PIGUET INTERNATIONAL FUND – WORLD EQUITIES, Class D (EUR) (LU0334117230)

a sub-fund of PIGUET INTERNATIONAL FUND

This sub-fund is managed by GERIFONDS (Luxembourg) SA.

Objectives and investment policy

Objectives

The sub-fund's objective is to seek long-term returns through a diversified portfolio.

Investment policy

The sub-fund invests most of its net assets in collective investment schemes that in turn invest in equities of companies worldwide including emerging countries.

It also invests, to a lesser extent, directly in shares of companies and other instruments having rights to convert into company shares. These investments take place on a worldwide basis, including emerging countries.

The sub-fund targets clear positions in terms of geographic or sector exposure.

The collective investments are carefully selected by the portfolio manager's dedicated teams.

The sub-fund may invest, on an ancillary basis, in structured products on equities and in liquid assets (sight deposits, term deposits and/or

fiduciary deposits).

The sub-fund may use derivative financial instruments for hedging purposes and/or the proper management of its portfolio.

The sub-fund is actively managed without any reference to a benchmark index.

The sub-fund's reference currency is the US dollar (USD). Investments may be made in currencies other than the reference currency, with no percentage limit in relation to the net assets and without necessarily hedging the monetary risk.

Hedging of the currency risk of the share class will be through the use of derivative financial instruments.

The investor may request the subscription, conversion and redemption of the shares on a weekly basis.

The shares are open to all investors. They are denominated in euros.

These shares are distribution shares. Income and capital gains are distributed.

Risk and reward profile

1	2	3	4	5	6	7
---	---	---	---	---	---	---

The indicator describes the fluctuation risk of the net asset value per share and may shift over time.

The lowest category of the risk indicator does not mean a risk-free investment.

This risk indicator was determined on the basis of historical performance over the past five years. It may not be reliable indicator of the future risk profile of the sub-fund.

The sub-fund invests in securities of companies from around the world, which explains the assignment of this risk category.

Several types of risks are not completely taken into account by the indicator and may influence the net asset value of the share:

- *Liquidity risk*: Liquidity problems on financial market that may affect the purchase or sale of fund position.
- *Counterparty risk*: Problems experienced by a counterparty in view of his obligations towards the fund may have a negative impact on its value.
- *Operational risk*: Failures in the operational process may have a negative impact on the value of the fund.

Additional information concerning the risks can be found in the fund's prospectus, available on the website www.gerifonds.lu.
