Brook Absolute Return (Irl) Fund

Investment Manager's report
For the period ended 30 June 2022

Share class	NAV Dec-21	NAV Jun-22	% Returns (from Dec-21/Inception)	Note
GBP I	143.64	135.79	-5.46	
EUR I	140.86	132.40	-6.00	
EUR R	-	90.12	-9.88	Opened 18/5/22
GBP R	106.52	100.66	-5.50	
USD R	-	95.87	-4.13	Opened 20/6/22
USD I	148.25	140.58	-5.17	

Summary

From 1 January 2022 to 30 June 2022 ("the period"), the Brook Absolute Return (IRL) Fund returned -5.46% (based on the principal share class - £ I class) against the MSCI Daily TR Net World return of -11.33%.

Positive returns over the period came primarily from the Energy (+5.94%) and Consumer Staples (+0.96%) sectors, as well as Index Hedges (+5.37%). From a country perspective the US (+17.88%) and Sweden (+2.59%) were the best performers. These were offset by negative returns from the Consumer Discretionary (-5.07%) and Materials (-4.59%) sectors, with the UK (-17.75%) and Russia (-14.81%) being the largest detractors by country.

Positive performance came from holdings including short ARK Innovation ETF (+6.95%), short Nasdaq 100 E-Mini (+3.54%) and short EQT (+2.51%) whereas long Sberbank (-5.71%), long Oxford Nanopore (-3.37%) and long Inter Rao (-3.25%) disappointed.

Odey Investments plc

1. General information

Odey Investments plc (the "Company") is an open ended umbrella investment company with variable capital and with segregated liability between sub-funds with limited liability, incorporated in Ireland on 22 July 2011 under the Companies Act 2014 and the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (the "UCITS Regulations") and is authorised by the Central Bank of Ireland as a UCITS.

The Company has obtained approval from the Central Bank of Ireland for the establishment of the sub-funds and active share classes as listed in the table below.

Sub-fund	Share Classes	Sub-fund launch date
Odey Swan Fund	AUD \$ I , Euro I , Euro I R , Euro M (terminated 10/03/2021), Euro R , GBP I , GBP M , GBP R , USD I , USD M , USD R	8 March 2013
Brook European Focus Absolute Return Fund	Euro I, GBP I , GBP M , USD M	5 January 2016
Brook Absolute Return (Irl) Fund	EUR I, EUR R, GBP I , GBP R , USD I , USD R	12 December 2018
Odey Special Situations Fund	CHF I , CHF R , EUR I , EUR R , GBP I , GBP M , GBP R , USD I , USD R	18 October 2019

Brook Developed Markets Fund	EUR I, EUR R, GBP I, GBP LI, GBP M, GBP R, USD I, USD R	31 January 2022
Odey Opportunity Fund	CHF I, CHF R, EUR I, EUR RP, EUR R, GBP F, GBP I, GBP IP, GBP RP, GBP R, USD I, USD RP, USD R	31 January 2022
Brook European Focus Fund	Euro A, Euro AC, Euro B, Euro I, Euro R, GBP A, GBP I, GBP M, GBP R, USD I, USD R	31 January 2022

Odey Odyssey Fund was fully redeemed 2 November 2021. Odey Pan European Fund, Brook Developed Markets Fund, Odey Opportunity Fund & Brook European Focus Fund joined the umbrella via merger 31st January 2022.

2. Significant accounting policies

(a) Basis of preparation

The financial statements of the Company have been prepared in accordance with International Financial Reporting Standards ("IFRS") as adopted by the European Union and Irish statute comprising the Companies Act 2014 and the UCITS Regulations.

The preparation of financial statements in accordance with IFRS as adopted by the European Union requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of income and expenses during the period. Actual results could differ from those estimates and these differences could be material.

The financial statements of the Company are prepared on a going concern basis and under the historical cost convention, except for the valuation of financial assets and liabilities at fair value and with the exception of Odey Odyssey Fund which has terminated.

Foreign currency

(i) Functional and presentation currency

The functional currency of the Odey Odyssey Fund, Odey Special Situations Fund, Brook Global Emerging Markets Fund and Brook Developed Markets Fund is U.S. Dollar ("USD"), the functional currency of Odey Swan Fund, Brook European Focus Absolute Return Fund, Brook European Focus Fund and Odey Pan European Fund is Euro ("EUR") and the functional currency of Brook Absolute Return (Irl) Fund and Odey Opportunity Fund is Pound Sterling ("GBP").

The Board of Directors considers the EUR as the currency that most faithfully represents the economic effects of the underlying transactions, events and conditions and therefore, the Company has adopted the EUR as its presentation currency.

(ii) Foreign currency translation

Assets and liabilities denominated in currencies other than the functional currencies of the sub-funds are translated into the functional currency using exchange rates prevailing at the reporting date. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at the reporting date exchange rates of assets and liabilities, denominated in foreign currencies, are recognised in the statement of comprehensive income in the period in which they arise.

Notes to the financial statements (continued)

For the period ended 30 June 2022

Odey Investments plc

2. Significant accounting policies (continued)

(a) Basis of preparation (continued)

Foreign currency (continued)

(ii) Foreign currency translation (continued)

For all sub-funds of the Company the cost of investment of securities expressed in currencies other than the functional currency are translated into the functional currency at the exchange rate prevailing at the purchase date. Transactions in foreign currencies are translated into the functional currency at the exchange rate at the date of the transaction. The portion of realised gains and losses on sale of investments that result from changes in the foreign exchange rates between the date of purchases and sales are included in net gain/(loss) on investment income in the statement of comprehensive income.

(iii) Notional foreign exchange adjustment

The foreign exchange adjustment arises due to the use of exchange rates at the reporting date to translate sub-funds that have a functional currency that differs to the presentation currency of the Company. The foreign exchange adjustment occurs upon translation of a sub-fund into the presentation currency for the purposes of producing a combined company total. The translation of the sub-funds functional currencies into the presentation currency of the Company is recognised separately through the statement of changes in net assets attributable to holders of redeemable participating shares and the statement of cash flows. For the reporting date 30 June 2022, the translation adjustment was a notional gain of €14,866,372 (30 June 2021: notional gain of €6,948,759); which has no impact on the net asset value ("NAV") of each individual sub-fund.

(b) Financial assets and financial liabilities at fair value through profit or loss

(i) Classification

The Company classifies its financial assets and financial liabilities in accordance with IFRS 9 Financial Instruments.

(ii) Recognition and initial measurement

Purchases and sales of financial instruments are recognised the day the Company commits to purchase or sell the asset. Regular way purchases and sales of financial instruments are recognised using trade date accounting. Regular way purchases, or sales, are purchases and sales of financial assets that require delivery of the asset within a time frame generally established by regulation or convention in the market-place.

At initial recognition financial assets and liabilities categorised at fair value through profit or loss are recognised at fair value, with identifiable transaction costs for such instruments being recognised directly in the statement of comprehensive income.

(iii) Subsequent measurement

Subsequent to initial recognition, all instruments classified at fair value through profit or loss, are measured at fair value with changes in their fair value recognised in the statement of comprehensive income.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. When available, the Company measures the fair value of an instrument using the quoted price in an active market for that instrument. A market is regarded as active if transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis. The Company measures instruments quoted in an active market at a last traded price, because this price provides a reasonable approximation of the exit price.

Assets listed and regularly traded on a Recognised Exchange and for which market quotations are readily available or traded on over-the-counter (OTC) markets shall be valued at the closing price on the principal exchange in the market for such investment as at close of business in the relevant market on the relevant Valuation Day provided that the value of any investment listed on a Recognised Exchange but acquired or traded at a premium or at a discount outside or off the relevant stock exchange or on an OTC market may be valued taking into account the level of premium or discount as at the date of valuation of the investment.

If there is no quoted price on an active market, or if for specific assets the latest available prices do not in the opinion of the Directors or a competent person selected by the Directors and approved for such purpose by the Depositary, in consultation with the Investment Manager, reflect their fair value, then the value shall be calculated with care and in good faith by the Directors or a competent person selected by the Directors and approved for such purpose by the Depositary, in consultation with the Investment Manager, with a view to establishing the probable realisation value for such assets as at close of business in the relevant market on the relevant Valuation Day. The competent person may be Odey Asset Management LLP (the "Investment Manager"). There were 1 (31 December 2021: 3) financial assets held by the Odey Swan Fund valued using this method at the reporting date with a value of EUR 23,905 (0.02% of the NAV of the sub-fund) (31 December 2021: financial assets of EUR 24,511 (0.03% of the NAV of the sub-fund)). There were 1 (31 December 2021: 3) financial assets held by the Brook Absolute Return (Irl) Fund valued using this method at the reporting date with a value of GBP 1,442,957 (1.22% of the NAV of the sub-fund) (31 December 2021: financial assets of GBP 3,522,955 (2.43% of the NAV of the sub-fund)).

Pursuant to the above paragraphs, changes to an instrument's fair value are recognised in the statement of comprehensive income in the following manner:

- Investments in long listed equities and debt securities are valued at their last trade price;
- units or shares in collective investment schemes will be valued at the latest available net asset value of the relevant collective investment scheme as obtained from the underlying fund administrator;
- Investments in listed futures are valued at the prices reported by the relevant exchange.
- Investments in forward currency contracts are valued at the close-of-business rates as reported by the pricing vendors utilised by the administrator to the sub-fund. The unrealised gain or loss on open forward currency contracts is calculated as the difference between the contract rate and this forward price.

Notes to the financial statements (continued)

For the period ended 30 June 2022

Odey Investments plc

2. Significant accounting policies (continued)

(b) Financial assets and financial liabilities at fair value through profit or loss (continued)

(iii) Derecognition

The Company derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire. It also derecognises a financial asset when it transfers the financial assets and the transfer qualifies for derecognition. The Company derecognises a financial liability when the obligation specified in the contract is discharged, cancelled or expires. Realised gains and losses on disposals of financial instruments are calculated using the average cost method.

(iv) Offsetting

Financial assets and financial liabilities are offset and the net amount reported in the Statement of Financial Position where there is a legally enforceable right to set-off the recognised amounts and there is an intention to settle on a net basis, or realised the assets and settle the liability simultaneously.

(c) Dividend and interest income

Interest arising on the investment recognised as income of the Company on an ex-dividend or interest date, and for deposits of the Company, on an accrual basis and are shown gross of non-recoverable withholding tax.

Dividend and interest arising on the investments are recognised as income of the Company on an ex-dividend or interest date, and for deposits of the Company, on an accrual basis and are shown gross of non-recoverable withholding tax.

Interest income and interest expense are recognised on an accruals basis in line with the contractual terms. Interest is accrued on a daily basis. The effective interest method is applied to all sub-funds which hold or have held interest bearing bonds during the period.

The effective interest method is a method of calculating the amortised cost of a financial asset or financial liability and of allocating the interest income or interest expense over the relevant financial period. The effective interest rate is the rate that exactly discounts estimated future cash payments or receipts throughout the expected life of financial statements, or a shorter period where appropriate, to the net carrying amount of the financial asset or liability. When calculating the effective interest rate, the Company estimates cash flows considering all contractual terms of the financial instruments but does not consider future credit losses. The calculation includes transaction costs and all other premiums or discounts that are an integral part of the effective interest rate.

(d) Net gain/(loss) from financial instruments at fair value through profit or loss and foreign exchange

Net gain/(loss) from financial instruments at fair value through profit or loss and foreign exchange includes all realised and unrealised fair value changes and foreign exchange differences.

(e) Cash and cash equivalents

Cash and cash equivalents comprise of deposits with banks and bank overdrafts held at the Depositary, Morgan Stanley & Co. International Plc, Bank of America, BNY Mellon Trust Company (Ireland) Limited and Goldman Sachs International. Collateral is held at the Depositary, JP Morgan, Goldman Sachs International, BNY Mellon Trust Company (Ireland) and RBC Investor Services Bank SA. See note 4 for further details.

(f) Expenses

All expenses are recognised in the statement of comprehensive income on an accrual basis.

(g) Redeemable participating shares

Redeemable participating shares are redeemable at the shareholder's option and are classified as financial liabilities. Any distribution on these shares is recognised in the statement of comprehensive income as finance costs.

(h) Dividend income and withholding tax

Dividends arising on the investments are recognised as income of the Company on an ex-dividend date as is recorded gross of withholding taxes in the statement of comprehensive income. The Company currently incurs withholding taxes imposed by certain countries on dividend income. Withholding taxes are shown as a separate item in the statement of comprehensive income.

(i) Transaction costs

Transaction costs are incremental costs, which are separately identifiable and directly attributable to the acquisition, issue or disposal of a financial asset or financial liability. Transaction costs are shown as a separate item in the statement of comprehensive income.

The following costs are not included in the transaction costs disclosure as they are not separately identifiable:

- transaction related taxes and other market charges;
- transaction costs related to derivatives.

(j) Net Asset Value

The Net Asset Value of a Sub-Fund and the Net Asset Value per share of each share class in that Sub-Fund are calculated as at each dealing day by ascertaining the value of the assets of the Sub-fund and deducting from such value the liabilities of the Sub-Fund as at each close of business on the relevant Valuation day. The Net Asset Value of the Company and each Sub-Fund or of each class of shares, as the case may be, is calculated by the Administrator.

Notes to the financial statements (continued)

For the period ended 30 June 2022

Odey Investments plc

2. Significant accounting policies (continued)

(k) Share Capital

The Company's Management shares are not classified as equity on accordance with the Company's Articles of Association. These shares do not participate in the profits of the Company.

(l) Fee cap reimbursement

Odey Asset Management LLP, on a voluntary and temporary basis, undertakes to ensure the ongoing charges of the Odey Sub-Funds (excluding investment management fee, performance fee and RPA fees) are no more than 50 basis points of the NAV. At 30 June 2022, there was no expense cap payable. At 31 December 2021 there was no expense cap payable. In 2021 there was a reversal of previously settled expense cap payments as the period end basis point calculation was lower than the periodic annualised figures calculated during the period.

(m) Dividend income and withholding tax

Withholding tax is recorded on an accrual basis whereas withholding tax reclaim is recorded on a cash receipt basis.

The table below presents the successful tax reclaim paid to each Sub-Fund during period ended 30 June 2022 and 30 June 2021

	30 June 2022 EUR	30 June 2021 EUR

3. Financial assets and financial liabilities at fair value through profit or loss (continued)**(ii) Fair value of financial instruments**

IFRS 13 "Fair Value Measurement" requires a fair value hierarchy for inputs used in measuring fair value that classifies investments according to how observable the inputs are. Observable inputs are those that market participants would use in pricing the asset or liability based on market data obtained from sources independent of the Company. Unobservable inputs reflect the Company's assumptions, made in good faith, about the inputs market participants would use in pricing the asset or liability developed based on the best information available in the circumstances.

The Company uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

Level 1 – Inputs reflect unadjusted quoted prices in active markets for identical assets or liabilities that the Company has the ability to access at the measurement date;

Level 2 – Inputs other than quoted prices that are observable for the asset or liability either directly or indirectly, including inputs in markets that are not considered to be active; and

Level 3 – Valuations based on inputs that are unobservable and significant to the overall fair value measurement.

Inputs are used in applying the various valuation techniques and broadly refer to the assumptions that market participants use to make valuation decisions, including assumptions about risk. Inputs may include price information, volatility statistics, specific and broad credit data, liquidity statistics, and other factors. A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Observable data is considered to be market data which is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market. The categorisation of a financial instrument within the hierarchy is based upon the pricing transparency of the instrument and does not necessarily correspond to the Investment Manager's perceived risk of that instrument.

All level 3 positions are valued at last traded price and therefore analysis of unobservable inputs is not required.

All other assets and liabilities held by the sub-funds at the reporting dates 30 June 2022 and 31 December 2021 are carried at amortised cost; their carrying values are a reasonable approximation of fair value.

The forward currency contracts are categorised as level 2. This is due to the fair values being calculated by reference to current exchange rates for contracts with similar maturity and risk profiles. Investments in contracts for difference are also categorised as level 2. This is due to the fair values being derived from underlying equity prices.

Notes to the financial statements (continued)

For the period ended 30 June 2022

Odey Investments plc

3. Financial assets and financial liabilities at fair value through profit or loss (continued)

(iii) Fair value of financial instruments (continued)

As at 30 June 2022 (continued)

Assets held at the reporting date categorised as level 3, are as follows:

Odey Swan Fund	30 June 2022		31 December 2021	
	Fair value EUR	% of net assets	Fair value EUR	% of net assets
Tri-Star Resources Plc	23,905	0.02%	24,511	0.03%

Total	21,938	0.09%	-	-

Level 3 reconciliation

The following table shows a reconciliation of all movements in the fair value of financial instruments categorised within level 3 between the beginning and the end of the reporting period. All securities were priced at 30 June 2022 at fair value and approved by the Investment Manager. Realised gains and losses are recognised in the statement of comprehensive income under net gain/(loss) on investment income.

For the reporting period/year:

	30 June 2022 EUR	31 December 2021 EUR
Odey Swan Fund		
Opening balance	24,511	4,916,976
Purchases	-	-
Transfer out of Level 3	-	(6,701,265)
Transfer into level 3	31,353	-
Change in realised gain	-	4,509,962
Change in unrealised loss	(606)	(2,701,162)
Closing balance	55,258	24,511

The unrealized gain on level 3 financial instruments held at the reporting date is loss of €606 (30 June 2021: gain of €1,386,317).

	30 June 2022 GBP	31 December 2021 GBP
Brook Absolute Return (Irl) Fund		
Opening balance	3,522,955	-
Purchases	-	12,855,709
Sales	(1,788,434)	(12,717,285)
Transfer into level 3	-	-
Change in realised gain	98,615	2,284,165
Change in unrealised (loss)/gain	(390,179)	1,100,366
Closing balance	1,442,957	3,522,955

The unrealized gain on level 3 financial instruments held at the reporting date is loss of \$390,179 (30 June 2021: gain of \$1,057,876)

	30 June 2022 EUR	31 December 2021 EUR
Odey Pan European Fund		
Opening balance	-	-
Purchases	22,688	-
Transfer out of Level 3	-	-
Transfer into level 3	-	-
Change in realised gain	-	-
Change in unrealised loss	(750)	-
Closing balance	21,938	-

The unrealized gain on level 3 financial instruments held at the reporting date is loss of \$750

Notes to the financial statements (continued)

For the period ended 30 June 2022

Odey Investments plc

3. Financial assets and financial liabilities at fair value through profit or loss (continued)

(iii) Fair value of financial instruments (continued)

The following table demonstrates the impact on net assets attributable to holders of redeemable participating shares of a movement in inputs of level 3 investments. The table assumes a 10% upwards movement in the fair value (a negative 10% would have an equal but opposite effect).

	30 June 2022 EUR	31 December 2021 EUR
Odey Swan Fund		
Equities (unlisted)	2,391	356,265
	30 June 2022 GBP	31 December 2021 GBP

	30 June 2022 EUR	31 December 2021 EUR
Odey Pan European Fund		
Equities (unlisted)	2,194	-

(iv) Financial derivative instruments

The derivative contracts that the Company holds or issues are forward currency contracts, futures, options, interest rate swaps and contracts for difference. The Company records its derivative activities on a mark-to-market basis.

A **forward currency contract** involves an obligation to purchase or sell a specific currency at a future date, at a price set at the time the contract is made. Forward currency contracts are valued by reference to the forward price at which a new forward contract of the same size and maturity could be undertaken at the valuation date.

A **futures contract** is an agreement between two parties to buy and sell a security, index or currency at a specific price or rate at a future date. Upon entering into a futures contract an amount is deposited with a broker equal to a certain percentage of the contract amount. This is known as "initial cash margin". Subsequent payments of cash ("variation margin") are made or received each day, depending upon the daily fluctuation in the value of the contract. The daily changes in contract value are recorded as unrealised gains or losses and the Company recognises a realised gain or loss when the contract is closed. Unrealised gains and losses on futures contracts are recognised in the statement of comprehensive income.

Contracts for difference are agreements with third parties, which allow the sub-funds to acquire an exposure to the price movement of specific securities without actually purchasing the securities. The changes in contract values are recorded as unrealised gains or losses and the sub-fund recognises a realised gain or loss when the contract is closed.

An **option contract** involves an agreement with third parties, which give the sub-fund a right, but not an obligation, to purchase or sell a financial asset at a certain price, on or before a certain date. The potential loss on a contract is limited to the price or premium paid to enter the contract. Option contracts are valued by reference to the underlying assets price. Unrealised gains and losses on option contracts are recognised in the statement of comprehensive income.

Interest rate swap

Swap agreements are two-party contracts for periods ranging from a few weeks to more than one year. In a standard swap transaction, two parties agree to exchange the returns (or differentials in rates of return) earned or realised on particular pre-determined investments or instruments, which may be adjusted for an interest factor. The gross returns to be exchanged or "swapped" between the parties are generally calculated with respect to a "notional amount", i.e., the return on or increase in value of a particular currency amount invested at a particular interest rate, in particular, foreign currency, or in a "basket" of securities representing a particular index. Interest rate swaps would generally be used to manage a Sub-Fund's interest-rate exposure. They may be used as a substitute for a physical security or a less expensive or more liquid way of obtaining desired exposures. Unrealised gains and losses on interest rate swaps are recognised in the statement of comprehensive income.

A **warrant** gives the holder the right to purchase equity securities from the issuer of the warrant at a specific price within a certain time frame. Warrants are issued and guaranteed by the issuer.

4. Cash and cash equivalents

The credit rating of J.P. Morgan Chase Bank, N.A., the parent company of the Depositary, is A+ as per Standard & Poor's rating agency (2021: A+). The Depositary does not have its own credit rating. The credit rating of Goldman Sachs International A+ (2021: A+) and Morgan Stanley & Co. International is A-(2021: A+), by Standard & Poor's. The credit rating for Bank of America is A+ (2021: A+), the credit rating for BNY Mellon Trust Company Ltd is AA- (2021: AA-) and The credit rating for RBC Investor Services Bank S.A is AA-

5. Investment management fee

The Investment Manager receives, out of the assets of each sub-fund, an annual fee, accrued daily and paid monthly in arrears, at an annual rate of up to 2% of the NAV of the sub-fund (plus VAT, if any). Within this permitted limit the Investment Manager's fees may differ between classes of shares of each sub-fund. The tables overleaf represent the investment management fees attributable to each active share class of the sub-funds:

The Investment Manager is entitled to be repaid all reasonable out-of-pocket expenses incurred by it out of the assets of the Company. Total investment management fees accrued at the reporting date and charged for the period are disclosed in the statement of financial position and statement of comprehensive income respectively. Total fees charged for the financial period was €6,140,017.

6. Performance fee

The Investment Manager is entitled to a performance related fee (the "performance fee") in respect of the performance of each class of shares (excluding share class as per prospectus) if there is an outperformance (the value of a class of shares less the value of the reference asset) during a performance period (the period beginning on 1 January in each period and ending on 31 December in each period) as described below. Additional information about the calculation of performance fees is set out in the prospectus. For new share classes the period will begin from the respective launch date in period one and subsequent periods will be 1 January) and, where shares are repurchased during a performance period, to a pro-rata portion of the performance fee accrual (if any) at the time of repurchase. The reference asset is a notional pool of assets which is increased by subscriptions, reduced by repurchases and reduced by dividends (if any) paid by the relevant class of shares. Entitlement to a performance fee will be calculated by reference to the outperformance of a class of shares on the last business day of a performance period if the class of shares performance is positive for the performance period. The performance fee will be equal to outperformance multiplied by 20%. The performance fee is payable on the last valuation day in each period. If shares are repurchased during the performance period, the pro-rata portion of the performance fee accrual (if any) at that point shall be due to the Investment Manager at the time of repurchase. Any amount of performance fee calculated with respect to redeemed shares of a class during a performance period will be calculated according to the NAV of the repurchased shares, and the reference asset as at the date of repurchase (as opposed to at the end of the performance period in which the repurchase takes place).

It is therefore possible that, although the NAV is not in outperformance for a full performance period, a performance fee may be earned by the Investment Manager in respect of shares redeemed where the repurchase took place when the NAV at repurchase was higher than the reference asset. In the event of an outperformance on the last business day of a performance period, the value of the reference asset for the next performance period will be reset on 1 January to the NAV of the relevant class of shares on the last business day of the preceding performance period. If there is no outperformance on the last business day of a performance period, the value of the reference asset will not be reset for the next performance period and the underperformance of the class of shares in the preceding performance period by reference to the reference asset will be clawed back (i.e. until under performance is made good) before a performance fee becomes due in a subsequent performance period. The initial value of the reference asset for each class of shares will be the NAV of the relevant class of shares on launch date.

Notes to the financial statements (continued)

For the period ended 30 June 2022

Odey Investments plc

6. Performance fee (continued)

The performance fees accrued at the reporting date and charged for the period are disclosed in the statement of financial position and statement of comprehensive income respectively. As at 30 June 2022 there was €11,131,640 (31 December 2021: €3,613,529) performance fee payable. The performance fee for the financial period ended 30 June 2022 and 2021 for each Sub-Fund are as follows.

Sub-Fund Name	30 June 2022 EUR	31 June 2021 EUR
Odey Swan Fund	11,651,627	25,851
Brook European Focus Absolute Return Fund	937,285	572,433
Brook Absolute Return (Irl) Fund	505,258	271,523

7. Administration fee

U.S. Bank Global Fund Services (Ireland) Limited (the "Administrator") receives out of the assets of each sub-fund, an annual fee, accrued daily and paid monthly in arrears, in accordance with the schedule below per sub-fund;

Odey Swan Fund, Brook European Focus Absolute Return Fund, Brook Absolute Return Fund (Irl) & Odey Special Situations Fund:

For first €150 million of Net Asset Value	0.07%
For amounts between €150 - €300 million	0.06%
For amounts exceeding €300 million of Net Asset Value	0.05%

Brook Global Emerging Markets Fund, Odey Pan European Fund, Brook Developed Markets Fund, Odey Opportunity Fund, & Brook European Focus Fund:

For first €150 million of Net Asset Value	0.04%
For amounts between €150 - €300 million	0.035%
For amounts exceeding €300 million of Net Asset Value	0.025%

The Administrator is also entitled to be repaid out of the assets of each sub-fund all of its reasonable out-of-pocket expenses incurred on behalf of each sub-fund. The Administrator received fees relating to other services provided to the Company.

The administration fees accrued at the reporting date and charged for the period are disclosed in the unaudited statement of financial position and unaudited statement of comprehensive income respectively.

8. Depositary fee

The Company shall pay to the Depositary, out of the assets of the Company, an annual depositary fee, accrued daily and payable monthly in arrears, at a rate which shall not exceed 0.025% of the first EUR 250 million of the Net Asset Value of the Company, 0.015% of EUR 250 million to EUR 1 billion of the Net Asset Value of the Company, 0.0125% of EUR 1 billion to EUR 1.5 billion of the Net Asset Value of the Company and 0.01% of the Net Asset Value of the Company thereafter, subject to an annual minimum fee of EUR 17,000 per sub-fund (plus VAT, if any).

The Depositary shall also be entitled to be repaid all of its reasonable out-of-pocket expenses out of the assets of the Company, including legal fees, couriers' fees and telecommunication costs and expenses, transaction charges and the fees, transaction charges and expenses of any sub-custodian appointed by it which shall be at normal commercial rates together with VAT, if any, thereon.

The Depositary fees accrued at the reporting date and charged for the period are disclosed in the unaudited statement of financial position and unaudited statement of comprehensive income respectively.

9. Audit fee

The below table outlines fees and expenses (exclusive of VAT) charged by the Company's statutory Auditor, Deloitte Ireland LLP during the period;

	30 June 2022 EUR	30 June 2021 EUR
Audit fee	67,005	35,038

The amount reflected in the unaudited statement of comprehensive income of EUR 67,005 (30 June 2021: EUR 35,038) outlines fees and expenses accrued during the period and is an estimate; therefore it is different to the actual amount charged. There were no fees or expenses charged in respect of other assurance, non-routine tax advisory or non-audit services provided by the statutory Auditor for the period ended 30 June 2022 and 30 June 2021.

Notes to the financial statements (continued)

For the period ended 30 June 2022

Odey Investments plc

10. Directors' fee

The Company pays the Directors such annual remuneration for acting as Directors of the Company as the Directors may from time to time agree, provided, however, that the annual aggregate remuneration of the Directors shall not exceed EUR 65,000. The maximum director fee will increase to EUR 150,000 from 8th July 2022. No other remuneration will be paid by the Company to the Directors except for the out-of-pocket expenses reasonably incurred by them. Stefan Wey waived his annual remuneration

The fees charged for the period ended 30 June 2022 and 30 June 2021 for each Sub-Fund are as follows:

Sub-Fund Name	30 June 2022 EUR	30 June 2021 EUR
Odey Odyssey Fund	-	4,430
Odey Swan Fund	2,573	9,474

Notes to the financial statements (continued)

Odey Investments plc

For the period ended 30 June 2022

12. Share capital

Authorised

The Company has an authorised share capital of 500,000,000,000 shares of no-par value and EUR300,000 divided into 300,000 redeemable non-participating management shares of EUR 1 each.

Subscriber shares

The issued non-participating management shares are EUR 2 represented by 2 subscriber shares (issued for the purposes of the incorporation of the Company) which are beneficially owned by the Investment Manager. The subscriber shares do not form part of the NAV of the Company and are thus disclosed in the financial statements by way of this note only. In the opinion of the Directors, this disclosure reflects the nature of the Company's business as an investment fund.

Redeemable participating shares

Redeemable participating shares carry the right to a proportionate share in the assets of the sub-funds and the holders of redeemable participating shares are entitled to attend and vote on all meetings of the Company and the relevant sub-fund. Shares are redeemable by holders of the relevant share class at the respective NAV. Shares may be redeemed at the option of the relevant shareholder on any dealing day. There is no minimum redemption amount for any of the share classes of the Company.

12. Share capital (continued)

Issued share capital (continued)

The Company is required to maintain authorised and paid up capital at a minimum amount of EUR300,000. The holders of management shares are entitled to a repayment of up to par value only upon the winding up of the Company in priority to redeemable shares. The Company is not subject to other externally imposed capital requirements. The redeemable shares issued by the Company provide an investor with the right to require redemption for cash at a value proportionate to the investor's shares in the Company's net assets at each redemption date and are classified as liabilities. The Company's objective, in managing the redeemable shares, is to ensure a stable base to maximise returns to all investors and to manage liquidity risk arising from redemptions.

13. Financial instruments and risk management

Investment in equities, debt securities, investment funds, and derivatives expose a sub-fund to varying risks, including market, liquidity and credit/counterparty risks. A description of the specific risks and the policies for managing these risks are included below. The prospectus provides details of these and other types of risk, some of which are additional to that information provided in these financial statements. Achievement of the investment objectives involves taking risks. The Investment Manager exercises judgement based on analysis, research and risk management techniques when making investment decisions.

The nature of the investments outstanding at the reporting date and the risk management processes and policies employed by the Investment Manager are detailed below.

Market risk

Market risk arises from uncertainty about future prices of investments held by the sub-fund, whether those changes are caused by factors specific to individual investments, or other factors affecting a number of similar investments. It represents the potential loss a sub-fund might suffer through holding investments in the face of adverse price movements. Market risk can change substantially without a change in the sub-fund portfolio, due to a change in market conditions. Details of all investments held at the reporting date are listed in the schedule of investments.

The market risk for the sub-fund is managed by the appointed portfolio manager through continuous monitoring and assessment of individual investments and the portfolio as a whole. As well as a number of available historic portfolio analyses, the portfolio manager can observe detailed portfolio performance in real time.

A number of techniques are employed in monitoring and controlling market risk including:

1. Selection of individual positions for appropriate risk-reward characteristics;
2. Assessment of the character and size of the portfolio as a whole;
3. Diversification. Limiting concentration in individual investments, or possibly correlating groups of investments;
4. Hedging transactions. Where there is an inverse correlation between the price movements of two investments in the portfolio;
5. Technical analysis: as an aid to assessing significant price levels; and,
6. Changing the level of market risk through the purchase or sale of investments; possibly at specific target prices.

Whilst market and liquidity risk management are the responsibilities of appointed portfolio managers, oversight and ultimate control is carried out by the Odey Asset Management Executive Committee (the "Executive Committee"). The Executive Committee may on occasion agree to overrule an individual portfolio manager – in a range between offering guidance and compulsory investment risk reduction.

The Investment Manager has also chosen to use an advanced risk measurement approach to calculate the sub-funds market risk, specifically "Value-at Risk" ("VaR"). The Company uses an absolute VaR methodology to calculate global exposure and to measure the market risk volatility. VaR is an attempt to provide a single number summarising the total risk in a portfolio of financial assets.

The following quantitative standards are built into the VaR model:

- A confidence level should be 99%;
- The holding period should not be greater than 1 month;
- The historical observation period should not be less than 1 year; and
- At least daily calculation.

The outcome of VaR analysis is a VaR number – either as a value or as a % of the portfolio. For example a VaR number result of 2% would imply that with a 99% confidence, you would not expect to lose more than 2% over 20 days. The model uses Value at Risk ("VaR") approach to estimate, with a confidence level of 99%, the potential loss which might arise if the current positions were to be held unchanged over 20 business days.

A 99% confidence level implies daily losses exceeding the VaR figure are likely to occur, on average, only once in every 20 business days. In keeping with industry guidance and best practice, the VaR limit is set at 20% (31 December 2021: 20%).

Notes to the financial statements (continued)

For the period ended 30 June 2022

Odey Investments plc

13. Financial instruments and risk management (continued)

Market risk (continued)

The following tables set out the Company's calculated VaR as at the reporting date:

As at 30 June 2022

	Odey Swan Fund	Brook European Focus Absolute Return Fund	Brook Absolute Return (Irl) Fund	Odey Special Situation s Fund	Odey Pan Europea n Fund	Brook Global Emerging Markets Fund	Brook Developed Markets Fund	Odey Opportuni ty Fund	Brook European Focus Fund

As at 31 December 2021

	Odey Swan Fund	Brook European Focus Absolute Return Fund	Brook Absolute Return (Irl) Fund	Odey Special Situations Fund
VaR	6.31%	6.04%	10.96%	6.98%

Investments in other funds contain the market and liquidity risks associated with the underlying investments, which are managed by the investee fund manager, in addition there are also operational risks (including governance and valuation risks) associated with investing in another fund manager.

(i) Currency risk

Currency risk is the risk that as certain assets of the sub-fund may be invested in securities and other investments denominated in foreign currencies (i.e. non-functional currency), the value of such assets may be affected favourably or unfavourably by fluctuations in currency rates.

Many of the assets of a sub-fund may be invested in other currencies and any income received by the sub-fund from these investments will be received in those currencies, some of which may fall in value against the functional currency of the sub-fund. Accordingly, the value of the shares may be affected favourably or unfavourably by fluctuations in currency rates and the sub-funds will therefore be subject to foreign exchange risks. The portfolio manager monitors the sub-funds' currency position on a daily basis and may enter into forward foreign currency exchange contracts to hedge the foreign exchange risk implicit in the value of portfolio securities denominated in a foreign currency.

A class of shares of a sub-fund may be designated in a currency other than the functional currency of the sub-fund. Changes in the exchange rate between the functional currency and such designated currency may lead to a depreciation of the value of such shares as expressed in the designated currency. A sub-fund may enter into forward contracts to hedge against a change in such currency exchange rates. Although not the intention, over-hedged or under-hedged positions may arise due to factors outside the control of the Investment Manager. However, hedged positions will be kept under review to ensure that over-hedged positions will not exceed 105% of the NAV of the class of shares and that positions in excess of 100% of the NAV of the class of shares will not be carried forward from month to month.

(ii) Interest rate risk

If not reflected in the market price itself, the effect of interest rate movements on the present value of future payments represents an additional risk in the value of securities to be considered. Interest rate risk represents the potential losses that a sub-fund might suffer due to adverse movements in relevant interest rates. The value of fixed interest securities may be affected by changes in the interest rate environment and the amount of income receivable from floating rate securities and bank balances, or payable on overdrafts, will also be affected by fluctuations in interest rates.

The Investment Manager monitors the sub-funds' securities and cash positions with respect to interest rate risk. Odey Swan Fund is exposed to interest rate risk due to investing in interest bearing securities 0.28% (31 December 2021: 0.41%). Brook Absolute Return (Irl) Fund is exposed to interest rate risk due to investing in interest bearing securities 0.00% (31 December 2021: 1.19%). Odey Opportunity Fund is exposed to interest rate risk due to investing in interest bearing securities 35.26% Other than this and cash and cash equivalents held by the sub-funds, the Company is not significantly exposed to interest rate risk as most of its investments are not in interest bearing securities at the reporting date. Odey Swan Fund invests 18.19% (31 December 2021: 0.01%), Brook European Focus Absolute Return Fund 24.03% (31 December 2021: Nil%), Brook Absolute Return (Irl) Fund invests 14.77% (31 December 2021: 16.02%), Odey Special Situations Fund 26.76% (31 December 2021: Nil%), Odey Pan European Fund 4.35% (31 December 2021: Nil%), Odey Opportunities Fund 7.32% (31 December 2021: Nil%), in zero coupon debt securities at the reporting date.

The following tables set out exposure to interest rate risk for Odey Swan Fund, Brook European Focus Absolute Return Fund, Brook Absolute Return (Irl) Fund, Odey Special Situations Fund and Brook Global Emerging Markets Fund, Odey Pan European Fund, Brook Developed Markets Fund, Odey Opportunity Fund and Brook European Focus Fund at the reporting date:

Liquidity risk

Liquidity risk is the risk that a sub-fund will encounter difficulty in meeting financial obligations as they fall due. The sub-fund faces the possibility of an unpredictable short-term liability to provide cash to meet investor withdrawals. Given the typical terms for investors in investment funds, 100% cash could be required at very short notice. However, this is in fact unlikely, and not a practical basis for running a sub-fund. Nonetheless, the Investment Manager does take into account the diversity of the investor base and the notice required for redemptions when assessing a sub-fund's potential liabilities from this source. The Investment Manager's Executive Committee reviews liquidity as part of its investment risk oversight.

The sub-funds hold a range of investments, in order to balance these potential obligations. Often the majority of a sub-fund's investments are in the permanent equity capital of companies. With no redemption date, liquidity is defined in terms of the marketability of these assets which are generally listed on major securities markets. The estimated ease with which the sub-funds' assets can be turned into cash, against the assessment of the possible timing of financial liabilities defines the liquidity risk.

The liquidity risk for each sub-fund is managed by the appointed portfolio manager within the Investment Manager. Each portfolio manager regularly monitors and assesses the liquidity of the investments in each sub-fund's portfolio. Even for a static portfolio, the liquidity of individual positions or the portfolio as a whole can move substantially with market conditions. There were 6 (31 December 2021: 6) investments held at the reporting date which are classified as level 3 investments in note 3. At 30 June 2022 and 31 December 2021, these securities were priced at fair value and approved by the Investment Manager.

13. Financial instruments and risk management (continued)

Liquidity risk (continued)

The portfolio manager can refer to the daily liquidity analysis for his sub-fund which reports the liquidity of assets held in relation to market trading volumes. This gives a snapshot of approximately how long it would take a sub-fund to liquidate particular investments.

There are a variety of ways in which a portfolio manager may manage the sub-fund's liquidity position. For example, the portfolio manager may identify less-liquid investments that he would like to sell when conditions permit, so as to improve the overall portfolio liquidity; or he may sell some investments in advance of anticipated redemptions. Generally, the vast majority of the Company's assets are composed of actively traded, liquid securities, able to be turned into cash at short notice. The Investment Manager's marketing and account management activities help to inform the assessment of potential liabilities. Furthermore, contacts with (especially larger) investors mean the portfolio manager often has notice of significant redemptions beyond required minimums.

The below table summarises the Company's financial liabilities into relevant maturity groupings based on the remaining period at the reporting date to the contractual maturity date:

As at 30 June 2022

	Less than 1 month EUR	1 to 12 months EUR	Greater than 1 year EUR	No stated maturity EUR	Total EUR

Credit risk

Credit risk is the risk that a sub-fund's counterparty or investment issuer will be unable or unwilling to meet a commitment that it has entered into and cause a sub-fund to incur a financial loss. A sub-fund will be exposed to settlement risk on parties with whom it trades and depositary risk on parties with whom the sub-fund has placed its assets in custody.

Financial assets subject to IFRS 9's impairment requirement

The Company's financial assets subject to the expected credit loss model within IFRS 9 are receivables and cash and cash equivalents. Management consider the probability of default to be close to zero as the counterparties have a strong capacity to meet their contractual obligations in the near term. As a result, no loss allowance has been recognised based on 12-month expected credit losses as any such impairment would be wholly insignificant to the Company.

Settlement risk: Most transactions in listed securities are settled on cash versus delivery basis ("DVP") with settlement a few days after execution. Default by the Broker could expose the sub-fund to an adverse price movement in the security between execution and default. Because the sub-fund would only be exposed to a potentially adverse market move (rather than 100% of the principal sum) during a short period, this risk is limited. In addition, default by regulated Brokers in the major markets is rare.

For foreign exchange forward currency contracts and derivative contracts, the settlement period may be weeks or months and the contract amounts may be larger. This sizeably increases the potential credit risk. Hence credit standards for foreign exchange and derivative counterparties tend to be higher.

In some rare circumstances, such as new issues, the sub-fund may be required to make "free" payments to counterparties; thus exposing the sub-fund to 100% risk of loss. On the whole these transactions are relatively small and restricted to the more creditworthy settlement counterparties.

The Investment Manager's Prudential Committee, (which reports to the Executive Committee) reviews the broker list at least annually. Brokers' fundamental financial credit attributes are generally unsupportive and the Committee rely mainly on checking a broker's regulatory status as qualification for DVP dealing authorisation. Additional credit information including: reputational factors may be taken into account.

In the interim, new brokers must be approved by the COO of the Investment Manager. Doubts about a broker's credit standing would ultimately be reported to the COO, who would make a decision on retaining or suspending that account. Each broker's terms of business are kept on file. The likelihood of settlement is a key factor in the Investment Manager's best execution policy. The settlement and valuations (SAV) team keep in contact with the Investment Manager's Dealers' and inform them of any errors or delays in settlement. This is formally reviewed at the monthly Prudential meeting and brokers which consistently fall short may be reviewed. The sub-funds have traded with brokers whose credit rating ranges from AAA to not rated (31 December 2021: AAA to not rated).

Notes to the financial statements (continued)

For the period ended 30 June 2022

Odey Investments plc

13. Financial instruments and risk management (continued)

Credit risk (continued)

Depository risk: Depository risk is the risk of loss of assets held in custody due to default by the Depository. The Depository to the Company is regulated by the Central Bank of Ireland ("CBI"). This is not a "primary credit risk" as the unencumbered non-cash assets of the sub-fund are segregated from the Depository's own assets and therefore not available to its creditors in case of the Depository's failure. However, if the segregation is ineffective, or there is fraud, insolvency of the Depository could mean a loss of the Company's assets. The Depository is liable for the loss of any financial instrument of the Company held in custody unless it can prove that the loss is attributable to an external event beyond its reasonable control, the consequences of which are unavoidable despite all reasonable efforts to the contrary. The UCITS regulations provide that a Depository is also liable for all other losses suffered by either the Company or its shareholders arising as a result of the Depository's negligent or intentional failure to properly fulfil its obligations under the directive. The Depository remains liable for losses suffered even where it has delegated its responsibilities to a third party, and it cannot contractually discharge liability. As well as counterparty risk with the Depository, the sub-fund may incur risk with sub-custodians appointed by the Depository. However, the Depository's liability shall not be affected by the fact that it has entrusted some or all of the assets in safekeeping to any third party (save as otherwise provided for within the custody agreement).

The CBI considers that in order for the Depository to discharge its responsibilities regarding assets entrusted to third parties, the Depository must exercise care and diligence in choosing and appointing sub-custodian, so as to ensure that the sub-custodian has and maintains the expertise, competence and standing appropriate to discharge the responsibilities concerned. The Depository must maintain an appropriate level of supervision over the sub-custodian and make appropriate inquiries from time to time to confirm that the obligations of the sub-custodian continue to be competently discharged. The default of a sub-custodian, whilst again not a "primary credit risk", may expose the sub-fund to a delay in the recovery of these assets, or if the trust is ineffective, or there is fraud, insolvency of the sub-custodian could mean a loss of the sub-fund's assets.

Credit standards for Depository and sub-custodians tend to be greater than delivery versus payment settlement counterparts. In addition to normal assessment of financial creditworthiness, regulatory background, and market reputation, peer group usage or general size may be important in terms of establishing "too big to fail" credentials. Also, during contract negotiations, when a sub-fund is initiated, documentation is carefully reviewed. The list of major counterparties, including depositaries and sub-custodians, is tabled at Investment's Manager's monthly Prudential meetings.

Direct credit risk: The most significant credit risk arises when a sub-fund lends/deposits cash directly with a counterpart including the Depository. As well as normal banking relationships, foreign exchange settlement can involve short term (daylight) risks exposing the sub-fund to 100% loss.

As a result these counterparties are subject to the greater credit standards. As for other financial counterparts, accounting creditworthiness may be insufficient support in many cases. So, as well as normal assessment of financial creditworthiness, regulatory background, and market reputation, peer group usage or general size considerations may be important in terms of establishing "too big/important to fail" credentials.

The list of major counterparties, including Depository and sub-custodians is tabled at Investment's Manager's Prudential meetings. See note 4 for details of cash held with the Depository. Under the UCITS Regulations, there is no minimum credit rating requirements for Depository, but the S&P long term credit rating of J.P. Morgan Chase Bank, N.A., the parent company of J.P. Morgan Bank (Ireland) plc, is **A+** (31 December 2021: A+). J.P. Morgan Bank (Ireland) plc does not have its own credit rating. It should be noted that J.P. Morgan Bank (Ireland) plc is not guaranteed by J.P. Morgan Chase Bank, N.A., and that the cash is placed with J.P. Morgan Bank (Ireland) plc as banker. In the unlikely event that J.P. Morgan Bank (Ireland) plc were to default the sub-funds would be exposed to J.P. Morgan Bank (Ireland) plc as an unsecured creditor in relation to cash held with J.P. Morgan Bank (Ireland) plc.

Offsetting Financial Assets and Financial Liabilities: The sub-funds may enter into master netting agreements whenever possible. Master netting agreements provide for the net settlement of contracts with the same counterparty in the event of default. The credit risk associated with derivative financial assets subject to a master netting arrangement is eliminated only to the extent that financial liabilities due to the same counterparty will be settled after the assets are realised. The exposure to credit risk reduced by master netting arrangements may change significantly within a short period of time as a result of transactions subject to the arrangement. As at 30 June 2022 and 31 December 2021 no financial instruments of the sub-funds are being presented net within the statement of financial position. All of the derivative assets and liabilities of the sub-funds are held with the counterparty and the margin balance maintained by the Company is for the purpose of providing collateral on derivative positions.

The following tables present each sub-fund's financial assets and liabilities subject to offsetting, enforceable master netting arrangements and similar agreements. The tables are presented by Counterparty.

Odey Investments plc

13. Financial instruments and risk management (continued)

Credit risk (continued)

Offsetting Financial Assets and Financial Liabilities (continued)

Amounts in D(i) and D(ii) on the previous pages relate to amounts subject to set-off that do not qualify for offsetting under (B) above. This includes (i) amounts which are subject to set-off against the asset (or liability) disclosed in 'A' which have not been offset in the statement of financial position, and (iii) any financial collateral (including cash collateral), both received and pledged.

The sub-funds and their counterparties have elected to settle all transactions on a gross basis, however each party has the option to settle all open contracts on a net basis in the event of default of the other party. Per the terms of the master netting agreement, an event of default includes the following:

- failure by a party to make payment when due.
- failure by a party to perform any obligation required by the agreement (other than payment) if such failure is not remedied within 30 days after notice of such failure is given to the party.
- bankruptcy.

14. Taxation

The Company qualifies as an investment undertaking as defined in Section 739B (1) of the Taxes Consolidation Act 1997 (the "Taxes Act"). Under current Irish law and practice, the Company is not chargeable to Irish tax on its income and gains. However, tax can arise on the happening of a "chargeable event" in the Company.

A chargeable event includes any distribution payments to shareholders or any encashment, redemption, cancellation, transfer or deemed disposal (a deemed disposal will occur at the expiration of a relevant year) of shares or the appropriation or cancellation of shares of a shareholder by the Company for the purposes of meeting the amount of tax payable on a gain arising on a transfer. No tax will arise on the Company in respect of chargeable events in respect of a shareholder who is neither Irish resident nor ordinarily resident in Ireland at the time of the chargeable event provided that a relevant declaration is in place and the Company is not in possession of any information which would reasonably suggest that the information contained therein is no longer materially correct.

Dividends, interest and capital gains (if any) which the Company or any sub-fund receives with respect to their investments (other than securities of Irish issuers) may be subject to taxes, including withholding taxes, in the countries in which the issuers of investments are located. It is anticipated that the Company may not be able to benefit from reduced rates of withholding tax in double taxation agreements between Ireland and such countries. If this position changes in the future and the application of a lower rate results in a repayment to the Company the NAV will not be re-stated and the benefit will be allocated to the existing shareholders rateably at the time of the repayment. Any reclaims due to the sub-funds are accounted for on a receipt basis. In addition, where the Company invests in securities that are not subject to local taxes, for example withholdings tax, at the time of acquisition, there can be no assurance that tax may not be charged or withheld in the future as a result of any change in the applicable laws, treaties, rules or regulations or the interpretation thereof.

No stamp duty is payable in Ireland on the issue, transfer, repurchase or redemption of shares in the Company. Where any subscription for or redemption of shares is satisfied by the in-specie transfer of securities, property or other types of assets, Irish stamp duty may arise on the transfer of such assets.

No Irish stamp duty will be payable by the Company on the conveyance or transfer of stock or marketable securities provided that the stock or marketable securities in question have not been issued by a company registered in Ireland and provided that the conveyance or transfer does not relate to any immovable property situated in Ireland or any right over or interest in such property or to any stocks or marketable securities of a company (other than a company which is an investment undertaking within the meaning of the Taxes Act) which is registered in Ireland.

Further details on tax applicable to the Company can be found in the prospectus.

15. Distribution

Classes of shares are either accumulating or distributing shares. The Company does not intend to make distributions in respect of accumulating classes of shares. The Company intends to automatically re-invest all earnings, dividends and other distributions of whatever kind as well as realised capital gains pursuant to the investment objective and policies of the sub-fund for the benefit of the shareholders.

The share classes of the Company that have obtained "Reporting Fund Status" under the United Kingdom Offshore Funds (Tax) Regulations 2009 for the purpose of United Kingdom taxation for the financial period ended 30 June 2022 are listed below.

17. Related party disclosures

In accordance with IAS 24 'Related Party Disclosures' the related parties of the Company and the required disclosures relating to material transactions with parties are outlined below and overleaf.

Directors

Frank Ennis (resigned on 8th July 2022), Andrew Bates and Conor Molloy (appointed 23rd June 2022) receive annual remuneration for acting as Directors of the Company as referenced in note 10 and detailed in the statement of comprehensive income. Tim Pearey (resigned on 31 March 2022), Tom Richards (appointment as alternate director lapsed on 31 March 2022) and Stefan Wey waived their annual remuneration. No other remuneration will be paid by the Company to the Directors except for the out-of-pocket expenses reasonably incurred by them.

Investment Manager

The Investment Manager was appointed by the Company to provide investment management services to the Company. The Investment Manager is considered a related party due to Tim Pearey, Tom Richards and Stefan Wey holding positions of significant influence at the Investment Manager, as well as being Directors of the Company during the period. Tim Pearey was Managing Director and partner at the Investment Manager (resigned on 31st March 2022), Tom Richards was COO and partner at the Investment Manager and Stefan Wey is an Investment Director and partner of Odey Asset Management LLP. Each sub-fund will pay the Investment Manager at the rates set out in note 5. The Investment Manager is also entitled to performance fees, details of which are set out in note 6.

18. Efficient portfolio management

In accordance with the Prospectus, the Company may, for the purposes of efficient portfolio management and investment purposes, enter into futures contracts, contracts for difference, forward currency contracts, swaps, convertible securities and structured notes. Derivative contracts open at the reporting date are disclosed in the schedule of investments and note 3. Details of risks associated with the use of these contracts can be found in note 13.

19. MIFID II research costs

In accordance with the Prospectus a Sub-Fund may incur charges relating to investment research which is or may be used by the Investment Manager in managing the assets of the Sub-Fund. In this regard, the Investment Manager intends to operate a research payment account ("RPA") in compliance with MiFID II. The RPA operated by the Investment Manager shall be funded either by applying a research credit charge on investments in transferable securities held by the relevant Sub-Fund or the Sub-Fund shall pay to the RPA, out of the assets of the Company, a research charge, accrued daily and payable monthly in arrears. The research charges shall be used to pay for investment research received by the Investment Manager from third parties and shall be operated in accordance with the requirements of MiFID II. The Investment Manager shall set and regularly assess a research budget for the relevant Sub-Fund and shall agree the frequency with which such charges will be deducted from the relevant Sub-Fund.

22. Significant events during the period

On 31 January 2022, the sub-funds of Odey Investment Funds plc were merged into newly created sub-funds of Odey Investments plc. The following sub-funds were launched were- Brook Developed Markets Fund, Brook European Focus Fund, Odey Pan European Fund and Odey Opportunity Fund.

All assets and liabilities were transferred, and shareholders received equivalent units in the new umbrella structure to their existing holdings.

The markets have experienced significant volatility caused by the Russian invasion of Ukraine on 24th February 2022. With the indefinite ban imposed on 28th February by the Russian Central Bank of sales by foreign entities and the closure of local Russian Exchanges the funds' Russian exposure is now priced close to zero. The Investment Manager continues to actively monitor the situation. A summary of the Russian positions is presented below.

Brook Absolute Return (Irl) Fund

Remuneration disclosure

Odey Investments plc

For the period ended 30 June 2022

The Company has in place a remuneration policy ("Remuneration Policy") which applies to those categories of staff, including senior management, controlled functions (as defined by the Central Bank) and any employee receiving total remuneration who fall within the remuneration bracket of senior management in addition to any persons who are considered risk takers whose professional activities have a material impact on the risk profile of the Company ("Identified Staff").

The Company does not offer performance-related remuneration to its Identified Staff. Some categories of Identified Staff are paid directly by separate entities and do not receive a fee directly from the Company; however, the entities themselves are paid fixed fees and/or are paid on a time-spend basis by the Company for such services.

The Company pays Andrew Bates, Conor Molloy and Frank Ennis was paid (resigned 8th July 22) a fixed fee per annum. Stefan Wey, Tom Richards and Tim Pearey do not receive a fee from the company but are remunerated by the Investment Manager. The fee is not related to the performance of the Company. No pension payments are made. A number of factors are included in determining the fee paid including the size and risk profile of the funds under management and the current market rate for directorships of this nature.

The Remuneration Policy was prepared to address the requirements of Directive 2014/91/EU ("UCITS V") and ensures compliance by the Company with UCITS V. The policy will be reviewed annually by the Directors in light of applicable law and in conjunction with any related guidance issued by ESMA or the Central Bank which is applicable during the relevant financial reporting period.

Odey Asset Management LLP

The financial and non-financial criteria of the remuneration policies and practices for the Investment Manager's staff (partners and employees) are set out in the Investment Manager's Remuneration Policy (a summary of which is included below) and are intended to be consistent with, and to promote, sound and effective risk management. In particular, as regards (i) the potential influence of the Investment Manager's remuneration policies and practices on the risk profile of the relevant UCITS', and (ii) the measures adopted to avoid or manage conflicts of interest, the Remuneration Policy provides that:

- The structure of staff remuneration should be consistent with and promote effective risk management and not encourage any level of risk-taking that is inconsistent with the risk profiles of the UCITS' it manages.
- The remuneration structure should avoid incentivising staff on a short-term basis, and should promote the Investment Manager's business strategy, objectives, values and long-term interests and those of the UCITS it manages and their investors.
- In any given year, the total variable remuneration paid to the Investment Manager's staff should not limit its ability to maintain its required regulatory capital base.
- The Investment Manager's risk management function is required to provide input on the Investment Manager's overall remuneration strategy, having regard to the effective promotion of risk management, and to have an active role in the design, ongoing oversight and review of the Remuneration Policy.
- Each member of staff's remuneration is determined by the Investment Manager's Remuneration Committee, a subcommittee of the Executive Committee. Consequently it is not possible for any single individual to determine the remuneration for his/her own business area.

Summary of Odey Asset Management's ("OAM's") Remuneration Policy:

- Valuable focus is achieved through clear profit allocation or bonus targets, but a 100% pay out on a particular date is bad for business continuity. In addition the development of participants and their associated business tends to take place over a period of years. Profit allocation or bonus deferral is intended to help offset the disadvantages of single date profit allocation/bonus awards.
- The Remuneration Committee determines performance related remuneration based on a number of factors. Generally, Fund Managers can expect to receive a proportion of any crystallised performance fees generated by the Fund they manage. All OAM Funds with performance fees have High Water Marks (HWM), thus performance fees are only generated once underlying Fund investors have achieved a positive absolute or relative return. Additionally the Remuneration Committee will take into account a number of factors including the overall profitability of the firm and various financial and non-financial performance factors, such as the development of the business and long term sustainability. There are currently two forms of deferral:

Cash Deferral

Deferred cash awards are required to be invested in Funds managed by OAM. This strengthens the alignment of interests between partners, employees and Fund investors, especially for Odey participants responsible for performance. Requiring people to "eat what you cook" further encourages a responsible attitude to risk taking. Cash is deferred over a two period, with two equal payments on the 1st and 2nd anniversaries, but is lost if the individual is no longer a partner or employee at the transfer date.

Share Deferral

The award of Bonus Shares in Odey Holdings Ltd, allows for increased ownership in the business by participants. In determining the award of shares, the Remuneration Committee takes into account a participant's contribution to the overall development of the business and creation of a long-term franchise. To this end, whilst the initial vesting of bonus shares is over a three-year period, the Company may require the shares to be surrendered (at cost), should the partner leave within the three year period. The Bonus Shares become Ordinary Shares with inalienable rights, after the third year, i.e. the partner keeps the shares should he leave. All forms of deferral help to manage key man risk as the retained element acts as a disincentive to leave at short notice and encourages behaviour focused on creating a sustainable business. The profit, for the financial year ending 05th April 2022, available for members' remuneration and profit share was £18,812,000(2021: £39,672,000).

SFTR disclosure

Odey Investments plc

For the period ended 30 June 2022

Securities Financing Transactions Regulation (Regulation (EU) 2015/2365) ("SFTR") came into force on 12 January 2016 and, amongst other requirements introduces new disclosure requirements in the Company's annual reports published after 13 January 2017 detailing the Company's use of securities financing transactions.

The Company may engage in securities financing transactions (stock lending arrangements and repurchase/ reverse repurchase agreements, "SFTs"), as described above under the heading "Efficient Portfolio Management" in the prospectus.

During the period none of the Company's Sub-Funds engaged in SFTs, however, where a Sub-Fund does engage in SFTs, unless otherwise specified in the Sub-Fund Supplement, the maximum exposure of a Sub-Fund in respect of SFTs shall be 60% of the Net Asset Value, with anticipated exposure to SFTs not exceeding 20% of the Net Asset Value. The collateral supporting SFTs will be valued daily at mark-to-market prices and daily variation margin used if the value of collateral falls below coverage requirements.

Research Payment Account

In accordance with the Prospectus a Sub-Fund may incur charges relating to investment research which is or may be used by the Investment Manager in managing the assets of the Sub-Fund. In this regard, the Investment Manager intends to operate a research payment account ("RPA") in compliance with MiFID II. The RPA operated by the Investment Manager shall be funded either by applying a research credit charge on investments in transferable securities held by the relevant Sub-Fund or the Sub-Fund shall pay to the RPA, out of the assets of the Company, a research charge, accrued daily and payable monthly in arrears. The research charges shall be used to pay for investment research received by the Investment Manager from third parties and shall be operated in accordance with the requirements of MiFID II. The Investment Manager shall set and regularly assess a research budget for the relevant Sub-Fund and shall agree the frequency with which such charges will be deducted from the relevant Sub-Fund.

The maximum research budget in aggregate for the Investment Manager for 2022 for all the funds that it manages is £3,152,310 (2021: £3,060,000)

The maximum research budget for each Sub-Funds is:

Sub-Fund	GBP
Odey Special Situations Fund	64,343
Brook European Focus Absolute Return Fund	57,005
Brook Absolute Return (Irl) Fund	157,878
Odey Swan Fund	79,055
Brook Global Emerging Markets Fund	77,180
Odey Pan European Fund	41,548
Brook Developed Markets Fund	154,728
Odey Opportunity Fund	234,842
Brook European Focus Fund	477,842
