

KEY INVESTOR INFORMATION

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

UBAM - Angel Japan Small Cap Equity, a sub-fund of UBAM

Class: RC JPY (Capitalisation) LU0306285783

UBAM is a SICAV managed by UBP Asset Management (Europe) S.A.

Objectives and investment policy

The Fund seeks to grow capital and generate income primarily by investing in Japanese equities or equivalent.

The Fund is actively managed, adopting an active and selective policy to pick the stocks of Japanese companies.

The strategy is growth-oriented. The Investment Manager believes that superior results are best achieved by considering smaller companies with strong management, innovative business models, and niche products as they have sound growth opportunities regardless of the economic environment and might play a vital role in the future and sustainable growth of the Japanese economy.

The minimum market capitalization of selected companies will be JPY 10 billion

The Environmental, Social and Governance (ESG) investment strategy is based on three pillars: (i) Business activities exclusion according to data about harmful activities as well as breaches with the UBP Responsible Investment policy; (ii) ESG integration to select stocks through the analysis of environmental, social and governance factors; (iii) a preference for stocks with reduced carbon footprint as well as good governance characteristics as assessed by internal research. The Fund also promotes a lower carbon footprint than the MSCI Japan Small Cap Index (the "Benchmark").

A performance fee in reference to the Benchmark is applied to some share classes. The Benchmark is not representative of the risk profile of the Fund. The performance of the Fund is likely to be significantly different from that of the Benchmark because the Investment Manager has significant discretion to deviate from its securities and weighting.

The Fund's value is calculated and expressed in Japanese Yen.

Investors in the Fund can subscribe and redeem units on any business day in Luxembourg except days where the decisive market is closed: Japan (JP).

Details of the closing days are available here:

[https://www.ubp.com/en/our-offices/ubp-asset-management-europe-sa.](https://www.ubp.com/en/our-offices/ubp-asset-management-europe-sa)

The recommended holding period is minimum five years.

As an equity fund, its holdings can move in line with or return less than the broad stock market, so investors should be aware that the value of their holdings could fall and that they may not get back their initial investment.

Any income received by the Fund is reinvested (capitalisation share class).

Risk and reward profile

This indicator represents the annual historical volatility of the Fund over a 5-year period.

Risk category 6 reflects a very high potential gain and/or loss in the value of the portfolio.

This is due to investments in small cap equities on the Japanese market. Historical data such as that used to calculate the synthetic indicator cannot be considered as a reliable indication of the Fund's future risk profile.

The risk category associated with the Fund is not guaranteed and may change over time.

The lowest risk category does not mean "risk free".

Your initial investment is not guaranteed.

Significant risk(s) for the Fund not taken into account in this indicator include the following:

Counterparty risk: As the Fund uses over-the-counter derivatives, there is a risk that the counterparty to the transactions will wholly or partially fail to honour its contractual obligations. This may result in a financial loss to the Fund.

Liquidity risk: Liquidity risk exists when particular investments are difficult to purchase or sell. This can reduce the Fund's returns because the Fund may be unable to transact at advantageous times or prices.

Full details of risks are disclosed in the chapter "Risk Factors" in the prospectus.

Charges

The charges and commissions are used to cover the Fund's operating costs, including marketing and distribution of shares. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Entry charge	3.00%
Exit charge	None

This is the maximum that might be taken out of your money before it is invested / before the proceeds of your investment are paid out.

Charges taken from the Fund over a year

Ongoing charges	2.84%
-----------------	-------

Charges taken from the Fund under certain specific conditions

Performance fee	None
-----------------	------

The entry and exit charges shown are maximum rates. In certain cases, the charges paid may be lower. Your financial advisor or distributor can inform you of the associated entry and exit charges.

Ongoing charges are based on the charges for the previous year, ending on 31 December 2021. This percentage may vary from year to year. It excludes outperformance charges and intermediation charges, with the exception of entry and exit charges paid by the Fund when it buys or sells shares of another fund.

For more information about Fund charges, please refer to the relevant sections of the prospectus, which is available at www.ubp.com.

Past performance

A: Investment policy changed on 03/06/2013

The performance figures shown in the bar chart are not a reliable indication of future performance.

Annualised performance is calculated after deducting all charges taken from the Fund.

Fund creation date: 10/07/2007

Share class launch date: 10/07/2007

Share class currency: JPY
