

Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

"Hong Kong Dollar D2 Class Income Plus Units", a unit class of Global Property Securities Fund (the Fund), a sub-fund of Principal Global Investors Funds (the Trust) (ISIN: IE000DXKTCR3)

This Fund is managed by Principal Global Investors (Ireland) Limited (the Manager), part of The Principal Financial Group of companies

Objectives and investment policy

The Fund seeks to provide a total return primarily through investment in a global portfolio of publicly traded securities of companies engaged in the property industry or whose value is largely derived from property assets.

The Fund's investment universe will include real estate investment trusts (REITs) or non-REIT real estate companies in the United States, and similar structures in other areas of the world.

The Fund may also invest in equity and debt securities of companies that at the time of investment have at least 50% of their assets, income or profits derived from products or services related to the global property industry. Debt securities that the Fund invests in such as fixed and/or floating corporate bonds are limited to those issued by property security companies such as non-REIT real estate companies and may or may not be of investment grade.

The Fund may invest in common and preferred equity securities, debt securities, options, warrants (up to 5% of the Fund), convertible bonds, exchange traded funds (ETFs), and depository receipts and other related securities.

This Fund is classified as an ESG Orientated Fund as defined in the Prospectus and takes into account environmental and social characteristics deemed material and relevant by the Investment Adviser for evaluating the sustainability credentials and risks of a listed real estate investment trusts (REITs) or other listed real estate securities. The environmental characteristics promoted by the Fund include, but are not limited to; reduction of greenhouse gas (GHG) emissions, water conservation, and increasing usage of renewable energy sources. The social characteristics promoted by the Fund include, but are not limited to; increased diversity and inclusion in the workplace and on company boards and greater adoption of policies to eliminate the practice of forced labour.

While it is generally intended for the Fund to be fully invested at all times, there may be a portion of assets held in cash or deposits at any given time.

Any income received by the unit class will be distributed.

You may buy or sell units on demand on each Dealing Day being a Business Day as defined in the Fund's supplement (which together with the prospectus constitutes the Prospectus).

The Fund is actively managed and aims to outperform the FTSE EPRA NAREIT Developed NTR Index (the "Index"). The portfolio manager may reference the Index as part of the investment management process, and it is also considered as part of the investment risk monitoring process. However, the portfolio manager maintains full discretion to select investments for the Fund in line with the above investment policy.

Please see the section entitled Investment Objective, Policies, Strategy and Profile of a Typical Investor of the Supplement where full details are disclosed.

Risk and reward profile

The Risk and Reward Indicator table demonstrates where the Fund ranks in terms of its potential risk and reward. The higher the rank the greater the potential reward but the greater the risk of losing money. It is based on past data, may change over time and may not be a reliable indication of the future risk profile of the Fund. The shaded area in the table below shows the Fund's ranking on the Risk and Reward Indicator.

This Fund is ranked at 6 because funds of this type have experienced high rises and falls in value in the past.

The following are risks materially relevant that are not captured by the SRRI:

- The Fund may utilise a number of derivative instruments in managing the Investment Objective of the Fund. The primary risks associated with the use of such instruments are credit risk, counterparty risk and collateral risk.
- Due to the underlying real estate assets held in REITs, the liquidity of these securities is typically less than other equity securities.
- The market value of debt securities is affected by changes in prevailing interest rates. The Fund may also be exposed to credit and default risk by investing in such securities. The default risk increases for below investment grade debt securities.
- The Manager integrates sustainability risks into the investment processes for the Fund in relation to risk management and decision making. This means ESG factors are considered as part of the investment process which may carry the risk that the Fund's performance may be negatively impacted due to restrictions placed on its exposure to certain types of investments as a result.
- There are specific risks associated with investing in the securities of companies in the real estate industry such as declines in the value of real estate, economic conditions and variation in property taxes, operating expenses and rental income.
- The value of an investment may fluctuate due to changes in exchange rates between currencies and may or may not be hedged back to the Fund's base currency.
- The price of equity securities fluctuates based on changes in a company's financial condition, overall market and economic conditions and market sentiment, resulting in an increased potential for volatility.
- Fees and/or distributions may be paid out of the capital of the fund, which has the effect of lowering the capital value of investors' holdings in the fund and limiting the potential for future capital growth.

Please see the section entitled Special Investment Considerations and Risks of the Prospectus where full details are disclosed.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	5.00%
Exit charge	0.00%

These are the maximum charges that we might take out of your money before it is invested and before we pay out the sale proceeds of your investment. In some cases, you might pay less and you should speak to your financial adviser about this.

Charges taken from the Fund over a year	
Ongoing charges	1.76%

Charges taken from the Fund under specific conditions	
Performance fee	NONE

Past performance

There is insufficient data to provide a useful indication of past performance to investors.

Ongoing charges are based on the last year's expenses, for the year ending September 2022, and this figure may vary from year to year. It excludes:

- Portfolio transactions costs, except in the case of an entry/exit charge paid by the Fund when buying or selling units in another collective investment undertaking.
- Whereas the entry charge will not normally be made on a conversion, the Manager is entitled to make any such charges at its discretion. In particular, if more than four conversions are made during a twelve month period, the Manager may impose a service fee for any subsequent conversions during the subsequent twelve month period.

For more information about charges, please see Charges and Expenses in the Prospectus which is available as set out below.

Fund launch date: 17/04/2007.

Share/unit class launch date: 03/06/2022.
