

RWC FUNDS**RWC Funds – RWC Global Convertibles Fund**

Important Information	<p>This simplified prospectus contains key information about RWC Funds – RWC Global Convertibles Fund (the "Sub-Fund"). If you would like more information before you invest, please consult the most recent full prospectus (the "Full Prospectus") of RWC Funds (hereinafter the "Fund"). Unless defined in this document, defined terms shall bear the same meaning as in the Full Prospectus. For details about the Sub-Fund's holdings, please see the most recent report.</p> <p>The rights and duties of the investor as well as the legal relationship with the Fund are laid down in the Full Prospectus. The Full Prospectus and the periodical reports may be obtained free of charge from the Fund.</p>
Sub-Fund Currency	EUR
Investment objective and policy	<p>To provide a return by investing primarily in a diversified portfolio of convertible securities throughout the world.</p> <p>At least 67% of the total assets of the Sub-Fund (excluding cash and cash equivalents) will be invested in convertible securities. The Sub-Fund will invest in convertible securities issued by companies worldwide, including emerging markets.</p> <p>The Sub-Fund may also invest in money market instruments, bonds, equities, warrants, options, futures and other OTC derivatives on an ancillary basis.</p> <p>The Sub-Fund may invest in securities denominated in any currency. Non-Sub-Fund Currency exposure may be hedged back to the Sub-Fund Currency to moderate currency exchange risks. More specifically, currency futures, forwards and OTC options may be used for that purposes.</p> <p>The Sub-Fund may also use techniques and instruments relating to transferable securities and money market instruments for efficient portfolio management.</p>
Sub-Fund's risk profile	<p>The risk of the portfolio is medium. Convertible securities are hybrids between debt and equity, permitting holders to convert into equity under certain circumstances. As such investors should expect greater volatility than straight bond investments with an increased risk of capital loss, but with the potential for higher returns. Investments in financial derivative instruments may also increase the overall volatility of the portfolio.</p> <p>Further details are provided in the Full Prospectus.</p>

Performance of the Sub-Fund¹	 <p>RWC Funds - RWC Global Convertibles Fund (class B shares EUR)</p> <p>■ RWC Funds - RWC Global Convertibles Fund (class B shares EUR) ■ UBS Global Focus Convertible</p>
Performance disclaimer	<p>Past performance is not necessarily a guide to future performance. Investors may not get back the full amount invested, as prices of shares and the income from them may fall as well as rise.</p>
Profile of the typical investor	<p>This Sub-Fund may be suitable for investors seeking long-term capital growth with a potentially lower risk profile than that associated with pure equity funds. Convertible securities offer some of the potential returns of equities with the lower volatility characteristics associated with bonds.</p>
Treatment of income	<p>Accumulation Shares</p> <p>In principle, capital gains and other income of the Fund will be capitalised and no dividend will generally be payable to shareholders.</p> <p>Distributing Shares</p> <p>The Board of Directors however reserves the right, within the limits of applicable law, to introduce a distribution policy which may vary according to each Sub-Fund and/or each Class of Shares.</p> <p>Income attributable to shareholders in Classes which are designated as distributing Classes of Shares ("Class Shares (Dist)") will generally be declared as annual dividends by the annual general meeting of shareholders or as interim dividends, if deemed appropriate by the Board of Directors. Such dividends will ordinarily be distributed to the Shareholders concerned.</p> <p>Payment of dividends will be made in the relevant Class Currency. Shareholders may also elect to receive, at their risk and cost, dividends in another currency of denomination than the Class Currency of the Shares they hold.</p> <p>"Reporting" Share Classes</p> <p>It is the current intention of the Board of Directors to seek "reporting" fund status for some or all of the Fund's Classes of Shares. In order to qualify as reporting funds, the Fund must, in respect of each accounting period beginning on or after 1 January 2010, report 100% of the adjusted accounting income attributable to those Classes and UK resident investors will be taxable on such reported income whether or not the income is actually distributed. The Board of Directors reserves the right to determine whether or not dividends should be paid in respect of such Classes of Shares.</p>

¹ Only the historical performance of Class B Shares EUR has been disclosed. The historical performances of other Classes of Shares are similar but may vary according to the amount of fees charged or as a result of other specific features such as their dividend policy. Historical performances may also vary as a result of the currency denomination or hedging policy applicable in relation to any specific Class.

Subscription fee	Up to 5% of the net asset value of the Shares being subscribed, paid in favour of intermediaries active in the placement of the Shares.												
Redemption fee	None.												
Taxation	<p><u>Taxation of the Fund</u></p> <p>Under current law and practice, the Fund is not liable to any Luxembourg income tax, nor are dividends paid by the Fund liable to any Luxembourg withholding tax.</p> <p>However, each Class of Shares is liable in Luxembourg to a "<i>taxe d'abonnement</i>" of 0.05% per annum of its net assets, such tax being payable quarterly and calculated on the total net asset value of each Class at the end of the relevant quarter.</p> <p>However, in respect of any Class of Shares which is comprised only of Institutional Investors (within the meaning of article 174 of the law of 17 December 2010 on undertakings for collective investment (formerly article 129 of</p>												

² Shareholders may be required to pay additional charges and fees to financial institutions acting as local paying agents in foreign countries where the Shares are marketed. Where applicable, relevant details will be disclosed in supplementary offering documents with respect to specific jurisdictions.

	<p>the 2002 Law)), the tax levied will be at the rate of 0.01% per annum, such tax being payable quarterly and calculated on the total net asset value of each Class at the end of the relevant quarter.</p> <p>The "<i>taxe d'abonnement</i>" is not applicable in respect of assets invested (if any) in Luxembourg UCIs, which are themselves subject to such tax. No stamp duty or other tax is payable in Luxembourg on the issue of Shares in the Fund except a tax, payable once only, of EUR 1,250 which was paid upon incorporation.</p> <p>No tax is payable in Luxembourg on realised or unrealised capital appreciation of the assets of the Fund. Although the Fund's realised capital gains, whether short- or long-term, are not expected to become taxable in another country, the shareholders must be aware and recognise that such a possibility, though quite remote, is not totally excluded. The regular income of the Fund from some of its securities as well as interest earned on cash deposits in certain countries may be liable to withholding taxes at varying rates, which normally cannot be recovered.</p> <p><u>Taxation of the Shareholders</u></p> <p>Investors should consult their professional advisors on the possible tax or other consequences of buying, holding, transferring or selling the Fund's Shares under the laws of their countries of citizenship, residence or domicile.</p> <p>Under existing laws of Luxembourg and except as provided for by the law implementing the Savings Directive (as detailed below), non-Luxembourg resident shareholders are not subject to capital gains, income, withholding or other tax in Luxembourg.</p> <p>The law passed by parliament on 21 June 2005 (the "Law") has implemented into Luxembourg law, Council Directive 2003/48/EC on the taxation of savings income in the form of interest payments (referred to as Savings Directive).</p> <p>On the basis of the Sub-Fund's investment policy, it is expected that the Sub-Fund falls within the scope of the Savings Directive and the Law.</p> <p>The foregoing which is only a summary of the implications of the Savings Directive and the Law, is based on the current interpretation thereof and does not purport to be complete in all respects. It does not constitute investment or tax advice and investors should therefore seek advice from their financial or tax adviser on the full implications for themselves of the Savings Directive and the Law.</p> <p>More details on the Savings Directive provisions are available in the Full Prospectus of the Fund.</p>
Price publication	<p>The net asset value of each Class is calculated on each Valuation Day. The net asset value per Share of each Class and the issue and redemption prices per Share of each Sub-Fund may be obtained during business hours at the registered office of the Fund and are available on the websites www.rwcpartners.com and www.fundinfo.com.</p>
How to buy/sell/convert Shares	<p>Applications for subscription and redemption of Shares must be received by 1.00 p.m. (Luxembourg time) on the Luxembourg bank business day preceding a Valuation Day to be dealt with at the net asset value per Share of the relevant Class of that Valuation Day. Applications received after 1.00 p.m. (Luxembourg time) on the Luxembourg bank business day preceding the Valuation Day will be dealt with at the net asset value per Share of the relevant Class of the next Valuation Day.</p> <p>Applications for conversion must be received by 1.00 p.m. (Luxembourg time) on any Luxembourg bank business day (the "Conversion Day") to be dealt with at the net asset values of the relevant Classes of Shares, in principle, of the next common Valuation Day. Applications received after 1.00 p.m. on a Luxembourg bank business day will be deemed to be received by 1.00 p.m. (Luxembourg time) on the next Conversion Day.</p>

	<p>Any application for conversion is technically executed as a redemption out followed by a subscription in. Consequently, the cut-off time for subscription and redemption of the two sub-funds concerned shall apply to any such conversion.</p> <p>Therefore, the shareholders’ attention is drawn to the particular problems involved in a conversion operation when the terms and methods of redeeming Shares in the sub-fund do not coincide with the terms and methods of subscribing to Shares in the invested sub-fund.</p> <p>If the cut-off time for subscriptions and redemptions in the invested sub-fund and the divested sub-fund are not aligned, the shareholders’ attention is drawn to the fact that the amount converted may not be exposed to the performance of the relevant sub-funds and may not generate interest during the time interval between the redemption leg and the subscription leg of the conversion. In addition, the subscription leg may be dealt with at the net asset value of a specific Valuation Day of the divested sub-fund and the redemption leg at the net asset value of the next Valuation Day of the invested sub-fund.</p> <p>Further details are provided in the Full Prospectus.</p>																
Subscription/Redemption information	<p>The Sub-Fund contains Class A Shares, Class B Shares and Class C Shares which are each available in US Dollars, Euros, Sterling and Swiss Francs.
