

Key investor information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

East Capital Global Emerging Markets Sustainable, class P EUR  
(LU0383826160)  
a sub-fund of East Capital

Management Company: East Capital Asset Management S.A.

Objectives and investment policy

Objectives

The investment objective of the Global Emerging Markets Sustainable is to provide long-term capital growth through exposure to companies in Emerging Markets.

Sustainable investing means recognising that, environmental, social and governance factors may directly influence the long-term business profitability of companies. The sub-fund intends to gain exposure to companies that manage sustainability risks and/or contribute to sustainable development in Emerging Markets. Environmental, social and governance factors are fully integrated into the investment process.

Investment policy

The sub-fund will invest at least 75% of its assets directly or indirectly in equity or equity-related securities (such as, but not limited to, ADRs and GDRs) of companies domiciled in Emerging Markets or that exercise a significant part of their economic activity there.

Indirect exposure to companies located in Emerging Markets will be achieved, inter alia, by investing in UCITS, other UCIs, as well as through UCITS eligible

structured products such as participatory notes and/or equity-linked notes.

The sub-fund may invest directly up to 30% of its net assets in China A-Shares through the Shanghai-Hong Kong Stock Connect and/or through the Shenzhen-Hong Kong Stock Connect, or through any other eligible means providing PRC stock market access.

The currency of the share class is expressed in EUR.

The investor may subscribe and redeem shares on each bank business day in Luxembourg.

For further information please refer to Appendix I: Sub-funds in operation, East Capital Global Emerging Markets Sustainable, Section Subscriptions / Redemptions / Conversions in the prospectus, available at [www.eastcapital.com](http://www.eastcapital.com).

These shares are capitalisation shares. Income and capital gains are reinvested.

Recommendation

This fund may not be appropriate for investors who plan to withdraw their money within 5-10 years.

Risk and reward profile

The sub-fund is a high-risk fund that invests in emerging markets, which means that fluctuations in price are common. This is because investments on the Emerging stock markets are more likely to experience sharp rises and falls in value.

The category 6 means a high risk and consequently high potential losses and gains.

The risk category has been determined on the basis of historical data and may not be a reliable indication of the future risk profile. The risk and reward category shown does not necessarily remain unchanged and the categorisation of the fund may shift over time.

The lowest category of the risk indicator does not mean a risk-free investment. Repayment of the initial investment is not guaranteed.

Financial instruments are impacted by various factors such as the development of the financial market, economic development of the companies, the general world economic situation as well as economic and political conditions prevailing in each country. The currency exposure may also impact the portfolio's performance. This synthetic risk and reward indicator (SRRI) scale rating indicates how the sub-fund may perform and the risk of losing some or

all of your capital. Generally, the potential for higher gains also mean a larger risk of losses.

In addition to the risk captured by the indicator, the overall sub-fund value may be considerably affected by currency risk as the sub-fund invests in assets denominated in other currencies than the sub-fund's base currency, which may affect the return on your investment. Also, emerging market countries face more political, economic or structural challenges than developed countries. Investments in such countries may offer higher potential for gains or losses. The sub-fund is exposed to liquidity risk not adequately captured by the indicator. Liquidity risk is defined as the risk that arises when adverse market conditions affect the ability to sell assets when necessary. Reduced liquidity may have a negative impact on the price of the assets.

The sub-fund may invest directly or indirectly in Chinese domestic securities markets via various channels, including the Shanghai-Hong Kong Stock Connect program. Investments through the Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect are subject to additional risks, namely, quota limitations, suspension risk, operational risk, restrictions on selling imposed by front-end monitoring, recalling of eligible stocks, clearing and settlement risk, participation in corporate actions and shareholders' meetings and regulatory risk.

For further information concerning the risks of the sub-fund, please consult the prospectus of the fund, which is available at the registered office of the Management Company and on [www.eastcapital.com](http://www.eastcapital.com).

## Charges

The charges you pay are used for the operation of the sub-fund, including charges for its marketing and distribution. These charges reduce the potential investment growth.

One-off charges taken before or after you invest	
<b>Entry charge</b>	0.00%
<b>Exit charge</b>	0.00%
This is the maximum that might be taken out of your money before it is invested and before the proceeds of your investment are paid out.	
Charges taken from the fund over a year	
<b>Ongoing charge</b>	1.11%
Charges taken from the fund under certain specific conditions	
<b>Performance fee</b>	15% a year of any returns the fund achieves above the benchmark for these fees, the MSCI Emerging Markets Index

The entry and exit charges shown correspond to a maximum percentage which

might be deducted from the investor's capital invested into the fund. In some cases, the investor might pay less. The investor may contact his financial adviser or intermediary to be informed on the actual entry and exit charges.

The ongoing charges percentage shown here is an estimate of the charges due to a change in the fee structure. The fund's annual report for each financial year will include details on the exact charges made.

The figure of the ongoing charges excludes:

- Performance fee
- Securities transaction charges, except for the charges related to the purchase and the sale of target funds.

No performance fee has yet been calculated for this share class.

For further information concerning charges, please consult the heading "Fund Expenses" of the fund's prospectus, which is available at the registered office of the Management Company and on [www.eastcapital.com](http://www.eastcapital.com).

Additional information concerning the performance fee is also available in the prospectus.

## Past performance

All charges and fees, except for the entry and exit charges, were taken into account.

The past performance was calculated in EUR.

Past performance is not a reliable indicator of future performance.

The sub-fund was created in 2005.

This share class was created in 2008.

This fund was merged from the East Capital Asia Fund FCP umbrella into the East Capital (Lux) SICAV umbrella on 10.02.2012.

As of the date of publication of this document, the performance 2018 is not yet available.
