

Key Investor Information

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

Lemanik Sicav - European Dividend Preservation - Capitalisation Institutional EUR Class

(ISIN: LU0367900833) European Dividend Preservation (the 'Fund') is a Sub-Fund of Lemanik Sicav (the 'Company'). Lemanik Asset Management S.A. is the Management Company (the 'Management Company') to the Fund.

Objectives and Investment Policy

- The objective of this Fund is to provide a stable annual return with low volatility.
- The Fund invests at least 75% of its assets in shares of small, mid and large capitalisation companies having their seat in the European Union (EU) or in a state of the European Economic Area (EEA). Investment in warrants on Transferable Securities cannot represent more than 10% of the net assets.
- The portfolio of securities mainly consists of a stock-selection of issuers with the best dividend yield in terms of distribution and sustainability. In order to preserve the estimated returns born from dividends belonging to the stock-selection the Fund may use financial derivative instruments to reduce negative market effects. In this context, the Fund will in particular invest in OTC options, OTC futures, Exchange Traded options and Exchange Traded futures.
- The Fund is actively managed without reference to any benchmark. The Investment Manager has discretion over the composition of its portfolio subject to this objective and investment policy.
- Sale of shares in the Fund can be made on any business day.
- The Fund does not intend to distribute dividends. Any income arising from the Fund's investments is reinvested and reflected in the value of your shares. However, the annual general meeting of shareholders may decide to distribute such income.
- The Fund may use Financial Derivative Instruments (instruments whose prices are dependent on one or more underlying assets 'FDIs'). The Fund invests in FDIs in order to reduce the possibility of financial losses or to achieve higher gains.
- Recommendation: this Fund may not be appropriate for investors who plan to withdraw their money within five years.
- The investment manager may use a hedging strategy that aims to ensure returns for investors are consistent with the Fund's investment objective.

Risk and Reward Profile

- The lowest category does not mean a risk free investment.
- The risk and reward profile may change over time.
- Historical data may not be a reliable indication for the future.
- This Fund is in category 4, since the share price has a moderate volatility and therefore the risk of loss as well as the expected reward is generally medium.

The following risks may not be fully captured by the risk and reward indicator:

- **Derivative Risk:** Derivative values can rise and fall at a greater rate than equities and debt instruments. Losses can be greater than the initial investment. This risk is minimised by holding a diverse selection of non derivative investments.
- **Equity Risk:** The risk that investments depreciate because of stock market dynamics.
- **Market Risk:** The Fund's assets may decrease because of sovereign acts and political transformation, which may also influence free trade of currency. In addition, risks may arise because of restricted information possibilities in addition to less stringent supervision and control of certain markets. The performance of these markets may be subject to significant volatility.

A complete description of risk factors is set out in the Prospectus in the section entitled 'Special consideration on risks'.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distribution. These charges reduce the potential growth of your investment.

The entry and exit charges shown are maximum figures. In some cases you might pay less. Please refer to your financial advisor or the distributor for the actual charges.

The ongoing charges figure is based on expenses for the year ending 31 December 2021.

This figure may vary from year to year. It excludes:

- Performance Fees.
- Portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling units in another Fund.
