ABSOLUTE RETURN MULTI STRATEGIES, a compartment of GENERALI INVESTMENTS SICAV

Class: C, Share: X (Accumulation) ISIN: LU0260159792

This SICAV is managed by Generali Investments Luxembourg S.A.

Objectives and Investment Policy

The objective of the Fund is to outperform the €STR Index over medium-term under all market conditions pursuing an absolute return strategy.

In order to achieve its objective, the Fund performs an active asset allocation into a diversified portfolio of debt related securities consisting of fixed rate and floating rate bonds of primarily public sector and sovereign issuers, money market instruments, as well as equities, UCITS, UCIs and Exchange Traded Funds ("ETFs") in major markets and currencies. Secondly, the Fund maintains for investment purposes a diversified portfolio of equity derivatives, interest rate derivatives, and currency derivatives, both on regulated markets and over the counter, as well as derivatives based on eligible financial indices on commodities.

In case the Investment Manager has a negative view on a particular asset class, he may implement a synthetic short position in that asset class through the use of derivatives.

The maximum exposure of the following asset classes in relation to the NAV will be:

- 100% in unhedged currency exposure
- 50% in equities
- 40% in money market instruments
- 70% in corporate bonds having Investment Grade Credit Rating (Investment Grade Credit Rating is credit rating from AAA to BBB- for

Standard & Poors or from Aaa to Baa3 for Moody's or from AAA to BBB- for Fitch or an equivalent credit rating by a recognised credit rating agency or an equivalent credit rating as deemed by the Investment Manager)

- 35% in emerging markets bonds
- 35% in derivatives based on eligible financial indices on commodities

The average duration of the portfolio of the Fund will be between minus 5 years and 7 years.

The Fund is actively managed and references the €STR Index by seeking to outperform it. With respect to Share Classes, the €STR Index is used for performance fee calculation purpose.

The Fund may use financial instruments and derivatives for hedging purposes, for efficient portfolio management purposes and for investment purposes. The Fund may also use TRS (and other FDI with the same characteristics) and securities lending techniques for the achievement of its investment objective.

The Fund is open-ended. You may redeem shares of the Fund on any Luxembourg business day.

The Share Class makes no dividend payment.

Risk and Reward Profile

This indicator represents the annual historical volatility of the Fund over a 5-year period. Its aim is to help investors understand the uncertainties attached to gains and losses that may have an impact on their investment.

The Fund's diversified exposure to equity markets and to interest rate and foreign currency risks explains its classification in this category.

Historical data such as that used to calculate the synthetic indicator cannot be considered as a reliable indication of the Fund's future risk profile.

The risk category associated with the Fund is not guaranteed and may change over time. The lowest risk category does not mean "risk free". Your initial investment is not guaranteed.

Significant risk(s) for the Fund not taken into account in this indicator include the following:

Credit Risk: The Fund invests a substantial portion of its assets in bonds. The issuers may become insolvent, whereby the bonds may lose a major part of their value or their value entirely.

Liquidity Risk: Risk related to a limited market activity that could not allow the Fund to sell or buy underlying investments in suitable conditions.

Counterparty Risk: The Fund primarily concludes derivatives trades with various contracting parties. There is a risk that counterparties may no longer be able to honour their payment or settlement obligations.

Derivative Risk: The Fund uses derivative instruments to achieve higher performance through speculation on rising or falling prices. Increased opportunities may lead to increased risk of losses.

Operational Risk and Depositary Risk: The Fund may fall victim to fraud or other criminal acts. It may also incur losses due to misunderstandings or errors by employees of the management company, the depositary or external third parties. Finally, its' management or the custody of its' assets can be adversely affected by external events such as fires, natural disasters etc.

For more information about the risks of the Fund, please refer to the risk section of the prospectus.
