The Fund is authorised in Luxembourg and regulated by the Commission de Surveillance du Secteur Financier (CSSF).

Objectives and Investment Policy

- The objective of the Sub-Fund is to achieve capital appreciation over The long-term by investing its assets in shares or other securities issued by small and medium-sized companies that have their registered office or are carrying out the majority of their business in Switzerland. - Extra financial considerations (Environmental, Social and Governance ("ESG")) are fully integrated in the investment process of the Sub-Fund. Therefore, the Sub-Fund will focus on companies whose social and environmental factors and methods of governance have a sustainable impact on financial performance. An Extra-financial analysis process is used to assign an ESG score based on an internal analysis and/or on the data provided by an extra-financial rating agency in order to define the eligible investment universe.
- The Class is not entitled to any dividend distribution.

Risk and Reward Profile

- This synthetic risk and reward indicator is a risk indicator based on historical volatility and may not be a reliable indication of the future risk profile of the Class.
- The Risk and Reward Category shown is not a target or a guarantee and may shift over time.
- The lowest category does not mean a risk-free investment.
- The Risk and Reward Category shown indicates that the Sub-Fund invests mainly in securities which may experience sharp rises and falls in value, resulting from the evolution of the issuers' financial situation, but also from political and economic developments in the countries where the issuers are located or have significant activities.

Risks to which the Sub-Fund may be exposed and which may not be reflected in the indicator:

- Third parties risk: The failure of the third parties on which the Sub-Fund's operations depend may cause disruptions and losses.
- Significant holdings risk: The investment manager may hold a significant percentage of the shares of some companies. This may prevent the Sub-Fund from selling the shares promptly, impact the instruments prices and cause delays when facing redemptions in stressed market situations.

For more details about other risks associated with the investments of this Sub-Fund, please refer to the Risk Factors section of the Fund's prospectus.
