DIVERSIFIED BETA, a compartment of AURIS

R CHF hedged (Accumulation) LU1531731179

This Fund is managed by Auris Gestion

Objectives and investment policy

Investment Objective :

This Fund is a diversified fund aiming to generate medium term performance through discretionary and opportunistic management in debt and capital markets.

Index :

The Fund's primary investment objective is to outperform its benchmark of reference which is composed of: 25% capitalised EONIA, 25% of the EURO STOXX 50 TR and 50% of the Euro MTS 1-3 years. It is to be used as a comparative assessment and is calculated in Euros and reinvested dividends.

Investment Strategy :

The investment process is structured around two investment pillars:

- Definition for strategic asset allocation in line with the Fund targets in order to decide the Fund's exposure to the different asset classes. Allocation is regularly reviewed in light of market developments in order to obtain a stable average yield over the long term.
- Tactical allocation of the Fund is based upon a "bond picking" management approach for rates, a "stock picking" management approach for securities, and based upon a discretionary management approach and is derived from fundamental criteria.

The Fund is invested in a wide range of assets throughout the world, with no geographical, sectorial or monetary limitations, such as:

- from 0 to 50% in listed company shares, including up to 35% in emerging markets (OCDE), up to 15% in emerging markets (non-OCDE) and up to 25% in securities linked with gold and commodities;
- from 50 to 100% in interest rate securities issued by companies or governments, with a Fund duration bracket between 0 and 5;
- from 0 to 10% in collective investment funds.

Finally to either profit from or hedge against market fluctuations or for effective portfolio management, the Fund may use derivative financial instruments.

The reference currency of the Fund is the Euro.

The currency risk on currencies other than the euro may be up to 40% of the net assets.

The investor can buy or sell shares of the Fund on every day which is a bank business day in Luxembourg, at 12:00 (Paris time).

Incomes of the Fund are reinvested.

Recommendation : The Fund should be held for a period of minimum three years.

You can find more details on the investment objectives and policy of the Fund in the "Investment Objective, Benchmark of the Compartment" and "Investment Strategy of the Compartment" sections of the Prospectus.

This indicator represents the annual historical volatility of the Fund over a 5-year period.

Risk Category 3 reflects limited potential gains and/or losses for the portfolio. This is due to investments in stocks, bonds and money market instruments on OECD and Emerging Markets.

Historical data such as that used to calculate the synthetic indicator cannot be considered as a reliable indication of the Fund's future risk profile.

The risk category associated with the Fund is not guaranteed and may change over time.

The lowest risk category does not mean "risk free".

Your initial investment is not guaranteed.

Significant risk(s) for the Fund not taken into account in this indicator include the following:

Currency risk: The Fund invests in overseas markets. It can be affected by changes in exchange rates which may cause the value of your investment to decrease or increase.

Derivative for hedging purpose: The use of derivatives for hedging in a rising market may restrict potential gains.

Liquidity risk: Liquidity risk exists when particular investments are difficult to purchase or sell. This can reduce the Fund's returns because the Fund may be unable to trade at advantageous times or prices.

Financial, economic and political risks: Financial instruments are impacted by various factors, of which, without being exhaustive, the development of the financial market, the economic development of issuers who are themselves affected by the general world economic situation as well as economic and political conditions prevailing in each country.

Risk linked to the use of derivative instruments: The Fund uses derivative instruments, which means financial instruments whose value depends on those of an underlying asset. Therefore fluctuations in the price of an underlying asset, even if minor, could lead to significant variations in the price of the corresponding derivative instrument.
