JPM EUR Standard Money Market VNAV S (acc.)

a Share Class of JPMorgan Liquidity Funds – EUR Standard Money Market VNAV Fund. The management company is JPMorgan Asset Management (Europe) S.à r.l.

Objectives and Investment Policy

Investment Objective: The Sub-Fund seeks to achieve a return in the Reference Currency in excess of Euro money markets whilst aiming to preserve capital, consistent with prevailing money market rates, and maintain a high degree of liquidity.

Investment Policy: The Sub-Fund will invest its assets in Debt Securities and deposits with credit institutions.

The Sub-Fund may have exposure to investments with zero or negative yields in adverse market conditions.

The weighted average maturity of the Sub-Fund's investments will not exceed 6 months and the initial or remaining maturity of each Debt Security will not exceed 2 years with a 397 day reset at the time of purchase.

In addition to receiving a favourable assessment of their credit quality pursuant to the Management Company's Internal Credit Procedures, Debt Securities with a long-term rating will be rated at least "BBB" and Debt Securities with a short-term rating will be rated at least "A-2" by Standard & Poor's or otherwise similarly rated by another independent rating agency.

The Sub-Fund may also invest in unrated Debt Securities of comparable credit quality to those specified above.

The Sub-Fund may invest in units or shares of other MMFs. The Sub-Fund may also use Reverse Repurchase Agreements.

At least 67% of the assets of the Sub-Fund will be denominated in EUR, however the Sub-Fund may invest in assets denominated in any currency and non-EUR exposure will be hedged into EUR.

The Sub-Fund may use financial derivative instruments for the purpose of hedging the interest rate or exchange rate risks inherent in other investments of the Sub-Fund.

The Investment Manager seeks to evaluate whether environmental, social and governance factors could have a material positive or negative impact on the cash flows or risk profiles of many issuers in which the Sub-Fund may invest. These determinations may not be conclusive and securities of issuers which may be negatively impacted by such factors may be purchased and retained by the Sub-Fund while the Sub-Fund may divest or not invest in securities of issuers which may be positively impacted by such factors.

The Sub-Fund aims to maintain a "AA" rating, or equivalent, assigned by at least one rating agency.

At least 51% of assets are invested in issuers with positive environmental and/or social characteristics that follow good governance practices as measured through the Investment Manager's proprietary ESG scoring methodology and/or third party data. In addition, the Sub-Fund

incorporates a bespoke set of Employee Engagement and Diversity (EE&D) data inputs into the investment process which considers an issuer's gender breakdown, diversity programmes, ethnicity score and equal pay score. The inputs may evolve but will relate directly to EE&D. The Sub-Fund invests at least 51% of EE&D rated assets in issuers scoring above a pre-defined threshold in relation to EE&D inputs.

The Sub-Fund invests at least 10% of assets excluding ancillary liquid assets and derivatives for hedging, in Sustainable Investments, as defined under SFDR, contributing to environmental or social objectives.

The Sub-Fund excludes certain sectors, companies / issuers or practices from the investment universe based on specific values or norms-based screening policies. These policies set limits or full exclusions on certain industries and companies based on specific ESG criteria and / or minimum standards of business practice based on international norms. To support this screening, it relies on third party provider(s) who identify an issuer's participation in or the revenue which they derive from activities that are inconsistent with the values and norms based screens. Third party data may be subject to limitations in respect of its accuracy and / or completeness. The exclusions policy for the Sub-Fund can be found on the Management Company's Website (www.jpmorganassetmanagement.lu).

The Sub-Fund systematically includes ESG analysis in its investment decisions on at least 90% of securities purchased.

Further information relevant to the Sub-Fund's investment policy is contained in the main part of the Prospectus under "Investment Policies" (and in particular under "Investment Considerations" included in that Section), "Appendix II - Investment Restrictions and Powers" and "Appendix VI – Collateral".
