INVESTMENT OBJECTIVE

Santander AM Latin American Equity Opportunities generates returns through a broad exposure to Latin American equity markets. The Sub-Fund focuses on companies which combine an attractive trade-off between low valuations and high returns to shareholders. Diversification will be achieved through bottom-up stock selection. The Fund is unconstrained regarding company size, country and sector. The Sub-Fund may use derivatives and other UCI to reduce the risk or for efficient portfolio management.

MONTHLY STRATEGY

The fund delivered negative absolute returns in the month, although generated alpha outperforming its benchmark. Not holding Colombia and Peru, and stock picking in Mexico attributed positively to the performance of the fund. An overweight in Brazil was also positive, as it was one of the few countries that delivered positive performance. Cash levels stayed at a higher level during the month.
