Investment objective

The Fund seeks to provide a return consisting of income and, over the long term, capital growth. The Fund seeks to achieve its overall objective by investing primarily in a portfolio of US dollar denominated high yield fixed income securities. The Fund may also invest globally in public and private issued high yield fixed income securities. All securities in the portfolio will generally be rated below investment grade. Any exposure to currencies other than US dollar will be hedged back to US dollars.

Important note

- The Global High Yield Fund (the "Fund") invests the majority (i.e. over 50%) of its assets in a portfolio of US dollar denominated public and private issued high-yield fixed income securities (e.g. fixed interest rate corporate bonds) which are rated below investment grade. The issuers of the majority of these securities are concentrated in the US and Canada.
- Investment involves risk. There is no assurance on investment returns and you may not get back the amount originally invested.
- The investment decision is yours but you should not invest in this Fund unless the intermediary who sells it to you has advised you that it is suitable for you and explained how it is consistent with your investment objectives.
- You should not invest solely in reliance on this marketing material alone. You should read the Summary Prospectus and the relevant Supplement(s) before investing including the Special Investment Considerations and Risks section of the Summary Prospectus.

Performance note

In preparing the asset exposure of the Fund, we have taken into account both direct and indirect investments and the effects of futures and options contracts. Investors should be aware that the exposure of the Fund can change significantly on a daily basis. From December 2018, the performance data shown is based upon the Fund's official Net Asset Value (NAV) prices. The performance data shown is net of fees and other charges but excludes any potential entry/exit charges- as such the return an investor receives may be lower. Prior to 31st December 2018, the data performance calculations reflect the month-end market close prices of the Fund's assets. After 1 January 2019, the performance data shown is based upon the Fund's Net Asset Value (NAV) prices of the last Irish business day of the month. For Funds not open for dealing on this day this will be an indicative NAV. As a result, it is possible that the stated performance and the actual investment returns available to investors will differ. The performance information reflects performance of the A Class accumulation units. Periods over one year are annualised. Investors should obtain their own independent tax advice. Outperforming the ICE BofA Global High Yield USD Hedged Index (Merrill Lynch Global High Yield Index on or before 31 December 2014) is not specifically included in the objective for the Fund, and the figures shown in the table are provided as a comparison only. The two methods of calculation of performance may not be identical.Overall Morningstar Rating™ as of March 2024. Morningstar, Inc. All Rights Reserved.
