

KEY INVESTOR INFORMATION

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Fisher Investments Institutional Emerging Markets Equity Fund (the "Fund") a sub-fund of Fisher Investments Institutional Funds plc Sterling Class Shares (unhedged) (IE00B5N8B792)

The Fund is managed by Carne Global Fund Managers (Ireland) Limited (the "Manager"), with Fisher Investments acting as the Fund's investment manager (the "Investment Manager")

OBJECTIVE AND INVESTMENT POLICY

Investment Objective

The investment objective of this actively managed Fund is to outperform the MSCI Emerging Markets Index (the "Benchmark"). There is no guarantee the investment objective will be achieved. The Fund is actively managed by the Investment Manager, meaning that investment decisions are made on a fully discretionary basis. Accordingly, the portfolio holdings may deviate from the Benchmark. This deviation may be material.

Investment Policy

The Fund invests:

- Primarily in equities and equity-related securities of issuers that are included in the country indices represented within the Benchmark.
- Up to 20% of its total assets in equities and equity-related securities of companies established in countries not represented within the Benchmark.
- Up to 10% of its total assets in unlisted equities.

While the Fund will invest primarily in equities and equity-related securities in emerging markets, as referred to above, the Fund may, in circumstances of extreme volatility or if market factors require and if considered appropriate to the investment objective, invest on a short term basis in listed equities and equity-related securities of issuers located in non-emerging market countries worldwide, cash, cash equivalents, money market instruments or government or corporate bonds. Investments in other funds will not be more than 10% of the Fund's total assets.

The Fund may use investment techniques (known as derivatives), but only to reduce or protect against risk, reduce costs, and generate income or capital with appropriate risk. Furthermore, the Fund may use these techniques if controlled by the Fund's risk management process.

Recommendation: this Fund may not be appropriate for investors who plan to withdraw their money within 3 to 5 years.

For full investment objectives and policy details, please refer to the Prospectus and Supplement.

Income

Income from the Fund's investments will not be paid out in dividends (except for the distributing D and D3 Class Shares, which will distribute income in accordance with the distributing policy set out in the Supplement).

You may sell your shares on any bank business day in Dublin, Ireland.

RISK AND REWARD PROFILE

Lower risk

Higher risk

Potentially lower reward

Potentially higher reward

The risk category shows how much the Fund has risen and fallen in the past 5 years, and therefore how much the Fund's returns have varied. It is calculated using historical data and may not be a reliable indicator of the Fund's future risk profile. To the extent this share class has no or limited historical data, Benchmark performance data is used to supplement such historical data. The risk category is not guaranteed to remain unchanged and may shift over time. The lowest category does not mean risk-free.

The Fund is ranked 6 due to its exposure to equity markets, which means the Fund may experience significant volatility.

Currency Risk: The base currency of the Fund is US Dollars. The non-US Dollar share classes of the Fund may be affected unfavourably by fluctuations in currency rates.

Liquidity Risk: Some of the Fund's investments may be difficult to

buy or sell. This might affect the price at which the investments can be sold, which would affect the Fund's value.

Counterparty Risk: There is a risk that counterparties to some of the Fund's investments may not perform their obligations and that transactions may not settle.

Emerging Markets Risk: The Fund invests in the emerging markets equities market, which carries a higher than average investment risk and the Fund may have problems or delays in getting its investments back when required.

Stock Connect Risk: The Fund may trade through the Shanghai and Shenzhen Stock Connect programmes, which introduces regulatory risks that may prevent timely purchases and/or sales of securities and other risks unique to the stock connect programme.

For a more detailed explanation of these and other risks, please refer to the Prospectus and Supplement.

CHARGES

The charges you pay are used to pay the cost of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Entry charge	None
--------------	------

Exit charge	None
-------------	------

This is the maximum that might be taken out of your money before it is invested and before the proceeds of your investment are paid out.
