Transferable Securities under Luxembourg law

January 2010

Nordea 1 – Global Portfolio Fund

Investment objective

This Sub-fund aims to preserve the Shareholder's capital and to provide an adequate rate of return on the investment. This Sub-fund is further using its reference index as a tool for performance comparison purposes.

This Sub-fund invests globally and shall invest a minimum of two-thirds of its total assets (after deduction of cash) world wide in equities, other equity shares such as co-operative shares and participation certificates (equities and equity rights), dividend-right certificates, warrants on equities and equity rights.

This Sub-fund may accessorially hold liquid assets in all currencies in which investments are effected as well as in the currency of its respective share Class(es) and/or Sub-class(es).

For this Sub-fund the use of derivatives is limited to a small proportion of the Sub-fund's net assets for hedging purposes as well as for efficient portfolio management.

The investments made in this Sub-Fund may be subject to substantial fluctuations and no guarantee can be given that the value of the Shares will not fall below the value at the time of their acquisition.

The factors that may trigger such fluctuations or can influence their scale include but are not limited to:

- Company specific changes
- Changes in exchange rates
- Changes affecting economic factors such as employment, public expenditure and indebtedness, inflation
- Changes in the legal environment
- Change in investor confidence in investment type (e.g. equities versus bonds or cash), markets, countries, industries and sectors.

By diversifying investments, the investment manager endeavours to partially mitigate the negative impact of such risks on the value of the Sub- Fund.

Although the Board of Directors makes every effort to achieve the investment objectives of the Company and its Sub-funds, no guarantee can be given as to whether the investment objectives will be achieved.

Investors must read carefully the special risk considerations as described in the chapter "Special Risk Considerations" before investing in the Sub-fund.

Performance Fee will be calculated as follows: at the end of the calendar year for which Performance Fee is to be calculated, the Performance Fee for each Share will be equal to a maximum of 20% of the appreciation of the Net Asset Value per Share (net of Performance Fee) as at the end of such calendar year exceeding the all time highest end-of-year Net Asset Value per Share ("High Watermark"), in excess of the MSCI World – Net Return Index ("Hurdle Rate"). The initial Subscription price represents the first High Watermark.

Entitlement to a Performance Fee arises only when the following two conditions are met:

- the Net Asset Value per Share has exceeded the Hurdle Rate in the relevant calendar year; and
- the Net Asset Value per Share exceeds the previous all time high year-end Net Asset Value per Share.

The Hurdle Rate applied is the same as this Sub-fund's reference index.

Investors should be aware that a Performance Fee could be charged even though the Sub-fund's Net Asset Value has dropped during the measuring period. For more detailed information on this performance fee calculation, please contact the Management Company.

Other fees and expenses charged to the Sub-fund:

This Sub-fund pays a custodian fee of up to 0.1250% p.a. and an administration fee of up to 0.250% p.a., plus any VAT if applicable; in addition hereto the Sub-fund also pays the expenses as described in the chapter "Expenses borne by the Company".

Swinging Single Pricing Methodology

The Board of Directors may determine that a swinging single pricing methodology will be applied in the calculation of the daily Net Asset Value of the relevant Sub-fund, in order to compensate for the costs generated by the purchase or sale of the Sub-fund's assets caused by subscriptions and redemptions. These costs reflect both the estimated fiscal charges and dealing costs that may be incurred by the Sub-fund and the estimated bid/offer spread of the assets in which the Sub-fund invests. Further information can be found in the chapter "Net Asset Value" of the Prospectus.

Total Expense Ratio (TER)

This ratio expresses the sum of all costs and commissions charged on an ongoing basis to the Sub-fund's assets taken retrospectively as a percentage of the Sub-fund's average assets. The latest calculated TER-rate can be found in the Company's latest financial report.

First launch date

This Sub-fund will be launched on 1st February 2010.

The launch price will be EUR 10.00, or the equivalent in any freely convertible currency.

Historical performance

No information is currently available.

Performance data are based on Net Asset Value prices only and do not take account of any commissions and costs incurred with the acquisition and surrender of the Shares.

No guarantee can be given with respect to the performance of the Sub-funds or the return of capital. The past performance of a Sub-fund is no indication for the future performance of the respective Sub-fund and thus, investments in all Sub-funds should be regarded as medium to long term in nature, although the possibility of a change in an investor's personal circumstances is recognised by allowing requests to be submitted on each banking business day in Luxembourg.

As a result, Shareholders should note that any repurchase of shares by the Company will take place at a price that may be higher or lower than the original acquisition cost, depending upon the value of the assets of the relevant Sub-fund at the time of redemption.

Historic performance of share sub-classes not shown in this Simplified Prospectus can be obtained from the companies stated below.

The Taxe d'Abonnement is calculated and payable at the end of each quarter.

Taxation of the Shareholders

On 3 June 2003 the European Union agreed on the implementation of the Council Directive 2003/48/EC (the "Savings Tax Directive"). The Savings Tax Directive will apply to the whole European Union ("EU"); furthermore a number of other countries and territories have agreed to introduce rules similar to those of the EU. The Savings Tax Directive is applicable to interest income as defined in the Savings Tax Directive, when the interest income - as a main rule - is received by an individual, who is resident in the EU and holds a bank account in another country or territory that has agreed to implement the Savings Tax Directive. Further to its implementation on 1 July 2005, the Savings Tax Directive may therefore have an effect on the individual Shareholder taxation level, either as a withholding tax on (part of) the gains realised at disposal of the shares or as a withholding tax on any distributions.

At the date of issue of the Prospectus there is no Luxembourg withholding tax in general, should the Company decide to make distributions as mentioned in the chapter "Distribution Policy" of the Prospectus. However, the Savings Tax Directive, as described above, may have an effect on the distributions.

Prospective Investors should keep themselves informed of the taxes applicable to the acquisition, holding and disposal of Shares and to distributions in respect thereof under the laws of the countries of their citizenship, residence or domicile before they subscribe, convert or redeem any Shares

Price calculation and price publication

The Net Asset Value per Share is calculated on each banking business day in Luxembourg. The share prices are available daily from the Custodian, the Management Company and at the internet site of the Company. The share prices are published in the "Tageblatt" in Luxembourg and may also be published in a daily newspaper in those countries where the Company has obtained a public marketing authorisation.
