You are advised to read it so you can make an informed decision about whether to invest.

# Sustainable Euro High Yield Portfolio

a sub-fund of AB SICAV I

Class I Shares (ISIN: LU0496388686)

This Fund is managed by AllianceBernstein (Luxembourg) S.à r.l., part of the AB Group.

## Objectives and investment policy

### Investment objective

The Portfolio seeks to increase the value of your investment over time through total return, using a combination of income and capital growth through sustainable investments.

### Investment policy

Under normal market conditions, the Portfolio typically invests at least 80% of its assets in debt securities, including sovereign debt, of issuers that the Investment Manager believes are positively aligned with sustainable investment themes and at least 70% of its assets in debt securities that are rated below Investment Grade.

These securities are from issuers that are organised, have substantial business activities, or are impacted by developments, in Europe. These securities may be from issuers anywhere in the world, including emerging market countries.

The Investment Manager invests in securities that it believes are positively exposed to environmentally- or socially-oriented sustainable investment themes derived from the UN Sustainable Development Goals (UN SDGs).

The Portfolio may invest in, or be exposed up to (i) 20% in emerging market sovereign debt securities, (ii) 20% in structured products such as asset-backed and mortgage-backed securities and (iii) 10% in contingent convertible bonds (CoCos).

The Investment Manager emphasises positive selection criteria, in particular by analysing the exposure to environmental, social and governance (ESG) factors of each security or issuer, over broad-based negative screens in assessing an issuer's exposure to such ESG factors.

The Portfolio's exposure to ESG bond structures is at least 15%.

The Portfolio's exposure to EUR is at least 90%. The Portfolio uses derivatives for hedging (reducing risks), efficient portfolio management and other investment purposes.

### Responsible Investing

The Portfolio is classified as Article 9 under SFDR. For more information, please refer to SFDR Pre-Contractual Disclosures in the prospectus.

### Benchmark

Bloomberg Euro High Yield 2% Issuer Constrained Index used for performance comparison.

The Portfolio is actively managed and the Investment Manager is not constrained by its benchmark. Please see the Fund's prospectus for more information.

### Terms to understand

**Asset-backed securities:** Debt securities representing an interest in a pool of consumer debt, such as credit card debt or automobile loans.

**Below Investment Grade Securities:** Debt securities rated below Investment Grade that may be higher-yielding but riskier debt securities.

**Contingent convertible bonds ("CoCos"):** CoCos are a type of contingent security issued by global financial institutions. CoCos are usually subordinated and convert to the issuer's equity and/or have a write-down following the occurrence of a pre-determined event.

**Debt securities:** Securities that represent the obligation to pay a debt, with interest.

**Derivatives:** Financial instruments whose value is linked to one or more rates, indices, share prices or other values.

**Emerging market countries:** Nations whose economies and securities markets are less established.

**ESG bond structures:** Debt issued by both corporate and sovereign issuers that is designed to encourage sustainability.

**Investment Grade Securities:** Debt securities rated at or above BBB-/ Baa3.

**Mortgage-backed securities:** Debt securities representing an interest in a pool of mortgages.

**Other investment purposes:** In line with the Portfolio's investment objective and policy, means to gain exposure and/or to manage duration.

**SFDR:** Regulation (EU) 2019/2088 of the European Parliament and of the Council of 27 November 2019 on SFDR Pre-Contractual Disclosures in the financial services sector.

**Sustainable investment themes:** Those investment themes that are derived from the UN SDGs such as Health, Climate, and Empowerment and Institutions for sovereign debt. Sustainable investment themes may change over time.

**UN Sustainable Development Goals ("UN SDGs"):** A set of 17 goals that represent the United Nations' aspirational view of how the world could look like by 2030. The 17 goals address economic prosperity, environmental sustainability and social inclusion.

## Risk And Reward Profile

### Lower risk

Potentially lower reward

### Higher risk

Potentially higher reward

### What does this risk indicator mean?

This synthetic risk and reward indicator (SRRRI) scale rating indicates how the Portfolio may perform and the risk of losing some or all of your capital. Generally the potential for higher gains also means a larger risk of losses. The lowest category does not mean a risk free investment.

The above rating is an estimate, not a guarantee. It is calculated using industry-standard methods and is based on medium-term volatility (how sharply the Portfolio's actual or estimated share price has gone up and down over five years).

Historical data may not be a reliable indication of the future risk profile of this Portfolio. The risk and reward category for this Portfolio is not guaranteed to remain unchanged and may shift over time.

### Why is this Portfolio in this category?

The Portfolio is not guaranteed in capital. The Portfolio is invested in debt securities that are subject to variations up or down and that can generate gains or losses.

### Risks materially relevant to the Portfolio but not adequately captured by the SRRRI:

The rating does not reflect the possible effects of unusual market conditions or large unpredictable events, which could amplify everyday risks and could trigger other risks, such as:

**Counterparty risk:** If an entity with which the Portfolio does business becomes insolvent, payments owed to the Portfolio could be delayed, reduced and/or eliminated.

**Liquidity risk:** Certain securities could become hard to buy or to sell at a desired time or price.

## Charges

The charges you pay are used to pay the cost of running the Portfolio, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

### One-off charges taken before or after you invest

Entry charge 1.50%

Exit charge None

This is the maximum that might be taken out of your money before it is invested/ before the proceeds of your investment are paid out.

### Charges taken from the Portfolio over a year

Ongoing Charge 0.80%

### Charges taken from the Portfolio under certain specific conditions

Performance fee None

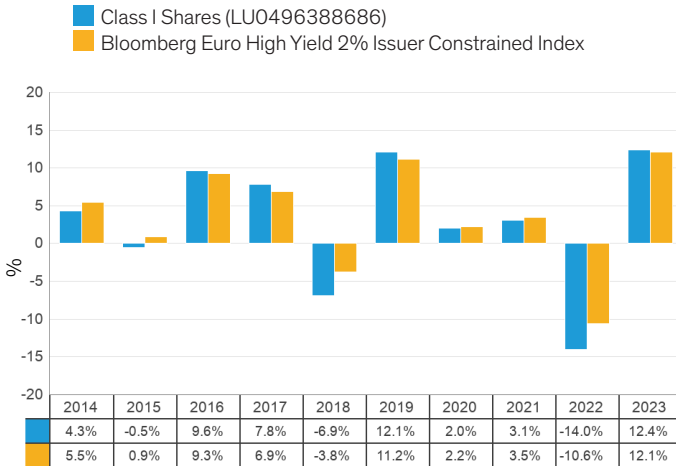

The entry and exit charges shown are maximum figures. In some cases, you might pay less – you can find this out from your financial advisor.

The ongoing charges figure is based on expenses for the year ending December 2023. This figure may vary from year to year. It excludes:

- Portfolio transaction costs, except in the case of an entry/exit charge paid by the Portfolio when buying or selling units in an other collective investment undertaking.

For more information about charges, please refer to the Fund's prospectus which is available at [www.alliancebernstein.com](http://www.alliancebernstein.com)

## Past Performance

Please be aware that past performance is not a reliable indicator of future results.

The past performance is shown after deduction of ongoing charges. Any entry/exit fees are excluded from the calculation.

The Portfolio was launched on 15/03/2010.

The share class of the Portfolio was launched on 15/03/2010.

Performance is shown only where full calendar-year performance history is available.

Past performance has been calculated in EUR and is expressed as a percentage change of the Portfolio's net asset value at each year end.
