

Simplified Prospectus Nordea 1, SICAV

Undertaking for Collective Investments in
Transferable Securities under Luxembourg law

January 2010

Nordea 1 –US Corporate Bond Fund

Investment objective

This Sub-fund aims to preserve the Shareholder's capital and to provide a return exceeding the average return of the US corporate bond market. The Sub-fund is further using its reference index as a tool for performance comparison purposes.

Eligible assets, investment policy and risk profile

This Sub-fund shall invest a minimum of two-thirds of its total assets (after deduction of cash) in corporate bonds with fixed coupon or fixed and contingent coupon or variable coupon. The Sub-fund shall focus on corporate bonds issued by companies which are domiciled or exercise the predominant part of their economic activity in the United States of America.

This Sub-fund may invest up to one-third of its total assets in bonds (including, but not limited to, government bonds), mortgage-backed securities, asset-backed securities, warrants on bonds and other debt instruments such as money market instruments denominated in various currencies and issued by worldwide borrowers as well as in equities, other equity shares such as co-operative shares and participation certificates (equities and equity rights), dividend-right certificates, warrants on equities and equity rights. However,

- (i) a maximum of 25 percent of the total assets of this Sub-Fund may be invested in convertible bonds and other equity-linked debt securities;
- (ii) a maximum of one third of the total assets of this Sub-fund may be invested in money market instruments;
- (iii) a maximum of 10 percent of the total assets of this Sub-Fund may be invested in equity securities;
- (iv) a maximum of 20 percent of the net assets of this Sub-fund may be invested in a total combination of mortgage-backed securities and asset-backed securities.

Within the above-mentioned risk-profile and the Company's general investment restrictions this Sub-fund is exposed to interest and credit risk via exposure to the US and non-US corporate bond market.

This Sub-fund may accessorially hold liquid assets in all currencies in which investments are effected, as well as in the currency of its respective Class(es) and/or Sub-class(es).

In order to achieve its investment objective, the Sub-fund may enter into derivative contracts, whose underlying assets consist mainly of, but are not limited to, securities belonging to the corporate bond market. The derivatives used will include, but will not be limited to, credit default swaps, total return swaps, interest rate derivatives and currency derivatives. The total exposure to markets deriving from these derivatives contracts may not exceed 100% of the Net Asset Value of the Sub-fund.

This Sub-fund is entitled to invest up to 100% of its net assets in Rule 144a Securities ("Rule 144a Securities") under the conditions that:

- the attached registration right provides for an exchange into equivalent debt securities or into equity shares within a period of one year after the acquisition of such Rule 144a Securities by the Sub-fund;
- such equivalent debt securities or such equity shares, obtained through exchange, are either admitted to official listing on a Regulated Market or are dealt in on an Other Regulated Market which operates regularly and is recognised and open to the public;
- such securities are negotiated before and after their exchange on a Regulated Market and/or on an Other Regulated Market;
- such securities respect Point 17 of "CESR's Guidelines concerning eligible assets for investment by UCITS", dated March 2007.

Investment in Rule 144a Securities, which would not comply with any of the above conditions, shall, together with the transferable securities eligible under section B(1) of the chapter "Investment Restrictions" of the Prospectus, not exceed 10% of the Sub-fund's net asset value.

The Sub-fund is entitled to invest in bonds that are subject to Regulation S ("Regulation S Securities") in line with the general conditions for bonds and in line with Article 41.1 of the law of 20 December 2002 on undertakings for collective investment, as amended.

The investments made in this Sub-Fund may be subject to fluctuations and no guarantee can be given that the value of the Shares will not fall below the value at the time of their acquisition.

The factors that may trigger such fluctuations or can influence their scale include but are not limited to:

- Company-specific changes
- Changes in interest rates
- Changes in exchange rates
- Changes affecting economic factors such as employment, public expenditure and indebtedness, inflation
- Changes in the legal environment
- Change in investor confidence in investment type (e.g. bonds versus equities or cash).

By diversifying investments, the investment manager endeavours to partially mitigate the negative impact of such risks on the value of the individual Sub-Funds.

Although the Board of Directors makes every effort to achieve the investment objectives of the Company and its Sub-funds, no guarantee can be given as to whether the investment objectives will be achieved.

Investors must read carefully the special risk considerations as described in the chapter “Special Risk Considerations” before investing in the Sub-fund. Special attention must be drawn to the risks associated with investment in corporate debt securities, Rule 144a Securities, credit default transactions and transactions in warrants, options, futures and swaps.

Historical performance

No information is currently available.

Performance data are based on Net Asset Value prices only and do not take account of any commissions and costs incurred with the acquisition and surrender of the Shares.

No guarantee can be given with respect to the performance of the Sub-funds or the return of capital. The past performance of a Sub-fund is no indication for the future performance of the respective Sub-fund and thus, investments in all Sub-funds should be regarded as medium to long term in nature, although the possibility of a change in an investor's personal circumstances is recognised by allowing requests to be submitted on each banking business day in Luxembourg.

As a result, Shareholders should note that any repurchase of shares by the Company will take place at a price that may be higher or lower than the original acquisition cost, depending upon the value of the assets of the relevant Sub-fund at the time of redemption.

Historical performance of share Sub-classes not shown in this Simplified Prospectus can be obtained from the companies stated below.

Distribution policy

Only accumulating Shares are currently offered for subscription; no dividend is paid and all income is automatically reinvested and reflected in the Share price.

Taxation of the Company

Under Luxembourg law, there are currently no Luxembourg income, withholding or capital gains taxes payable by the Company. The Company is, however, subject to (i) an annual subscription tax (Taxe d'Abonnement) of 0.05% on the aggregate Net Asset Value of the outstanding Private Shares of the Company, and (ii) an annual subscription tax (Taxe d'Abonnement) of 0.01% on the aggregate Net Asset Value of the outstanding Institutional Shares and the X-Shares of the Company. The Taxe d'Abonnement is calculated and payable at the end of each quarter.

Taxation of the Shareholders

On 3 June 2003 the European Union agreed on the implementation of the Council Directive 2003/48/EC (the "Savings Tax Directive"). The Savings Tax Directive will apply to the whole European Union ("EU"); furthermore a number of other countries and territories have agreed to introduce rules similar to those of the EU. The Savings Tax Directive is applicable to interest income as defined in the Savings Tax Directive, when the interest income - as a main rule - is received by an individual, who is resident in the EU and holds a bank account in another country or territory that has agreed to implement the Savings Tax Directive. Further to its implementation on 1 July 2005, the Savings Tax Directive may therefore have an effect on the individual Shareholder taxation level, either as a withholding tax on (part of) the gains realised at disposal of the shares or as a withholding tax on any distributions.

At the date of issue of the Prospectus there is no Luxembourg withholding tax in general, should the Company decide to make distributions as mentioned in the chapter "Distribution Policy" of the Prospectus. However, the Savings Tax Directive, as described above, may have an effect on the distributions.

Prospective Investors should keep themselves informed of the taxes applicable to the acquisition, holding and disposal of Shares and to distributions in respect thereof under the laws of the countries of their citizenship, residence or domicile before they subscribe, convert or redeem any Shares

Price calculation and price publication

The Net Asset Value per Share is calculated on each banking business day in Luxembourg. The share prices are available daily from the Custodian, the Management Company and at the internet site of the Company. The share prices are published in the "Tageblatt" in Luxembourg and may also be published in a daily newspaper in those countries where the Company has obtained a public marketing authorisation.

Italian Paying Agent Mandate

Non-Institutional Investors resident in Italy shall have the possibility to grant a mandate to a Paying Agent in Italy (as per chapter "Representatives & Paying Agents outside Luxembourg) to

- i) submit the Subscription, Conversion and Redemption requests, grouped by Sub-fund and distributor, to the Company;
- ii) ask for registration of Shares, in its own name on behalf of a third party, in the Shareholder register of the Company;
- iii) perform all services relating to the exercise of the rights of Shareholders.

For further details on such mandates, non-Institutional Investors resident in Italy are invited to read the subscription form available at local level.
