OBJECTIVES AND INVESTMENT POLICY

- The investment objective of Loomis Sayles Strategic Alpha Bond Fund (the "Fund") is to generate positive returns over a 3 year period. This Fund may not be appropriate for investors who plan to withdraw their money within less than 3 years.
- The Fund is not managed relative to a specific index. However, for indicative purposes only, the Fund's performance may be compared to the ICE BofA US 3-Month Treasury Bill Index. In practice, the portfolio of the Fund is likely to include constituents of the index, however, the Fund is unconstrained by the index and may therefore significantly deviate from it.
- The Fund invests primarily in fixed income securities of worldwide issuers and in derivatives instruments in order to gain exposure to such assets. The Fund is actively managed and uses its research to invest across a global range of investment opportunities related to credit, currencies and interest rates.
- The Fund invests at least 51% of its total assets in fixed income securities issued by worldwide issuers, cash and cash equivalents and money market instruments. Fixed income securities and related instruments may include debt securities issued or guaranteed by sovereign governments, government agencies, public international bodies and corporations. Although the Fund may invest up to 100% of its total assets in fixed income securities rated below investment grade, it is expected that the Fund's investments in below investment grade fixed income securities will not exceed 50% of the Fund's total assets. Below investment grade fixed income securities are securities rated less than BBB- (Standard & Poor's Ratings Services), Baa3 (Moody's Investors Service, Inc.), an equivalent rating by Fitch Ratings or other Nationally Recognized Statistical Rating Organization, or if unrated, determined by the Investment Manager to be equivalent. Fixed income securities may also include investments in convertibles bonds, mortgage-backed securities and asset-backed securities (including CLO/CDO up to 5% and non-Agency RMBS up to 15% of the Fund's total assets). Up to 25% of the Fund's total assets may be invested in mortgage-backed securities and asset-backed securities rated below investment grade. The Fund may invest up to 5% of its total assets in fixed income securities listed on the China Interbank Bond Market through the mutual bond market access between Mainland China and Hong Kong (the "Bond Connect"). The Fund may invest up to 49% of its total assets in securities other than those described above. The Fund may not invest more than 10% of its total assets in equities, including but not limited to, preferred stocks, common stocks and other equity-type securities and certain eligible A-Shares via the Shanghai-Hong Kong Stock Connect program and/or Shenzhen-Hong Kong Stock Connect program (collectively, the "Stock Connects"). The Fund may invest up to 10% of its net assets in undertakings for collective investment.
- The Fund uses derivatives for hedging and investment purposes. The Fund will use derivatives (i) to reduce certain risks, such as the risk of owning bonds, the risk that the exchange rate between the U.S. dollar and other currencies changes or the risk that occurs when interest rates change and (ii) to gain exposure to certain investment markets, individual companies or governments in a manner that can be more liquid than buying bonds or other securities and to currencies other than the U.S. dollar.
- This hedged share class aims at hedging the net asset value against the fluctuation between the reference currency of the Fund and the Share class reference currency.
- Income earned by the Sub-Fund is reinvested.
- Shareholders may redeem Shares on demand on any business day in Luxembourg by 13h30
- Please refer to the section entitled "Subscription, Transfer, Conversion and Redemption of Shares" of the Prospectus for additional information.
