

Schroder International Selection Fund

Global Bond (USD Hedged Share Class)

Important Information

This simplified prospectus (hereinafter called the "Simplified Prospectus") contains key information about the Fund which is a sub-fund of Schroder International Selection Fund (hereinafter called the "Company"). In particular, it refers to hedged Share Classes of the Fund which are denominated in a currency other than the Fund Currency and hedged in order to remove fluctuations in the value of the two currencies. If you would like more information before you invest, please consult the full prospectus or the Simplified Prospectus for Share Classes priced in the Fund Currency. Should any inconsistency arise between the translated and the English version of this document, the English version shall always prevail. The rights and duties of the Investor as well as the legal relationship with the Company are laid down in the full prospectus. The full prospectus and the annual and semi-annual reports may be obtained free of charge from Schroder Investment Management (Luxembourg) S.A. and from all Distributors. The terms with capital letters used in this Simplified Prospectus shall have the same meaning than the terms used in the full prospectus of the Company unless otherwise defined herein.

Investment Objective

To provide a return of capital growth and income primarily through investment in a portfolio of bonds and other fixed and floating rate securities denominated in various currencies issued by governments, government agencies, supra-national and corporate issuers worldwide, with a maximum of 20% of the net assets of the Fund being invested in securities with a credit rating below investment grade (as measured by Standard & Poor's or any equivalent grade of other credit rating agencies).

Global Risk Exposure

The Fund employs the Value-at-Risk (VaR) approach to measure its global risk exposure.

Use of Financial Derivative Instruments

This Fund may employ financial derivative instruments for hedging and investment purposes in accordance with its risk profile. Financial derivative instruments may be employed for instance to generate additional income from exposure to credit risk in purchasing or selling protection through credit default swaps, adjusting the Fund's duration through the tactical use of interest related financial derivative instruments, generating additional income through inflation or volatility linked financial derivative instruments or increasing its currency exposure through the use of currency related financial derivative instruments. Financial derivative instruments could also be employed to create synthetic instruments. Such financial derivative instruments include over-the-counter and/or exchange traded options, futures, warrants, swaps, forward contracts and/or a combination of the above.

Fund's Risk Profile

The Fund is a low to medium risk vehicle. However, the use of financial derivative instruments may lead to a higher volatility in the price of Shares and may increase the Fund's counterparty risk.

For full details of the risks applicable to investing in this Fund, Investors should refer to Appendix II "Risks of Investment" of the full prospectus.
