

## CS ETF (IE) on iBoxx USD Govt 7-10

### SIMPLIFIED PROSPECTUS

Dated 19 August 2010

This Simplified Prospectus contains key information in relation to the CS ETF (IE) on iBoxx USD Govt 7-10 (the Fund), a fund of CS ETF (IE) plc (the Company). The Company was incorporated on 9 April 2009 and is an umbrella-type open-ended investment company with variable capital and segregated liability between the sub-funds, governed by the laws of Ireland authorised by the Irish Financial Services Regulatory Authority (the Financial Regulator) under the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2003, as amended, supplemented, consolidated or otherwise modified from time to time (the Regulations).

The Company currently has forty two sub-funds whose names are set out in Schedule 2. Other sub-funds may be established from time to time with the prior approval of the Financial Regulator.

Potential investors are advised to read the Prospectus of the Company dated 4 May 2010, as may be amended, supplemented or modified from time to time and the Supplement dated 19 August 2010 (together the Prospectus) before making an investment decision on whether or not to invest in the Fund. The rights and duties of the investor as well as the legal relationship with the Company are laid down in the Prospectus.

All terms with initial capitals used herein without definition shall have the meanings given to them in the Prospectus issued by the Company as supplemented or replaced from time to time.

The base currency of the Fund is USD.

<b>Investment objective</b>	<p>The investment objective of the Fund is to replicate the performance of the Reference Index (being the Markit iBoxx US Treasuries 7-10 Index (less fees and expenses)).</p> <p>The Reference Index is a bond index including US government bonds with a remaining maturity of between seven and ten years. The Reference Index represents bonds that are available to investors worldwide and includes 20 constituents as at the end of March 2009.</p>
<b>Investment Policy</b>	<p>In order to achieve the investment objective, the Company on behalf of the Fund intends to invest all or substantially all of the net proceeds of any issue of Shares in the manner set out below.</p> <p>(i) fixed income securities which relate to the components of the Reference Index in order to replicate as closely as possible the performance of the Reference Index. Consequently, the prime criterion for selecting the individual fixed income securities is not their perceived attractiveness or potential growth or value but rather their suitability in terms of attaining the investment objective of replicating the performance of the Reference Index.</p> <p>The fixed income securities in which the Fund shall invest shall be issued by the US government with a remaining maturity of between seven and ten years. As the Reference Index is rebalanced monthly and the investment policy of the Fund is to replicate the performance of the Reference Index as closely as possible there may be circumstances where on an intra-month basis the Fund holds fixed income securities which are index components and which have a maturity of less than seven years.</p> <p>In order to achieve its investment objective, the Fund may also invest in futures on the Reference Index and such futures and all investments of the Fund will be listed or traded on a market or exchange as set out in Appendix II of the Prospectus.</p> <p>However, depending on prevailing market conditions and/or the relevant weightings of the components of the Reference Index throughout the life of the Fund, the Investment Manager may decide to invest the net proceeds of any issue of Shares (whether on the Initial Issue Date or subsequently) in the alternative ways listed below. The following alternative investment methodologies (listed at (ii) to (v) below) are not intended to be mutually exclusive and may be used singularly or collectively in different combinations, in which case the cost of such a switch (if any) will not be borne by the Shareholders.</p> <p>(ii) fixed income securities as referred to at (i) above on the basis of an optimised sampling method. When using an optimised sampling method, the Fund may invest in a representative selection of securities from the Reference Index rather than in all of the</p>

	<p>securities of the Reference Index or in securities that are not part of the Reference Index where the Investment Manager believes that those securities will assist in delivering the investment objective. Such a selection of securities will be based on a mathematical optimisation procedure with the aim to determine a portfolio with the lowest risk of divergence from the performance of the Reference Index;</p> <p>(iii) futures on the Reference Index or other financial indices which reference the same or a materially similar market as the Reference Index or one or more components thereof, and such futures will be listed or traded on an exchange or market as set out in Appendix II of the Prospectus. Where the Fund gains exposure to financial indices other than the Reference Index, the financial indices shall be closely correlated to the Reference Index and such exposure shall be for the purposes of cash management and/or to assist in reducing tracking error;</p> <p>(iv) swaps (being an agreement between the Fund and an Approved Counterparty to exchange one stream of cash flows against another stream pursuant to a master agreement in accordance with the requirements of the International Swaps and Derivatives Association, and such swaps may include (without limitation) funded, unfunded, total return, relative performance or outperformance swaps) (the "<b>Swaps</b>"). The purpose of such Swaps shall be to gain indirect exposure to the Reference Index;</p> <p>(v) a portfolio of transferable securities or other eligible assets that may comprise all the constituent securities of the Reference Index, an optimised sample thereof, or unrelated transferable securities or other eligible assets. These may include (without limitation) equity and equity-related securities; fixed income securities such as convertibles, gilts, money market instruments, floating rate instruments and commercial paper; asset-backed securities including Structured Finance Securities; FDIs; and/or units of other open-ended collective investment schemes including other Funds of the Company. Any of the foregoing may be issued or arranged by a member of the Credit Suisse Group. Where the Fund invests in securities and/or other eligible assets which in aggregate do not fully replicate the Reference Index, the Fund will generally enter into a Swap and/or other FDIs to exchange, directly or indirectly, the price performance and income received in relation to such securities and/or other eligible assets for the performance of the Reference Index. In this instance, the Fund will have neither market nor credit exposure to the particular securities and other eligible assets referred to above, except in the event of a default on the part of the Approved Counterparty to the Swaps or such other FDIs.</p> <p>The fixed income securities, futures, Swaps, transferable securities, other eligible assets listed at (v) above, any ancillary cash and any instruments (held for the purposes of efficient portfolio management) held by the Fund shall constitute the "<b>Fund Assets</b>" for the purposes of the Prospectus.</p> <p>Further information relevant to the Fund's investment policy is contained in the main part of the Prospectus under "<b>Investment Objectives and Policies</b>" and under "<b>Investment Restrictions</b>".</p>
<b>Risk Profile</b>	<p>Certain risks relating to the Shares are set out under the heading "<b>Risk Factors</b>" in the Prospectus. In addition, Shareholders must also note that:</p> <p>(a) The sub-funds of the Company are segregated as a matter of Irish law and as such, in Ireland, the assets of one sub-fund will not be available to satisfy the liabilities of another sub-fund. However, it should be noted that the Company is a single legal entity which may operate or have assets held on its behalf or be subject to claims in other jurisdictions which may not necessarily recognise such segregation. There can be no guarantee that the courts of any jurisdiction outside Ireland will respect the limitations on liability as set out above.</p> <p>(b) Upon the occurrence of a Disruption Event or an Index Disruption and Adjustment Event (and without limitation to the Directors' personal powers as further described in the Prospectus); (i) adjustments may be made to account for any such event (including adjustment to the Reference Index, the calculation of the Reference Index level and/or changes to the terms of the derivative contracts) which may have a significant impact on the Net Asset Value of the Fund; (ii) the Directors may temporarily suspend the calculation of the Net Asset Value and any subscription, redemption and exchange of Shares and payment of redemption proceeds in accordance with the provisions of the Prospectus under the section "Suspension of Calculation of Net Asset Value"; and/or (iii) the Directors may, in</p>

	<p>certain circumstances as set out in the Prospectus, terminate the Fund.</p> <p>(c) The return payable under the Swaps with a counterparty is subject to the credit risk of the counterparty. In addition, the counterparty will generally act as the calculation agent under the Swaps (the "Calculation Agent") and perform those duties agreed in the ISDA Master Agreement and confirmation for the relevant Swaps. Shareholders should note that not only will they be exposed to the credit risk of the counterparty but also potential conflicts of interest in the performance of the function of Calculation Agent by the counterparty. The counterparty will use its reasonable endeavours to resolve any such conflicts of interest fairly (having regard to its respective obligations and duties) and to ensure that the interests of the Company and the Shareholders are not unfairly prejudiced. The Directors believe that the counterparty will be suitable and competent to act as Calculation Agent. Any valuations provided by the counterparty in its role as Calculation Agent will be verified at least weekly by a party independent of the counterparty as sourced by the Administrator and approved by the Custodian.</p> <p>(d) The Fund is highly dynamic and may exhibit above-average potential growth and investment performance, depending on the economic environment. The opportunities for above average growth may in some circumstances lead to extreme positive and negative fluctuations in the Net Asset Value of the Fund.</p> <p>(e) The value of investments and the income from them, and therefore the value of and income from the Shares can go down as well as up and an investor may not get back the amount invested. The Fund's exposure is linked to the performance of the components of the Reference Index which, in turn, is exposed to general market movements (negative as well as positive).</p> <p>(f) The Reference Index is rebalanced monthly. As the investment policy of the Fund is to replicate the performance of the Reference Index as closely as possible, there may be circumstances where on an intra-month basis the Fund holds fixed income securities which are index components and which have a maturity of less than seven years. For the avoidance of doubt, the Fund can at all times hold securities which the Index Provider determines to be constituents of the Reference Index.</p> <p><b>Investors should also refer to the Prospectus for additional disclosures of risk.</b></p>										
<b>Performance Data</b>	N/A										
<b>Profile of the typical investor</b>	The Fund is suitable for investors seeking capital appreciation and who are prepared to accept a level of volatility in line with the volatility of the Reference Index.

However, the Directors may, in their absolute discretion, determine to declare dividends in respect of any Share Class and Shareholders will be notified accordingly. Any dividends payable by the Fund will be effected in accordance with the Dividend Policy stated in the Prospectus.</p> <p>The dividend payments may be as low as zero. There is no guarantee that any dividend will be declared. For the avoidance of doubt, the payment of a dividend (if any) will reduce the Net Asset Value of the relevant Share Class accordingly.</p>										
<b>Fees and Expenses</b>	<p>(A) The following fees will be incurred on each Share by Shareholders (and will not be incurred by the Company on behalf the Fund, and accordingly will not affect the Net Asset Value of the relevant Share Class of the Fund):</p> <table border="1"> <thead> <tr> <th>Share Class</th><th>"B"</th></tr> </thead> <tbody> <tr> <td><b>Subscription Charge*</b></td><td>Up to 6%</td></tr> <tr> <td><b>Redemption Charge**</b></td><td>Up to 3%</td></tr> <tr> <td><b>Exchange Charge***</b></td><td>Up to 3%</td></tr> <tr> <td><b>Primary Market Transaction Charge</b></td><td>Up to 6%</td></tr> </tbody> </table>	Share Class	"B"	<b>Subscription Charge*</b>	Up to 6%	<b>Redemption Charge**</b>	Up to 3%	<b>Exchange Charge***</b>	Up to 3%	<b>Primary Market Transaction Charge</b>	Up to 6%

Any Exceptional Expenses will be charged to the Fund in addition and will reduce the Net Asset Value of the relevant Share Class of the Fund accordingly. However, the actual TER borne by the relevant Share Class of the Fund might well be below the maximum TER indicated above.</p> <p>During the life of the Fund, the maximum TER may need to be increased from time to time. Any such increase will be subject to the prior approval of Shareholders in accordance with the provision of the Articles.</p> <p>This section headed "<b>Fees and Expenses</b>" should be read in conjunction with the sections headed "<b>Fees and Expenses</b>" and "<b>Issue and Repurchase Price/Calculation of Net Asset Value/Valuation of Assets</b>" in the Prospectus.</p>
