ODDO BHF Global Credit Short Duration

(hereinafter the "Sub-fund")

A sub-fund of SICAV ODDO BHF (hereinafter the "SICAV"), managed by ODDO BHF Asset Management SAS

Share class: ODDO BHF Global Credit Short Duration DPw-EUR – LU1833931113 – EUR – Distribution

OBJECTIVES AND INVESTMENT POLICY

The Sub-fund seeks to generate high returns and capital growth.

The Sub-fund is actively managed but is not managed in reference to a benchmark index.

The Sub-fund will invest at least 50% of its net assets in international debt securities (investment grade and high yield). Bonds rated at least B3 or B- by an internationally recognised ratings agency such as Moody's or S&P (or deemed equivalent by the Management Company, or using the Management Company's internal rating) will form the core of the investment. The Management Company does not use the ratings issued by ratings agencies automatically or in isolation, as it also applies its own internal analysis. If the rating of a security is downgraded, the Management Company will take the interests of the shareholders, the market conditions and its own analysis of the relevant fixed income securities into account when respecting rating limits. If the rating of a security is downgraded to below B3 or B- (in the worst-case scenario, a security may even be downgraded to the point that it is considered distressed), it will be sold within six months under normal market conditions in accordance with the best interests of the Shareholders. Distressed securities are instruments issued by a company that is in default or undergoing bankruptcy proceedings. In the situations described above, if distressed securities make up more than 10% of the net assets of the Sub-fund, the portion above 10% will be sold at the earliest opportunity under normal market conditions and in Shareholders' best interests. The Sub-fund will not actively invest in distressed securities. The portfolio is composed of securities with a minimum rating of B2/B.

At least 75% of debt securities will have a residual maturity not exceeding five years.

Currency risk will be hedged at a level resulting in residual risk equivalent to 5% of the total Sub-fund assets.

The number of securities in the portfolio may be between 100 and 300 international bonds, and includes issuers from emerging countries that are not OECD member states. The Sub-fund will only invest in securities denominated in currencies from OECD member states, and in particular USD, EUR, GBP, JPY, CHF, NOK, SEK, DKK.

The Sub-fund may hold cash or equivalent assets in order to be able to pay redemption proceeds or meet other liquidity requirements. These assets may take the form of treasury bills and other money market instruments rated investment grade (at least BBB- by Standard & Poor's or a rating deemed equivalent by the Management Company, or using the Management Company's internal rating), with a residual maturity not exceeding 12 months, as well as term deposits and demand deposits.

In the context of its investment strategy, the Sub-fund may make use of derivatives for investment and hedging purposes. In particular, the Sub-fund may, at the sole discretion of the Management Company, make use of credit default swaps (on securities or indices) in the role of buyer or seller.

The Sub-fund may invest up to 10% of its assets in units or shares of European UCITS, in AIFs from France or other EU member states, as well as in foreign investment funds. These funds may be managed by ODDO BHF Asset Management SAS and/or ODDO BHF Asset Management GmbH.

The Sub-fund's total exposure to fixed income and credit markets, including derivative instruments, is limited to 120% of the net assets.

Subscription, redemption and conversion requests are centralised by the Company's Central Administration every net asset value Valuation Day until 12:00 noon (Luxembourg time, CET/CEST) and executed on the basis of the following day's net asset value.

Recommended investment horizon: three to five years

RISK AND REWARD PROFILE

Historical data, such as is used to calculate the synthetic indicator, may not be a reliable indication of the future risk profile of the Sub-fund. The risk profile is not guaranteed to remain unchanged and may shift over time. The lowest category does not mean a risk-free investment. The capital initially invested is not guaranteed.

Why is the Sub-fund placed in category 3?

The Sub-fund has a moderate level of risk due to its investment strategy, which consists in investing at least 50% of its net assets in international debt instruments (investment grade and high yield).

Material risks to the Sub-fund that are not taken into account in the indicator:

Credit risk: this is the risk of a sudden downgrading of an issuer's credit rating or the risk of an issuer's insolvency.

Liquidity risk: the Sub-fund invests in markets that may be affected by a fall in liquidity. Low volumes of market transactions may have an impact on prices at which the manager opens or closes positions.

Impact of financial techniques: taking into account the use of derivatives in particular, the Sub-fund's maximum exposure to individual asset classes may exceed its net assets. In the event of unfavourable changes in the strategies used, the net asset value may fall more significantly than the markets to which the Sub-fund is exposed.

Counterparty risk: risk of a counterparty's default, causing it to default on payment. The Sub-fund may be exposed to this risk resulting from the use of forward financial instruments or temporary purchases and sales of securities contracts negotiated over-the-counter with a credit institution if the latter is unable to honour its commitments.

If one of these risks were to materialise, the Sub-fund's net asset value may fall.

CHARGES

Charges and fees paid are used to pay the costs of marketing and distribution; these charges reduce the potential growth of the investment.

One-off charges taken before or after you invest	
Entry charges	None
Exit charges	0.50%

This is the maximum that might be deducted from your capital before it is invested and/or before the proceeds of your investment are paid out. These charges are payable to the distributor. In some cases, investors may pay less.

Charges taken by the Sub-fund over one year	
Ongoing charges	0.63%

Charges taken by the Sub-fund under specific conditions	
Performance fees	None

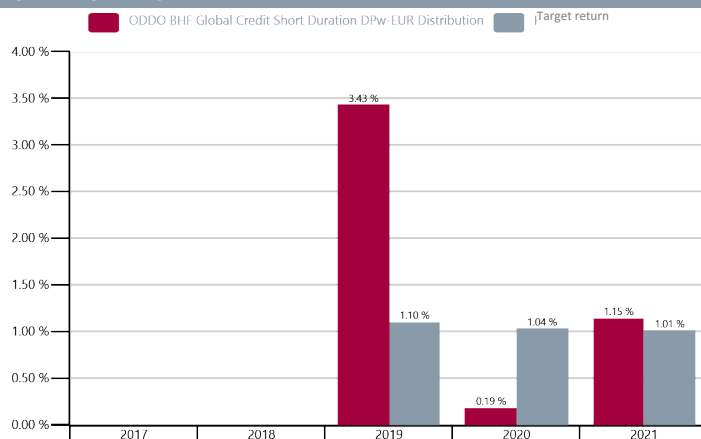

Ongoing charges are based on the expenses for the last financial year ended October 2021.

Actual charges may vary from year to year. The SICAV's annual report for each financial year includes detail on the exact charges made.

These charges do not include: performance fees and intermediary fees except in the case of entry and/or exit charges paid by the Sub-fund when it buys or sells units in another collective investment vehicle.

For more details regarding fees, please refer to the "Fees and Expenses" section of the prospectus, available at am.oddo-bhf.com or from the registered office of the SICAV.

PAST PERFORMANCE

Performance varies over time and is not an indication of future results.

The annualised performances shown in this chart are calculated after deducting all charges taken by the Sub-fund.

This Sub-fund was created on 22 October 2018.

The reference currency of the Sub-fund is the euro (EUR).

The Sub-fund does not have a benchmark index. The target return of €STR + 8.5 bps +1.5% (capitalised) is used to compare performance and, where applicable, to calculate performance fees.
