(the "Compartment") is a compartment of Pictet (the "Fund")

I dy GBP (the "Share class") - ISIN LU0448836519

This Fund is managed by Pictet Asset Management (Europe) S.A., part of the Pictet group

Objectives and Investment Policy

- The Compartment seeks capital growth by investing at least two-thirds of the Fund's assets in the shares issued by companies operating in the high-end and upper-middle consumer markets across the whole spectrum of products and services. The Compartment favours companies that enjoy strong brand recognition and offer top-quality, high-appeal products and that have attractive growth prospects.
- The eligible financial instruments are mainly international equities listed on a stock exchange.
- The Compartment may use financial derivative instruments for investment and hedging purposes. The Compartment may also invest in structured products.
- The Compartment is actively managed. The investment process is geared towards the rigorous analysis and evaluation of company fundamentals, with the aim of investing in companies that offer growth at a reasonable price. Only the best prospects benefiting from the growth of the high-end and upper-middle consumer markets across the whole spectrum of products and services are retained.
- The Share class may distribute a dividend composed of net investment income, capital gains and/or the capital itself.
- The price of the Share class is calculated on a daily basis. Investors may redeem shares of the Compartment on any business day in Luxembourg, unless no underlying prices are available (market closed).
- The price of the Share class may be adjusted to ensure that rebalancing costs caused by subscriptions or redemptions are borne by investors responsible for those flows.
- Recommendation: the Compartment may not be appropriate for investors who plan to withdraw their money within 7 years.

 - Operational risk: the Compartment is subject to the risk of material losses resulting from human error or system failures or incorrect valuation of the underlying securities.
 - Counterparty risk: the use of derivatives in the form of contracts with counterparties may imply significant losses if a counterparty defaults and cannot honour its liabilities.
