ISIN code: (A/D) FR0010790980

This Fund is managed by Amundi, an Amundi Group company.

Objectives and Investment Policy

Classification by the French Market Regulator (AMF): International equities.

Tracking method: Swap-based replication.

By subscribing to AMUNDI ETF STOXX EUROPE 50 UCITS ETF, you are investing in an index-tracking Fund, the objective of which is to track, as closely as possible, the performance of the STOXX Europe 50 Index ("the Index"), whether the Index rises or falls. The target for maximum tracking error between changes in the Fund's NAV and that of the MSCI Europe Index is 2%.

The euro-denominated Index with net dividends reinvested is calculated and published in real time by index provider STOXX.

You are exposed to the foreign exchange rate risk between the currencies in which the stocks of the index are denominated and the currency of the Fund.

The equities in the STOXX Europe 50 Index are the 50 leading securities of 18 European countries. The equities that make up this index cover all economic sectors and are chosen for their level of market capitalisation, their liquidity and their sector weighting.

More information about the composition of the Index and its operating rules is available in the prospectus and at stoxx.com.

The Index is available in real time via Reuters (.STOXX50R) and Bloomberg (SX5R).

The Fund seeks to achieve its objective by: (i) entering into a Total Return Swap (a financial derivative instrument, the "TRS"), and (ii) investing in a diversified portfolio of equities (the "Portfolio"). The performance of the Portfolio will be exchanged for the performance of the Index in accordance with the terms of the TRS.

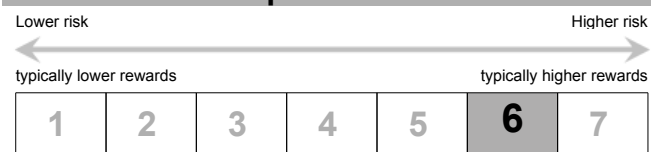

Through the Portfolio, you will be permanently invested at a level of at least 75% in stocks eligible for the Plan d'Epargne en Actions (PEA, tax wrapper reserved to residents in France).

The Fund's net profit and net realised capital gains are reinvested or redistributed each year at the discretion of the Management Company.

You may resell your units during the trading hours of the various stock exchanges, provided that the Market Makers can maintain market liquidity.

Recommendation: this Fund may not be appropriate for investors who plan to withdraw their money within 5 years.
