Effective December 14, 2018, the Lord Abnett Strategic Income Fund changed its name to Lord Abnett Global Multi-Sector Bond Fund, and changed its investment strategy. Therefore, the performance of the Fund for periods prior to December 14, 2018 is not representative of the Fund's current investment strategy. The change in investment approach may affect the Fund's performance. Please refer to the Fund's prospectus, fund supplements and key investor information document for additional information.

Performance data quoted reflect past performance and are no guarantee of future results. Current performance may be higher or lower than the performance quoted. The net asset value performance above shows the Fund's average annual total returns excluding sales charges. If sales charges had been included, performance would have been lower. The maximum sales charge for Class A shares is up to 5.00%. Sales charges are not applicable to Class Z shares. Returns for other share classes will differ from those shown above. The investment return and principal value of an investment in the Fund will fluctuate so that shares, on any given day or when redeemed, may be worth more or less than their original cost. Returns for periods of less than one year are not annualized.

GROWTH OF USD 10,000

Past performance does not predict future returns.

Based on a hypothetical Class A (acc) USD investment of USD 10,000 on 18/02/2014 without sales charge and includes the reinvestment of all distributions, if any. Data as of 31/12/2023.

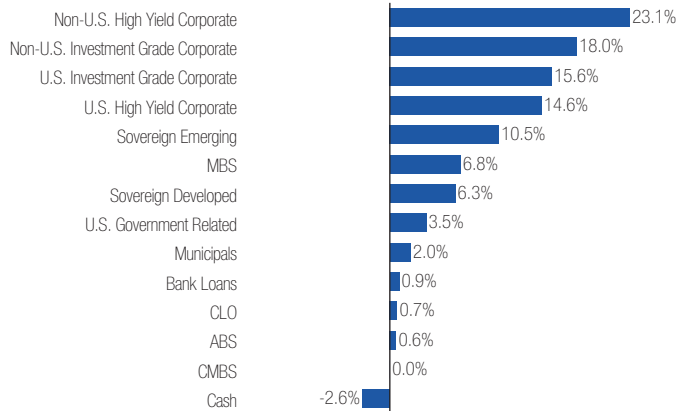

Key Risks: The Fund is subject to risks associated with investing in debt securities, including credit risk, interest rate risk, high yield risk, mortgage and asset backed securities risk and derivatives risk. For share classes denominated in a currency other than U.S. dollars, changes in currency exchange rates may reduce or increase fund returns. Please refer to the end of this document as well as the Fund's KIID and prospectus for more detailed risk information.

CREDIT QUALITY DISTRIBUTION

Ratings (other than U.S. Treasury securities or securities issued or backed by U.S. agencies,) provided by Standard & Poor's, Moody's, and Fitch. For certain securities that are not rated by any of these three agencies, credit ratings from other agencies may be used. When the rating agencies rate a security differently, Lord Abbett uses the median, but if there are only two ratings, the lower is used. Totals may not add to 100% due to rounding.

Additional share classes are available upon request. Lord Abbett has agreed to waive a portion of its management fee in order to keep the Fund's total operating expenses from exceeding an annual rate of the daily NAV of the Fund. Lord Abbett may stop the management fee waiver at its discretion. For periods when the waiver is in place, the Fund may benefit by not bearing these expenses. Please see the Fund's prospectus for additional information regarding the Fund's expense limitation. The fund's monthly dividend yield percentage is calculated for each share class by annualizing the most recent dividend per share amount and dividing the result by the share class' net asset value. Dividends and the dividend yield are subject to the management fee waiver. **Past performance is not a reliable indicator or guarantee of future results.**

GLOSSARY OF TERMS

Effective Duration is the change in the value of a fixed-income security that will result from a 1% change in market interest rates, taking into account anticipated cash flow fluctuations from mortgage prepayments, puts, adjustable coupons, and potential call dates. Duration is expressed as a number of years, and generally, the longer a duration, the greater the interest-rate risk or reward for a portfolio's underlying bond prices. Where applicable, securities, such as common or preferred stock, convertible bonds and convertible preferred stock, ETFs, ADRs, and CPI swaps and related futures are excluded from these calculations.

Average Coupon is the weighted average coupon for all the securities in a portfolio. A bond's coupon is the annual rate of interest on a bond's face value that the issuer agrees to pay the holder.

Average Life measures how long it will take, on average, to receive the repayment of the principal amount on a debt security. Average life is often used in connection with mortgage-backed securities as a measurement of the length of time, on average, before the underlying mortgages are paid, refinanced, or otherwise retired.

Average Yield to Worst is the lowest yield that can be received on a bond without defaulting.

Average Yield to Maturity is the rate of return anticipated on a bond if held until it matures. Yield to maturity assumes all the coupon payments are reinvested at an interest rate that equals the yield-to-maturity. The yield to maturity is the long-term yield expressed as an annual rate.

Investors should carefully consider the investment objectives, risks, charges, and expenses of the Fund. This and other important information is contained in the Fund's prospectus, fund supplements, KIIDs, and Summary of Shareholder Rights. Read these documents carefully before you invest. To obtain a prospectus, fund supplement, and KIID for any Lord Abbett fund, contact your investment professional, Lord Abbett Distributor LLC at (888) 522-2388, or visit us at www.lordabbett.com. Where required under national rules, the key investor information document (KIID), Summary of Shareholder Rights, fund supplement and prospectus will also be available in the local language of the relevant EEA Member State. Subscribing for shares in the Fund shall not provide an investor a direct interest in any assets of the Fund.

Morningstar Rating Information (If Applicable): For each fund with at least a three-year history, Morningstar calculates a Morningstar Rating based on a Morningstar Risk-Adjusted Return measure that accounts for variation in a fund's monthly performance, placing more emphasis on downward variations and rewarding consistent performance. The top 10% of funds in each category receive 5 stars, the next 22.5% receive 4 stars, the next 35% receive 3 stars, the next 22.5% receive 2 stars and the bottom 10% receive 1 star. The Overall Morningstar Rating for a managed product is derived from a weighted average of the performance figures associated with its three, five, and ten year (if applicable). Overall Morningstar Rating is a copyright of Morningstar, Inc., 2024. All Rights Reserved.
