# Notes to the Financial Statements

## Accounting Policies

### Basis of Accounting

The financial statements are prepared in accordance with the Luxembourg regulations relating to Undertakings for Collective Investment. The liquidation accounts of the subfunds Allianz Global Smaller Companies, Allianz Dynamic Risk Parity, Allianz Best Styles Euroland Equity Risk Control and Allianz Emerging Markets Local Currency Bond have been prepared on a non-going concern basis.

Because of the current and ever-evolving circumstances associated with the Ukraine / Russia situation, the current political situation and liquidity constraints caused by the ongoing closure of the Moscow stock exchange for international investors and various sanctions imposed on the financial markets, it is currently not possible to perform a

proper valuation of the assets of Allianz Emerging Europe Equity. Consequently, and after careful consideration, the Board of Directors came to the conclusion that it is in the best interest of the shareholders to temporarily suspend the calculation of the net asset value and subsequently the dealing of shares.

The Board of Directors of the Company decided to temporarily suspend the calculation of the Net Asset Value of the Fund with effect from 28 February 2022. This decision was taken on 1st of March and the calculation of the NAV is still suspended as of 31 March 2023.

## Valuation of Assets

Assets that are officially listed on a stock exchange are valued at the latest available price paid at valuation point.

Assets that are not officially listed on a stock exchange, but are traded on a regulated market or on other organised markets, are also valued at the latest available price paid, provided that, at the time of valuation, the Management Company considers that price to be the best possible price at which the assets can be sold.

Assets whose trade prices are not fair market prices, as well as all other assets, are valued at the probable realisation value. At its discretion, the Management Company may authorise other valuation methods if, in its consideration, such other methods better represent the fair value of the assets.

Financial futures transactions relating to currencies, securities, financial indices, interest rates and other permissible financial instruments and options thereon and corresponding warrants are, if they are listed on a stock exchange, valued at the most recent prices on the stock exchange in question. If there is no stock market listing, in particular for all OTC transactions, the valuation shall be made based on the likely realisable value.

Interest-rate swaps are valued at their market value in relation to the applicable interest rate curve. Swaps tied to indices and to financial instruments are valued at their market value, which is determined by reference to the index concerned or the financial instrument concerned.

Shares in UCITS or UCIs are valued at the latest determined and obtainable redemption price.

Cash and time deposits are valued at their nominal value plus accrued interest.

Assets not denominated in the base currency of the Subfund (hereinafter called the "base currency of the Fund") are converted into the base currency of the Subfund at the most current middle-market rate of exchange.

## Securities Prices

In accordance with the Prospectus, the net asset values have been calculated by reference to the valuation day which might differ from their value on a dealing day.

The financial statements presented in this report have been prepared on the basis of the latest calculated net asset values in the period.

## Income recognition

Interest income is accrued daily. Bank interest income is recognised on an accrual basis. Dividend income is accrued on the ex-dividend date. This income is shown net of any withholding taxes.

### All-in-Fee

The Company pays all costs to be borne by the respective Subfund from the assets of that Subfund:

The Company pays a fee ("All-in-Fee") to the Management Company from the assets of the respective Subfund, unless this fee is charged directly to the Shareholder under the terms of a particular Share Class.

Fees for the Investment Managers used by the Management Company are paid by the Management Company from its All-in-Fee and, if applicable, from its performance related fee.

Provided that it is not charged directly to the Shareholder under the terms of a particular Share Class, the All-in-Fee is charged monthly in arrears on a pro rata basis on the average daily Net Asset Value of the respective Share Class of a Subfund. The amount of the All-in-Fee charged is listed thereafter.

In return for the payment of the All-in-Fee the Management Company releases the Company from the following, conclusive enumerated commissions and expenditures:

- management and central administration agent fees;
- distribution fees;
- the administration and custody fee of the Depositary;
- the fee of the Registrar and Transfer Agent;
- costs of the preparation (including translation) and dissemination of the Prospectus, Key Investor Information, Articles of Incorporation as well as annual, semi-annual and, if any, interim reports and other reports and notifications to Shareholders;
- costs of publishing the Prospectus, Key Investor Information, Articles of Incorporation, annual, semi-annual and, if any, interim reports, other reports and notifications to Shareholders, tax information, as well as Subscription and Redemption Prices, and official announcements made to the Shareholders;
- costs of auditing the Company and its Sub-Funds by the auditor;

RMB or Chinese Renminbi refers to the official currency of the People's Republic of China. Unless the context otherwise requires, the term RMB refers to offshore Chinese Renminbi ("CNH") and not to onshore Chinese Renminbi ("CNY"). CNH represents the exchange rate of Chinese Renminbi that is traded offshore in Hong Kong or markets outside the People's Republic of China.

- costs of registering the Shares for public distribution and/or the maintenance of such registration;
- costs of preparing share certificates and, if any, coupons and coupon renewals;
- paying agent and information agent fees;
- costs of assessing the Sub-Funds by nationally and internationally recognised rating agencies;
- expenses in connection with the establishment of a Sub-Fund;
- costs related to the use of index names, in particular licence fees;
- costs and fees incurred by the Company and by third parties authorised by the Company relating to the acquisition, use and maintenance of in-house or third-party computer systems used by Investment Managers and Investment Advisors;
- costs related to obtaining and maintaining a status authorising the direct investment in assets in a country or to act directly as a contracting partner in markets in a country;
- costs and expenses incurred by the Company, the Depositary and third parties authorised by the Company or the Depositary in connection with monitoring of investment limits and restrictions;
- costs for calculating the risk and performance figures and the calculation of performance-related fees for the Management Company by third parties appointed to do so;
- costs related to obtaining information about general Shareholders' meetings of companies or about other meetings of the owners of assets as well as costs related to direct participation or participation through authorised third parties in such meetings;
- postage, telephone, fax and telex fees.

## Performance Fee

The Management Company may charge a performance-related fee to Subfund assets for selected Subfunds for their

management, provided that this fee is not charged directly to the shareholder in the framework of a special share class. The performance-related fee will be calculated in accordance with the method described in the current sales prospectus.

Name of the Subfund	Class	Performance Fee	Performance Fee of NAV in %
Allianz Credit Opportunities	IT13 (H2-USD)	0.21	0.00
Allianz Credit Opportunities Plus	P24 (EUR)	362.75	0.52
Allianz Multi Asset Long / Short	IT14 (H2-JPY)	749,078.13	1.78
	P14 (H2-EUR)	3,816.38	1.80

## Retrocession of Management Fees

The investment management fees of certain underlying funds, in which some Subfunds invest, are partially or totally rebated by the investment managers of such underlying funds which have entered into agreements with Allianz Global Investors GmbH. Those amounts have been classified under caption other Income.

If a Subfund acquires shares of a UCITS or UCI which is directly or indirectly managed by the same investment manager or by another investment manager with which the Company is linked by common management or control, or by a substantial direct or indirect participation according to Part I of the Luxembourg Law of 17 December 2010 on Undertakings for Collective Investment then neither the Company nor the associated investment manager may charge fees for the subscription or redemption of units. In the case of the previous sentence, the Company will also reduce its share of the All-in-Fee for the part of units in such linked UCITS or UCI by the respective actual calculated fixed management fee of the UCITS or UCI acquired. If a Sub-Fund invests a substantial portion of its assets in other UCITS and/or other UCI as defined above, a management fee at the level of such UCITS or UCI (excluding any performance fee, if any) of no more than 2.50% per annum of their net asset value may be charged. However, a decrease does not occur with respect to such linked UCITS or UCI as far as a reimbursement of this actually calculated fixed management fee is made in favour of the respective Subfund.

## Placement Fees

The Company may pay to the Management Company a placement fee ("Placement Fee") out of the assets of a Sub-

Fund. The amount of the Placement Fee charged, if any, is in the sales prospectus.

The Placement Fee is determined as a fixed amount per Share which shall in particular serve as a compensation for the distribution. The Placement Fees is paid in a single instalment on the first Valuation Day after the expiry of the subscription period ("Payment Date") and at the same time added to the Sub-Fund's assets as prepaid expenses. The Net Asset Value on the Payment Date is therefore not impacted by the Placement Fee. The Sub-Fund's position of pre-paid expenses is then amortized over a defined number of years ("Amortization Period") on a daily basis from the Payment Date. The remaining position of prepaid-expenses per Share on each Valuation Day is calculated by linearly decreasing the fix amount per Share over the Amortization Period on a daily basis. After expiration of the Amortization Period the remaining position of prepaid expenses per Share is zero by definition.

## Fair Value Pricing

A fair value pricing model is used for several Subfunds. A fair value pricing model means that the value of certain assets will be adjusted to more accurately reflect their fair value based upon certain criteria. Such adjustments may occur during monitoring periods as defined by the Board of Directors from time to time, if a single country equity risk exposure (excluding equity exposure held via target funds) of a Subfund reaches or exceeds a certain trigger level, as defined by the Board of Directors from time to time, on the first Valuation Day of the respective monitoring period and, at the respective Subfund's deadline for receipt of applications, the main stock exchange of the respective country is already closed during normal course of business. If the aforementioned conditions are

fulfilled the value of Subfund's assets which form part of the respective single country equity risk exposure based on the closing prices of the relevant country's main stock exchange is compared to their estimated value at the moment when the Subfund's Net Asset Value is calculated; the estimation is based on the movement of index orientated instruments since the close of business of the respective country's main stock exchange. If such comparison leads to a deviation in Subfunds estimated Net Asset Value by, at least, a certain trigger level, as defined by the Board of Directors from time to time, the Subfund's Net Asset Value will be adjusted accordingly to the extent that the unadjusted value would not represent their actual value.

g) Information on Performance Fee (as transaction to the Management Company) are set out under "Performance Fee" on page 1520 and "Ongoing Charges" on page 1536.

## Collateral Management

For some Subfunds, the Management Company has implemented collateral management processes to mitigate counterparty risks with OTC-counterparties. OTC-transactions are effected on the basis of standardised contracts that also provide for respective requirements in relation to accepted type of eligible collateral and discounts for collateral valuation ("haircuts"). The collateral management is performed on behalf of the management company by SST/BNYM collateral manager to which we outsourced the activity.

## Swing pricing

A Subfund may suffer reduction of the Net Asset Value per share due to investors purchasing, selling and/or switching in and out of shares of a Subfund at a price that does not reflect the dealing costs associated with this Subfund's portfolio trades undertaken by the Investment Manager to accommodate cash inflows or outflows. In order to reduce this impact and to protect shareholders' interests, a swing pricing mechanism may be adopted by the Company as part of the general valuation policy. According to the prospectus swing pricing is foreseen for the following funds: Allianz Convertible Bond, Allianz Dynamic Asian High Yield Bond, Allianz Emerging Markets Local Currency Bond, Allianz Emerging Markets Select Bond, Allianz Emerging Markets Short Duration Bond, Allianz Emerging Markets Sovereign Bond, Allianz Emerging Markets SRI Bond, Allianz Emerging Markets SRI Corporate Bond, Allianz Euro Credit Risk Control, Allianz Euro Credit SRI, Allianz Euro Government Bond, Allianz Euro High Yield Bond, Allianz Euro High Yield Defensive, Allianz Euro Subordinated Financials, Allianz Europe Income and Growth, Allianz Flexi Asia Bond, Allianz German Small and Micro Cap, Allianz Global Aggregate Bond, Allianz Global Credit SRI, Allianz Global Financials, Allianz Global Floating Rate Notes Plus, Allianz Global Government Bond, Allianz Global High Yield, Allianz Global Multi-Asset Credit, Allianz Global Opportunistic Bond, Allianz Green Bond, Allianz Indonesia Equity, Allianz Oriental Income, Allianz SDG Euro Credit, Allianz Selective Global High Income, Allianz SGD Income, Allianz Short Duration Global Bond SRI, Allianz Short Duration Global Real Estate Bond, Allianz Strategic Bond, Allianz Target Maturity Euro Bond I, Allianz Thailand Equity, Allianz US High Yield, Allianz US Investment Grade Credit, Allianz US Short Duration High Income Bond. The extent of such adjustment will be reset by the Company on a periodic basis to reflect an

approximation of current dealing and other costs. Such price adjustment may vary from Subfund to Subfund and will not exceed 3% of the original Net Asset Value per share. The price adjustment will be available on request from the Management Company at (i) its registered office and/or (ii) on the webpage <https://regulatory.allianzgi.com>. Please note that a partial swing pricing is applied. As at 31 March 2023 none of the NAVs of the above mentioned Subfunds was swung.

## TBA (to be announced) Securities

TBA positions refer to the common trading practice in the mortgage-backed securities market in which a commitment to buy or sell a mortgage backed security (issued by Ginnie Mae, Fannie Mae or Freddie Mac) for a fixed future price at a future date is given. At the time of purchase of a TBA, the exact underlying pool of mortgages that is to be delivered is not known, but the main characteristics are specified. Such transactions are entered into with financial institutions specialised in such transactions.

Although the Subfund may enter into TBA purchase commitments with the intention of acquiring securities, the Subfund may also close a position prior to settlement by entering into an opposite transaction in order to fix the economical result of the initial transaction.

In the period under review the Subfunds entered into TBA transactions which are presented in the Statement of Net Assets within the unrealized gain/loss.

As at 31 March 2023, regarding the remaining cash balances, the following balances were still held by closed sub-funds in the form of cash at bank as follows:

Name of the Subfund	Currency	Remaining Cash

On request, the recipients of retrocessions must disclose the amounts they actually receive for distributing the collective investment schemes of the investors concerned.

### Rebates:

In the case of distribution activity in or from Switzerland, the Management Company and its agents may, upon request, pay rebates directly to investors. The purpose of rebates is to reduce the fees or costs incurred by the investor in question.

- they are granted on the basis of objective criteria;

- all investors who meet the objective criteria and demand rebates are also granted these within the same timeframe and to the same extent.

The objective criteria for the granting of rebates by the Management Company are:

- the amount of the fees generated by the investor;

- the investment behaviour shown by the investor (e.g. expected investment period);

- the investor's willingness to provide support in the launch phase of a collective investment scheme.

At the request of the investor, the Management Company must disclose the amounts of such rebates free of charge.

##### **5. Place of Performance and Jurisdiction**

Both the place of performance and the place of jurisdiction for Shares in the Company's Sub-Funds offered or distributed or from Switzerland shall be the seat of the Swiss representative.

## Ongoing charges

The Ongoing Charges are costs incurred by the Subfunds (or the respective Share Classes) during the preceding financial year (excluding transaction costs) and are expressed as a ratio of the average volume of the Subfunds (or of the average volume of the respective Share Classes) ("Ongoing Charges"). In addition to the All-in-Fee as well as the Taxe d'Abonnement, all other costs are considered except for the incurred transaction costs and any performance-related fees. Costs incurred will not be subject to cost compensation. If a Subfund invests more than 10 % of its assets in other UCITS or UCI that publish Ongoing Charges, the Ongoing Charges of these other UCITS or UCI are taken into consideration when calculating Ongoing Charges for the Subfund (synthetic); however, if these UCITS or UCI do not publish their own Ongoing Charges, then it is not possible to take the Ongoing Charges of the other

UCITS or UCI into consideration when calculating Ongoing Charges.

If a Swiss registered Subfund invests more than 10 % of its assets in other UCITS or UCI that publish Ongoing Charges, the Ongoing Charges of these other UCITS or UCI are taken into consideration when calculating Ongoing Charges for the Subfund (synthetic); however, if these UCITS or UCI do not publish their own Ongoing Charges, then it is not possible to take the Ongoing Charges of the other UCITS or UCI into consideration when calculating Ongoing Charges. If such a Subfund does not invest more than 10 % of its assets in other UCITS or UCI, any costs that may be incurred at the level of these UCITS or UCI are not taken into consideration. These Ongoing Charges have been calculated in accordance with the guidelines issued by the Asset Management Association Switzerland (AMAS).
