## AXA World Funds (the "Company")

### INVESTMENT INFORMATION

<b>Investment Objective</b>	The objective of the Company is to achieve a certain level of current income through investing in a diversified range of securities throughout the markets of the world in accordance with the Sub-Funds' investment objectives as described in each Appendix.
<b>Investment Policy</b>	The Company is commonly described as an umbrella fund, presently structured to provide both institutional and private investors with access to a range of separate pools of assets or Sub-Funds. The Sub-Funds invest in a diversified range of worldwide assets in accordance with their specific investment objectives.
<b>Risk Profile</b>	<p>As for any financial investment, potential investors should be aware that the value of the assets of the Sub-Funds may strongly fluctuate.</p> <p>There can be no assurance that the Sub-Fund's investments will be successful or that the investment objectives of any Sub-Fund will be achieved. The Company does not guarantee shareholders that they will not suffer losses from their investments.</p> <p>Furthermore any Sub-Fund is exposed to market risk, liquidity risk, currency risk, interest rates risk and management risk. Risks generated by the use of hedging and income enhancement strategies may also apply to any Sub-Fund. Certain Sub-Funds concentrating their investment in companies of certain sectors of the economy will also be subject to the risks associated with concentrating investment in such sectors.</p> <p>Inssofar as any Sub-Fund may invest in equity linked instruments such as warrants, such investments entail some more risks due to the gearing effect of investment in warrants and the volatility of warrant prices.</p> <p>For further details on the risks involved by investing in the Company, please refer to the section "General Risk Considerations" set out in the full prospectus of the Company.</p> <p><b>For specific risk considerations relating to any Sub-Fund, please refer to the relevant sections in the Appendices.</b></p>

### FINANCIAL INFORMATION

<b>Taxation</b>	<p>The Company is not liable to any Luxembourg tax on profits or income nor are dividends paid by the Company liable to any Luxembourg withholding tax without prejudice to the potential application of the law dated June 21, 2005 implementing the EU Savings Directive, as further described in the full prospectus. The Company is, however, liable in Luxembourg to a tax of 0.05%, respectively 0.01% for institutional sub-funds or classes, per annum of its net asset value, such tax being payable quarterly in arrears on the basis of the net asset value of the relevant sub-fund or class at the end of the quarter.</p> <p>No stamp duty or other tax is payable in Luxembourg on the issue of shares. No Luxembourg tax is payable on the realised or unrealised capital appreciation of the assets of the Company. No further capital tax is payable.</p> <p>Dividends and interest received by the Company on its investments may be subject to non-recoverable withholding taxes imposed by their countries of origin.</p> <p><b>Further taxation may apply to the income or capital gains received by investors. Investors are urged to seek either professional tax advice or information from local organisations.</b></p>
<b>Fees and Expenses</b>	<p style="text-align: center;"><b><u>1. Payable by the Shareholders</u></b></p> <p>The information below is without prejudice to other arrangements in respect of any additional fees that may be agreed upon between shareholders and their professional advisers.</p> <p><b>To the Management Company</b></p> <ul style="list-style-type: none"> <li>• On Application</li> </ul> <p>A subscription fee will be charged on the subscription of Shares as specified for each Class of Shares or</p>

Sub-Fund in the Appendices below.

The Management Company may pay part of its initial fee to the investor's professional adviser or agent, in relation to certain class of Shares.

- On Conversion

Unless otherwise specified in the Appendices, no conversion charges may be levied except in the following circumstances:

- a) the shareholder has already made 4 conversions in the last 12-month period; in such case the shareholder may be charged a total fee of a maximum of 1% of the net asset value of the shares converted for each additional conversion in that 12-month period; or
- b) the shareholder converts its shares to a sub-fund with a higher sales charge within the first 12 month period following initial investment in the Sub-Fund; in such case the shareholder will have to pay the difference between the two sales charge levels to the Company.

- On Redemption

Unless otherwise specified in the Appendices, no fee is levied on the redemption of Shares.

- Regular Savings Plan

Regular savings plans are available for the benefit of residents of Austria and Germany. At a future date, the regular savings plan may be extended to certain other countries in which the Company is authorised, the details of which may be obtained at any time at the registered office of the Company upon request.

Shareholders who have subscribed for regular savings plan may be charged additional costs for the processing and maintenance of the plan with the Registrar and Transfer Agent.

However, in the first year, only one third of the costs of processing and maintenance will be charged to shareholders subscribing for Shares or additional Shares in the context of the regular saving plan.

## **2. Fees payable by the Company**

### **To the Management Company**

The Management Company is entitled to receive out of the net assets of each Sub-Fund an annual management fee specified in the relevant Appendices as a maximum rate. The annual management fees are calculated as a percentage of the Net Asset Value of each Sub Fund.

In addition for specific Classes of Shares, as detailed in the relevant Appendices, a distribution fee is calculated on top of the annual management fee, as a maximum percentage of the Net Asset Value of each Sub-Fund.

These fees are calculated and accrued daily and are payable monthly in arrears.

The Management Company is responsible for the payment of the fees of the Investment Managers. The Management Company is also entitled to any rounding adjustments.

### **To the Custodian, to the Registrar and Transfer Agent, Domiciliary, Administrative and Paying Agent**

The maximum fees of the Custodian, Registrar and Transfer Agent, Domiciliary, Administrative and Paying Agent are charged to the Company and specified in the Appendices. These fees are subject to annual review.

The Company also pays the expenses and disbursements of the Custodian, Registrar and Transfer Agent, Domiciliary, Administrative and Paying Agent including the cost of electronic fund transfers.

The Company also pays any fees and expenses agreed from time to time between the Company and any distributors and representatives.

## **3. Expenses payable by each Sub-Fund**

Each Sub-Fund is charged with its own directly attributable expenses, such as the cost of investment dealing (including usual banking and brokerage fees due on transactions involving portfolio securities of each Sub-Fund, the latter to be included in the acquisition price and to be deducted from the selling price) and interest on permitted borrowings. Other expenses not attributable to any particular Sub-Fund are allocated on an equitable basis as determined by the Directors (normally pro rata to the respective Net Asset Value of each Sub-Fund). The Directors will endeavour to ensure that such expenses are fair and reasonable.

A portion of commissions paid to selected brokers for certain portfolio transactions may be repaid to the Sub-Funds which generated the commissions with these brokers and may be used to offset expenses.

For the Sub-Funds registered in Switzerland, the following restriction applies:

	<p>If the Management Company acquires units of other undertakings for collective investment that are managed directly or indirectly by the Management Company itself or a company to which it is related by virtue of common management or control or by way of a direct or indirect stake of more than 10% of the capital or votes ("related target funds"), only a reduced all-in fee of 0,25%, including retrocession payments, may be charged to the Sub-Fund's assets in respect of such investments. Moreover, the Management Company may not charge to the Company any issuing or redemption commissions of the related target funds.</p> <p style="text-align: center;"><b><u>4. Expenses payable by the Company</u></b></p> <p>All expenses incurred in the formation of the Company have been fully amortised.</p> <p>The costs, charges and expenses which are payable by the Company include:</p> <ul style="list-style-type: none"> <li>- all taxes which may be due on the assets and the income of the Company;</li> <li>- remuneration of the Management Company, the Custodian, the Registrar and Transfer Agent, the Domiciliary and Administrative Agent, any Paying Agent, and of any representatives in jurisdictions where the Shares are qualified for sale, and of all other agents employed on behalf of the Company; such remuneration may be based on the net assets of the Company or on a transaction basis or may be a fixed sum;</li> <li>- the cost of preparing, printing and publishing in such languages as are necessary, and distributing offering information or documents concerning the Company, annual and semi-annual reports and such other reports or documents as may be allowed or required under the applicable laws or regulations of the jurisdictions or the authorities where the Shares are qualified for sale;</li> <li>- registrars' fees;</li> <li>- the cost of printing certificates and proxies;</li> <li>- the cost of preparing and filing the Articles and all other documents concerning the Company, including registration statements and offering circulars with all authorities (including local securities dealers' associations) having jurisdiction over the Company or the offering of Shares;</li> <li>- the cost of qualifying the Company or the sale of Shares in any jurisdiction or of a listing on any exchange;</li> <li>- the cost of accounting and bookkeeping;</li> <li>- legal and auditing fees;</li> <li>- directors' fees and expenses and remuneration of officers and employees of the Company;</li> <li>- the cost of preparing, printing, publishing and distributing public notices and other communications to the shareholders;</li> <li>- the cost of calculating the Net Asset Value of each Sub-Fund;</li> <li>- insurance, postage, telephone and telex;</li> <li>- distribution and sales support costs;</li> <li>- and all similar charges and expenses.</li> </ul>
<p><b>COMMERCIAL INFORMATION</b></p>	
<p><b>Subscription, redemption and conversion of Shares</b></p>	<p>Application for subscription, redemption or conversion of Shares may be made on any Business Day to the Registrar and Transfer Agent or any distributor appointed by the Company in the relevant country, as further described in the full prospectus.</p> <p>Unless otherwise specified in the Appendices , investors whose application for subscription, redemption or conversion are received by the Registrar and Transfer Agent prior to 3 pm on any Business Day will be processed at the Dealing Price calculated on the following Valuation Day plus respectively less any subscription, redemption or conversion fees as mentioned in the relevant Appendix.</p> <p>Different subscription, redemption or conversion procedures and time limits may apply if applications are made through a distributor. In such instances, each investor should obtain from the distributor information about the subscription, redemption or conversion procedure relevant to their application together with any time limit by which the subscription, redemption or conversion must be received. Investors should note that they may be unable to subscribe for, redeem or convert Shares through a distributor on days that such distributor is not open for business.</p> <p>All applications received by the Registrar and Transfer Agent after 3 pm shall be deemed to have been received on the following Business Day.</p> <p><b>(i) Subscription:</b> Subsequent applications for Shares may be made in writing by post, facsimile or telephone. Where made by telephone, applications should be confirmed by facsimile on the same day.</p> <p>Subscription amounts to be paid will be rounded up to the nearest whole currency unit or sub-unit of the relevant Reference Currency.</p> <p>The allotment of Shares is conditional upon receipt by the Custodian of monies on the Settlement Day.</p> <p><b>(ii) Redemption and Conversion:</b> Unless otherwise specified in the relevant Appendix, shareholders may give instructions to the Registrar and Transfer Agent for the conversion of Shares of one Class of Shares of any Sub-Fund into Shares of that same or a different Class in another Sub-Fund, where available, or for the conversion of distribution Shares into capitalisation Shares, or for the redemption of</p>

	Shares, on any Business Day by telephone, facsimile or post, quoting their Personal Account Number.
<b>Distribution policy</b>	<p>Distribution Shares pay a dividend to their holders. Capitalization Shares capitalize income. Dividends are declared by the Directors and approved by the shareholders. The Directors may determine annually, after the end of the relevant accounting year, if and to what extent the Company will pay dividends out of the net investment income and net capital gains available for distribution. Interim dividends may be paid if and when decided by the Directors in compliance with applicable law. Any dividend payments will be confirmed in writing to the holders of Distribution Shares.</p> <p><b>Unless otherwise specifically requested on the application form, dividends will be reinvested in further Shares of the same Class within the same Sub-Fund and shareholders will be advised of the details by a contract note.</b></p> <p>Holders of Shares held in Euroclear or Clearstream are not able to have their dividends reinvested. Dividends will be paid to Euroclear or Clearstream which will account for these amounts to the relevant shareholders.</p>
<b>Net Asset Value Information and Valuation Day</b>	<p>The Net Asset Value, the issue and repurchase price of the Shares of the Company and any suspension of such valuation will be made available to the public at the registered office of the Company.</p> <p>The Net Asset Value per Share of each Class within the Sub-Fund is determined in the relevant currency in which the Class is denominated, on each Valuation Day as described for each Sub-Fund in the relevant section in the Appendices.</p>
<b>ADDITIONAL INFORMATION</b>	
<b>Contact person</b>	For further information please do not hesitate to contact State Street Bank Luxembourg S.A. or your personal distributor or one of the Company's authorized distributors as further described in the full prospectus.
<b>Availability of documents</b>	Upon request copies of the full prospectus, the present simplified prospectus, articles of incorporation of the Company, annual and semi-annual reports may be obtained, at any time, at the registered office of the Company, the offices of the Registrar and Transfer Agent and at the offices of the authorized distributors in the relevant country.

## APPENDIX 1 - AXA World Funds – Aedificandi (the "Sub-Fund")

### INVESTMENT INFORMATION

<b>Investment Objective</b>	The objective of the Sub-Fund is to achieve long-term capital growth.												
<b>Investment Manager</b>	AXA Investment Managers Paris												
<b>Investment Policy</b>	<p>The Sub-Fund will seek to achieve its objectives by investing mainly in listed securities of companies engaged in the real estate industry.</p> <p>This strategy combines the "bottom-up" research process which aims for a strict selection of securities and to a lesser extent the "top-down" method in view of geographical asset allocation.</p> <p>The Sub-Fund's portfolio is invested in listed securities of the real estate industry and which are mainly negotiated on Regulated Markets in the Member States. On an ancillary basis, investments may be made on markets outside the EU.</p> <p>The portfolio is permanently invested for a minimum of 75% in equities, equivalent securities, investment certificates and cooperative investment certificates issued by private companies having their registered office in or by the public sector of any member of EU (securities eligible to the French Plan d'Epargne en Actions – PEA).</p>												
<b>Investment Restrictions</b>	<p>Notwithstanding the limits set forth in the section "Investment Restrictions" of the prospectus, the Sub-Fund may not invest more than 5% of its net assets in UCITS and/or other UCI.</p> <p>For efficient portfolio management purposes, this Sub-Fund may also expose itself to such companies through the use of derivative instruments within the limits set forth in the section "Investment Restrictions" of the full prospectus.</p>												
<b>Profile of the Typical Investor</b>	Typical investors would seek long-term capital growth measured in euro from an actively managed portfolio of listed equity, equity-related securities and derivative instruments on such securities.												
<b>Performance</b>	<p style="text-align: center;"><b>AXA WF Aedificandi</b></p> <table border="1" style="margin-left: auto; margin-right: auto;"> <caption>Annual net performance in the Reference Currency: classes A and F capitalisation.</caption> <thead> <tr> <th>Year</th> <th>A Cap EUR (%)</th> <th>F Cap EUR (%)</th> </tr> </thead> <tbody> <tr> <td>2005</td> <td>~26</td> <td>~26</td> </tr> <tr> <td>2006</td> <td>~50</td> <td>~52</td> </tr> <tr> <td>2007</td> <td>~-18</td> <td>~-16</td> </tr> </tbody> </table> <p>Annual net performance in the Reference Currency: classes A and F capitalisation.</p> <p>Past performance is not indicative of future results.</p>	Year	A Cap EUR (%)	F Cap EUR (%)	2005	~26	~26	2006	~50	~52	2007	~-18	~-16

## APPENDIX 2 - AXA World Funds – Aedificandi Global (the "Sub-Fund")

### INVESTMENT INFORMATION

<b>Investment Objective</b>	The objective of the Sub-Fund is to achieve long-term capital growth.												
<b>Investment Manager</b>	AXA Investment Managers Paris												
<b>Investment Policy</b>	<p>The Sub-Fund will seek to achieve its objectives by investing worldwide and mainly in listed securities of companies engaged in the real estate industry.</p> <p>This strategy combines a "bottom-up" research process which aims at selecting securities and to a lesser extent a "top-down" approach in view of geographical and thematic asset allocation.</p>												
<b>Investment Restrictions</b>	For hedging and efficient portfolio management purposes, this Sub-Fund may also expose itself to equities, equity related securities, bonds, any fixed income instruments, indexes and currencies, through the use of derivative instruments within the limits set forth in the section "Investment Restrictions" of the full prospectus.												
<b>Special Risk Consideration</b>	For this Sub-Fund, some of the securities held in the portfolio may involve a greater degree of risk than generally associated with equity investments in the major securities markets, due in particular to political and regulatory factors and risks related to the specific investment sectors, as more fully described in the relevant appendix in the full prospectus.												
<b>Profile of the Typical Investor</b>	Typical investors would seek long-term capital growth measured in euro from an actively managed portfolio of listed equity, equity-related securities and derivatives instruments.

Conversely, if as a result of a redemption, a shareholder holding "F" Shares falls below the level of holding required for "F" Shares, such shareholder shall be deemed to have requested the conversion of the balance of his holding into "A" Shares. No charge will be levied to the shareholder for conversions between "A" Class Shares and "F" Class Shares.</p> <p>➤ The Directors reserve the right to issue Class "J" Shares at their sole discretion. Class "J" Shares will only be offered to Institutional Investors who are resident in Japan.</p> <p>➤ Class "I" Shares are only offered to Institutional Investors.</p> <p>The Company will not issue, or effect any switching of "I" Shares to any investor who may not be considered as an Institutional Investor. The Directors may, at their discretion, delay the acceptance of any subscription for "I" Shares restricted to Institutional Investors until such date as the Registrar and Transfer Agent has received sufficient evidence on the qualification of the relevant investor as an Institutional Investor. If it appears at any time that a holder of "I" Shares is not an Institutional Investor, the Directors will instruct the Registrar and Transfer Agent to propose that the said holder convert their Shares into Shares of a Class within the relevant Fund which is not restricted to Institutional Investors (provided that there exists such a Class with similar characteristics). In the event that the shareholder refuses such switching, the Directors will, at their discretion, instruct the Registrar and Transfer Agent to redeem the relevant Shares in accordance with the provisions under "How to convert and redeem Shares".</p> <p>➤ Class "M" Shares are only subscribed with the prior approval of the Directors and held by AXA Investment Managers or its subsidiaries for use in institutional mandates or investment management agreements for a dedicated fund contracted with the AXA Group.</p> <p>➤ Class "R" Shares are only offered to investors, other than Institutional Investors, who are resident in the UK, the Channel Islands or the Isle of Man.</p>																				
<p><b>Tax Consideration</b></p>	<p>It is the intention of the Directors to manage the Company so as to qualify for distributor status in the UK for each accounting period on the sterling Share Class R.</p> <p>So long as distributor status is obtained and continuously held, shareholders who are UK taxpayers will be liable to UK corporation tax and capital gains tax in respect of any chargeable gains arising on the sale or other disposal of their Shares. However the Directors cannot give an assurance that distributor status will be obtained. If distributor status is not obtained any gain accruing to investors upon the sale or other disposal of their Shares will be an “Offshore income Gain” subject to tax and income.</p>

## APPENDIX 3 - AXA World Funds – Clean Tech (the "Sub-Fund")

### INVESTMENT INFORMATION

<b>Investment Objective</b>	The objective of the Sub-Fund is to achieve long term capital growth.
<b>Investment Manager</b>	AXA Investment Managers Paris
<b>Investment Policy</b>	<p>The Investment Manager will seek to achieve the objectives of the Sub-Fund by investing permanently at least 70 % of the total assets of the Sub-Fund in international equities and equities related instruments issued by companies engaged in the global market of clean technologies in the sector of energy, waste, water, industrial process and safety or any other relevant sector.</p> <p>The Sub-Fund may also invest up to 10% directly or through the investment in other UCITS and/or UCI in Money Market Instrument. Investment in non-listed securities, together with transferable securities and money market instruments other than those referred to in article 41(1) of the Law of 2002 shall not exceed 10 % of the net assets of the Sub-Fund.</p> <p>This strategy combines a "bottom-up" research process which aims at selecting securities and to a lesser extent a "top-down" approach in view of thematic asset allocation.</p> <p>The Sub-Fund will look for technology-based systems, products or services in environmental markets, particularly those of alternative energy and energy efficiency, water treatment and pollution control, and waste technology and resource management.</p>
<b>Investment Restrictions</b>	For efficient portfolio management purposes, this Sub-Fund may use derivative instruments within the limits set forth in the section "Investment Restrictions" of the full prospectus.
<b>Special Risk Consideration</b>	<p><b>Risk linked to the target markets:</b></p> <p>For this Sub-Fund, some of the securities held in the portfolio may involve a greater degree of risk than generally associated with equity investments in the major securities markets, due in particular to political and regulatory factors as more fully described in the relevant appendix in the full prospectus.</p> <p><b>Risk linked to the investment in specific sectors:</b></p> <p>This Sub-Fund will concentrate its investments in companies of the clean technologies in the sector including energy, waste, water industrial process and safety, and therefore will be subject to the risks associated with concentrating investments in such sector. Such a concentration of investments in a specific sector may lead to adverse consequences when such sector becomes less valued.</p>
<b>Profile of the Typical Investor</b>	Typical investors would seek long-term capital growth measured in EUR from an actively managed portfolio of listed equity, equity-related securities and derivatives instruments.
<b>Performance</b>	<p>The Sub-Fund has been launched on 24 April 2007. Its performance will be described in the annual and semi-annual report of the Company.</p> <p>Past performance is not indicative of future results.</p>
<b>Classes of Shares available in the Sub-Fund</b>	<p>There are currently 8 Classes of Shares available in the Sub-Fund, denominated in the currencies mentioned hereinafter:</p> <ul style="list-style-type: none"> <li>- Class A – Capitalisation: EUR;</li> <li>- Class A – Capitalisation: USD;</li> <li>- Class E – Capitalisation: EUR;</li> <li>- Class F – Capitalisation: EUR;</li> <li>- Class F – Capitalisation: USD;</li> <li>- Class I – Capitalisation: EUR;</li> <li>- Class I – Capitalisation: USD;</li> <li>- Class M – Capitalisation: EUR.</li> </ul> <p>➤ Class "A" Shares are for all investors.</p> <p>➤ Class "E" Shares are for all investors. 	<p>class of Shares in the same or a different Sub-Fund without the prior approval of the Company.</p> <p>➤ Class "F" Shares have been more specifically designed for Institutional Investors, and benefit from reduced fee levels.</p> <p>If as a result of a subsequent subscription a shareholder holding "A" Shares reaches the minimum level of holding required for "F" Shares, such shareholder may apply for "F" Shares to be allotted in respect of such subsequent subscription and convert his existing "A" Shares into "F" Shares. To that end, the investor will make the corresponding request in the application for this subsequent subscription. Conversely, if as a result of a redemption, a shareholder holding "F" Shares falls below the level of holding required for "F" Shares, such shareholder shall be deemed to have requested the conversion of the balance of his holding into "A" Shares. No charge will be levied to the shareholder for conversions between "A" Class Shares and "F" Class Shares.</p> <p>➤ Class "I" Shares are only offered to Institutional Investors.</p> <p>The Company will not issue, or effect any switching of "I" Shares to any investor who may not be considered as an Institutional Investor. The Directors may, at their discretion, delay the acceptance of any subscription for "I" Shares restricted to Institutional Investors until such date as the Registrar and Transfer Agent has received sufficient evidence on the qualification of the relevant investor as an Institutional Investor. If it appears at any time that a holder of "I" Shares is not an Institutional Investor, the Directors will instruct the Registrar and Transfer Agent to propose that the said holder convert their Shares into Shares of a Class within the relevant Fund which is not restricted to Institutional Investors (provided that there exists such a Class with similar characteristics). In the event that the shareholder refuses such switching, the Directors will, at their discretion, instruct the Registrar and Transfer Agent to redeem the relevant Shares in accordance with the provisions under "How to convert and redeem Shares".</p> <p>➤ Class "M" Shares are only subscribed with the prior approval of the Directors and held by AXA Investment Managers or its subsidiaries for use in institutional mandates or investment management agreements for a dedicated fund contracted with the AXA Group.</p>

### INVESTMENT INFORMATION

<b>Investment Objective</b>	The objective of the Sub-Fund is to achieve long-term capital growth.												
<b>Investment Manager</b>	AXA Investment Managers Paris												
<b>Investment Policy</b>	<p>The Investment Manager will seek to achieve the objectives of the Sub-Fund by investing at all time at least two thirds of its total assets in equities and equities related instruments issued by companies which are domiciled or carry out a large portion of their economic activity in the Emerging European states, with particular emphasis on Poland, Czech Republic, Hungary, Russia and Turkey. When investments will be made in Russia, the Sub-Fund will invest in securities listed or dealt on the Russian Trading System Stock Exchange and/or the Moscow Interbank Currency Exchange. The Sub-Fund may invest not more than one third of its assets in convertible securities, not more than one third of its assets in bonds (with or without warrants) and not more than one third of its total assets in Money Market Instruments.</p> <p>There is no predetermined geographical asset allocation within these regions. There is no formal restriction on the proportion of the Sub-Fund's assets that can be invested in and/or exposed to any one particular market.</p> <p>This Sub-Fund will hold a diversified portfolio comprising primarily securities of listed companies such as common stocks, preferred stocks, convertible securities and to a lesser extent warrants on Transferable Securities and subscription notes.</p>												
<b>Investment Restrictions</b>	For efficient portfolio management purposes, this Sub-Fund may use derivative instruments within the limits set forth in the section "Investment Restrictions" of the full prospectus.												
<b>Special Risk Consideration</b>	For this Sub-Fund, some of the securities held in the portfolio may involve a greater degree of risk than generally associated with equity investments in the major securities markets, due in particular to political and regulatory factors as described in the relevant appendix in the full prospectus.

## APPENDIX 6 - AXA World Funds – European Core Equities (the "Sub-Fund")

### INVESTMENT INFORMATION

<b>Investment Objective</b>	The objective of the Sub-Fund is to achieve long-term capital growth.
<b>Investment Manager</b>	AXA Investment Managers Paris
<b>Investment Policy</b>	<p>The Investment Manager will seek to achieve the objectives of the Sub-Fund by investing in large, medium and small capitalisations domiciled in European geographical area.</p> <p>The Sub-Fund will invest at all time at least 66% of its total assets in equities issued by companies domiciled or which exercise the preponderant part of their economic activities in the European geographical area and not more than 33% of its assets in companies not based in such area.</p> <p>There is no formal restriction on the proportion of the Sub-Fund's assets that can be invested in and/or exposed to any one particular market.</p>
<b>Investment Restrictions</b>	<p>The Sub-Fund may invest not more than one third of its assets in Money Market Instruments and not more than one third of its assets in convertible and straight bonds.</p> <p>This strategy combines a bottom up approach with a thematic research approach.</p> <p>For efficient portfolio management purposes, this Sub-Fund may use derivative instruments within the limits set forth in the section "Investment Restrictions" of the full prospectus.</p>
<b>Profile of the Typical Investor</b>	Typical investors would seek long-term capital growth measured in Euro from an actively managed portfolio of listed equity, equity-related securities and derivative instruments.
<b>Performance</b>	<p>The Sub-Fund has been launched on October 15, 2008. Its performance will be described in the annual and semi-annual reports of the Company.</p> <p>Past performance is not indicative of future results.</p>

## APPENDIX 10 - AXA World Funds – Europe Dividend (the "Sub-Fund")

### INVESTMENT INFORMATION

<b>Investment Objective</b>	The objective of the Sub-Fund is to achieve long-term capital growth.
<b>Investment Manager</b>	AXA Investment Managers Paris
<b>Investment Policy</b>	<p>The Investment Manager will seek to achieve the objective of the Sub-Fund by investing permanently at least two thirds of the total assets of the Sub-Fund in a set of high dividend equities issued by any companies which are domiciled in any countries of Europe. The Sub-Fund will seek to achieve capital growth and yield maximisation with a total return performance objective. It will invest 66% minimum of its total assets in equities with above average yield and/ or seeking growth in dividend.</p> <p>The Investment Manager could invest up to 10% of the assets of the Sub-Fund in securities issued by any companies based in non –European countries.</p> <p>This strategy combines a "bottom-up" research process which aims at selecting securities and to a lesser extent a "top-down" approach in view of geographical asset allocation.</p> <p>The Investment Manager will invest not more than one third of the assets of the Sub-Fund in bonds, not more than one third of the assets of the Sub-Fund in Money Market Instruments and not more than one third of the assets of the Sub-Fund in convertible securities.</p> <p>Attention to the investor who are tax resident in France is made on the eligibility of the Sub-Fund to the French PEA account, meaning that the Sub-Fund is permanently invested for a minimum of 75% in securities or right eligible to the PEA (for indicative purpose, at the date of the Prospectus, the Sub Fund shall invest a minimum of 75% in equities or rights issued by companies having their registered office in the European Economic Area, excluding Liechtenstein).</p>
<b>Investment Restrictions</b>	<p>In accordance with article B(1) of the section "Investment Restrictions" of the Prospectus, the Sub-Fund may invest up to 10% of its net assets in units or shares of regulated open-ended hedge funds which are submitted to an equivalent supervision.</p> <p>For hedging and efficient portfolio management purposes, this Sub-Fund may also expose itself to equities, equity related securities, bonds, any fixed income instruments, indexes and currencies, through the use of derivative instruments within the limits set forth in the section "Investment Restrictions" of the full prospectus.</p>
<b>Special Risk Consideration</b>	A limited part of the assets of the Sub-Fund (maximum 10%) is exposed to funds pursuing alternative strategies. Investments in alternative funds imply certain specific risks linked for example to the valuation of the assets of such funds and to their low liquidity.
<b>Profile of the Typical Investor</b>	Typical investors would seek long-term capital growth measured in euro from an actively managed portfolio of listed equity, equity related securities and derivative instruments.

## APPENDIX 13 - AXA World Funds – Framlington Emerging Markets (the "Sub-Fund")

### INVESTMENT INFORMATION

<b>Investment Objective</b>	The objective of the Sub-Fund is to achieve long term capital growth.
<b>Investment Manager</b>	AXA Framlington Investment Management Limited
<b>Investment Policy</b>	<p>The Investment Manager will seek to achieve the objectives of the Sub-Fund by investing at all times at least two thirds of its total assets in equities and equities related instruments issued by companies domiciled or which exercise the preponderant part of their economic activities in emerging markets. Investment is made in developing countries in companies which, in the Investment Manager's opinion, show above average profitability, management quality and growth.</p> <p>Emerging market countries are defined as follows: (i) countries that are generally considered low on middle income countries by the World Bank and (ii) countries which are included in any recognised emerging market index.</p>
<b>Investment Restrictions</b>	<p>The Sub-Fund may invest not more than one third of its total assets in Money Market Instruments and not more than one third of its assets in convertible and straight bonds.</p> <p>There is almost no formal restriction on the proportion of the Sub-Fund's assets that can be invested in and/or exposed to any one particular market.</p> <p>For efficient portfolio management purposes, this Sub-Fund may use derivative instruments within the limits set forth in the section "Investment Restrictions" of the full prospectus.</p>
<b>Special Risk Consideration</b>	<p>For this Sub-Fund, some of the securities held in the portfolio may involve a greater degree of risk than generally associated with equity investments in the major securities markets, due in particular to political and regulatory factors, as more fully described in the full prospectus.</p> <p>Emerging market securities may indeed be substantially less liquid and more volatile than those of mature markets.</p> <p>In addition, the legal infrastructure, in certain countries in which investments may be made, may not provide the same degree of protection or information to investors as would generally apply to major securities markets.</p>
<b>Profile of the Typical Investor</b>	Typical investors would seek long-term capital growth measured in USD from an actively managed portfolio of listed equity, equity-related securities and derivatives instruments.
<b>Performance</b>	<p>The Sub-Fund was launched on the 27 November 2007. Its performance will be described in the annual and semi-annual reports of the Company.</p> <p>Past performance is not indicative of future results.</p>
<b>Classes of Shares available in the Sub-Fund</b>	<p>There are currently 6 Classes of Shares available in the Sub-Fund, denominated in the currencies mentioned hereinafter:</p> <ul style="list-style-type: none"> <li>- Class A – Capitalisation: EUR;</li> <li>- Class A – Capitalisation: GBP;</li> <li>- Class A – Capitalisation: USD;</li> <li>- Class E – Capitalisation: EUR;</li> <li>- Class F – Capitalisation: EUR;</li> <li>- Class F – Capitalisation: USD.</li> </ul> <p>➤ Class "A" Shares are for all investors.</p> <p>➤ Class "E" Shares are for all investors. ## APPENDIX 18 - AXA World Funds – Human Capital (the "Sub-Fund")

### INVESTMENT INFORMATION

<b>Investment Objective</b>	The objective of the Sub-Fund is to achieve long term capital growth.
<b>Investment Manager</b>	AXA Investment Managers Paris
<b>Investment Policy</b>	<p>The Investment Manager will seek to achieve the objectives of the Sub-Fund by investing in small and medium sized companies domiciled or listed in European geographical area and companies with above average performance in human capital management.</p> <p>This strategy is to identify European companies combining financial criteria and the best human capital practices including but not limited to the following criteria: job's stability and creation, training and development, performance management and reward systems, precariousness, turnover....</p> <p>Attention to the investor who is tax resident in France is made on the eligibility of the Sub-Fund to the French PEA account, meaning that the Sub-Fund is permanently invested for a minimum of 75% in securities or rights eligible to the PEA (for indicative purpose, at the date of the Prospectus, the Sub Fund shall invest a minimum of 75% in equities or rights issued by companies having their registered office in the European Economic Area, excluding Liechtenstein).</p>
<b>Investment Restrictions</b>	<p>The Sub-Fund may invest not more than one third of its total assets in Money Market Instruments and not more than one third of its assets in convertible and straight bonds.</p> <p>There is almost no formal restriction on the proportion of the Sub-Fund's assets that can be invested in and/or exposed to any one particular market.</p> <p>For efficient portfolio management purposes, this Sub-Fund may use derivative instruments within the limits set forth in the section "Investment Restrictions" of the full prospectus.</p>
<b>Profile of the Typical Investor</b>	Typical investors would seek long-term capital growth measured in EUR from an actively managed portfolio of listed equity, equity-related securities and derivatives instruments.
<b>Performance</b>	<p>The Sub-Fund was launched on 30 October 2007. Its performance will be described in the annual and semi-annual reports of the Company.</p> <p>Past performance is not indicative of future results.</p>
<b>Classes of shares available in the Sub-Fund</b>	<p>There are currently 7 Classes of Shares available in the Sub-Fund, denominated in the currencies mentioned hereinafter:</p> <ul style="list-style-type: none"> <li>- Class A – Capitalisation: EUR;</li> <li>- Class E – Capitalisation: EUR;</li> <li>- Class F – Capitalisation: EUR;</li> <li>- Class F – Distribution: EUR;</li> <li>- Class I – Capitalisation: EUR;</li> <li>- Class I – Distribution: EUR;</li> <li>- Class M – Capitalisation: EUR.</li> </ul> <p>➤ Class "A" Shares are for all investors.</p> <p>➤ Class "E" Shares are for all investors. 	<p>between "A" Class Shares and "F" Class Shares.</p> <ul style="list-style-type: none"> <li>➤ Class "M" Shares will only be subscribed with the prior approval of the Directors and held by AXA Investment Managers or its subsidiaries for use in institutional mandates or investment management agreements for a dedicated fund contracted with the AXA Group.</li> <li>➤ Class "I" Shares are only offered to Institutional Investors.</li> </ul> <p>The Company will not issue, or effect any switching of "I" Shares to any investor who may not be considered as an Institutional Investor. The Directors may, at their discretion, delay the acceptance of any subscription for "I" Shares restricted to Institutional Investors until such date as the Registrar and Transfer Agent has received sufficient evidence on the qualification of the relevant investor as an Institutional Investor. If it appears at any time that a holder of "I" Shares is not an Institutional Investor, the Directors will instruct the Registrar and Transfer Agent to propose that the said holder convert their Shares into Shares of a Class within the relevant Fund which is not restricted to Institutional Investors (provided that there exists such a Class with similar characteristics). In the event that the shareholder refuses such switching, the Directors will, at their discretion, instruct the Registrar and Transfer Agent to redeem the relevant Shares in accordance with the provisions under "How to convert and redeem Shares".</p>															
<b>Subscriptions</b>	Class "F" and "I" Shares of distribution are available for subscription at the initial price of EUR 100 on August 25, 2008. Payment shall be made to the order of the Custodian on August 28, 2008.

**APPENDIX 19 - AXA World Funds – Hybrid Resources  
(the "Sub-Fund")**

**INVESTMENT INFORMATION**

<b>Investment Objective</b>	The objective of the Sub-Fund is to achieve long term capital growth.
<b>Investment Manager</b>	AXA Investment Managers Paris
<b>Investment Policy</b>	<p>The “hybrid resources” strategy refers to the process of gaining an exposure to the commodities universe through a hybrid combination of equities and financial derivatives instruments the underlying of which consists of commodity indices and/or sub-indices.</p> <p>The Investment Manager will seek to achieve the objectives of the Sub-Fund by investing between 15% and 70% of its assets in international equities and equities related instruments issued by companies operating, directly or indirectly, in the commodity sectors or generally linked to the commodity sectors and between 15% and 70% in Money Market Instruments and cash covering in full at all times the use of a range of financial derivatives instruments based on commodity indices and/or sub-indices. Asset allocation among the asset classes (equities and Money Market Instruments and cash) will be actively managed.</p> <ul style="list-style-type: none"> <li>- The equity portion of the Sub-Fund’s assets shall be actively managed in accordance with a strategy combining a "bottom-up" research process which aims at selecting securities and to a lesser extent a "top-down" approach in view of geographical asset allocation.</li> <li>- The commodity portion (i.e. Money Market Instruments covering the use of a range of commodity index or sub-index related financial derivative instruments) of the Sub-Fund’s assets shall be actively managed by means of actively varying the weighting of the commodity sub-sectors (i.e. Energy, Metals and Agriculture) in relation to the commodity benchmark portion (i.e. the GSCI Light Energy Total Return USD, as the same may be re-named or replaced from time to time) of the benchmark index (active overlay) while taking into account the principles of risk diversification at all times. The weighting of the three commodity sub-sectors shall be determined on the basis of an analysis of the respective outlook of the three commodity sub-sectors and shall be made within predefined limits which may vary in accordance with the commodity benchmark construction.</li> </ul> <p>For that purpose, the Sub-Fund will enter into a range of derivative instruments including, but not limited to, swaps (for example, index swaps), options, futures and forward contracts relating to commodity indices and/or sub-indices.</p> <p>Each such commodity index or sub-index will comprise the prices for futures contracts on commodities (exchange traded financial instruments settled in cash).</p> <p>The Sub-Fund will cover the use of derivatives instruments by holding mainly Money Market Instruments, money market funds, negotiable debt securities and debt or interest rate payments, synthetic money market instruments such as:</p> <ul style="list-style-type: none"> <li>- physical investment in equities which performance is exchanged against money market linked performance;</li> <li>- physical investment in fixed income which performance is exchanged against money market linked performance.</li> </ul> <p>All these instruments may be used as a support for the investment of the cash generated when the Sub-Fund uses for example, as mentioned above, swaps, the purpose of which will be to exchange the performance of a specific commodity index or sub-index against interest payments.</p> <p>The Fund will not trade any physical commodities or derivatives based directly on physical commodities and will not take physical delivery of any commodities.</p>
<b>Investment Restrictions</b>	<p>The Sub-Fund may enter into repurchase agreements up to 100% of its net assets.</p> <p>In addition, the Sub-Fund may in accordance with the conditions and limits laid down in the Prospectus in section "Investment Restrictions" use both over-the-counter and exchange traded instruments (including derivative instruments such as swaps, futures, options and forward agreements) and trade on margin for hedging and efficient portfolio management purposes.</p> <p>In order to achieve its management objectives, the Sub-Fund may in particular engage in the derivatives market and may use for example index swap, futures contract or option on any specific commodity index</p>

	<p>or sub index.</p> <p>The Sub-Fund will only enter into OTC derivatives transactions with highly rated financial institutions specialised in this type of transaction and only in accordance with the standard terms laid down by the ISDA Master Agreement.</p> <p>The maximum exposure of the Sub-Fund may not exceed 100% of its net assets.</p> <p>The choice between the various types of instruments will be carried out by considering factors that include but are not limited to liquidity, cost, efficiency, capacity to trade quickly, size, maturity of the investment, etc.</p>															
<b>Profile of the Typical Investor</b>	<p>Typical investors would seek long term capital growth measured in USD from an actively managed portfolio of equities linked to the commodities sector and money market instruments and cash covering the use of a range of commodity index or sub-index related financial derivatives instruments.</p>

## APPENDIX 21 - AXA World Funds – Junior Energy (the "Sub-Fund")

### INVESTMENT INFORMATION

<b>Investment Objective</b>	The objective of the Sub-Fund is to achieve long-term capital growth.						
<b>Investment Manager</b>	AXA Investment Managers Paris						
<b>Investment Policy</b>	<p>The Investment Manager will seek to achieve the investment objectives of the Sub-Fund by investing permanently worldwide at least two thirds of the total assets of the Sub-Fund in listed small and mid size companies which operate in the energy sector.</p> <p>This strategy combines a "bottom-up" research process which aims at selecting securities and to a lesser extent a "top-down" approach in view of geographical and thematic asset allocation.</p>						
<b>Investment Restrictions</b>	For hedging and efficient portfolio management purposes, this Sub-Fund may also expose itself to equities, equity related securities, bonds, any fixed income instruments, indexes and currencies, through the use of derivative instruments within the limits set forth in the section "Investment Restrictions" of the full prospectus.						
<b>Special Risk Consideration</b>	For this Sub-Fund, some of the securities held in the portfolio may involve a greater degree of risk than generally associated with equity investments in the major securities markets, due in particular to political and regulatory factors and risks related to the specific investment sectors, as more fully described in the relevant appendix in the full prospectus.						
<b>Profile of the Typical Investor</b>	Typical investors would seek long-term capital growth measured in euro from an actively managed portfolio of listed equity, equity-related securities and derivatives instruments.

## APPENDIX 23 - AXA World Funds - Talents (the "Sub-Fund")

### INVESTMENT INFORMATION

<b>Investment Objective</b>	The objective of the Sub-Fund is to achieve long-term capital growth.
<b>Investment Manager</b>	AXA Investment Managers UK Limited
<b>Investment Policy</b>	<p>The Investment Manager will seek to achieve the objectives of the Sub-Fund through an exposure to international equities. This Sub-Fund will be selecting stocks using an entrepreneur investment philosophy.</p> <p>The portfolio manager developed this investment philosophy as he believes financial markets are not efficient and too many companies are badly managed or depend on economic cycles. Therefore, the portfolio manager prefers to trust men who have a strong track record in developing business and creating value.</p> <p>This Sub-Fund is also focusing on men who hold a significant stake in their company. Those managers are willing to win in the long-term and ready to assume heavy short-term investments to generate long-term growth for the Company as the value of their personal wealth depend on long-term value creation. They also have a strong capacity for action and fast reactivity (they are less dependent on analysts, minority shareholders and bankers).</p>
<b>Investment Restrictions</b>	For hedging and efficient portfolio management purposes, this Sub-Fund may also expose itself to equities, equity related securities, bonds, any fixed income instruments, indexes and currencies, through the use of derivative instruments within the limits set forth in the section "Investment Restrictions" of the full prospectus. Under no circumstances shall these operations cause the Sub-Fund to diverge from its investment objective.
<b>Special Risk Consideration</b>	For this Sub-fund, some of the securities held in the portfolio may involve a greater degree of risk than generally associated with equity investments in the major securities markets, due in particular to political and regulatory factors as described in the relevant appendix in the full prospectus.
<b>Profile of the Typical Investor</b>	Typical investors would seek long-term capital growth measured in euro from an actively managed portfolio of listed equity, equity-related securities and derivative instruments

	<p>Annual net performance in the Reference Currency: Classes A and F capitalisation.</p> <p>Past performance is not indicative of future results.</p>																				
<b>Classes of shares available in the Sub-Fund</b>	<p>There are currently 7 Classes of Shares available in the Sub-Fund, denominated in the currencies mentioned hereinafter:</p> <p>Class A – Capitalisation: EUR;  Class A – Capitalisation: USD;  Class E – Capitalisation: EUR;  Class F – Capitalisation: EUR;  Class F – Capitalisation: USD;  Class R – Distribution: GBP;  Class S – Capitalisation: USD.</p> <ul style="list-style-type: none"> <li>➤ Class "A" Shares are for all investors.</li> <li>➤ Class "E" Shares are for all investors. Shareholders cannot convert Class "E" Shares into another Class of Shares in the same or a different Sub-Fund without the prior approval of the Company.</li> <li>➤ Class "F" Shares have been more specifically designed for Institutional Investors, and benefit from reduced fee levels.</li> </ul> <p>If as a result of a subsequent subscription a shareholder holding "A" Shares reaches the minimum level of holding required for "F" Shares, such shareholder may apply for "F" Shares to be allotted in respect of such subsequent subscription and convert his existing "A" Shares into "F" Shares. To that end, the investor will make the corresponding request in the application for this subsequent subscription. Conversely, if as a result of a redemption, a shareholder holding "F" Shares falls below the level of holding required for "F" Shares, such shareholder shall be deemed to have requested the conversion of the balance of his holding into "A" Shares. No charge will be levied to the shareholder for conversions between "A" Class Shares and "F" Class Shares.</p> <ul style="list-style-type: none"> <li>➤ The Directors reserve the right to issue Class "I" Shares at their sole discretion. **APPENDIX 24 - AXA World Funds – Talents Absolute  
(the "Sub-Fund")**

**INVESTMENT INFORMATION**

<b>Investment Objective</b>	The objective of the Sub-Fund is to achieve long-term capital growth with controlled volatility and low market correlation.
<b>Investment Manager</b>	AXA Investment Managers UK Limited
<b>Investment Policy</b>	<p>The Investment Manager will seek to achieve the objectives of the Sub-Fund mainly through an exposure to international equities. This Sub-Fund will be selecting stocks using a proprietary investment philosophy and process.</p> <p>The investment policy of the Sub-Fund is to invest in stocks of companies around the world run by flexible and proactive entrepreneurs, as in the sub-fund AXA World Funds - Talents. In addition, the Investment Manager will try to reduce the equity market exposure of the Sub Fund by hedging part of the equity risk through various strategies, including mainly the sale of equity futures.</p> <p>This Sub-Fund aims to get all the potential excess return of entrepreneurial companies while limiting equity market risk.</p> <p>The investment philosophy is to believe that financial markets are not efficient and too many companies are badly managed or depend on economic cycles. Therefore, the investment process tend to prefer managers and their respective companies who have a strong track record in developing business and creating value.</p> <p>The portfolio manager will also hedge part of the equity risk through various strategies, as the sale of equity futures, and hedging part of the currency risks back into the Euro.</p>
<b>Investment Restrictions</b>	<p>In an effort to enhance the portfolio's risk/reward profile, this Sub-Fund may attempt to hedge the risk exposures that are not expected to contribute to the Portfolio's performance.</p> <p>For hedging and efficient portfolio management purposes, this Sub-Fund may also expose itself to equities, equity related securities, bonds, any fixed income instruments, indexes and currencies, through the use of derivative instruments within the limits set forth in the section "Investment Restrictions" of the full prospectus. Under no circumstances shall these operations cause the Sub-Fund to diverge from its investment objective.</p>

**APPENDIX 26 - AXA World Funds – Talents Brick  
(the "Sub-Fund")**

**INVESTMENT INFORMATION**

<b>Investment Objective</b>	The objective of the Sub-Fund is to achieve long-term capital growth.
<b>Investment Manager</b>	AXA Investment Managers UK Limited
<b>Investment Policy</b>	<p>The Investment Manager will seek to achieve the objectives of the Sub-Fund by investing at least two thirds of its total assets in equities and equities related instruments issued in the OECD or non-OECD countries, with particular emphasis in companies which are domiciled or carry out a large portion of their economic activity in Brazil, Russia, India, China (including Taiwan and Hong Kong) and Korea. Investment in securities listed or dealt on the Russian market will, together with transferable securities and money market instruments other than these referred to in article 41 (1) of the Law of 2002 not exceed 10 % of the net assets of the Sub-Fund. This Sub-Fund will be selecting stocks using an entrepreneur investment philosophy as much as possible and depending on the sectors.</p> <p>The Sub-Fund may not invest more than one third of its assets in convertible securities, bonds (with or without warrants) and Money Market Instruments.</p> <p>There is no predetermined geographical asset allocation within these regions. There is no formal restriction on the proportion of the Sub-Fund's assets that can be invested in and/or exposed to any one particular market.</p> <p>This Sub-Fund will hold a diversified portfolio comprising primarily securities of listed companies such as common stocks, preferred stocks, convertible securities and to a lesser extent warrants on Transferable Securities and subscription notes.</p>
<b>Investment Restrictions</b>	For hedging and efficient portfolio management purposes, this Sub-Fund may also expose itself to equities, equity related securities, bonds, any fixed income instruments, indexes and currencies, through the use of derivative instruments within the limits set forth in the section "Investment Restrictions" of the full prospectus. Under no circumstances shall these operations cause the Sub-Fund to diverge from its investment objective.
<b>Special Risk Consideration</b>	For this Sub-Fund, some of the securities held in the portfolio may involve a greater degree of risk than generally associated with equity investments in the major securities markets, due in particular to political and regulatory factors as described in the relevant appendix in the full prospectus.
<b>Profile of the Typical Investor</b>	Typical investors would seek long-term capital growth measured in euro from an actively managed portfolio of listed equity, equity-related securities and derivative instruments

## APPENDIX 27 - AXA World Funds – Talents Europe (the "Sub-Fund")

### INVESTMENT INFORMATION

<b>Investment Objective</b>	The objective of the Sub-Fund is to achieve long-term capital growth.												
<b>Investment Manager</b>	AXA Investment Managers UK Limited												
<b>Investment Policy</b>	<p>The Investment Manager will seek to achieve the objectives of the Sub-Fund by investing at all time at least 75% of its total assets in European equities issued in Euro zone. This Sub-Fund will be selecting stocks using "the Talents" approach: invest in people more than businesses.</p> <p>The portfolio manager developed this investment philosophy as he believes financial markets and analysis are not efficient and too many companies depend on economic cycles. Therefore, the portfolio manager prefers to trust men or women who have a strong track record in developing business and creating value.</p> <p>This Sub-Fund is also focusing on people who hold a significant stake in their company. Those managers are willing to win in the long-term and ready to assume heavy short-term investments to generate long-term growth for the Company as the value of their personal wealth depend on long-term value creation. They also have a strong capacity for action and fast reactivity (they are less dependent on analysts, minority shareholders and bankers).</p> <p>Attention to the investor who are tax resident in France is made on the eligibility of the Sub-Fund to the French PEA account, meaning that the Sub-Fund is permanently invested for a minimum of 75% in securities or right eligible to the PEA (for indicative purpose, at the date of the Prospectus, the Sub Fund shall invest a minimum of 75% in equities or rights issued by companies having their registered office in the European Economic Area, excluding Liechtenstein).</p>												
<b>Investment Restrictions</b>	For hedging and efficient portfolio management purposes, this Sub-Fund may also expose itself to equities, equity related securities, bonds, any fixed income instruments, indexes and currencies, through the use of derivative instruments within the limits set forth in the section "Investment Restrictions" of the full prospectus. ### INVESTMENT INFORMATION

<b>Investment Objective</b>	The investment objective of the Sub-Fund is to seek a higher level of total return than cash over the long term by dynamically managing a portfolio of assets invested in a range of currencies, fixed income securities and derivatives.
<b>Investment Manager</b>	AXA Rosenberg Investment Management Asia Pacific Limited who has sub-delegated its investment management duties pertaining to the management of government securities, deposits and Money Market Instruments denominated in Euro, Pounds Sterling or US Dollars and meeting the credit quality criteria described herein to AXA Investment Managers Paris.
<b>Investment Policy</b>	<p>The Investment Manager will seek to achieve the objectives of the Sub-Fund through a range of credit and macro strategies invested within an overall active risk (VaR) limit and investment restrictions as detailed within the full prospectus.</p> <p>The investment process consists of implementing strategies on a discretionary basis (either by using securities or derivatives) including, but not limited to, the strategies listed below:</p> <p>➤ <b>Credit strategies</b></p> <ul style="list-style-type: none"> <li>▪ <b>Spread direction</b> - gaining exposure to the widening (i.e. increase) or tightening (i.e., decrease) of spreads between corporate and government bonds at single name or market level.</li> <li>▪ <b>Long stock direction</b> - selecting corporate bonds which the Investment Manager anticipates would outperform the credit market as a whole.</li> <li>▪ <b>Short stock selection</b> - taking negative views on specific bonds via the use of credit derivatives.</li> <li>▪ <b>High yield</b> – investing in sub-investment grade bonds (as defined below) to take advantage of the additional yield offered or absolute returns arising from a particular credit event.</li> <li>▪ <b>Relative value strategies</b> that consist of strategies based on the differences in value between two bonds of the same yield curve or two bonds of different types.</li> </ul> <p>➤ <b>Macro strategies</b></p> <ul style="list-style-type: none"> <li>▪ <b>Term structure</b> - active duration management (i.e. managing sensitivity of the Sub-Fund to interest rates) and yield curve positioning trades are implemented to take advantage of a particular view on the direction of interest rates and the slope of the yield curve.</li> <li>▪ <b>Cross market</b> - investing in a range of markets, in particular through the use of interest rates derivatives, as a means of allowing the portfolio to overweight or underweight one market against another.</li> <li>▪ <b>Inflation</b> - expressing a view on inflation through either the purchase of conventional or index linked bonds or, alternatively, inflation swaps.</li> <li>▪ <b>Directional or volatility strategies</b> - using options or other types of derivatives in order to hedge or take advantage of directional moves as well as a rise or fall in the volatility of single names, baskets or markets.</li> <li>▪ <b>Currency strategies</b> - using derivatives to gain exposure to foreign currency risk of one or several currencies that are not the reference currency of the Sub-Fund.</li> <li>▪ <b>Money market strategies</b> - taking positions on the evolution of money market curves through the use of derivatives including futures.</li> </ul>
<b>Investment Restrictions</b>	<p>In order to achieve the performance objective, the Sub-Fund may invest in the following instruments:</p> <p>Cash and money market instruments, fixed and floating rate securities, collateralised debt securities, UCITS and/or UCI and derivatives including forward foreign currency contracts, bond futures, interest rate futures, bond options, interest rate options, interest rate and inflation swaps, single name and basket credit default swaps, credit default swaps on indices and total return index swaps which may be traded OTC and/or on regulated markets in Asia or the Pacific Rim.</p> <p>These securities may be rated investment grade or sub-investment grade securities (i.e., in the case of the latter category rated lower than BBB- by Standard &amp; Poor's or lower than Baa3 by Moody's or, if unrated, then deemed to be so by the Investment Manager).</p> <p>For efficient portfolio management or investment purposes, this Sub-Fund may also be exposed to such assets through the use of derivative instruments within the limits set forth in the section "Investment Restrictions".</p> <p>In seeking to attain its investment objective, the Investment Manager aims to monitor the Sub-Fund</p>

	<p>market risk by limiting the statistical maximum ex-ante loss experienced by the Sub-Fund under a Value-at-Risk (VaR) computation at 2.5% of the Sub-Fund's Net Asset Value. The Value-at-Risk used by the Investment Manager will have a five (5) Business Days horizon and a 95% confidence level parameters.</p> <p>The Value-at-Risk (VaR) is the percentage of Net Asset Value that a portfolio may lose on a given time horizon, at a given confidence level. In respect of this Sub-Fund, the Value-at-Risk level of 2.5% of the Sub-Fund Net Asset Value will have a five (5) Business Days horizon and 95% confidence level parameters. This means that there is a probability of 5% that a loss experienced by the Sub-Fund within the five (5) Business Days horizon may be higher than 2.5% of the Sub-Fund's Net Asset Value.</p>
<b>Profile of the Typical Investor</b>	<p>Typical investors would seek a mix of income and capital growth measured in US Dollars.</p>

## APPENDIX 29 - AXA World Funds – Alpha Bonds Plus (the "Sub-Fund")

**This Sub-Fund is currently not open to subscriptions. The Prospectus shall be updated upon determination by the Directors of the initial offering period for Shares of this Sub-Fund.**

### INVESTMENT INFORMATION

<b>Investment Objective</b>	The objective of the Sub-Fund is to achieve a mix of income and capital growth by investing (i) in fixed and floating rate securities and (ii) establishing active exposures to global foreign exchange markets.
<b>Investment Manager</b>	AXA Investment Managers Paris (which has sub-delegated its investment management duties pertaining to the management of currencies to AXA Investment Managers UK Ltd).
<b>Investment Policy</b>	<p>The Investment Manager will seek to achieve the objectives of the Sub-Fund by using a dynamic and discretionary strategy based on the analysis of the interest rate curve, the credit risk associated with issuers of fixed and/or floating rate debt securities and on fundamental and technical approach to the currency markets. Within the context of this strategy the Investment Manager will use several techniques including macro-economic forecasts and analysis to determine the active management of the investments of the Sub-Fund.</p> <p>The Investment Manager will attempt to generate performance through the use of directional, non directional and/or Yield Enhancing strategies, and other strategies which may be appropriate in the judgment of the Investment Manager in view of any changes in the relevant debt markets.</p> <p>The Sub-Fund will invest permanently at least two thirds of its total assets in a portfolio consisting of debt securities issued or guaranteed by states and/or issued by private issuers. These investments will be used for duration trades, interest rate curve position trades and investment in "Investment Grade" securities. "Investment Grade" securities are those which have a rating at least equal to BBB- (S&amp;P) or the equivalent rating as published by Moody's.</p> <p>In addition the Sub-Fund may invest an aggregate of up to 10% of its assets in debt securities issued in the following categories: emerging markets, high yield debt instruments (rated lower the BBB- and at least «B», or equivalent, by one or more of these rating Agencies: Standard &amp; Poor' s, Moody' s, IBCA or if unrated then deemed to be so by the Investment Manager in the best interest of the Sub-Fund shareholders) and/or securities issued and denominated outside of the Euro zone.</p> <p>The Sub-Fund may also invest in global currency markets, emerging markets and high yield debt instruments through open-ended collective investment funds.</p> <p>The Sub-Fund may invest not more than one third of its assets in Money Market Instruments. The Sub-Fund will not invest in equity or in equity related instruments. The Sub-Fund may invest not more than a quarter (25 percent) of its assets in convertible securities.</p> <p>The Sub-Fund may invest in asset back securities, mortgage-backed securities or residential mortgage-backed securities.</p> <p>Investment in financial instruments which are not listed on an official stock exchange or on a Regulated Market, together with transferable securities and money market instruments other than those referred to in article 41(1) of the Law of 2002 shall not exceed 10 % of the net assets of the Sub-Fund.</p>
<b>Investment Restrictions</b>	<p>There is no formal restriction on the proportion of the Sub-Fund's assets that can be invested in and/or exposed to any one particular market.</p> <p>For efficient portfolio management purposes or investment purposes, this Sub-Fund may also expose itself to such assets through the use of derivative instruments within the limits set forth in the section "Investment Restrictions". It may be exposed to interest rate, currencies, credit or inflation risks through derivatives (such as option, futures, forward contracts and/or swap transactions on Over-the-counter (OTC) markets and/or regulated markets).</p> <p>The Sub-Fund may also invest in spot contracts on currencies regardless of the market (OTC or regulated market).</p>
<b>Profile of the Typical Investor</b>	Typical investors would seek a medium term mix of income and capital growth measured in euro as well as gaining value through active exposures to global currency foreign exchange markets.

<p><b>Performance</b></p>	<p>The performance of the Sub-Fund will be described in the annual and semi-annual reports of the Company once the Sub-Fund will be launched.</p> <p>Past performance is not indicative of future results.</p>															
<p><b>Classes of shares available in the Sub-Fund</b></p>	<p>There are currently 9 Classes of Shares available in the Sub-Fund, denominated in the currencies mentioned hereinafter:</p> <ul style="list-style-type: none"> <li>- Class A – Capitalisation: EUR;</li> <li>- Class A – Capitalisation: USD hedged (95%);</li> <li>- Class E – Capitalisation: EUR;</li> <li>- Class F – Capitalisation: EUR;</li> <li>- Class F – Capitalisation: USD hedged (95%);</li> <li>- Class I – Capitalisation: EUR;</li> <li>- Class I – Capitalisation: USD hedged (95%);</li> <li>- Class I – Distribution: EUR;</li> <li>- Class M – Capitalisation: EUR.</li> </ul> <p>➤ Class "A" Shares are for all investors.</p> <p>➤ Class "E" Shares are for all investors. Shareholders cannot convert Class "E" Shares into another Class of Shares in the same or a different Sub-Fund without the prior approval of the Company.</p> <p>➤ Class "F" Shares have been more specifically designed for Institutional Investors, and benefit from reduced fee levels.</p> <p>If as a result of a subsequent subscription a shareholder holding Class "A" Shares reaches the minimum level of holding required for Class "F" Shares, such shareholder may apply for Class "F" Shares to be allotted in respect of such subsequent subscription and convert his existing Class "A" Shares into Class "F" Shares. To that end, the investor will make the corresponding request in the application for this subsequent subscription. Conversely, if as a result of a redemption, a shareholder holding Class "F" Shares falls below the level of holding required for Class "F" Shares, such shareholder shall be deemed to have requested the conversion of the balance of his holding into Class "A" Shares. No charge will be levied to the shareholder for conversions between Class "A" Shares and Class "F" Shares.</p> <p>➤ Class "I" Shares are only offered to Institutional Investors.</p> <p>The Company will not issue, or effect any switching of Class "I" Shares to any investor who may not be considered as an Institutional Investor. The Directors may, at their discretion, delay the acceptance of any subscription for Class "I" Shares restricted to Institutional Investors until such date as the Registrar and Transfer Agent has received sufficient evidence on the qualification of the relevant investor as an Institutional Investor. If it appears at any time that a holder of Class "I" Shares is not an Institutional Investor, the Directors will instruct the Registrar and Transfer Agent to propose that the said holder convert their Shares into Shares of a Class within the relevant Fund which is not restricted to Institutional Investors (provided that there exists such a Class with similar characteristics). In the event that the shareholder refuses such switching, the Directors will, at their discretion, instruct the Registrar and Transfer Agent to redeem the relevant Shares in accordance with the provisions under "How to convert and redeem Shares".</p> <p>➤ Class "M" Shares are only subscribed with the prior approval of the Directors and held by AXA Investment Managers or its subsidiaries for use in institutional mandates or investment management agreements for a dedicated fund contracted with the AXA Group.</p>

## APPENDIX 30 - AXA World Funds – Alpha Credit Bonds (the "Sub-Fund")

### INVESTMENT INFORMATION

<b>Investment Objective</b>	The objective of the Sub-Fund is to achieve a mix of income and capital growth by dynamically investing in fixed and floating rate securities, mainly denominated in Euro, and seeking arbitrage opportunities on the credit markets.
<b>Investment Manager</b>	AXA Investment Managers Paris
<b>Investment Policy</b>	<p>The Investment Manager will seek to achieve the objectives of the Sub-Fund by the use of investment and arbitrage strategies on the main international credit markets, whilst seeking to avoid directional risk.</p> <p>The investment process consists of:</p> <ul style="list-style-type: none"> <li>- dynamic management of a portfolio of fixed, floating indexed and/or convertible debt securities, denominated in Euro or other freely convertible currencies, which are "Investment Grade" or "High Yield". Allocations between the aforementioned categories are made on a discretionary basis. "Investment Grade" issuers are currently defined by rating agencies as issuers who have a minimum rating of BBB- (S&amp;P) and/or Baa3 (Moddys). "High Yield" issuers have a rating lower than the aforementioned minimum ratings or may not have any rating.</li> <li>- implementing strategies on a discretionary basis (either by using securities or derivatives) including but not limited to the following strategies: <ul style="list-style-type: none"> <li>o <u>Credit risk strategies</u>: these include credit impairment or improvement trades, intra or inter sector arbitrage, seniority arbitrage, issuer or spread curve arbitrage and basis trades</li> <li>o <u>Interest rate strategies</u>: these include managing the interest rate risk of the portfolio using an interest rate sensitivity comprised between -2 and +2;</li> <li>o <u>Currency strategies</u>: these consist of opportunistic credit strategies on a same issuer but in different currencies</li> </ul> </li> </ul> <p>The Sub-Fund will implement these strategies by investing in a diversified portfolio of transferable debt securities denominated in any freely convertible currencies issued by OECD governments and other investment grade corporations or institutions and mortgages and asset backed securities that are located anywhere in the world. The Sub-Fund may also invest in Money Market Instruments. On an ancillary basis, the Sub-Fund may invest in transferable debt securities issued by non-OECD governments, corporations or public institutions.</p>
<b>Investment Restrictions</b>	<p>For efficient portfolio management purposes or investment purposes, this Sub-Fund may also expose itself to such assets through the use of derivative instruments within the limits set forth in the section "Investment Restrictions" of the full prospectus.</p> <p>In order to achieve its management objectives, the Sub-Fund may in particular engage in the credit derivatives market by entering, <i>i.a.</i>, into credit default swaps in order to sell or buy protection.</p> <p>The Sub-Fund will only enter into OTC credit derivatives transactions with highly rated financial institutions specialised in this type of transaction and only in accordance with the standard terms laid down by the ISDA Master Agreement.</p>
<b>Special Risk Consideration</b>	For this Sub-Fund, some of the high yield securities held in the portfolio may involve increased credit and market risk; such securities are subject to the risk of an issuer's inability to meet principal and interest payments on its obligations (credit risk) and may also be subject to price volatility due to such factors as interest rate sensitivity, market perception of the creditworthiness of the issuer and general market liquidity. In selecting securities, the Sub-Fund will consider among other things, the price of the security, and the issuer's financial history, condition, management and prospects. The Sub-Fund will endeavour to mitigate the risks associated with high yield securities, by diversifying its holdings by issuer, industry and credit quality.
<b>Profile of the Typical Investor</b>	Typical investors would seek a mix of income and capital growth measured in euro.

<p><b>Performance</b></p>	<p style="text-align: center;"><b>AXA WF Alpha Credit Bonds</b></p> <p>Annual net performance in Reference Currency: Classes A and F capitalisation.</p> <p>Past performance is not indicative of future results.</p>

**APPENDIX 31 - AXA World Funds – Alpha Euro Bonds  
(the "Sub-Fund")**

**This Sub-Fund is currently not open to subscriptions. The Prospectus shall be updated upon determination by the Directors of the initial offering period for Shares of this Sub-Fund.**

**INVESTMENT INFORMATION**

<b>Investment Objective</b>	The objective of the Sub-Fund is to achieve a mix of income and capital growth by mainly investing in fixed and floating rate securities issued in the Euro zone.
<b>Investment Manager</b>	AXA Investment Managers Paris
<b>Investment Policy</b>	<p>The Investment Manager will seek to achieve the objectives of the Sub-Fund by using a dynamic and discretionary strategy based on the analysis of the interest rate curve and the credit risk associated with issuers. Within the context of this strategy the Investment Manager will use several techniques including macro-economic forecasts and analysis to determine the active management of the investments of the Sub-Fund.</p> <p>The Sub-Fund will invest permanently at least two thirds of its total assets in a portfolio consisting of debt securities issued or guaranteed by Euro Zone states and/or issued by private issuers and denominated in Euro. These investments will be used for duration trades, interest rate curve position trades and investment in "Investment Grade" securities. "Investment Grade" securities are those which have a rating at least equal to BBB- (S&amp;P) or the equivalent rating as published by Moody's. In addition the Sub-Fund may invest an aggregate of up to 10% of its assets in debt securities issued in the following categories: Emerging Markets, High Yield debt instruments (rated lower the BBB- (S&amp;P) or the equivalent rating as published by Moody's and/or securities issued and denominated outside of the Euro zone.</p> <p>The Sub-Fund may invest not more than 10% of its assets in equity and equity related instruments.</p>
<b>Investment Restrictions</b>	<p>There is no formal restriction on the proportion of the Sub-Fund's assets that can be invested in and/or exposed to any one particular market.</p> <p>For efficient portfolio management purposes or investment purposes, this Sub-Fund may also expose itself to such assets through the use of derivative instruments within the limits set forth in the section "Investment Restrictions" of the full prospectus.</p> <p>In order to achieve its management objectives, the Sub-Fund may in particular engage in the credit derivatives market by entering, <i>i.a.</i>, into credit default swaps in order to sell or buy protection.</p> <p>The Sub-Fund will only enter into OTC credit derivatives transactions with highly rated financial institutions specialised in this type of transaction and only in accordance with the standard terms laid down by the ISDA Master Agreement.</p> <p>The maximum exposure of the Sub-Fund may not exceed 100% of its net assets.</p>
<b>Profile of the Typical Investor</b>	Typical investors would seek a mix of income and capital growth measured in euro.

## APPENDIX 32 - AXA World Funds – Alpha Sterling Bonds (the "Sub-Fund")

### INVESTMENT INFORMATION

<b>Investment Objective</b>	The investment objective of the Sub-Fund is to seek a higher level of total return than cash over the long term by dynamically managing a portfolio of assets invested in a range of fixed income securities and derivatives.
<b>Investment Manager</b>	AXA Investment Managers UK Ltd.
<b>Investment Policy</b>	<p>The Investment Manager will seek to achieve the objectives of the Sub-Fund through a range of credit and macro strategies invested within an overall active risk (VaR) limit and investment restrictions as detailed within the Prospectus.</p> <p>The investment process consists of implementing strategies on a discretionary basis (either by using securities or derivatives) including, but not limited to, the strategies listed below:</p> <ul style="list-style-type: none"> <li>➤ <b>Credit strategies</b> <ul style="list-style-type: none"> <li>▪ <b>Spread direction</b> - gaining exposure to the widening (i.e. increase) or tightening (i.e., decrease) of spreads between corporate and government bonds at single name or market level.</li> <li>▪ <b>Long stock direction</b> - selecting corporate bonds which the Investment Manager anticipates would outperform the credit market as a whole.</li> <li>▪ <b>Short stock selection</b> - taking negative views on specific bonds via the use of credit derivatives.</li> <li>▪ <b>High yield</b> – investing in sub-investment grade bonds (as defined below) to take advantage of the additional yield offered or absolute returns arising from a particular credit event.</li> </ul> </li> <li>➤ <b>Macro strategies</b> <ul style="list-style-type: none"> <li>▪ <b>Term structure</b> - active duration management (i.e. managing sensitivity of the Sub-Fund to interest rates), and yield curve positioning trades are implemented to take advantage of a particular view on the direction of interest rates and the slope of the yield curve.</li> <li>▪ <b>Cross market</b> - investing in a range of markets, in particular through the use of interest rates derivatives, as a means of allowing the portfolio to overweight or underweight sterling bonds against other markets.</li> <li>▪ <b>Inflation</b> - expressing a view on inflation through either the purchase of conventional or index linked bonds or, alternatively, inflation swaps.</li> </ul> </li> </ul>
<b>Investment Restrictions</b>	<p>In order to achieve the performance objective, the Sub-Fund may invest in the following instruments:</p> <p>Cash and Money Market Instruments, fixed and floating rate securities, collateralised debt securities, UCITS and/or UCI, and derivatives including forward foreign currency contracts, bond futures, interest rate futures, bond options, interest rate options, interest rate and inflation swaps, single name and basket credit default swaps, credit default swap on indices and total return index swaps which may be traded OTC and/or on regulated markets.</p> <p>These securities will primarily be rated investment grade, taking into account that the Sub-Fund may invest a maximum of 30% of its assets in sub-investment grade securities (i.e., rated lower than BBB- by Standard &amp; Poor's or lower than Baa3 by Moody's or, if unrated, then deemed to be so by the Investment Manager).</p> <p>For efficient portfolio management or investment purposes, this Sub-Fund may also be exposed to such assets through the use of derivative instruments within the limits set forth in the section "Investment Restrictions".</p> <p>In seeking to attain its investment objective, the Investment Manager aims to monitor the Sub-Fund market risk by limiting the statistical maximum ex-ante loss experienced by the Sub-Fund under a Value-at-Risk (VaR) computation at 2 % of the Sub-Fund's Net Asset Value. The Value-at-Risk used by the Investment Manager will have a five (5) Business Days horizon and a 95% confidence level parameters.</p> <p>The Value-at-Risk (VaR) is the percentage of Net Asset Value that a portfolio may lose on a given time horizon, at a given confidence level. In respect of this Sub-Fund, the Value-at-Risk level of 2 % of the Sub-Fund's Net Asset Value will have a five Business Days horizon and 95% confidence level parameters. This means that there is a probability of 5% that a loss experienced by the Sub-Fund within the five (5) Business Days horizon may be higher than 2 % of the Sub-Fund's Net Asset Value.</p>

<b>Profile of the Typical Investor</b>	Typical investors would seek a higher level of total return than cash over the long term from an actively managed portfolio of fixed income securities and derivatives instruments.																
<b>Performance</b>	<p>The Sub-Fund was launched on 15 January 2008. Its performance will be described in the annual and semi-annual reports of the Company.</p> <p>Past performance is not indicative of future results.</p>																
<b>Classes of Shares available in the Sub-Fund</b>	<p>There are currently 10 Classes of Shares available in the Sub-Fund, denominated in the currencies mentioned hereinafter:</p> <ul style="list-style-type: none"> <li>- Class A – Capitalisation: EUR hedged;</li> <li>- Class E – Capitalisation: EUR hedged ;</li> <li>- Class F – Capitalisation: GBP;</li> <li>- Class F – Capitalisation: EUR hedged;</li> <li>- Class I – Capitalisation: EUR hedged;</li> <li>- Class I – Capitalisation: GBP;</li> <li>- Class I – Capitalisation: USD hedged;</li> <li>- Class I – Distribution: GBP;</li> <li>- Class I – Distribution: EUR hedged;</li> <li>- Class M – Capitalisation: GBP.</li> </ul> <p>➤ Class "A" Shares are for all investors.</p> <p>➤ Class "E" Shares are for all investors. No charge will be levied to the shareholder for conversions between Class "A" Shares and Class "F" Shares.</p> <p>➤ Class "I" Shares are only offered to Institutional Investors.</p> <p>The Company will not issue, or effect any switching of Class "I" Shares to any investor who may not be considered as an Institutional Investor. The Directors may, at their discretion, delay the acceptance of any subscription for Class "I" Shares restricted to Institutional Investors until such date as the Registrar and Transfer Agent has received sufficient evidence on the qualification of the relevant investor as an Institutional Investor. If it appears at any time that a holder of Class "I" Shares is not an Institutional Investor, the Directors will instruct the Registrar and Transfer Agent to propose that the said holder convert their Shares into Shares of a Class within the relevant Fund which is not restricted to Institutional Investors (provided that there exists such a Class with similar characteristics). In the event that the shareholder refuses such switching, the Directors will, at their discretion, instruct the Registrar and Transfer Agent to redeem the relevant Shares in accordance with the provisions under "How to convert and redeem Shares".</p> <p>➤ Class "M" Shares are only subscribed with the prior approval of the Directors and held by AXA Investment Managers or its subsidiaries for use in institutional mandates or investment management agreements for a dedicated fund contracted with the AXA Group.</p>

## APPENDIX 33 - AXA World Funds – Responsible Development Bonds (the "Sub-Fund")

### INVESTMENT INFORMATION

<b>Investment Objective</b>	The objective of the Sub-Fund is to achieve a mix of income and capital growth by investing in fixed and floating rate securities.
<b>Investment Manager</b>	AXA Investment Managers Paris
<b>Investment Policy</b>	<p>The Investment Manager will seek to achieve the objectives of the Sub-Fund by investing in transferable debt securities issued to raise money for projects aimed at long-term sustainable and economical development. The Sub-Fund will primarily invest in transferable debt securities usually that are issued by governments and supra-national organisations and listed on the main financial markets of the world. The Sub-Fund will also invest in transferable debt securities issued by local development agencies located or acting in emerging countries. Some local development agencies will be guaranteed by the relevant state and listed on the main financial markets of the world.</p> <p>The Sub-Fund will also invest up to 10% of its net assets in senior tranches of FCC ("<i>fonds communs de créance</i>") when the aim will be to support sustainable and economic development projects.</p> <p>Finally, the Sub-Fund may invest maximum 10% of its assets in short-term Transferable Securities issued by micro-banks or any other debt-instruments where the aim is to finance projects that contribute to sustainable economic development. These investments will together with any other non-listed Transferable Securities not exceed 10% of the net assets of the Sub-Fund.</p>
<b>Investment Restrictions</b>	<p>For efficient portfolio management purposes, this Sub-Fund may also expose itself to such assets through the use of derivative instruments within the limits set forth in the section "Investment Restrictions" of the full prospectus.</p> <p>In order to achieve its management objectives, the Sub-Fund may in particular engage in the credit derivatives market by entering, <i>i.a.</i>, into credit default swaps ("CDS") in order to sell or buy protection.</p> <p>The Sub-Fund will only enter into OTC credit derivatives transactions with highly rated financial institutions specialised in this type of transaction and only in accordance with the standard terms laid down by the Master Agreement of the International Swap Dealers Association Inc. ("ISDA").</p> <p>The maximum exposure of the Sub-Fund may not exceed 100% of its net assets provided that the maximum limit in terms of inherent commitment to CDS not used for hedging purpose does not exceed 20% of its net assets.</p>
<b>Special Risk Consideration</b>	For this Sub-Fund, some of the securities held in the portfolio may involve a greater degree of risk than investments in government debt or in debt securities traded on stock exchanges of fully developed markets. The value of the Sub-Fund's assets may be affected by regulatory, custody of assets, lack of liquidity and price volatility factors in addition to the risks described in the prospectus. This is particularly true for investments in Governmental or other issuers of the former Soviet Union.
<b>Profile of the Typical Investor</b>	Typical investors would seek a mix of income and capital growth measured in euro.

**INVESTMENT INFORMATION**

<b>Investment Objective</b>	The objective of the Sub-Fund is to seek performance through dynamic exposure mainly to bonds denominated in Euro.
<b>Investment Manager</b>	AXA Investment Managers Paris
<b>Investment Policy</b>	<p>The Investment Manager will seek to achieve the objectives of the Sub-Fund by investing in a diversified portfolio consisting mainly of Investment Grade transferable debt securities issued by governments, corporations or public institutions, mainly denominated in Euro.</p> <p>The Sub-Fund will be managed with an interest rate sensitivity ranging from 0 to 4. The sensitivity is an indicator measuring the impact of a variation of 1 % of the market interest rates on the value of the Sub-Fund.</p> <p>The Sub-Fund will invest at all time at least two thirds of its total assets in transferable debt securities issued by governments, corporations or public institutions denominated in Euro.</p> <p>The Sub-Fund will be managed with a positioning on the yield curve inside a 1 to 3 range. This positioning can be obtained either through the investment in bonds of a duration from 1 to 3, or via the replication of this duration through the investment in bonds from the entire yield curve.</p> <p>There is no formal restriction on the proportion of the Sub-Fund's assets that can be invested in and/or exposed to any one particular market.</p>
<b>Investment Restrictions</b>	<p>Notwithstanding the limits set forth in the section "Special Investment and Hedging Techniques and Instruments" of the full prospectus, each time the Sub-Fund enters into transactions pursuant to which it will borrow bonds via repurchase agreements in order to sell them, such sales may not engage more than 10% of its net assets.</p> <p>For the avoidance of doubt, the transactions referred to above may not be considered as short selling within the meaning of Article 52 of the Law of 2002.</p> <p>For efficient portfolio management purposes, this Sub-Fund may also expose itself to such assets through the use of derivative instruments within the limits set forth in the section "Investment Restrictions" of the full prospectus.</p> <p>In order to achieve its management objectives, the Sub-Fund may in particular engage in the credit derivatives market by entering, <i>i.a.</i>, into credit default swaps ("CDS") in order to sell or buy protection.</p> <p>The Sub-Fund will only enter into OTC credit derivatives transactions with highly rated financial institutions specialised in this type of transaction and only in accordance with the standard terms laid down by the Master Agreement of the International Swap Dealers Association Inc. ("ISDA").</p> <p>The maximum exposure of the Sub-Fund may not exceed 100% of its net assets.</p>

(the "Sub-Fund")**

**INVESTMENT INFORMATION**

<b>Investment Objective</b>	The objective of the Sub-Fund is to seek performance through dynamic exposure mainly to bonds denominated in Euro.
<b>Investment Manager</b>	AXA Investment Managers Paris
<b>Investment Policy</b>	<p>The Investment Manager will seek to achieve the objectives of the Sub-Fund by investing in a diversified portfolio consisting mainly of Investment Grade transferable debt securities issued by governments, corporations or public institutions, mainly denominated in Euro.</p> <p>The Sub-Fund will be managed with an interest rate sensitivity ranging from 4 to 9. The sensitivity is an indicator measuring the impact of a variation of 1 % of the market interest rates on the value of the Sub-Fund.</p> <p>The Sub-Fund will invest at all time at least two thirds of its total assets in transferable debt securities issued by governments, corporations or public institutions denominated in Euro.</p> <p>The Sub-Fund will be managed with a positioning on the yield curve inside a 7 to 10 range. This positioning can be obtained either through the investment in bonds of a duration from 7 to 10, or via the replication of this duration through the investment in bonds from the entire yield curve.</p> <p>There is no formal restriction on the proportion of the Sub-Fund's assets that can be invested in and/or exposed to any one particular market.</p>
<b>Investment Restrictions</b>	<p>Notwithstanding the limits set forth in the section "Special Investment and Hedging Techniques and Instruments" of the full prospectus, each time the Sub-Fund enters into transactions pursuant to which it will borrow bonds via repurchase agreements in order to sell them, such sales may not engage more than 10% of its net assets.</p> <p>For the avoidance of doubt, the transactions referred to above may not be considered as short selling within the meaning of Article 52 of the Law of 2002.</p> <p>For efficient portfolio management purposes, this Sub-Fund may also expose itself to such assets through the use of derivative instruments within the limits set forth in the section "Investment Restrictions" of the full prospectus.</p> <p>In order to achieve its management objectives, the Sub-Fund may in particular engage in the credit derivatives market by entering, <i>i.a.</i>, into credit default swaps ("CDS") in order to sell or buy protection.</p> <p>The Sub-Fund will only enter into OTC credit derivatives transactions with highly rated financial institutions specialised in this type of transaction and only in accordance with the standard terms laid down by the Master Agreement of the International Swap Dealers Association Inc. ("ISDA").</p> <p>The maximum exposure of the Sub-Fund may not exceed 100% of its net assets.</p>

**INVESTMENT INFORMATION**

<b>Investment Objective</b>	The objective of the Sub-Fund is to achieve a mix of income and capital growth by investing in fixed and floating rate securities.
<b>Investment Manager</b>	AXA Investment Managers Deutschland GmbH
<b>Investment Policy</b>	<p>The Investment Manager will seek to achieve the objectives of the Sub-Fund by investing in a diversified portfolio consisting of Euro zone government bonds and of any other high quality bonds, including Investment Grade transferable debt securities issued by corporations or public institutions, denominated in Euro. These securities will primarily be rated investment grade, taking into account that the Sub-Fund may invest only up to 5% in sub-investment grade securities (i.e., rated lower than BBB- by Standard &amp; Poor's or lower than Baa3 by Moody's or, if unrated, then deemed to be so by the Investment Manager).</p> <p>There is no formal restriction on the proportion of the Sub-Fund's assets that can be invested in and/or exposed to any one particular market.</p>
<b>Investment Restrictions</b>	<p>Notwithstanding the limits set forth in the section "Investment Restrictions" of the full prospectus, the Sub-Fund may not invest more than 5% of its net assets in UCITS and/or other UCI.</p> <p>For efficient portfolio management purposes, this Sub-Fund may also expose itself to such assets through the use of derivative instruments within the limits set forth in the section "Investment Restrictions" of the full prospectus.</p> <p>In order to achieve its management objectives, the Sub-Fund may in particular engage in the credit derivatives market by entering, <i>i.a.</i>, into credit default swaps ("CDS") in order to sell or buy protection.</p> <p>The Sub-Fund will only enter into OTC credit derivatives transactions with highly rated financial institutions specialised in this type of transaction and only in accordance with the standard terms laid down by the Master Agreement of the International Swap Dealers Association Inc. ("ISDA").</p> <p>The maximum exposure of the Sub-Fund may not exceed 100% of its net assets provided that the maximum limit in terms of inherent commitment to CDS not used for hedging purpose does not exceed 20% of its net assets.</p>
<b>Profile of the Typical Investor</b>	Typical investors would seek a mix of income and capital growth measured in euro.

(the "Sub-Fund")**

**INVESTMENT INFORMATION**

<b>Investment Objective</b>	The objective of the Sub-Fund is to achieve a mix of income and capital growth by investing in fixed and floating rate securities.
<b>Investment Manager</b>	AXA Investment Managers Paris
<b>Investment Policy</b>	<p>The Investment Manager will seek to achieve the objective of the Sub-Fund by investing at all times at least two thirds of its total assets in a diversified portfolio consisting of Investment Grade Euro zone government bonds, denominated in Euro, and any other Investment Grade transferable debt securities issued by corporations or public institutions, denominated in Euro. At the time of the purchase, these securities will be rated investment grade, taking into account that in case of downgrade of securities in portfolio the Sub-Fund may hold sub-investment grade securities only on an ancillary basis (i.e., rated lower than BBB- by Standard &amp; Poor's or lower than Baa3 by Moody's or, if unrated, then deemed to be so by the Investment Manager).</p> <p>The Sub-Fund may also invest the remaining third of its assets in Money Market Instruments.</p>
<b>Investment Restrictions</b>	<p>There is no formal restriction on the proportion of the Sub-Fund's assets that can be invested in and/or exposed to any one particular market.</p> <p>For efficient portfolio management purposes, this Sub-Fund may also expose itself to such assets through the use of derivative instruments within the limits set forth in the section "Investment Restrictions".</p>
<b>Profile of the Typical Investor</b>	Typical investors would seek a mix of income and capital growth measured in euro.
<b>Performance</b>	<p>The Sub-Fund has been launched on 24th July, 2008. Its performance will be described in the annual and semi-annual reports of the Company.</p> <p>Past performance is not indicative of future results.</p>
<b>Classes of shares available in the Sub-Fund</b>	<p>There are currently 5 Classes of Shares available in the Sub-Fund, denominated in the currency mentioned hereinafter:</p> <ul style="list-style-type: none"> <li>- Class A – Capitalisation: EUR;</li> <li>- Class E – Capitalisation: EUR;</li> <li>- Class F – Capitalisation: EUR;</li> <li>- Class I – Capitalisation: EUR.</li> <li>- Class I – Distribution: EUR.</li> <li>- Class M – Capitalisation EUR</li> </ul> <p>➤ Class "A" Shares are for all investors.</p> <p>➤ Class "E" Shares are for all investors. Shareholders cannot convert Class "E" Shares into another Class of Shares in the same or a different Sub-Fund without the prior approval of the Company.</p> <p>➤ Class "F" Shares have been more specifically designed for Institutional Investors, and benefit from reduced fee levels.</p> <p>If as a result of a subsequent subscription a shareholder holding "A" Shares reaches the minimum level of holding required for "F" Shares, such shareholder may apply for "F" Shares to be allotted in respect of such subsequent subscription and convert his existing "A" Shares into "F" Shares. To that end, the investor will make the corresponding request in the application for this subsequent subscription. Conversely, if as a result of a redemption, a shareholder holding "F" Shares falls below the level of holding required for "F" Shares, such shareholder shall be deemed to have requested the conversion of the balance of his holding into "A" Shares. No charge will be levied to the shareholder for conversions between "A" Class Shares and "F" Class Shares.</p> <p>➤ Class "I" Shares are only offered to Institutional Investors.</p> <p>Retail Investors will not be allowed to convert their shares into Classes of Shares reserved for</p>

	<p>Institutional Investors.</p> <p>➤ Class "M" Shares are only subscribed with the prior approval of the Directors and held by AXA Investment Managers or its subsidiaries for use in institutional mandates or investment management agreements for a dedicated fund contracted with the AXA Group.</p>															
<p><b>Subscriptions in new classes of Shares</b></p>	<p>The initial subscription in the Class I – Distribution: EUR will take place on November 5, 2008. ## APPENDIX 41 - AXA World Funds – Euro Credit Plus (the "Sub-Fund")

### INVESTMENT INFORMATION

<b>Investment Objective</b>	The objective of the Sub-Fund is to achieve a mix of income and capital growth by investing in fixed and floating rate securities.
<b>Investment Managers</b>	AXA Investment Managers Paris
<b>Investment Policy</b>	<p>The aim of this Sub-Fund is to achieve a mixture of capital appreciation and high return over the medium term, managing at the same time risk exposure. The Investment Manager will seek to achieve the objective of the Sub-Fund by investing in a diversified range of corporate and sovereign bonds based principally in OECD countries, taking into account that the Sub-Fund may invest only up to 30% of its net assets in bonds of said issuers rated sub-investment grade (i.e. under «BBB-») by one or more of these rating Agencies: Standard &amp; Poor's, Moody's, IBCA or if unrated then deemed to be so by the Investment Manager in the best interest of the Sub-Fund shareholders.</p> <p>The Sub-Fund will invest at least two thirds of its assets in bonds which are denominated in Euro. The Sub-Fund may invest not more than one third of its assets in Money Market Instruments, not more than one quarter of its assets in convertible securities and not more than one tenth of its assets in equity and equity related instruments.</p> <p>The Sub-Fund may hold up to 10% of its net assets in bonds of issuers holding an internal rating but not an official rating from either Moody's, or S&amp;P, and Fitch IBCA, either Investment Grade or Sub-Investment Grade ratings.</p>
<b>Investment Restrictions</b>	<p>For efficient portfolio management purposes, this Sub-Fund may also expose itself to such assets through the use of derivative instruments within the limits set forth in the section "Investment Restrictions".</p> <p>In order to achieve its management objectives, the Sub-Fund may in particular engage in the credit derivatives market by entering, <i>i.a.</i>, into credit default swaps ("CDS") in order to sell or buy protection.</p> <p>The Sub-Fund will only enter into OTC credit derivatives transactions with highly rated financial institutions specialised in this type of transaction and only in accordance with the standard terms laid down by the Master Agreement of the International Swap Dealers Association Inc. ("ISDA").</p> <p>The maximum exposure of the Sub-Fund may not exceed 100% of its net assets.</p>
<b>Special Risk Consideration</b>	For this Sub-Fund, some of the high yield securities held in the portfolio may involve increased credit and market risk; such securities are subject to the risk of an issuer's inability to meet principal and interest payments on its obligations (credit risk) and may also be subject to price volatility due to such factors as interest rate sensitivity, market perception of the creditworthiness of the issuer and general market liquidity. In selecting securities, the Sub-Fund will consider among other things, the price of the security, and the issuer's financial history, condition, management and prospects. The Sub-Fund will endeavour to mitigate the risks associated with high yield securities, by diversifying its holdings by issuer, industry and credit quality.
<b>Profile of the Typical Investor</b>	Typical investors would seek a mix of income and capital growth measured in euro.

(the "Sub-Fund")**

**INVESTMENT INFORMATION**

<b>Investment Objective</b>	The objective of the Sub-Fund is to seek performance through dynamic exposure mainly to inflation-linked bonds denominated in Euro.
<b>Investment Manager</b>	AXA Investment Managers Paris
<b>Investment Policy</b>	<p>The Investment Manager will seek to achieve the objectives of the Sub-Fund by investing at all time at least two thirds of its total assets in a diversified portfolio consisting of inflation-linked bonds and of any other related debt securities issued by corporations or public institutions of the Euro zone, and denominated in Euro. The Investment Manager may invest the remaining assets in other debt securities which are not inflation-linked. Furthermore, he will not invest more than one tenth of the total assets of the Sub-Fund in equities, more than one quarter of the total assets of the Sub-Fund in convertible bonds and more than one third of the total assets of the Sub-Fund in Money Market Instruments.</p> <p>The Sub-Fund will be managed with an interest rate sensitivity ranging from 5 to 15. The sensitivity is an indicator measuring the impact of a variation of 1 % of the market interest rates on the value of the Sub-Fund.</p> <p>There is no formal restriction on the proportion of the Sub-Fund's assets that can be invested in and/or exposed to any one particular market.</p>
<b>Investment Restrictions</b>	<p>Notwithstanding the limits set forth in the section "Special Investments and Hedging Techniques and Instruments" of the full prospectus, each time the Sub-Fund enters into transactions pursuant to which it will borrow bonds via repurchase agreements in order to sell them, such sales may not engage more than 10% of its net assets.</p> <p>For the avoidance of doubt, the transactions referred to above may not be considered as short selling within the meaning of Article 52 of the Law of 2002.</p> <p>For efficient portfolio management purposes, this Sub-Fund may also expose itself to such assets through the use of derivative instruments within the limits set forth in the section "Investment Restrictions" of the full prospectus.</p> <p>In order to achieve its management objectives, the Sub-Fund may in particular engage in the credit derivatives market by entering, <i>i.a.</i>, into credit default swaps ("CDS") in order to sell or buy protection.</p> <p>The Sub-Fund will only enter into OTC credit derivatives transactions with highly rated financial institutions specialised in this type of transaction and only in accordance with the standard terms laid down by the Master Agreement of the International Swap Dealers Association Inc. **APPENDIX 43 - AXA World Funds – European Convergence Bonds  
(the "Sub-Fund")**

**INVESTMENT INFORMATION**

<b>Investment Objective</b>	The objective of the Sub-Fund is to achieve a mix of income and capital growth by investing in fixed and floating rate securities.
<b>Investment Manager</b>	AXA Investment Managers Paris
<b>Investment Policy</b>	The Investment Manager will seek to achieve the objectives of the Sub-Fund by investing in a diversified portfolio of transferable debt securities denominated in EUR or in any other European currency. The Sub-Fund may invest in transferable debt securities issued by governments, agencies or corporation that are part of the European Union or Central and Eastern European countries that are expected to join the European Union, with a credit rating of B or better. There is no pre-determined geographical allocation within the European region.
<b>Investment Restrictions</b>	<p>Notwithstanding the limits set forth in the section "Investment Restrictions" of the full prospectus, the Sub-Fund may not invest more than 5% of its net assets in UCITS and/or other UCI.</p> <p>For efficient portfolio management purposes, this Sub-Fund may also expose itself to such assets through the use of derivative instruments within the limits set forth in the section "Investment Restrictions" of the full prospectus.</p> <p>In order to achieve its management objectives, the Sub-Fund may in particular engage in the credit derivatives market by entering, <i>i.a.</i>, into credit default swaps ("CDS") in order to sell or buy protection.</p> <p>The Sub-Fund will only enter into OTC credit derivatives transactions with highly rated financial institutions specialised in this type of transaction and only in accordance with the standard terms laid down by the Master Agreement of the International Swap Dealers Association Inc. ("ISDA").</p> <p>The maximum exposure of the Sub-Fund may not exceed 100% of its net assets provided that the maximum limit in terms of inherent commitment to CDS not used for hedging purpose does not exceed 20% of its net assets.</p>
<b>Special Risk Consideration</b>	For this Sub-Fund, some of the securities held in the portfolio may involve a greater degree of risk than investments in government debt or in debt securities traded on stock exchanges of fully developed markets. The value of the Sub-Fund's assets may be affected by regulatory, custody of assets, lack of liquidity and price volatility factors in addition to the risks described in the prospectus. This is particularly true for investments in Governmental or other issuers of the former Soviet Union.
<b>Profile of the Typical Investor</b>	Typical investors would seek a mix of income and capital growth measured in euro.

<b>Investment Objective</b>	The objective of the Sub-Fund is to achieve a mix of income and capital growth by investing in fixed and floating rate securities.
<b>Investment Manager</b>	AXA Investment Managers Paris
<b>Investment Policy</b>	<p>The Investment Manager will seek to achieve the objectives of the Sub-Fund by investing in a diversified portfolio of transferable debt securities denominated in any freely convertible currencies issued by OECD governments and other investment grade corporations or institutions and mortgages and asset backed securities, that are located anywhere in the world. The Sub-Fund may invest on an ancillary basis in transferable debt securities issued by non-OECD governments, corporations or public institutions.</p> <p>These securities will primarily be rated investment grade, taking into account that the Sub-Fund may invest only up to 10% in sub-investment grade securities (i.e., rated lower than BBB- by Standard &amp; Poor's or lower than Baa3 by Moody's or, if unrated, then deemed to be so by the Investment Manager).</p> <p>The Sub-Fund will invest at all time at least two thirds of its total assets in bonds from issuers located anywhere in the world. The Sub-Fund may invest not more than one third of its assets in mortgages and asset backed securities, not more than one third of its assets in Money Market Instruments, not more than one quarter of its assets in convertible securities, and not more than one tenth of its assets in equity and equity related instruments.</p>
<b>Investment Restrictions</b>	<p>For efficient portfolio management purposes, this Sub-Fund may also expose itself to such assets through the use of derivative instruments within the limits set forth in the section "Investment Restrictions" of the full prospectus.</p> <p>In order to achieve its management objectives, the Sub-Fund may in particular engage in the credit derivatives market by entering, <i>i.a.</i>, into credit default swaps ("CDS") in order to sell or buy protection.</p> <p>The Sub-Fund will only enter into OTC credit derivatives transactions with highly rated financial institutions specialised in this type of transaction and only in accordance with the standard terms laid down by the Master Agreement of the International Swap Dealers Association Inc. ("ISDA").</p> <p>The maximum exposure of the Sub-Fund may not exceed 100% of its net assets.</p> <p>Class "I" Shares- Capitalisation: EUR Hedged will be hedged at least at 95 % against the currencies making up the benchmark of the Sub-Fund, i.e. Lehman Global Aggregate OECD EUR hedged. Beside such hedging strategy, the Investment Manager may expose the portfolio to active currency trades which can differ significantly from the currency exposure of the benchmark.</p>

(the "Sub-Fund")**

**This Sub-Fund is currently not open to subscriptions. The Prospectus shall be updated upon determination by the Directors of the initial offering period for Shares of this Sub-Fund.**

**INVESTMENT INFORMATION**

<b>Investment Objective</b>	The objective of the Sub-Fund is to achieve a mix of income and capital growth by investing in fixed and floating rate securities.
<b>Investment Manager</b>	AXA Investment Managers Paris
<b>Investment Policy</b>	<p>The Investment Manager will seek to achieve the objectives of the Sub-Fund by investing in a diversified portfolio of transferable debt securities denominated in any freely convertible currencies issued by OECD governments and other investment grade corporations or institutions and mortgages and asset backed securities, that are located anywhere in the world. The Sub-Fund may invest up to 15% of its assets in sub-investment grade securities (ie: rated lower than BBB- by Standard and Poor's or lower than Baa3 by Moody's or if unrated then deemed to be so by the Investment Manager) and up to 10% of its assets in transferable debt securities issued by non-OECD governments, corporations or public institutions.</p> <p>The Sub-Fund will invest permanently at least two thirds of its total assets in bonds from issuers located anywhere in the world. The Sub-Fund may invest not more than one third of its assets in Money Market Instruments, not more than one quarter of its assets in convertible securities, and not more than one tenth of its assets in equity and equity related instruments.</p>
<b>Investment Restrictions</b>	<p>For efficient portfolio management purposes, this Sub-Fund may also expose itself to such assets through the use of derivative instruments within the limits set forth in the section "Investment Restrictions" of the full prospectus.</p> <p>In order to achieve its management objectives, the Sub-Fund may in particular engage in the credit derivatives market by entering, <i>i.a.</i>, into credit default swaps in order to sell or buy protection.</p> <p>The Sub-Fund will only enter into OTC credit derivatives transactions with highly rated financial institutions specialised in this type of transaction and only in accordance with the standard terms laid down by the ISDA Master Agreement.</p> <p>The maximum exposure of the Sub-Fund may not exceed 100% of its net assets.</p>
<b>Special Risk Consideration</b>	For this Sub-Fund, some of the high yield securities held in the portfolio may involve increased credit and market risk; such securities are subject to the risk of an issuer's inability to meet principal and interest payments on its obligations (credit risk) and may also be subject to price volatility due to such factors as interest rate sensitivity, market perception of the creditworthiness of the issuer and general market liquidity. In selecting securities, the Sub-Fund will consider among other things, the price of the security, and the issuer's financial history, condition, management and prospects. The Sub-Fund will endeavour to mitigate the risks associated with high yield securities, by diversifying its holdings by issuer, industry and credit quality.
<b>Profile of the Typical Investor</b>	Typical investors would seek a mix of income and capital growth measured in USD.
<b>Performance</b>	<p>The performance of the Sub-Fund will be described in the annual and semi-annual reports of the Company once the Sub-Fund will be launched.</p> <p>Past performance is not indicative of future results.</p>

No charge will be levied to the shareholder for conversions between "A" Class Shares and "F" Class Shares.</p> <p>➤ Class "I" Shares are only offered to Institutional Investors.</p> <p>The Company will not issue, or effect any switching of "I" Shares to any investor who may not be considered as an Institutional Investor. The Directors may, at their discretion, delay the acceptance of any subscription for "I" Shares restricted to Institutional Investors until such date as the Registrar and Transfer Agent has received sufficient evidence on the qualification of the relevant investor as an Institutional Investor. If it appears at any time that a holder of "I" Shares is not an Institutional Investor, the Directors will instruct the Registrar and Transfer Agent to propose that the said holder convert their Shares into Shares of a Class within the relevant Fund which is not restricted to Institutional Investors (provided that there exists such a Class with similar characteristics). ## APPENDIX 46 - AXA World Funds – Global Emerging Markets Bonds (the "Sub-Fund")

### INVESTMENT INFORMATION

<b>Investment Objective</b>	<p>The objective of the Sub-Fund is to seek performance through dynamic exposure mainly to debt securities issued in the emerging debt universe.</p> <p>In addition, the Investment Manager will try to reduce the emerging markets debt exposure of the Sub-Fund by hedging part of the bonds risk through various strategies, including mainly the sale or purchase of protection via credit default swaps.</p> <p>The Sub-Fund aims to get all the potential return of the emerging markets debt while limiting emerging markets debt risk.</p>
<b>Investment Manager</b>	AXA Investment Managers Paris
<b>Investment Policy</b>	<p>The Investment Manager will seek to achieve the objectives of the Sub-Fund by investing at all time at least two thirds of its total assets in transferable debt securities issued in the emerging debt universe worldwide. The Sub-Fund will invest in transferable debt securities issued by local emerging countries and public or private companies.</p> <p>The Sub-Fund may invest not more than one third of its assets in Money Market Instruments, not more than one quarter of its assets in convertible securities. The Sub-Fund will not invest in equity and equity related instruments.</p> <p>The Investment Manager will also hedge part of the currency risks.</p> <p>In an effort to enhance the portfolio's risk/reward profile, this Sub-Fund may attempt to hedge the risk exposures that are not expected to contribute to the portfolio's performance.</p>
<b>Investment Restrictions</b>	<p>For efficient portfolio management purposes, this Sub-Fund may also expose itself to such assets through the use of derivative instruments within the limits set forth in the section "Investment Restrictions" of the full prospectus.</p> <p>In order to achieve its management objectives, the Sub-Fund may in particular engage in the credit derivatives market by entering, <i>i.a.</i>, into credit default swaps ("CDS") in order to sell or buy protection.</p> <p>The Sub-Fund will only enter into OTC credit derivatives transactions with highly rated financial institutions specialised in this type of transaction and only in accordance with the standard terms laid down by the Master Agreement of the International Swap Dealers Association Inc. ("ISDA").</p> <p>The maximum exposure of the Sub-Fund may not exceed 100% of its net assets.</p>
<b>Special Risk Consideration</b>	<p>For this Sub-Fund, some of the securities held in the portfolio may involve a greater degree of risk than generally associated with equity investments in the major securities markets, due in particular to political and regulatory factors and risks related to the specific investment sectors, as more fully described in the relevant appendix in the full prospectus.</p>

**APPENDIX 47 - AXA World Funds – Global High Yield Bonds  
(the "Sub-Fund")**

**INVESTMENT INFORMATION**

<b>Investment Objective</b>	The objective of this Sub-Fund is to achieve a high income by investing in fixed and floating rate securities, with capital growth being a secondary consideration.
<b>Investment Manager</b>	AXA Investment Managers UK Limited
<b>Investment Policy</b>	<p>The Investment Manager will seek to achieve the objective of the Sub-Fund by investing the assets of the Sub-Fund in a broadly diversified portfolio of international fixed income transferable debt securities issued mainly by American and European corporations. These securities will primarily be sub-investment grade (i.e. rated lower than BBB- by Standard and Poor's or lower than Baa3 by Moody's or if unrated then deemed to be so by the Investment Manager).</p> <p>There is no formal restriction on the proportion of the Sub-Fund's assets that can be invested in and/or exposed to any one geographical market segment.</p>
<b>Investment Restrictions</b>	<p>Notwithstanding the limits set forth in the section "Investment Restrictions" of the full prospectus, the Sub-Fund may not invest more than 5% of its net assets in UCITS and/or other UCI.</p> <p>For efficient portfolio management purposes, this Sub-Fund may also expose itself to such assets through the use of derivative instruments within the limits set forth in the section "Investment Restrictions" of the full prospectus.</p> <p>In order to achieve its management objectives, the Sub-Fund may in particular engage in the credit derivatives market by entering, <i>i.a.</i>, into credit default swaps ("CDS") in order to sell or buy protection.</p> <p>The Sub-Fund will only enter into OTC credit derivatives transactions with highly rated financial institutions specialised in this type of transaction and only in accordance with the standard terms laid down by the Master Agreement of the International Swap Dealers Association Inc. ("ISDA").</p> <p>The maximum exposure of the Sub-Fund may not exceed 100% of its net assets provided that the maximum limit in terms of inherent commitment to CDS not used for hedging purpose does not exceed 20% of its net assets.</p>
<b>Special Risk Consideration</b>	For this Sub-Fund, some of the high yield securities held in the portfolio may involve increased credit and market risk; such securities are subject to the risk of an issuer's inability to meet principal and interest payments on its obligations (credit risk) and may also be subject to price volatility due to such factors as interest rate sensitivity, market perception of the creditworthiness of the issuer and general market liquidity. In selecting securities, the Sub-Fund will consider among other things, the price of the security, and the issuer's financial history, condition, management and prospects. The Sub-Fund will endeavour to mitigate the risks associated with high yield securities, by diversifying its holdings by issuer, industry and credit quality.
<b>Profile of the Typical Investor</b>	Typical investors would seek a high income measured in USD.

(the "Sub-Fund")**

**INVESTMENT INFORMATION**

<b>Investment Objective</b>	The objective of the Sub-Fund is to seek performance through dynamic exposure mainly to inflation-linked bonds issued in the OECD.
<b>Investment Manager</b>	AXA Investment Managers Paris
<b>Investment Policy</b>	<p>The Investment Manager will seek to achieve the objectives of the Sub-Fund by investing at all time at least two thirds of its total assets in a diversified portfolio consisting of inflation-linked bonds and of any other related debt securities issued by OECD governments, corporations or public institutions worldwide. The Investment Manager may invest the remaining assets in any other debt securities which are not inflation-linked</p> <p>Furthermore, the Sub-Fund may invest not more than one third of its assets in Money Market Instruments, not more than one quarter of its assets in convertible securities, and not more than one tenth of its assets in equity and equity related instruments.</p> <p>The Sub-Fund will be managed with an interest rate sensitivity ranging from 5 to 15. The sensitivity is an indicator measuring the impact of a variation of 1 % of the market interest rates on the value of the Sub-Fund.</p> <p>There is no formal restriction on the proportion of the Sub-Fund's assets that can be invested in and/or exposed to any one particular market.</p>
<b>Investment Restrictions</b>	<p>Notwithstanding the limits set forth in the section "Special Investment and Hedging Techniques and Instruments" of the full prospectus, each time the Sub-Fund enters into transactions pursuant to which it will borrow bonds via repurchase agreements in order to sell them, such sales may not engage more than 10% of its net assets.</p> <p>For the avoidance of doubt, the transactions referred to above may not be considered as short selling within the meaning of Article 52 of the Law of 2002.</p> <p>For efficient portfolio management purposes, this Sub-Fund may also expose itself to such assets through the use of derivative instruments within the limits set forth in the section "Investment Restrictions" of the full prospectus.</p> <p>In order to achieve its management objectives, the Sub-Fund may in particular engage in the credit derivatives market by entering, <i>i.a.</i>, into credit default swaps ("CDS") in order to sell or buy protection.</p> <p>The Sub-Fund will only enter into OTC credit derivatives transactions with highly rated financial institutions specialised in this type of transaction and only in accordance with the standard terms laid down by the Master Agreement of the International Swap Dealers Association Inc. **APPENDIX 49 - AXA World Funds – US High Yield Bonds  
(the "Sub-Fund")**

**INVESTMENT INFORMATION**

<b>Investment Objective</b>	The objective of this Sub-Fund is to achieve a high income by investing in fixed and floating rate securities, with capital growth being a secondary consideration.
<b>Investment Manager</b>	AXA Investment Managers Inc
<b>Investment Policy</b>	<p>The Investment Manager will seek to achieve the objective of the Sub-Fund by investing permanently at least two thirds of the total assets of the Sub-Fund in a broadly diversified portfolio of fixed income transferable debt securities issued by public or private companies domiciled in the United States and rated sub-investment grade (i.e., rated lower than BBB- by Standard &amp; Poor's or lower than Baa3 by Moody's or, if unrated, then deemed to be so by the Investment Manager). The Investment Manager will not invest and not more than one third of the assets of the Sub-Fund in securities domiciled or listed in Canadian or European markets.</p> <p>The Sub-Fund may invest not more than one third of its total assets in Money Market Instruments, not more than one quarter of its assets in convertible securities, and not more than one tenth of its assets in equity.</p>
<b>Investment Restrictions</b>	<p>For efficient portfolio management purposes, this Sub-Fund may also expose itself to such assets through the use of derivative instruments within the limits set forth in the section "Investment Restrictions" of the full prospectus.</p> <p>In order to achieve its management objectives, the Sub-Fund may in particular engage in the credit derivatives market by entering, <i>i.a.</i>, into credit default swaps ("CDS") in order to sell or buy protection.</p> <p>The Sub-Fund will only enter into OTC credit derivatives transactions with highly rated financial institutions specialised in this type of transaction and only in accordance with the standard terms laid down by the Master Agreement of the International Swap Dealers Association Inc. ("ISDA").</p> <p>The maximum exposure of the Sub-Fund may not exceed 100% of its net assets .</p>
<b>Special Risk Consideration</b>	For this Sub-Fund, some of the high yield securities held in the portfolio may involve increased credit and market risk; such securities are subject to the risk of an issuer's inability to meet principal and interest payments on its obligations (credit risk) and may also be subject to price volatility due to such factors as interest rate sensitivity, market perception of the creditworthiness of the issuer and general market liquidity. In selecting securities, the Sub-Fund will consider among other things, the price of the security, and the issuer's financial history, condition, management and prospects. The Sub-Fund will endeavour to mitigate the risks associated with high yield securities, by diversifying its holdings by issuer, industry and credit quality.
<b>Profile of the Typical Investor</b>	Typical investors would seek a high income measured in USD.

## APPENDIX 50 - AXA World Funds – US Libor Plus (the "Sub-Fund")

**The change of Investment Manager from “AXA Investment Managers Inc.” to “AXA Investment Paris” shall be effective as of September 1, 2008.**

### INVESTMENT INFORMATION

<b>Investment Objective</b>	The objective of the Sub-Fund is to achieve a mix of income and capital growth by investing in fixed and floating rate securities.
<b>Investment Manager</b>	AXA Investment Managers Paris
<b>Investment Policy</b>	<p>The Investment Manager will seek to achieve the investment objective of the Sub-Fund by investing primarily in floating rate and fixed rate investment grade securities. Investment grade securities are defined as those securities rated within the four highest rating categories by all nationally recognized statistical rating organizations (NRSRO) which rate it. Such securities include primarily mortgage-backed securities, asset-backed securities, commercial mortgage-backed securities, as well as U.S. government securities, U.S. agency securities, corporate fixed-income securities, convertible bonds, U.S. pay international bonds, non U.S. pay international bonds, Collateralized Debt Obligations ("CDO"), Collateralized Loans Obligations ("CLO") and money market instruments. A security is considered non-investment grade if it is not rated within the four highest rating categories (investment grade categories) by all NRSRO which rate it. If no such rating is available, the security will be classified as "non-rated" and included in the non-investment grade category. No security shall be purchased if it is rated below "BB" by any NRSRO which rate it.</p> <p>CDO are structured products backed by a diversified pool of public or private fixed income securities, loans, asset-backed securities or mortgage-backed securities and credit derivatives such as credit default swaps. CDO can be divided into collateralized bond obligations (when the underlying pool consist of bonds) and collateralized loan obligations (when the underlying pool consists of loan). The underlying pool of loans or securities is typically separated into tranches representing different degrees of credit quality. The top tranches of CDOs which represent their highest credit quality, have the greatest collateralization and pay the lowest interest rate. Lower CDO tranches represent lower degrees of credit quality and pay higher interest rates to compensate for the attendant risks. The bottom tranche specifically receives the residual interest payments (i.e. money that is left over after the higher tiers have been paid) rather than a fixed interest rate. The return on the bottom tranche of CDO is specifically sensitive to the rate of defaults in the collateral pool.</p>
<b>Investment Restrictions</b>	<p>The portfolios effective duration is expected to be managed with one year or less of duration.</p> <p>No more than 15% of the assets of the Sub-Fund may be invested in CDO and/or CLO.</p> <p>The tranches of CDO in which the Sub-Fund invests, will only be Investment Grade tranches. The Sub-Fund shall not invest in equity tranches or high yield tranches.</p> <p>Combined assets in non-investment grade securities will not exceed 15% of the Sub-Fund’s assets.</p> <p>The Sub-Fund is NOT allowed to:</p> <ul style="list-style-type: none"> <li>i) invest in financial derivative instruments or use financial derivative instruments whether for hedging purposes, except in order to hedge foreign exchange and currency risk borne by the investor which will invest in the Euro denominated Shares of the Sub-Fund, or for efficient portfolio management purposes;</li> <li>ii) borrow.</li> </ul>
<b>Special Risk Consideration</b>	<p>Securities issued by CDOs («CDO Securities») are generally limited recourse obligations of the issuers thereof payable solely from the underlying assets («CDO Assets») of the relevant issuer or proceeds thereof. Consequently, holders of CDO Securities including the Company must rely solely on distributions on the CDO Assets or proceeds thereof for payment in respect thereof. In addition, interest payments on CDO Securities (other than the most senior tranche or tranches of a given issue) are generally subject to deferral. If distributions on the CDO Assets (or, in the case of a market value CDO Security - as explained hereinafter) - proceeds from the sale of the CDO Assets) are insufficient to make payments on the CDO Securities, no other assets will be available for payment of the deficiency and following realization of the underlying assets, the obligations of the issuer of the related CDO Security to pay such deficiency including to the Company will be extinguished.</p>

	<p>With a market value CDO deal, principal and interest payments to investors come from both collateral cash flows as well as sales of collateral. Payments to tranches are not contingent on the adequacy of the collateral's cash flows, but rather the adequacy of its market value. Should the market value of collateral drop below a certain level, payments are suspended to the equity tranche. If it falls even further, more senior tranches are impacted. An advantage of a market value CDO is the added flexibility they afford the portfolio manager. It is not constrained by a need to match the cash flows of collateral to those of the various tranches.</p> <p>CDO Assets consist primarily of non-investment grade loans, interests in non-investment grade loans, high yield debt securities and other debt instruments, which are subject to liquidity, market value, credit, interest rate, reinvestment and certain other risks. The CDO Assets will generally be subject to greater risks than investment-grade corporate obligations. Such investments are normally considered speculative in nature. CDO Assets are typically actively managed by an investment manager, and as a result CDO Assets will be traded, subject to rating agency and other constraints, by such investment managers. The aggregate return on the CDO Assets will depend in part upon the ability of the relevant investment manager to actively manage the related portfolio of the CDO Assets.</p> <p>The CDO Assets will be subject to certain portfolio restrictions as set forth herein. However, the concentration of the CDO Assets in any one security type subjects the holders of CDOs to a greater degree of risk with respect to defaults on the CDO Assets.</p> <p>The CDO Assets are subject to credit, liquidity, market value, interest rate and certain other risks. These risks could be exacerbated to the extent that the portfolio is concentrated in one or more particular CDO Assets.</p> <p>CDO Securities are in general privately placed and offer less liquidity than other investment-grade or high-yield corporate debt. They are also generally issued in structured transactions with risks different from regular corporate debt. In addition, the assets collateralizing market value CDO Securities are subject to liquidation upon the failure of certain tests, and it is likely that any such liquidation would result in a substantial loss of value of the related market value CDO Securities.</p> <p>Prices of the CDO Assets may be volatile, and will generally fluctuate due to a variety of factors that are inherently difficult to predict, including but not limited to changes in interest rates, prevailing credit spreads, general economic conditions, financial market conditions, domestic and international economic or political events, developments or trends in any particular industry, and the financial condition of the obligors of the CDO Assets. In addition, the ability of the issuer to sell CDO Assets prior to maturity is subject to certain restrictions set forth in the offering and constitutive documents of the relevant CDO.</p>												
<p><b>Profile of the Typical Investor</b></p>	<p>Typical investors are interested in investments consistent with a primary emphasis upon preservation of capital while allowing a level of income and total return consistent with prudent investment risk.</p>

**APPENDIX 51 - AXA World Funds – Force 3  
(the "Sub-Fund")**

**INVESTMENT INFORMATION**

<b>Investment Objective</b>	The objective of the Sub-Fund is to achieve medium term capital and income growth by investing in a diversified portfolio of equities, bonds, money market instruments and ancillary cash, directly or through the investment in other UCITS and/or UCI. The investment policy of the Sub-Fund is structured so as to offer investors a clear choice of risk/reward profile.
<b>Investment Manager</b>	AXA Investment Managers Paris
<b>Investment Policy</b>	<p>The Investment Manager will seek to achieve the objectives of the Sub-Fund while containing volatility of returns by investing in a broad set of world market bonds, money market instruments and equities issued in the OECD or non-OECD countries. The emphasis is put on bonds issued principally within the Euro zone.</p> <p>There is no formal restriction on the proportion of the Sub-Fund's assets that can be invested in and/or exposed to any one particular market.</p>
<b>Investment Restrictions</b>	<p>At least 10% of the net assets of the Sub-Fund will be invested in units or shares of UCITS and/or other UCI which comply with the provisions set forth in article A (5) of the section "Investment Restrictions" of the full prospectus. In any case, the investments by the Sub-Fund in other UCIs may not exceed the limits set forth in article D(2) of the above mentioned section.</p> <p>In accordance with article B(1) of the section "Investment Restrictions" of the full prospectus, the Sub-Fund may invest up to 10% of its net assets in units or shares of regulated open-ended hedge funds which are submitted to an equivalent supervision.</p> <p>For efficient portfolio management purposes, this Sub-Fund may also expose itself to such assets through the use of derivative instruments within the limits set forth in the section "Investment Restrictions" of the full prospectus.</p> <p>In order to achieve its management objectives, the Sub-Fund may in particular engage in the credit derivatives market by entering, <i>i.a.</i>, into credit default swaps ("CDS") in order to sell or buy protection.</p> <p>The Sub-Fund will only enter into OTC credit derivatives transactions with highly rated financial institutions specialised in this type of transaction and only in accordance with the standard terms laid down by the Master Agreement of the International Swap Dealers Association Inc. ("ISDA").</p> <p>The maximum exposure of the Sub-Fund may not exceed 100% of its net assets.</p>
<b>Special risk consideration</b>	For this Sub-fund, some of the securities held in the portfolio may involve a greater degree of risk than generally associated with equity investments in the major securities markets, due in particular to political and regulatory factors or to the nature of the target funds as described in the relevant appendix in the full prospectus.
<b>Profile of the Typical Investor</b>	Typical investors would seek medium term capital and income growth measured in euro.

**APPENDIX 53 - AXA World Funds – Force 8  
(the "Sub-Fund")**

**INVESTMENT INFORMATION**

<b>Investment Objective</b>	The objective of the Sub-Fund is to achieve medium term capital and income growth by investing in a diversified portfolio of equities, bonds, money market instruments and ancillary cash directly or through the investment in other UCITS and/or UCI. The investment policy of the Sub-Fund is structured so as to offer investors a clear choice of risk/reward profile.
<b>Investment Manager</b>	AXA Investment Managers Paris
<b>Investment Policy</b>	<p>The Investment Manager will seek to achieve the objectives of the Sub-Fund while containing volatility of returns by investing mainly in a broad set of world market bonds, money market instruments and equities issued in the OECD or non-OECD countries. The emphasis is put on equities issued principally within the Euro zone.</p> <p>There is no formal restriction on the proportion of the Sub-Fund's assets that can be invested in and/or exposed to any one particular market.</p>
<b>Investment Restrictions</b>	<p>At least 10% of the net assets of the Sub-Fund will be invested in units or shares of UCITS and/or other UCI which comply with the provisions set forth in article A (5) of the section "Investment Restrictions" of the full prospectus. In any case, the investments by the Sub-Fund in other UCIs may not exceed the limits set forth in article D(2) of the above mentioned section.</p> <p>In accordance with article B(1) of the section "Investment Restrictions" of the full prospectus, the Sub-Fund may invest up to 10% of its net assets in units or shares of regulated open-ended hedge funds which are submitted to an equivalent supervision.</p> <p>For efficient portfolio management purposes, this Sub-Fund may also expose itself to such assets through the use of derivative instruments within the limits set forth in the section "Investment Restrictions" of the full prospectus.</p> <p>In order to achieve its management objectives, the Sub-Fund may in particular engage in the credit derivatives market by entering, <i>i.a.</i>, into credit default swaps ("CDS") in order to sell or buy protection.</p> <p>The Sub-Fund will only enter into OTC credit derivatives transactions with highly rated financial institutions specialised in this type of transaction and only in accordance with the standard terms laid down by the Master Agreement of the International Swap Dealers Association Inc. ("ISDA").</p> <p>The maximum exposure of the Sub-Fund may not exceed 100% of its net assets.</p>
<b>Special risk consideration</b>	<p>For this Sub-fund, some of the securities held in the portfolio may involve a greater degree of risk than generally associated with equity investments in the major securities markets, due in particular to political and regulatory factors or to the nature of the target funds as described in the relevant appendix in the full prospectus.</p> <p>The Sub-Fund is also exposed to risk linked to investments in hedge funds and derivatives, to risk linked to leverage, interest rates and margin, as well as to credit risk.</p>
<b>Profile of the Typical Investor</b>	Typical investors would seek medium term capital and income growth measured in euro.

## APPENDIX 54 - AXA World Funds – Global Optimal Income (the "Sub-Fund")

**This Sub-Fund is currently not open to subscriptions. The prospectus shall be updated upon determination by the Directors of the initial period for Shares of this Sub-Fund.**

### INVESTMENT INFORMATION

<b>Investment Objective</b>	The objective of the Sub-Fund is to achieve long term capital growth combined with a stable income.
<b>Investment Manager</b>	AXA Investment Managers Paris
<b>Investment Policy</b>	The Investment Manager will seek to achieve the objective of the Sub-Fund by investing in a set of high dividend equities and/or fixed income securities issued by governments and companies which are primarily domiciled or listed in any countries of OCDE countries. Nevertheless, the Investment Manager could invest up to 10% of its assets in securities issued by any governments and companies based in non – OCDE countries.
<b>Investment Restrictions</b>	<p>In accordance with article B(1) of the section "Investment Restrictions" of the full prospectus, the Sub-Fund may invest up to 10% of its net assets in units or shares of regulated open-ended hedge funds which are submitted to an equivalent supervision.</p> <p>For efficient portfolio management purposes, this Sub-Fund may also expose itself to such assets through the use of derivative instruments within the limits set forth in the section "Investment Restrictions" of the full prospectus.</p> <p>In seeking to attain its investment objective, the Investment Manager aims to monitor the Sub-Fund's market risk by limiting the statistical maximum ex-ante loss experienced by the Sub-Fund under a Value-at-Risk (VaR) computation at 5 % of the Sub-Fund's Net Asset Value. The Value-at-Risk used by the Investment Manager will have a five (5) Business Days horizon and a 95% confidence level parameters.</p> <p>The Value-at-Risk (VaR) is the percentage of Net Asset Value that a portfolio may lose on a given time horizon, at a given confidence level. In respect of this Sub-Fund, the Value-at-Risk level of 5 % of the Sub-Fund's Net Asset Value will have a five (5) Business Days horizon and 95% confidence level parameters. This means that there is a probability of 5% that a loss experienced by the Sub-Fund within the five (5) Business Days horizon may be higher than 5 % of the Sub-Fund's Net Asset Value.</p>
<b>Special Risk Consideration</b>	<p>This Sub-Fund will particularly be submitted to the following risks:</p> <ul style="list-style-type: none"> <li>- Interest Rate Risk</li> <li>- Dependence on the Investment Manager</li> <li>- Market Risk</li> <li>- Foreign exchange / Currency risk</li> <li>- Derivatives Risk</li> <li>- Leverage</li> <li>- Credit Risk on Counterparties</li> <li>- Risks of Global Investments</li> <li>- Risk linked to the investment in hedge funds</li> </ul> <p>For further details, please refer to the relevant appendix of the full prospectus.</p>
<b>Profile of the Typical Investor</b>	Typical investors would seek stable income combined with long-term capital growth measured in euro. The income yields are of secondary importance.
<b>Performance</b>	<p>This Sub-Fund is currently dormant. Its performance will be described in the annual and semi-annual reports of the Company once the Sub-Fund will be launched.</p> <p>Past performance is not indicative of future results.</p>

(the "Sub-Fund")**

**INVESTMENT INFORMATION**

<b>Investment Objective</b>	The objective of the Sub-Fund is to achieve a long term capital growth combined with a stable income.
<b>Investment Manager</b>	AXA Investment Managers Paris
<b>Investment Policy</b>	<p>The Investment Manager will seek to achieve the objective of the Sub-Fund by investing in a set of high dividend equities or fixed income securities issued by governments and companies which are domiciled or listed in any countries of Europe. Nevertheless, the Investment Manager could invest up to 10% of its assets in securities issued by any governments and companies based in non –European countries.</p> <p>The Sub-Fund will invest 51% minimum of its total assets in bonds including other debt securities debt instruments and money market instruments as well as securities.*</p>
<b>Investment Restrictions</b>	<p>In accordance with article B(1) of the section "Investment Restrictions" of the Prospectus, the Sub-Fund may invest up to 10% of its net assets in units or shares of regulated open-ended hedge funds which are submitted to an equivalent supervision.</p> <p>For efficient portfolio management purposes, this Sub-Fund may also expose itself to such assets through the use of derivative instruments within the limits set forth in the section "Investment Restrictions" of the full prospectus.</p> <p>In order to achieve its management objectives, the Sub-Fund may in particular engage in the credit derivatives market by entering, <i>i.a.</i>, into credit default swaps ("CDS") in order to sell or buy protection.</p> <p>The Sub-Fund will only enter into OTC credit derivatives transactions with highly rated financial institutions specialised in this type of transaction and only in accordance with the standard terms laid down by the Master Agreement of the International Swap Dealers Association Inc. ("ISDA").</p> <p>The maximum exposure of the Sub-Fund may not exceed 100% of its net assets.</p>
<b>Special Risk Consideration</b>	<p>For this Sub-Fund, some of the high yield securities held in the portfolio may involve increased credit and market risk; such securities are subject to the risk of an issuer's inability to meet principal and interest payments on its obligations (credit risk) and may also be subject to price volatility due to such factors as interest rate sensitivity, market perception of the creditworthiness of the issuer and general market liquidity. In selecting securities, the Sub-Fund will consider among other things, the price of the security, and the issuer's financial history, condition, management and prospects. The Sub-Fund will endeavour to mitigate the risks associated with high yield securities, by diversifying its holdings by issuer, industry and credit quality.</p> <p>For further details, please refer to the relevant appendix of the full prospectus.</p>

**APPENDIX 56 – AXA World Funds – Portable Alpha Absolute  
(the "Sub-Fund")**

**INVESTMENT INFORMATION**

<b>Investment Objective</b>	The objective of the Sub-Fund is to achieve medium term capital growth by investing in an actively managed portfolio of securities (which components may be UCITS and/or other UCI, equities, bonds, money market instruments) and ancillary cash and by entering into several derivatives transactions aimed at hedging the corresponding market risk. The investment policy of the Sub-Fund is structured so as to offer investors a clear choice of risk/reward profile.
<b>Investment Manager</b>	AXA Investment Managers Paris
<b>Investment Policy</b>	<p>The “portable alpha” strategy refers to the process separating the “Alpha” return (i.e. the return that comes from security selection within an asset class, such “alpha” return reflecting the investment manager’s selection skill) from the “Beta” return (i.e. the return that comes from the exposure to an asset class market).</p> <p>The Sub-Fund will invest in an actively managed portfolio of securities (which components may be UCITS and/or other UCI, equities, bonds, money market instruments) and will try to hedge the market risk through the use of futures contracts, options and/or swaps. This is designed to enable the Investment Manager to isolate the “Alpha” return from the “Beta” return.</p> <p>The “Alpha” return of the securities portfolio will be added or transposed (hence the concept of “portable alpha”) to the “Beta” return of the short-term money market Euro zone index.</p> <p>Therefore, the Investment Manager will seek to achieve the objectives of the Sub-Fund while containing volatility of returns by investing in a broad set of UCITS and/or other UCI, world market bonds, money market instruments, equities issued in the OECD or non-OECD countries and by hedging the corresponding market risk thanks to the use of derivatives.</p>
<b>Investment Restrictions</b>	<p>There is no formal restriction on the proportion of the Sub-Fund’s assets that can be invested in and/or exposed to any one particular market.</p> <p>The Sub-Fund may enter into repurchase agreements up to 100% of its assets.</p> <p>At least 10% of the net assets of the Sub-Fund will be invested in units or shares of UCITS and/or other UCI which comply with the provisions set forth in article A (5) of the section "Investment Restrictions" of the Prospectus. In any case, the investments by the Sub-Fund in other UCIs may not exceed the limits set forth in article D(2) of the above mentioned section.</p> <p>In addition, the Sub-Fund may in accordance with the conditions and limits laid down in the Prospectus in section "Investment Restrictions" use both over-the-counter and exchange traded instruments (including derivative instruments such as swaps, futures, options and forward agreements) and trade on margin for hedging and efficient portfolio management purposes.</p> <p>In order to achieve its management objectives, the Sub-Fund may in particular engage in the credit derivatives market by entering, <i>i.a.</i>, into credit default swaps ("CDS") in order to sell or buy protection.</p> <p>The Sub-Fund will only enter into OTC credit derivatives transactions with highly rated financial institutions specialised in this type of transaction and only in accordance with the standard terms laid down by the Master Agreement of the International Swap Dealers Association Inc. (“ISDA”).</p> <p>The maximum exposure of the Sub-Fund may not exceed 100% of its net assets.</p>
<b>Special Risk consideration</b>	The strategy of the Sub-Funds does not guarantee to meet the objective and the event the Investment Manager's predictions are inaccurate, or the market conditions turned to be adverse, the Sub-Fund can incur losses, and consequently, the investor may not recover the full amount initially invested in the Sub-Fund.
<b>Profile of the Typical Investor</b>	Typical investors would seek medium term capital and income growth measured in Euro.

## APPENDIX 58 - AXA World Funds – Money market Euro (the "Sub-Fund")

### INVESTMENT INFORMATION

<b>Investment Objective</b>	The objective of the Sub-Fund is to provide low income but stable value. The Sub-Fund normally achieves a lower rate of return over the long term than Equities Funds and Bond Funds.
<b>Investment Manager</b>	AXA Investment Managers Paris
<b>Investment Policy</b>	The Investment Manager will seek to achieve the objectives of the Sub-Fund by investing exclusively in high-quality negotiable short-term debt securities denominated in EUR. The securities in which the Sub-Fund invests shall have an initial or residual maturity of less than 12 months, taking into account the financial instruments connected therewith or, provided that pursuant to the terms and conditions of issue governing such securities, the interest rate applicable thereto is adjusted at least annually on the basis of market conditions. The Sub-Fund may also invest in time deposits and money market instruments with an initial or residual maturity of less than 12 months on an ancillary basis.
<b>Investment Restrictions</b>	<p>Notwithstanding the limits set forth in the section "Investment Restrictions" of the full prospectus, the Sub-Fund may not invest more than 5% of its net assets in UCITS and/or other UCI.*</p> <p>For efficient portfolio management purposes, this Sub-Fund may also expose itself to such assets through the use of derivative instruments within the limits set forth in the section "Investment Restrictions" of the full prospectus.</p> <p>In order to achieve its management objectives, the Sub-Fund may in particular engage in the credit derivatives market by entering, <i>i.a.</i>, into credit default swaps ("CDS") in order to sell or buy protection.</p> <p>The Sub-Fund will only enter into OTC credit derivatives transactions with highly rated financial institutions specialised in this type of transaction and only in accordance with the standard terms laid down by the Master Agreement of the International Swap Dealers Association Inc. ("ISDA").</p> <p>The maximum exposure of the Sub-Fund may not exceed 100% of its net assets provided that the maximum limit in terms of inherent commitment to CDS not used for hedging purpose does not exceed 20% of its net assets.</p>
<b>Profile of the Typical Investor</b>	Typical investors would seek low income but stable value in euro.

<p><b>Classes of shares available in the Sub-Fund</b></p>	<p>There are currently 7 Classes of Shares available in the Sub-Fund, denominated in the currencies mentioned hereinafter:</p> <ul style="list-style-type: none"> <li>- Class A – Capitalisation: EUR;</li> <li>- Class A – Distribution: EUR;</li> <li>- Class E – Capitalisation: EUR;</li> <li>- Class F – Capitalisation: EUR;</li> <li>- Class F – Distribution: EUR;</li> <li>- Class I – Capitalisation: EUR;</li> <li>- Class M – Capitalisation: EUR.</li> </ul> <p>➤ Class "A" Shares are for all investors.</p> <p>➤ Class "E" Shares are for all investors. Shareholders cannot convert Class "E" Shares into another Class of Shares in the same or a different Sub-Fund without the prior approval of the Company.</p> <p>➤ Class "F" Shares have been more specifically designed for Institutional Investors, and benefit from reduced fee levels.</p> <p>If as a result of a subsequent subscription a shareholder holding "A" Shares reaches the minimum level of holding required for "F" Shares, such shareholder may apply for "F" Shares to be allotted in respect of such subsequent subscription and convert his existing "A" Shares into "F" Shares. To that end, the investor will make the corresponding request in the application for this subsequent subscription. Conversely, if as a result of a redemption, a shareholder holding "F" Shares falls below the level of holding required for "F" Shares, such shareholder shall be deemed to have requested the conversion of the balance of his holding into "A" Shares. No charge will be levied to the shareholder for conversions between "A" Class Shares and "F" Class Shares.</p> <p>➤ Class "I" Shares are only offered to Institutional Investors.</p> <p>Retail Investors will not be allowed to convert their Shares into Classes of Shares reserved for Institutional Investors.</p> <p>➤ Class "M" Shares are only subscribed with the prior approval of the Directors and held by AXA Investment Managers or its subsidiaries for use in institutional mandates or investment management agreements for a dedicated fund contracted with the AXA Group.</p>
