

## HSBC Global Investment Funds

# EUROLAND VALUE

Monthly report 31 March 2024 | Share class BC

### Investment objective

The Fund aims to provide long term capital growth and income by investing in a portfolio of Eurozone shares, while promoting environmental, social and governance (ESG) characteristics. The Fund qualifies under Article 8 of SFDR.

### Investment strategy

The Fund is actively managed. In normal market conditions, the Fund will invest at least 90% of its assets in shares (or securities similar to shares) of companies of any size, that are based in, or carry out most of their business in any European Monetary Union member country. The Fund includes the identification and analysis of a company's ESG Credentials as an integral part of the investment decision making process to reduce risk and enhance returns. The Fund will not invest in companies with involvement in specific excluded activities, such as: companies involved in the production of controversial weapons and tobacco; companies with more than 10% revenue generated from thermal coal extraction; and companies with more than 10% revenue generated from coal-fired power generation. The Fund may invest up to 10% in Real Estate Investment Trusts, and may also invest up to 10% in other funds, including HSBC funds. See the Prospectus for a full description of the investment objectives and derivative usage.

### Main risks

- Please remember that the value of investments, and any income received from them, can fall as well as rise, is not guaranteed and you may not get back the amount you invested.
- The value of investible securities can change over time due to a wide variety of factors, including but not limited to: political and economic news, government policy, changes in demographics, cultures and populations, natural or human-caused disasters etc.
- Derivatives may be used by the Fund, and these can behave unexpectedly. The pricing and volatility of many derivatives may diverge from strictly reflecting the pricing or volatility of their underlying reference(s), instrument or asset.

Risk Disclosure

- Investment Leverage occurs when the economic exposure is greater than the amount invested, such as when derivatives are used. A Fund that employs leverage may experience greater gains and/or losses due to the amplification effect from a movement in the price of the reference source.
- Further information on the potential risks can be found in the Key Information Document (KID) and/or the Prospectus or Offering Memorandum.

Benchmark disclosure

The Investment Advisor will use its discretion to invest in securities not included in the reference benchmark based on active investment management strategies and specific investment opportunities. It is foreseen that the reference benchmark will not be used as a universe from which to select securities. The deviation of the Fund’s performance and underlying investments’ weightings relative to the benchmark are monitored, but not constrained, to a defined range.
