RISK AND REWARD PROFILE

The risk level shown reflects the fund's historical volatility, completed where applicable by that of its reference framework. The volatility indicates the extent to which the value of the fund may fluctuate upwards or downwards.

- The indicated category may vary over time.
- The historical data give no indication of a future risk profile.
- The lowest category does not mean "risk-free".
- There is no guarantee or mechanism to protect the capital.

KEY STATISTICS*

	Fund	Index
Sharpe ratio	0.58	-0.01
Volatility (%)	0.32	0.28

INVESTMENT STRATEGY

Candriam Money Market USD Sustainable, a sub-fund of the Money Market sicav, invests in money market instruments, cash and financial instruments and bonds with a residual maturity of under 24 months and a minimum rating of A2/P2 or equivalent by one of the 3 ratings agencies. Issues are denominated in USD or currencies from OECD countries. The fund may use foreign exchange, interest rate and/or credit derivatives for hedging. The fund invests exclusively in companies and countries with the strongest sustainable development positioning. All issuers are compliant with the principles of the UN Global Compact (companies) and with major treaties and conventions (countries). The fund's sustainable investment objective is to reduce greenhouse gas emissions whilst also seeking to achieve a long term positive impact on social and environmental dimensions.

The fund is managed actively, with reference to the index mentioned on page 2. For further information about this index and its use, please consult the fund's key investor information document (KIID).

INVESTMENT HORIZON: 6 MONTHS

PERFORMANCE OVER 5 YEARS IN USD (%)

Warning: Past performances of a given financial instrument or index or an investment service, or simulations of past performances, or forecasts of future performances are not reliable indicators of future performances. The Fund is not a guaranteed investment. Please be aware that an investment in a fund is different from an investment in deposits and that the investments principal is capable of fluctuation. The fund does not rely on external support for guaranteeing its liquidity or stabilizing its NAV per unit or share. The risk of loss of the principal is borne by the investor.
