incorporated in Ireland on 24 January 2020 under registered number 664945 and established as a Special Purposes Vehicle ("SPV") for the purpose of issuing Metal Securities and Carbon Securities under the Physical Metal Securities Programme and under the Carbon Securities Programme (the "Programme") of the Company respectively. The registered office of the Company is at 2nd Floor, Block 5, Irish Life Centre, Abbey Street Lower, Dublin 1, Ireland. The aggregate number of Metal Securities issued under the Programme will not at any time exceed 10,000,000,000, being the Programme maximum number of Metal Securities and the aggregate number of Carbon Securities issued under the Programme will not at any time exceed 10,000,000,000, this being the Programme maximum number of Carbon Securities.

The Company has no direct employees (31 March 2022: Nil).

As at 30 September 2022 and 31 March 2022, Series 1 - Metal ETC Securities are listed on the London Stock Exchange, Deutsche Borse (Xetra), Borsa Italiana and Euronext Paris.

As at 30 September 2022 and 31 March 2022, Series 2 - Carbon ETC Securities are listed on the London Stock Exchange, Xetra and Borsa Italiana.

2 Basis of preparation

The condensed unaudited financial statements for the financial period ended 30 September 2022 have been prepared in accordance with International Accounting Standard (IAS) 34 'Interim Financial Reporting'. The condensed unaudited interim financial statements should be read in conjunction with the annual financial statements for the financial year ended 31 March 2022 and the unaudited interim financial statements for the financial period ended 30 September 2021.

3 Significant accounting policies

The same accounting policies, presentation and methods of computation are followed in these condensed interim financial statements as were applied in the preparation of the Company's financial statements for the financial year ended 31 March 2022.

| | | | (1,344,697) | | | (408,645) |

Each Series pays an “all in one” operational fee to the Arranger, which accrues at 0.22% (Gold) and 0.89% (Carbon) per annum equal to the TER. The Arranger and Adviser uses this fee to pay the agreed fees of other service providers of the Company. The TER is applied to the Metal/ Carbon Entitlement on a daily basis to determine a daily deduction of an amount of metal/ carbon from the Metal/ Carbon Entitlement. Fees and expenses payable on a monthly basis by the Company to the Arranger will be paid out of the Metal Securities/ Carbon Securities by way of the sale of metal/ carbon. The amount of metal/ carbon to be sold is a predetermined amount based on the Metal/ Carbon Entitlements of the Metal Securities/ Carbon Securities.

During the period ended 30 September 2022, there was no remuneration earned (30 September 2021: Nil) by the Directors of the Company in respect of services provided to the Company as they are employees of the Arranger or the Administrator.

The Company had no employees during the financial period (30 September 2021: Nil).

7 Other income

| | Financial period ended 30-Sep-22 USD | Financial period ended 30-Sep-21 USD |

The financial assets are secured in favour of The Law Debenture Trust Corporation p.l.c. (the "Security Trustee") for the benefit of itself and the Securityholders. The non-cash transactions relate to physical delivery of Precious metals/ Backing note against delivery of Metal Securities/ Carbon Securities.

The Physical metals are held as collateral for Metal Securities issued and the loan payable by the Company. The Backing note is held as collateral for Carbon Securities issued by the Company. The allowances are in turn held as collateral for the Backing note.

The carrying value of the assets of the Company represents their maximum exposure to the credit risk. The credit risk is eventually transferred to the Securityholders. Refer to Note 18 for credit risk and currency risk disclosures relating to the holders of the Metal Securities/ Carbon Securities.

The Company holds Physical metals in a secured allocated account in the form of gold bars to secure the Metal Entitlement for each Note Issued. As the unit of measurement of a gold bar is fixed, there can be differences to the requirement under the Metal Entitlement. To fund the purchase of this difference, the Company has entered into a loan agreement with The Royal Mint Limited. This loan is payable in the form of Physical metal, and at 30 September 2022 is priced at the current close bid price at the end of the day using the London Bullion Market Association (LBMA) gold price. In the event of wind-up of the Company, the repayment of this loan will be made prior to the repayment of the holders of Metal Securities. A fee is charged by The Royal Mint Limited for this agreement, which is paid by the Arranger under the terms of the TER.

Notes to the financial statements**For the financial period ended 30 September 2022****16 Ownership of Company**

The sole shareholder of the Company is Apex Corporate Services (Ireland) Limited holding 25,000 shares of the Company. All shares are held in trust for charity under the terms of declaration of trust.

The Share Trustee has appointed the Directors to run the day to day activities of the Company. The Directors have considered the issue as to who is the ultimate controlling party. It has been determined that the control of the day to day activities of the Company rests with the Directors.

17 Related party transactions*Transactions with Administrator*

For the period ended 30 September 2022, Apex Corporate Services (Ireland) Limited provides administration services to the Company amounting to EUR 15,000 (31 March 2022: EUR 28,500) which is settled by the Arranger of the Company. Two of the Directors are employees of Apex Corporate Services (Ireland) Limited, which is the Administrator of the Company. Michael Carroll and Niall Vaughan, as Directors of the Company, have an interest in this fee in their capacity as Directors of Apex Corporate Services (Ireland) Limited.

Transactions with Arranger

HANetf Limited is the Arranger of the Company. The Arranger paid the Company USD 487 (31 March 2022: USD 1,110) during the period, which has been recognised in the financial statements as the Corporate Benefit. All of this was receivable as at 30 September 2022. During the period ended 30 September 2022, the Arranger earned USD 1,328,806 (31 March 2022: USD 1,421,094) under the TER. USD 116,040 (31 March 2022: USD 634,485) was payable as at 30 September 2022. In return for this, the Arranger pays all operating expenses as described in Note 6 to the financial statements.

Transactions with The Royal Mint Limited

The Royal Mint Limited is the custodian of the Physical metals held in the Secured Accounts in relation to The Royal Mint Physical Gold ETC Securities. The fair value of Physical metals held with The Royal Mint Limited are disclosed in Note 9 to the financial statements and the loan repayable to The Royal Mint Limited is disclosed in Note 13 to the financial statements. The Royal Mint Limited also acts as the promoter of, and an authorised participant to, the Metal Securities for the Company. Payments to The Royal Mint Limited, for the provision of these services to the Company, are paid for by Arranger in return for the “all in one” operational fee described in Note 6 to the financial statements. In The Royal Mint Limited's role as Authorised Participant to the Company, it partook in USD Nil (31 March 2022: USD Nil) of issuances of Metal Securities, and USD Nil (31 March 2022: USD 44,615,212) of redemptions of Metal Securities during the financial period.

Transactions with Spark Change Jersey Issuer Limited

The Backing Issuer, Spark Change Jersey Issuer Limited, has been incorporated for an indefinite period. The Backing Issuer is a special purpose company which has been established for the sole purpose of issuing any Backing Note pursuant to the Backing Issuer Programme and entering into agreements relating to the Backing Note and the Underlying Allowances. The fair value of the Backing Note is disclosed in Note 9 to the financial statements. Payments to Spark Change Jersey Issuer Limited, for the provision of the services to the Company, are paid for by Arranger in return for the “all in one” operational fee described in Note 6 to the financial statements.

The Directors are of the view that there are no other related party transactions requiring disclosures. The Directors received no remuneration from the Company in the financial period ended 30 September 2022 (31 March 2022: Nil).

18 Financial risk management***Risk management framework***

The Company has exposure to the following risks from its use of financial instruments:

- (a) Operational risk;
- (b) Credit risk;
- (c) Market risk; and
- (d) Liquidity risk.

This note presents information about the Company's exposure to each of the above risks, the Company's objectives, policies and processes for measuring and managing risk and the Company's management of capital.

Notes to the financial statements

For the financial period ended 30 September 2022

18 Financial risk management (continued)

(a) Operational risk

Operational risk is the risk of direct or indirect loss arising from a wide variety of causes associated with the Company's processes, personnel and infrastructure, and from external factors other than credit, market and liquidity risks such as those arising from legal and regulatory requirements and generally accepted standards of corporate behaviour.

Operational risk arises from all of the Company's operations. The Company was incorporated with the purpose of engaging in those activities outlined in the preceding paragraphs. All management and administration functions were outsourced to Apex Corporate Services (Ireland) Limited.

(b) Credit risk

Credit/Counterparty risk refers to the risk that the Custodian will default on its contractual obligations resulting in the Company being unable to make payment of amounts due to the Securityholders. Accordingly, the Company and the Securityholders are exposed to the creditworthiness of the Custodian/ Backing Issuer.

Physical Metal Securities Programme

In the event of an insolvency of the Custodian, the allocated Metal held by the Custodian in the relevant Secured Allocated Account for the benefit of the Company should be protected as such Metal should be identified separately from the assets of the Custodian and its other clients. However, there can be no assurance that the Company will be able to obtain delivery of and/or realise the Metal (whether in full or in part) held in the Secured Allocated Account(s) with the Custodian on a timely basis. In addition, the Company could incur expenses in connection with having to assert its claims against the relevant Metal, even where it can ascertain that it has title to such Metal. Securityholders will be at risk if the Custodian does not, in practice, maintain such a segregation.

Further, the Company's limited rights in this regard mean that there is a risk that the Company would have limited recourse to the Custodian in circumstances where the Metal is lost or stolen in custody and/or the records of the Custodian are inconsistent, which could result in the Company not being able to satisfy its obligations in respect of the Metal Securities resulting in a loss to Securityholders.

Accordingly, if any Metal attributable to any Metal Securities is lost, damaged, stolen or destroyed under circumstances rendering a party liable to the Company and/or the Trustee and/or the Security Trustee, the Custodian's insurance coverage may not be sufficient to satisfy the claim and the Company may not be able to satisfy its obligations in respect of the Metal Securities resulting in a loss to Securityholders.

HSBC has been engaged as sub-custodian.

As at 30 September 2022, the Custodian, The Royal Mint Limited, is not rated (31 March 2022: not rated).

Physical Carbon Securities Programme

The Programme and the Backing Issuer Programme are designed to ensure that credit risks posed by the Backing Issuer are minimised. The key aspect of this is to ensure that the only permitted activity of the Backing Issuer under the Backing note Terms and Conditions is to (a) issue the Backing note, (b) hold property securing the Backing note (including the Underlying Allowances and activities incidental to them), (c) ensure that the Company is the only holder of Backing note, and (d) to ensure that the Carbon Entitlement of the Backing note always matches the Carbon Entitlement of all Carbon Securities then outstanding.

The Backing Issuer is a special purpose company but it is not a segregated cell company under which the company is divided into separate cells which each have separate assets and liabilities. Accordingly, the Backing Issuer uses contractual limited recourse clauses and non-petition limitations to prevent assets held in relation to any particular class of Backing note being made available to satisfy the claims of holders of a different class of Backing note. However, it is possible there may be situations where the Backing Issuer might become subject to claims which are not themselves subject to limited recourse. If this were to happen it could increase the likelihood of the Backing Issuer entering insolvency proceedings potentially leading to the early redemption of the Backing note and in turn the Carbon Securities.

As at 30 September 2022, the Backing Issuer, Spark Change Jersey Issuer Limited, has not been assigned a credit rating and it is not intended that any Backing Note will be assigned credit ratings (31 March 2022: not rated).

Cash and cash equivalents

As at 30 September 2022, the Company held cash and cash equivalents with European Depositary Bank SA. and The Bank of New York Mellon amounting to USD 42,313 (31 March 2022: USD 35,221) which represents its maximum credit exposure on these assets.

Notes to the financial statements

For the financial period ended 30 September 2022

18 Financial risk management (continued)

(c) Market risk

Market risk is the risk that changes in market prices of the Physical metals/ Backing note will affect the Company's income or the value of its holdings of financial instruments. The Securityholders are exposed to the market risk of the assets portfolio. Market risk embodies the potential for both gains and losses and price risk.

(i) Interest rate risk

Interest rate risk is the risk that the fair value of the ETC Securities will fluctuate because of changes in market interest rates. Changes in exchange rates and interest rates may have a positive or negative impact on the price, demand, production costs, direct investment costs of Physical metals/ Backing note and the returns from investments in Physical metals/ Backing note are therefore influenced by and may be correlated to these factors. The Company has deemed the effect of these valuation fluctuations insignificant. As a result, the Company is not subject to significant interest rate risk.

(ii) Currency risk

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates.

Currency risk is the risk which arises due to the assets and liabilities of the Company held in foreign currencies, which will be affected by fluctuations in foreign exchange rates.

The Company issued Carbon ETC Securities in EUR and invested in Backing note denominated in EUR. The Company mitigates its exposure to currency mainly by matching the foreign currency assets with foreign currency liabilities. The Company is exposed to movement in exchange rates between the USD, its functional currency, and other foreign currency, namely EUR.

(iii) Price risk

Price risk is the risk that the fair value of Physical metals or Metal Securities will fluctuate because of changes in market prices whether those changes are caused by factors specific to the metals, the individual Metal Securities or its issuer, or factors affecting similar assets or Metal Securities traded in the market. Local, regional or global events such as war, acts of terrorism, the spread of infectious illness or other public health issue, recessions, or other events could have a significant impact on the Company and market prices of its investments.

An outbreak of an infectious respiratory illness caused by a novel coronavirus known as COVID-19 has developed into a global pandemic. This coronavirus has resulted in travel restrictions, closed international borders, enhanced health screenings at ports of entry and elsewhere, disruption of and delays in healthcare service preparation and delivery, prolonged quarantines, cancellations, supply chain disruptions, and lower consumer demand, as well as general concern and uncertainty.

The impact of COVID-19 has adversely affected the economies of many nations across the entire global economy, individual issuers and capital markets, and could continue to extents that cannot necessarily be foreseen. In addition, the impact of infectious illnesses in emerging market countries may be greater due to generally less established healthcare systems. Public health crises caused by the COVID-19 outbreak may exacerbate other pre-existing political, social and economic risks in certain countries or globally. The duration of the COVID-19 outbreak and its effects cannot be determined with certainty.

Physical Metal Securities Programme

Securityholders are exposed to market risk arising from market price of the Metal Securities and Physical metals arising from its holding of precious metals. The movements in the prices of these holdings result in movements in the performance of the Metal Securities. The value of Metal Securities will be affected by movements in the market price of the metal to which a particular Series is linked.

The market price of each Series of ETC Securities will be affected by a number of factors, including, but not limited to:

- (i) the value and volatility of the Physical metals referenced by the relevant Series of ETC Securities;
- (ii) the value and volatility of metals in general;
- (iii) market perception, interest rates, yields and foreign exchange rates;
- (iv) the creditworthiness of, among others, the Custodian, any applicable Sub-Custodian, the Administrator, the Registrar, and the Authorised Participants; and
- (v) liquidity in the ETC Securities on the secondary market.

Notes to the financial statements

For the financial period ended 30 September 2022

18 Financial risk management (continued)

(c) Market risk (continued)

(iii) Price risk (continued)

The Company does not consider market risk to be a significant risk to the Company as any fluctuation in the value of the Physical metals will ultimately be borne by the Securityholders of the relevant Series.

Therefore, assuming all other variables remain constant any increase/(decrease) in the market price of the Physical metals would have an equal increase/(decrease) on the value of the Metal Securities issued in the relevant Series. As at 30 September 2022, a hypothetical 1% increase in the market price of the Physical metals would have an increase of USD 6,058,448 (31 March 2022: of USD 5,125,144) on the value of the Metal Securities issued. A hypothetical 1% decrease in the market price of the Physical metals would have an equal but opposite impact on the value of the ETC Securities issued in the relevant Series. The Series offer investors instant, easily-accessible and flexible exposure to the movement in spot prices of the relevant Physical metal. Each Series' performance is correlated to the performance of the Physical metal invested into. The correlation of the Series' performance against this is a metric monitored by key management personnel.

Physical Carbon Securities Programme

The Carbon Securities are linked (through the Backing Note) to emissions Allowances. The value of a Class of Carbon Securities will be affected by movements in the price of the underlying type of Allowance. The value of Carbon Securities will be affected by movements in the market price of the Allowances to which a particular Series is linked.

The price of Allowances which back the Carbon Securities may fluctuate widely and is affected by numerous factors, including, but not limited to:

- (i) global or regional political, economic, environmental or financial events and situations (including pandemics);
- (ii) the activities and emissions of energy-intensive sectors such as those that are subject to the respective compliance schemes (including manufacturing facilities, oil refineries, power stations and, aviation);
- (iii) the rate of progress in the innovation, introduction and expansion of technologies and techniques in the reduction of emissions of greenhouse gases;
- (iv) governmental goals or policies with respect to climate change and the imposition of environmental plans or climate goals such as achieving carbon neutrality; and
- (v) the cost and implications of non-compliance with the relevant compliance schemes (including both monetary and non-monetary penalties on operators subject to such compliance scheme for failure to surrender sufficient Allowances).

The Company does not consider market risk to be a significant risk to the Company as any fluctuation in the value of the Allowances will affect the value of the Backing note which in turn will ultimately be borne by the Securityholders of the relevant Series.

Therefore, assuming all other variables remain constant any increase/(decrease) in the market price of the Backing note would have an equal increase/(decrease) on the value of the Carbon Securities issued in the relevant Series. As at 31 March 2022, a hypothetical 1% increase in the market price of the Backing note would have an increase of USD 650,989 (31 March 2022: USD 2,210,115) on the value of the Carbon Securities issued. A hypothetical 1% decrease in the market price of the Backing note would have an equal but opposite impact on the value of the ETC Securities issued in the relevant Series. The Series offer investors instant, easily-accessible and flexible exposure to the movement in spot prices of the relevant Backing note. Each Series' performance is correlated to the performance of the Backing note invested into, and in turn related to the value of the underlying Allowances. The correlation of the Series' performance against this is a metric monitored by key management personnel.

(d) Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset and thus, the Company will not be able to meet its financial obligations as they fall due.

Liquidity risk in a limited recourse vehicle is managed, where possible, by having the same maturity profile of financial liabilities and related financial assets.

The Company's obligation to the Securityholders is limited to the net proceeds upon realisation of the asset of the Series and should the net proceeds be insufficient to make all payments due in respect of a particular Series of Securities, the other assets of the Company are not contractually required to be made available to meet payment and the deficit is instead borne by the Securityholders according to the priority of payments mentioned in the agreements.

Notes to the financial statements

For the financial period ended 30 September 2022

18 Financial risk management (continued)

(d) Liquidity risk (continued)

The Company does not have a significant exposure to liquidity risk due to the buy-back of Metal Securities/ Carbon Securities being settled in transfer of Physical metal/ underlying Allowances except in certain limited circumstances. The subscriptions and redemptions of the Physical metals/ underlying Allowances that backs such Metal Securities/ Carbon Securities (through the Backing note) are primarily non-cash transactions of the Company as they are carried out in-specie, excluding the disposal of the Physical metals/ Backing note in relation to the payment of the total expense ratio. Metal Securities/ Carbon Securities can be issued and redeemed daily, therefore this is the earliest maturity date for the purpose of the maturity analysis.

The ability of the Company to generate enough arranger fees for the Arranger to fund the Company's operational expenses on a long term basis is impacted by the value of the Company's investment in Physical metals/ Backing note which is in turn principally impacted by investor appetite for the Metal Securities/ Carbon Securities and movements in the market value of the Physical metals/ Backing note.

Contractual undiscounted cashflows

At any time, the price at which Metal Securities/ Carbon Securities trade on any stock exchange may not reflect accurately the value of the Physical metal/ underlying Allowances that backs such Metal Securities/ Carbon Securities. Therefore, the subscription and redemption procedures for Metal Securities/ Carbon Securities are intended to minimise this potential difference. However, the market price of Metal Securities/ Carbon Securities will be a function of supply and demand amongst investors wishing to buy and sell Metal Securities/ Carbon Securities.

Investors are dependent on there being Authorised Participants making a market in Metal Securities/ Carbon Securities to minimise the difference between the secondary market price and the value of the Metal Securities/ Carbon Securities, and to provide investors with liquidity. There can be no assurance as to the depth of the secondary market (if any) in Metal Securities/ Carbon Securities, which could affect their liquidity and market price.

An Authorised Participant is under no obligation to make a market in Metal Securities/ Carbon Securities and it is impossible to guarantee that one or more Authorised Participants would purchase Metal Securities/ Carbon Securities on a given day and/or at a particular price, which may result in a lack of liquidity at any given time. If there is limited liquidity, the price at which a Securityholder may be able to sell its Metal Securities/ Carbon Securities at any time may be substantially less than the price paid by that Securityholder for the same Metal Securities/ Carbon Securities.

The financial liabilities designated at fair value through profit or loss are carried at fair value through profit or loss. The ultimate amount repaid to the Securityholders will depend on the proceeds from the Physical metals/ Backing note.

(e) Fair values

The fair value of a financial asset and liability is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The carrying amounts of all the Company's financial assets and financial liabilities at the reporting date approximated their fair values.

The Company's financial assets and financial liabilities carried at fair value are analysed below by valuation method. The different levels have been defined as follows:

- Level 1: Quoted market price in an active market for an identical instrument.
- Level 2: Valuation techniques based on observable inputs. This category includes instruments valued using: quoted market prices in active markets for similar instruments; quoted prices for similar instruments in markets that are considered less than active; or other valuation techniques where all significant inputs are directly or indirectly observable from market data.
- Level 3: Valuation techniques using significant unobservable inputs. This category includes all instruments where the valuation technique includes inputs not based on observable data and the unobservable inputs could have a significant effect on the instrument's valuation. This category includes instruments that are valued based on quoted prices for similar instruments where significant unobservable adjustments or assumptions are required to reflect differences between the instruments.

Although the directors believe that their estimates of fair value are appropriate, the use of different methodologies or assumptions could lead to different measurements of fair value as fair value estimates are made at a specific point in time, based on market conditions and information about the financial instrument. These estimates are subjective in nature and involve uncertainties and matters of significant judgement e.g. interest rates, volatility, credit spreads, probability of defaults, estimates cashflows etc and therefore, cannot be determined with precision.

Notes to the financial statements**For the financial period ended 30 September 2022****18 Financial risk management (continued)****(e) Fair values (continued)**

For recognised fair values measured using significant unobservable inputs, changing one or more assumptions used to reasonably possible alternative assumptions would not have any effect on the profit or loss or on equity as any change in fair value of the Physical metals/ Backing note will be borne by the Securityholders due to the limited recourse nature of the Metal Securities/ Carbon Securities issued by the Company.

The valuation inputs for the physical metals are based on quoted market prices in active markets (as published by the London Bullion Market Association ("LBMA")) and therefore, the Physical metals are classified as Level 1 in the fair value hierarchy.

The valuation inputs for the Backing note (underlying Allowances backing the Carbon Securities) are based on market prices as calculated by the administrator to the Backing note which in turn is calculated using observable inputs and therefore, the Backing note is classified as Level 2 in the fair value hierarchy.

Metal Securities/ Carbon Securities issued by the Company are classified within level 2. The fair value of the Metal Securities/ Carbon Securities issued is determined by reference to the exchange quoted value of the underlying Physical metal/ Backing note and adjusted for the Total Expense Ratio payable to the Arranger. This valuation technique represents the price of the Metal Securities/ Carbon Securities at which Authorised Participants subscribe and request buy-backs of Metal Securities/ Carbon Securities directly with the Company. There are no significant unobservable inputs to this valuation technique.

19 Capital management

The Company view the Called up share capital as its capital. The primary objective of the Company's capital management is to maintain shareholder value. The Company manages its capital structure and makes adjustments in light of changes in economic conditions. In order to achieve this overall objective, the Company's capital management, amongst other things, aims to ensure that it meets financial covenants attached to debt securities (i.e. the Metal Securities). Share capital of EUR 25,000 was issued in line with Irish Company Law and is not used for financing the investment activities of the Company. The Company is not subject to any other externally imposed capital requirements.

20 Subsequent events

There are no significant events after financial period end up to the date of signing this report that require disclosure and/or adjustment to the financial statement.

21 Commitments and Contingencies

The Company had no commitments or contingencies as at 30 September 2022 (31 March 2022: Nil).

22 Comparatives

In line with IAS 34, the comparative information for the interim Statement of comprehensive income, interim Statement of changes in equity and interim Statement of cash flows are for the period ended 30 September 2021 and the comparative information for the Statement of financial position is as at 31 March 2022.

23 Approval of financial statements

The Board of Directors approved these financial statements on **09 December**2022.
