

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

SRI WORLD EQUITY,
a compartment of GENERALI INVESTMENTS SICAV
Class: B, Share: X (Accumulation) ISIN: LU0260157663
This SICAV is managed by Generali Investments Luxembourg S.A.

Objectives and Investment Policy

The objective of the Fund is to outperform its Benchmark and to provide a long-term capital appreciation investing in the equity markets in major developed areas (qualifying as Regulated Markets). This objective will be pursued using an analysis of ESG characteristics of the investee companies through applying a Responsible investment process, as further detailed in the Supplement of the Fund. The Fund is totally unconstrained in terms of allocation by region and will consider both financial and extra-financial criteria when selecting equity securities.

The Fund promotes ESG characteristics pursuant to Article 8 of the SFDR. The Fund does not benefit from the SRI label in France. The Fund shall invest at least 90% of its net assets in equities, privileging direct investments in large capitalization. Small and mid-sized capitalizations are however not excluded.

The Investment Manager promotes environmental and social characteristics and will be applying the following ESG process on an ongoing basis to select equity securities, provided that the issuers follow good corporate governance practices. As the Fund shall invest at least 90% of its net assets in equities, this ESG selection process will cover at least 90% of the Fund's portfolio.

The issuers of stocks in which the Fund may invest will be subject to a proprietary ethical filter that excludes issuers involved in certain activities such as, but not limited to, the production of weapons violating fundamental humanitarian principles or the involvement in severe environmental damages.

Global equities will then be selected based on a "Best in class" approach per sector taking into account controversies and relevant material ESG criteria for each given industry sector, including but not limited to CO2 emissions, employee turn-over rate, and business ethics.

Accordingly, within the Fund's initial investment universe, and after the negative screening process described above – the Investment Manager will select stocks with solid fundamentals while displaying positive ESG score relative to their peers within a given industry.

The above ESG selection process aims at excluding at least 20% of the initial investment universe to guarantee an effective selection of stocks from companies in the investment universe that best meet the relevant material ESG criteria within a given industry sector and, therefore, the ESG quality of the Fund's portfolio. There may be potential inconsistencies and lack of availability of ESG data, especially when

issued by external data providers (more details on the methodological limits in the Supplement of the Fund).

The Fund may also invest up to 10% of its net assets in cash, Money Market Instruments, debt securities, equity-linked securities such as, but not limited to, debt securities convertible into common shares, preference shares and warrants on Transferable Securities, as well as shares or units of other UCITS or UCIs, that are not subject to the Responsible investment process.

The Fund is actively managed in reference to its Benchmark, which is used by the Investment Manager to define the Fund's initial investment universe. The Fund does not track the Benchmark but aims to outperform it. The Investment Manager will however have full discretion in choosing (i) which constituents of the Benchmark the Fund will be invested in, based on the abovementioned ESG criteria with which the Benchmark is not aligned, and (ii) the weightings of the selected issuers within the Fund's portfolio, based on the above financial and extra-financial considerations.

There are no restrictions on the extent to which the Fund's performance may deviate from the ones of the Benchmark. The Investment Manager can also invest in instruments that are not constituents of the Benchmark.

The Fund may use financial instruments and derivatives for hedging purposes, for efficient portfolio management purposes and for investment purposes. The use of derivative financial instruments is limited to techniques that do not alter the ESG selection policy significantly or over the long term. For each derivative use when feasible, the underlying asset will systematically have an ESG score that will be taken into account in the aggregate portfolio ESG score. The Fund may also use securities lending techniques for the achievement of its investment objective.

The Fund is open-ended. You may redeem shares of the Fund on any Luxembourg business day.

The Share Class makes no dividend payment.

The Benchmark of the Fund is the MSCI World - Net Total Return Index. The Benchmark of the Fund is not aligned with the environmental and social characteristics promoted by the product which are implemented via the Responsible investment process.

Risk and Reward Profile

This indicator represents the annual historical volatility of the Fund over a 5-year period. Its aim is to help investors understand the uncertainties attached to gains and losses that may have an impact on their investment.

The Fund's diversified exposure to equity markets and to foreign currency risk explains its classification in this category.

Historical data such as that used to calculate the synthetic indicator cannot be considered as a reliable indication of the Fund's future risk profile.

The risk category associated with the Fund is not guaranteed and may change over time. The lowest risk category does not mean "risk free". Your initial investment is not guaranteed.

Significant risk(s) for the Fund not taken into account in this indicator include the following:

Counterparty Risk: The Fund primarily concludes derivatives trades with various contracting parties. There is a risk that counterparties may no longer be able to honour their payment or settlement obligations.

Operational Risk and Depositary Risk: The Fund may fall victim to fraud or other criminal acts. It may also incur losses due to misunderstandings or errors by employees of the management company, the depositary or external third parties. Finally, its' management or the custody of its' assets can be adversely affected by external events such as fires, natural disasters etc.

Sustainable Finance: Currently, there is not universally accepted framework or list of factors to consider to ensure that investments are sustainable. Legal and regulatory framework governing sustainable finance is still under development. The lack of common standards may result in different approaches to set and achieve ESG (environmental, social, and governance) objectives. Applying ESG criteria to the investment process may exclude securities of certain issuers for non-financial reasons and, therefore, may forgo some market opportunities available to funds that do not use ESG or sustainability criteria.

For more information about the risks of the Fund, please refer to the risk section of the prospectus.

Charges for this Fund

The charges and commissions are used to cover the Fund's operating costs, including marketing and distribution of shares. These charges reduce the potential growth of your investment.

One-off charges that may be taken before or after you invest	
Entry charge	5 %
Exit charge	1 %
The percentage shown is the maximum amount that can be paid out of your investment. Your financial advisor or distributor can inform you of the associated entry and exit charges.	
Charges taken from the Fund over a year	
Ongoing charge	0.94 %
Charges taken from the Fund under certain specific conditions	
Performance fee	Not Applicable

The entry and exit charges shown are maximum rates. In certain cases, the charges paid may be lower.

Ongoing charges are based on the charges for the previous 12 months, ending on 31 December 2021. This percentage may vary from year to year. It excludes performance fees, if applicable, and portfolio trade-related costs, with the exception of costs paid to the custodian and any entry/exit charge paid to an underlying collective investment scheme.

A conversion commission of up to 5.00% maximum of the net asset value per share class to be converted may be charged.

For more information about Fund charges, please refer to the relevant parts of the prospectus, which is available at www.generali-investments.lu.

Past Performance

The performance figures shown in the bar chart are not a reliable indication of future performance.

Annualised performance is calculated after deducting all charges taken from the Fund, taking into consideration the reinvested net dividends.

Fund creation date: 3 July 2006.

Share class launch date: 28 February 2008.

Past performance has been calculated in EUR.

Benchmark: MSCI World - Net Total Return Index. As the Fund is actively managed, it is not intended that the performance of this share class will track the performance of the Benchmark.

The Investment Policy changed on 01/10/2020.

B Investment Policy changed on 06/06/2011. After 05/06/2011 the benchmark was [85% MSCI World + 15% MSCI Europe]

C Investment Policy changed on 19/02/2016. After 18/02/2016 the benchmark was [MSCI World - Net Total Return Index]
