Rubrics Global Fixed Income UCITS Fund

(EUR Class B Hedged)

A sub-fund of Rubrics Global UCITS Funds plc

RUBRICS

Managed by Universal-Investment Ireland Fund Management Limited (the "Manager")

ISIN: IE00B1FQCF84

OBJECTIVES AND INVESTMENT POLICY

- The objective of the Rubrics Global Fixed Income UCITS Fund (the "Fund") is to achieve positive total returns and long-term capital appreciation by investing primarily in global fixed income securities.
- The Fund will primarily invest directly or indirectly in bonds and other fixed income securities of governments and corporates of various types and maturities.
- The Fund may invest in fixed rate, floating rate and zero coupon bonds.
- The Fund will primarily invest in investment grade bonds and other debt securities as rated BBB- or higher by Standard & Poors or its equivalent by other rating agencies. Up to 25% of the Fund's Net Asset Value may be invested in bonds and other debt securities that are rated below investment grade.
- The Fund may use financial derivative instruments for efficient portfolio management purposes, to hedge currency exposure, and in order to participate in fixed income markets which are less accessible via direct investment or as a means to provide more diversified exposure to an asset class.
- The Fund may take active FX exposure as part of its overall investment policy.
- The investment manager is free to choose how the Fund is invested within the limits of its investment policy.
- Any income will be added to the value of your investment.
- You may submit redemption requests on any day that banks are open in Ireland.
- The Fund may not be appropriate for investors who plan to withdraw their money within three years.
- While there is no geographical or sectoral bias intended, the Fund may have exposures of up to 30% of the Net Asset Value ("NAV") of the Fund in emerging markets.
- The Fund is considered to be actively managed in reference to Bloomberg Global Aggregate Index EUR Hedged (the "Benchmark") by virtue of the fact that it uses the Benchmark for performance comparison purposes. Certain of the Fund's securities may be components of and may have similar weightings to the Benchmark. However the Benchmark is not used to define the portfolio composition of the Fund or as a performance target and the Fund may be wholly invested in securities which are not constituents of the Benchmark.
- For further information, please see the "Investment Objective" and "Investment Policy" sections of Supplement 1 to the Prospectus.

RISK AND REWARD PROFILE

Lower Risk Higher Risk

← →

Typically lower rewards Typically higher rewards

The risk category is based on price volatility over the last five years, and is an indicator of absolute risk. Historical data, such as is used in calculating the indicator may not be a reliable indicator of the future risk profile of the Fund.

The risk category shown is not guaranteed and may shift over time.

The lowest category does not mean 'risk free'.

Why is this Fund in category 3?

This Fund is classified in category 3 (denoting medium risk, but with moderate potential for higher rewards) because its simulated Net Asset Value has shown moderate fluctuations historically.

Risks materially relevant to the fund which are not adequately captured by the indicator:

- Credit Risk - Debt of companies with poor credit usually offer higher yields than those of companies with better credit but present a higher credit risk to the Fund.
- Default Risk - The Fund may invest in higher risk bonds which have a greater risk of default than lower risk bonds.
- Emerging Market Risk - Emerging economies typically exhibit higher levels of investment risk.
- Interest Rate Risk - The value of units may be affected by substantial adverse movements in interest rates.
- Liquidity Risk - Some of the underlying investments of the Fund may be more difficult to buy and sell which may affect the Fund's value.
- Currency Risk - The Fund invests in other currencies. Changes in exchange rates will therefore affect the value of the investment.
- Counterparty Risk - The insolvency of any institution providing services such as safekeeping of assets or acting as counterparty to derivatives or other instruments may expose the Fund to financial loss.
- Sustainability Risk - an environmental, social or governance event or condition that, if it occurs, could cause an actual or a potential material negative impact on the value of the investment of the Fund.
- Please see the section entitled Risk Factors in Supplement 1 to the Prospectus for a full list of risks related to the Fund.

- The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.
- The on-going charges figure is based on the actual expenses for the year ending March 2024. The amount charged may vary year to year. It excludes performance fees and portfolio transaction costs, except in the case of entry and exit charges paid by the Fund when buying and selling shares in another fund.
- More detailed information on charges can be found in the Prospectus under "Fees and Expenses of the Fund" and in the "Fees and Expenses" section in Supplement 1.

PAST PERFORMANCE

- This chart shows the performance of this share class for the period from its launch on 03/03/2010.
- The Fund was launched in 11 September 2006 as a non-UCITS fund. It converted to a UCITS fund in 2 March 2010.
- The performance figures shown are calculated in EUR, on the basis that all distributable income has been reinvested.
- Past performance is based on the Net Asset Value (NAV) of the Fund and is not a reliable guide to future performance.
- The past performance shown here takes account of all charges and costs.
- The performance of the share class is not tracking the index in the chart.
