

As of 30 April 2024

Fact Sheet

MFS Meridian® Funds

Managed Wealth Fund

Investment in the fund may involve a high degree of risk and may not be suitable for all investors. Past performance does not predict future returns and your capital is at risk. The value of the fund can be volatile and could decrease substantially in a short period of time. Investors should consider the risks, including lower returns, related to currency movements between their investing currency and the portfolio's base currency, if different. Investors should not rely on this document alone to make investment decisions and the sales prospectus and Key Information Documents (KIDs) should be carefully considered before making any investment in the fund. **The fund specific risks include: stock risk derivatives risk, strategy risk and allocation risk. These relevant risks, as associated with this fund, are highlighted and defined at the end of this document.**

Investment team

Lead Portfolio Manager

Robert Almeida

- 25 years with MFS
- 29 years in industry

Portfolio Managers

William Adams, CFA

- 23 years with MFS
- 29 years in industry

David Cole, CFA

- 20 years with MFS
- 30 years in industry

Mike Roberge, CFA

- 28 years with MFS
- 33 years in industry

Effective September 30, 2024, William Adams will no longer manage the portfolio.

Fund benchmark

ICE BofA 0-3 Month U.S. Treasury Bill Index

A global long/short equity fund that seeks to grow capital through strategic investments in three MFS equity strategies, moderate volatility relative to the overall equity market by adjusting equity market exposure and manage against significant market declines

Key Points:

- Diversification across equity markets through three established MFS strategies
- Investment team will manage the strategy's net exposure to equity markets based on their collective view of risk and reward
- The fund may use derivatives to manage typical and atypical downside market move

Fund positioning (%) through 30-Apr-24

Past performance is not a reliable indicator for future results. All financial investments involve an element of risk. The value of investments may rise and fall so you may get back less than originally invested.

Investors should consider the risks, including lower returns, related to currency movements between their investing currency and the portfolio's base currency, if different.

Other share classes are available for which performance and expenses will differ.

Returns would have been lower had sales charges, of up to 6% of the net asset value (NAV), or any commissions, fees or other charges that your financial intermediary may charge been reflected.

Please note that this is an actively managed product.

The Fund's benchmark is indicated for performance comparison only.

Performance results reflect ongoing charges and any applicable expense subsidies and waivers in effect during the periods shown. All historic results assume distributions within the fund and/or the share class are reinvested.

The source for all fund data is MFS. Source for benchmark performance: SPAR, FactSet Research Systems Inc.

Fund Inception Date: 22 September 2015

[^] Results represent the percent change in NAV.

Periods less than one year are actual not annualized.

[†] Ongoing charges are expressed at an annual rate as a percentage of net assets and are based on expenses for the semi-annual period ending July 31 or annual period ending January 31. For a Class with less than the full period of data available, or where an adjustment is necessary to reflect current charges, the ongoing charges figure is an estimate. Ongoing charges may vary from year to year. Please see the KID of the relevant Class for the most recent expense information.

¹ Hedged share classes aim to reduce exchange rate and return fluctuations between the applicable non-base currency hedged share class and the unhedged base currency class of the fund. From time to time shareholder transactions in the share class could result in a gain or a loss, which could be significant, in the share class value that is attributable to the adviser's hedging activities rather than to its investment management activities. Other share classes will not share in these gains or losses.

² Effective 18 September 2020 the fund's strategy changed. Please see the Notice to Shareholders on MFS.com for details.

³ Performance information prior to 18 September 2020 reflects time periods when the fund invested primarily in companies in developed and emerging market countries and selected according to a Blended Research® methodology. The fund's investment policies and strategies changed effective 18 September 2020 to focus primarily on

U.S. equity securities (but will also continue to invest in non-U.S. equity securities, including emerging markets securities) selected based on the Investment Manager's fundamental analysis.

Class I shares are only available to certain qualifying institutional investors.

TRAILING 3-YEAR RISK MEASURES VS. BENCHMARK (A1USD)

Standard Deviation	3.26 vs. 0.67
--------------------	---------------

Standard Deviation is an indicator of the portfolio's total return volatility, which is based on a minimum of 36 monthly returns. The larger the portfolio's standard deviation, the greater the portfolio's volatility.

RISK INDICATOR - CLASS A1USD

◀ Lower Risk (typically lower rewards)				Higher Risk ▶ (typically higher rewards)			
1	2	3	4	5	6	7	

The rating is based on past volatility of returns and may be different in the future or for other classes of the fund.

See the fund's offering documents for more details, including information on fund risks and expenses.

The offering documents (sales prospectus and Key Information Documents (**KIDs**)), articles of incorporation and financial reports are available to investors at no cost in paper form or electronically at meridian.mfs.com, at the offices of the paying agent or representative in each jurisdiction or from your financial intermediary. KIDs are available in the following languages: Danish, Dutch, English, French, German, Italian, Norwegian, Portuguese, Spanish, and Swedish. The sales prospectus and other documents are available in English. For additional information, call 352.464.010.600 in Luxembourg or your local paying agent or representative. **Spain:** A complete list of the MFS Meridian SICAV fund distributors in Spain is available on the CNMV Website (www.cnmv.es)

MFS Meridian Funds is an investment company with a variable capital established under Luxembourg law. MFS Investment Management Company (Lux) S.à.r.l. is the management company of the Funds, having its registered office at 4, Rue Albert Borschette, L-1246, Luxembourg, Grand Duchy of Luxembourg (Company No. B.76.467). The Management Company and the Funds have been duly authorised by the CSSF (Commission de Surveillance du Secteur Financier) in Luxembourg.

CNMV's registration number for Spain- 68.

Important Data Methodologies

Top holdings, portfolio characteristics and weightings do not reflect the effect of exposure/weightings for hedging of hedged share classes. Full holdings and net assets do reflect this hedging.

Portfolio characteristics are based on equivalent exposure, which measures how a portfolio's value would change due to price changes in an asset held either directly or, in the case of a derivative contract, indirectly. The market value of the holding may differ. The portfolio is actively managed, and current holdings may be different.

Important risk considerations

The fund may not achieve its objective and/or you could lose money on your investment in the fund. ■ **Stock:** Stock markets and investments in individual stocks are volatile and can decline significantly in response to or investor perception of, issuer, market, economic, industry, political, regulatory, geopolitical, environmental, public health, and other conditions. ■ **Derivatives:** Investments in derivatives can be used to take both long and short positions, be highly volatile, involve leverage (which can magnify losses), and involve risks in addition to the risks of the underlying indicator(s) on which the derivative is based, such as counterparty and liquidity risk. ■ **Allocation:** MFS' assessment of the risk/return potential of asset classes, markets and currencies and its adjustments to the portfolio's exposure to asset classes, markets and currencies may not produce intended results and/or can lead to an investment focus that results in the portfolio underperforming other portfolios that invest in similar investment types or have similar investment strategies and/or underperform the markets in which the portfolio invests. ■ **Strategy:** The portfolio's strategy to manage its exposure to asset classes, markets and currencies may not produce intended results. In addition, the strategies that MFS may implement to limit the portfolio's exposure to certain extreme market events may not work as intended, and the costs associated with such strategies will reduce the portfolio's returns. ■ Please see the prospectus for further information on these and other risk considerations.

Benchmark and vendor disclosures

The ICE BofA 0-3 Month U.S. Treasury Bill Index tracks the performance of U.S. dollar denominated U.S. Treasury Bills publicly issued in the U.S. domestic market with a remaining term to final maturity of less than 3 months.

It is not possible to invest directly in an index.
