INVESTMENT MANAGER

WALTER SCOTT Walter Scott & Partners Limited: A classical, fundamental and long-term global equity investment management firm based in Edinburgh, Scotland.

PERFORMANCE BENCHMARK

The Fund will measure its performance against the MSCI World NR Index (the "Benchmark"). The Fund is actively managed, which means the Investment Manager has absolute discretion to invest outside the Benchmark subject to the investment objective and policies disclosed in the Prospectus. While the Fund's holdings may include constituents of the Benchmark, the selection of investments and their weightings in the portfolio are not influenced by the Benchmark. The investment strategy does not restrict the extent to which the Investment Manager may deviate from the Benchmark.

KEY RISKS ASSOCIATED WITH THIS FUND

- There is no guarantee that the Fund will achieve its objectives.
- This Fund invests in international markets which means it is exposed to changes in currency rates which could affect the value of the Fund.
- Derivatives are highly sensitive to changes in the value of the asset from which their value is derived. A small movement in the value of the underlying asset can cause a large movement in the value of the derivative. This can increase the sizes of losses and gains, causing the value of your investment to fluctuate. When using derivatives, the Fund can lose significantly more than the amount it has invested in derivatives.
- Emerging Markets have additional risks due to less-developed market practices.
- The Fund follows an ESG investment approach. This means factors other than financial performance are considered as part of the investment process. This carries the risk that the Fund's performance may be negatively impacted due to restrictions placed on its exposure to certain sectors or types of investments. The approach taken may not reflect the opinions of any particular investor. In addition, in following an ESG investment approach, the Fund is dependent upon information and data from third parties (which may include providers for research reports, screenings, ratings and/or analysis such as index providers and consultants). Such information or data may be incomplete, inaccurate or inconsistent.
- If this share class is denominated in a different currency from the base currency of the Fund. Changes in the exchange rate between the share class currency and the base currency may affect the value of your investment.
- For hedged share classes the hedging strategy is used to reduce the impact of exchange rate movements between the share class currency and the base currency. It may not completely achieve this due to factors such as interest rate differentials.
- The insolvency of any institutions providing services such as custody of assets or acting as a counterparty to derivatives or other contractual arrangements, may expose the Fund to financial loss.
- A complete description of risk factors is set out in the Prospectus in the section entitled "Risk Factors".

RISK AND REWARD PROFILE - EURO C (ACC.)

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 4 out of 7, which is a medium risk class. This rates the potential losses from future performance at a medium level, and poor market conditions could impact the capacity of BNY Mellon Fund Management (Luxembourg) S.A. to pay you.

Please refer to the prospectus and the KIID before making any investment decisions. Documents are available in English and an official language of the jurisdictions in which the Fund is registered for public sale. Go to www.bnymellonim.com.
