

KEY INVESTOR INFORMATION

This document provides you with Key Investor Information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

Janus Henderson

Global Real Estate Equity Income Fund Class I2 HEUR ISIN: IE00B2B37667

A sub-fund of Janus Henderson Capital Funds plc, an Irish Investment Company (IIC) managed by Janus Henderson Investors Europe S.A.
Fund Currency: USD Share Class Currency: EUR

Objective and investment policy

Objective

The Fund aims to provide a positive level of income with the potential for capital growth over the long term (five years or more).

Performance target: To achieve a dividend yield exceeding that of the FTSE EPRA Nareit Global REIT Index, before the deduction of charges, on an annual basis.

Investment policy

The Fund invests at least 80% of its assets in shares (also known as equities) and equity-related securities of real estate investment trusts (REITs) and companies, which derive the main part of their revenue from owning, developing and managing real estate. The Fund may invest in companies of any size, located in any country. Up to 30% may be invested in developing markets.

The Fund may also invest in other assets including cash and money market instruments.

The Sub-Investment Adviser may use derivatives (complex financial instruments) to reduce risk, to manage the Fund more efficiently, or to generate additional capital or income for the Fund.

The Fund is actively managed with reference to the FTSE EPRA Nareit Global REIT Index, which is broadly representative of the companies in which it may invest, as this forms the basis of the Fund's performance target. The Sub-Investment Adviser has discretion to choose investments for the Fund with weightings different to the index or not in the index, but at times the Fund may hold investments similar to the index.

Strategy

The Sub-Investment Adviser follows a high conviction, 'bottom-up' (fundamental company analysis) approach, aiming to identify companies with attractive dividend

yield and growth characteristics from across the investment universe. The investment process looks to identify securities with quality assets, good management, balance sheet strength and growth that can deliver a regular and stable dividend with the potential for capital growth over the long term.

Other Information The Sub-Investment Adviser will seek to promote environmental, social and/or governance (ESG) principles in managing the Fund, which may include the exclusion of issuers that the Sub-Investment Adviser considers could contribute to significant ESG harm, as further described in the prospectus.

Distribution policy This share class accumulates income which is retained within the price of the share class.

Recommendation This Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

The Fund is designed to be used only as one component of several in a diversified investment portfolio. Investors should consider carefully the proportion of their portfolio invested into this Fund.

You can buy, sell or switch shares in the Fund on any business day, as defined in the Company's Prospectus.

For an explanation of some of the terms used in this document, please visit the glossary on our website at www.janushenderson.com.

Risk and reward profile

The value of an investment and any income from it can go up or down. When you sell your shares they may be worth less than you paid for them.

The rating above is based on the historic volatility of the share class. Historic data may not be a reliable indication of the future risk profile of the Fund. The rating is not guaranteed and may change over time.

The share class appears at 6 out of 7. Share classes in higher categories have shown greater and/or more frequent variations in Net Asset Value in the past five years than those in lower categories. The lowest category does not mean risk free.

Other material risks not captured by the rating:

Equities Shares/Units can lose value rapidly, and typically involve higher risks than bonds or money market instruments. The value of your investment may fall as a result.

Smaller Companies Shares of small and mid-size companies can be more volatile than shares of larger companies, and at times it may be difficult to value or to sell shares at desired times and prices, increasing the risk of losses.

Investment Focus The Fund is focused towards particular industries or investment themes and may be heavily impacted by factors such as changes in government regulation, increased price competition, technological advancements and other adverse events.

REITs The Fund invests in real estate investment trusts (REITs) and other companies or funds engaged in property investment, which involve risks

above those associated with investing directly in property. In particular, REITs may be subject to less strict regulation than the Fund itself and may experience greater volatility than their underlying assets.

Derivatives and Leverage The Fund may use derivatives to help achieve its investment objective. This can result in leverage (higher levels of debt), which can magnify an investment outcome. Gains or losses to the Fund may therefore be greater than the cost of the derivative. Derivatives also introduce other risks, in particular, that a derivative counterparty may not meet its contractual obligations.

Exchange Rates If the Fund holds assets in currencies other than the base currency of the Fund, or you invest in a share/unit class of a different currency to the Fund (unless hedged, i.e. mitigated by taking an offsetting position in a related security), the value of your investment may be impacted by changes in exchange rates.

Currency Hedging When the Fund, or a share/unit class, seeks to mitigate exchange rate movements of a currency relative to the base currency (hedge), the hedging strategy itself may positively or negatively impact the value of the Fund due to differences in short-term interest rates between the currencies.

Liquidity Securities within the Fund could become hard to value or to sell at a desired time and price, especially in extreme market conditions when asset prices may be falling, increasing the risk of investment losses.

Charges to Capital Some or all of the ongoing charges may be taken from capital, which may erode capital or reduce potential for capital growth.

Counterparty Risk and Operational Risk The Fund could lose money if a counterparty with which the Fund trades becomes unwilling or unable to meet its obligations, or as a result of failure or delay in operational processes or the failure of a third party provider.

For more information please see the Company's Prospectus.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of managing and distributing it. These charges reduce the potential growth of your investment.

If you invest through a third party provider you are advised to consult them directly as charges, performance and terms and conditions may differ materially to those shown in this document.

One-off charges taken before or after you invest*

| | |
|--------------|-------|
| Entry Charge | 2.00% |
| Exit Charge | 0.00% |

* The charges shown are maximum figures. In some cases you may pay less.

Past performance

Charges taken from the Fund over a year

| | |
|-----------------|-------|
| Ongoing Charges | 1.11% |
|-----------------|-------|

The ongoing charges are based on actual annualised expenses for the period ending 20 December 2023. Ongoing charges may vary from year to year. The figure for ongoing charges excludes portfolio transaction costs, except in the case of an initial charge paid by the Fund when buying shares or units in another Fund.

For more information about Charges please see the Company's Prospectus.

Warning: 30 June 2021. The Fund changed its name, objective and performance target. The past performance shown before this change was therefore achieved under circumstances that no longer apply.

*Warning: From 30 June 2021, the Fund's benchmark changed from FTSE EPRA Nareit Global Index to FTSE EPRA Nareit Global REIT Index. Past performance before 30 June 2021 is shown for the Fund's previous benchmark. The past performance is calculated in EUR.

The Fund was launched in September 2003 and the share class was launched in January 2008.

Past performance does not predict future returns.

The past performance takes into account all charges except one-off charges. The Fund does not aim to track the performance of the benchmark.

The share class currency is different to the base currency of the Fund and its chosen benchmark. Past performance for this share class includes currency hedging which is not reflected in the performance of the benchmark.

Practical information

Depository: J.P. Morgan SE, Dublin Branch

To obtain more information: This Key Investor Information Document may not contain all the information you need.

For the last published price of shares in the Fund or any additional information on the Fund, or to obtain the Company's prospectus or the annual/semi-annual report, please visit www.janushenderson.com.
