# Morgan Stanley Investment Funds Global Property Fund

31 March 2014

#### **INVESTMENT OBJECTIVE**

Seeks to provide long term capital appreciation, measured in US dollars, primarily through investment in the equity securities of companies in the real estate industry located throughout the world.

#### **INVESTMENT PROCESS**

- The Fund is actively managed as three regional separate accounts based upon our long-term, value-oriented, bottom-up driven investment strategy, which utilizes internal proprietary research to invest in public real estate companies that we believe offer the best value relative to their underlying assets and growth prospects.
- A top-down global allocation seeks diversified exposure to all major asset classes with an
  overweighting to property markets that offer the best relative valuation.
- The bottom up security selection process employs a value driven approach, which focuses on underlying asset values, values per square foot and property yields.
