### **OBJECTIVES AND INVESTMENT POLICY**

- The investment objective of Vaughan Nelson U.S. Select Equity Fund (the "Fund") is to achieve long term growth of capital through an investment process that systematically includes Environmental, Social and Governance ("ESG") considerations. This Fund may not be appropriate for investors who plan to withdraw their money within less than 5 years.
- The Fund is not managed relative to a specific index. However, for indicative purposes only, the Fund's performance may be compared to the S&P 500 TR. In practice, the portfolio of the Fund is likely to include constituents of the index, however, the Fund is unconstrained by the index and may therefore significantly deviate from it.
- The Fund invests primarily in equity securities of U.S. companies and focuses on medium to larger issuers. The Fund is actively managed and uses fundamental analysis-which emphasises a bottom-up approach-to select stocks, searching primarily for companies whose valuations are below their long-term intrinsic value.
- The Fund invests at least two-thirds of its total assets in equity securities of U.S. companies, defined as companies domiciled or which exercise the preponderant part of their economic activities in the U.S. The Fund focuses on stocks of mid to large capitalization companies, but the Fund may invest in companies of any size. The Fund may invest on an ancillary basis in convertible bonds. The Fund may invest up to one third of its total assets in other securities than those described above including equity securities of non-U.S. companies. The Fund may invest up to 10% of its net assets in undertakings for collective investment. The Fund promotes environmental or social characteristics but does not have as its objective a sustainable investment. The Fund employs a multidimensional investment strategy considering climate factors and ESG issues. The portfolio construction process is the result of top-down macro-economic analysis, combined with research-driven, bottom up selection of specific issuers based on a climate scoring methodology and their good governance practices.
- On an ancillary basis, the Fund may use derivatives for hedging purposes. Certain of these techniques may qualify as Total Return Swaps ("TRSs"). Please refer to the chapter entitled "Use of Derivatives, Special Investment and Hedging Techniques" for additional information.
- Income earned by the Sub-Fund is reinvested.
- Shareholders may redeem Shares on demand on any business day in Luxembourg by 13h30
