## Calamos Active Management and Global Perspective Seek to Maximize the Potential Benefits of Convertibles

**Defensive Equity.** For more than 40 years, Calamos has advocated convertible securities for investors seeking upside participation in equity markets with less downside exposure than an equity-only portfolio over a full market cycle.

**Enhanced Fixed Income.** Convertibles can diversify fixed income and hedge the risk of rising rates.

**Global Diversification.** Because the opportunity sets differ across economies, global convertibles can provide improved prospects for alpha generation, downside mitigation and income.
