INVESTMENT STRATEGY

Open-ended Fund actively managed under *Value Investing* principles, investing in companies whose market price trades below its long-term fundamental value. A minimum of 75% of the Fund will be invested in Equity. Listed European companies will represent, at least, 75% of investment in Equity, the remaining can be invested in securities from other OECD countries, and up to 10% can be invested in emerging countries. Companies can be in any sector, and be high, medium or small capitalization companies. There are certain liquidity risks associated with investing in small cap stocks. Investment universe includes companies with medium- and long-term growth potential, following financial and non-financial or ESG (Environmental, Social and Governance) criteria. More info on ESG at <https://assetservices.group.pictet/asset-services/esg-disclosures?isin=LU1330191385>
Objective: to deliver high performance in both absolute and relative term over the long term horizon.
The Fund is actively managed. The benchmark index is mentioned for performance comparison purposes only.

RISK REWARD AND PROFILE

The actual risk can vary significantly if your cash in at an early stage and you may get back less. The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you. The essential risks of the investment fund lie in the possibility of depreciation of the securities in which the fund is invested.

HISTORICAL PERFORMANCE

Past performance is not a guide to future performance
Performance data are based on net performance and take no account of fees charged when units are subscribed or redeemed. Index returns assume reinvestment of dividends and capital gains and unlike fund returns do not reflect fees or expenses. The return of the Fund may go down as well as up and investor may not get back the amount invested. Future performance is subject to taxation which depends on the personal situation of each investor and which may change in the future.
